

## Daylighting Design Specialist

**Horton Lees Brogden** Lighting Design (HLB) is an internationally recognized design firm focused on integrated architectural lighting and daylighting. We are inspired by the artistry of light and its impact on the natural and architectural environment. We infuse our core values of artistry, legacy, curiosity, balance, and integrity into every project. We look for individuals who are inspired by our values, who seek to learn and in turn teach others, who respect, value and promote the integrity of our work, who care about the impact we make in people's lives, and who are responsive to our ever-changing world.

### Description

The Daylighting Specialist combines design leadership, integrated design of electric lighting, daylighting and controls, as well as mentorship and management of 2 or more team members. This position would include leadership within HLB's Daylighting and Sustainable Design Studio. Preferred location in Los Angeles office, but will consider placement in HLB's NYC, Miami or Boston offices.

### Daylighting Leadership Responsibilities

- Provide expert consulting and participate in charrettes for high-performance, integrated projects involving daylighting and electric lighting, in one or multiple offices.
- Direct project design teams on daylighting analysis approach, oversight and review of reports and recommendations.
- Mentor and monitor HLB designers in design and analysis of daylighting, and specification of lighting controls.
- Participate in marketing efforts to increase daylighting services in base office and firm-wide. Prepare proposals or riders related to daylighting services.
- Champion daylighting design inside and outside firm. Participate in professional development and outreach through committees and public speaking to keep HLB in the forefront of daylighting design leadership.
- Lead / manage specific design projects within base office that integrates electric, daylight, and/or lighting controls.

### Skill Set

- Excellent leadership and organizational skills
- Design expertise in daylighting, electric lighting and lighting controls.
- Proven technical skills in daylighting analysis
- Oral and written skills.
- Excellent client skills – proven ability to inspire confidence and influence client thinking
- Computer programs: Rhino, Diva, Ecotect, Radiance, Daysim, AGI, AutoCAD, Revit, Excel, Word, Power Point, Adobe Suite including Acrobat, Photoshop and InDesign.

### Education

Bachelor's degree or above in Lighting Design or Architectural Engineering or Architecture (or Interior Design or Theatrical Lighting or related education and experience).

### Contact Information

Interested candidates should email their cover letter, resume, three (3) professional and personal references, and salary requirements to Hayden McKay, [hmckay@hlblighting.com](mailto:hmckay@hlblighting.com).
