HARD NEWS

R: talked to **Tom the Cat via text:** WASHINGTON IS IN AN UPROAR OVER THE TPP VOTE!

T: BO does not want this to pass, and he is making himself look like a fool! But it's working!

- They have 302 to 126 so it did not pass. It was the TAA they voted on, not the TPP
- TPP is in 12 countries
- **Dominique Strauss Kahn** got off; the Illuminati family members got him off, because if he squeals he brings everyone down
 - Bernie Madoff is in a comfy place, sitting on ice: knows where the bodies, money is
- the **market fell** 140 points today: a big thing.
- 123 people of colour killed by cops in Baltimore alone; 42 in May alone, most in decades.
 - **Kevin Jones** was murdered in a race track parking lot where he was working with his best friend Peter; Peter was one of the ones cleaning up Baltimore after the riots in the streets when Freddie Gray was murdered by the police;
 - There were 2 policemen on bikes and they beat the heaven out of him before the other cops arrived: damage already done. Story being concocted to make it easier for the cops to try and get off.
 - O'Malley wants to run for pres.
- **The Fast Track:** TPP in 12 countries around the Pacific Rim of Fire; 4 continents are involved: being negotiated entirely in secret; what is known comes from leaks –
 - would give big pharmaceuticals virtual monopoly patent power; allow corporations to sue people in their own international kangaroo courts over regulations made by countries that they don't like – can sue the country and get what they want, as they have 5 judges set up
 - would gut the environmental and financial status of countries who try to be in balance
 - This is **only 1 of 3 job-killing, regulation-gutting trade deals** being worked on by Obama Administration
 - Trans Atlantic Trade and Investment Partnership [**T TIP**] – carves up Europe
 - and **TISA** [Trade in Services Agreement] which covers the service sector in the EU and 23 other countries
 - TPP has gotten most of the press in the US; the other 2 are just as bad if not worse
- Got this on June 4th – On Wed, June 3, **Wikileaks released 17 secret documents** from the draft version of the TISA and showed its cousin, the TISA that it would gut regulations and push for the privatization of public services around entire planet
 - they were voting on TAA today too: **Trade Adjustment Assistance** – supposed to help the millions of people who lose their jobs when the TTP goes into effect – only a pittance!
 - This is what lost today
- the **Trans Pacific Authority** which is the fast track actually won but this cancelled that, so it did not pass. Will try it again next week.
- IMPORTANT TO KNOW THAT WE THE PEOPLE CAN INTERVENE: critical that we do our part
 - Call the White House – Look up the number!
 - Thinks they won't get away with this, as people are becoming more and more aware
- If you think the above was bad, here's what's going on in Israel.

Reading: Criminalizing Criticism: A Zionist Project

- Sheldon Adelson owns Israel – just so we know!

[SEE BELOW]

- TTP is like Nafta, and NAFTA did not work
 - EXPLAINS how Obama and Pelosi are working as double agents.

CONFERENCE CALL 1-209-647-1200; PIN 353 863#

White House 202-456-1111 – call and ask for your particular congress person 202-224 -4225
Can go to Alan Grayson's website and learn lots; also will find the phone #
TAA = Trade Adjustment Assistance – Republicans came up with this concept

- There is a war going on between the Koch Bros and the RNC
 - Koch Bros have a program called ??? which is better than the RNC's

John Nichols: the more we realize and think about it, we can see that Obama does not believe it:

• if the TAA does not pass, then the rest cannot pass

Caller: wonders why the Republican leadership has not figured out what Obama is doing

- they are scared out of their f-ing minds; they are so terrified – if this were to happen, they'd be torn limb to limb -
- brings up Nassim and one thing he said: they are not listening to Nassim H and do not
 - things are changing on a much larger scale and there is no way in heaven or earth that these ones can pull anything off as they work against nature and nature's god; also, a good number of them are holograms, clones or programmed.
- The evolution in the last 5-6 months of Thom Hartmann's program is phenomenal; listeners even call Thom out on things he cannot speak about
- Last night, Chris Hayes was denying chemtrails all over the place – the information is so out there that they are forcing someone on MSNBC to talk / deny it
 - we need to do ho'o pono pono – there is no way that anyone has been raised in a general sense of awareness

Caller: what happened with Chris Matthews?

- Chris Matthews' overlords are M I 6, the queen and all her people.

Caller: has noticed Thom Hartmann getting a lot braver these last few months

- there's little war going on in Texas – the people that know this is a crime: he got away with something horrendous: racism in a big way and he's trying to get out of it by saying he had 2 suicides before he arrived on scene; he also pulled a gun on unarmed children –
 - the chief of police was saying what the cop did was not in alignment with police principles; it was put out they were going to fire him so he just quit -
- A young black man got killed at a race track – was going to study engineering
 - T saw people gunned down like this on the south side of Chicago
- The energies will be way higher after the changes
 - someone talked to Tara today about their blood types – what is the meaning of Rhneg?
- there is one blood type of AB negative + RH negative – means you are pure ET and bypassed the experimentation that went on with us; it usually means you are taking on global karma and your own personal karma is pretty much cleaned up – means you have the qualities
 - there are only .04% of the population that is that kind of blood type
 - A, AB, A+, A- O- 15 % - still kind of rare
- Rama took on Jehovah in the form of his mother in this lifetime
- Mother, Michael, Metatron, Maitraya – the 4 Muskateers; they are key as each one holds

something –

- **Lord Metatron** holds the etheric blueprint for all life on the planet: he took all the sub-atomic particles of Rama and put him back together again! Jehovah is the shadow side of Alcyone, the all-seeing eye – Rama was trying to take out his own daddy! It was the hardest lesson anyone has to learn is how to be neutral: to know about balance
- L M Ma'at is the **future self of Mother** and holds scales on her hand: on one side is the feather, on the other is the soul – scale only balances when your soul is fully neutral
- Sai Baba is an avatar and did not have to do this at all; he took on massive karma
- the divine plan is for all to learn to work together: Rama did not have to do this alone
 - As Nassim H was saying, we have trillions and trillions of people/beings to help us
 - we are ascending the whole planet AND THE UNIVERSE with us
 - the end of the Mayan Calendar was the end of a 4.5 billion cycle
 - there are at least 80 million planets like earth in the Universe of Nebadon

Caller: about Dr Keshe: is he able to put the forcefield into action so bullets, bombs are not working during those days outlined?

- The peace roadmap requires us to understand the language **[SEE BELOW]**
"without relying on every government or . . ."
- T reads part of it, saying that the Dalai Llama said the same thing: there are enough humans who have met the E Ts and know that they are us, and we are them
 - Brings up Dr Hew Len and Ho'o pono pono and the energies that are coming in
- David Suzuki – only need one trip – guided - with
 - DMT is one of the neural transmitters that activates when we sleep

BBS Radio

Mother Sekmet / Alcyone [M/A]

Greetings in the light of the most radiant one. In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame.

Thanks to Mother for her guidance, and to Dr Keshe for showing up!

Greetings, Children of Ra:

- Indeed we are in most auspicious times! It is about us rising to the occasion: she speaks in these terms since we are all one, rising to the occasion is happening now as the very particles themselves are demanding that the light pour in now; this is changing the nature of what we understand as matter. An interesting dance between matter and anti-matter.
 - With the advent of the super collider toy they're playing with: let's say she is here to make sure nothing goes awry, yet already they are playing with dimensional portals. They **can't get past the lockdown**, and it is very perplexing to them.
- In the moment, earth, all of you, every tree, every blade of grass, every leaf, rock, being: all of us are, in this moment, transfiguring to the next evolutionary octave in consciousness and it is no small deal: takes every single grain of sand. We all volunteered; whatever species we may be, all of us are one consciousness.
 - This consciousness is what makes up this planet as well. When we combine it with the energies of the crystalline matrix within this planet's surface, we have such a computer we cannot build it. It is organic in and of itself; same thing with this bag of water she is speaking through - it is that complex.
 - This is why we are being called, all of us, to active duty – our cells are demanding it;

- It is no small task to save a planet, a local solar system, yet we volunteered to be in the midst of it as they run around with their hair on fire – all CIA duh; ISIS comin' to get us!
- that is why Chuck Norris is saying we gotta get Blackwater on the border, along with Jade Helm – too many weird stories out there that are all about . . .
- Chuck Norris the actor wants to hire Blackwater and Jade Helm to have both of take on ISIS at the border – that is how delusional these ones are!

T: He has a lot of people paying him to do those things! Rouse up some more fear!

- In the meantime, Mother, there are 4.5 million people in South Sudan starving to death right now – don't have enough food, and they are in a drought

M/A: Call in all the masters and all the elements from the highest in this moment

T: she knows that everything is dependent on connecting with all things, and that de-nial is not a river in Egypt! And it was manipulated for them to have no food

M/A: • No it is not, and at the same time also know that angels of mercy come with the manna; it is part of the cycle here.

- It is how we have made it thus far, even though they would like to tell us angels and ET are not real. It is such a bad joke that as they begin the full download across our transmission boxes of who and what you are, as everything settles, we'll be hooked up and don't need to pay Comcast or Verizon - we are hooked up to their amino acid computers. This is what the silicone chips [do] in every single computer whether it is apple, android, PC, Bill Gates, Steve Jobs

- the one good thing Gates did was to upload all the nanites - how many trillions of nanites? She cannot say, yet they are embedded in every single satellite surrounding the planet and when Captain Ashtar gives the word, we have a different conversation instead of Larry King Live talking to some blonde about whatever!

- It is this moment we have to get it **that we have the power.**

T: now having the Bilderberg meeting in Austria [from the TV]

M/A: and people getting arrested for trying to get in – it is a sham! [ref to Alex Jones]

T: someone called Wood, someone who has been in New Orleans prison for 40 years – judge ordered him released – health not good. Then an appellate court said no. He's innocent – he's a political prisoner because he was a leader of the Black Panthers which is why he's in prison; nothing to do with the murders he's accused of

M/A: what we over stand / under stand about this issue – as black goddess and her people rise to the occasion, the real story about Jeshu and the people who followed the star when Melchoir, Balthazar and others said "Follow that star"; it's about the moment we are in: the Mahdi, Kalki Maitraya has returned, as has El Morya, Shiva, Paravti – all the folks are here -

- it is about how we do this hand in hand across this planet as it just keeps on going and, in this moment, second, it is about that great silence of the one hand clapping that can never be silenced: that is the frequency we are coming in with from Galactic Centre
- we made a conscious choice to equalize the playing field here at this time, as part of what we were speaking about earlier: the 4 muskateers. As one of the masters who holds diplomatic immunity in this local universe of Nebadon, she gets to say how the bread gets buttered! [intervene in this civilization's development with that diplomatic immunity]
- And it is about this quantlet that has been handed to us- a road map to peace: all she is saying is give peace a chance. As we begin to grasp really what this man is bringing forth here, along with all the other magical folks, from the tiniest elf to the Archangels that sit before Mother/Father god/ All That is:

- **Each role is vital to the plan:** as this matrix main frame is falling apart, we who are all part of the story called 144,000 x 10 hundred thousand x 10 hundred thousand who are going to have to pick up the pieces and help the little old lady and Uncle Joe who lost half his mind in the fact of the matter that they are here!

- We are your new neighbours – please get to know us; we come in peace and in love and in great gratitude, great respect for all life; yet some of us who not native to this planet, as

we are all not native to earth, came to earth without dignity and respect –

- now she gets to equalize the playing field - don't ask any questions, because there will be no answers: it gets done and we are free: it is how things must be done as the moment here has asked for that energy!
- C'est Ca! That's all! Greetings in the light . . .

T: questions about the guns stopping and Keshe's description about things coming collectively through the people – what does that meet?

M/A: how, at a grass roots level, whether it is being discussed or not - Gabby Giffords, Mark Kelly and many others are working to – let's just say, it is not about asking for peoples' guns or violating 2nd amendment rights – **yet we must get this one:** there are issues at hand which have been grayed around the edges which has to do with the life forms that consider the ancient fire sticks their means of survival; they cling to their guns & the “good book”

- she calls it a story that has not been told in the right context because he, the Planetary Prince, co-regent of this Universe of Nebadon, **never died on any old fibres of wood for anyone's sins or blood - ALL LIES!**
- It is all about the **fact that we are all already immortal;** we took on these forms when we began this story and said we'd be home in time for dinner!
- it is 450 billion years plus and then some! Now it comes full circle: we've all been called to active duty by our own DNA particles, as Nassim says, and in this moment . . .

T: he says there are 100 trillion cells in everyone's body!

M/A: she concurs – imagine 100 trillion universes and, within those universes, how many planets upon planets have aligned themselves with the Office of the Christ & have said “Now we do this with the gentle hand of this one who said the least among us; Lord, make me an instrument of thy peace! Where there is such hatred, let me sow love!”

- there is this issue in the midst of this story , , ,

T: a California mayor slept in a cardboard box overnight to find out what it is like to be homeless

M/A: all the ones who have played with the issues - Jamie Dimon, Leona Helmsley, Mr Haster, Mr Bill Frist, Donald Trump – find out what it is like to sleep in a cardboard box. The moment is at hand, the tables have been reversed . . .

T: we know that ultimately those folks will have not a penny to their names & we'll be given what they've been holding

M/A: we have been given **the Keys to the kingdom which is the understanding** that we are gods/goddesses of the Most High, here with the keys to the kingdom - it is how we use these Adam kadmon . . .

T: they are afraid that we will do something horrible to them and that is our test – to not treat them as they would treat us. To not lay a finger on them

- there will be a balanced way for them to pay their restitution; yet it's up to you, Mother, right?

M/A: Yes, and it is about the energy she reflects back to them, perfect as a polished mirror: as you deal with your own demons that are reflected back: she does not need to lift one claw: they have created their own hell with the thought forms they have created and their manufactured, twisted wizard stories –

- it is not about masculine overpowering the feminine: it is **co-regency story here:** we are equal on that called the Rock of Gibraltar - twin flame energy is what is returning to balance out the frequencies in this polar universe: it is part of the equalizing that we have asked for where paradise on earth is in our midst
- She says **we are not going anywhere;** what is happening is that all of our light bodies are descending into physical matter, merging with these temples of the living god /All That Is
- if we can handle that frequency coming in, it puts a nuclear power plant to shame, it is that powerful - we don't need to split atoms, we are as powerful as her: living sons and daughters of the Most High

- we don't need bodies, but we took on the form in which we could communicate do we could unlearn and re-learn Solex Mal, the living light language. We have a guttural way of speaking – it is a shame!
- Keep the tongue pure, the thoughts pure, as we sing the mantra and receive Lord Ganesh's blessings – and this is in our best interest as we will need all the help we can get!

Greetings in the Light of the Most Radiant One – Kadoish, kadoish, kadoish

Om Gam Ganapataye Namaha - the mantra His Holiness said to do....
https://www.youtube.com/watch?v=M7WcWc1_a6M

T: AT&T – saying we will have to pay \$70 a month to have privacy on our phones!
 [Awesome total totalitarianism – from **Redacted Tonight**]

R: was sitting at Ankor Wat in Cambodia, an ancient city spoken of in TV's *Ancient Aliens*

- It was part of the light cities on the planet when Enki and Enlil came & started colonizing it was on of the outposts
- The good Annunaki were stationed here: the bird people who are here now
- Was talking to giant crows - larger than some of the eagles & condors we know – huge!
- got the feeling that they were thunderbird beings even though they showed up as crows
- Thinks these beings are part of the blue avian folks – make up so many trillions and trillions of life forms who are stationed here now

• They were saying Ankor Watt is such a beautiful place; also that some of the ancient technologies are activating again, and the Viet Nameese gov't is reporting this to China who is sending scientists over – R sees it as ancient control panels and generators are coming back on line

• Atlantean grid is up to full power; as one grid goes down, another takes over – the official grid which is called Public Service of New Mexico needs to go dark so the other one can take its place

T: need to round up these ones, so that what Keshe wants to do can be done.

R: there are elves at work – all he can say!

INFORMATION RELATED TO THE NOTES

2015-06-09 **Criminalizing Criticism~ A Zionist Project**

By [Lawrence Davidson](#) Reprinted from [To The Point Analyses](#)

Zionism
(image by [YouTube](#))

Part I -- Some Historical Background

From the 1920s on into the 1990s, the Zionists controlled the story-line in the West on the Israel-Palestine conflict. This meant that their version of history was the only version as far as most of the people in the West were concerned. Consequently, they had an uncontested media field to label the Palestinians and their supporters as "terrorists" -- the charge of anti-Semitism was not yet widely used. Also, as a consequence of their monopoly, the Zionists did not bother to engage in public debate.

Then, over the last 20 years the Zionists slowly lost their monopoly. In part this was due to the fact that in 1993 the PLO recognized Israel's right to exist and renounced terrorism, and in the following years many of the Arab states made or offered peace. However, the Israelis did not respond in kind. In particular they failed to respond in a fair and just way to U.S.-sponsored peace efforts. Why so?

The answer to why the Israelis did not, in good faith, take up multiple historic opportunities to make peace with the Palestinians lies in the very nature of the Zionist movement. From its beginning, and certainly from the establishment of the State of Israel, Zionism has been driven by dreams of colonial expansion and religious exclusiveness. Each of these goals is seen as part of Zionism's God-given mission, and they still prevail.

Professor David Schulman of Hebrew University, [writing in the New York Review of Books](#) (23 April 2015), describes the consequences of this situation, "the Israeli electorate is still dominated by hyper-nationalist, in some cases proto-fascist, figures. It is no way inclined to make peace. It has given a clear mandate for policies ... that will further deepen Israel's colonial venture." As a consequence, Israel's credibility with an increasing number of people in the West has eroded.

This erosion led to a relatively short period of time in the early 2000's when the Zionists attempted to counter the situation by engaging with their critics in public debate. However, the majority of time they lost. Israel's barbarous behavior on the ground, combined with the fact that their historical version of events was shown to be full of holes, condemned them to an increasingly weak defensive position. This proved to be intolerable to the Zionists, so they withdrew from the debating field. And, as they did, they began to level charges of anti-Semitism against their critics, even those who are Jewish. These accusations of the worst sort of racism have been with us ever since - which is really ironic because much of what Israel is being criticized for is its own racist, apartheid nature.

This was an important change in tactics for Israel because it opened the way to misusing Western laws to Israel's advantage. Just as the charge of terrorism has often been misused in a broad and sweeping manner (for instance, leveled against non-violent supporters of Palestinian charitable organizations), so the charge of anti-Semitism can potentially be used in an almost unlimited fashion by over-aggressive, pro-Zionist Western prosecutors against any critic of Israeli behavior.

Part II -- The Boycott Movement

In the West, much of the organized criticism of Israel now comes from campaigns aimed at promoting Boycott, Divestment, and Sanctions (BDS) of the Zionist state. So robust has the BDS movement grown that Gilad Erdan, Israel's newly appointed Minister of Public Security, Strategic Affairs, and Public Diplomacy, [has described it](#) as one of the most "urgent issues" facing Israel. Israel's president, Reuven Rivlin, [has described](#) the developing academic boycott, just one part of BDS, as a "strategic threat of the first order."

Israel's prime minister, Benjamin Netanyahu, has taken it upon himself to set the tone of Israel's counter-attack on BDS. [He has declared](#) that there is an "international campaign to blacken Israel's name" and he alleges that it is not motivated by Israel's policies toward the Palestinians but rather seeks to "delegitimize Israel ... and deny our very right to live here." In other words, he is claiming that present criticism of Israel is really an attack on its existence, and not on its behavior. For Netanyahu this has to be a form of anti-Semitism. As Hanan Ashrawi, a member of the PLO executive committee, [describes Netanyahu's argument](#), "If you criticize me you are anti-Semitic ... If you accept any kind of punitive measure or sanctions against Israel, you want to destroy Israel." That is how the prime minister avoids confronting the facts.

As bad as this is, it gets even worse. Declaring the goal of BDS to be the elimination of Israel allows the Zionists to use their influence with Western legislators to make cooperation with the boycott subject to penalties. In the United States, AIPAC, the most powerful of the Zionist lobbies, is [working on legislation](#) similar to that used against Iran and also the Arab boycott of Israel in the 1970s. This legislation would penalize businesses, both at home and abroad, that favorably respond to calls for boycott. If this works we can expect the Zionists to go further and try to subvert the U.S. Constitution's free speech provisions and then go after individuals as well as businesses. In this regard, efforts are also underway in Canada and France.

Part III -- Money Magic

Finally, there is the assumption that money can destroy Israel's critics. This is a special belief of Sheldon Adelson, the billionaire casino magnate and enthusiastic backer of Netanyahu. Adelson has taken aim at activity critical of Israel on U.S. college campuses. In the first week of June 2015, he and his supporters convened a "[Campus Maccabees Summit](#)," the purpose of which was "to develop the conceptual framework for the anti-BDS action plan [on college campuses], assign roles and responsibilities to pro-Israel organizations, and create the appropriate command-and-control system to implement it." Fifty activist Zionist organizations attended the conference, as did 20 donors, each of whom pledged one million dollars to the cause over the next two years.

Part IV -- Conclusion

Prime Minister Netanyahu personifies the problem with Zionist thinking. He is wholly self-centered and seemingly incapable of recognizing, much less taking responsibility for, Israel's racist

behavior. Thus, with the Zionists having spent the last 100 years planning and then actually doing what was needed to deny as many non-Jews as possible the "very right to live in" Palestine, Netanyahu now accuses others of doing the same thing to him and his kin -- and labels it a criminal act.

The truth is that most Western critics, including supporters of BDS, are not trying to kick the Jews out of Israel. They are trying to bring maximum pressure on the Israeli government to stop kicking non-Jews out, to stop territorial expansion in violation of international law, and to start acting like the democratic state it so questionably claims to be.

Speaking strictly for myself, I don't believe any of these goals are possible unless Zionism is in fact kicked out of what is now Israel. That is, the ideology that drives Israeli racism and colonial expansion must be done away with, in the same way that apartheid was brought down in South Africa. That did not result in South Africa being destroyed or all white South Africans being deported. But it did result in a democracy being imported. The same scenario is necessary for Israel.

No doubt many Israelis and their supporters would equate this goal of extirpating Zionism with promoting another Holocaust. This is not so, but they are scared enough to label the effort of bringing a real democracy to Israel as anti-Semitic, and to try to get it declared illegal in the West.

Finally, besides the public outcry over anti-Semitism, the Zionists are working behind closed doors -- the closed doors of American state and federal legislatures and university board rooms -- where they do not have to face serious debate. This might prove the most dangerous of their maneuvers. For behind closed doors the Zionist monopoly resurfaces and truth is all the easier to suppress.

THE PEACE ROADMAP

<http://www.keshefoundation.org/new-horizons/peace-roadmap>

On the twenty-first of May 2015, the Keshe Foundation in its weekly workshop announced the beginning of setting up the procedure for establishing the promised WORLD PEACE.

In this announcement, we explained that the process to achieve global peace will take shape in the coming months through the work of the Keshe Foundation and the release of further new knowledge through the teachings arm of the Foundation, during the daily live-streamed sessions from its Spaceship Institute in Trani, Italy.

In these teachings during the past months we have taught, and in the coming months we shall continue to teach, new scientific criteria and systems that shall open the path for the process of using the new technology for establishing peace.

We shall teach step-by-step procedures that start and bring into action what it takes to achieve the ultimate goal of the Foundation, which is to facilitate and finally enforce World Peace through applications and implications of the use of new technology.

In this paper we are setting the roadmap to achieve this elusive peace amongst men through the collective effort of the citizens of this planet, without relying on any government or path of belief.

In this roadmap, we rely on the total collective efforts of the human race to develop and deliver the technological knowledge to the world public, which takes the need for governments out of the equation, eliminating the need for consent of the present controllers of the human souls.

We totally rely on the maturity of the Man in understanding what has caused the problems of the past, and how it can be overcome.

In this cycle of maturity of Man, we do not depend on any government or faith, but we take into account that Man has matured enough to take responsibility for his own destiny, to be living a correct life and conducting his affairs in line with living in peace amongst other creatures of God on this planet and in deep space.

Our roadmap is simple and clear; It has taken millions of years for Man to become such a destructive being, as man has seen solutions in everything, by destroying and ending processes, only for him to survive and rule his world, through acts like eating animals, killing fellow men, ending cultures, destroying races or paths of belief, and by this method he has enforced his meager will on defeated entities.

Through the release of new knowledge we have shown that Man can cover every need of his existence without destroying another life or harming another soul, by using and understanding that all forces and energies of the universe are within his reach and command, if he gathers the knowledge and intelligence of how to harvest and use them to support others.

Thus with the release of this new universal science and technology we have been and are taking step by step the essence of killing and destruction out of the RNA and DNA of the Man, that he

does not need to teach his children the mistakes of the past, and hence, for the first time in the life of this creature of the universe, we can introduce the process of obtaining, without needing to resort to the destruction of any other being in the universe.

Even if Man does not stop this ethos of killing and destruction of the essence of this creation of the Earth, now that we are opening the doors of universal science and technology for the Man to travel into deep space and to join the universal community, Man will understand that unknowingly or knowingly he cannot take steps to destroy another being for food or by having false intentions in respect to other creatures of space, and their reaction to protect themselves from being consumed or destroyed, and that this action leads to annihilation of the Man in the open spans of the universe.

In our teachings, we have shown and taught how to make new elements and free plasma, which can release enough energy to be sufficient to produce new materials to satisfy the need for energy and material for man in space, we have shown how to produce energies which can lead to the creation of motion in space, without the destruction of other entities.

The pitfalls of killing have been apparent to the Man, but he has not managed to find a way out of this ever-closed maze of need as a justification for the killings, thus now we need time and new procedures that will make man understand and take action, and put into effect the process of de-killing, as killing has been ingrained in his daily pattern of life for millions of years.

Thus now we guide Man in how to walk away from the habit of killing. Even though this shall not be easy, it needs perseverance and understanding, and a correct path of approach and conduct, and understanding of the working of the universe, and we are here to teach it all.

It is better to start with small steps at a time, that all men can understand and have time to think about the process of peace.

To this effect we are setting the following roadmap for the coming months, and if it fails we have our means to enforce the will of the majority of the race for peaceful co-existence amongst men and other creatures of the universe.

To start, we appoint one peace day per month, starting from June 2015, so that man starts making efforts and thinks about the alternative and correct path.

So it follows:

The first day of peace is appointed to be the 21st of June 2015, and this day of peace will as well follow on the 21st of July and August.

- In September, October and November, there will be two days of peace a month, on the 21st and 22nd of each month.
- In December 2015 and January and February of 2016, we increase the days of peace to three days a month from the 21st to the 23rd.
- From 21st of March of 2016, we increase the days of peace to 7 days a month, from the 21st to the 27th of each month for the following three months.
- From 21st of June 2016, we increase the peace days to 14 days a month, again for three

months.

- From 21st of September 2016, we increase the peace days to 21 days a month, for three months.
- By 21st of December 2016, we ask and shall enforce peace indefinitely as designated.

We expect to give time to the armies of the world to not even fire a single bullet during these days, not even for training purposes.

We expect to relay the plan for peace process to all sides of wars and conflicts, be it military, terrorist groups, or the opposite side of the same parties.

This process of achieving peace will be shared and delivered by all the members of the Keshe Foundation, its supporters and interested parties, by completing the first space star formation reactors and simultaneously creating the field forces to silence the guns around the world, as we showed this process on Christmas Day of 2014, by using three sets of star formations around the world, one in Germany, one in Canada, and one in Italy, simultaneously coordinated to stop a reactor operation in Italy, as was broadcasted live on the internet, to show our intention and will.

We are teaching this process by making and operating space reactors rapidly in our Spaceship Institute, live on the internet on a daily basis, and soon we will test the first series of these reactors and their effect on a chosen number of satellites, which shall be designated to us by the world military for testing, that we decommission them live on the internet, with world leaders monitoring the process.

Then, as we have mentioned, we will bring to halt the motion of military ships and military crafts, which will be allocated to the Foundation for testing the concept by their respective peace loving nations.

This way, we bring an end to the present unlimited expenditure on tools of war, which makes their present implication by the application of the new technology obsolete.

By this act, governments are released from ever spending money for tools of war, and so they can make these finances of war available for manufacturing the tools and systems for peace and for covering the essential needs of their citizens, like making shelter and food.

We are not confronting governments, but setting the scene to show that the current military and defense technologies are out of date, and that there is no need for their renewal or any further expenditure on arms.

We share our space technology with all nations and respectively, if the nations do not accept these tests of the show of the end of arms manufacturing and the end to conflicts, then members and supporters of the Foundation worldwide will choose a satellite for it to be taken out of commission, and we will inform the governments of the intention, to make sure the satellite is not in use during the decommissioning, using the spaceship technology of the Keshe Foundation.

With this gap of three months from 21st of June 2015 to September of 2015, we give governments themselves a chance to start the process of re-allocation of the works of military factories and arms producing companies to the production of new systems of the new technology for peace, so that jobs can be preserved.

With this roadmap, we call upon all Keshe Foundation supporters to allow all national leaders and spiritual leaders of your communities and as many citizens to be aware of our intention to start the peace process, starting from the 21st of June of 2015.

If within the first three months we do not see any movement with this process amongst the world leaders, we will begin the process of showing the power of the technology and our wish to start the process of peace, as one nation, one planet, and one Keshe Foundation family.

In this process of enforcing peace, we shall not harm anyone or any soul, we shall not cause any structural damage or any physical or financial losses to any nation. But we will stop warships on the high seas, and decommission fighter planes of all nations on the runways, we will erase the memory of so called men of arms, that they shall not remember why they are carrying arms and what they were fighting for.

This time around, there shall be no punishment for anyone, but only progressive development and release of more technologies to be available, that the old ways become obsolete.

In this manner, more and more new knowledge, science and technologies shall be released into the public domain through daily teachings at the Spaceship Institute, that these actions force the disarmament and the unity of Man, and the end to all wars.

These advancements in technology as has been shown are in:

- CO2 capture
- Health systems
- The star formation systems for creation of lift and motion
- Production of water units
- Creation of low power through the use of Gans and nano-layers.

We welcome everyone to support this move, and if need be we shall show the Man that out of fear of loss he shall agree and connect and erase the ethos of war from the memory bank of his brain.

We have the technology to do this, we have shown its work over the past ten years, now we are ready to use it to start the process of the roadmap for achieving peace.

We invite political and religious leaders to join us to achieve this goal, because if we take this step, then there is no need for either, as they have failed the Man in the past.

I am resolute as the Founder of the Keshe Foundation to see this process through, as shown in the past we let governments be divided between peace and war, and now we let the citizens of the planet take their future in their own hands, and let them take their position in the universal community as peace-loving creatures, by changing their old ethos.

With this process, we will bring an end to the old system of section leadership as presidents and kings, and we will bring an end to the religious structure to abuse.

I have put an end to the process of religion and religious abuse in the name of God, and I have abolished the process of using the name of God to abuse and force abuse of the Man.

With this roadmap of peace, I declare the new cycle for the Men of the Earth, and with this cycle

of peace, with trust in ones soul and action, that the new promise of unity becomes reality, as I have the knowledge and elements of the universe at my disposal, to bring the peace to this planet in my time.

I accept no deviation and no negotiation, but only the path which has been set above.

The change has to come from within, because if I force it, then it will be harsh and unbearable for every man.

I call upon the world leaders with this open letter to start the talks for the universal disarmament of all armies, and I give assurance that I shall see that no man will harm others, if need be.

I take no position in this process, except the monitoring of the process for Man to achieve this peace through correct transition.

I have all that the universe has to offer at my disposal, to bring about the change, but it is in the hand of the Man to start the process, so that I can assist.

In My Name I will act, and In My Name I shall succeed, if needs be, single-handedly.

My aim to achieve peace in the appointed time is my wish and my command, and shall not be diverted from.

I call for all men of peace to come together to see the beginning of the most beautiful time for Man, on this broken wing of this endangered bird called Earth, flying through the space of the universe.

IN MY NAME

(even though some would like to call it the Messiah)
