### **HARD NEWS**

**R:** the car has had original heater core for 19 years: will cost \$700 as it will take 2 days to fix [koran999@comcast.net](mailto:koran999@comcast.net) – let them know if you can help

- For R to talk to his people, drives about 20 miles from home to get on his encrypted line.
- Also, need \$600 to cover the BBS costs for the last 2 weeks.
- Sister Patricia Garcia, 57, in hospital with a brain infection – put her in Circle of Support

**R:** Grateful to be in his body

**KOS: said please help these folks**

- He also said there are 4 balls in the air: entire story that is laid before the world – You're living in a cartoon universe with Homer Simpson, Sean Hannity and Sarah Palin – a strange place! All they have is the fear card and they are playing it to the hilt: Nibiru showing up in Sept along with Mr Francis coming to US Congress on Sept 24 heralding the end times.
- As his holiness Dalai Llama told R, and MaoTzetung, the cat: all has to do with the energies pouring in from the sun: there are beings here from the sun in our local dimension / universe – everyone's frequency is being raised at such an exponential level that it's creating dichotomies within soul matrix and the Force has kicked in
  - if you've been listening to Vader and the Lords of the Sith, you'll have to deal with it
  - if following AA Michael and the legions of the Office of the Christ, so be it!

**KOS described it:** is Mr Francis or Mr Putin or Mr 19.5\* going to announce the presence of our brothers and sisters from the stars? All these balls are being juggled: has to do with the upcoming frequencies

- as Mercury has gone direct, now Saturn and Neptune will do some retrograde dancing for 5 months – has created some interesting pieces of work
  - Denny Hastart testified and pleaded not guilty, though he is as guilty as sin – it is all bringing down the shaky house of cards which has nothing to do with reality
  - It is bringing in **another agenda so large** that is bringing in the other pieces of the story: People like Sen Mike Gravell, Master Sargeant John Dean, and the others who have sat with Cmdr Sananda Kumara – this is right in this moment!
  - At the same time, the grand illusion of electronic soup throughout our environment – there are glitches in the matrix and people are seeing it everywhere; anomalies are showing up. The ships are showing up every day
  - There are **so many good things in the midst** of what the media focuses on which is if it bleeds, it bleeds: they may found out **the cause** of parkinson's, now they can find a cure
    - Mohammed Ali was on with the ladies, saying it could be a reversal for him
    - has to do with particular kinds of fibers in the brain that are unique; announced on NHK and they usually go further with describing their discoveries
- A lady who is **192 years old** won her PhD - had done the work 80 years ago in Germany
  - Since her mother was Jewish, at the time she could not be granted her PhD! So wild that things had gone so far along.

**Caller:** June 21<sup>st</sup> – Dr Keshe is to give a demonstration – **THE PEACE ROADMAP [SEE BELOW]**

**T:** what he said in detail is that for the next 3 months, it will be on the 21<sup>st</sup>

- The first day of peace is appointed to be the 21st of June 2015, and this day of peace will as well follow on the 21st of July and August.
- In September, October and November, there will be two days of peace a month, on the 21st and 22nd of each month.
- In December 2015 and January and February of 2016, we increase the days of peace to three days a month from the 21st to the 23rd.
- From 21st of March of 2016, we increase the days of peace to 7 days a month, from the 21st to the 27th of each month for the following three months.
- From 21st of June 2016, we increase the peace days to 14 days a month, again for three months. [June, July, August]

- From 21st of September 2016, we increase the peace days to 21 days a month, for three months. [September, October, November]
- By 21st of December 2016, we ask and shall enforce peace indefinitely as designated.
- will be a world wide demo and all the media will be saying the same thing

**MR:** also saying that the armies of the world will not be firing a bullet on those days

- he has the technology to stop it from happening; in a sense, it will be forced, but without using guns

**Caller:** Netanyahu has been quiet – why?

- don't know why – he's having trouble governing: had to form a coalition; think inside and outside the country have got his number;
- it is genocide against the Palestinians & that is the #1 issue; Palestine will be recognized as sovereign state and this will make great waves: Israel is a contrived country – has to do with the fake story – they have never declared what their borders are
  - they thought they could get rid of the Palestinians
    - the pope has declared that Palestine has been recognized as a state
    - Putin went yesterday to see the Pope: **they were discussing full disclosure and how to break it gently so people don't go into mass panic**
- will probably start on June 21 – Father's Day, summer solstice and the 1<sup>st</sup> day of peace!
  - Let's get that power of love out there

**Caller:** last week, something happened in the west wing at WH during press conference and all 75 reporters were removed from the room, but not Pres, first lady,

- they said it was only that area that was being evacuated as the threat was localized
- thinks it was a strong message! Pres Obama, appearance-wise, is making himself look more and more like a fool; went before a group to convince them about Viet Nam that people's wages etc would be raised for the first time, thanks to TTP! What?
- **it's the double message:** R has been asking when he quits doing this nonsense
  - this is putting the republicans into not wanting to sign it too
  - he is putting it out there about what it should do & in case it doesn't we'll see who the criminals are who made it happen
  - Ed Snowden has put out another **set of Leaks against the pharmaceuticals** – there are more pharmaceuticals designed to have people not survive than helped  
Time to go back to the shaman doctors!
- Air America; **everything is pouring out:** solitary confinement: over 15 days is considered torture!
  - A 15 year old boy was accused with no charge, no lawful representation, no trial – no capital crime: allegedly stole a back pack at 15, not a capital crime
  - his 5<sup>th</sup> amendment rights were violated – reads the 5<sup>th</sup> amendment – thrown into the worst prison in the US - Rykers Island for over 2 years – in solitary confinement!
  - He took his own life last week – it's heart breaking!
  - the **charges for what happened to Tamir Rice**, 12 years old: 5-6 major indictments this again is “We the People” taking it into our hands: awesome we see these things come to pass

**Caller:** the news media is beginning to talk about the global reset / revaluation & are beginning to say it's a false flag and people buying dinars, dong, etc are holding worthless currency!

- Caller passed along a video to Rama about this: Jim Willie is talking of it openly
- Has to do with, as everything comes out, we have to create another way – we work with each

other, exchange with each other and this brings in the 5<sup>th</sup> element which is waiting back stage to turn the tide – as the guns, the tanks don't work – we have issues to heal.

- **Canada: 3 tobacco companies have to pay \$15 Billion** – a class action lawsuit since 1998
  - 1 million people with emphysema, throat and Lung cancer, lung cancer alone
    - 50% of all smokers share this fact – that they will die as a result of smoking
  - judge said at the ruling that the companies earned money at the expense of the general well being of its customers: **they are not allowed to walk away unscathed.**
  - What is the message to other companies about moral, ethical values?

**IT HAS BEGUN, EVERYONE:** it is just money they are being fined, but they were lying through the whole thing [about health effects] and are responsible for the death of the people

- next thing is fossil fuels: people are dying in southern states due to the oil spill in Gulf

**This goes back to the Dalai Llama who spoke to Rama:**

- Tom the Cat called R with the Dalai Llama and Mou See Tungue, aka Odin [who is Thor's father; Thor is another name for god: the god of thunder who works with the lightening energy like Zeus]
- a book by David Nietzsche *The Power of Meow* - about the messages from the cat

**A Message from The Dalai Llama and his cat:** with Tom interpreting for the cat

- "Rejoice, my brothers and sisters, the cavalry is here."
  - **R:** . . . What do you two mean by the cavalry?
- "It's all of you: the 144, 000 x 10 hundred thousand x 10 hundred thousand"
  - R:** Is this going to be a visible thing to Sarah Palin and Joe the Plumber?
- His holiness chuckled and said "Yes! This is going to be on every screen!"
  - He is referring to the idea that as we the cavalry have now met, eye to eye, the energy of our brothers and sisters from the stars, the Asthar Command in this local universe of Neadon, they show up now on our behalf, on screen, as we have acknowledged now, that they are us and we are them.
- "All the predictions of war, death, destruction in terms of so-called coming earth changes are greatly exaggerated. Lord Maitraya is here."
  - There are beings coming in from the sun who are 12<sup>th</sup> dimensional energies; they come in as very, very large orbs. They are here to integrate the coming solar flares and the energies are going to take another huge leap forward.
  - As a result, much, much more exposure of the dark cabal and their present secret plans for humanity will be expressed until not one stone has been left unturned.
  - The waves of energy coming in are changing everything in this now moment
- R:** How are we to assist in the transformational energy infusion?
- Continue to work with Mother Sekhmet, work with the Pashat primordial energy that Meow tse Tungure represents, that Mother represents.
  - Work with the Ganesh mantra, Ganesh being the son of Shiva and Parvati, the guardian of beauty, prosperity, grace, and divine compassion
- "Namaste and Om Chante, Lord Rama", and the Cat meowed.

**Yes, it would be helpful to do the exercise first and then do some of the work and then re-do the handwriting BEFORE YOU SEND THE ASSIGNMENT BACK TO HER.**

- Handwriting her favourite topic: it is so personal to everyone.
- Handwriting is not something that can be changed because it is the sub conscious that is explaining what is going on; even writing with the toes results in the same shape of the letters, the spacing, the size
- Reveals the personality – can change what is happening by just changing the shape of one letter
- Explains her background and how she got to her current level of understanding.
- If you change your handwriting, you can release any resentment revealed in certain letters
- you can see all kinds of emotion even looking at writing done in a foreign language
- Discusses the implications of how the way a small "o", a small "f" is written – takes 3 days of practice to change the shape usually used.
- The difference between cursive writing and printing: printing in which the letters are separated encourages more independence as opposed to being connected to other people.

### THE PEACE ROADMAP

<http://www.keshefoundation.org/new-horizons/peace-roadmap>

On the twenty-first of May 2015, the Keshe Foundation in its weekly workshop announced the beginning of setting up the procedure for establishing the promised WORLD PEACE.

In this announcement, we explained that the process to achieve global peace will take shape in the coming months through the work of the Keshe Foundation and the release of further new knowledge through the teachings arm of the Foundation, during the daily live-streamed sessions from its Spaceship Institute in Trani, Italy.

In these teachings during the past months we have taught, and in the coming months we shall continue to teach new scientific criteria and systems that shall open the path for the process of using the new technology for establishing peace.

We shall teach step-by-step procedures that start and bring into action what it takes to achieve the ultimate goal of the Foundation, which is to facilitate and finally enforce World Peace through applications and implications of the use of new technology.

In this paper we are setting the roadmap to achieve this elusive peace amongst men through the collective effort of the citizens of this planet, without relying on any government or path of belief.

In this roadmap, we rely on the total collective efforts of the human race to develop and deliver the technological knowledge to the world public, which takes the need for governments out of the equation, eliminating the need for consent of the present controllers of the human souls.

We totally rely on the maturity of the Man in understanding what has caused the problems of the past, and how it can be overcome.

In this cycle of maturity of Man, we do not depend on any government or faith, but we take into account that Man has matured enough to take responsibility for his own destiny, to be living a correct life and conducting his affairs in line with living in peace amongst other creatures of God on this planet and in deep space.

Our roadmap is simple and clear; It has taken millions of years for Man to become such a destructive being, as man has seen solutions in everything, by destroying and ending processes, only for him to survive and rule his world, through acts like eating animals, killing fellow men, ending cultures, destroying races or paths of belief, and by this method he has enforced his meager will on defeated entities.

Through the release of new knowledge we have shown that Man can cover every need of his existence without destroying another life or harming another soul, by using and understanding that all forces and energies of the universe are within his reach and command, if he gathers the knowledge and intelligence of how to harvest and use them to support others.

Thus with the release of this new universal science and technology we have been and are taking

step by step the essence of killing and destruction out of the RNA and DNA of the Man, that he does not need to teach his children the mistakes of the past, and hence, for the first time in the life of this creature of the universe, we can introduce the process of obtaining, without needing to resort to the destruction of any other being in the universe.

Even if Man does not stop this ethos of killing and destruction of the essence of this creation of the Earth, now that we are opening the doors of universal science and technology for the Man to travel into deep space and to join the universal community, Man will understand that unknowingly or knowingly he cannot take steps to destroy another being for food or by having false intentions in respect to other creatures of space, and their reaction to protect themselves from being consumed or destroyed, and that this action leads to annihilation of the Man in the open spans of the universe.

In our teachings, we have shown and taught how to make new elements and free plasma, which can release enough energy to be sufficient to produce new materials to satisfy the need for energy and material for man in space, we have shown how to produce energies which can lead to the creation of motion in space, without the destruction of other entities.

The pitfalls of killing have been apparent to the Man, but he has not managed to find a way out of this ever-closed maze of need as a justification for the killings, thus now we need time and new procedures that will make man understand and take action, and put into effect the process of de-killing, as killing has been ingrained in his daily pattern of life for millions of years.

Thus now we guide Man in how to walk away from the habit of killing. Even though this shall not be easy, it needs perseverance and understanding, and a correct path of approach and conduct, and understanding of the working of the universe, and we are here to teach it all.

It is better to start with small steps at a time, that all men can understand and have time to think about the process of peace.

To this effect we are setting the following roadmap for the coming months, and if it fails we have our means to enforce the will of the majority of the race for peaceful co-existence amongst men and other creatures of the universe.

To start, we appoint one peace day per month, starting from June 2015, so that man starts making efforts and thinks about the alternative and correct path.

So it follows:

The first day of peace is appointed to be the 21st of June 2015, and this day of peace will as well follow on the 21st of July and August.

- In September, October and November, there will be two days of peace a month, on the 21st and 22nd of each month.
- In December 2015 and January and February of 2016, we increase the days of peace to three days a month from the 21st to the 23rd.
- From 21st of March of 2016, we increase the days of peace to 7 days a month, from the 21st to the 27th of each month for the following three months.

- From 21st of June 2016, we increase the peace days to 14 days a month, again for three months.
- From 21st of September 2016, we increase the peace days to 21 days a month, for three months.
- By 21st of December 2016, we ask and shall enforce peace indefinitely as designated.

We expect to give time to the armies of the world to not even fire a single bullet during these days, not even for training purposes.

We expect to relay the plan for peace process to all sides of wars and conflicts, be it military, terrorist groups, or the opposite side of the same parties.

This process of achieving peace will be shared and delivered by all the members of the Keshe Foundation, its supporters and interested parties, by completing the first space star formation reactors and simultaneously creating the field forces to silence the guns around the world, as we showed this process on Christmas Day of 2014, by using three sets of star formations around the world, one in Germany, one in Canada, and one in Italy, simultaneously coordinated to stop a reactor operation in Italy, as was broadcasted live on the internet, to show our intention and will.

We are teaching this process by making and operating space reactors rapidly in our Spaceship Institute, live on the internet on a daily basis, and soon we will test the first series of these reactors and their effect on a chosen number of satellites, which shall be designated to us by the world military for testing, that we decommission them live on the internet, with world leaders monitoring the process.

Then, as we have mentioned, we will bring to halt the motion of military ships and military crafts, which will be allocated to the Foundation for testing the concept by their respective peace loving nations.

This way, we bring an end to the present unlimited expenditure on tools of war, which makes their present implication by the application of the new technology obsolete.

By this act, governments are released from ever spending money for tools of war, and so they can make these finances of war available for manufacturing the tools and systems for peace and for covering the essential needs of their citizens, like making shelter and food.

We are not confronting governments, but setting the scene to show that the current military and defense technologies are out of date, and that there is no need for their renewal or any further expenditure on arms.

We share our space technology with all nations and respectively, if the nations do not accept these tests of the show of the end of arms manufacturing and the end to conflicts, then members and supporters of the Foundation worldwide will choose a satellite for it to be taken out of commission, and we will inform the governments of the intention, to make sure the satellite is not in use during the decommissioning, using the spaceship technology of the Keshe Foundation.

With this gap of three months from 21st of June 2015 to September of 2015, we give governments themselves a chance to start the process of re-allocation of the works of military factories and arms producing companies to the production of new systems of the new technology

for peace, so that jobs can be preserved.

With this roadmap, we call upon all Keshe Foundation supporters to allow all national leaders and spiritual leaders of your communities and as many citizens to be aware of our intention to start the peace process, starting from the 21st of June of 2015.

If within the first three months we do not see any movement with this process amongst the world leaders, we will begin the process of showing the power of the technology and our wish to start the process of peace, as one nation, one planet, and one Keshe Foundation family.

In this process of enforcing peace, we shall not harm anyone or any soul, we shall not cause any structural damage or any physical or financial losses to any nation. But we will stop warships on the high seas, and decommission fighter planes of all nations on the runways, we will erase the memory of so called men of arms, that they shall not remember why they are carrying arms and what they were fighting for.

This time around, there shall be no punishment for anyone, but only progressive development and release of more technologies to be available, that the old ways become obsolete.

In this manner, more and more new knowledge, science and technologies shall be released into the public domain through daily teachings at the Spaceship Institute, that these actions force the disarmament and the unity of Man, and the end to all wars.

These advancements in technology as has been shown are in:

- CO2 capture
- Health systems
- The star formation systems for creation of lift and motion
- Production of water units
- Creation of low power through the use of Gans and nano-layers.

We welcome everyone to support this move, and if need be we shall show the Man that out of fear of loss he shall agree and connect and erase the ethos of war from the memory bank of his brain.

We have the technology to do this, we have shown its work over the past ten years, now we are ready to use it to start the process of the roadmap for achieving peace.

We invite political and religious leaders to join us to achieve this goal, because if we take this step, then there is no need for either, as they have failed the Man in the past.

I am resolute as the Founder of the Keshe Foundation to see this process through, as shown in the past we let governments be divided between peace and war, and now we let the citizens of the planet take their future in their own hands, and let them take their position in the universal community as peace-loving creatures, by changing their old ethos.

With this process, we will bring an end to the old system of section leadership as presidents and kings, and we will bring an end to the religious structure to abuse.

I have put an end to the process of religion and religious abuse in the name of God, and I have abolished the process of using the name of God to abuse and force abuse of the Man.

With this roadmap of peace, I declare the new cycle for the Men of the Earth, and with this cycle of peace, with trust in ones soul and action, that the new promise of unity becomes reality, as I have the knowledge and elements of the universe at my disposal, to bring the peace to this planet in my time.

I accept no deviation and no negotiation, but only the path which has been set above.

The change has to come from within, because if I force it, then it will be harsh and unbearable for every man.

I call upon the world leaders with this open letter to start the talks for the universal disarmament of all armies, and I give assurance that I shall see that no man will harm others, if need be.

I take no position in this process, except the monitoring of the process for Man to achieve this peace through correct transition.

I have all that the universe has to offer at my disposal, to bring about the change, but it is in the hand of the Man to start the process, so that I can assist.

In My Name I will act, and In My Name I shall succeed, if needs be, single-handedly.

My aim to achieve peace in the appointed time is my wish and my command, and shall not be diverted from.

I call for all men of peace to come together to see the beginning of the most beautiful time for Man, on this broken wing of this endangered bird called Earth, flying through the space of the universe.

IN MY NAME

(even though some would like to call it the Messiah)

Om-Gam-Ganapataye-Namaha\_Ganesha\_Humanity-Healing  
Om Gam Ganapataye Namaha is one of the mantas of Lord Ganesha.

Lord Ganesha is the master of wisdom and knowledge. He is the remover of obstacles, and guardian of beauty, prosperity, grace and compassion. Lord Ganesha is the first deity to be revered in Hindu rites. He is a guardian of doors of houses and temples. He is the God that removes the internal and external obstacles of our success, and he is the one that grants the opening of your spiritual gifts. He is also the protector of all beings.

Lord Ganesha is known as the Guardian of Knowledge, representing the sage, or a state of consciousness where a man reaches self-realization and plenitude of gifts.

He is the first son of Shiva, the Lord of Transformation and supreme reality and the Goddess Parvati, the Mother of the Cosmos.

Lord Ganesha is an embodiment of wisdom and bliss. He is the Lord of Brahmacharins. He is the foremost among Brahmacharins or celibates.

He rides on the Vahana, the small mouse. He is the Presiding Deity of the Muladhara Chakra.

He is the Lord who removes all obstacles in the spiritual path and brings worldly success. So He is called Vighna Vinayaka. His Bijakshara is Gang. He is the Lord of harmony and peace.

Lord Ganesha represents OM or the Pranava. Pranava is the chief Mantra of the Hindus. Nothing can be done without uttering it. Hence the practice of invoking Lord Ganesha before beginning any rite or work. The two feet are His Jnana Sakti and Kriya Sakti. Lord Ganesha has the elephant-head as that is the one figure in nature which is of the form of Pranava.

Riding on the mouse represents that He has killed egoism. He holds Ankusa. This represents that He is the Ruler of the world. This is the emblem of Divine Royalty.

In accordance with the legends, Sri Ganesha was the scribe for the Vedic Texts, which he did using his tusks instead of a pen.

His Maha mantra is Om Gam Ganapataye Namaha. Lord Ganesha's Mantras can be chanted out loud or internally. They have been used throughout the centuries and it is believed that the sacred power of words and the accompanying sounds in mantra aid in spiritual progression (transcending into higher states of consciousness) and to effect healing in the physical and energetic bodies.

We strongly recommend the practice of the mantras for a period of 40 days (please see the meaning of the number 40) during a spiritual ritual at the same time every day.
