What's this all about?

The World Naked Bike Ride (WNBR) is an annual event that draws attention to the absurdity of oil dependency and celebrates the potential of cycling and the human body. The overuse of the planet's vanishing oil reserves causes pollution, global warming and leads to war, inequality and injustice. Many politicians want to subsidise/bail-out the car industry. They call such follies progress – but this is progress towards disaster.

The catastrophic effects of climate change are already a tragic global reality and the soaring price of oil a major contributing factor to devastating economic crises worldwide. As the United States faces its **largest ever environmental disaster** due to "Deep Horizon", we demand practical changes to help reduce the ordinary citizen's dependency on oil by making cycling a safer, sensible alternative to car travel.

WNBR is an international movement, with rides taking place in 24 cities across the United States and in over 70 cities in 20 countries around the world. Riding naked emphasises the vulnerability of cyclists on the road, at the same time as celebrating humanity in the face of mechanisation. If it seems a little crazy, think about the total madness of car culture and its inevitable results.

What WNBR NM wants:

- Safer Streets for pedestrians and cyclists
- More two way cycle lanes
- Cycle only zones in our cities
- Expanded and better connected Multi-use trails
- Promote Green Energy
- Support Sustainable Transport

Do I have to ride nude?

No! NM Law requires the frontal genitals of both sexes be covered. Both breast and buttocks of Males AND Females can be legally exposed. But if you're shy, shorts, swimwear, crop tops, body paint or masks are all fine. It's "bare as you dare" within the law and no one will pressure you to take off more clothes than you want to. A perfect body is not required either... we come in all shapes

Location & Event Details:

June 19, 2010 Ride Begins at NOON!
