Meditation: Angelsu To contact Angelsu for an angel card reading, use **angelsu@bellsouth.net**

Using the Angel Cards, Angelsu looks at the coming week: a reading for individuals & the group

- 1st card focuses in on what is needed on the planet for the next 7 days
- 2nd card will represent the remainder of the week
- last card is the special blessing, the gift.

1st card: Card: from **Now to Sunday** - the focus to hold: white and gold butterfly: **Harmony/Balance**
"Everything is flowing as it should. I am happy."

2nd card: Mon – Thurs: golden sun radiating curvy rays of light: **Card of Power, aka Unlimited!**
"Knowing my part in Divine will, I flow with the Universe" - it is unlimited light

3rd card: the gift we can use to facilitate our weekly mission: the yin/yang card **giving/receiving aka Universal flow** "I give, I receive; I receive, I give – in perfect balance."

Mayan Calendar: Rainbird

- **Go to Space2plaza.com** – to locate specific days & lots more information: on the home page, you can find out what your Mayan birthday is
- The link to www.lawovertime.org – more info on the calendar & how the 28 day/moon cycles work.

3rd Thurs – 9 IX – still in wave of Cimi - 9 is expanded cycle; IX is Jaquar medicine/magician; we are in the energy of the solar eclipse right now. We hold up the lantern for others. IX teaches self-empowerment – a visionary aspect.

4th Friday – 10 MEN – Men is the eagle; 10 is manifestation, the planetary tone – manifestation of intentions into reality. She calls it the NESARA glyph

5th Saturday – 11 CIB – Cib the Warrior: about being in integrity as well – continuing on the integrity part from Friday; 11 – letting go of what no longer serves us. Trusting in our journey, bringing awareness & right action; communication with the divine and cosmic consciousness

6th Sun – 12 CABAN – portal day: Caban is the earth; our job is to take care of earth; 12 is about complex stability, clarity in actions, good avenues of energy. Listen to what Earth is saying to us.

7th Mon – 13 ETZNAB – the 13 is cosmic transformation; Etnab is the mirror - another warrior aspect; work on groundedness, wise use of honesty, scrying the unseen; it's the end of wave of Cimi.

8th Tues – 1 CAUAC – International Women's day; a new moon, a solar eclipse – Cauac is the storm. Beginning of a new wave. An eclipse is a re-set & we have the 1 energy of Unity Consciousness

9th Wed – 2 AHAU – rising to Christ Consciousness; it's the sun – 2 is duality, polarity, stability and we're finishing up the 4th Unial

10th Thurs – 3 IMIX - starting a new unial, the 5th, with the 3 tone of activation; the Angel card reading fits right into this

MR: what we are getting is confirmation between the 2 readings, and the solar eclipse on the full moon – an auspicious time: the stuckness is dissipating!

HARD NEWS

- On Wednesday, R got the idea to go the pueblo where the church is; got approached by a Pueblo elder "Four Feathers Re" - he took R to a kiva to show him petroglyphs concerning the Hopi prophecies related to the larger stories about Mr Hair and the current fiasco
 - the kiva is carved out of solid rock – a circular, underground, Hopi ceremonial space: they make a hole in the centre of the circle and you descend via a 30' ladder
 - the **1st set of petroglyphs** told the whole story of the Hopi Prophecies
 - the **2nd set** told the story of the Age of the 6th Sun which began at Harmonic Convergence; we are done with the Age of the 5th sun which began at time of Egypt and which we are ending now. Slowly the energy expands and increases and deepens so there is not a shock to the system [as we move from one age to another]
 - this is the denouement of that which is no longer needed from the age of the 5th sun which is the last 13,000 years and the invasion, occupation of the dragons, the naughty ones
 - the Age of the 6th sun is equivalent to the age of the Sat Yuga - the golden age is the first 2000 years/ Age of Aquarius; the Age of the 6th sun, Sat Yuga, is 4x longer than a yuga. A galactic yuga is 28, 826 years, so the next cycle is 4x that length which is about 108,000 years of peace
 - the **3rd set of glyphs** depicted the blue star kachina and the red star kachina returning to the 4th quadrant of our Milky Way Galaxy; it represents Sirius A, Sirius B, Sirius C and the Sirian Council of 9, of which Obama is the 9th member of that Council
 - the red star kachina represents the ancient beings of Mars which, on this earth plane, represents all the ancient Mayans of this world: this is not just about the colour of one's skin, but about the 13th tribe of Is – Ra – El/Isis-Ra-Elohigh returned: this is really talking about the 144,000 returned representing the Mayan influence: all races, all colours, all creeds, all indigenous peoples across the planet the 13th tribe of Is Ra El, the 144,000 returned – which is us.
- the purpose of [Four Feather's] guided tour is to awaken the consciousness of the people to hour at hand; this is the time for full disclosure and awareness of awareness as the teachings of the Buddha taught us in **Buddha in Redface** [the book we read recently as a group] – no more war, only universal peace and love
- Donald Trump is one of the ancient archons trying to rally again the scattered forces of Lucifer into a unified field; this is already an ultimate failure as the timelines have changed and this is the age of peace and love, and increasing overstanding regarding our multi-dimensionality
- watch March 8 the full solar eclipse – the age of the goddess of faith and Divine Energy has begun, and this energy is going way higher than any of the other energies that have come in.

R: this ties in with full disclosure – Scott Kelly has 1000s and 1000s of pictures of ships that came

and docked at the ISS; he knows all about ET Corey and the Sphere Alliance & can't breathe a word of it; same as Captain Mark Kelly and Gabby Gifford who are members of the 13 families and support gun rights, culture – kind of a twisted issue

R talked to Rana Mu, Anonymous 7½, and an Afghani woman called “Momma”

- Momma knows Mr Kharzi, former head of Afghan gov't, another schill of USA Corp where Afghanistan has been part of the drug running operation
 - she spoke of the cave in Afghanistan where the vimana was found, in operational condition. It is the personal shuttle craft of Zoroaster
 - 8 US soliders died because they got too close when they tried to move the flying machine
- this story is real and it has all the worlds gov't chattering
- Ties into Arc of Gabriel – there are also stone petroglyphs in that cave that tell the story from the sanskrit epic **Mahabarata** – it was 12 cubits in circumference and 4 strong wheels, and describes how it works
 - it's the personal ship of Zoroaster, an ancient prophet and founder of one of the most important religions of all times - this also has to do with the 12 days of Christmas
- Mamma said the story about the Afghan cave is also connected to the Arc of Gabriel, found in city of Riyadh, Saudi Arabia, near the Kabbah stone; she talked of all the ancient sidereal technologies beginning to be found. There are also cryogenesis chambers being found all over the planet: a lot Saudi Arabia, Afghanistan, Pakistan that has to do with the Mahabrata War which was a real event
 - Rana Mu and Nada told R the story of Krishna showing up to Arjuna and showing Arjuna his universal form in the Mahabarata before he went to battle against his own family: were using the same kind of weapons as in Star wars movies
 - the 13 families are drooling to get a hold of these sidereal weapons/technologies which are sentient; these technologies have amino acid computers in them, like those in the ships, and those who approach them with less than the intentions of the Office of the Christ [a conscious pure heart] will be taken out.
- this is only on the fringe of the news etc – not being discussed at the moment because of the influence of nazi thinking: Mr Hair is playing out the story right in front of us of Nazi ideas, ideologies, etc -
 - Thom Hartmann read a story today about a college professor in the times of Nazi Germany – essentially it was “first they came for the christians, then they came for the jews, then for the gypsies . . . ”

MR: a question from a caller: Rama mentioned Is-Ra-el – how does that connect with Mr Hair?

T: are they asking about ISIS tying in with ISIL and/or Israel ?

- remember last week when KOS and Bono called Rama and said that the message from Cobra are tied into the dinar story which is tied into the Phil and Wendy Gramm story who got their NESARA blessings [which was about giving them enough rope to hang themselves – Mother's words], and this is connected to the major evangelical leaders which is tied into the Trump and the Tea Party - and all that is tied into the **agenda makers: the Mossad**, Netanyahu and the others who are really Khazarians and Nazis – they claim to be jews but they are not.
- Hitler was an elitist jew and that is what the Khazarians are; they are not jews in the religious /sense aspect, but in the political aspect, and they are tied into the churches

R: talks of ET Corey – latest story talks of history of the solar system – and time of Madam Blavatsky and into the early 1900s: the Thule society and so on, tied into Aleister Crowley

- as the stories started to leak out because all the explorers were exploring the planet – in this part of the story, a being naming Asket came through a blond, blue eyed girl who was

groomed by the Vrill/ Thule society to be a channel for the pleiadian/syrian beings to channel the vimana blueprint so the inner circle of Hitler's group took the blueprints and built and reverse engineered the technologies and then used it for death – ties into the ancient sidereal weapons a& beings being found all over the planet who are now waking up inside their stasis bodies [cryogenesis chambers]

- when we talk about ET Corey and a lot of his people: they were completely controlled; they got duped and then woke up out of their mind control and got help from the Sphere Alliance, Mother's people

T: connected to Israel – Israel is war criminals, Hitler was part of the Khazarian leadership – they used the technologies, reverse engineered everything and used the technologies for the ethnic cleansing TO THIS DAY. The Quan Yin Trust, the St Germain Trust, are connected to these technologies

KOS this morning: that door where evil dwells has been sealed! There **will not be one thing happening with dinars, dongos, or other currencies because they were planning to ethnically cleanse everyone** they have been promising things to since 2004 - IT IS OVER!

MR: another question: the Gods of Egypt movie – is this about the Annunaki?

R: in a certain sense, yes –they do not portray the ancient rulers of Egypt as benevolent - it's about power and one group of ruling class over

- done by SGI animation: what they show is awesome, yet so much violence and death – don't need to go there!

- James Tymann – March 21st will hold a meditation at next Trump Rally – he will be there with Trump at the rally – wants 100 million people to take part.

T: another part about how Israel fits into this:

- story about Debbie Wasserman Schultz: she received \$2B from Netanyahu to do the bidding of the Khazarian Nazis that Net and the war criminals are
- Today she co-sponsored a new bill dealing with pay day loans, small short term loans meant to be repaid in full on the borrower's next pay day. It might be very attractive to someone living pay check to pay check yet these loans have interest rates averaging 300% nationally.
- Yet thanks to E. Warren there is the Consumer Financial Protection Bureau to protect consumers against predatory lending rates such as the kind charged by these loan sharks.
- this is a Huff Post article: the bill being sponsored would completely gut the Consumer Protection Bureau – this is evil and comes from her allegiance to Netanyahu
- DWS supports Hillary, and Hillary answers to Netanyahu & the Mossad runs the government in the US & the Mossad planned 9/11 – and the [RC] church is behind all of it.
- there are far more people dead than has been reported - today they learned that **from 1980 to now, over 2 billion people have been ethnically** cleansed from the planet by these Mossad people NOT TAKING INTO ACCOUNT WW 1 AND WW 2.
- THE ½ MILLION ARE TO BE REMOVED.

- James Tymann knows all about NESARA.

T: They would like to leave on Sunday, Mar 20, and return the next Sunday Mar 27 – will do the shows from Marshall's house in Las Vegas

- Go to Amazon: Ascension Manual – will find part 1 and part 2
 - the pre-order giveaway is the book for \$4.99
 - 2 guided meditations
 - **Connections** – a book on relationships, the first 3 chapters, by the Collective book is in process
 - **Allowing Ease and Abundance** – releasing the idea of struggle & hard work we inherited from the past.

The Ascension Manual

MR commented on the **colours and the design of book covers:** COR asked for direction about the covers: this new earth is so vibrant and we are caught in our worry thoughts and walk about as if it's all black and white -

- The Collective are using the books to put our energies into higher levels and open up to the beauty and brilliance of the 5th dimension -
- the 2nd manual is based on the model of the 1st manual:
 - chapters begin with a question which come from the readers of the first manual and from the readers of the newsletters COR sends out

Examples of the answers presented by The Collective to reader questions

- more about the new earth: political, monetary changes and other various subjects
 - reads from the answer given by The Collective
Dr Keshe's inventions will not be stopped! He is protected by galactics and angelic presences

MR: where does the information come from? Galactics? Angelic presences?

COR: brings in The Collective to answer that question!

COR/TC: Pleased to hear Rama's story [about going to the kiva]

- where do the ideas for the new technologies come from?
- the higher realms; there are also great telepathic communications between the various galactic races about different technologies and planting ideas in human minds.
- Also, humans are now owning and reclaiming the ingeniousness that is really a part of us and has always been a part of us – moving through our 3D situation
- There are new ideas coming about social programs; technologies about energies; forms of healing; new ideas on education ; telephones will eventually be unnecessary – as Lord Rama was inspired / intuitively knew to go to visit the elders in Hopi land; ideas also come from our own Higher Selves as part of our soul journey; ideas from the elders of indigenous tribes who have been ignored in the past

MR: as our parents grew up during the depression and the ideas of lack – how to we overcome this belief system – how can we ask for help?

COR/TC:

- this belief system is an energetic construct & it is dissolving: it is not difficult to ask for help
- More effective way is not so much to pray "Please help with this" but to put Self in the place of being a co-creator and claim our divine creation abilities and say to our support team [Higher Self, spirit guides, angelic guardians]
 - I now require you to work with me in dissolving all blocks I hold, conscious or unconscious, to receiving the abundance I know is mine. I already know I have more abundance, more wealth, gold than I can use in 100 lifetimes; I know that that energy flows all in, through and around me at all times
 - I require you now to show me the steps to create this in visible terms, in terms that I can put in my credit union account & use to pay bills; I want actual steps, not theory to give me this now
- That is, step up to the role of creator – don't wait; don't ask "Is this OK?"; don't think in terms of "I'll pray for it but I still have my doubts" - create!
 - think in terms of "I am drawing this up now, I am working with the flow of abundance to pay debts, put kids through college, seeing savings increase" - whatever it is - bring that which is flowing all around us, waiting for our beck and call, and bringing that into our physical body, into our atmosphere, into our aura

TC runs through a meditation in which we are working directly with energy

- see the pillar of divine golden light pouring from Alcyone, the great central sun, into our crown chakra & through our body into the centre of the earth and to the great crystals who are our friends and allies
 - any time we want wisdom about relationships, physical, emotional healing, creating more abundance in our lives, go down into the centre of the earth in our awareness and walk through the great crystals as we have no density there and **require their help** – we have the authority to do so as they are there to serve & support us
- see the divine pillar of golden light going down into the great crystals and now the light is lighting up the crystals and is flowing out in divine crystalline patterns and now we have energized the crystals consciously
 - and now see the light coming back up the pillar and through our body/ heart and spreading further and further from our heart and up to higher dimensions and other parts of the universe
 - In our awareness, follow that pillar into the higher dimensions and in our mind's eye, come to the place where there is a sea of energy, the golden sparkles of light, energy that is waiting for us to call upon it to create tangible objects or situations, to form something out of it.
 - see coming towards us a beautiful ball of fiery sparkling light coming toward us which could be a new job, money to pay bills or to go on a trip to a sacred site or to fix something at home, or the creation of abundance consciousness /awareness of how wealthy we are, with the generosity, gratitude coming from the realization of the eternal situation of how powerful we are in this universe and that we will never be without - think in terms of the essence of our request,
 - now we are connecting a ray of light from our heart to this beautiful ball of sparkling ball of light and we are imbuing that light with the characteristics that we want this thing to have, whatever it's for – dissolving debt, going on a trip, etc: think in terms of the essence of the request – and now we are matching our own energy with that of the sparkling ball of light and our entire being: body, emotions, mind, aura - carries that energy: we are vibrating on the same level and we match energies perfectly and we

simply draw all of the energy of that ball of light into our being

- What we have done is anchor the energy of that abundance – the money or the new job or opportunity or whatever it is - into our being, into our own dimension, and our own daily reality - simply continue to do this simple process

- follow the column of divine golden light up into the higher realms; see the sparkling ball of energy, concentrate on the characteristics you are asking for; draw that energy to us and say to guides: tell/show me the next step; I am listening; if there is something I must do further, show me what it is
 - keep returning to the higher realms using this process until it comes to us – maybe the results will come intuitively; maybe it will come to you without much further outer behaviour
 - come out of this 3D paradigm that says the only wealth you have is what you have now – there are billionaires who have a scarcity belief because they think they don't have enough – if you think you haven't enough, you will live that out, no matter how much you get/have
 - If you are terrified to give to others or think that generosity is just for fools or only for millionaires, you're pushing money away from you unconsciously
 - encourage both the realization of how wealthy we are already and the actual practical practice of going into the meditation of creating with what we wish to create out of that beautiful energy
 - That is a beautiful moment for your consciousness because that puts us in the drivers seat – no longer feeling we are just at the whimsey of outer circumstances: we are the ones in charge, the creators, the ones forming the beautiful energy into visible outer form because we desired and decided to do so: creators do this – they explore, they invent, they design, they create from the heart because they desire to do so - not out of desperation - and this is a great leap forward for most people.

MR: thanks TC for what they have shared

TC: we can call on higher beings, our own support team, our own soul, the decisive moment is still our own – we must grab the reins and be the ones who create quite consciously

- this is the 5D life that is calling us now and expecting us to take these actions; it will continue to put us in situations which require us to move into that creator space

- our writer speaks with many who are asking for practical ways for changing parts of their lives which seem sort of stuck; this is the higher self, the soul, the lightworkers' own essence pushing them to look for higher solutions and not just manipulating outer events
- there are certainly things we can do: if we are driving and the tire goes flat, we will be able to change it as long as we have a spare; if the car has stopped dead and we do not have an AAA membership or anyone we can ask to pick us up – these energy processes are wonderful for creating solutions where seemingly there are none: this is how the creator thinks: we drawing – seemingly out of the ethers - a solution, and working with energy first and birthing that into outer form - this is essential to the light workers path at the moment.

TC: Happy to answer any questions

CL: it came across as a practical thing and we have lots of tools; we just need to shift out some of the older for the newer ones, and the meditation seemed so right for the moment

TC: what she is responding to is the expansiveness of the idea; when troubles assail us – health, finances, family issues - our energy contracts and that contractions shuts down possibilities of new ideas, being open to one's intuitive messages from guides, inner self – it's like hanging up the phone line.

- If we can sit quietly and listen and say to our guides:

- “ I require your input here; if I do not hear you inwardly or see an image in my mind, then

you need to send me this guidance intuitively via infused thought – as if it were my own idea or came out of the blue, just give me a feeling of rightness here and let me know”

- this is starting at the centre and at the beginning, rather than than looking for a solution from the outside

1-888-429-5471 is the call in number

MR: Knowing that we will be working with new energies, frequencies, new sounds – any guidance for working with those new frequencies

TC: many lightworkers are already doing this in their etheric bodies at night; the tonal frequencies work with the re-workings of light and colour and the tonal frequencies that are used in the endeavour to shift human consciousness – it is so important and there are no human words to express how important this is

- this is why we hear of the galactics coming in and the blue avians shielding us from the higher frequencies which would shock our bodies, and filter some of the frequencies so they reach humankind and the earth and they open up the consciousness so we ask questions that we would not have asked a year ago – put me in touch with someone who works with music, tones, chants: there are angels all round the earth chanting at certain tones and using what seems to be a form of technology in terms of how humans understand quantum physics to work which is not quite the correct word:

- yet the frequency with which humans now vibrate – and earth's frequencies are faster than humans and she is already in the 5th dimension; humans must keep up and integrate with the energy of the galactics around us to become part of the intergalactic confederation and of the 5th dimensional earth which is being established.

' I am requiring you to put me in touch with beings in touch with the Office of the Christ who will aid and assist me in a conscious way is doing this work. I require your guidance in this – just show me the first step.'

- Then expect it and start to speak with these beings as if they are in the room with you – which they probably are!

' Greetings, friends; how may I help? I have intuitive understanding of your work – show me how I may help you, be involved. Write down dreams even if you don't understand what they mean – the pieces will begin to come together

CL: just on amazon, ordered a kindle by accident -

T: Sister Michael came over and brought something from another master, similar to what TC have said: T reads it

- it's from Rajanesh: the masters cannot tell the truth even if they want to – their function is to call forth the truth which is in us – they can wake us up, shake us up; they cannot give us god/goddess/nirvana - we are born with the truth, it is innate, it is our very nature – Truth cannot be given; it is in us. It can be called forth, it can be provoked; a context can be created; a certain space can be created and can arise in us – the function of the Master is much more complex - indirect ways and means have to be devised [for us to recognize the truth].

TC: many millions are on the threshold of awakening – the average human being, lightworkers beginning to awaken and there are hordes of powerful, gargantuan higher beings waiting to have us admit that they exist and wishing to assist us.

MR: question from someone who experiencing very intense ascension symptoms

TC: call on your guides again: tell them to serve as filters first and give them to me in smaller amounts so I can stand it. If you can swim or take a shower or a bath: drink plenty of structured water; practice meditation, yoga – there will come a time when these higher energies are more fully integrated with the physical body

- Every morning, have something to eat and then speak to your support team.

- no sugar, no caffeine, no meat, no dairy and **begin NOW** – they will trouble you on every level.

COR: go to google and get a kindle app – will take you to amazon
tam2gifts@gmail.com - forward the receipt to her, and she will send the pre-order gifts

www.carolineoceanaryan.com has info about the book, pre-order giveaways

- in both manuals, chapters on ascension symptoms
 - talk about people being mired down
 - chapter on finding life purpose, how to create it
- thanks to MR, the team, BBS folks who are so helpful!
 - In general, she gets comments with people feeling very impatient: why do we keep hearing “soon” in regards to the coming of NESARA?
 - The Collective say: it is an unfolding, not a sudden event; has to birth; train yourself to look for the signs of it unfolding; our positive feelings about NESARA, about divine government, about divine sovereignty and other items help bring things forth
 - **wake up in the morning and give thanks and have the feeling that it is already here: the universe will reflect that back to us, as the Universe does not make a difference between what you imagine and what you see in front of you physically**

T: that question comes to T & R a 100 times more than COR gets it

- the reason it cannot happen – it would change the timeline
- the story of the crucifixion did not need to happen: Asthar could have stepped in – but it is not allowed:
- nor can T & R get money from Faction 3; it changes the timeline – it has to come from the rest of us as we learn to do things together.
- **It is for us to actualize and realize that we wanted to teach ourselves what love can do when we do it together**

COR: It is not a rescue operation but for us to feel empowered and to step into our co-creator abilities and our lightworker 5th dimensional abilities, and no one can do this for us!

T: this is the first time in human history that this has happened!

MR: closing comments.
