One of the most important qualities that a person can have in life is that of initiative--being decisive in determining what needs must be met, how to implement them, and bring them to a final and successful conclusion. This is a quality that seems to be lacking in many people in our society.

At **The Word of God International University**, we seek to assist every student develop inner character to enable him to locate the needs within the world through the loving eyes of Christ; then, to be able to initiate and complete those important projects for Him. As part of this thrust, it is important that each student realize that it is he, himself, who is ultimately responsible for his own work at the university. Although we will do all we can to assist, it is he who must provide the effort to succeed in beginning and completing his education. That entails studying this catalog, schedules, attending classes, completing assignments taking exams, paying his bill, and scheduling his time accordingly. He must do whatever is necessary to bring his work to fruition.
