

ACADEMIC POLICIES

Transferring Credits

The goal of **The Word of God International University** is to train men and women of God, who love Him with all their heart and have become knowledgeable and competent in the Bible and Theology. Requests to transfer credit from another university are carefully evaluated before acceptance. The following standards apply as a minimum:

- ◆ The student must furnish an official, sealed transcript from the previous university(s).
- ◆ The university(s) must be accredited or approved in California. If not, the Academic Director must make an objective analysis of the quality of the institution based upon its catalog, the information listing of the university(s), contact with the university(s) or others who are familiar with it. A perusal of the student's course syllabi and class notes may be considered.
- ◆ Courses that are direct equivalent of courses at **WGIU** will transfer. Courses that are similar may transfer with partial credit. Courses that are different, but would definitely contribute toward the specific degree sought, may transfer at partial or full credit.
- ◆ No degree will be issued to a student who has completed less than one year (96 units) in residence at **WGIU**.
- ◆ In every case, the decision of the Academic Director will be final.

Auditing

When a student does not wish to log credit for a course, this is referred to as **auditing** a course. No homework, tests or attendance requirements are involved. The cost is one-fourth the normal fee. The *auditor* simply sits in the class and listens.
