

## Stage Plot

**2 ARMLESS CHAIRS 18-19 inches in height from bottom of floor to seat bottom, NO STOOLS, NO FOLDING CHAIRS, NO WHEELS, NO SLANTED or SHAPED SEATS.**

2 VOCAL MICS - SM 58 style (for speaking only) 1 w/ boom stand , 1 no boom

AC POWER - run to on-stage, 2 (power strips to reach each performer)

6 XLR's cables to house from Montana Skies' (we will bring DI's, please provide 2 backups)

Cables: 6 XLR's and 2 powerstrips (if flying, we may need 9 1/4 inch cables as well)

2 Wedge Monitors with separate Monitor mixes for each.

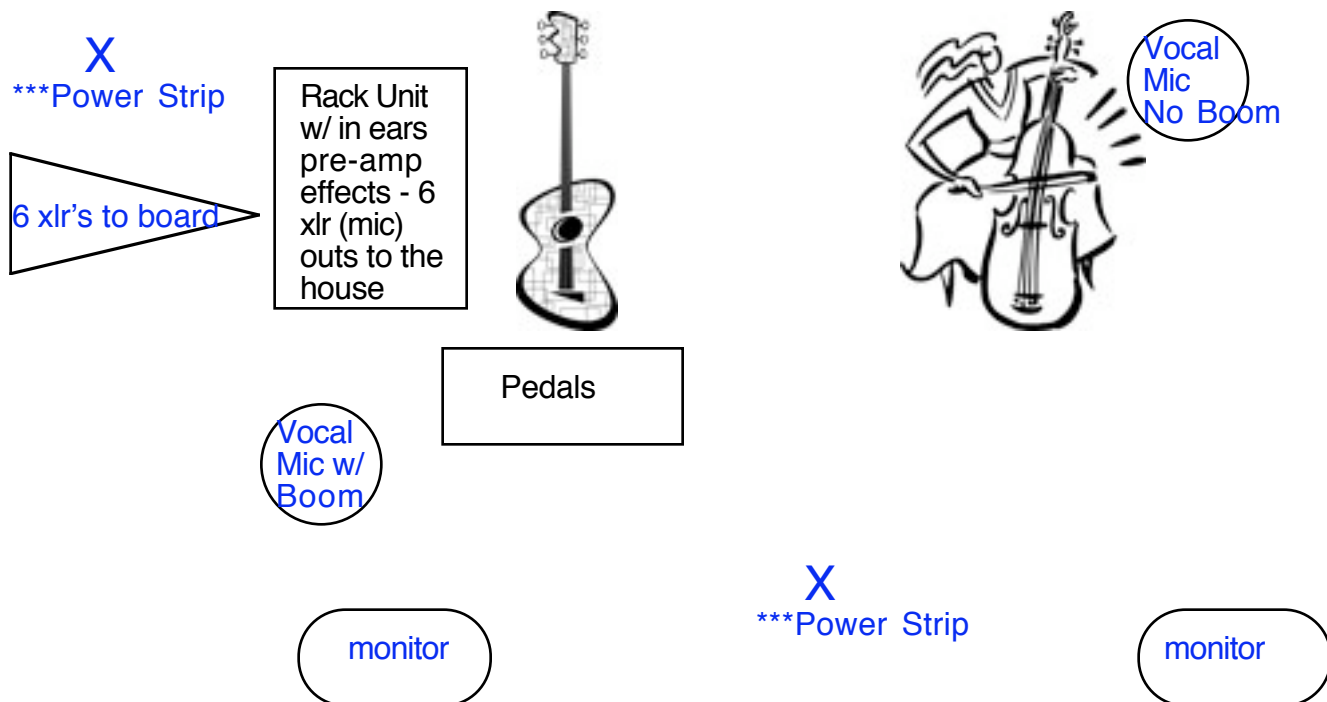

Load-in/Load-out: If you have volunteers or stage hands to help with load in load out and cables, it would be greatly appreciated.

One 8 x10 Decorative Carpet (must be clean and w/ out stains)

House Speakers should be adequate for seating plan and free of hum or distortion. Montana Skies use the full range of the PA. The addition of subs is preferred.

House mixer needs at least 8 open channels.

**Backline Provided by Presenter Tech are in Blue on Plot. (CHAIRS AND CARPET ARE NOT SHOWN ON PLOT BUT ARE TO BE PROVIDED AS DESCRIBED ABOVE.)**
