HARD NEWS

- Melissa was good today: dealing with more layers
- Jade Helm are doing their thing underground: planning to do Independence Day #2

R: at the Lady Bug Cafe, met **4 Pleiadian women** this time; they had a video phone so he got to see **Tom the Cat** while they talked

- They explained: like David Wilcock is talking about, but he does not go into the depth these ones are going into; he's trying to walk on both sides of the fence – with Alex Jones, Ben Fulord: he does not believe in NESARA - have to read between the lines as he does not invoke the Office of the Christ
- when you work with these beings and the space commanders, the Law of One is #1 and income inequality is the 1st issue. 1/10th or 1/32nd, the filthy rich who come up with ideas and see them translated by Hollywood
- The rainbow crystal children who are here have discerning consciousness: they know what is true, you cannot hide the Office of the Christ cannot be duplicated in technology like the super collider – it is about love
- What they shared today is that we are at the end of line; all they have is F E A R, and they cannot detonate the nukes, tho' they have lots of TNT [thanks to the Duponts] – it's like the silver tongued one who looks like an angel and talks like an angel - yet even Luciferia has come back to love, and we are still watching the matrix and the games going on that separate the mind and the heart.
- Dancing with the fairies is the only way we can make it through this illusion. What is going on here – the issues at hand are coming frayed ends: they are out of time, out of money, but not out of love – they are still playing with the idea of the separation of the mind and the heart and they would rather go to 2nd death than come back to love.
- The 4 Pleiadians and Tom shared: these lifeforms that are co-creators of the Most High; they played with Luciferia and his followers; one third of the angels and the archons and lots of other folks that play both sides against the middle: the Office of the Christ and free will choice -- these are words from Creator Source
 - there is no more playing on the fence; we are at the last moment: we are in the last days – THEIR last days, not ours!
- There are more portals opening up all across the planet.

R: this is the story in David Wilcock's writing re is a so-called belief in the Illuminati and Mother's wayward children think that they have to die and get re-born and in that context getting beheaded as in the Highlander -

- The **Horus people** are here too – the blue helmeted avian people, the hawk people, sons and daughters of Horus – they are messengers from a higher plane, announcing the arrival of the original ones who have always been here in this local Universe of Nabadon - The Watchers or The Time Lords who take care of time consciousness and help smooth things throughout space, time and reality The Karmic Board and others who sit before the Throne of Mother/Father god – enough is enough!
- The goddess is here; she's black and she'd beautiful and she's #1 starting this story – Happy Mother's Day and she means business
- These ones are going to 2nd death and they are NOT GOING TO GET RESURRECTED by their so-called overlords – it's over; we're in Sat Yuga!

Camp Lovewave: had on the horse whisperer

- has talked to a llama, a hippo, a gazelle, dogs and cats: all saying "watch our sun SOL – there are frequencies and changes going on in Sol which is a direct reflection of Vesta which is a reflection of Sekmet and Alcyone –what Mother and Alcyone are pouring into the western arm of the Milky Way Galaxy and the frequencies are raising
- the silence is golden; listen to it as something is in that pregnant pause: maybe the calm before

the storm. Has to do with Mother's children: we are plunging head long into the Dark Rift, so let us do what we choose, and they want to take us with them. You do not get in the way of a soul going home even if it is the Dark Rift.

- Taren said on air: the Bush / Clinton crime family did 911 and to this day not one person has paid the price; he also said that 78,000 + died – and noone else is saying it – except Katrina VanDen Heuval
 - as disclosure happens with 911 – and Mr 19,5* has mountains of evidence to lay before us – will change everything; we are entering Star Fleet Academy. He is assigned to his ship; what ship are we assigned to?
- T: It is still a chess board & they are planning the alien invasions
- they are going to have to pick up their tails and go home, in shame, AND WITHOUT THEIR BODIES. The recovery process they keep running . . .
 - Did they say anything about the actual [financial] crash showing up? Yesterday the markets went up to the 18,000s, thanks to the A I of matrix doing the trades for us; it is run by the silicone crystal energy & the A I knows: it will give a signal and all turns off and then turns on and we will hear the voice of Captain Ashtar.
- T: Melissa did a good job on issues – R: granted the [new] AG [Loretta Lynch] has ties to Wall Street, yet the police have become Mad Max and the terminators – need to go back to school and learn about the heart
- Will play Bioneers 2009; then Robert Scheer from Truth Dig - he knows where all the bodies lie and 911 – the piece is called “they know everything about you is the name of the show”
 - Glass Steagal Act replaced by the Financial Services Modernization Act which gave the markets free rein

Audio: Naomi Klein: Speech at the 2014 Bioneers Annual Conference.

- Begins with a trailer for the book: our economic model is at war with life on earth; we cannot change the laws of nature, but we can change the laws of money

The award-winning Canadian journalist, international activist and best-selling author (The Shock Doctrine, No Logo) depicts climate change as more than an “issue.” It’s a civilizational wake-up call delivered in the language of fires, floods, storms and droughts. It demands that we challenge the dominant economic policies of deregulated capitalism and endless resource extraction. Climate change is also the most powerful weapon in the fight for equality and social justice, and real solutions are emerging from the rubble of our failing systems.

After 9/11, increased funding for the NSA and other government programs dramatically increased the capacities of our surveillance state. Now, Robert Scheer (editor of **Truthdig**, and author of **The Great American Stickup**) pinpoints the government programs—and private corporations—that are snooping on people's private lives. *They Know Everything About You* details Facebook's manipulations of people's emotions, government use of data for defense purposes, and other technology-enabled spying. He'll outline how some of these methods-enabled under the guise of safeguarding America—are actually destroying our democracy, one gigabyte at a time. Scheer's vision for the future, one where the surveillance model is resisted and the public fights back, might change the way we look at technology.

Audio: Arundhati Roy & Siddhartha Deb of The New School [SEE BELOW]

Arundhati Roy reads from, and discusses, her latest book 'Capitalism – a Ghost Story', at an evening organised by New York's The New School.

Arundhati Roy, with her unique combination of storytelling skills and political insight, discusses her new book *Capitalism: A Ghost Story* (Haymarket Books), at an evening hosted by New York's the New School.

Capitalism: A Ghost Story examines the dark side of democracy in contemporary India, and shows how the demands of globalized capitalism has subjugated billions of people to the highest and most intense forms of racism and exploitation.

In discussion with fellow Indian author Siddhartha Deb (author of *The Point of Return*, which was a 2003 New York Times Notable Book of the Year), Roy touches on lots of different topics about contemporary India.

Of particular interest is their discussion (around the 1.09 mark) about censorship and the Wendy Doniger case (where her book, *The Hindus, an alternative history* was, after protests by a right wing group, recalled and pulped by Penguin India). Roy comments "It's quite fascinating that as you legislate more about free speech, and as you make more of a song and dance about free speech, in fact, in India what the Urdu and Persian poet Ghalib could say, in the nineteenth century, about his relationship with Islam, nobody could say today. "

ASTROLOGY **The Pele Report for May 5, 2015**

My ego is the sword in the blacksmith's fire,
Being heated and hammered by Spirit's desire.

As soon as I fathom where my truth lies,
Like the phoenix from the ashes I know I shall rise.

Well, I didn't even get to the Sabian Symbol for the 3/4 Moon in Aquarius this week: "A disappointed and disillusioned woman courageously faces a seemingly empty life." This symbol represents the human capacity to learn and grow through emotional crisis, AND, as Dane Rudhyar states: "But like any other faculty it needs development." Yikes! I know it doesn't sound too appealing, but coupled with ol' Saturn in Sag (for like the next 3 years!) we're in for a time of truth telling and finding that will put humanity on a solid foundation to really build a New Paradigm.

We can also look forward to the shift that will be coming next week as Venus in Cancer and Mars in Gemini signify both a softening up and a speeding up of what might seem now as drudging through the mud haha! From Kings and Queens to pawns we're on this planet together.... woo hoo!

CONFERENCE CALL

[http://www.freeconference.com/RecordingDownload.aspx?](http://www.freeconference.com/RecordingDownload.aspx?R=15201056&C=723&E=819148)

[R=15201056&C=723&E=819148](http://www.freeconference.com/RecordingDownload.aspx?R=15201056&C=723&E=819148)

NOTE: This recording is the entire call as it was heard on the conference line; you will have to skip forward to hear the one hour segment that we don't hear on BBS.

Caller: has read that the military are aware of the ship sightings, and are choosing not to respond

- It's been a policy for the last 60 years – when they do something stupid [like firing at ships] a force field is set up and they crash into it, and they are taken aboard the ships and the plane is shattered. The pilots then wonder if they have died and gone to heaven.

Caller: seems to be no reaction to the sightings; are the 13 families doing anything about them?

- They are desperate; they have cannibalized their own system and they have no out: cannot get off the planet and are at the behest of We the People. And we have lots of problems with our own people – those who are millennials: when we were young, we had some freedoms.
- With the Koch Bros controlling what is being published for school books – they are behind the private schools and the charter schools, and the teachers they choose for those schools; they have no benefits or anything and are required to teach what they are told. [The kids today have far less freedom than we older ones had.]

Caller: why is the standardized test regime -

- they are evil and want only programmed robots who do what they are told. The US is way down in industrialized nations [in terms of education]. There are all kinds of alternatives being created by the parents and this cannot be stopped – late 60s and 70s; they saw MLK, Fred Hampton, Malcolm X go – they knew all about the Students for a Democratic Society

Caller: what do you make of ?? had a fling with Hillary in the 70s? Saw it on the internet – she knew Hillary because they were both activists, got closer and had a fling!

- Hillary has been gay all along; the marriage was arranged to unite the families. ? Hubble is Chelsea's father; Hillary's mother's lineage is DuPont; her paternal grandfather is Hitler. DuPonts produce all the military weaponry. Dropped barrel bombs filled with chlorine – in a northern town not far from Aleppo – 80 people died from chlorine poisoning.
 - On the Charlie Rose show & Bashiro Assaud with the Koch Bros on the board of PBS. Charlie has always worked for the 13 families since he was very young. When Amy Goodman came on Charlie Rose, she hit him hard on the subject of no weapons and he got all red and upset.
 - When Arundhati Roy was on his show, she also took him on. On the program tonight, Arundhati Roy said how Gandhi absolutely hated the people of colour in South Africa.

Caller: about George Lucas – he had a channel for the info – if he knows so much truth and is still alive – how is that?

- He is part of the very rich and wealthy ones, knows how to stay alive, as does Spielberg who has more of the dark side to him, yet he still put out *Schindlers List* and *Braveheart* in Scotland – people have to get it that in about 100 years, over 2 billion of us have been killed by them. The idea of people getting together is really happening now – has another article called “ Ets and the new Cosmology” she wants to read [Sr Stephen Greer]

Reading: Benjamin Fulford

[SEE BELOW]

Caller: asking about Jade Helm, meaning Joint Assistance for Deployment for Execution and Homeland Evacuation of Local Militants.

- Yes, it's a Black Op –

Caller: has heard about people being taken to FEMA camps – heard it's real, actually rounding people up already.

R: they are actually setting up Independent Day 2 and blaming it on alien invasion

- yes, they are blaming things on a potential alien invasion; yet this has been going on for a while – like around 100 years. What they are pushing is a F E A R agenda: there is no organized religion that, at the top, is not twisted / Luciferian at the top – another example of people just accepting their word; as long as people support those churches, they are caught in the trap – not nice.
- What is going on is not unusual: they are saying things to scare people but it has been going on for 100 years + and they are working harder to scare people because people are fighting back. It's a very hairy time – and now there's Bernie Sanders running for President.
- Until lately, he's been no challenge at all – just a farmer!
- T wants more detail from Rama about how they are going to stop this – they are getting more sophisticated: abductions, murders – wrap the whole thing in the Violet Flame.

R talks about the 4 Pleiadians who are here and that they said it would be taken care of.

- on both side of the pond, the Bundestag and the NSA are in hot water; every judge is a lawyer and suddenly the fear of getting themselves arrested – now the judge in NY says no Section 2 for you!
- We may not stop what our job is now: as Nassim said, there is lots of water on Mars, and it can be extracted; a scientist came on thom hartmann and talked about devices that can extract water from the air and get 1000 gallons per hour. They are trying to scare us even more – people don't want to believe that 78,000 died in 911, nor that 2 billion people have been killed, disappeared in the last 100 years,

Reading: picks up at the 4th paragraph of the Ben Fulford article – LISTEN TO THE ENTIRE RECORDING TO HEAR ALL THE INSERTED COMMENTS.

Sarah Kay & Phil Kaye, Project VOICE, perform "an origin story", the story of how they began. Project V.O.I.C.E. (Vocal Outreach Into Creative Expression) is a national movement that celebrates and inspires youth self-expression through Spoken Word Poetry. Conceived in 2004, Project V.O.I.C.E. encourages young people to engage with the world around them and use Spoken Word Poetry as an instrument through which they can explore and better understand their culture, their society, and ultimately themselves. Project V.O.I.C.E. brings together performance, writing, and a supportive environment to inspire youth to recognize that their views are significant, valid, and necessary.

<https://www.youtube.com/watch?v=DxeBPkIEPVM>

Uploaded on 14 Jan 2011

Nassim has spent most of his life researching the fundamental geometry of hyperspace, studying a variety of fields from theoretical physics, cosmology, quantum mechanics, biology and chemistry to anthropology and ancient civilizations. He discovered a specific geometric array that he found to be fundamental to creation, and the foundation for his Unified Field Theory emerged. His most recent paper The Schwarzschild Proton, lays down the foundation of what could be a fundamental change in our current understandings of physics and consciousness. Mr. Hamein has directed research teams of physicists, electrical engineers, mathematicians and other scientists. He has founded a non-profit organization, the Resonance Project Foundation, where, as the Director of Research, he continues exploring unification principles and their implications in our world today. Nassim joins us to discuss his paper on the Schwarzschild Proton. Topics discussed: the Holographic universe, infinity, the field, vacuum fluctuation, energy, quantum theory, Large Hadron Collider, Higgs Boson, quark, plasma fluid, the strong force, black holes, Casimir effect, holographic model, dark matter/dark energy, Fleischmann-Pons fusion and more.

SOLD OUT - Capitalism: A Ghost Story -- An Evening with Arundhati Roy and Siddhartha Deb

[John L. Tishman Auditorium, University Center](#) 63 Fifth Avenue, Room U100, New York, NY 10003

[The School of Writing](#) at The New School and Haymarket Books present a reading and conversation with **Siddhartha Deb**, and acclaimed novelist and essayist **Arundhati Roy** on the occasion of the launch of her new book *Capitalism: A Ghost Story* (Haymarket Books).

From the poisoned rivers, barren wells, and clear-cut forests, to the hundreds of thousands of farmers who have committed suicide to escape punishing debt, to the hundreds of millions of people who live on less than two dollars a day, there are ghosts nearly everywhere you look in India. India is a nation of 1.2 billion, but the country's 100 richest people own assets equivalent to one-fourth of India's gross domestic product. *Capitalism: A Ghost Story* examines the dark side of democracy in contemporary India, and shows how the demands of globalized capitalism has subjugated billions of people to the highest and most intense forms of racism and exploitation.

Arundhati Roy was born in 1959 in Shillong, India. She studied architecture in New Delhi, where she now lives. She has worked as a film designer and screenplay writer in India. Roy is the author of the novel *The God of Small Things*, for which she received the 1997 Booker Prize. The novel has been translated into dozens of languages worldwide. She has also written several non-fiction books, including *The Cost of Living*, *Power Politics*, *War Talk*, *An Ordinary Person's Guide to Empire*, and *Public Power in the Age of Empire*. Roy was featured in the BBC television documentary *Dam/age*, which is about the struggle against big dams in India. A collection of interviews with Arundhati Roy by David Barsamian was published as *The Checkbook and the Cruise Missile*. She is a contributor to the Verso anthology *Kashmir: The Case for Freedom*. Her newest books are *Field Notes on Democracy: Listening to Grasshoppers* and *Capitalism: A Ghost Story*, published by Haymarket Books, and *Walking with the Comrades*, published by Penguin. Roy is the recipient of the 2002 Lannan Foundation Cultural Freedom Prize.

Siddhartha Deb, who teaches creative writing at The New School, is the author of two novels: *The Point of Return*, which was a 2003 *New York Times* Notable Book of the Year, and *An Outline of the Republic*. His reviews and journalism have appeared in *The Boston Globe*, *The Guardian*, *Harper's Magazine*, *The Nation*, *New Statesman*, *n+1*, and *The Times Literary Supplement*. He is also the author of *The Beautiful and the Damned: A Portrait of the New India*.

Skill: follow the clues

True Alignment: re-evaluating values, ventures, investigative, heightened intuition, doing things a different way, uplifted, fleeting inspiration, inquisitive, mysteries and revelations, seeing what was missing, return to a state of love, receptive to messages

Catalysts for Change: blaming others, refusing new opportunities, reckless, knee-jerk reactions, wasting time and energy, wound up, collisions of worlds, tempted into a dark mindset, arguments, hiding things, running around, imbalance of power, cowardly actions, out of bounds and over the top, crazed

Sabian Symbol for the Lunar Month: "the music of the spheres"

The Great Sphere, the Sun, sings.

From spaceweather.com:

"During the early hours of May 9, a magnetic filament snaking over the Sun's northeastern limb rose up and flung itself into space. While the eruption was underway, another magnetic filament...also erupted. The two *wild* filaments combined to produce a bright CME."

The CME activated the energetic of the Sabian symbol "a hidden choir singing during a religious service." The message from the Sun is *you are not alone*.

The beautiful CME occurred Saturday, May 9 at 1:42 am ET/5:42 am UT. The Sun seems to have been careful in the way the CME was launched-- via two magnetic filaments and not

primarily from the sunspot that was facing Earth. The energetic fields of our bodies are affected, regardless of the direction. Your sleep may have been disturbed if it was sleep time for you. But what a lovely message! In perfect alignment with the mission of Disseminating Moon phase to deliver messages, the day was all about messages and dreams and magic carpet rides of consciousness.

Lofty messages from on high continue this weekend with the Sun reaching the degrees of "wisps of clouds, like wings, streaming across the sky" on Saturday and "a moving finger points to significant passages in a book" on Sunday. So we are receptive to clues, background music or conversation, synchronicities, and patterns. The information and messages we receive are intended to progress and re-align things toward what is more open, supportive, and effective for us.

There is even more to this CME, however. The degree of the CME, "a hidden choir singing during a religious service" happens to also be the degree of the Capricorn New Moon on January 9, 2016. In place with the New Moon in Capricorn will be a Grand Cardinal Cross between the Sun, Moon, Pluto, Uranus, Eris, and the Black Moon. This blows my mind a little and will take some time to process. It follows that clues which provide foresight into what is highlighted for that time would be available now. Overall, this Grand Cardinal Cross is about rebirth. It bodes very, very well for humanity.

This weekend's energetics are expansive and send us into uncharted territory of the mind. We have a solar soundtrack on hand courtesy of the divine being the Gnostics tell us is named Sabaoth - the Sun. Enlarge your sphere of influence or operation. Pioneer into new lands and experiences. Share. Find beauty. Listen to the divine sounds of the music of the spheres.

Happy Mother's Day to all the moms!

(Happy birthday to wise owl and long-time pioneer of the music of the spheres, [Constance Demby](#), who is completing her new album. The world loves and thanks you, Constance!)

(The first recording of "Parliament of Wise Owls" was recorded yesterday and now posted at the top the page and the YouTube version is in process. Andrew, Sol, and I hope you enjoy it as much as we did.)

Thank you for supporting The Oracle Report!

Benjamin Fulford: May 4th 2015 – Chaos in US as international bankruptcy of US Fed faction sinks in

Chaos is increasing inside the United States as the US Khazarian controlled faction of the Federal Reserve Board continues to be shunned by most of the world. In response, the Khazarians are desperately trying to provoke race riots or otherwise get arms bearing US citizens to fight the US armed forces and police. At the same time, the US armed forces and agencies are moving against both Israel and their US based Khazarian proxies, notably the Bush/Clinton/Rockefeller crime family.

In what Pentagon sources say was a direct message to the Rockefeller family, Dave Goldberg, the Chief Operating Officer of Facebook, died in mysterious circumstances at age 47 last week.

http://www.nytimes.com/2015/05/03/business/dave-goldberg-47-surveymonkey-chief-and-sheryl-sandbergs-husband-dies.html?hpw&rref=obituaries&action=click&pgtype=Homepage&module=well-region®ion=bottom-well&WT.nav=bottom-well&_r=1

Facebook is owned by David Rockefeller grandson Mark Zuckerberg. Pentagon sources say this was a message by the armed forces to the Silicon Valley oligarchs that from now on the high tech industry in California would be under military control.

To understand the frenetic power struggle now taking place in the US, it is worth taking another look at the secret history behind the ongoing US corporate government's bankruptcy. More of this was revealed at a meeting last week between representatives of the White Dragon Society and Chinese royal family members. The Chinese royals presented documentary evidence that will force a change of how 20th century history is written. [comment on RT and the honouring of the people lost during the wars] The documents describe secret agreements between US Presidents Franklin Roosevelt and Harry Truman, Chinese Nationalist ruler Chiang Kaishek and members of the Manchu royal family. The documents show how Roosevelt, Truman and US Secretary of State George C. Marshall, over time, took 20 ships laden with Manchu gold to the US and fraudulently used the bullion to finance Roosevelt's New Deal and the Marshall plan.

The gold was taken to the US starting in the 1930's under the promise it would be used to finance the development of East Asia and the creation of a federation that would include Manchuria, China, Korea and Japan, the royal family sources said. The Americans also gave the Manchurians plates to allow them to print US dollars.

The two current heirs to the Manchu gold are Kim Young Hee (□□□) and Zhang Sheng Zhi? (□□□). They claim there have been numerous attempts to kill them and replace them with look alikes so, as a security measure, they have asked that their pictures be published as seen below:

Photographs of their ears have also been taken as an extra precaution.

The reason these two people claim they are being chased is that they have the legal rights to gold worth about \$30 trillion.

What is happening is that, at the highest level of global finance, paper and numbers written on bank computers are not accepted as currency. The owners of the US branch of the Federal Reserve Board (Bush/Clinton/Rockefeller etc.) are being asked to pay their debts to the rest of the world in gold. For that reason they are desperate to try to stake a fraudulent claim to the Manchu gold they stole all those years ago (and have long since used up). They will not get it because the whole world is sick and tired of their criminal antics.

In fact, looking through a gold lens sheds a whole new light on many recent historical events. First of all, the Lehman shock of 2008 came because the corporate government of the United States failed to make a gold payment that was due. That led to a temporary cut off of US trade. The US Corporate government then managed to get a large gold loan from the Ming dynasty faction in Asia on the promise that Barack Obama would be made president and the US would reform itself.

After Obama's actions showed that he was no better than George Bush Jr., the Ming gold dried up. US cabal staged events since that time have all been in search of gold and financing.

The red shirt movement in Thailand, for example, was really aimed at getting custody of the huge historical Thai royal gold stash. The "Arab springs" in Tunisia and other Arab counties were also aimed at the gold stashes these countries had. The invasion of Mali was staged to seize gold mines there. The tsunami and earthquake attack on Haiti was also aimed at getting gold mining rights. The invasion of Libya was an unsuccessful attempt to steal Colonel Muammar Khadafi's gold. The March 11th, 2011 tsunami and earthquake attack on Japan was also aimed at extorting Japanese imperial gold.

So now, the cabalists are frantically hunting royals with claim to historical gold troves. The reason the Obama regime has suddenly been sucking up to Iran so vigorously is because the Persian historical gold trove is worth \$46 trillion, according to the current heir to the Persian throne. The Iranians have responded to this US foot kissing by publicly blaming the US government for 911 and telling many other truths. In any case, the heirs to the Persian fortune have made it perfectly clear the US cabalists will never get their hands on their gold.

One recent new indicator of the world wide boycott against the US based Khazarian cabalists was the National Association of Credit Manager's report that successful US loan applications since the end of March fell by more than 40% year on year. The fall was almost entirely due to a stoppage of trade credits, according to the association. The US government later forced them to "revise" away this ugly truth.

However, the fact that over 6000 US retail shops have recently been closed illustrates how the US corporate government and their American debt slaves can no longer borrow money to buy trinkets from the rest of the world. More proof of bigger than Lehman US economic collapse can be found here:

<http://www.zerohedge.com/news/2015-05-01/we-just-broke-2008s-record-fastest-economic-unraveling>

That is why rent a mobs are being paid with Fed funny money to try to start race wars in

Ferguson, Baltimore, Seattle and elsewhere. The Feds are hoping to use the unrest to trigger a civil war in order to distract attention from their own problems.

There was also a big push on the internet to use cabal controlled web sites to push "Jade Helm," a psychological warfare operation against the American people and US military. There was further what seems to be an attempt to give some credibility to widely discredited fake opposition blogs and radio shows by staging what appear to have been murder attempts against two of them: Stew Webb and Jeff Rense.

[/alternative/2015/04/attempted-murder-of-two-radio-show-hosts-within-24-hours-alternative-media-strikes-back-3146208.html](http://alternative/2015/04/attempted-murder-of-two-radio-show-hosts-within-24-hours-alternative-media-strikes-back-3146208.html)

Just before the apparent attack on Webb, somebody contacted this writer and told me Webb (who I had never heard of) slandered me by calling me a "disinformation agent." My response was to quote the Arab saying: "the dogs bark but the caravan roles on." However, in retrospect it now seems this was an attempt to get me to say something hostile about Webb just before the "attack" on him. Jeff Rense has also highly discredited himself with all the nonsense he has spewed out about Fukushima. However, I tried to contact him to confirm if he had really been attacked only to find out I was no longer allowed to e-mail him. My understanding, based on a lot of different evidence, is that Rense is a front for the Bush family and, until I hear from him otherwise, that is line I will take. Nonetheless, as a journalist who has had many colleagues killed and who has personally survived multiple assassination attempts, you may be sure I am vigorously opposed to the murder of journalists and even propagandists.

These two "murder attempts" by the way, came at around the same time a scheduled major US radio broadcast by me on the show "Caravan to Midnight" was cancelled at the last minute due to a "major server attack."

In any case, these increasingly clumsy attempts by cabal agents to start race riots, promote attacks against the military and spread confusion in the alternative media are all signs of desperation.

The desperation is becoming palpable now because of what just happened to Saudi Arabia, one of the US Khazarian factions' last sources of money. The Pentagon and the Iranians forced Saudi's new king Salman to fire crown prince Muqrin and Saud Al Faisal (who has been Saudi foreign minister for the past 40 years). They were fired to remove Bush influence from the Saudi regime and to force an end to the attacks on Yemen, Pentagon sources say. The Pentagon sources are saying they are still seriously thinking of allying with the Yemeni Houthis to carry out a complete regime change in Saudi Arabia.

The other cabal slave regime that is in trouble is Prime Minister Shinzo Abe's government in Japan. As predicted, Abe read a humiliating speech in front of the US Congress and Senate last week that made it clear he was not a Japanese Prime Minister but just a US cabal paid actor reading a script. The US military needs to hurry up and clean up its act in Japan or else lose the regime there to Chinese control. The pentagon knows who to contact to prevent that.

2014-10-12 **If the GOP has thoroughly accomplished one thing in the past 6 years, it's this**

by [Rachel191](#)

In six years of professional "No-ing," the GOP has accomplished very little. They've shut down the government, accused the president of trying to destroy the country, cooked up every sort of conspiracy theory you can imagine, attacked women, gays and minorities...but that really seems more like "activity" than something accomplished: petulant disagreeableness, throwing a wrench in the workings of the country because they're not in charge, and tearing down their scapegoats du jour.

But looking back at all Republicans have *done*, they seem to have achieved one goal really well: convince Americans making *just enough* that if only those with *not enough* had less, they'd be doing much better. Put another way, they've trained a certain segment of the population to kick downwards. Instead of looking at a system that makes it difficult to survive, instead of looking at the portion of the population that keeps getting richer and richer, instead of looking at how many hundreds and even thousands of times those above them make than everyone else...they look at the people just below them, getting poorer and poorer. Republicans have instilled such a level of contempt in people for unskilled laborers and the poor, that they do the work of justifying paying them less than enough to survive for the party.

Bear in mind, we're not talking about people who don't work; we're not talking about people who earn a lousy living, but a living. We're talking about people who work hard, and do not earn enough for the basic necessities. And as far as Republicans are concerned, this is good enough: the unskilled laborer's comfort, standard-of-life, independence, self-respect, health and ultimately life are worthy of only disdain. He is a failure by virtue of being unskilled, and as such deserves contempt. A cheap Big Mac is more important than the person making it being able to afford to pay his rent and put food on the table after working 40 hours a week.

Thus we see [things like this](#) (this particular image has been shared by almost 200K people, but there are [many other variants](#) around the net):

attribution: None Specified

First of all, the false comparison is just a way to heap scorn on the working poor: you just make fries, and you think you should be treated the same as an American hero?! It ignores benefits that are attached (health, etc.) to military service (still needed, but not found in fast food work...), and casts these as mutually exclusive options. Should we pay our military better? Absolutely. But that doesn't mean we shouldn't pay minimum wage employees more, either.

But that's not the worst part of this. Look at the smug contempt this person piles on fast food employees. Throughout the piece, she refers to fast food workers in only demeaning terms:

- Johnny Fry-Boy
- Sally McBurgerflipper
- Baconator

They have "failed," and if they "don't want minimum wage" they shouldn't "have minimum skills."

And, it bears repeating, this is not one bitter, hateful person spewing her contempt for her fellow man on the internet. Once upon a time, the GOP line was "get a job, earn money, it doesn't matter what it is, just get off your butt and work." It's now morphed from "the dignity of work" to "make my burgers, b*tch. And hell no, you don't get paid enough to survive, because you're just a burger flipper!"

If a minimum wage worker cannot afford to live, that is his fault, because he should simply better himself. Despite the fact that, you know, **he can't afford to live**, much less acquire higher education....

This is the same thinking exhibited by Governor Scott Walker in last week's gubernatorial debate, where -- only after continued prodding and much prevarication -- he admitted that he didn't think a living wage should be set, but, rather, that minimum wage workers should use their earnings to better themselves (ignoring the fact, mentioned above, that *minimum wage is too low to afford basic necessities of life, much less education*; and that he has cut education so much in the state that tens of thousands are on financial aid wait lists -- thus [narrowing a minimum wage earner's opportunities even more](#)).

<https://youtu.be/qvjoxN8yO2M>

In short, the GOP has convinced a segment of its base that the poor are poor because they're failures. They can't afford to survive not because they don't work, but because they work in the wrong type of work. If they wanted to be able to survive, they'd just save up from their less-than-enough-to-afford-the-necessities-of-life paychecks for expensive higher education. While Republicans cut funding from and access to it. The fact that the poor don't get the higher education that they can't afford (and Republicans have made it even harder to afford) indicates that they're just failures. (And let's just ignore the fact that the whole "minimum wage jobs are meant for highschool students" is a blatant lie -- as the workforce needed is far, far greater than could be managed by highschool students, operates during school hours, etc., etc.)

When it comes right down to it, the Republican answer to a living wage is as meaningful, sophisticated and compassionate as this Disney cartoon villain's:

<https://youtu.be/DUFzV3Mpzfw>

Frankly, I can't decide which is worse: that a mainstream party would actually run with such an answer, or that so many people can be so easily swayed to view their fellow man with such unbridled contempt as to think their hard work should be given for less than enough to survive. Because, fuck them, the poor, unskilled bastards.

And this is the GOP's big success: they've convinced people to despise those whose lives are more difficult than their own, to consider the success of those beneath them as personally or societally harmful; to think that a full-time working person should make less than enough to survive, because they don't deserve survival if they don't have higher education. (But, remember, the [president is a "snob"](#) for advocating educational opportunities for all!)
