29th Thurs – 11 KAN – 11 is letting go of what no longer serves; Kan is the seed energy about timing, self-determination; a healing aspect – about possibilities – let go of hesitation, lack of trust, what no longer serves us

MR: grateful to the listener who donated a computer and that RB is on Skype

Carolyn Oceana Ryan [COR], The Collective [TC]: there are numerous reports flying around: a story about a Russian missile taking out 30 officials from various countries in the Middle East – STAY CALM! STAY CENTRED. Also lots of opinions about “what ifs”. This is part of a build up of energy leading into our going into 2017 before a lot of things shift – just roll with it – there is no one event that defines us: we came in as pure light, pure love & we will continue being that: hang on to that – NESARA is happening; just let go – be interested in the news reports but not governed by them

Omena [O]: will talk of self-assessment and the truth of who we are – please call in!
And letting go of fear, as we are very powerful beings!!

HARD NEWS

R: as COR & Omena said: we came in as divine pure love; wants to focus on this for this equinox as every single story out there is about twisting words: as used in Zeitgeist the movie - "word magic" in which words are twisted with letters and meanings.

RanaMU: very intense time with electro magnetic waves going across the solar system – everyone going wacko!

- Orange Hitler: more stop and frisk! Increase the police departments
- The police in US, Europe, Iraq – one step away from Darth Vader stormtroopers

T: This country is the most lethal in the whole world in terms of policing

- the IQ in US to be a policeman is very low; not so in Europe and elsewhere – yet still playing with lethal energies
- the level of education required for policemen also differs radically –100s of hours of training, and then an apprenticeship: a lot less in the US

R: in the midst of all this, **RanaMu** explained today the influence of **the proximity of Nibiru** as it goes through: the electro magnetic scalar waves are affecting all bodies, including the earth itself, and raising them up to the 12th D – will create "hair on fire" situations if we are not in balance

- all he hears from his folks is "send more love" to all the different situations, in spite of how dire it looks!

• **RanaMu, Ashtar this week have told him:** [however he did it, Ashtar sent a text to R!]
Let me repeat my words to you, Commander! No extinction level events, No World War 3; NO nukes!

- **R:** And he means it

• **Syria:** the Khazarian bolshevik Black Ops which are behind things there

- 30 Isrealis foreign intelligence officers killed in Aleppo; it's about Netanyahu and the Lukud party – not the people of Isreal, but the lifeforms who control Isreal with an iron fist; any form of protest against them means protestors get put into a black site prison and that's it!
- they were not supposed to be in Syria in the first place! They are secret intelligence forces who were not supposed to be there - that is why Russia took them out – they were up to no good.
- It is not Al Assaud who is doing it – it's the west's Black Ops of the US, Britain, Germany and Israel that are doing it. Yet Assaud is no saint either
- an aid convey got into Damascus today - it's a grim situation
- the situation around Aleppo is on fire; those people supposed to help are probably dying or dead, already have no food or water – 28 killed, and 45 killed in an air attack

RanaMu: in this time we are in, there are all kinds of folks who are going to come out of various defence contractor corporations ready to blow the whistle as they cannot take it any more: having cushy jobs, working from 9-5 for the biomedical-military-industrial complex, piloting drones, killing innocent people, not seeing the faces of those they kill

RM: becoming a journalist at this time is a very dangerous profession – journalists are

killed outright

- Amy is on the line for talking in North Dakota: having to deal with the arrest warrant - now they are saying she was trespassing
- it's completely phoney, and they let the inside journalist [from the local area] go
- it's a police state consciousness here. She was the only major journalist other than the local journalist who covered it on the ground -
- Yet all the other major companies took her stuff and covered the news on MSM

Leslie Marshall show: Shawn Stone a reporter from Hollywood who comes on *Watching the Hawks* talked about **Oliver Stone's movie, Snowden** - go see this movie if you get a chance as it is on the money

Julian Assange: he is to drop all kinds of stories that have to do with Hillary providing money from the unacknowledged black budgets - the ones Dr Greer talks about - money that goes from congress to the Pentagon and then into a black hole for the secret space program

- then there are **extreme fringe stories** - all kinds of things going on across our solar system
 - finding technology on Mars
 - finding a pyramid on the asteroid Ceres/Demeter, as well as civilizations
 - on other asteroids, there are observatories of different ET cultures observing us.
 - Info about this will come out in great amounts and very rapidly: can no longer keep a lid on it. More and more whistleblowers are going to come forth and talk about what they have witnessed and done since 911.
 - Some are saying screw the gag order - I can't live with this any more: I AM telling my wife and my family; let the chips fall where they may.
 - As we approach the so-called debates: moderator Lester Holt is a registered Republican;
 - R does not trust him, nor does he trust CNN as they perpetuated the 911 lie - and Wolf Blitzer is a war criminal, called out by Michael Moore on the air
 - How this will play in a good way - as the frequencies build up, they progress out "across the pond" of the solar system, universe - just had the lunar eclipse and the full moon, and the waves [of energy] are getting bigger and bigger and bigger;
 - **Rana Mu** - as we've just had the eclipse, now the equinox, this pushes all forward.
 - **Yoko Ono:** by text - "Please share the message: **Imagine all the People**"

T: from the Thom Hartmann show: a caller on police violence on the people of colour - what is needed is national regulation - the entire police force of all the states to be included - and far more education for police recruits than is given now

- racism is happening, and the psychological and emotional development is lacking in the police force, in addition to good education.
- The origin of the police force in the south was the slave patrols; this is still going on and the KKK is still alive and well in the south - David Duke is a dangerous lifeform
- An elderly gentleman has been on 2 programs of *Democracy Now:* about the background of Trump and his father who in 1928 was arrested in a KKK riot
 - The man who called in talked about "The Public Duty Doctrine" - police have ZERO = NO obligation to protect people - **only property!** The young people think they are going in to serve and protect people and that is not what they are obligated to do! Serious stuff!
 - The policemen need to come from the n'hoods they are policing
 - In terms of infrastructure:
 - the way that school systems, policemen, first responders are paid is through property tax - those in the poorer n'hoods have no money. And they are renting - so this is one reason the schools are so poor
 - The pay scale for policemen in wealthy n'hoods = \$108,000 per year;
 - Lucky if get \$10- 15/ hour as a policeman in the other locations

- This is totally unfair and WAS PRE-PLANNED!

• **Leo Gerard, United Steel Workers; James Hoffa of the Teamsters**

- condemned Trump, say he needs to drop out of the race now -
- as Keith Olberman and others say: when you threaten 3 times to assassinate your opponent live on TV – what's wrong with this picture?
- Metaphorically, when he sees the police in their gear etc, reminds him of the Star Wars scenes. The police are pushing the fear of the old world order with their Darth Vader type gear – this cannot stand with the energies coming in – love always wins, no matter what. Revolution, evolution is what is needed

Pres of Mexico is very corrupt – is in bed with Bush Clinton Crime Family; the US wants much more control over Mexico's security apparatus under the ASPEN THE SECURITY PROSPERITY AGREEMENT which would integrate security across North America:

Goals of DC at the moment

- (1) to gain control over Mexico (2) to privatize its PEMEX, country's oil company/industry
- 100s of thousands of Mexicans have been killed due to oil, drug trafficking, human trafficking
- If the US gets control of the Mexican security, they get control over the oil industry and then they get a cut of the money

HRC will be involved these next weeks

- H is as much involved in the Clinton Foundation as Bill; trillions of dollars involved; as the Pentagon money goes into the Fdn, it is used as black budget funds around the world!!!
- and in particular for Syria – Hillary has made deals with all the groups over there – it is US black ops + Isreal, Bandar Bush, GB all have their hands in this!
- All the money is coming from American tax payers

Dr Keshe technology can stop the whole thing: there are stories that he is connected in a good way with the satellite and the rocket that blew up at Cape Canaveral

- the 2 space ships showed up and destroyed the rocket, etc : Mark Zuckerberg's rocket built by Israel - somehow Dr K is in the mix –
- they want to escalate things even worse: Dr K has said there will be no nuclear war – it will be stopped immediately, even before they get their finger on the button!

Trump is the current P T Barnum: has nothing behind him except empty promises!

- He owes money to big time oligarchs in Russian and China – there is a \$300 million bounty on his head: you cannot parade around the planet and make like Hitler, and a 20 year background of trafficking people [in conjunction with HRC]
- he's got 20 years of human trafficking behind him, engaged with the Jeffrey Epstein island and violently raping girls: his rape cases are on the roster - one on Sept 9th, the next on Sept 15th and 3rd on Oct 15th – and he'll have to pay for not showing up at the trials.
- Sweet Angelique said you do not mess with children; she's the one who spoke of the bounty on his head

MR: where did the information come about the island?

T/R: it's on the net. Use search engine called duckduckgo and put in

- “jeffrey epstein, Bill clinton, Donald Trump, Hillary” - will give you so many hits!
- This is what our oligarchs are doing with our money! The information is not pretty.

T: HRC is responsible via a Black Op for the murder of 9 people of colour at the Emmanuel Church in Birmingham, SC; the man [Dylan Storm Roof] who did it was totally mind-controlled by HRC; she showed up the day before to make sure the property was well set up

- We won't see this in news out there as they censor things that they don't want to be

public knowledge

COR: asks about the search engine www.duckduckgo.com **R:** they don't use cookies!

- Started by a super active, awake young millennial
- TOR is better if you know how to use it: can disappear on the internet & do things like Anonymous does – www.tor.com

Nibiru is 4x larger than earth, and emits electro magnetic waves; as it comes closer to the earth, it emits higher electro magnetic waves, we increase in spiritual awareness and consciousness, can absorb these – as we experience these waves, we experience more ascension symptoms! And we are at a super intense time now in addition to receiving these waves!

- Despair is not an option! Praise, respect, thank and love

People are saying I don't believe in NESARA: where is the money going to come from?

- This is a GALACTIC OPERATION; Ashtar, the entire Ashtar Command and all of the angelic host have been members of the US military at the 38th level above the president since 1946 – the organization is called the ACIO – Alien Contact Intelligence Organization
- 1945 was the violation of the Prime Directive which says no intervention in a civilization's development unless there has been physical or psychic holocaust – and both kinds happened with the dropping of the bombs in 1945
- need something that is worth more than paper money: the Ashtar Command and St Germain have been bringing gold and jewels from other star systems and planets, etc to prepare for the debt jubilee, our new system and a new economy, & the Council of Elders - they are already here. And there are galactic war crimes involved too

Article: US Major General Reveals what is really on Mars

[SEE BELOW]

- off planet technology has been used for 10,000 years; people have been being bi-located to Mars to dig up their resources; we are using 125% of the resources available on earth, hence the need for going off planet to get more resources to support us
- this corrupt capitalism needs more growth to keep on going - meaning raping, pillaging Mother Earth
- still and yet – and that is why this is taking so long – they cannot intervene with free will choice – what has happened is a **psychic holocaust** starting with the Koch Bros in the 70s who re-wrote history books & told nothing but lies about US history
 - also Keynesian Economics – Libertarian economics - Milton Friedman was a very evil man
- **the lack of education plus the fear** – people of colour especially black men are in fear every day of their lives – don't know if they will live for the day : causes brain problems and the ability to learn + glyphosate in GMO foods affects health
- **Michelle For President! NESARA NOW!**

COR: glad that Rama could substantiate that the rocket hit those ones in Aleppo

- there are galactics working with the Russians too?

T/R: Putin is an Andromedan contactee and is also an immortal – works with Andromedans, the Antarreans, Arcturians, the various galactic councils – brings in Lord Metatron and Naphthal-Rah.

- ACIO – Alien Contact Information Office - Playing with Putin is like playing with Spock or Data : they will mop the floor with you! This game is so intense: when a group of life forms won't accept love in their hearts, something has to be done and divine energy has to come in. Darkness is not evil but energy out of its space time continuum used deliberately for darkness **will** be taken out!

- O:** agrees with Rama about love; will talk about love tonight. Many people are lost and the energies are pushing
- will talk about self-assessment to find out if we are in tune with love.
 - Have to integrate to understand the status of love and to think about ascension – this is not about religion – we go nowhere if we don't integrate the spirituality, the physicality, our mentality, our ethric bodies
 - Integration – means the feeling, breathing through it as we go through the healing journey: it's not stuck in your body, your soul so we end up with the memories, but not the pain
 - If we can start on a small scale – creative abundance, improves health, relationships
 - Abundance of Love: are you living in light, oneness, vitality?
 - If you don't feel the light, the oneness with everything; the vitality of love enables you to feel the oneness with all around you, with nature, to detach from the ego and observe, be
 - she feels most people need to start with where they are coming from: envy, or gratification
 - remember that love is not about infatuation or sexual attraction – that fades away quickly & can become very disappointed: have to look at whether you are you living in the light - which means that nature around you comes to life, people come to life. Look for the light in people
 - Are you a shadow, or are you casting a shadow? If you are casting a shadow, you are in the light
 - Do you feel any oneness with anything – like nature?
 - Where is your life vitality on a scale of 1 – 10 – we are eternal beings and if
 - If we don't grow, we go!

- Caller:** has a friend who has activated her telemeres; brought her into 5th dimension – now she's extremely happy & cannot go into her old patterns
- can no longer get angry with people –
 - asks about the crystalline chamber she's heard about, and longevity with the blessing of NESARA
 - what about Bill Owens, her Twin Flame: when will she be with him?
 - Eliza is her daughter - will she meet the love of her liffe?
 - Would like to learn to meditate?

- O:** with being in 5th dimension, we are detached from the -ve emotions
- In 5th demension, it's detaching from all the -ve things

- TC:** 2 things happening: what the lady describes – people are feeling more joy, and greater feeling of love in heart area – need to spend time meditating to make it easier
- the flip side: will have to deal with things in your life you haven't dealt with – people leaving, things coming up: yes, the caller is experiencing the first bits of the 5th Dimensions

- O:** asks if Bill Owens is on the earth –

- Caller:** • In California, caller is in Missouri

- O:** not your time yet: not for either one of you – will eventually be together.
- Something in her energy field that needs cleaning up – part of her that sabotages her happiness; it's very subtle - something comes along that plants a doubt in her mind, for example: she has to become more self-aware
 - **As for meditation:** pick up books on Mindful Meditation – helps ground you:
 - meditation does not have to be a difficult thing; as soon as you close your eyes, you are in the meditative state

- to go into a meditative state: allow the things that she needs to work on to come in front of her to clean up her energy field so she can stay in that 5D energy

Caller: asks about daughter: 39 year old, very successful painter – will she meet the love of her life?

O: needs her permission to talk about it: she is saying she did not want everyone to know about this – she is a happy person, not unhappy at all

COR: affirmations can help with things you want to change in your life

- write it out – phrase things in a positive manner: “I am worthy of being happy” on the LHS side of the page; On RHS, let sub-conscious speak & write it down; keep on doing this – you are healing it, getting it to come out of the shadow

Caller: does a perception placement – and speaks it to tell them what is meant

COR: that's wonderful: however, let the sub-conscious respond to it – the sub-conscious lays out 90% of what is going on; use the placement, have subconscience respond

Caller: the crystalline chamber and the longevity that is predicted – has heard that in 2017 an incredible pill will be available that helps bodies return to younger age

O: would be very careful; her message is that most bodies are not finely tuned to take that kind of a pill – would create lots of changes in the physical body that would create unexpected side-effects

- people are not aware of: there's a lack of acceptance of who we are and where we are – the magic pills deny the right to be who we are, what we are – her opinion

COR: there will be numerous rejuvenation technologies available to us, not just a light chamber or a pill : we have to be ready for it and the consciousness has to be ready for it in order to sustain the change

Caller: has been told she is high on the scale of enlightenment is high – is this so?

O: emotional healing is the work she has to do – her level of consciousness is not in question – you will be more aware when you are emotionally healed

COR: sit down with your team of guides and angels and ask – it's really your journey! (about the level of her consciousness)

O: a perfect example from the caller: it's so exciting to be on a higher level of consciousness & get to a space of happiness, finding your space in the universe – doesn't take much energy to stay there unless you are dragging old energy or a lot of other baggage behind you

- Always good to meditate on whatever state you are in and to do the assessment and find out where you are at that level – what state are you at every day: happy, sad?
- Being self-aware is the road to happiness,

O: aware of the energies coming in but not of the pills referred to - not sure she wants to be 25 again: think of all the things that would tempt me!

T: Isn't that what happened to Abraham's wife who was 95 and had a baby?

O: That's the old framework, & it was written by a man – just a way of looking at things!

- there was an elderly couple, married over 50 years, never had a child: he was 82 and she was 80 when they had a son! A healthy 8.5 pound boy – a year old when Omena read about it, last year
- when O ascends, she wants to come in and out as she wants to

by Phone: 1-860-871-6076

by e-mail: omenacentre777@gmail.com

Website: omena777.com

question by e-mail: Randy writing a book on Paschats:

O: What are Paschats?

T: both human DNA and cat DNA; Murray Hope's book – **The Lion People** is a good reference

- Mother Sekmet [& Alcyone, her Twin Flame] is a paschat; the Goddess Sekmet is about her too – they are guardians as the human race evolves

COR: people talk about people being an old soul – asks for meaning of the term

- thought one could be an old soul and be an adolescent, which would indicate quick advancement

O: the soul is measured at what level they are on

- there are 7 stages for each soul – infant, toddler, young soul, adolescent, young adult, mature soul, wise soul – wise souls usually just listen, observe
- Plus 7 steps within each stage: 49 rungs in all

Ross: The work being done by Commander Randy is partly autobiographical, also about higher self; the writer is a paschat; his twin flame and Ross's TF are also involved in the story; this is a book written by multiple people; about paschats: very pantherish feline head, mane, tail, whiskers, fur – up to 10' tall

- What kind of soul is the caller? [name is Thomas Ross – goes by Ross]

O: a king soul! Leadership abilities; has had many lifetimes as a leader; good at problem solving, working with people, leading people; also knowledgeable, have strong personalities,

Ro: his incarnations have been close to people in power; has not heard if he's played role of king

O: This category does not refer to a role as king, not royalty – **it's the qualities** about being good with working with people, working for the highest good: nothing to do with lineage

Ross: further comments on the crystal light chambers: if they have that and they will have technology to diagnose whether we are ready for this or not, we 'd know whether we are able to use them before we got to them.

Carlton: questions about ancestors who have moved on

- father passed away 18 mos ago – how's he doing? Names: Carlton; Jon

O: doing very well – better than he thought he'd be; no pain – showing O his back

- he loves you! Something about a sister

C: doesn't have one. Carlton's mother had a sister; not sure what he was talking about – O is asking for clarification – he's fading out and in

O: much better where he is; doing fine!

C: does he have anything to say about current events on the planet?

O: no! He's happy he doesn't have to make any decision about this! No other information

- Everybody needs to be aware of their choices that they make in their lives even with the “upcoming upheavals that are coming down the road in a very short time”.

C: he had a deep background in activism; a philosopher, sometimes prophetic; asks about his Grandmother Robbie

O: she's smiling – much different sense of humour: mother's mother

- she's not coming back to earth! Loves where she is; very happy
- you were always very curious – she likes you; comes to visit now and then
- she would like him to pay more attention to her; can call her in if he wants help

C: appreciates what O has told her tonight; thanks MR for bringing her on the program!

MR: O will be with MR this coming weekend; will be there till Oct 2nd
can book group/individual session; Call MR

Sonya: curious about something said by Wayne Dyer:

- she had an opportunity to connect with Wayne Dyer after he transitioned
- He said it was more beautiful than he ever imagined – but it is very very busy there

- What is the being busy about?

O: when you transition depending on your consciousness when you transition: Wayne Dyer had a very high consciousness and had no problem with his transition – he walked into a level in which he just continued doing his work – there were lots on the

S: how do they see each other – how does the choreography work?

- It has to do with the Vibration and their light bodies
- they are all in light bodies and they recognize each other's vibration; energy attracts like energy so he landed where there is lots to do, working as he did on earth; they are very busy helping a lot of people on the earth; or helping others who have transitioned to bring up their vibrations as well

COR: it's mainly vibrational work, raising individual consciousness

- basically about ascension

O: yes, which is why they are so busy! And they don't get tired!

S: relationship with daughter is still bumpy; will they overcome this any time soon?

O: They have an underlying incompatibility, a stress in that re'ship – they are water and oil

- Daughter going through a hard time now and the re'ship with the boy friend has dissolved quite dramatically

- she's extremely sensitive so Sonya has to walk on eggs

- And S is not the type to just sit back

O: step away from this relationship; let daughter do what she needs to do – it is about her growth; doesn't want interference – **be supportive to her and let her ask for help**

- she will listen to no one - want to do it herself

- send her lots of love, light; send guardian angels; step back and let her do it her way!

S: do you see her healing soon from the hurt and drama she is going through?

O: she's a bright girl, understands that she has to heal – bringing up all her hurts of this lifetime; the relationship falling apart is bringing up the hurts around father, mother – she needs breathing room to get back her own equilibrium back – can't express things she doesn't really understand

- she wants someone to LISTEN, not tell her what to do!

S: doesn't appreciate the snappiness

O: toughest lesson is to not personalize it – detach with love & don't personalize it

COR: TC say the same thing: let her have her own voice; doesn't matter if she makes mistakes

S: she's 34; doesn't live with Sonja

T: it really is not you - it's not personal; Daughter has not learned how to differentiate what she's feeling and where it is coming from

- this may go back lifetimes – they go to the safest person and then bark and bite

O: detach with love, give her her space; walk out if she's getting too disrespectful: “talk to you later” - just listen; offer no information unless she asks; don't personalize things

S: when it's a matter of opinion and there's controversy

O: stop exposing yourself if it's not relaxing for you – the love there is very strong!

By Phone: 1-860-871-6076 – leave a message; Richard will call back

By e-mail: omenacentre777@gmail.com

Website: omena777.com

O: appreciates those who call in; thanks to COR for her and TC:

- the more information a caller can get, the more they can understand

MR: Omena is in Indiana; to see her in person, call MR at

COR: Go to carolineoceanaryan.com; has her own you tube channel now; talks of latest book

TC: trillions of galactic brothers & sisters around the planet cheering us on!! We are not alone!

T: I Choose Love – title of a song: we have a choice that is quite huge right now – choose love!

“The time to pull the curtain back on this subject is long overdue. We have statements from the most credible sources – those in a position to know – about a fascinating phenomenon, the nature of which is yet to be determined.”

The statement above comes from John Podesta (you can find the source for this quote, and more from Podesta on UFOs in [this](#) article), Chief of Staff for Bill Clinton and Counsellor to Barack Obama. It’s a powerful statement, because it’s true. We now have witness testimony from hundreds upon hundreds of high ranking, very credible people from within politics and government, military, and intelligence agencies saying that the UFO and extraterrestrial phenomenon is indeed real and deserves serious attention.

To view some of these statements from just a few of these ‘credible’ people, you can click [here](#).

We also have official, declassified documentation to back up these statements, you can view some of those [here](#).

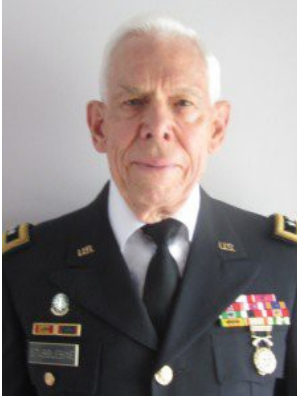

If you put two and two together, it’s clear that:

“There is abundant evidence that we are being contacted, that civilizations have been contacting us for a very long time.” – Dr. Brian O’Leary, Former NASA astronaut and Princeton Physics Professor ([source](#))

But it’s not just the UFO/extraterrestrial phenomenon that seems to be gaining more transparency. Strange things have been observed in space. Perhaps this is why the Russian government recently [called for an international investigation](#) regarding the missing film footage of the U.S. moon landings, or why a U.S. Defence physicist and the Deputy Manager of the Clemintine Mission to the moon recently blew the whistle on [what’s really up there](#).

Major General Albert Stubblebine can be added to the long list. Although he did not participate in the [Citizens Hearing On UFO disclosure](#) (where a number of military, political, academic, and government personnel testified to several former congressional members), his credentials speak for themselves.

MARS

General Stubblebine is a retired United States Major General. He was also the Commanding General of the U.S. Army Intelligence and Security Command ([INSCOM](#)), and one of America's most distinguished soldiers and chief of U.S. Army Intelligence, with 16,000 soldiers under his command.

He was a major proponent of "psychic" warfare and a key player in the "Stargate" project, which was a remote viewing program. Remote viewing can be defined in multiple ways. It's the ability of individuals to describe a remote geographical location up to several hundred thousand kilometers away (sometimes even more) from their physical location.

The results of this project were declassified and published in the peer reviewed *Journal of Scientific Exploration*. ([source](#)) In this program, individuals successfully described physical objects that were nowhere near their physical location.

These programs were the inspiration behind the movie "Men Who Stare At Goats."

Here's what General Stubblebine had to say about Mars, perhaps thanks to some intel from the Remote Viewing Program?

"There are structures on the surface of Mars. I will tell you for the record that there are structures underneath the surface of Mars that cannot be seen by the Voyager cameras that went by in 1976. I will also tell you that there are machines on the surface of Mars and there are machines under the surface of Mars that you can look at, you can find out in detail, you can see what they are, where they are, who they are and a lot of detail about them." ([Dolan, Richard. *UFOs And The National Security State*: New York: Richard Dolan Press](#))([source 2](#))

I'll let you think about that for a moment. Is it really that farfetched? With all of the recent UFO/extraterrestrial phenomenon disclosure happening within the past few years, is it really hard to fathom the existence of structures, bases, etc. on the Moon and on Mars?
