

FOR SALE

Probat L12 Coffee Roasting Machine & Afterburner \$30,000 firm, not sold separately, FOB 91105

Jones Coffee Roasters bought the L12 in 1994 from the original owner, Java City in Sacramento. This machine was never used by the original owner, who bought it new in 1987. This machine was operating properly when it was decommissioned in 2011. This machine roasts 15 to 25 pounds of green coffee per batch (45 to 75 pounds per hour) using natural gas. Shrinkage averages 15% to 20% depending on roast level. Serial Number 87/40299

The thermal oxidizer afterburner was operating properly when it was decommissioned in 2017. This afterburner was operating with a Probat UG22 and rated for such. This machine operates on natural gas. Manufactured by Conversion Products, Inc. (510) 887-8013. Serial Number I11-13738; ETL Intertek 294657
