

**Bicycle Institute Public Meeting,  
Tuesday 12 May, 7.30pm  
111 Franklin Street, Adelaide (former BikeSA site)**

Do you want to see better conditions for cycling: better infrastructure, road rules that protect cyclists and greater respect for cycling in government decisions?

The Bicycle Institute has been advocating for everyday cyclists since 1974. It's voluntary, non-profit and (for the time being at least) membership is free.

If you're interested in better conditions for cyclists, come along to our AGM. Find out what we've been doing, tell us what we should be doing, and perhaps even get in involved in helping us to do it.

**Guest Speaker Paul Gelston: cycling and our arterial roads**

As well as talking about projects and advocacy that we have been busy with, we will have Paul Gelston talk to the meeting. Paul is the **Chief Operating Officer** in the Department for Planning, Transport and Infrastructure. Before that, he was a project manager for some of the more important projects that the State Government has undertaken in recent years. You might have attended consultation meetings on Greenhill Road, and before that, the tram bridge over South Road, where Paul was up front dealing with local residents and interests like ours.

Paul will talk to us about the role of the State Government in providing for our transport needs, where cycling fits in, and the pressures faced in trying to meet broad State government objectives and deal with political demands whose basis ranges from metropolitan-wide to very local concerns.

The Bicycle Institute welcomes new members. Join online at [bisa.asn.au](http://bisa.asn.au).

We also welcome nominations for office holders (President, Vice-President, Secretary, Treasurer) and Committee members, by email ([secretary@bisa.asn.au](mailto:secretary@bisa.asn.au)) or at the AGM.

If you intend to come to the AGM we'd appreciate an [rsvp](#) so we know how many to cater for.
