Dear Mr. Narada,

I want apologize to you and to all members and partners of Global Village Network who participated inpreparation of videobridge with Vologda which had to take place at the round table at Ustie village in the framework of the conference “Innovative Development of Rural Development” for the failure of that videobridge.

On behalf of the Government of Vologda region, the Organizational committee of the Conference and I myself want to assure you that we are very upset about it.

It turned out that just on the day of the videobridge we got information that this internet session had to be approved by federal structures. It was due to the fact that the conference had Governmental status. While preparing the conference, the organizational committee didn't take into consideration, that such events are under certain regulation and unfortunately we failed to get this approval on the day of videobridge.

We want to apologize once again for innconvienece and lost of time. And also we want to underline that your knowledge and expertise is very valueable for us and representatives of municipalities of the Vologda region. More and more people on different levels are convinced that it isn't possible to develop rural territories without empowerment of local communities. And we will rally appreciate partnership and cooperation with you.

In the nearest future we plan to prepare new actions (including videobridges) aimed at local development and will be happy to get in touch with youk organisation and Global Village Network partners.

Yours faithfully,

Anatoly Zeliev

Assistant of the First Deputy of the Governor of Vologda region,  
head of Municipal Development Department
