

# Triangle Climate & Landscape Researchers' Doggie Bag

Take-Home Info from the Brown Bag on November 8, 2012

## Main Presentation

**Southeast Climate Science Center Projects - An Overview and Discussion.** Jerry McMahon, Director of the Southeast Climate Science Center, spoke about the SE CSC's niche and its FY13/14 priorities given that niche. He reviewed the current projects and discussed the planning context for science funding decisions. You can see the powerpoint of his presentation [here](#). If you have questions, please contact [Jerry](#).

## Next Triangle Climate & Landscape Researchers' Brown Bag Topic

**December 13, 2012 Dave Wear from the US Forest Service, Southern Research Station will present "Southern Forest Futures Project" from 12:00 – 1:30pm.**

*Location: Ground Floor Bullfrog Education Room, Wildlife Resources Commission Building, NC State University's Centennial Campus, 1751 Varsity Drive, free visitors' parking in rear of building*

## News & Events

### SALCC Web Forum – November 15 (Ginger)

- The SALCC will have its monthly Third Thursday Web Forum on November 15<sup>th</sup> at 10:00 am. The main presentation will be *Landscape Conservation Cooperatives and Climate Science Centers* by Jerry McMahon from the Southeast Climate Science Center and Rua Mordecai from the South Atlantic LCC. For more information on the SALCC Web Forum and to attend, look [here](#).

### Setting Biological Objectives (Rua)

- The SALCC natural resource indicators process is officially approved by the steering committee. Work now begins on establishing those indicators. For more information see the [Indicator's page](#).

### TACCIMO and Vulnerability Assessments (Emrys)

- Emrys and Lisa Jennings recently participated in a webinar on using TACCIMO (Template for Assessing Climate Change Impacts and Management Options) in the Sierra Nevada Vulnerability Assessment and Adaptation Strategy, to assess impacts on focal resources and in National Forest Plan Revisions. The webinar was recorded and is available online [here](#).
