HARD NEWS

R: the absolute collapse – he's being told to walk off the cliff with the little white dog as in the Tarot cards and he knows he will fly!

- It's about who can pump more fear into the media:

- since 1968. when Gabriel Green ran for president: no nukes, no bombs, no radiological bombs in cities
- all that is going on: absolute fear
- **Today:** a screw up on the part of the Air Force – they were doing a drill at an air force base in Ohio which Joe Biden was to visit; he had not been told about the drill beforehand.
 - The air force went through the steps as if someone was present with a weapon, and he was whipped off to a secure location and everyone was freaked out!
 - Rama heard the EBS test on the radio; then the siren went off – the announcer came on and said that there'd been a mess up in our information; Joe Biden is safe, nothing is happening and communications have been misconstrued.
- He called up LM Nada: all that is happening is on the razor's edge of pumping the fear – due to what happened in Istanbul, and Trump is ramping up the fear too as he is losing – and he's denigrating people as he has been doing with E. Warren - all about the last nano seconds.
- R is always being assured: today he went somewhere and talked to the fairy lords who told him the entire planet is with him; **there will be no nuclear war:** you must understand they are at the last seconds/threads of their ropes and they must not lose face: they cannot look people in the face and say they are sorry, please forgive me – want to go out with a bang and take as much of the old 3D earth with them
 - this will not be allowed: no extinction level events yet they are planning some scary stuff
 - want to drop a nuclear bomb on a nuclear site – they are playing with the scenarios and **IT WILL NOT HAPPEN**
 - One can construe that some really weird hanky panky going on, what with the drill at the air base and Joe Biden being in the mix: they are terrified of what is to come: the frequencies are going up to the 9th and 12th dimension, as Mahala says, and they cannot take it if they will not accept love
 - and the ships are showing up unabated across the planet
- the stories continue about Bernie Sanders and Hillary
 - **Chris Hayes:** Bernie said nothing except that they are working with the Clinton campaign to iron out differences
 - Bernie is being challenged by his own team: Cornell West was the only one who was going to remain strong on the points in the platform: raise the minimum wage, completely ban fracking – Hrc is the one
- **Bill Clinton and Loretta Lynch** landed at the same airport: Phoenix, AZ
 - Lionel was on Ed Schultz show and said "don't think that Clinton doesn't know what he's doing: he's sly"
 - his plane landed and he waited on his plane until Loretta landed, and then he got on her plane and said don't be surprised if you're on a hit list if you indict her
- and a man was killed who was going to speak against HRC
- The Rockefellers are the lowest on the 13 family ladder: the Collins are above the Rothschilds – and all have been told: make peace with your god.
 - This goes
 - we are still on lockdown and they cannot go anywhere as people realize that the fear porn spread by the media is what is driving the war talk – they are getting millions to present this kind of fear porn
- Shepherd Smith on Fox News is the only white knight in that specific arena
 - another joker is Keith Olberman: sent Rama a Tweet : Trump is on his way out, Hillary is on her way out

MR: what are the Collins responsible for? [listeners are writing in to ask about this]

R: goes back to founding fathers and the signers – Mr Hanson was the first black US president – Washington was the 9th; the Collins go back to early 1780s; has to do with the colonists

who came here wanting to break away from England:

- the Boston Tea Party was our first Brexit – went against the tea company – the first corporation.
- The Collins family was interwoven through whole story until now
 - Abraham Lincoln's wife was Mary Todd who shot him! John Wilson
 - she was devoid of all her wealth: was allowed to go to Europe and live in poverty until she died

- Other families involved now – the Bushes are part of the Bundy family!!!

T: We'll pull the Collins family info and put it on 2013rainbowroundtable.ning.com

R: played with the story of a 60s soap opera: *Dark Shadows* about the Collins family, werewolves and witches: Johnny Depp played Collins and the founding fathers and their fear of witches and their lesser know activities going on at the time, like subjugating women to be less than black folks even, making women into chattels for men.

- The energies have culminated to this huge awakening: people across the planet are waking up exponentially: Hell no! no Trump, no nuclear war; and we will get this planet free. Right Now – and this is coming about by overwhelming evidence against the 13 families
- In spite of that , we play with an increased police presence in every city: has to do with what happened in Orlando, Istanbul, Paris, etc
 - the character who was supposed to have done all the shootings in Orlando: there were black ops hired by dirty CIA – the police were in there and blew up some walls so and the police are resisting opening up the files
- The Fed Secretary Asthon Carter – transgender people can be in the military – don't have to hide who they are
 - he also made the side comment: don't have to be straight to shoot straight
 - yet the real question is why do you need a standing army anywhere on the planet – only to play with the ideas of mischief in the areas of games over issues about religions, minerals, water, etc – the energies are rising to the occasion now
- the genocidal corporate media – being called “presstitutes” - follows the all too familiar script of blaming the victims
 - doing this in Syria – blaming the victim – NATO terrorists are blaming al Assuad's gov't I

2016-06-29 **Genocidal Corporate Media** **[SEE BELOW]**
- Steve Cohen, professor emeritus in History, was guest on Thom Hartman: brought up that the threat of nuclear thermal war and the idea of making Paul Ryan president on July 4th NOT HAPPENING!
- Another story: Hillary Clinton, if indicted, will endorse Bernie – WHAT???
 - when is the indictment going to happen? WE NEVER KNOW WHEN
 - The folks Rama talks to are saying that Julian Assange very imminently to download a huge amount about all the crimes that Hillary has committed as well as about the e-mails
 - Story is it may be before July 25th , the Day Out of Time in the Mayan calendar – also the day that the super delegates are going to vote – and Hillary is only the presumptive candidate
 - a huge law suit against HRC and Debbie Wasserman Schultz for rigging the votes – Hillary did not win anything – keep on saying that Hillary is so well loved by people of colour
- Someone on the Big Pictures saying the story is that that is so not true!!!
- another story about Trump & his father who was a member of KKK and other mafioso things

- gave young Trump millions as a kid to make more money – Trump is like a chip off the old block!!!

- **Boris Johnson** – said he would not stand for next Prime Minister of Great Britain
 - The new HQ for the EU is now Berlin, Paris and the Vatican – Uh, oh!!!
 - the **Euro Zone is totally bankrupt**: the Deutsche Bank collapse a week ago was the trigger when it went bankrupt: China took over the Deutsche Bank
- **REMEMBER: Pres Xi, Putin, Obama – TOTALLY DOUBLE AGENTS**
 - **Putin is an immortal who is a contactee of the Andromedans**
 - **Xi doesn't look like that – he would be ripped apart if his gov't thought he was involved in this; has all the technology to shut down all the weapons of war**

- and there are maneuvers in South China Sea, starting today + other countries taking part in maneuvers in the South Pacific
- has heard that some American sailors were captured by the Iranians – someone is trying to make a big deal out of this!

- Saudis have lost the oil war –

2016-06-29 **The Saudis Have Lost the Oil War**

[SEE BELOW]

- the US has been doing fracking in Gulf of Mexico till there is tomorrow – under the oceans - and
 - **THEY ARE DUMPING THE CONTAMINATED WATER BACK INTO THE GULF!!!!!!** The EPA is turning a blind eye to this!
- THE IDEA is to scape goat Russia for what the US Black Ops, what the US is doing, and what HRC did in Banghazi – Russia is by far the most skilled at handling terrorists for they have faced it for decades
 - The reps from 3 central Asian countries are former Russian Satellite states: no wonder they speak Russian! Others are trying to hang events on these 3 countries who had nothing to do with it
 - doing all this because of Erdowan who is selling nuclear fissile material all over the place
 - this goes back to Chuck Grassley and this goes back to 9/11 – Sybil Edmonds -
 - he has been selling and moving nuclear fissile material for 15 years through the Turkish embassy, and Erdowan is moving it along to other buyers, countries
- thank goodness we have an Ashtar Command, and that all financial accounts - all the dinars, dongs, etc - will go back to zero!
 - the ones behind these programs are in collusion with Hillary Clinton and Phil and Wendy Gram who were given their NESARA blessings early: they took them and started the Tea Party: why was this allowed to happen is the question. **They have been given enough rope so they can hang themselves and the public can see who the dirt balls are & what they have done!**
 - It's about getting people to wake up and help others to wake up – this must be done on the ground [not ordered by anyone from above] – same as the light sabres being activated in the hands of the Sovereign World Militia forces: there are 16 Million SWM from across the galaxy, plus 4 million who are the ground crew – citizens of different countries in the world who grew up here on earth AND there are also Faction 3 White Knights
 - Archangel Michael is in charge: light sabres will only be used if the SWM / WK have to defend themselves as **the 13 families have ordered that all the Sovereign Militia members are to be killed.** Through the comm [communications] badge, there is an inter-communication going on between AA M and Ashtar

R: such a magical time to be alive and witness the transformation, transfiguration of what is going on. It is disheartening to see the politicians failing – yet there are many good people

working behind the scenes who will step up

- as E T Corey said: when you get abducted as a kid and are programmed and you wake up and have to deal with that – that's lots of PTSD!
- as Nada said to Rama: **how about an entire planet recovering from PTSD at this moment!**

Sen Bob Menendez is behind the PROMISO bill passed by the Senate to create a board to run Puerto Rico -

- this is about the hedge funders taking over and making people into slaves!
 - it has been widely criticized as a means of removing all democratic control from its citizens. Bill passed in Senate by a 60 – 38 vote
 - Puerto Rico will default on July 1st
 - Sanders: this is a terrible piece of legislation, setting horrific precedent - the US should not treat Puerto Rico as a colony
 - Board being run by 7 people, which will be dominated by 4 Republicans!
- AS A REMINDER: HILLARY CLINTON RUNS THIS SHOW – THERE IS NO INTRINSIC POWER IN THE PRESIDENCY
- and BO, as a double agent, has St Germain, Ashtar etc in his lap: the story is being played out as if she is in the power seat until this is over. Until it's done, it's a double agent show / drama being played out.

Guest: Michael King who is not talking about herbs and clay tonight!

- Assumes the group has heard of The Harvest: Ascension which was supposed to have happened in 2012
- things were moving in a more positive direction
 - the white hats/ good guys were winning; more
 - in this time stream, it's a given that we will succeed: the dark side will be minimized – not to be eliminated and for good reason which he will discuss in the 2nd half of this discussion. He sends a link about this to MR.
- Basically, in first half of the discussion
 - with respect to the harvest: the movement of humanity from 3rd Dimension into 4th and then into 5th – thinks that won't happen as there is too much karma to clear.
- The nature of density transformation can happen one by one, will eventually be across the society. Density seems to be changing in gradual amounts – not a radical shift
- He came across materials that discussed the nature of these "harvests" - 3 ways with a 4th woven in. This comes from various sources, not just him
- the 1st discussion: the mandela effect.
 - Assumes a %age in this audience the mandela effect.com/major-memories/
 - this gives a list of several memories that hundreds of people are having
 - Nelson Mandela died in 2015 – many say they remembered him dying in prison in 1985 – it was big news at the time
 - same thing with Billy Graham – he is still alive at 97; yet many remember his passing and the discussion of his life, etc etc
 - will see another event on the site: the Tianamen Square where the tanks advanced on the protestors – there was a lone young man with a brief case in a suit and tie stopping the tanks temporarily and the tank going around him and he survived.
 - Other people remember an older gentleman in peasant clothing carrying groceries who climbed up on the tank
 - others remember one getting squashed – horror of it as there was blood

everywhere

- MK believes it was a Chinese coverup – the actual footage was scrubbed and replaced with material about the

- He will explain about time stream and the sliding effect of shifting from one parallel reality to another – if something is true according to a walk-in he has met – she claims we have 200,000 alternate futures in front of us at any time –
 - Gary Renard and time stream: the time stream is the script written for each of those alternate futures but is not written in stone – time is relevant to our development as a soul but, in reality, the world we live in is the holodeck, the virtual reality that could disappear if the creator decides that a lesson is no longer required: the consciousness of the individuals involved will shift into another time stream that is helpful to their development.
 - As we realize that they are us, and we are them, the illusions of separateness do not exist but we experience them – we are fractals of the one and we are living this reality to remember who we are: we need free will to progress and we need to choose.
- Evolution comes as a result of choice. If we have no negative choice we cannot choose positive: if all is positive, there is no choice. Knows we have found bones of ancestors that are over 3 million old
 - hankwesselman.com – talks about 5,000 years in the future as he went into the future – he is part of the team who has encountered the Hawaiian kahunas – he became a kahuna while on one of his journeys – his future self came back to this life – 3 volumes of this man's writings
 - he altered a future – 5,000 years from now, they see the earth covered with – only a descendent tribe of Indians from the north pole – this reveals a possible future: if there are 200,000 alternate realities – we choose with our thoughts , our attitudes
- MK has had first hand testimony from a woman who referred to her daughter as a parallel – she'd wake up in the morning, go into the bathroom, see a spider's web and sees it the same place
 - He knows the parallel realities are real and some have experienced this probably at Harmonic Convergence and on other occasions: this could explain why people have memories of certain events
 - talks of Prince
 - not a small number of people having these experiences: people are having actual memories of being in a different time streams: people talk of finding their hand written letters, or notes they have written, or old articles. Yet the material on the net today is different
- Says he was deeply involved in christian thinking and experiences until early 80s – was shifted into metaphysics in which he's been involved since -
- lost interest: need to be eating something that nourishes us
 - the day will come when we will realize that the lion will lie down with the lamb
 - how many remember the Beren**stein** bears? Do you realize that in this time line it is Beren**stain** bears – we have shifted;
 - what about Oscar **Mayer** – a song about weiners: now it's about Oscar **Meyer**
 - In our time stream now – the **a** is a sign post, tells them where they are
 - the crop circles are generated so people can know what time stream the watchers are in
- The mandela effect reveals
 - depending on our level of our evolution, the choices we make: I will meet this person or not; we will have a child or not; it's about free will choice and choosing

- AN IMPORTANT IDEA – when we talk about someone or something or some agency –
- what we think about that becomes our reality; we are constantly changing our time streams – the material universe was born from thought, emotion, light, sound – we have thought, an image, an expectation, a feeling about something and somewhere in the universe that thought forms into manifestation – things become more negative or more positive because we are thinking along those lines.
- The interview with a being called “hidden hand” and alleged activities
 - they are above the names we know of: Rothschilds etc got caught up in the game and their belief is that they have to play things out to the hilt –
 - according to the Hidden Hand as he says in the 60 + page interview: he is required by Universal law to present what is going on behind the scenes – the real rulers of the families are not people, but inter dimensionals, off worlders, as Simon Parkes would say. The ruling families we are aware of are rich – they believe they have to be 95% negative in order to ascend into the negative. The positive side is 51% - we are still sliding
- the ruling families are Ets and this is not necessarily reptilian - they must be negatively polarized in order to be of service to the positive souls by giving a choice between that which is real and that which is not. Some of the negative beings have our well being in mind: our goal for ourselves as humans is to experience choice: if we choose the negative, we experience a negative outcome. If we choose love and compassion and wisdom – love balanced by light – seeing the oneness in all life, the good in all souls no matter who they are. To the degree that we develop and in what way into negative polarity or a positive polarity happens because we choose a response – things do not happen to us: they are the result of our choices.
- those who descend into this polarity are helping others and themselves: the training on the negative side is extremely arduous
- the ones who choose half and half are called luke warmers: don't want to quite let go of resentment to others
- Talks of Sananda walking in the mountains – **Lives and Times of the Masters of the Far East**
- Hidden Hand explains: we need to read all 60 pages of the interview to get the message: it's profound and also shocking – even though he is negatively polarized, yet he is designed to help us evolve and his love and compassion come through.
 - If we think of our partners – forget about changing them: heal yourself first.
- Ask yourself one pivotal question: what is the True Nature of Life in moments just like this?
 - If we ask this in the face of things we face at the moment: what we are seeing is not what is really happening – the true nature of life is love
 - We are the experiencers of our own attitude, beliefs,
- the location of New Zealand – a slife
 - Simon Parkes is very clear: this time stream will defeat the cabal
 - yet it requires our participation
 - Says the game of life is not about protesting, changing laws
 - Marianne Williamson talks about creating a dept of peace, not of war – if this comes out of the soul, that's good
 - if we've done our inner work and everyone has done it, then we can change things – if we are still at war within ourselves, and we don't ask ourselves the pivotal questions, we don't get too far.
- If we read the 2 materials, and we want to be part of the group at 51% or better, we'll end up in

the 3D earth – his interview was in 2008, and says not to take anyone's truth verbatim just because it's written or said. We have to take personal responsibility: ask the question what is the True Nature of Life in this moment – take several deep breaths – soul evolves with the question – the question opens the stuck parts of us, and we'll start to experience healing.

- Our timestream today is more positive than the one he was in in the 70s when he was so involved in spirituality – spent a lot of time working on his negativity & started using all kinds of positive words that helped him; he was so angry at self and the world

NATO Terrorists are invading Syria, and the Syria government is blamed for the ensuing disasters

By [Mark Taliano](#)

<http://www.globalresearch.ca/genocidal-corporate-media/5533293>

Genocidal corporate media presstitutes follow the all-too-familiar script of blaming the victim for the crimes perpetrated by aggressor nations.

NATO terrorists, for example, are invading and occupying Syria, and the Syria government is blamed for the ensuing disasters, but the presstitutes omit this from their narratives and instead find creative ways to blame the al Assad government whose duty it is to protect Syria, its sovereignty, and its territorial integrity. When terrorists are occupying cities, as they do in Syria, innocent people will always be victimized, including during government operations to clear out the terrorist infestations, but the presstitutes blame the Syrian government, not the NATO terrorists.

President Assad is fraudulently demonized for a war perpetrated by aggressors who are tasked with destroying Syria so the West can further the destruction under a fraudulent Responsibility To Protect (R2P) mandate, wherein criminal West promises to save Syrians from the West's own terrorists. It's basically a mafia -style protection racket writ large: If Assad steps down, we'll "protect you" and replace him with a Wahhabi stooge government, and everyone will be happy.

The reality of course, is that if the Western terrorists win the war, Syria will be totally destroyed, much like Libya, Iraq, and the Ukraine.

The crimes of the aggressors have been well-documented for years, and all but ignored by the presstitutes.

A 2012 Defence Intelligence Agency (DIA) memo stated unequivocally that the U.S support for ISIS was [willful](#). In an interview with Mehdi Hasan, Michael T. Flynn, former director of the DIA, was blunt.

To Hasan's question,

In 2012 the U.S. was helping coordinate arms transfers to those same groups [Salafists, Muslim Brotherhood, Al Qaeda in Iraq], why did you not stop that if you're worried about the rise of quote-unquote Islamic extremists?

Flynn responded, "I hate to say it's not my job...but that...my job was to...was to ensure that the accuracy of our intelligence that was being presented was as good as it could be.

The New York Times newspaper, another propaganda outlet, can't help but reveal the truth, even if indirectly, when, in a recent article, "[C.I.A. Arms for Syrian Rebels Supplied Black Market, Officials Say](#)" it acknowledged that " Weapons shipped into [Jordan](#) by the [Central Intelligence Agency](#) and [Saudi Arabia](#) (were) intended for Syrian rebels."

Meanwhile, UN Security Council Resolution 1373 states clearly that,

(A)ll States shall: (a) Refrain from providing any form of support, active or passive, to entities or persons involved in terrorist acts, including by suppressing recruitment of members of terrorist groups and eliminating the supply of weapons to terrorists.

All of this evidence assigns guilt directly to the West for the disaster befalling Syria. The West's actions contradict international law, and they expose the lies of the prostitute media that typically vilifies the Assad government rather than the real perpetrators (including themselves).

Yet another recent article, "[U.S. Relies Heavily on Saudi Money to Support Syrian Rebels](#)", indicates that the West is also behind the financing of the terrorists. The writers reveal that,

When President Obama secretly authorized the [Central Intelligence Agency](#) to begin arming [Syria](#)'s embattled rebels in 2013, the spy agency knew it would have a willing partner to help pay for the covert operation. It was the same partner the [C.I.A.](#) has relied on for decades for money and discretion in far-off conflicts: the Kingdom of [Saudi Arabia](#).

Financing terrorists is also a violation of UN Resolutions (and international law). UN Resolution 2199 "urges",

States to prevent the terrorist groups from gaining access to international financial institutions and reaffirmed States' obligations to prevent the groups from acquiring arms and related materiel, along with its call to enhance coordination at the national, regional and international level for that purpose.

Add to this the fact that now [Israel](#) is publicly admitting that it prefers ISIS to the Syrian government, and we see that the prostitute narratives are falling apart yet again.

[Dr. Bouthaina Shaaban](#), Syrian President Bashar al Assad's media advisor correctly assesses the damage committed by Western media outlets that propagate false narratives about Syria:

The false narrative, propagated about Syria was as dangerous to the Syrian people and the safety and security of Syrians as the terrorist acts perpetrated by terrorists because it isolated the reality in Syria from the public understanding in the West and the world at large and it prevented creating a level of understanding between western countries and the Syrian people about what is going on.

What will be the next story advanced by the genocidal media to account for the clear criminality of the West and its terrorists?

How many more thousands of innocent people will lose their lives because of the Western lies, and the grovelling prostitute media echo chambers covering for the criminality of the Western foreign policies?

2016-06-29 The Saudis Have Lost the Oil War

By [F. William Engdahl](#)

Global Research <http://www.globalresearch.ca/the-saudis-have-lost-the-oil-war/5533380>

Poor Saudi Arabia. They don't realize it yet but they have lost their oil war. The war in its current phase began in September, 2014, when the dying King Abdullah and his Minister of Petroleum, Ali Al-Naimi, told US Secretary of State John Kerry they would gladly join Washington in plunging world oil prices. It became clear the main Saudi motive was to eliminate the new growing challenge to their control of world oil markets by forcing prices so low that the US shale oil industry would soon go bankrupt. For Kerry and Washington the focus, of course, was to economically cripple Russia in the wake of new US sanctions by damaging their revenues from export of oil. Neither achieved their aim.

Now, however, it's clear that Saudi Arabia, which along with Russia is the world's largest oil producer, is going down a dark road to ruin. Washington seems more than happy to cheer them on.

The long-term Washington strategy since at least 1992, well before September 11, 2001 and Washington's declaration of its War on Terror, has been by hook or by crook, by color revolution or outright invasion, to directly, with US "boots-on-the-ground," militarily control the vast oil reserves and output of the major Arab OPEC oil countries. This is a long-standing institutional consensus, regardless who is President.

Cheney: 'Where the Prize Ultimately Lies'

To appreciate the long-term strategic planning behind today's chaotic wars in the Middle East there is no better person to look at than Dick Cheney and his statements as CEO of the then-world largest oilfield services company. In 1998, four years after becoming head of Halliburton, Cheney gave a speech to a group of Texas oilmen. Cheney told the annual meeting of the Panhandle Producers and Royalty Owners Association in reference to finding oil abroad, "You've got to go where the oil is. I don't think about it [political volatility] very [much](#)."

During his first five years as CEO of Halliburton, Cheney took the company from annual revenues of \$5.7 billion to \$14.9 billion by 1999. Halliburton foreign oilfield operations went from 51% to almost 70% of revenues in that [time](#). Dick Cheney clearly looked at the global oil picture back then more than most.

In September 1999 Cheney delivered a speech to the annual meeting of an elite group of international oilmen in London. One section is worth quoting at length:

"By some estimates there will be an average of two per cent annual growth in global oil demand over the years ahead along with conservatively a three per cent natural decline in production from existing reserves. That means by 2010 we will need on the order of an additional fifty million barrels a day. So where is the oil going to come from?"

Governments and the national oil companies are obviously controlling about ninety per cent of the assets. Oil remains fundamentally a government business. While many regions of the world offer great oil opportunities, the Middle East with two thirds of the world's oil and the lowest cost, is still where the prize ultimately lies, even though companies are anxious for greater access there, progress continues to be [slow](#)."

The PNAC Warplan

Now let's follow that bouncing ball sometimes called Dick Cheney a bit further. In September 2000 Cheney signed his name before his selection as George W. Bush's vice presidential running-mate, to an unusual think-tank report that became the de facto blueprint of US military and foreign policy to the present. Another signer of that report was Don Rumsfeld, who would become Defense Secretary under the Cheney-Bush presidency (the order reflects the reality-w.e.)

The think-tank, Project for a New American Century (PNAC), was financed by the US military-industrial complex, supported by a gaggle of other Washington neo-conservative think tanks such as RAND. The PNAC board also included neo-conservative Paul Wolfowitz, later to be Rumsfeld's Deputy Secretary of Defense; 'Scooter Libby,' later Vice President Cheney's Chief of Staff. It included Victoria Nuland's husband, Robert Kagan. (Notably Victoria Nuland herself went on in 2001 to become Cheney's principal deputy foreign policy adviser). It included Cheney-Bush ambassador to US-occupied Afghanistan and Iraq, Zalmay Khalilzad, and hapless presidential candidate [Jeb Bush](#).

Cheney's PNAC report explicitly called on the future US President to remove Iraq's Saddam Hussein and militarily take control of the Middle East a full year before 911 gave the Cheney-Bush Administration the excuse Cheney needed to invade Iraq.

The PNAC report stated that its recommendations were based on the report in 1992 of then-Secretary of Defense, Dick Cheney: "In broad terms, we saw the project as building upon the defense strategy outlined by the Cheney Defense Department in the waning days of the Bush Administration. The Defense Policy Guidance (DPG) drafted in the early months of 1992 provided a blueprint for maintaining U.S. pre-eminence, precluding the rise of a great power rival, and shaping the international security order in line with American principles and [interests](#)."

At a time when Iran as a putative nuclear "threat" was not even on the map, PNAC advocated Ballistic Missile Defense: "DEVELOP AND DEPLOY GLOBAL MISSILE DEFENSES to defend the American homeland and American allies, and **to provide a secure basis for US power projection around the [world](#)**. (emphasis added)

In the report Cheney's cronies further noted that, "The military's job during the Cold War was to deter Soviet expansionism. Today its task is to secure and expand the "zones of democratic

peace; (sic)" to deter the rise of a new great-power competitor; defend key regions of Europe, East Asia and the Middle East; and to preserve [American preeminence...](#)"

The Cheney PNAC document of 2000 went on: "**The United States has for decades sought to play a more permanent role in Gulf regional security. While the unresolved conflict with Iraq provides the immediate justification, the need for a substantial American force presence in the Gulf transcends the issue of the regime of [Saddam Hussein.](#)**"

The quote is worth reading at least twice.

A year after the PNAC report was issued, then-General Wesley Clark, no peacenik to be sure, in a March 2007 speech before the Commonwealth Club of California in San Francisco, told of a Pentagon discussion he had had shortly after the strikes of September 11, 2001 at the World Trade Center and Pentagon with someone he knew in Defense Secretary Rumsfeld's office.

Ten days after the 911 attacks, Clark was told by the former Pentagon associate, a general, that the Pentagon planned to invade Iraq. This was when Osama bin Laden, a bitter foe of the secular Baathist Socialist, Saddam, was being blamed for the terror attacks, and there was no 911 link to Iraq's government. Clark related his conversation that day with the general:

"We've made the decision we're going to war with Iraq." This was on or about the 20th of September. I said, "We're going to war with Iraq? Why?" He said, "I don't know." He said, "I guess they don't know what else to do." So I said, "Well, did they find some information connecting Saddam to al-Qaeda?" He said, "No, no." He says, "There's nothing new that way. They just made the decision to go to war with Iraq."

"I came back to see him a few weeks later, and by that time we were bombing in Afghanistan. I said, "Are we still going to war with Iraq?" And he said, "Oh, it's worse than that." He reached over on his desk. He picked up a piece of paper. And he said, "I just got this down from upstairs" — meaning the Secretary of Defense's office — "today." And he said, "This is a memo that describes how we're going to take out seven countries in five years, starting with Iraq, and then Syria, Lebanon, Libya, Somalia, Sudan and, finishing off, [Iran.](#)"

These were all wars, or attempted wars from the US for military control of the most abundant proven oil regions of the world, what Cheney in 1999 described as, "where the prize ultimately lies."

Since that time, the US State Department and a host of government-tied NGO's such as National Endowment for Democracy, Freedom House, Soros' Open Society Foundations and others, along with the CIA, have launched the US-orchestrated ("lead from behind" is the current slogan) Arab Spring series of "democratic" regime coups across the Middle East, including Hillary Clinton's war against Qaddafi in Libya, against Bashar al Assad in oil-and-gas-rich Syria, in Iraq yet again, Egypt and other oil or gas states of the Middle East, including an failed 2009 Color Revolution, the so-called "Green Revolution" in Iran.

US Agenda in the Mideast

The Washington Pentagon and US State Department agenda today in the Middle East has not varied one bit from that described by General Clark about his September 20 2001 Pentagon talk. It has expanded, but the aim is the same: full US military control of the heart of world oil flows, the Persian Gulf and beyond. As Henry Kissinger is alleged to have said during the first oil shock of

the arly 1970's (which he was instrumental in making happen), "If you control the oil, you control entire nations or groups of nations."

Here we come to the September, 2014 Kerry-Abdullah deal. Washington ultimately has her eye on controlling the Saudi monarchy and its vast oil reserves, along with those of Kuwait and other Gulf Cooperation Council US "allies." Britain, whom Charles de Gaulle referred to as "perfidious Albion," is not the only perfidious world power.

After major surprises in their 2014 strategy of killing Russia's oil revenue with Saudi help, when their own booming oil shale industry began to face major company bankruptcies, Washington was forced to recalculate. When Russia made its surprise entry into Syria on invitation of her legitimately elected President, Assad, on September 30, 2015, Washington was forced again to recalculate. Now the new plan seems to be to give Saudi Arabia "enough rope to hang herself" as that Soviet hangman, V. I. Lenin, was fond of saying.

When Prince Salman, the de facto Saudi King, fired the architect of Abdullah's oil strategy to destroy US shale and regain world oil hegemony earlier this year and replaced him by ARAMCO chairman, Khalid Al-Falih, someone said to be more compliant with the 31-year-old erratic Prince Salman, Khalid immediately announced no plan to alter the low price high-production strategy of the Kingdom in order to kill the US shale rivals. That, despite mounting evidence the world oil market had undergone profound change since 2014.

It seems, however, that the US shale producers are far more resilient than the wily Prince Salman has calculated. On April 26, in testimony before the US Senate Energy and Natural Resources Committee's "Hearing to examine challenges and opportunities for oil and gas development in different price environments," Suzanne Minter, Manager, Oil and Gas Consulting at Platts' Analytics presented pretty interesting details that help explain why the volume of US shale oil has not yet collapsed despite a fall in global oil prices from around \$103 a barrel in September 2014 to a range of \$40-50 a barrel today. Most shale projects were to have gone under at prices below \$65 or thereabouts.

In her testimony, Minter described extraordinary technology changes that have allowed US shale oil producers to survive and more. She noted that since 2012 US oil production grew by 57% from 6.1 million barrels per day (mmb/d) to a peak of 9.7 MMB/d in [April of 2015](#). Almost all was due to new shale oil output. That's 3.6 million barrels of US shale oil a day, a huge volume for the world oil market, including Saudi Arabia, to deal with.

Minter described the effects of huge technology improvements using the Texas Eagle Ford Basin shale region as an example: "Currently the Eagle Ford accounts for 13% of US crude production. In October, 2014 the rig count in the Eagle Ford peaked at 209 rigs. At that time, the average initial production (IP) rate for a well in the Eagle Ford was 436 barrels of crude per day and the average time it took to drill a well was 15 days. At that time, those 209 rigs, should they have remained in the basin, and continued to drill at that rate of one well every 15 days, would have ultimately produced 3.3 MMB/d of crude in the Eagle Ford by [2020](#)."

Then she describes the technology gains in production as well as time to drill and how many wells needed to get the same shale oil output. It's impressive:

"In 2015 as producers cut their rig fleets, the rigs remaining now sit on the best known

acreage. Resultantly, the average IP rate in the Eagle Ford increased by 50% to 662 barrels of crude per day and average drill times have fallen by 25% to 11 days. As a result, the current rig count of 49 in the Eagle Ford could theoretically hold production flat at the current estimated level of 1 MMB/d, so long as those 49 rigs stay in the basin through 2020 and continue to drill one well each every 11 days with an IP rate of 662 barrels each. This also means, that **when recovery occurs, the Eagle Ford would only require 125 rigs to create the 3.3 MMB/d previously projected by 2020 that had once required 209 rigs to produce.**"

Minter continued, "The time and the rate in which this energy entered the market appears to have stressed the system in ways unimagined" making the US producer, "the marginal supplier and price setter into the global market." The Platts oil expert continued, "Drilled but uncompleted wells hold reserves that can be brought on line in a short period of time, thereby defining the concept of spare capacity. It is plausible to believe that US spare capacity may be close to rivaling OPEC's current spare capacity. **However, we believe that the prices needed to incentivize the US producer to complete their drilled but uncompleted wells may be much lower than global competitors believe or would like it to be.** (emphasis added). Minter concluded, "Texas alone could introduce 1.25 MMB/d of oil into the global market and can do so in a short space of time – on average just 30 days. That's more oil than the Saudis have threatened to flood the market [with](#)."

So poor Prince Salman and his Royals may soon face an internal revolt by jealous and angry Royal rivals for destroying the finances of the once-super-rich Saudi Kingdom. The only fly in the US shale oil soup, however, is how long the shale oil bonanza can last. Shale oil reservoir depletion rates are significantly faster than with conventional wells. Some estimate that shale volumes in the US will drop dramatically, despite the new technologies, within five or so years. But by then Washington's foolish Pentagon planners hope to have locked the entire Persian Gulf into their military grip, including the foolish Saudis. Both sides have a mad agenda.
