HARD NEWS

- R:** talked to **Sweet Angelique the Cat [SAC]** – one of Mother Sekmet's paschat warriors, serving in one of many roles; at the moment, she is nailing Trump as a sexual predator; her evidence is film footage
- latest is Trump with a Hungarian celebrity in a hotel room – Trump invited her to his hotel room - could have been in Moscow, 2013: heavy drinking, sex, Russian Oligarchs, plutocrats rubbing elbows with Orange Hilter, ladies of the night & Hungarian person
 - US media are calling it fake news; the dossier on Trump that Putin has is getting larger by the day!
 - **SAC:** at the party, Russian oligarchs were discussing nuclear secrets with Black Ops who were present; they are working against Trump, tho' it is supposed to look like they are working for him
 - Ithe story about the secrets is about 15 years inside the Mossad and Shin Bet and the horror stories of the Lukud Party: people in Israel, if they cross paths with Netanyahu, they end up in dark prisons or worse like in Chicago
 - R asked about the Getty Musuem: there is a fortress under it that is that 5 -10 miles below the earth's surface, with mag level trains & tunnels that go under continents and oceans; there are ET slaves and human slaves working together; brings up why Crazy Steve rescued Professor Nicademus - lots of the kids got snatched at Disney's game lands or in similar places.
 - He asked about the kids being released: she wasn't sure what happened; she confirmed that the bases working for the dark side will be removed, gutted; many have already been removed, but there are still pockets of this stuff going on
 - R listened to the video someone sent about an ex-CIA agent: thanks god that Ashtar and Sananda are here: now is the time for peace!

Leslie Marshall Show: Arandatji Roy will be showing up at the woman's march

- She said he deserves
- Brought up things he said on his campaign

Audio: Thom Hartmann

Steve Cohen: will start with where we are in terms of Russia

- a new and more dangerous cold war – starting with 2014 and 3 fronts of a hot war: Ukraine; the Baltic Region, Syria where literally Russian and American planes are flying
- Should be talking about potential WW 3, but no one is discussing the idea

[Russian Expert "Detente Both Possible & Necessary" \(w/guest: Stephen Cohen\)](#)

<https://youtu.be/OV4MqxPJAhw>

Thom speaks with Stephen Cohen, Contributing Editor at The Nation & Professor Emeritus of Russian Studies at NYU, about the various scandals involving Russia and President-Elect Donald Trump, and the possible implications for the future.

CONFERENCE CALL

T: More than belief is involved in what is happening now: it is about the principles behind what is going on – goes back to organized religion and seeing people who want to move at the higher levels being turned sideways by what they hear in all the churches

the New Earth: the New Earth has been here for quite some time; over that period, since Harmonic Convergence, Aug 16-18, 1987, the Photon Belt that Alcyone brought to the earth provided the seekers of truth with a path of action they could take.

- It brought in the Age of the 6th sun – and we work with our 3rd eye twice a day – we can do 2 things at once and nothing at all: playing with the dog and consciously meditating, seeing the dog's higher Self. There are 3 categories of higher self of dogs: the fairy kingdom, the devic kingdom/earth guardians; animal kingdom are working with guardianship of the earth too
- having a garden has purpose: connects people to garden devic kingdom/earth guardians – tree spirits are also earth guardians. Plant divas – a being from the etheric realms looks after the plants
- Tells of her experience in a garden in Phoenix when she saw leprachauns sitting in chairs

T: Trump's nominee – committed war crimes in Iraq – using white phosphorus; also blocked all exits so people could not leave and said out loud it's fun to shoot them!

Ro: they are not long for this world!

T: no guarantee of how long they will be remaining; though every moment people are becoming more and more aware of the circumstances

- last night on **Laurence O'Donnell: The Last Word** said a Quinnipiac poll that reviewed different categories:

40% disapproved, 34% approved of jess Sessions;

35% disapproved of Rex Tillerson – not even a majority of Republicans agreed least informed of any candidate for Secretary of State

MAJORITY not confident that Trump would not make things better

1/12/17 **Trump slides in poll, even among Trump voters**

Most presidents-elect ride to Inauguration Day with higher poll numbers than Donald Trump, who is sliding even before being sworn in. A new Quinnipiac poll shows majorities of Americans don't think he will govern well. Joan Walsh and Charlie Sykes join Lawrence. Duration: 17:33

COR: asks if Marianne Williamson is on the up-and-up

T: does know that the Unity church she worked with in Detroit voted to get rid of her – yes, there is a very strong ego in there

R: maybe this Monday, MW was on Stephanie Miller; talked of Trump in the context of ?? and she knows that he is a sexual deviant and looks for the kind of energy that will bring out the worst in folks – he is a master at manipulating the media; he is a product of Hollywood which is getting ready to go on strike for a month.

COR: who would go on strike?

T: the whole of Hollywood – everyone from top to bottom

COR: a passionate message to send to the whole world when the corporate areas are not supporting [any kind of resistance]

T: and Hollywood represents America

COR: that is the voice of the people – will be something to see!

T: right now the dander is up across the board – and they have a learning about how to do this without violence

- She's a friend of Thom Hartmann and ??
- Bernie will be with her and the Sister Giant group meeting on Feb 3, 4

Lyn: she's trying to bring in divine gov't herself

- also share exopolitics.com – Alfred Lambremment Weber

COR: would not bother with Alfred – totally compromised

- Michael Sallia.org is a different website

Lyn: Weber had on Patty Greer and someone else -

T: completely compromised: took \$2 billion to do something naughty!

R: talked to Lady Di and Dodi on Thursday: taking the Middle Eastern Road to Spain – doing it by craft

T: finding artifacts as they have special equipment to find such

R: when they find things, they collect it – go down inside to get it

RO: can't they remotely teleport if [he's thinking about efficiency]

T: they want to go inside and see what is going on before they touch anything; also need to have conversations with the guardians of the artifacts!!!

- We always have enough time, love, air to breathe: the processes of unlayering things are not black and white –
 - about Marianne: she is brilliant and they played the Sister Giant items on the show
 - T knows her and has hung out with her in many places – she knows something was going on in that church but has no idea what it was. MW also has a strong ego and a high mastery of knowledge and wisdom: necessary to temper the self – we all have things to do
- She [MW] does not have access to things that Rama does nor is she privy to the White Knights – Tara remains neutral on that story.
- Rama is the only one who has access to what Alfred did – played with the dark side and he crossed the line – it is Mother's job to deal with this: we send him love. He jeopardized NESARA big time!!!
 - When we have the ability to do things and the higher we move in that field of work, stronger become the temptations and the offers; the amount of information and the amount of spiritual discernment is quite high
- the energies with Michael King yesterday were quite high: he combined the various backgrounds of Aruvedic, native and others – T told Michael about going out for pizza and MK saying he loved pizza, and we do damage to our bodies when we eat pizza, yet we can clean up the damage with certain
- all sweets, all dairy, all eggs to be removed from the diet

Lyn: critical to get back with Bruce Lipton and Dr Emoto's work, as we are mostly water – if our thought forms are co-creating – hardly matters what we eat if our thoughts are on track

T: it doesn't matter what we eat **when we are at the mastery level** and we don't have to eat or drink water

Ro: and before that there are replicators that can create [what we need]

T: yes and now: access to these things requires not violating free will choice – and the access to these things is available as we pursue higher knowledge and know what this is about and how and why it works. No one knows how soon each and every one of these things comes on line: they were told 20 years ago that the first 6000 technologies will be released when the announcements are made

R: the technologies out there – the creator of the Tesla Car

T: electric cars do a lot of damage to the electro magnetic field of the people in them - the availability of the awareness of awareness is here: there are many people not aware of the choices they have – still feeling they are limited. Only a minimum number of people know how far down the rabbit hole we really are

- in our evolutionary development, the possibility of the leap is being made with more faith and love than people's acceptance – people like the homeless people are so resilient, so relentless, hang together – they are helping T & R as they can because T & R

R: his health is much better [in answer to a question]

T: the Body Cafe has free meditation available for people – a high vibrational place. For someone to go there: they rent a space and bring in people for free to teach. Another example of what we are being afforded when the NESARA money becomes available

R: an avant garde group of Millennials in Santa Fe – created a fantasy surreal art gallery called " Meow Wolf"

- a group of poetry millennials do performances – dance and movement [meowwolf.com] – these people and the billionaire who got out of the corporation because he was going to blow the whistle on CEOs who play with the Bilderbergers –
- it costs \$15 to be at Meow Wolf for the whole day -
- have a set up that looks like a movie set: mad max / thunderdome/babylon 5 – people dress up like space characters and other mythical ones

RO: last week Mother said January is the hour! Wants clarification -

T: we are all equal to All That Is, with the caveat that we pursue who we are

Lyn: mentioned that T & R had been involved with soul swapping – asking for more info

T: was done in Egypt in the past, called **body hopping** – see The Secret Places of the Lion for some of the examples – pharaohs did it to maintain power

eg, in 1993, Dove of Oneness made a deal with the devil: she wasn't true and honest with herself at the soul level – working for Silicone Valley, living in Phoenix – making money hand over fist. She went to an experience there: there were 3 Wingmakers – they were cloned versions of Wingmakers and programmed by the Bush family: offered her a deal to work with the energies of NESARA. The Supreme Court case out of CO had been heard in Jan and the Black Farm Claims, the Pigford Case, was granted the merits to be heard.

- On Oct 10, 1991 before he left office, KOS and WK surrounded Bush Sr and he had to sign the Executive Order to hear the claim and then he tabled it and did nothing.

- On Oct 28, 1992 [1+1 he was killed and cloned – the White Knights work with those numbers, as well as the dark ones.] The point is he was killed and cloned in the same year; was a clone until 1993 when that clone went to Japan and was killed via poisoned food – and since then there have been 34 clones. Also in 1991, HRC took Bush Sr’s place as the one put in charge for the 13 familieis – she’s a 50 foot dragon, a full blooded reptilian – she has been trained for this since she was a baby.
- Another thing in 1991: about walk-ins. Ashtar opened the program for walk-ins: a life program and T, R and a friend who used Marcel Vogel crystals, the Tackion beads and Mother’s energy – a person would learn a whole series of akashic record lifetimes and the agreement made with their Higher Self before they came in this time and learned what was pertinent – Mother helped them with this. Then put them on a table and used the crystals and beads to open the aura.

BBS RADIO MOTHER SEKMET / ALCYONE [M/A]

Opening Music: the highest mantra form of invoking soul evolution to the highest point of Light, Wisdom in any time/space continuum.

Know that it is done at the highest awareness -

Greetings:

In the light of the Most Radiant One, in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet flame.

T: asking for divine intervention at its highest level for the transformation of all that which is not in the place of love, in the ever present NOW

M/A:

- Is it hot enough in the kitchen?
- T:** What does it take for the light bulb to go on?
- After all, we are all returning to the place where we are balls of light, like the sun; not heat, in that sense, but cold fusion. We heard the word: these sound frequencies coming in, magnetic waves of light that are pouring forth across this galaxy and so many others in the 27 known galaxies surrounding this area of our local space/time
- These waves coming in: the best way to describe it a metaphor of bringing everything, every body up for it all to be in the surface – let’s say where we bring up a hot topic – it is so hot that we cannot talk about it without creating more stories! It is these moments we are walking as a species, she could say:we are walking a road less travelled, the pathless path.
 - We’re making the path as we make this good red road. The travelling companions alongside us on this road - Jaquar medicine woman, the naqual:
 - Expect the unexpected – Uranus, Saturn, Pluto, Chiron; the stories about Persephone, Phaedra, how many others in this Nesis, discord – oh, my!
- The magic of what is happening about this walk we are taking – it is that we are the ones that are meeting ourselves already here. And we can hear the din of the noise of the 7 billion, almost 8 billion of us, who are saying “no” and ½ million life forms that think they hold some power is what stands in the way here, and the ½ million lifeforms are leaving this

planet every single day, whether we know it or not. And they are choosing to remove themselves.

- She said – yes, January the month . . .

T: do you scare them so much Mother, or do they think they are running away from you and they run right into you?

M/A: it is not so much what she represents, but what they are seeing coming in that she has not told us about - she is saying: they are petrified about - not so much about her and Alcyone; it is what is coming in. The magnetic particle light waves that are pouring in.

- Remember a week or so ago, or maybe less, maybe more, we heard about a bright burst of light from a galaxy, light years and light years and light years across the Universe of Neadon.

- When that burst of light first began this process, it was soon after the big bang and only now are the waves of energy pouring in. It is affecting our sun, Sol, in a good way – lifting the energies

T: making it lighter - in a good way – as the dark ones want to go darker, and the lighter is getting lighter, they have a problem

M/A: the vice grip is getting tighter and tighter and they can't get out of it, no matter what. It is that the impossible, the improbable, is calling the shots here – the naqual path we have not walked yet. Yet they as travellers through space/time, they say we have been down this road; we make it; it has already been done

- the how of it is the people taking their power like never before NOW. This is happening! We see it – people speaking up and saying “here is the line; we can go no further with the comments from this lifeform that . . . ” - let's say, to put it in reality's context: Jehovah / Lilith and Lucifer/Lucifera have already come back to love – what is playing out here is the ancient, ancient game. This archon took a body as – Trump

T: We have to honour him in that he volunteered to take on a body in the Dutch royal family

- makes her shudder: they torture their kids from the time they are in the womb space

M/A: it is about the conditioning, the training, these ones are put through to claw their way up the virtual ladder to the top

T: and as they don't pass their tests by the time they are 4 or 5, there is a ritual killing and the other kids have to watch - it is just the way it is

M/A: it has come to this critical juncture in our space time moment here, where serendity comes in, the naqual of what she speaks, the pathless path – that of which they say is the energies of the Force coming in – as we cannot hang out in the confines of this, as Morpheous described it, the dimensional reality that we are in: cannot hang out in the confines of this reality with evil; as the love is pouring in and changing the physicality of the dimensional reality, evil cancels itself out, and it cannot co-exist as an energy that can contend with the light pouring in. This is part of the quantum physics, the physicality of it: we are watching the blatant disregard for life itself with the statements that are made by these . . . only way she can put it: Soron and his buddies - as they carve up the planet!

- Sorry, it's not how things are: there is something coming in – a little pinprick of light from how many light years across the Universe of Neadon – that light pouring in from that far distant galaxy is affecting every living particle that we are in contact with in the moment, and if we are not in that state of the Gaia Tree Mantra [played just before Mother came in] we don't get to be here – it's that black and white. That is what the call of beauty is

T: and this is merciful: and this is what you mean when you say you are more merciful than just: the heightened frequencies of light are so painful to that resistance to it, that it is more merciful to remove them from that kind of suffering

M/A: yes, we would not choose to – yes, she is more merciful than just, to put it simply. She loves her children, it goes without saying. What has happened in this sacred hour is the energies pouring in from so many sectors of this little area of the Milky Way Galaxy along with the 27 other neighbouring galaxies – the light pouring in is so awesome to behold, and this is lifting everything up – the particles dancing with joy; at the same moment, same breath, we are looking at what has bubbled up to be cleansed in this hour

- yes it is to put the shawl on and mourn for the dead, for they are walking through their own valley of their own shadow of death. It cannot co-exist in the same context, the same breath, as this love which is pouring forth so magnificent to behold. And they have these war talks on the transmission box about making this planet go molten again

- what she can say about this is as Admiral Sananda and Commander Ashtar have said: no nukes.
 - The game that is afoot as Holmes and Watson would put it: the game to find Self is right here, in the sacred place called Thin With Your Heart: that simple. Make me an instrument of thy peace.

The mission that is so blatant before us, the first order of business is “hate is not a family value”; she is there in service to humanity in all its forms, whether it swims in a petri dish or flies or walks or quacks.

T: the question is about how free will choice interacts with linear and non-linear space time continuums.

M/A: We have the free will choice to follow the Laws of the One or to be an ass hole like Trump;

T: that’s kinda too black and white -

- for the sake of understanding, innerstanding that we make our own reality with our use of our free will choice
- that does not happen from an external place: it’s the synergy of community with love, within or without, with another - and the beautiful rule of thumb that where 2 or more or gathered is better
- and the higher wisdom gathers that 2 or more. There are all kinds of gatherings . . . and that’s another thing: Trump wants to get rid of the 1st Amendment – he does not want freedom of speech, and he was demonstrating this on CNN – you cannot ask me a question – I am a good dictator

M: to put it simply: we have a set of instructions from the Lavendar Lad called the laws about this land called the New Atlantis as well as this set of instructions that have been laid out called the constitution, the Bill of Rights and along with the wisdom of White buffalo Calf woman and **Deganawida** or **Dekanawida** [the Great Peacemaker] ***

- and the ones that coming in here that are not being talked about except the wise council of elders that are being gathered now, whether our media follow it or not.
- the energies are moving up and up and up; and as we do not follow the laws of how to take care of this temple, the energies will remove us, it’s that simple. It is not about existential reality; it is the laws of physics: if we do not follow love, we do not get to be here and our bodies will be our worst enemy – they will begin to disincorporate

T: It's very subtle: we all went through this phase - parents remind kids about rules and the kids say "I know; leave me alone"

- knowledge is not enough.

M/A: As you know, you can choose: wisdom is the key here

T: And the path to wisdom is about choosing to experience love & more love: this is a very subtle point: she **[M]** will not intervene in our free will choice, she will teach love, and the lessons get harder as we resist more

M/A: the energies that are pouring forth from Galactic Center and this galaxy so many light years away - the energies, the magnetic waves of light, the scalar waves of Living Light, Living Love, pouring in transforming, transfiguring every particle of our being; if we don't embrace it, we will find ourselves outside our body - it's that simple, no other way to talk about it

T: She has kept on telling us she is going to extend the time, and she has been saying "Time's Up" for a long time, yet the time that is up now is the biggest "time up " you've ever said!

M/A: watch it hit the fan!

T: Ross was chomping at the bit saying **now**

M/A: already the melt-down is occurring

T: that's what Sweet Angelique the Cat said

M/A: as the dossier on Trump from Putin's point of view gets bigger - a dossier of all the stuff that Putin has on Mr Trump - that dossier is quite thick

- It is not inches, just let her say [in response to T's comment that what he has is not pretty!]

T: when you play with Russian oligarchs, you pay

M/A: how many fingers do you have on your hands? How many do you want to lose?

T: remembers someone saying give us bush's thumbs on a platter

- She will not go into talking about torture and abuse in terms of metaphors!

T: Trump says he's going to do more torture and reinforce it and put more in Gitmo Bay - this is folly

M/A: in the context of as we grok the energies pouring in at this moment, pray for their salvation.

T: What is an emoji hole?

M/A: An emoji is a icon, like the symbols on the screen

T: Michael S[tike?] was on Colbert and on Democracy Now, he was at their 20th anniversary and he got up from the audience, brought his guitar and sang with Patty Smith;

- T did not know who he was: he had a big book - no pages in it - when he opened it up, it was an emoji, an orb; he said it was a place we can go - a place to go into freedom and that is all there was to the book!

M/A: the possibilities of endless opportunities of exploring that which is within us: we know less about the living temple of the goddess. There is a movie in the 70s, called *Fantastic Voyage* - took a tiny ship and shrank it to the size of a cell, inserted into a doctor/scientist's body who had a brain tumour; the ship travelled through thousands of miles through the veins to the brain and used a laser to destroy the tumour on his brain; what happened was everyone on the ship got enlightened by following the paths of the veins to the brain - it is about within you, without you - here comes the Sun!

T: I am the whole universe and I am the drop in the ocean: the drop is the whole universe!

- there is no way to perceive love than anything less - this is the problem here: there are relationships based in a dimensional context that has already left this field called the Earth Plane - 3rd dimensional teachings of the concepts of gravitational limitations - reading about the Vrill society and about the 2 Pleiadian ladies: that article is such a big deal and if you look up "herbal red mercury" you get tagged right away - it's an herbal extraction coming from a cinnabar plant which reverses aging process
 - As she attempted to explain on the conference call, as we think that "all I have to do is take this stuff and reverse my aging process", you could implode
- M/A:** it is not about taking a sugar cube and seeing God
- T:** no, because when you do the reversing, you are shown every level of your being - if it's too much for you and you have the wrong concept of it, you could end up removing yourself from this dimension. That is what is so serious about releasing technologies, or not
- she was told decades it does not matter what you eat: hen you reach the place where you can eat anything, you don't have to eat at all!
- M/A:** a Swami in 1978 gave them a demonstration of physical immortality: he drank something - some kind of acid - that is used to clean concrete: when you are in the state of awareness - samadi - no matter what you take, it transforms into mono atomic gold
- T:** because we are not really our body - and that is nanother story - the famous story about the fool and the card 0, zero [and 0 is a number, it's a place holder] - when the fool knows he can jump off the cliff , he knows that he can fly
- Yet THIS HAS NOTHING TO DO WITH THE LITERAL TERM

This was a political and cultural union of five [Iroquoian-speaking Native American](#) tribes residing in the present-day state of [New York](#) and northern Pennsylvania. The union created a powerful alliance of related Iroquoian peoples around the Great Lakes.

Historians believe the confederacy may have formed in the 12th century. In the early 18th century, the Tuscarora, also an Iroquoian-speaking people, migrated north from the Carolinas and joined the Confederacy as the sixth nation.

Capitalism looks different to those who were once commodities, and that has implications for how we build a future not based on domination. In this conversation, Laura talks with Farah Tanis, executive director of [Black Women's Blueprint](#) and Marxist economist, Professor [Richard Wolff](#), about late [#capitalism](#), early democracy, the crisis that gave rise to Donald Trump's election and what might come next, if we take seriously the task of erasing race, gender and other disparities.

Solidarity economy models exist across all cultures, times and traditions, points out Tanis, and those models had to be "unlearned" says Wolff. Can we learn anew, together? Tanis and the Black Women's Blueprint recently hosted the first Truth and Reconciliation Commission on black women and sexual assault in the U.S. Dr. Richard Wolff is a Marxist economist, professor, and the founder of Democracy at Work. On Wednesday, at the second day of confirmation hearings for President-elect Donald Trump's pick to lead the Justice Department, Alabama Senator Jeff Sessions faced unprecedented criticism. But only one Republican on the committee remained to listen. If the others had stayed, they would have heard the voices we bring you today. New Jersey Democrat Cory Booker's testimony marked the first time a United States senator has opposed a fellow senator's nomination for a presidential Cabinet post. He was joined by Congressman Cedric Richmond (D-Louisiana), head of the Congressional Black Caucus, who said the decision to have three black members of Congress testify at the end of the hearing was the equivalent of being sent to the "back of the bus." We play the full comments made by civil rights legend Congressman John Lewis (D-Georgia), who also testified Wednesday against Senator Jeff Sessions's confirmation for attorney general.

JUAN GONZÁLEZ: On Wednesday, on the second day of confirmation hearings for President-elect Donald Trump's pick to lead the Justice Department, Alabama Senator Jeff Sessions, he faced unprecedented criticism—but only one Republican on the committee remained to listen. If the others had stayed, they would have heard the voices we bring you today. [In] New Jersey Democrat Cory Booker's testimony, the first time a United States senator has opposed a fellow senator's nomination for a presidential Cabinet post, he told the Senate Judiciary Committee that Sessions is unfit to become the next attorney general.

SEN. CORY BOOKER: If confirmed, Senator Sessions will be required to pursue justice for women, but his record indicates that he won't. He will be expected to defend the equal rights of gay and lesbian and transgender Americans, but his record indicates that he won't. He will be expected to defend voting rights, but his record indicates that he won't. He will be expected to defend the rights of immigrants and affirm their human dignity, but the record indicates that he won't.

JUAN GONZÁLEZ: That was Senator Cory Booker, who was joined by Louisiana Congressman Cedric Richmond, head of the Congressional Black Caucus, who slammed the Senate Judiciary Committee, saying the decision to have three black members of Congress testify at the end of a hearing was the equivalent of being sent to the, quote, "back of the bus." Behind him were other members of the Congressional Black Caucus.

REP. CEDRIC RICHMOND: I want to express my concerns about being made to testify at the very end of the witness panels. To have a senator, a House member and a living civil rights legend testify at the end of all of this is the equivalent of being made to go to the back of the bus.

AMY GOODMAN: The civil rights legend Congressman Richmond was referring to is 14-term Democratic Congressman John Lewis of Georgia, who also testified Wednesday against Senator Jeff Sessions' confirmation for attorney general.

REP. JOHN LEWIS: Millions of Americans are encouraged by our country's efforts to create a more inclusive democracy during the last 50 years, of what some of us call the beloved community, a community at peace with itself. They are not a minority. A clear majority of Americans say they want this to be a fair, just and open nation. They are afraid that this country is headed in the wrong direction. They're concerned that some leaders reject decades of progress and want to return to the dark past, when the power of the law was used to deny the freedoms protected by the Constitution, the Bill of Rights and its amendments. These are the voices I represent today.

We can pretend that the law is blind. We can pretend that it is evenhanded. But if we are honest with ourselves, we know that we are called upon daily by the people we represent to help them deal with unfairness in how the law is written and enforced. Those who are committed to equal justice in our society wonder whether Senator Sessions' call for law and order will mean today what it meant in Alabama when I was coming up back then.

The rule of law was used to violate the human and civil rights for the poor, the dispossessed, people of color. I was born in rural Alabama, not very far from where Senator Sessions was raised. There was no way to escape or deny the chokehold of discrimination and racial hate that surrounded us. I saw the signs that said "white waiting," "colored waiting." I saw the signs that said "white men," "colored men," "white women," "colored women." I tasted the bitter fruits, the bitter fruits of segregation and racial discrimination.

Segregation was the law of the land that ordered our society in the Deep South. Any black person who did not cross the street when a white person was walking down the same sidewalk, who did not move to the back of the bus, who drank from a white water fountain, who looked a white person directly in the eyes, could be arrested and taken to jail.

The forces of law and order in Alabama were so strong that to take a stand against this injustice, we had to be willing to sacrifice our lives for our cause. Often, the only way we could demonstrate that a law on the books violated a higher law was by challenging that law by putting our bodies on the line and showing the world the unholy price we had to pay for dignity and respect. It took massive, well-organized, nonviolent dissent for the Voting Rights Act to become law. It required criticism of this great nation and its laws to move toward a greater sense of equality in America. We had to sit in. We had to stand in. We had to march.

And that's why more than 50 years ago a group of unarmed citizens, black and white, gathered on March 7, 1965, in orderly, peaceful, nonviolent fashion, to walk from Selma to Montgomery, Alabama, to dramatize to the nation and to the world that we wanted to register to vote, wanted to become participants in the democratic process. We were beaten, tear-gassed, left bloody, some of us unconscious. Some of us had concussions. Some of us almost died on that bridge. But the Congress responded. President Lyndon Johnson responded. And the Congress passed the Voting Rights Act, and it was signed into law on August 6, 1965.

We have come a distance. We've made progress. But we're not there yet. There are forces that want to take us back to another place. We don't want to go back. We want to go forward. As the late A. Philip Randolph, who was the dean of the March on Washington in 1963, often said, maybe our forefathers and our foremothers all came to this great land in different ships, but we're all in the same boat now.

It doesn't matter how Senator Sessions may smile, how friendly he may be, how he may speak to you. But we need someone who's going to stand up, speak up and speak out for the people that need help, for people who have been discriminated against. And it doesn't matter whether they are black or white, Latino, Asian American or Native American, whether you're straight or gay, Muslim, Christian or Jews. We all live in the same house: the American house. We need someone as attorney general who's going to look out for all of us, and not just for some of us.
