HARD NEWS

T: the energies feel like swimming upstream against the flow because of the astrology: Uranus is going to blow this bubble open – no dates!

R: talked to Jeremy Scahill, the Poppy Lady, Queen Noor, LM Nada; Dar Jamal; Malala

- The story has to do with the Middle East; they have taken the name of ISIS in vain – the group is called ISIL

T: Queen Noor yesterday singled out the US as being responsible for what happened to the fighter pilot from Jordan; it was the US got Jordan involved through Saudi Arabia via Bandar Bush and first and foremost by the request of John McCain: it is the handler of McCain, Henry Kissinger, who represents the head of the Nazi organization

- **Nada:** said to take the channelings of Metatron via Tyberonn with a grain of salt because it sounds like it will be 2038 before all is clear.
 - the master can only the channel through that person's focus; sometimes Tyberonn is on, sometimes not.
- This has to do with the mention of 2038 as the date when things will happen – not so: happening now!
- What we do with the intervention that is around us now – the jury is out – yes, they are helping us, and the astrology is also helping us, and we are evolving as a species.

- Brings out the fact that the 5th interview with Dr Neruda was kept back and only released in March, 2014.
 - You can see the compromise from the site and James who says that Rama Mu does not exist, and T & R are frauds; and he has no love for Faction 3
 - From here on out, we have to use our discernment at a very high level & that help is available to us
 - **Lady Master Nada** went from Bethlehem to see a 5 year old Palestinian boy who was shot in the eye by the IDI / Israeli soldier with a rubber bullet; he was on the sidelines – needs reconstructive surgery on his eye and his face, and hopefully his brain is OK.
 - **Malala** said she would donate money to this case – paying it forward! Palestinian hospitals are trashed, thanks to
- Jeremy Scahill** : 7 Pakistani people were killed due to US drones; thank you Mr Brennan and Hillary who have been doing this on behalf of the 13 families
- R to Jeremy**: how come he trashes Obama? Jeremy pointed out that it was not Obama; it is the policies going on where Obama has to arrest the head of the CIA and those who did 9 11.
- the 13 families are controlling every country in the world, with the US leading the way.

Col. Laurence Wilkerson, is calling for the arrest, prosecution, trial and execution of the Bush-Clinton crime family and all their minions – takes a lot of courage from Laurence to say this, given his former position with Colin Powell

The Poppy Lady & Dar Jamal said that all that has gone on since 9/11 has to do with the 13 families

- they are skin walkers – dark reptilians who have shape shifted to hide their appearance.
- the sooner Sen Mark Udall reads the terror report into the record of the senate of the torture report, the better.
- he will be protected by the galactics – has only a small window of opportunity

• **Rama asked Nada**

- about the guns & weapons of war being stopped – she told R **“Leave this up to me as the head of the Solar tribunal on Saturn and the special lawyer of the World Court - Leave that up to me!”**

R also asked about when the fake stories about the money systems and the illusions of grandeur and power that the dark reptilians seem to carry: when will all this be stripped away?

Nada: We are hanging in the edge of the precipice that you ask about, and the markets could fall at any moment!

T: That is the key: dump the momey out of their hands into ours - the power of more us raising our vibration can do this on its own; it can stop anything connected to war; as we the people do that, they must answer that - so we continue to do what we are doing, and love what we are doing into creating more of it! .

Audio: last 20 minutes of **Dr Helen Caldicott's 2013 Pirate TV presentation**
IN THE MIDDLE OF THIS, SHE SAID “JESUS IS A SOCIALIST! Get over it!”

On March 14, 2013 Dr. Helen Caldicott spoke to over 150 people at an event Sponsored by the Princeton Coalition for Peace <http://www.peacecoalition.org/> and several other organizations at the Princeton United Methodist Church.

In this her passionate 60 minutes discussion Dr. Caldicott touched on areas of abolishing all nuclear weapons and power plants, the dire impacts of global warming, new updates on the effects of radiation releases at Fukushima, Japan and the need for people to become more politically active.

..

Dr. Helen Caldicott is the former President of Physicians for Social Responsibility, which is a Nobel Peace Laureate and she is a widely recognized anti-nuclear advocate who founded several associations dedicated to opposing nuclear weapons and power, and war and military action in general. Dr. Caldicott is an Australian physician who left her medical career in order to call attention to what she refers to as the "insanity" of the nuclear arms race and growing reliance on nuclear power.

Dr. Caldicott founded Women's Action for New Directions (WAND) which is dedicated redirecting government spending from nuclear energy use to unmet social needs. As President of Physicians for Social Responsibility, she helped recruit 23,000 doctors to educate the public and colleagues on dangers of nuclear weapons and power. She also worked abroad to establish similar national groups focused on education about medical dangers of nuclear weapons and power.

The umbrella organization, International Physicians for the Prevention of Nuclear War, was awarded the Nobel Peace Prize in 1985. She was also the Founding President of the STAR (Standing for Truth About Radiation) Foundation and founded the Nuclear Policy Research Institute (renamed Beyond Nuclear). Dr. Caldicott also founded the Helen Caldicott Foundation for a Nuclear Free Future which hosts a weekly radio show called If You Love This Planet. Dr. Caldicott hosts that radio show that airs on dozens of U.S., Australian and Canadian stations. Dr. Caldicott has been awarded 21 honorary doctoral degrees and was nominated for the Nobel Peace Prize by Nobel Laureate Linus Pauling. She has received numerous awards, including the Humanist of the Year award from the American Humanist Association in 1982 and Women's History Month Honoree by the National Women's History Project in 2009. The Smithsonian Institution named Caldicott one of the most influential women of the 20th century

Conference Call

- what Helen **Caldicott cannot say** is that the Altarmarians, Sirians, and many other are mitigating and that is why we are speaking together tonight – without that mitigation, we would all be dead!
 - they will not do it all for us: we have to call up our Congressmen, Senators etc
- R: Bernie Sanders today:** 8 million young people did not vote in the last election; gives credence to the Koch Bros who can throw money at fake candidates who are not interested in doing things for the public good – yet they have already sealed their fates:
 - Go see the movie "Wizards" - **we are all avatars** – 10 hundred thousand x 10 hundred thousand x 10 hundred thousand

Tommy: his other idea: everything is fiction – an illusory reality to our divine nature; gov't is fiction and if you think otherwise, you are not of sound mind and judgment: we are made to give our power and authority to others. Those in suits and ties on TV are fiction – why would anyone want to vote for fiction anything?

- The point is that you don't really want to vote for any of these ones. A sovereign being does not want to vote for such as these. Understands what Rama is saying about those who did not vote
- Says all the work that people do with marches and such like - the reptilians are still in control: talk about building a fence on Mexico border but they don't want to do that; just want to keep us agitated
 - the fictional ones cannot do anything for us

T: his first premise is a lie: they are **NO LONGER IN POWER** and they are on

- Nada said they have not had a penny since Feb 2014 when the entire market was closed down

Tommy: it takes a lot for people to change: protests really make no difference [even though Tara went through all that has occurred this year as a result – eg the XL pipeline, gay marriage & other items]

- David Wilcock has information: touts the Law of One and how the intention experiments work.
- George Noory, Art Bell had done 10 - 15 intention experiments and they all work
- all we have to do is put the intention out there in larger mind; that is working smarter, not harder!
 - Easier than marching on Pennsylvania Ave with the Illuminati laughing at them

T: the truth is **this is working at a much better level than before:** people are picking up the gauntlet –

- when things are going on in the other side of the world have people saying “Hands up! Don’t shoot”, you know you have broken through.
- What he is saying is true to a certain level of consciousness – does not take into consideration the higher consciousness of others

Atlanta caller: how is E. Warren factoring into this discussion?

T: last Thursday discussed this: for the last while, E. Warren, Bernie Sanders, Michelle Obama are discussing how to make the energies work – thinks the ultimate goal is to get Michelle elected

R: in the 80s, sat with Sanders and his wife at their kitchen table; sees Bernie as one of the great treasures in this country; he is not risking his life to just shoot off his mouth

T: the fact that Warren is part Cherokee is significant: the Cherokees and native Americans have been treated even worse than the African Americans; their land, their water being polluted

Caller: called in to say the word was that E Warren is compromised – has given \$ to Israel

R: she moves as she moves to get things done; she will nail Netanyahu and the Khazars for what they have done

T: Jeremy Scahill says the same thing about Obama: he told Rama he does not get to be alive if he tells the real truth: you guys have to say it as you did not sign a gag order.

Caller BW: a story about Kevin Arnett – his whole story is phoney; some say that the story

T: who said this? What is the source of the information?

CallerBW: Mr Webre

T: he is completely compromised because he got the money and was told he was now going to do what he was told

T: not so much false, as to do with the venue – everything is so convoluted

Caller: Webre is making all kinds of charges against Kevin Arnett and ICSS in the common law he is twisting facts and making others – really sad

- Arnett cut the ties with Webre when he found out Webre was not to be trusted; Webre is fighting back

T: saying that the material reference by Big Will was influenced by Webre?

Caller: it's gossip about Arnett's personal life on his website

- people need to concentrate on the issues that Arnett is bringing up, not on the gossip

T: we all live in a world we believe exists as we see it, thanks to all the influences on us from all levels starting in utero; unless we are willing to make a breakthrough above that of an earth level to a galactic level of understanding

- Refers to “better red than dead” brought up by Helen Caldicott, the phrase that went through the whole McCarthy era and people were arrested for even wanting to discuss the subject
- Those days have changed – we are looking for finding common ground more than differences

T: Ukraine dismantled its non-aligned status and joins NATO

[SEE BELOW]

- President Putin signs a new document identifying NATO as a major threat

Tommy: what is full disclosure about?

T: the **full revelation of the existence of the ET**

- Over all other ET races, the Pleiadians been given the trust of intervening

Tommy: when these bad boys are gone and it becomes publically known that they have to tell the truth and be transparent – that is a form of disclosure;

- right now no one really knows the truth – intellectually, there is truth coming out about the news, about the deception, but that is not the truth about the human being which will come only when people know the only time –

- **Tara:** it will be a simulcast of the truth of the existence and the truth about what has been going on

Tommy: this is a fiction realm – it is a remembering for us: the only time we know for certain that we have just heard the truth is when it upsets you and pisses you off!

T: there is another realm where that is not the way: when you praise, respect, thank and love the feeling

Tommy: when your will, your feelings have been used against you, you know the truth

- we have all been holding back secrets, not expressing what we know and what we are – the truth has been criminalized so the truth of who we are has yet to be exposed and known and we want the upper levels to expose themselves, but the people will not expose who they are – it is the unresolved karma of our ancient past which keeps us from speaking fully

T: not so – The prosecution of an American president

Another Caller: what Tommy says reflects what the collective says;

- she knows there are some that are awake – that is the tip of consciousness – need to raise our consciousness that is individual & a search for balance – all the pain etc is being transmuted now.

Tommy: that is good input: he sees more clearly that we must get past our grave psychological problems with materials, vanity; having to be polite - I like Jacques Fresco said in front of 500 people – when you ask a question don't be polite

Caller: go to www.moveon.org and sign the petition; pray for all on the planet; start creating the cities of light

Tommy: what are we going to do in a city of Light?

T: There will be and are communities that focus on art, healing, writing, the polity /working with galactic law & teaching; everything will be teaching – teaching in every community about higher galactic teaching and law

T: there will be no money as in the other star systems; the blessing of N is just to get people having to work away from that activity

Tommy: the new form of money is appreciation; this is duality and we are ships passing in the night because we do not have the time to relate

T: the service to the master of darkness is waning as they have done themselves in by putting on the austerity

R: has visited the capital system of the star system Alpha Centauri – one of the planets circling this binary star system – James Cameron of Avatar fame: the planet called Pandora may/may not be fictional but it is one that circles the star system. In that realm, money does not exist: universal economics – as you have an idea, you share it in a circle

- There is no war there and people from earth cannot penetrate there

Tommy: can see what Rama is saying – you don't need money.

- All the people over the years could not get rich and be a multi millionaire.
- In the new world, they will not let the new system, the new world, let patriotic dinosaurs lottery minded folks loose on the street

T: a lot of people who think they are going to get money, will not – they are not ready

R: he experienced in Alpha Centauri the people experiencing such joy that war is not even a concept in their realm. There are star systems in the Universe of Nebadon that have not seen war.

- as we get to that place of understanding, things will really change. These things are being brought to the forefront of our consciousness and being made manifest; as we move there in consciousness, the physicality moves there too.
- They don't even use cars- they just think where they want to go, step on a conveyor belt of light and are taken to where they want to go!

Tommy: we have to create ourselves; hard to be the change they want to be when still stuck in the old world and still doing fiction commerce for fiction money; the court system is the microcosm of our lives and when we open our mouths, we are re-creating the old place. People have to let go of the matrix

- he has had no bank a/c for over 10 years: yet he is a rich man because of the inner life: he is an artist of sorts and working on bringing in the new world sitting in his chair.

- These are things that people can use to decide for themselves.

Another caller: Let the transformation continue!

- With disclosure people will be traumatized but not in the 9/11 way: the exposure / disclosure is about revealing who we really are as human beings, and what that entails. Getting rid of the distractions of doing the “stuff” of 3D – how much terror and trauma do we really need to know?

T: in terms of good news: having people know that the bad news is being funded by their tax dollars – all over the world!

Tommy: Americans will find out that we are all complicit in all the crimes that have been committed in the name of the country.

- The new way is 180* opposite – fun to think about and discuss, and to be free to be our authentic selves, and find out what we can create – god likes creators!

BBS

T: whatever modality people choose to express through, the inner expression of love - it is being strengthened;

- the other is in its sunset and it is an illusion, not matter what it appears to be. We can see this in the increase of the fearfulness they are trying to create; the old muscle is being flexed but it has no power.
- The Power of Love is here!

Alcyone and Mother Sekhmet

Greetings in the Light of the Most Radiant One, In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame.

Greetings, Children of Ra!

A: We are in those moments of such magic and frequencies of such beauty, joy, ecstasy, joy at the highest levels. Malikaliala Maka!

T: reads “Happy New Year” in Hawaiian

A: the new frequencies of such – it is so awesome to be in this realm at this time because we are the ones who have made it so where everything has changed in this moment. and it is that story about love, ecstatic love and joy, that radiance that is pouring forth from the heart of all things, in spite of all – like our friend Mr Tom said: it is a fiction.

- This is an interesting dichotomy to watch the fiction go on, because we are being taught by our own cells, the particles, to be in 2 places at once and nowhere at all: it is so auspicious to behold all of humanity waking up and, in the same breath, the same moment, there are so many that are still asleep at the wheel, moving into the centre lane: watch out for the wall on the left hand side, if you will. It is how we maintain our focus which is about being in this moment Now: Be Love Now.
- How this is being completed as we've asked: where is it? How is it completed?
 - It is the “how” of it where there are no words: imagine all the people as the man said; the dreamers awakening the nations – we are all dreamers in this moment, dreaming this dream awake, and it is physically manifesting right here, right now, in the infinite joy and wisdom of what we might call The Force within ourselves, where the Force has called us to active duty.
- The energies are such that we cannot be anywhere else except right here, right now: all that is in this moment is what we have asked for: to be fully awake, alive, enthusiastic and joyful to be here
 - we asked to be part of this cosmic story. It is no accident or a slip of our own undoing. This particular moment, here, now is what we asked for things in this particular segment of time because it only takes one!
- M:** It is like Neo said “One. Only One” then it moves out across 7 super universes that are all affected by this one single thought, and it is transpiring at this moment. “Ade Sache – Lord, make me an instrument of thy peace.”
 - What we have before us is this moment that is so critical that The Man asked us to do:
 - yes, he was/is a socialist & he has gone nowhere, except maybe changed a few chairs:
 - he is the Admiral in charge of the story; the Supreme Commander-in-Chief of this Universe of Nebadon with his cohort, Beloved Michael of Nebadon
 - How this transpires at this moment with these regions of such joy: what we are experiencing in the cells at this time: Alcyone's words are crude instruments to convey such messages of love because it is about the deeds that are being brought into manifestation right now.
 - It is the first order of business of the day: the least among us – that is what is first and foremost

- what would this socialist would do: he would stand in the park and feed the homeless, and say to the cops: grab a plate; it is your turn, how much do you want? did you have some dinner today? Did your wife put enough in your lunchbox? If you can conceive of "lunchboxes", such an archaic term from the 60s and 70s!

- What a cosmic moment we are in, rapidly coming to conclusion:
 - It is about this radical shift in consciousness, this socialistic, democratic, to use that funny word – maybe it is not such a nice word these days as it has implications that bring up ideas that fail to convey the message: your republic hangs by a thread of Superman's hair and a little love, and the Man of Steel is here with all the rest to complete this story
 - It is about all of us: undocumented immigrants, the dreamers who have come from 7 super universes to change - a radical idea in the mix right here
- like the good doctor from the land down under [Caldicott] - the grumpy millionaires like the idea of communism for the corporations, but for ordinary people, it is capitalism and there are no benefits except a bullet in the back of the head!

T: Caldicott said the corporations were communist!

M: Brother, can you spare a dime? It is this particular story that is so magnificent to behold: the musical called "Oliver" Why does it take a pick pocket to wake people up?

- She knows a good pickpocket – Beloved Ascended Master St Germain; he's still around and he has the best story going in the moment!
 - He is the one who orders the others to complete this orchestration of magnificence.
 - And the grumpy trillionaires, billionaires, know that he knows where they live; that he knows when they get up for breakfast, get into their cars, deliver their kids to school, when they come home – it is all there and in one nano second, he can complete this story.
 - Yet it is about we the people to complete the story: he already did it eons and eons ago and said "May you pass every test!" because he knows we can pass this test with flying colours!
- yet, in the cold light of day in the noon day sun, when a 90 year old chef is feeding poor people in the park in Florida who is arrested because he has no permit: what is wrong with this picture?
- The state is being run by a skin walker who won the election fraudulently and received his money from an old holographic program called Lucy in the Sky – and it is not about LSD! Maybe if he had a little acid, he might wake up and forgive himself; at the moment, he is in the pit and Lucifer is laughing at him and saying "the joke's on you, Mr Skelator Rick Scott, and I've got your number! You are taking yourself out with every breath you take!"

T: he made about \$300 million dollars in the insurance company by ripping off the customers and took that company down [current governor of Florida, Rick Scott]

Mo: Denny Haster is involved, as is Ms Helmsley and the Helmsley hotel in Manhattan; she died & gave the entire inheritance to her dog!

- It is about the one story that is the whole story here: it is about our wayward children that have usurped what The Man taught us all, sitting on the hillside: blessed are the meek! Blessed are the poor! Why does it take a rich man to get through the eye of a needle?
- And the Rich man cannot get through the eye of the needle because first he has to forgive the camel and bless the camel in this moment here.
- What is happening in the ancient land of North and South Amexum, North and South A-mu – raca – the Le-mur-ians people, the Moors
 - the story of Mur [Mu] goes back long before – we all participated in this cosmic, grandious experiment about how much love can we hold and more
 - It is about these 12 rainbow rays: the Ruby Ray Masters and the energy of what's happening here: with the rainbow bridge and the eye of Odin who watches over this whole story
 - What happened to the other eye? He was gambling with the other creator gods and he lost his eye on a bet: the other eye is the great eye of Lord Alcyone watching over this entire story, not the eye of the dark lord from the land that knows eternal night, radiation, death –
 - it is about everlasting joy, everlasting life and experiencing this moment : how can I be of service to this cosmic story? What may I do to help this homeless issue? How can I provide enough – as one sister said, Mystic Lyn: the concept of enough for everyone!

- This guy [Rama] whispered in Sen Sander's ear: \$2,600 a month for every man, woman and child in this realm, and then some; she is going to up the ante: how about \$5,000; how about enough?
 - there is no number
 - it was what we were talking about on the telephone [conference call] - it is about universal economics – they have come from their past into our future: money does not exist, aging, war is – ended; no death, no aging –
 - The entire story is what Carl Sagan said - the little blue green dot in this moment, in this vast expanse of so many other planets shining across this beloved Universe of Nebadon –
 - she can say what Sagan could not say because he had to answer to a few folks:
 - Mother can: this blue green dot, a speck in the eye of Creator God / Goddess / All that is has the attention of the entire 7 super universes, right here, right now, this moment - today – 12/26/2014 – this moment, right now
 - how we move this story forward, it changes everything as we do one deed which is Lord, make me an instrument of thy peace – that drop in the oceans upon oceans upon oceans changes every single other thing
- Then we can have the other conversation about how do we get our wings?
 - We already have them: we've got to jump
 - like RanaMu said to Rama “ Look at the back of my head; don't worry about the ground; just walk with me Let us talk about this magnificent story called life; it is so awesome, so beautiful – don't worry about the ground: just walk with me!”
 - well, we have our wings so fly with her – all we have to do is stretch our wings and fly: we don't even have to believe: we just have to jump off the cliff.
 - Like Baba Gi said, Ascended Master ?? Baba who is still sitting up in the Himilayas, near Mt Kailosh, saying come and meditate with me and complete this magical story about how we heal this moment inside us. First and foremost, it is what the socialist said: how can I be of service to the least among us?
- There are many around us with only one eye: the cyclopians, ancient, ancient masters –
 - there is a story about 3 of the gods of Mt Olympus who challenged the ancient one called Chronos who ate all of his children, swallowed them whole!
 - there were 3 creator gods who challenged: Zeus, Poseidon, Hades [Pluto] –
 - now comes one son of the creator gods who has a sacred sword, the lightening thief; he holds the sacred key to the story
 - the ancient, grumpy billionaires want to resurrect the ancient story and bring Chronos back to destroy this planet; it's not possible because we are all part of the creator source energy; we have all been given the lightening to do this by Zeus' hand;
 - as we use this magic – it is also that, as Odin strikes his staff and Thor throws the hammer and with the lightening and the thunder, things change in an instant: we have that power to change this
 - **All these stories are absolutely real**; we have been led to believe we are eunuchs, impotent – what does it take? It is a shame that we are at the place where we have given our power away, and she is saying that we command it / demand it back in this instant: it is about the simple act of taking our power back and feeding the least among us, caring for the least among us – like Bernie Sanders is doing, like Elizabeth Warren is doing.
 - why is it a man who works in McDonalds in Denmark gets \$25 an hour, and in the US gets \$8 and has to have social assistance to survive: the hamburgers over there are not any better than the ones here! Don't even eat them – it is death!
 - How we complete this story: it is not even about equal pay for equal work. It is about that as we command our power as the creator gods and goddesses that we are, the power returns
 - We just have to get past the illusions of the maya which are layers and layers thick and separate the mind from the heart.
 - Which is why she says meditate every day and do our sadna
- Didn't mean to go on a rant!

T: Rama asked Nada and Scahill, and Malala and Dar Jamal from Iraq:

- Nada said about the money thing that they've had no money since Feb 6; they are just playing with things – they are not in power save for programming and lies and big mouths & fake money

- T wants to go deeper on guns and bombs and things that have been stored for ever: seems like in the moment that people don't believe they can change this just by raising their one vibrations – asks for further explanation & how it will end without violating the divine directive about free will
- another thing in the news today: a new law that the US can use conventional bombs and bomb anyone anywhere on earth with just a one hour warning! Pretty outrageous!

Mo: about the grumpy billionaires millionaires who think they can hide behind their walls of maya yet they cannot leave the earth, cannot go into underground bunkers; they are shut

T: Did the white Knights finally get it all done: Is she doing something with the force fields?

A/Mo: the energies called the mitochorlians, the Force, will not allow this to continue: Access Denied!

- They have to go in through the door and face the music which is about their [A/Mo] next process in which they remove the virus which has infected the planet: time to call in the organ man!

T: the exterminator? The galactic Organ Man?

A/Mo: Lord Kryon of Magnetic Service with his demotion team

- They have been saying for eons: they must remove their wayward children, take them to Dracos and then to the Dark Rift
- Before that, Patrick Fitzgerald has a job and a half before the rest of us [get to see anything else]

T: he's another organ man! Where is he? Have seen nothing of him lately.

A/Mo: He is in a good place – and Holder is holding on to his kahonies because he knows he is next – love him even more!

T: John Kerry having a big problem – where and how did that law pass? How can the US bomb anyone they want on an hour's notice?

A/Mo – has to do with Pro-counsel Paul Bremmer and John Brennan and the “Roman Senate” – since we lost our republic a while back

- these ones who hold no power and have fistfuls of fiat currency which would make good firewood – makes a funny smell, money does not burn so well & the ink not healthy to smell when it's burning

T: Who did it?

A/Mo: Has to do with the orchestration of Homeland Gestapo who answer to the fake fuhrer, not Mr Obama; it is the ancient, ancient story of those who usurped the planet from what they call the dark sun

T: so they got their way – but stipulated it is only conventional weapons that can be used [ref to new law]

Mo: the nukes are neutralized and at the same time, they are playing a dangerous game

T: the conventional weapons are full of depleted uranium! Is this about pick your poison? [Mo says yes!]

- when will it stop? Take away their money & their weapons & you see what kind of wimps you've got

A/Mo: look at that building [on TV] – looks like what you've got in your pants! The old grumpy billionaires can't get it up any more so they build missiles and bombs; they can't even make love to their wives because they are so filled with hate and judgment and fear; they order up a lady of the night because that might be more exciting than coming home to wife and kids. At a certain point, even Viagra does not work, and they end up in the morgue and the wife has to identify them by means of the toe tag!

Mo: in answer to the question of guns and bombs; now, in the moment, as we have our power back from Creator Source which is us, we have the ability to change this story, right now, in the moment

- And she and hers, the other half of the story, how we do that with the hand reaching out of the sky as in the Tarot cards – hands us the sacred cup, the Muldovite cup of what he drank at the last supper: was it water into wine, or was it magic mushrooms – what did they really eat?

Mo: what she is telling Tara: these ancient war weapons, the fire sticks, as called by the native Americans

- all of these technologies of death right now – there are frequencies pouring in from the centre of the Milky Way Galaxy, and along with her twin flame, render them impotent – in the magic of the moment, they will cease to exist and what do we have then? Our fists?
- And why would we raise our fist to a fellow brother or sister because they look different than us or do things like walk through walls or fly or swim or crawl?
- It matters not; it is about this moment: make me an instrument of thy peace.

- Greetings in the light of the Most Radiant One!

T: Mother was on a roll! She kind of answered Tara's question

- the Western kids are going over there because they do not appreciate the western control mechanism –

R: sitting at the Solar Tribunal on Saturn: Lord Arcturus was talking and shared with the group about the sacred time on this planet where the Master returns at the 'time of his birth' - except that he was born in spring or the summer, not on December 25th

T: some say it was about March 8th or 9th; also 4 BC or 8 BC

R: then stories that he was born in a magnetic crystal cave, like Merlin – he will sell his story when he gets up to the podium

T: it could also mean that there were multiples of these beings that came to different places as the energy was present to let one of them enter.

- Still thinks that someone has to do something about the guns;
- can do some with vibrations, but the linear time of 2038 does not appeal – if it's going to help with a little help, let it be so!

R: what he's hearing through the energies now, there is one story that ends it : one word: TESLA!

T: that has to be on a galactic universal scale to de-program the current thinking.

R: as we learn how to use Judy Beebe's gem spheres, it changes the very nature of our physicality

T: **The Israelis** turned off the water in East Jerusalem where the bulk of the Palestinians live!

R: it is only about love! We are witnessng such magical moments and at the same time, such intensity – not sure what to say: Malakali Maka!

T: They are going to play a video from Cheryl Croci from Karen Rhodes called **The BridgeWalkers**

- Siberian shamans, from Greenland and others – talking about what is happening with Father Sky and Mother Earth, and the glaciers in Greenland. Dennis and Elizabeth go to the Capital Bilding and do a circle dance with them all in the sacred energies, and say we need another sacred circle to call in the higher beings

2014, Dec 26 New Russian military doctrine lists NATO as top threat

MOSCOW — Russia identified NATO as the nation's No. 1 military threat and raised the possibility of a broader use of precision conventional weapons to deter foreign aggression under a new military doctrine signed by President Vladimir Putin on Friday.

NATO flatly denied it was a threat to Russia, and accused Russia of undermining European security.

The new doctrine, which comes amid tensions over Ukraine, reflected the Kremlin's readiness to take a stronger posture in response to what it sees as the U.S.-led efforts to isolate and weaken Russia.

The paper maintains the provisions of the previous, 2010 edition of the military doctrine regarding the use of nuclear weapons.

It says Russia could use nuclear weapons in retaliation to the use of nuclear or other weapons of mass destruction against the country or its allies, and also in the case of aggression involving conventional weapons that "threatens the very existence" of the Russian state.

But for the first time, the new doctrine says Russia could use precision weapons "as part of strategic deterrent measures," without spelling out when and how Moscow could resort to them.

Among other provisions, the paper mentions the need to protect Russia's interests in the Arctic, where the global competition for vast oil and rich resources has been heating up as the Arctic ice melts.

Russia has relied heavily on its nuclear deterrent and lagged far behind the U.S. and its NATO allies in the development of precision conventional weapons. However, it has recently sped up its military modernization, buying large numbers of new weapons and boosting military drills.

NATO has said that a sharp rise in the number of Russian air patrols over the Baltics has put civilian flights at risk.

Earlier this month, Russia flexed its muscle by airlifting the state-of-the-art Iskander missiles to its westernmost Kaliningrad exclave bordering NATO members Poland and Lithuania. The missiles were pulled back to their home base after the drills, but the deployment clearly served as a demonstration of the military's readiness to quickly raise the ante in case of crisis.

Russia has threatened earlier that it could permanently station the Iskander missiles, which can hit targets up to 480 kilometers (about 300 miles) away with high precision, in retaliation to U.S.-led NATO missile defense plans.

On Friday, the military successfully test-fired the RS-24 Yars intercontinental ballistic missile from the Plesetsk launchpad in northwestern Russia.

The 29-page doctrine is a stand-alone document outlining top threats to Russia's security and possible responses. The current edition is the third since Putin was first elected in 2000.

The doctrine placed "a buildup of NATO military potential and its empowerment with global functions implemented in violation of international law, the expansion of NATO's military infrastructure to the Russian borders" on top of military threats to Russia.

It stressed that the deployment of foreign military forces on the territory of Russia's neighbors could be used for "political and military pressure."

NATO spokeswoman Oana Lungescu responded by saying in a statement that the alliance "poses no threat to Russia or to any nation."

"Any steps taken by NATO to ensure the security of its members are clearly defensive in nature, proportionate and in compliance with international law," she said. "In fact, it is Russia's actions, including currently in Ukraine, which are breaking international law and undermining European security."

Russia's relations with the West have plummeted to their lowest level since Cold War times, and NATO cut off ties with Moscow after it annexed Ukraine's Crimean Peninsula in March. Ukraine and the West also have accused Moscow of fueling a pro-Russia insurgency in eastern Ukraine with troops and weapons, accusations the Kremlin has denied.

"NATO will continue to seek a constructive relationship with Russia, as we have done for more than two decades," Lungescu said. "But that is only possible with a Russia that abides by international law and principles - including the right of nations to choose their future freely."

Former Soviet President Mikhail Gorbachev, who had been critical of Putin in the past, but who has strongly backed the Kremlin over its spat with the West, said Friday that Russia's actions were a response to U.S. and NATO moves.

"I think the president is right to a large extent when he draws attention to a particular responsibility of the United States," he said during a presentation of his book in Moscow.

The U.S. and the European Union have slapped sanctions against Moscow, which have deepened Russia's economic woes and contributed to a sharp devaluation of the ruble, which lost about half of its value this year.

The economic crisis could challenge Russia's ambitious weapons modernization program, but so far the Kremlin has shown no intention of scaling it back.

The program envisages the deployment of new nuclear-tipped intercontinental ballistic missiles, the construction of nuclear submarines and a sweeping modernization of Russia's conventional arsenals.

Russia has been particularly concerned about the so-called Prompt Global Strike program under development in the U.S., which would be capable of striking targets anywhere in the world in as little as an hour with deadly precision.

The new doctrine mentioned the U.S. program as a major destabilizing factor along with NATO missile defense plans.

Russian officials have said that Moscow was working on a response to the new U.S. weapons, but have released no details.

Alexander Konovalov, a Moscow-based independent military expert, said the doctrine's mention of using precision conventional weapons as a "strategic deterrent" sounds vague, but could be a reference to new weapon designs.

"It may mean the development of weapons systems, which would make it impossible for NATO to plan a surprise first strike, because it would draw a powerful retaliation," he said. "It would allow (Russia) to enforce its will on the enemy without using nuclear warheads."

John-Thor Dahlburg in Brussels contributed to this report.
