

At **Bryant**, we believe that it is important for students to participate in structured activities outside of the regular school day. Therefore, we are creating our own after school program for our students, entitled “**E³**” (Engage...Enrich...Empower). Not only will our **E³** Program provide structured activities, but it will also foster a stronger connection between students and the school. **E³** classes/clubs will be offered after school until 4:00 pm. With enough student interest and volunteers to help us, we would like to offer our program two days a week.

We are now looking for **enthusiastic** people to contribute to our **E³** Program.

Do you have an **interest** or **hobby** that you’d like to share with Bryant’s students?

Do you know of any **parents, friends, family, or community members** that would be interested in helping us (with time, talent, or materials)?
