

Look Out For This Stolen *Purple Handcycle*

Thieves stole my wife's custom-built purple "Top End Force" handcycle out of our condo building garage in the Albany Park neighborhood, Chicago, on Friday, September 16, 2011. She has a disability, uses a wheelchair and almost no other people will be able to use her cycle without modifications, because there is no place to put your legs (they must have thought it was a recumbent bike.) Since it will stand out on the used bike market, I'm hoping that they just leave it somewhere instead of selling it for scrap metal.

If you see this handcycle, please call Kevin at 1.773.368.7313 or e-mail kevinirvineefe@yahoo.com
