2012, Nov 1 Romney Leaks: Drugs, Blood Diamonds and a Cuban Mistress (Updated)

FBI, CIA and Foreign Intelligence Agencies “Leak” Romney Files [\(See Addendum for updated critical material\)](#)

<http://www.veteranstoday.com/2012/11/01/romney-leaks-drugs-blood-diamonds-and-a-cuban-mistress/>

Vote for Romney or Else!!!

by [Gordon Duff, Senior Editor](#)

**It started with a photograph. Mitt Romney in Cuba with a woman named “Maria XXXXX,” Cuban mother, Russian father. The year, 1999, a flight to Vera Cruz, then on to Havana.**

**The source, a top level FBI official managing counter-narcotics in Mexico, along with L3 Communications, gained access to the Romney file held by Mexican intelligence.**

The information below is the result of years of investigation including two years undercover, inside of one of Mexico’s biggest drug cartels.

Romney, spying for Cuba and Russia, Romney running terrorism in Africa, this is what the FBI, CIA and the files state. Documents outline several meetings between Romney and Castro. FBI officials now indicate that Romney’s travels were done under diplomatic passport supplied by the KGB.

**Notes in the “Romney File” indicate the following: Based on the number of trips to Cuba and reports from our intelligence sources there, Romney was considered a top intelligence asset for Cuban and Soviet/Russian intelligence.**

**His psychopathic and narcissistic personality disorders tied to gambling addiction and obsession with physical security (physical cowardice) made him, not only easy to manage but highly motivated to use his strong ties in Washington to access whatever intelligence his handlers desired. Romney’s “world view” is that he sees himself as a molder of world history, above “ordinary people” and obsessed with power and personal safety.**

Nothing here is new to anyone but the public. The media had been approached to run this story.

**ABC has it and is sitting on it**, the US government has all the documents, only the public has been kept in the dark, kept from one of the larger coverups in the past couple of years.

We have so many, one can't use the term "major" without risk of overstatement.

**The story begins** at Harvard and ends in South Africa, drug money, blood diamonds, spying for Cuba and Russia, a story offered to ABC News, a story documented to [Sheldon Adelson](#), the [Koch Brothers](#) and [Harold Simmons](#), warning them, a warning they chose to ignore. They were told they were supporting an organized crime figure, told by unimpeachable sources.

### **Video Largely Confirmed by FBI and CIA**

[http://www.youtube.com/watch?feature=player\\_embedded&v=s9QA5B6U86s](http://www.youtube.com/watch?feature=player_embedded&v=s9QA5B6U86s)

**What I was told** began at Harvard, Romney was a couple of years behind [Carlos Salinas, former president of Mexico](#), now in exile, whose father established the drug cartels.

While at Harvard, I am told, the two established a "clandestine relationship" to build a money laundering empire, using Panama, Cuba, banks around the world, servicing the network of cartels the Salinas family controlled. Over the years, meetings would occur in Miami, Guatemala and Honduras that we know of, others, we haven't documented.

**This is the official biography** of Carlos Salinas, the "sugar coated" version of Romney's long time associate, one of many of this ilk Bain Capital is the financial arm of all crime "south of the border."

Romney's "college chum," Cartel Boss, Carlos Salinas

Carlos Salinas was a Harvard-educated neo-liberal technocrat who became the youngest president in Mexican history. He won the first contested election in years for the notoriously corrupt Institutional Revolutionary Party (PRI) through massive electoral fraud against his rival [Cuauhtemoc Cardenas](#).

He is best known in Mexico as a disgraced politician, and throughout North America for being the Mexican signatory to NAFTA.

As President of Mexico, Salinas worked to open up Mexico to foreign investment, including the privatization of Mexico's national banking system (which was sold at below market rate to his political allies). Salinas's continued work to repeal the social contract resulted in the rebellion of peasants of Chiapas under the Zapatista Army, with whom he later brokered a ceasefire.

After his term as president, Mexico sank into an enormous fiscal crisis due to Salinas' economic programs, ultimately resulting in a devaluation of the peso by 200%. Salinas attempted to blame the subsequent administration of [Ernesto Zedillo](#) for this recession and was so vilified by the Mexican press and people that he was forced to leave the country.

While Salinas was exiled, he wrote a thousand page book explaining exactly why all of Mexico was wrong and he was right which was released to universal horror in his homeland.

One of his brothers was murdered, probably by federal police, and another of his brothers was jailed for murdering a rival politician. His entire family has since been the target of numerous international money laundering investigations.

Washing the Cash, Big Time, Requires Political Connections

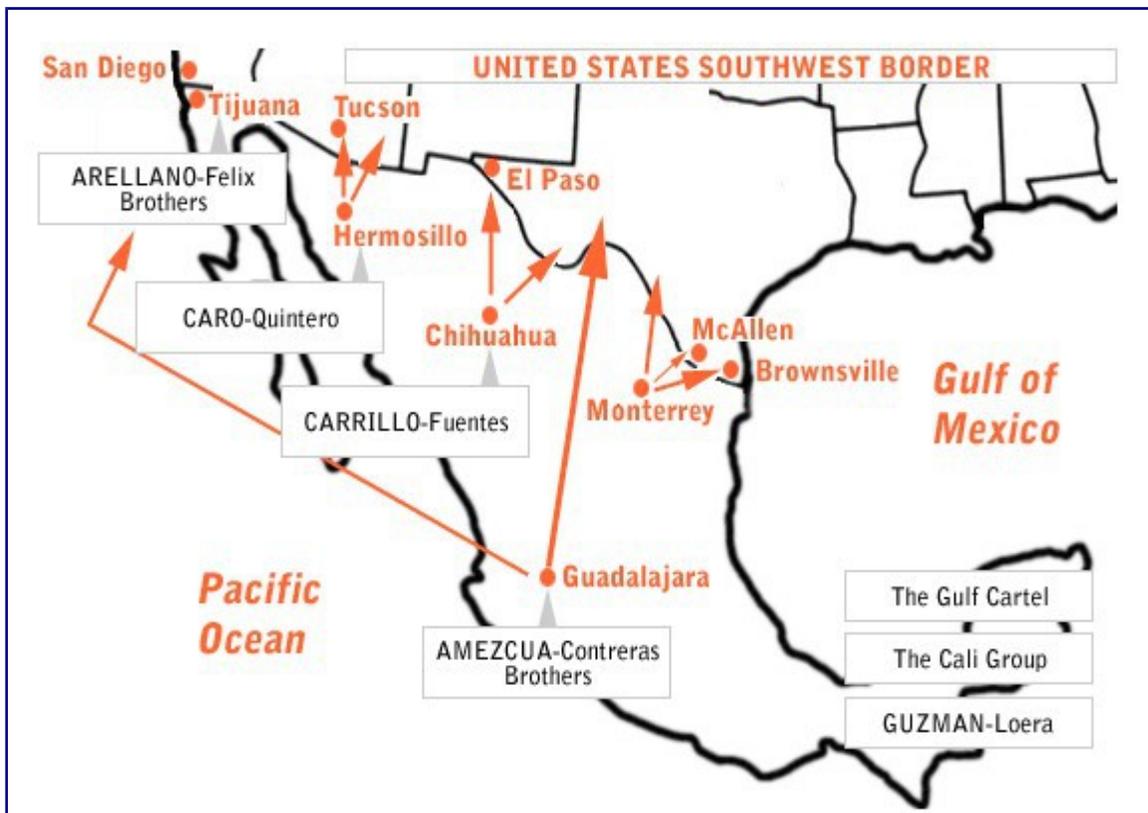

**Our FBI source says** that Bain Capital was established to protect the former front company, Bain & Company. Operations would be managed from Panama, banking from Switzerland and the Caymans but client meetings would be held in Cuba.

Here, Russian and Cuban intelligence set Romney up with a mistress, “Maria,” who was also his “handler.”

We are told Romney has been in and out of Cuba constantly. Thus, nobody should know Latin America and its value than Romney. He sure knows China well. Now we know he also knows Russia, not just well but “very well.”

Romney has had repeated personal audiences with Castro, we are told. From his profile: “Romney is a compulsive gambler...”

**According to our FBI source,** top level counter-narcotics, Romney helped run narcotics trafficking through Mexico into the United States. He also continued to work directly with Cuban and Russian intelligence, a relationship they say is “ongoing.”

**With this short briefing** is a stack of files, communications intercepts, surveillance reports, statements by undercover informants, one of which, an FBI agent, I spoke with for two hours.

**When no US Attorney agreed to prosecute, the files and this information were leaked, initially to ABC. They said they were prepared to do a “special” on this “as soon as the election was over.” That was 18 months ago they have had files and met with the agents involved, under full secrecy.**

## **BAIN and AFRICAN TERROR**

Blood Diamonds

**There is an African end** of this story. A CIA agent named “Tony,” working South Africa, part of a team of agents there, all Mormons, contacted a professional associates of mine. (an intelligence agency director)

South Africa is my “turf” also.

“Tony” as he called himself was working with a US law firm and was tasked with investing \$120 billion in drug profits, maybe from Afghanistan, in South Africa. He told our representatives he was looking for mining properties worth more than \$200 million each.

“Tony” met, not just with us, but with dozens of other groups in South Africa. Tony is, what we call in the spy business, “burned.” Tony’s group works with [UNITA](#), a terrorist organization, sometimes supported by North Korea, Israel, the US and China. The former Angolan revolutionary organization is now “for hire,” and “terrorism on demand” with a reach that covers a dozen nations.

**Their task, as South African intelligence indicates, is to buy up South Africa and take over the rest of Southern Africa through running terrorist groups out of the DRC or Democratic Republic of the Congo. On their list is Kenya and other nations.**

Their method of operation is to finance themselves with blood diamonds, sent through agents to Tel Aviv, money to be handled by Bain Capital/Romney, then to China where arms are purchased and shipped to terrorists in Africa, “Al Qaeda, Boko Harum and UNITA.

**The details of the deal** were set up a month ago. Currently, UNITA is having difficulty coming up with their end, the \$1.2 billion a year in diamonds they promised.

**On the Israeli end, Romney, while traveling there with Las Vegas casino boss, Sheldon Adelson, met with diamond traders at what was supposed to be a/an (illegal) fundraiser.**

**It was something else, putting together one link in the diamonds, terrorism, money, narcotics trade which, working with Bain, the Bush family, Mormon groups in the CIA and the Mossad, meant to take over all of Africa.**

## DOCUMENTS

**The photo of Romney in Cuba** is not as clear as it could be, a copy of a copy was sent. Other documents are in both English and Spanish, volumes.

The “Romney files” came out as a result of current operations through [FBI contractors acting in Mexico](#).

### **Job Posting Seeks Former Soldiers to Provide Urban Warfare, Counterinsurgency Training**

Who is training who, to do what?

L-3 MPRI, a division of a major U.S. defense contractor, is hunting in the mercenary community to hire “site leads” who can help oversee the company’s personnel in Mexico and also coordinate “with Mexican Army officials” at a dozen training sites, called “VMTCs,” located in Mexico.

Those VMTCs, or Virtual Military Training Centers, provide “high quality training and simulation support,” and the site leads being sought will report directly to the L-3 MPRI’s project manager (or PM) in Mexico City, a job advertisement posted on a [L-3 MPRI Web page](#) states.

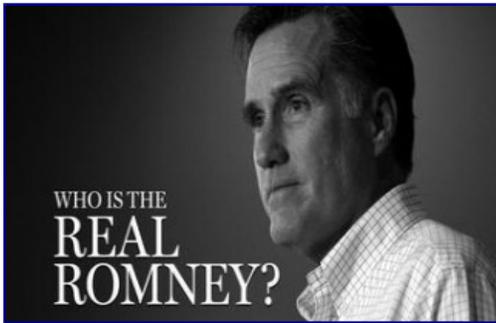

Critics of U.S. drug war policy have long maintained that the militarism it encourages is, in large part, profit-motivated, with the \$1.5 billion Mérida Initiative being held out as evidence of the mercenary nature of the policy.

Under the initiative, the U.S. has agreed to provide the Mexican government with sophisticated military equipment and training to help advance its “fight” against “organized crime and associated violence,” according to the [U.S. State Department](#).

Although it is not clear, at this point, who is funding L-3 MPRI’s training centers in Mexico — whether they are being supported by Mérida money or the Mexican government, or via some other program — what is clear is that the help-wanted advertisement represents important evidence that U.S. private-sector companies have mercenary operations inside Mexico that appear to be providing high-level training to the Mexican military in support, at least in part, of that nation’s prosecution of the drug war.

Some 35,000 Mexicans have been murdered since President Felipe Calderón took office in late 2006 and launched his so-called war on the “drug cartels.”

# Good News for Romney

Welcome to the real world of American politics

**What is particularly good news** for the Romney camp is that this information has been in the hands of GOP officials, major news agencies, several US Attorney's and the intelligence agencies of over a dozen countries for just under two years.

Most top GOP donors were sent copies. None, when questioned as to why they still donated money seemed to care. One from Montana was quoted as saying, "As long as he is a Republican, we don't care if he is a drug dealer or damned 'Ruskie' spy."

Documents contain names of undercover agents, witnesses, those who put their lives at risk to keep drugs out of the US. Redaction is going on and we will publish what we can.

NAFTA makes much more sense to me now, why the border has been kept open through several presidencies, how we lost much of the nation and our government to drug cash.

Similarly, our policies in Africa now make sense, the terrorism spreading across the continent, and even Webster Tarpley's statements about the Mormon Mafia that runs the CIA and FBI.

**Our associates in South Africa said that those financing terrorism with blood diamonds, those buying everything in sight, are all Mormon, with support of the Heritage Foundation and key Washington law firms.**

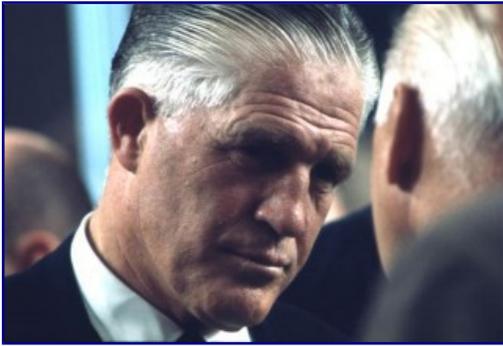

**We have all the names. What we have stumbled on is a systematic effort to destabilize all of Africa and return it to colonialism. It is good to see America doing their part, along with China, Israel and North Korea. Let's not forget the Saudis also.**

## SPIES LIKE US

This is the second consecutive GOP candidate with a dossier that accuses them of working for Russia. What are they trying to tell us?

**Addendum: Based on Interview with FBI sources, November 2, 2012:**

George Romney – 1968 Republican Convention

Subject: George W. Romney, former Governor of Michigan, Secretary of Health and Human Services, candidate for President of the United States.

FBI sources indicate that an investigation of the background of the Romney family indicates they maintained relationships with criminal elements within Mexico after the family returned just prior to World War I.

FBI records indicate that Bain and Company and later Bain Capital received the bulk of its money from inside the Romney family, from George Romney in particular who had direct ties to organized crime.

The Romney family fortune and the career of George W. Romney was financed with funds from Mexico involving criminal enterprises including drug smuggling and human trafficking dating to the 1930s when the official family history lists George Romney as “poverty stricken.”

In fact, George Romney, flush with Mexican cash, went from “jobless” to a top executive position in the auto industry to their chief spokesman during World War II, an amazing turn around. <http://www.veteranstoday.com/2012/11/01/romney-leaks-drugs-blood-diamonds-and-a-cuban-mistress/>

2012, Oct 24 ***MITT ROMNEY IS ALREADY A LOSER***

Submitted by [PAUL LEO FASO](#) on 05/19/2012 16:11 -0400

<http://www.zerohedge.com/news/2012-20-19/mitt-romney-already-loser>

What a waste of time and energy to watch Mitt Romney in his latest interviews defend J.P Morgan's looming decent into the nation's financial toilet bowl. Somewhere in this putrid swirl, there must be a play to bring this Republican Presidential candidate out from underneath a concealed position to expose him as a simpleton, a charlatan huckster and a Federal Reserve Banking Stooge of the highest order.

Nothing else is even possible when considering the ridiculous Romney call for even less government regulation of the sub contracted, criminal central bank and their licensed hedge fund partners in crime, who have financially sodomized the entire planet with nearly 800 Trillion Dollars in toxic derivative implements that totally defies description. Never mind the Volcker Rule or other useless legislative moves to abate the reckless onslaught of compounded misery brought about by these psychopaths, what is required is the full law enforcement of the R.I.C.O. Act to bring this nation back into sanity.

This very act of denial by Mitt Romney in failing to recognize that there is a critical problem of vital national security, whereby the solvency and imperative economic well being of every American has been stolen out from underneath them, with the "to big to fail" banker bail outs. Engineered by George Bush's Republican Looting Crew in 2008 and followed up by President Obama's policy blunders, the next round of looting will certainly increase under Mitt Romney, should he ever become elected President as he attempts to downplay the colossal fraud by the banks which he obscenely chooses to give blatant cover to.

As we have seen in the historic, first time ever, forced audits of the Federal Reserve Bank which revealed that several hundred billions of dollars falsely stated in banking bail out loans, was in reality, well over \$16 Trillion Dollars, depriving every American of monies that should have been allocated to fund ongoing American business expansions, infrastructure repairs, renewable energy and job creation, not by covering hedged bets of this crime syndicate whereby the international banking cabal was allowed to profit by the defaults of sovereign nations while the Federal Reserve Bank deceitfully encumbered the Treasury of the American People to guaranty all the bankers gaming positions.

This was not a creative banking manoeuvre, it was part of an ongoing global financial war, intentionally launched upon the very idea of the independent nation states and their integral sovereignty by the criminal central banks. Take a good hard look at Europe and see the evidence of their handiwork.

Never in history has there ever been a more systematic looting and attempted enslavement of all of mankind...ever!

The battle has now been joined between those who would separate mankind from freedom and those who will now fight to save what is left of it. There is no more greater issue at hand in securing that freedom, than the one which deals with the control of our money.

The Federal Reserve Bank is a corrupt, criminal sub contractor, who has stolen America's wealth while working inside of our house for years. By their own demonstrable deceit, fraud, theft, conversion, usury and their vile contempt for the American People, they have fashioned a noose around their own thieving necks. Take a good look around this nation at the utter devastation they have left as their mark after 100 years of "running our money". America is now the largest debtor nation the world has ever known, we are forced to borrow money from China and others for wars for oil, to keep in place an inflated, worthless fiat Federal Reserve Note that fails as a true and honest currency, while their rigged and inflated Petro/Dollar "reserve currency" scam uses a purposefully retarded, ancient 100 year old automobile engine, to complete the circle of deception, that is an abject insult to all thinking people.

All this supposed splendour, they have left us to pay, with a thousand generations of eternal debt, as we live like

refugees in our own land while their phoney political carrot dangles, trump the other way, to deflect the real solutions at hand.

Is it any wonder that Mitt Romney, who absurdly states the Federal Reserve Bank has done a good job for the American People during this monumental financial disaster, has the both, stupefying and malignant endorsement of George H.W. Bush for President?

Then, pitifully, Mitt Romney, never even invokes the name of Bush's, son, George W. Bush, the last Republican President, anywhere in his campaign for President as a stunning rebuke of Bush's disastrous Presidency.

The hand Mitt Romney now plays is that of a banking stooge. By that hand, he has removed his viability as a valid or legitimate candidate for the Office of President of the United States of America and exposed himself as not worthy to represent the people of America, but only the criminal central banking aspirations of the private Federal Reserve Bank, its tyrannical global shareholders and the cash addictive hedge fund lunatics, who will no doubt hedge all bets on Romney, who they already know, is set up as a loser.

### *2012 U.S. PRESIDENTIAL ELECTION UPDATE: 10/24/2012*

After three televised debates, the two Presidential contenders and the scripted media, managed to avoid debating anything about the looting of the Treasury of \$16 Trillion Dollars, uncovered by the Senate audits forced upon the Federal Reserve Bank this year.

Rather than detail what he would do to stem this disgraceful criminal activity, Mitt Romney, briefly, in the third debate, referred to the "National Debt" as defined by Admiral Mullen, former Chairman of the Joint Chiefs of Staff, as our "greatest threat to national security". Romney then choose to use the very same fallacy used by the Admiral in 2010 to deflect the REAL "greatest threat to our national security". Indeed, this inept attempt to shift the focus off the military to the deficits was done without the knowledge of the savage \$16 Trillion Dollar looting by the Federal Reserve Bank which was just revealed this year.

Nonetheless, even with Mitt Romney parroting the Admiral's cover story to conceal the REAL NATIONAL SECURITY THREAT we face, it was instructive to hear Romney talk the talk as required for the position he seeks.

The REAL THREAT we confront, found the Federal Government and the U.S. Military on 9/11, woefully suspect and derelict in their duties to protect and defend the United States of America;

As our people were killed by the thousands, right in their offices, our airspace was repeatedly violated, our cities were left wide open for air attacks, and even the Pentagon headquarters, the most highly defended building on the planet, was left totally unprotected and damaged, as a result of the abject failure to defend the Nation by our armed forces, the supposed greatest military power the world has ever known.

The total breakdown of our National Security and all of the issues surrounding the events of 9/11, before and after, to include the linking of the simultaneous looting of the U.S Treasury by the Federal Reserve Bank, and the two undeclared Middle East wars of George W. Bush, that were put on credit cards by the Congress in deficit spending, were carefully avoided in the debates, but in reality, represent the greatest threats we as a nation must come to fully understand and honestly reconcile.

For all the other national issues that were endlessly dwelled upon in the debates, they are themselves, secondary by comparison, and are totally reliant upon the critical National Security of the Nation and independent financial solvency of the United States of America for their implementation.

To now imagine that the primary critical issues contemplated and identified above, were not at all engaged in by the parties debating, including the media is, outrageous;

Additionally, for the American people to be left with no frame of reference to render a judgement in qualifying a Presidential choice in these critical areas, is not only incredulous and itself, overtly suspicious, but dangerous

beyond comprehension.

A full review of the security and financial issues that should have been front and center in the debates, but were totally avoided, can be found here:
