Approximately 13,000 years ago the Atlanteans were facing almost identical trials and tribulations as we are today. Their choice: Nuclear Holocaust or human utopia. They were aligning with Ophiuchus - the lost 13th sign of the zodiac - which symbolizes alignment with the center of the Milky Way Galaxy - and the choice of ascension for mankind. There are radioactive isotopes that look like cluster bombs in northern Scandinavia and the northeastern united states that date back to Atlantean times - and many have

theorized that this was an ancient nuclear war between the Atlanteans and rival factions - which ultimately resulted in their annihilation.

Hopefully we decide to alter our Doppelgänger history - to rise above such a catastrophe and end the time loop once and for all.

When the book of time turns to blank pages - and the prophets are blocked from viewing the future - It is not written that this will be the end of all things - but a new beginning - A phoenix from the ashes - an opportunity for the human race to write a new book - and fill it's pages with all the beauty of the cosmos. Once and for all - we can claim our rightful position - on the throne of creation - as exploratory citizens of the universe.

- We are in a crisis, the 5<sup>th</sup> year of it.
  - 25 million people: without jobs; no longer looking; folks taking part time jobs, not a full time one;

- Capacity Utilization Rate: what part of our capacity is being used: the Federal Reserve says tools, equipment, suites, etc - 20% is not being used
- If we have 25 M people not working, and 20% of capacity not being used and the system cannot put this together quickly - **THIS IS A PROBLEM WITH THE SYSTEM.**
- The costs of these kinds of crises last for generations - a system that does this, and does this repeatedly is overwhelmed by the inefficiency of lost out put
- it is actually worse: this is the 2<sup>nd</sup> major break down - 1<sup>st</sup> one that began in 1930 and lasted unto 1945; in between, there were 11 down turns until the one that began in 2008
- **Crisis is part of the way this system works - it is NOT a special occurrence!!!!**

**When the system works well:** the competition is cut-throat and the one who wins in the competition consumes the smaller one - the system polarizes: great wealth at one one, poverty at the other

- In US, in 1930s - 25% unemployment and then the people pushed back!  
Biggest labour movement country ever had: all kinds of people joined unions
  1. CIO did the organizing
  2. Socialist parties and
  3. communist parties worked with the CIO
- then they went together to the gov't and said they did not want to suffer any more: you have to do something for the people: went to FDR - the communists said there is another system that works well so if you fail, we will get this system here
  - So FDR went to his friends wealthy and business men: we need to do this, and you are going to pay for it - the gov't has no \$; there are no taxes: you will pay for it -
  - I will help the people and if you don't, you get the socialists and the communists coming after you: half the rich ones were not convinced; but the other half were
- the deal he made with the CIO, the socialists, the communists was: I will get the money from the corps and the rich, and you mute the part of the message about getting rid of capitalism
- SO he created the social security system - now every American over the age of 65 will get paid for the rest of their lives
- unemployment compensation in the midst of a depression! The corps and the rich pay!
  - If the private enterprise system cannot provide work for the people: between 1934 - 1941, he provided 12.5 million jobs!
- THIS is American history! FDR was courageous and clever.
- Then he proposed an income tax rate: 100% over \$25,000  
the Republicans went nuts: so the compromise: 94% was the tax for the rich over the maximum
  - every dollar over the limit went to the President and the gov't; later it became 91%

**WHY?** We have just come through greatest depression and a great war: country must pull together and we are taking from the rich, their capacity

- In 1945, for every one dollar of tax from individuals saw the corporation pay \$1.50
- today - 2012 - for every individual paying \$1, the corporations pay 35 cents!!!  
**AND over the tax bracket [maximum] the rich now pay 35%**
- As soon as the war was over, the rich and the corporations went to work to undo the taxation that was put in place
- For a while, the polarization was over come - but the rich/corps learned the lesson better than labour
- The problem for the corporations and the rich, who polarize into rich and poor: they have an economic system that provokes people to think that they can use the political system to control in the economic system: a fundamental danger for the capitalism system.

- If you don't control the politics, it will undo what you have achieved in your economic life.
  - So the business class destroyed the labour movement **and** the socialist parties  
Today re: trade unions: 93% of private sector workers HAVE NO UNION REPS
  - So now the mechanisms are in place for the wealthy and the corps to control the politics **and** the foundations **and** the think tanks **and** so on - all the instruments to shape the consciousness of the people
  - end results are the political conventions in which nothing is said about the real system  
no recognition of the systemic issues, or any kind of analysis of them
- also with the shaping of consciousness: we have been led to believe that businesses, to create a profitable business, have to cut taxes so they make more money which they can do with as they wish: take it off shore, might lend it to gov't or play the stock market
- **what did business do with the money they made?** They paid their top executives stupifying \$\$
  - the big people at the top made themselves rich = 300 - 400% more than the people
  - In this system, they always want to pay less taxes and use their money as they wish.  
And continue the polarization.

### **Solstice Message - ASCENDED MASTER.KUTHUMI-AGRIPPA through Michelle Manders/Eloff**

Johannesburg, September 2012

"Your world is going through one of its darkest and deepest processes of illumination to date. This process has been a necessary journey for every single one of you individually, and a very necessary journey for the collective consciousness of your planet. Mother Earth, as a consciousness, too has gone through this deep transition. The very core of her being; her essence, has opened and is emanating vibrations, uniting with the very core essence of your Universe, which is projecting energy towards your planet. This merge is the representation of the merging of your dark self and your light self.

This entire process, beloved ones, is about releasing your fear and embracing your light. The time has come where you cannot vacillate between the two. There can only be the way of love, or, the way of fear. For the past 200 years, the planet has been undergoing a deep purging process. Millions upon millions of energies are being removed, very much like the layers of an onion being peeled away. What happens when you peel an onion? Your eyes water, yes? There are tears. So, as you peel back each of the layers of your own onion, yes, there are tears, but there is also a cleansing taking place.

This is a delicate time that you have had to face and there are many leaving the planet at this time - some simply dropping dead, and people are shocked that these souls have chosen to leave. It is all part of the awakening to the Aquarian Age you are working toward. In truth, you are some of the bravest souls who have ever come to planet Earth. All of you chose a mighty task, you knew that you would have to face intense darkness during this phase. But you still agreed to make the journey. All of you, and those like you, have had to blaze a trail through the dense forest of ignorance and fear so that the Divine Masters who have re-incarnated, and are re-incarnating, can take your world into the New Cycle of Light.

In the year 2000 an energy known as the "Science of Love" was grounded, and is overseen and directed by the Solar Lord Soltec, one of my Solar Sons. This meant that no longer could the polarities of light and dark, good or bad, right and wrong remain as the primary energy governing your experience. The time had come for everything to reflect light – light and light, not light and dark. You have not come to the planet to balance darkness and light. You have come to this planet to merge your masculine and feminine selves, to be a whole and complete being. It is not about balancing light and dark. It is about being FULLY in your light, so that when you look at your reflection you are reflecting pure light in every direction.

The rug has been pulled out from under your feet, there is no denying this. Since the 21st of September 2003, your entire planet has gone through an emergence process where the New Light of the Sirian Age was being born. The chrysalis broke open and your Sirian aspects began emerging. The Sirian Lords, Ladies and Master Beings have been responsible for monitoring earth for eons of time - you could say they are the Universal Government. There are many of these Sirian Beings in physical form on your planet, you know some of them as the Dolphins and Whales, Elephants and Felines. There are also a number of Master Teachers. Many of them between the ages of 0 and 28 years old are on your planet at the moment. They bring valuable opportunities of recognition, healing and awakening. Some of them may even be your children or grandchildren. Our presence is allowing your Sirian aspects to continue emerging, which are held within the structure of your 12th strand of DNA. This is your Mastered Self strand. Over these next 3 days, you will experience the activation of this on yet another level. From the 21st of September onward, the veils between your worlds and the other worlds will be the thinnest they have ever been.

Truth will emerge, literally left, right and center. Many things held in illusion will be exposed and shattered. You have as individuals already experienced a large amount of the shattering of illusions. You are all now being brought out of your space of ice-olation, and into the light of your Sun Chakra. We spoke a while ago of the Sun Chakra, which is responsible for re-inventing yourself - allowing your true identity to emerge, which is what many of you are going through. Many are in an identity crisis at present, not knowing why they are here and asking who they are. This has been asked for a while already, but now there is an even deeper sense of searching

within the souls of humanity, people wanting answers, not only from God, but from their government and challenging the leaders of the world. You are already witnessing tremendous change within many governments and leaders of the countries of your earth.

As you come out of your place of isolation you are being drawn together in groups to unite as communities of Light, for there is always strength in numbers. Be very careful when you try to conceptualize the idea of coming together as groups, because this is not about setting up cliques or “followings” or sects. This is simply the coming together of people who are willing to walk as a whole, to ensure that a unified vision manifests to support the good of the whole. Please bear this in mind. It is not about setting up elite groups or sects. Those systems will crumble. It is about uniting dimensions of the whole world so that you can work together to ensure change that supports the collective consciousness can truly be manifest.

There is an immense amount of energy being released from the very core of the cells of your body, which is causing many of you to experience intense fatigue and lethargy. Many of you are feeling a deep sense of loss, a fear of the future, some are feeling that they cannot go forward but neither can they go back. There is only one thing to do, and I have said this so many times that I too have lost count! – and that is to SURRENDER. The only thing that you can do now is trust not only in God, but also in your own ability to manifest precisely what you need, when you need it.

Your fear is what limits you, that is the bottom line. Now is the time for all of you to embrace TRUST. Trust is LOVE, trust is LIFE, trust is LIGHT. Fear is IGNORANCE, fear is DARKNESS, it is LIMITATION. Trust and fear are two very clear aspects that you have experienced, now all you need to do is make that choice. But your fear seduces you every time. Have you noticed how easy it is for you to invest your energy in your fear, and how difficult it is to invest your energy in trust? Crazy, don't you think? But a fact of your life.

Change is inevitable, beloved ones, and the only way that you can embrace change is by surrendering to what your life is presenting to you. There is a difference between moving forward and achieving your goals, and fighting God – He/She always wins whether you like it or not! This is not to say that your Soul has no power, What we are saying is that the Will of God/Goddess, which is at one with the Will of your Soul is far greater and far more powerful than your fears.

Your lower ego has given far too much power to your fear and so you have created the illusion of believing that your fears are greater than your soul's ability to lift limitation; to change the pace. But you are learning this. Sirius offers all of you the opportunity to move into a new world of experiencing Spirit, of experiencing your creative force.

When you realize that it is Spirit that animates you, you then realize that you in this world, in your body, is not all that you are. Surrender now and allow the Source of Love and Light to show you the way now. Allow this Source of Light to become the Light at the end of your tunnel. Give thanks for this life and give up your fight for survival in exchange for the right to thrive.

We bless you with the strength and courage to see your healing processes come to completion. Know that you are always divinely protected and guided, and very much loved. Trust the invisible arms that hold you, for when in times of strife you look to your feet and see but only one set of foot prints - these are ours, not yours - for we are carrying you. Know that we are only but a thought away. Peace be with you.

I am Kuthumi and I greet and bless you in love. ADONAI

Rupa Lake Restoration and Fisheries Cooperatives, Nepal

Lake Rupa

Rupa Lake Restoration Cooperative and Fisheries is an ongoing project which has achieved much success toward restoring the degraded lake and enhancing local communities' livelihoods through cooperative initiatives.

## Overview

Nepal's location in the world

The lake is situated in mid hills of Central Himalaya of Nepal at 600 meters above sea level. It is surrounded by local ethnic people, whose income typically does not reach \$1 per day/per person. The principal aim of this project is livelihood enhancement utilizing the nearby wetland resource.

However, at the outset of the project, the lake was degraded and heavily encroached by weeds to such an extent that boating was not possible. The lake was restored by the use of awareness building, human resources ([Cooperatives](#)), and technology (Strategic introduction of fish). The lake is stocked with fish in such a manner that they consume weeds and maintain them in check. The weeds which are not consumed by fish are removed manually. (To learn more about the initial restoration process of Lake Rupa, see: [Gurung, T.B. \(2007\). Restoration of small lakes through cooperative management: A suitable strategy for poverty-laden areas in developing countries.](#))

Now that lake has been completely cleared of weeds, cooperative members are thinking about using it for tourism purposes. The size of the lake is actually 135 ha but now only 100 ha remains due to silt deposition from surrounding hills.

### Location of Lake Rupa in Nepal

The cooperative is thus also currently attempting to reduce siltation resulting from traditional agricultural activities.

## Rupa Lake Cooperative financing, membership and organizational structure

Since achieving the required financing was a problem for the cooperative, all the members paid their membership fee at the initial stage. Some of the members were poor, so their fee was made payable through their labor in the cooperative activities. At present the membership has been reached about 720 families.

Degraded Lake Rupa in 1999

There are 19 permanent employees in the cooperative, their main tasks include fish stocking, security, and fishing. The total income last year has reached approximately 7 million NRs mostly by enhanced capture fisheries.

The Executive Committee (EC) was designed according to the basic principle of social inclusion. The President is elected, while one Vice-president is nominated from the fishermen group. Another Vice-president is also nominated from women members. The EC is functioning in harmony. In February of 2012 the Coop held its 10th General Assembly. The newly elected president of the Coop is Mr. Lekhnath Dhakal (Mr. Lekhnath was also the founding president).

## Social and Environmental Benefits achieved by this initiative

### Social

- Improved access to education
- Establishment of community groups
- Provision of new or alternative livelihoods in general
- Provision of new or alternative livelihoods for women

The restored Lake Rupa today, with a view to the Annapurna mountain range

- Possibility to improve community members' sense of self-worth
- Increase local community visibility to government decision makers
- Provision of basic services
- Access to technology
- Protection of local cultures, traditional knowledge
- Strengthening of local governance
- Strengthening recognition of community's rights
- Increased international visibility, recognition for the community

### **Environmental**

- Reduction of carbon dioxide emissions (climate change mitigation)
- Access to clean water
- Protection of local biodiversity
- Protection of local ecosystems
- Reduction of land degradation from poor farming practices

Fish catch in the Lake: restored livelihood

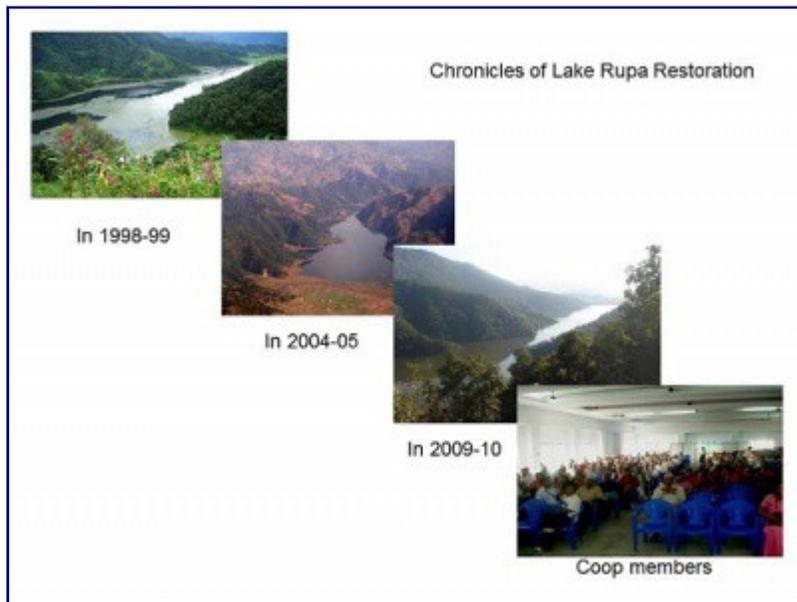

- Improved water quality

### **Skills training provided by this initiative**

- Technology skills
- Land and resource management skills

## Recent achievements and Lessons Learned

Reported by Mr. Tek Bahadur Gurung, one of the founders of the Rupa Lake Restoration Cooperative in July, 2011

Evolution of the restoration of Lake Rupa, from 1999-2010, and Co-op members

Over the past year, fish of about 7 million Nepalese Rs were sold. The lake has been restored in terms of water quality and aquatic weed control perspective. The people have gained more awareness regarding the importance of water, lake and related resources. We are also working to provide micro-finance to local participants from the income generated.

Besides this, a native fish hatchery is under implementation. We have been able to initiate the purchase of land on the shoreline for the purpose of breeding indigenous fish in order to stock the lake.

Lessons learned:

- It is essential to value traditional knowledge and respect the ethnic people
- It is essential to respect the feelings of the majority.
- It is essential to make them realize that local resources first belong to the local community for conservation
- The fund in the cooperative must be strengthened in order to build cohesion and attract group members
- There should be harmony with the local [stakeholders](#) and local administration for utilization of common public resource
