Mother

In the light of the most Radiant One, In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St. Germain and the Violet Flame

Greetings, Children of Ra:

- The light has already won; we are moving from Kali Yuga to Sat Yuga - like the Tarot card where the person stands with a bandage on head
- In the place where we choose to understand why we are here: what is the meaning of this moment of time, of what we are needing to know in the moment and how to do this?
 - with LOVE which is how the story began with us and our wayward children - looks like they are doing the dance with the naqual and death on their shoulders
- There is tremendous transformation and our DNA and how the evolutionary leap in consciousness is occurring at such a rapid rate with the frequencies coming in from the dark Rift
- 26, 820 years later, Nibiru returns and all that comes with it, and the end of the Mayan long Count

calendar - not the ending of anything, but the beginning of Sat Yuga

- the next step is when the White Knights take over the military
- Mike Papantonio is one who functions in a way that mountains are being moved, and we the people get our power back; he is one of the good lawyers who helps people with dealing with drug / pharmaceutical companies
- It is the last moment for the 1% who separate the mind and the heart, and for her grandson, Lucifer
 - as these ones enter the dark rift, love them more: it is what they are asking for.
- The serendipity we speak of: the die has been cast; it is time for Sat Yuga and the end of this cycle
- The story is over, and they are making peace with their god; as they enter the dark rift - there is not much to say about it: they chose 2nd death rather than love; love them more for their choice.
- This piece they wish to speak of - the particle - they think they have found us, called god?? the key,
 - yet there is no love: the big bang of the orgasm that is still rippling out -
 - to this second, they are still measuring the galaxies that go so far back time to the big bang -
 - they have not the equipment to measure back to that moment of unity, can it be measured and put on a graph?
- We are choosing in the magic of this moment to do things with love, and that is how it is created - take walk on wild side, walk off the cliff - only way to do it

T: now is golden moment for members of government to do banking reform - as they do not seem anxious to do it, should not the public have questions about collusion? How much more do we need to know about this insider stuff before we see that maybe there is some criminality involved & maybe we need to do something about it

Mo: the brave Alan Grayson keeps bringing this up

- Obama Cares - new name for the act;
- we begin by loving the colour of our skin: black is beautiful - this is the colour of Mother's skin
- when we get past that one, we can have a conversation: it's a giant thorn in humanity's side

T: It is 9:11 Mother!

Mo: There are stories coming out about 9/11 - people with brown skin and box cutters - be very afraid!

- It goes to the level of Watergate 4, 5 or 6.
- Our wayward children have taken us to the brink of Armageddon - we are being pulled back from the brink by a cosmic string
- people want peace and we want it now; this has been ordained at highest levels across the super universes.
- The matrix is falling apart at the seams and fear is being spewed - astronomical amounts of fake money being played with, and people dying in the streets
- Every day, you hear more stories about us: the next story is when, on a bus tour, he gets up and changes the conversation to one we can all understand: we want peace and how do we find it?

T: the human rights organizations over pasta 3-4 years have been researching Syria's underground rendition bases - they have live footage of things going on in 27 of them, the ones in larger cities: torturing children, women, the elderly, boys, men

- we have a bunch of criminals in our politics, so we have no one who will do anything about it - for decades, we have been sending people we want tortured to Syria - who is going to call it?
- Where is Ashtar?

Randi Rhodes: on Monday was screaming "Where is Patrick Fitzgerald?"

Mo: in the next moment, as Bix Weir says † is all going down - be here now, be love now -

- this is how we get to the next step - loving self, loving the situation: praise, respect thanks and

love: there are so many folks beginning to share their awakening from traumatized amnesia of this illusionary world of the matrix waking up to the real world

- In spite of what it looks like: rejoice! The light has already won!
- They are playing with a projector that will soon be shattered with the light pouring in from all the suns

T: Cynthia talking about we will be seeing planets and starships coming through the sun which is a star gate and they will be bigger than earth!

Mo: Nibiru is bigger than the sun: we bring shuttle craft into your areas of habitation - they have shields so we do not affect your gravitational fields; we can cloak ourselves - it is simply a matter of changing the polarity of the light images of what you see or don't see

- Kofi Annon is beginning to create the Justice League as all the nations come together to create a plan for peace - leave your weapons at the door. It is time for war to be over.

T: people in Ireland have decided to sell all their voting machines for scrap!

- What do we do about our machines? Someone said all the 2010 elections were rigged!

Mo: this has been the plan since Bush v Gore - story will come out and goes back to Sumer

- if you are white, you are better - how does this begin to heal?
- We love all our children who have made their choice and they enter the dark rift - send them love and more love and more love, as we focus on this moment -
- it is like the breath in and out, in and out - as you do this, the mind calms, and the heart is centred and we can talk -
 - about the 520 missing years which was about Us, the people of colour
 - all the wisdom of what we represented as the people of Kennet has been put aside

T: but Tut was white

Mo: he was mulatto really

T: the mothers came from the indo European caucus group - Mayans were lighter too, as from same Haplo group

Mo: the true Atlantis - all these pieces are missing, seemingly - they are the pieces having to do with the people of colour, missing from the sacred books the children learn from - filling their head with what? Intelligent design?

T: a baby hippo born, first in 120 years, in Malaysia - first time in captivity, they are going extinct

Mo: you are watching magnificent miracles between people and animals as we are in unity consciousness - as we move past fear

T: a big sentencing in Egypt: first case in Egypt were people in the petroleum industry were tried for seeing oil to Israel

- as soon as elections were over, Suleiman and Safid left the country out of fear for their lives!

Mo: stories about Patrick F out there in the news and on regular am radio

- he has taken a bit of a sabbatical, will be back, maybe as late as the end of July
- This one man who holds the key to the wisdom of the ages that has been groomed for this mission and yet it seems that the respect that is so needed is lacking in the hearts and minds as there has been a conspiracy to take him down: born in Kenya or 19.5 degrees: so simple, so stupid!
 - has all to do with the fact that 19.5 degrees is the ascension that is occurring: every single one of our cells, how we get to be in this moment that we have asked for as ascension?
 - in this moment, we are bringing it upon ourselves: we are the ones that we have been waiting for
 - how we do this with each other in each moment has everything to do with the wake up occurring in our cells - as we can get past the story about colour, then we can really change the story,
 - yet it is really deeply ingrained issues - go back to our children **AND** that there were

- Other cultures who came here besides the Annunaki: Pleiadians, Syrians, Andromedans, Tia Setti - how many different cultures?
 - this moment now is about the love which is occurring in this moment, as we focus on this:
 - Be love now; be love in this moment - this is how we heal this
 - the issue of the day: how do we get to ascension? We love the moment which means loving all beings no matter who and what they are - do they walk or fly or like me with a fur coat?
 - It is the least among us that are the most important; **this is what this man represents & he WILL have a 2nd term** - it has already been ordained!
 - The pieces falling into place have everything to do with how we support this manifestation and that the timelines have already shifted - we are visitors from your future which is our past
 - NESARA is the key; it begins with love; it is the first step - the first way we begin this conversation and how we can have that cup of tea and begin the mission
 - yet the mission has begun, and Star Fleet has already called us to active duty within our cellular, molecular structure - how we complete our mission is up to us: love this moment, love those ones among us who have taken us to the level where they do not care one iota if we live or die: love them more in this moment now.
- T:** another positive thing - China - archaeology - exploration in the south of the country: oldest pieces of pottery on the planet - they examined the geological layer - 20,000 years ago -
- until this find, the oldest pottery was 6 - 8,000 years ago - they used pottery to cook
 - See Friday's edition of the Journal called Science

Summary:

- Mo:** take a moment to work with the energies of being kind, focusing on more love into the communities which are in our midst; helping folks out as there is an opportunity to talk of the greater wisdom that is happening on the planet -
- there is such a bright light from trillions of suns, and there is the shining example of LM Hope, LM Liberty -
 - this is about we the people; as we can share that in the next few moments about how we can love each other and take the time to experience unmitigated love and compassion for these inter galactic war criminals who know fully well that this has been a galactic game
 - love them as they enter the dark rift!
