What Should We Expect Dec. 12 & Dec. 21-22, 2012?

I would like to share with you a very powerful Activity of Light that was given to us by the Company of Heaven to prepare us even further to receive the unparalleled influx of Light we will experience on December 12, 12:12:12 and December 21-22. This is a process of Divine Alchemy that will assist our I AM Presence to transform the carbon-based cellular structures of our physical, etheric, mental, and emotional bodies into Crystalline-based Solar Light Cells.

This is a comprehensive process so take your time with it. Please follow this visualization through the full power of your attention. Know that your I AM Presence will allow this activity of Light to occur in, through, and around your Earthly Bodies in perfect alignment with your Divine Plan and your highest good.

I AM Cocreating My 5th-Dimensional Crystalline Solar Light Bodies

I AM my I AM Presence and I AM One with the I AM Presence of every man, woman, and child evolving on this planet. I AM One with my Father-Mother God, I AM One with the Solar Logos from Suns beyond Suns beyond Suns, I AM One with the entire Company of Heaven, and I AM One with all of the Beings of Light associated with the Elemental Kingdom and the Angelic Kingdom.

I AM One with every electron of precious Life energy evolving on this planet, and I AM One with every atomic and subatomic particle and wave of energy comprising the physical, etheric, mental, and emotional bodies of Humanity and Mother Earth. I AM also One with all of the spaces in between the atomic and subatomic particles and waves of energy on Earth.

Through the Divine Intervention of this collective Body of Light Beings, I invoke the most intensified frequencies of 5th-Dimensional Crystalline Solar Light from the very Core of Creation that Humanity and the Earth are capable of receiving at this time. I ask that as this Crystalline Solar Light accelerates the Divine Alchemy that is transforming my carbon-based bodies into Crystalline-based Solar Light Bodies of infinite perfection, it also accelerates this process within the bodies of every person on Earth. I accept that this will occur in alignment with each person's Divine Plan and the highest good for all concerned.

On this sacred and holy day I consecrate my physical, etheric, mental, and emotional bodies to be the Open Door for the 5th-Dimensional Crystalline Solar Light that is transforming the Earth and ALL her Life into the limitless physical perfection of the New Earth.

Now, under the direction of our Father-Mother God, the 5th-Dimensional Directors of the Elements take their strategic positions in preparation for this powerful Activity of Light.

* The Directors of the Air Element and the Beings of the Air take their position at the cardinal point to the North.

* The Directors of the Water Element and the Beings of the Water take their position at the cardinal point to the East.

* The Directors of the Earth Element and the Beings of the Earth take their position at the cardinal point to the South.

* The Directors of the Fire Element and the Beings of the Fire take their position at the cardinal point to the West.

* The Directors of the Ether Element and the Beings of the Ethers take their position within the Sun of Even Pressure in the Center of the Earth.

Now as One Breath, One Heartbeat, One Voice, and One Energy, Vibration, and Consciousness of pure Divine Love the Directors of the Elements sound a Cosmic Tone signaling to Humanity's Body Elementals and the Divine Intelligence within every cell that the time has come to reverse the adverse effects of our fall from Grace, and to reclaim the original Divine Plan of outpicturing the perfection that is pulsating within the 5th-Dimensional Crystalline Solar Light Bodies of our I AM Presence.

Every person's Body Elemental responds with deep gratitude and an exceptional willingness to at long last heal the maladies that they were forced to create in our physical, etheric, mental, and emotional bodies after our fall from Grace aeons ago. With elation and abounding joy, our Body Elementals accept the opportunity to transform our bodies into the limitless perfection of 5th-Dimensional Crystalline Solar Light Bodies.

Now that the new Solar Record Keeper Crystals have been placed in Earth's Crystal GridSystem, and Humanity's pineal glands have been adjusted to safely receive more 5th-Dimensional Crystalline Solar Light, the Directors of the Elements invoke the Mighty Elohim, and ask them to empower Humanity's Body Elementals with the ability to assimilate and integrate 5th-Dimensional Crystalline Solar Light into our Earthly Bodies, at an atomic cellular level.

The Mighty Elohim respond, and every person's Body Elemental is initiated into frequencies of the 5th Dimension and invested with NEW skills and abilities that will work in perfect harmony with the Divine Alchemy taking place. This means our Body Elementals have graduated into 5th-Dimensional Elemental Beings, which will accelerate our transformation into our Crystalline Solar Light Bodies.

My I AM Presence and the I AM Presence of every person on Earth now joins in harmony with our newly invested and empowered 5th-Dimensional Body Elementals. What takes place within my Earthly Bodies during the following Activity of Light will also take place within the Earthly Bodies of all Humanity.

I AM my I AM Presence and in unison with my Body Elemental I AM cocreating my 5th-Dimensional Crystalline Solar Light Bodies of infinite physical perfection.

I AM the Immaculate Concept, the Divine Blueprint, of my 5th-Dimensional Crystalline Etheric, Emotional, Physical, and Mental Solar Light Bodies now made manifest and eternally sustained by God's Amazing Grace.

Sealed in the embrace of my I AM Presence I quietly contemplate the profound Truth that our Planetary CAUSE of Divine Love and our newly Birthed Renaissance of Divine Love are setting the tone for each of my 5th-Dimensional Crystalline Solar Light Bodies. These vehicles are now the Open Door for the Crystalline Solar Light that is cocreating the circumstances for Birth of the NEW Earth and Humanity's Ascension in the Light.

And I begin...

I perceive my glorious Crystalline Etheric Light Body. This is the vehicle that is encoded with my full Divine Potential, and my Divine Plan. My etheric body is associated with the Air Element and it is the vehicle that sets the tone or vibration for all of the energy that enters the world through my physical body.

Under the Law of Karma, which was created after the fall, Humanity had little chance of experiencing vibrant health, eternal youth, or radiant beauty in our physical bodies. Now, however, my I AM Presence and my newly invested 5th-Dimensional Body Elemental take command. The Law of Karma is superseded by the Immaculate Concept of my Divine Plan, and the perfection of my Crystalline Etheric Light Body.

Within my etheric body my I AM Presence declares to all obsolete Karmic patterns, "*Stand aside for the I AM Presence and the perfection of my Crystalline Etheric Light Body.*" The Karmic patterns are instantaneously transmuted into Light by the new Solar Frequencies of the Violet Flame.

From this moment forth, all energy passing through my physical body from my I AM Presence will only pass through the perfection of my Crystalline Etheric Light Body.

My Mother God, the Holy Spirit, now Baptizes my Crystalline Etheric Light Body with Sacred Fire. This blessing seals the 5th-Dimensional Solar frequencies of the Air Element within this vehicle and a scintillating forcefield of infinite perfection is formed. (pause)

My Crystalline Emotional Light Body now comes into view. This vehicle is associated with the Water Element. It is the body through which the Love Nature of my Father-Mother God is expressed in the world of form. This is my most powerful vehicle. Eighty percent of my Lifeforce is released through my emotional body.

My I AM Presence and my 5th-Dimensional Body Elemental step forth to take command of this vehicle. As they do, the full Divine Momentum of my Father-Mother God's Love begins to flow through my Heart Flame. The Love of God expands through my Crystalline Emotional Light Body and forms a Cosmic Forcefield of Divine Love that encompasses the entire Planet Earth.

This forcefield of my Father-Mother God's Love expands the Love flowing through every person's Heart Flame, and opens each person's 5th-Dimensional Crystalline Heart Chakra to new breadths. This enhances the reality that every man, woman, and child on Earth will indeed succeed in accomplishing his or her goal of Ascending into the 5th-Dimensional Realms of Light with the New Earth and the rest of our Solar System.

Love reigns supreme through all Creation, and this Activity of Light ensures that our New Planetary CAUSE

of Divine Love and our Renaissance of Divine Love are becoming a tangible reality.

Within this all-encompassing Forcefield of Divine Love, the last vestige of my human ego surrenders to my I AM Presence. Within the embrace of my I AM Presence my ego lets go of its resistance to my Divine Plan, and its desire to block my Divine Potential as a Beloved Son or Daughter of God.

My ego dissolves into the loving embrace of my I AM Presence where it is transformed by the Love of my Father-Mother God. My ego is scientifically, psychologically, physiologically, and spiritually transformed. My I AM Presence now inbreathes and absorbs my human ego into the fullness of my true God Reality and all aspects of my own Divinity.

My Mother God now Baptizes my most powerful Crystalline Emotional Light Body with Sacred Fire. My feeling nature becomes One with the Love Nature of God. My emotional world is now filled with God's Infinite Love and all of the various aspects of God's wondrous Love. This blessing seals the 5th-Dimensional frequencies of the Water Element within this vehicle and a scintillating forcefield of infinite perfection is formed.

Through my Crystalline Emotional Light Body I continually express the Harmony of my true Being. (pause)

Now my Crystalline Physical Light Body comes to the fore. My physical body is associated with the Earth Element. The limitless physical perfection of my I AM Presence is reflected in my magnificent Crystalline Light Body. My I AM Presence and my 5th-Dimensional Body Elemental take command of this vehicle. Every cell, gland, organ, and function of my physical body has been longing for this moment.

My Crystalline Physical Light Body is composed of Crystalline Cells that are absorbing Light from the Infinite Universe and assimilating that Light into the atoms and molecules that form each cell of my body. Every Crystalline Cell in my physical body is also absorbing the Cosmic River of Crystalline Light that is cascading through my I AM Presence and every other aspect of my own Divinity.

I AM my I AM Presence inbreathing, absorbing, expanding, and projecting the fullness of this Crystalline Light into my flesh vehicle. Not only is every cell of my body becoming a Crystalline Cell, each one is now swirling with multicolored dazzling Solar Light. This amazing influx of Light is generating unexplored levels of limitless physical perfection, vibrant health, radiant beauty, abundance, joy, and bliss. My Crystalline Physical Light Body responds to this Divine Input which is coming from various Realms of Light.

My Crystalline Physical Light Body will never again accept Karma dictating the reality of its physical functioning or its physical appearance. The old purpose of the flesh vehicle which was to be the repository for Karmic lessons that were not yet learned has been transmuted forever. I accept this profound Truth, and I agree to abide in my Crystalline Light Bodies while deeply enjoying the Divine Alchemy into limitless physical perfection that is continually expanding within them.

My Mother God now Baptizes my Crystalline Physical Light Body with Sacred Fire. The infinite physical perfection of my I AM Presence is permanently secured in the cellular structures of my physical body. This blessing seals the 5th-Dimensional frequencies of the Earth Element within this vehicle and a scintillating forcefield of infinite perfection is formed. (pause)

Now my Crystalline Mental Light Body reveals itself to me. This vehicle is associated with the Fire Element. My Crystalline Mental Light Body is One with the Divine Mind of God. My I AM Presence and my 5th-Dimensional Body Elemental take command of this vehicle, causing it to blaze like a great Sun of Light forming a halo around my head. As the halo of Light expands through my mental body, it encompasses all of my Crystalline Light Bodies and I AM a radiant Sun of Infinite Light.

The Sacred Fire Breath of my Father-Mother God activates my Divine Mind, and I clearly receive Divine Thoughts, Ideas, Concepts, Imagination, and all aspects of Divine Mind beyond Imagination. All of these reflections of Divine Intelligence and Divine Mind are anchoring and reflecting into my outer consciousness.

Slowly but surely I become aware of this process. It begins with a soft effulgent Light filling my mind. It leads me past the imagination of hopes and dreams of a future Divinity into the ever present moment of NOW where the patterns of perfection for the New Earth exist for me, the Earth, and all Life evolving on this planet.

All of the layers of human thought, conscious, subconscious, and unconscious mind, that were derived from my human ego now slowly dissolve into this Light, thus setting up an entirely new Divine Process for assimilating information.

I now perceive everything as energy, vibration, and consciousness whether it is something in my daily life or coming to me from dimensions beyond the physical plane. I watch for this in my meditations and see it clearly in my awakened life.

I AM prepared for my Crystalline Mental Light Body and I accept it now.

My Mother God now Baptizes my Crystalline Mental Light Body with Sacred Fire. The Divine Mind of God is reflected through my conscious mind and perpetually reflects through my mental body. This blessing seals the 5th-Dimensional frequencies of the Fire Element within this vehicle and a scintillating forcefield of infinite perfection is formed. (pause)

I AM my I AM Presence and I AM now abiding on the New Earth in my 5th-Dimensional Etheric, Emotional, Physical, and Mental Crystalline Solar Light Bodies. Each of my four Elemental Vehicles is now functioning in its full Crystalline Solar Light Body of infinite perfection. As I empower this activity of Light day by day, the Divine Alchemy is expanding and expanding within each vehicle until ALL Life evolving on this sweet Earth has God Victoriously Ascended into the 5th-Dimensional Solar Realms of Light with the New Earth and the rest of our Solar System.

And so it is. Beloved I AM, Beloved I AM, Beloved I AM.

2012, Dec 16 The Unspeakable Original Intent of the Second Amendment

By [Laurie Endicott Thomas](#)

<http://www.opednews.com/articles/The-Unspeakable-Original-I-by-Laurie-Endicott-Th-121216-899.html>

There has been yet another massacre in the United States. This time, it was at an elementary school in a small town in Connecticut. NRA supporters have responded as they usually do. They claim that nothing can or should be done to restrict civilians' access to firearms. A psychiatrist pundit at Fox News even suggested that the principal and a kindergarten teacher should have been armed. Conservatives invoke the Second Amendment to the US Constitution. Yet they never point out what the original intent of the Second Amendment was. The Second Amendment was never intended to give individuals a personal right to own whatever weapons they desired. It was certainly not intended to enable groups of individuals to use deadly force against their own government. Instead, it was intended to enable government-led groups of white men to put down slave rebellions and to steal real estate from the Indians.

To understand the Second Amendment, you have to understand why the Constitution itself was written, and why it was subsequently amended. The desire for a national Constitution to replace the Articles of Confederation sprang from a debt crisis. To finance the Revolutionary War, the states and the Continental Congress had borrowed a lot of money. Afterward, the states had to raise taxes to pay off those loans, with interest. As a result, many small farmers lost their land or ended up in debtors' prison. Naturally, some people resisted the tax collectors. In Massachusetts, a Revolutionary war veteran named Daniel Shays led an uprising of state militiamen. A similar uprising, called the Whiskey Rebellion, took place in western Pennsylvania. Not only were poor people rising up in open revolt, but the wealthy citizens of the new nation were frustrated by a chaotic financial market. Lenders had no confidence that the state courts would enforce repayment of loans. As a result, people like James Madison, who later became known as the Father of the Constitution, couldn't get loans to buy new land on the frontier.

If the Constitution was intended to enable the state governments and the federal government to put down local rebellions, why did the Framers amend the Constitution to allow "the people" to bear arms? It's because the "well-regulated militia" that was described in the Second Amendment wasn't intended to be used against the federal, state, or local government. It was to be used against slaves and Indians.

Under English law, all able-bodied men had to respond to their local sheriff's request to serve in a posse to pursue criminal suspects. However, the kinds of weapons that a man was allowed to have depended on his social class and religion. These laws were adapted to serve the needs of the slave economy in colonies such as Virginia. A 1639 law in Virginia required young white men to be armed at public expense. By 1680, it was illegal for black men, slave or free, to carry weapons. Eventually, Virginia permitted black men who lived on frontier plantations to keep guns for defence against Indians.

The Second Amendment was not intended to enable ordinary people to attack the federal government or their state or local government. It was to enable whites to use violence against slaves and Indians. But even before the Second Amendment was written, Quakers insisted that such violence is morally wrong. As our society and legal system have developed, more and more people have rejected violence as an acceptable means for solving conflicts. The unspeakable purpose of the Second Amendment was to support slavery and genocide. We've outlawed slavery and genocide. Now it's time to rethink the Second Amendment.

It's also time for Americans to recognize that the worship of guns is a form of idolatry. Specifically, it is a form of fetishism, which is the belief that an inanimate object (the fetish) has religious or mystical properties. But a gun is just a machine. Hunting rifles and shotguns are machines designed for turning animals into carcasses. Handguns and military weapons are machines designed for turning human beings into corpses. Guns do not generate a magic force field that deflects bullets, which is why it's foolish to imagine that a gun is useful for self-defence. In fact, gun owners have an alarming tendency to end up being shot by one of their own guns, which is evidently what happened to the mother of the shooter in the Newtown, Connecticut massacre.

The problem of gun violence in the United States is complex, and as H.L. Mencken observed, "For every complex problem there is an answer that is clear, simple, and wrong." Advocating that we arm elementary school principals and kindergarten teachers is not only wrong but insane. We must stop allowing this kind of insanity to prevent us from having reasonable gun control legislation.

12-21-12 ~ The New Golden Age of Light

<http://pleiadianlight.net/12-21-12-the-new-golden-age-of-light/>

http://www.youtube.com/watch?feature=player_embedded&v=RGlkw9RBKT4

12-21-12 ~ Alignment to the Galactic Center and the Cosmic Heart of all Creation

On December 21st, 2012 one of the greatest, unprecedented and most glorious events of Light is to occur as we align to the Galactic Center, experiencing our true radiance as these sacred transfiguring Flames of Divine Love through the Cosmic Heart of All Creation. This unparalleled activity of Light orchestrated from On High, has been prophesized and foretold by the Company of Heaven and its many Disciples over eons and eons. Humanity is about to officially enter into the Golden Age of Light as One Awakened Unified Cosmic Heart through the energy of Divine Love pouring forth from their heart centers and reflected through the Love of all Creation. In this Galactic Alignment of Light, all Life is moving up an octave, and by the Grace of God, One Unity Consciousness is again to be experienced as all planets, suns and cycles align through this Cosmic ascension cycle, occurring once every 25,556 years.

Overlighted by the Company of Heaven, Mother/Father God and our Beloved I Am Presence, we experience this alignment of Light through the Galactic Center to the Inner Earth Sun, the Sun, Central Sun and Great Central Sun, amplified through the Solar Flares, Photonic Rays and super-electron. This electromagnetic pulsing of Divine Light further assists in activating our Light Bodies/Merkabas and the Light Body/Merkaba field of Mother Earth as our Sun becomes the Central Sun and Mother Earth, the Spiritual Sun for this Solar System.

Our Light Body/Merkaba is a living, organic Divine Intelligence, powered by our Beloved I Am Presence working in alignment with Mother/Father God. As we receive the amplified Light frequencies through the Photonic Rays of Light from the surrounded stars, solar systems and the Galactic Center, we convert this Light energy into electrons and spin the sub-atomic particles within our bodies in increased Light frequencies. Photons, which are formed through the collision of an electron and its anti-particle opposite, the positron, produce two quanta of Light. And the super-electron is a Life activating force which impulses the transmutation of the positron on the lower dimensions. The Photon Rays of Light, which we have been shifting into and out of on this Earth plane, have been stimulated through the super-electron, and manifest as Photon Rays of Light using the sub-electron on our Earth plane. For the earthly electron is a sub-electron within the super-electron, the sole electron of our Multi-Universe. These Photon Rays which we have been experiencing further facilitate the clearing of karma, which is one of the reasons why so much clearing has individually and collectively taken place on Mother Earth. And now, in this grand Galactic alignment of Light, we experience this Gateway of Divine Love, into the Cosmic Heart of All Creation in non-duality and One Unity Consciousness, amplified through the energy vibration of the Photon Rays, now experienced through the electron, a much higher vibration of Light than we have currently experienced on this Earth plane.

Additionally, to connect to all dimensions of Light available to us and assist in the Planetary Merkaba activation of Mother Earth and all her Life into this Golden Age of Light, the Legions of Light from On High will activate 33 Cosmic Stargate Portals of Light within and around this earth plane. The number 11 is the Christ Consciousness sacred number for this earth plane and both 12-12-12 and 12-21-12 vibrate to

the master number 11. 22 is the master number vibration for the fourth dimension, and 33 the master number for the fifth dimension, taking us into the new Earth Templates of Divine Love. A particular time space vibration encapsulates each dimensional level, and until the Monadic Consciousness of our Solar System expands to the next level of dimensional consciousness or our own multidimensional Selves expand to the next dimensional level, we are unable to move beyond these ring-passeth-nots. However, by the Grace of God, this Galactic alignment of Light takes us beyond the ring-passeth-nots into the new Earth templates through the Galactic Center, as we access multidimensional realities and our past and future Selves through the Christed Timelines and experience a Now moment of incredible bliss, Divine Love and One Unity Consciousness.

These 33 Stargate Portals of Light are also directly connected to the 12 major vortices and Crystalline Cities of Mother Earth as well as 21 Spiritual Retreats of the Ascended Masters, Archangels and Mighty Elohim. Additionally, the 33 Stargate Portals of Light are connected to the 33 Cosmic Christ Holographic Discs, 13 major and 20 minor. These Silver Cosmic Christ Holographic Discs take us into the Christed Timelines and these fifth dimensional frequencies of zero point energy, the energy of Divine, unconditional Love and the everpresent Now. The Cosmic Christ Holographic Discs are activated through the spinal column, through the 33 vertebrae within the spinal column. This first activation occurred on January 21st 2012, and this last activation occurs on December 21st, following the activation of the 33 Stargate Portals of Light. The Cosmic Christ Holographic Discs are essentially high-vibrational templates which carry the mapping, remembrance and restoration of the Cosmic codes for our multi-dimensional bodies. In activated the Cosmic Christ Holographic Discs within the body and within the Unity Grid, we are creating and affecting change within our own bodies through the central nervous system, meridians and chakras, while activating the major chakras and vortices of Mother Earth to assist in the ascension process. Additionally we have been building our bodies of Light and creating the Group I Am Avatar Blueprint of Light.

In this Galactic alignment of Light, we are invited to assist thousands of Planetary Light Workers, starseeded ones and the entire Company of Heaven as one of many groups of 144 000 Christ Conscious Beings of Light and sacred transfiguring Flames of Divine Love. As we experience our Light Bodies/Merkabas and the Golden Flame of One Unity Consciousness within our Heart's Temple and the Cosmic Heart of Mother/Father God, we lift the vibration of Mother Earth into the new Earth Templates through the 144 Unity Grid of Divine Love, so that all Life may potentially experience this Golden Age of Light.

Invocation for the 12-21-12 alignment to the Galactic Center

I call upon the Overlighting of Mother/Father God,
the Pleiadians, the Sirians, the Andromedans and the Arcturians, all of the Light,
the Archangels and Angels, the Trinity Lords of Light, Lord Michael, Lord Metatron and Lord Melchizedek,
the Chohans of the Rays: El Morya, Kuthumi, Serapis Bey, Paul the Venetian, Hilarion, Sananda, St. Germain, Lady Nada, Mother Mary, Allah Gobi, Quan Yin and Pallas Athena,
the Mighty Elohim,
the Melchizedek Brotherhood of the Light,
Lord Buddha, Sanat Kumara, Helios and Vesta and Lord Melchior,
the Mahatma, the Cosmic Avatar of Synthesis,

and all other Beings of Light I personally acknowledge,
as I now merge with my Beloved I Am Presence, the Highest Light that I Am within the Cosmic Heart
of Mother/Father God.

I now find my Self on the Unity Grid of Divine Love,
connected to the Light Workers, Starseeded One, and all the Beings of Light from On High assisting in
this grand Cosmic Galactic alignment of Light.

I now experience the actualization and integration of the new Earth Templates and geometries of Light,
that were activated through the 12-12-12 Initiatory Gateway of One Unity Consciousness,
receiving the emanating Liquid Light crystalline star codes and vortex templates from the crystalline
vortices, leylines, sacred sites and portals of Mother Earth,
as the new crystalline geometries of Light are actualized within the Unity Grid of Divine Love.

I now align into the Inner Earth Sun, the Sun, the Central Sun, the Great Central Sun,
and now the inner Sun within my heart,

as the 33 Stargate Portals of Light are activated by the many Legions of Light from On High.

I now connect into all the major vortices and Crystalline Cities of Light of Mother Earth that I am
aware of, or connected to, in this Galactic Alignment of Light.

I now connect to the Spiritual Retreats of the Ascended Masters, Archangels and Mighty Elohim that I
am aware of, through my connection to these Beings of Light.

I now anchor and activate all 33 Cosmic Christ Holographic Discs,

13 major and 20 minor,

through the 33 vertebrae along my spinal column.

I gently move my body from side to side and backwards and forwards, facilitating the process of the
cerebrospinal fluid and the recalibration of my sensory system, central nervous system, chakras and
meridians.

I now activate my Light Body/Merkaba to the fifth dimensional Templates of Divine Love.

As I bring a focus to my energy field, I create a radiant Golden Flower of Life 54 feet in diameter
around my Self.

And now within this, I create a beautiful silver-gold sphere 10.8 feet in diameter around my Self.

I now visualize three super-imposed star tetrahedrons within this silver-gold sphere of Light,
all the exact same size, superimposed over one another.

I now spin my emotional body star tetrahedron in a clockwise direction within this Golden Flower of Life,
at the same time spinning the mental body star tetrahedron in a counter clockwise direction,

as I now recite the following Fibonacci ratios and God speeds of Light:

8/5, 11 times God speed to infinity,

13/8, 22 times God speed to infinity,

21/13, 33 times God speed to infinity.

And now, my Light Body/Merkaba field is activated to the speed of the fifth dimension, to the new Earth Templates of Divine Love.

As I experience my Self in Divine Love, in the radiance and magnificence of my Self as this sacred transfiguring Flame of Divine Love,

I now connect to the Group I AM Avatar Consciousness of Light.

To the Highest Light of all Humanity,

and to all the Light Workers, starseeded ones and custodians to this sacred earth.

And now, through the Group I Am Avatar Consciousness of Light,

I find my Self connected to one of these 33 Stargate Portals of Light,

working in groups of twelve with my Soul and Star families of the Light and the many Legions of Light from On High.

I now assist in bringing in Pillars of Light from the higher dimensions through these Stargate Portals of Light,

as I clear the lower dimensions frequencies on this earth plane,

and wrap Mother Earth and all her Life in this beautiful Golden Flame of One Unity Consciousness.

And now, the ray qualities of wisdom, devotion, illuminating intelligence, Love, power, harmony, peace, equilibrium, creativity, forgiveness, compassion, enlightenment and One Unity Consciousness are activated and actualized through the Unity Grid of Divine Love.

As I experience this Galactic alignment of Light, and the Photonic Rays, Solar Flares and the super-electron,

I now assist in the Planetary Merkaba activation of Mother Earth's Light Body.

As a bring a focus to Mother Earth,

I visualize the star tetrahedral shapes as they are connected to Mother Earth's etheric, emotional and mental bodies.

I see the base of the top tetrahedron connect with Mother Earth at the latitude of 19.5 degrees south, and the base of the bottom tetrahedron connect with Mother Earth at the latitude of 19.5 degrees north.

And now I visualize all three star tetrahedral shapes within Mother Earth's physical body of Light.

The Brotherhood of the Light now brings in warps of Light in etheric crystals,

and implant these within the electromagnetic grid of Mother Earth,

so she may vibrate at a higher frequency and maintain her electromagnetic balance through this Planetary Merkaba activation.

The collective Christed Light all Light Beings from all dimensions now bring in the seven healing rays, the chakra color frequency ray spectrum of sounds and colors and geometries of Light, to assist in lifting of the consciousness of all Life on this Earth plane, within the Cosmic Law of Free Will.

As this spectrum of healing colors shines upon Mother Earth's Body of Light, I now chant the holy words of *Kodoish, Kodoish, Kodoish, Adonai, 'Tsebayoth, Holy, Holy, Holy, is the Lord God of Hosts.*

And now, the White Light of Christ appears around and within Mother Earth, creating a deep remembrance of One Unity Consciousness.

And now, Nature Intelligence assists in creating an involutory and evolutionary balance between Nature and Humanity on this Earth plane.

And now, as I link to the entire Company of Heaven, the planets, stars, solar system and numerous Galaxies of Light assisting in this dimensional shift of Light,

I assist in activating the Light Body/Merkaba field of Mother Earth.

As I breathe with Mother Earth,

I bring a focus to the equator.

And now, a huge disk of Light, 9 times the size of Mother Earth forms at the equator.

And now, I visualize Mother Earth's emotional and mental body star tetrahedrons spinning with this disc in a clockwise and counter clockwise direction respectively,

as I now recite the following Fibonacci ratios and God speeds of Light:

8/5, 11 times God speed to infinity,

13/8, 22 times God speed to infinity,

21/13, 33 times God speed to infinity.

And now, as Mother Earth's Merkaba field activates to this fifth dimensional frequency of Divine Love through the Galactic Center,

I merge with every single Being of Light that has been assisting in the Planetary Merkaba activation of Mother Earth,

including every single band of consciousness on this Earth plane,

that through the Cosmic Law of Free Will,

has chosen to experience Solar Christ Consciousness,

and this Golden Age of Light.

I now find my Self back in my sacred space,
grounding into the Crystal Heart of Mother Earth,
and the Cosmic Heart of Mother/Father God.

I now bring a focus to this beautiful Golden Flower of Life, 54 feet in diameter around me,
and my activated Light Body/Merkaba,
holding all the new Earth Templates and geometries of Light.

I align once more to the Inner Earth Sun, the Sun, the Central Sun and now Great Central Sun,
as I come into my Heart's Temple, and the Golden Solar Sun Disc of Light within my heart,
experiencing and feeling my Self through the Center of Creation,
in Divine Love and One Unity Consciousness.

I experience this Golden Age of Light.
as a Christ Conscious Being of Light,
a sacred transfiguring Flame of Divine Love.

I Am One with all Life

I Am That I Am.

Why was king Akbar famous?

Akbar "The Great" [1542-1605], was one of the greatest rulers in Indian history. He was born when Humayun and his first wife, Hamida Bano, were fugitives escaping towards Iran. It was during these wanderings that Akbar was born in Umerkot, Sindh, on November 23, 1542. Legend has it that Humayun prophesied a bright future for his son, and thus accordingly, named him Akbar.

Akbar was raised in the rugged country of Afghanistan rather than amongst the splendor of the Delhi court. He spent his youth learning to hunt, run, and fight and never found time to read or write. He was the only great Mughal ruler who was illiterate. Despite this, he had a great desire for knowledge. This led him not only to maintain an extensive library but also to learn. Akbar had his books read out to him by his courtiers. Therefore, even though unable to read, Akbar was as knowledgeable as the most learned of scholars.

Akbar came to throne in 1556, after the death of his father, Humayun. At that time, Akbar was only 13 years old. Akbar was the only Mughal king to ascend to the throne without the customary war of succession; as his brother Muhammad Hakim was too feeble to offer any resistance.

During the first five years of his rule, Akbar was assisted and advised by Bahram Khan in running the affairs of the country. Bahram Khan was, however, removed and for a few years Akbar ruled under the influence of his nurse Maham Anga. After 1562, Akbar freed himself from external influences and ruled supreme.

Akbar's Reign

Thanks to Akbar's exceptionally capable guardian, Bahram Khan, Akbar survived his father's death at a young age to demonstrate his worth. Akbar's reign holds a certain prominence in history; he was the ruler who actually fortified the foundations of the Mughal Empire.

Areas not under the empire were designated as tributaries. He also adopted a conciliatory policy towards the Rajputs, hence reducing any threat from them. Akbar was not only a great conqueror, but a capable organizer and a great administrator as well. He set up a host of institutions that proved to be the foundation of an administrative system that operated even in British India. Akbar's rule also stands out due to his liberal policies towards the non-Muslims, his religious innovations, the land revenue system and his famous Mansabdari system. Akbar's Mansabdari system became the basis of Mughal military organization and civil administration.

Akbar was a great patron of architecture, art, and literature. His court was rich in culture as well as wealth. In fact, his court was so splendid that the British monarch, Queen Elizabeth I, once even sent out her ambassador, Sir Thomas Roe, to meet the king! Many of Akbar's buildings still survive, including the Red Fort at Agra, and the city of Fatehpur Sikri, near Agra, which has a 10-km long wall encircling it.

It may come as a surprise for many that a great ruler like Akbar actually could not read or write! And yet, he had a tremendous love for learning. During his lifetime, Akbar collected thousands of beautifully written and illustrated manuscripts. He also surrounded himself with writers, scholars, musicians, painters, and translators. His court had the fabled Nine Gems - nine famous personalities from different walks of life. These included music maestro Tansen and intelligent statesman Birbal.

The reign of Akbar was a period of renaissance of Persian literature. The Ain-i-Akbari gives the names of 59 great Persian poets of Akbar's court. History was the most important branch of Persian prose literature. Abul Fazl's Akbarnama and Ain-i-Akbari were complementary works. Akbar and his successors, Jehangir and Shah Jehan greatly contributed to the development of Indian music. Tansen was the most accomplished musician of the age. Ain-i-Akbari gives the names of 36 first-rate musicians of Akbar's court where Hindu and Muslim style of music mingled freely. The Mughal architectural style began as a definite movement under his rule. Akbar's most ambitious and magnificent architectural undertaking was the new capital city that he built on the ridge at Sikri near Agra. The city was named as Fatehpur to commemorate Akbar's conquest of Gujrat in 1572. The most impressive creation of this new capital is the grand Jamia Masjid. The southern entrance to the Jamia Masjid is an impressive gateway known as Buland Darwaza.

Like most other buildings at Fatehpur Sikri, the fabric of this impressive gateway is of red sandstone that is decorated by carvings and discreet inlaying of white marble. Of all the Mughals, Akbar's reign was the most peaceful and powerful.

During his reign, Akbar managed to subdue almost all of India, with the remaining areas becoming tributary states. Along with his military conquests, he introduced a series of reforms to consolidate his power. Akbar practiced tolerance aimed at Hindu-Muslim unification through the introduction of a new religion known as Din-i-Ilahi. He won over the Hindus by naming them to important military and civil positions, by conferring honors upon them, and by marrying a Hindu princess.

He appointed nobles and mansabdars without any religious prejudice. Akbar's religious innovations and policies, and deviation from Islamic dogma, have been a source of debate and controversy. Akbar was a great patron of literary works and scholars. His court had numerous scholars of the day who are well known as "Nauratan".

Akbar himself appointed important regional officers answerable to him. He was able to set up a chain of informers, officials spied on their colleagues and reported any misdeeds or suspicious behaviour back to the emperor. Army commanders were given money with which to pay their soldiers and Akbar kept detailed records of every man's name and description. Even the horses were branded.

Akbar also introduced a new and fairer system of taxation based on carefully estimated tables of crop yields. Tax collectors had their own district tables and used them to work out how much grain the farmers should contribute. This contribution was then converted into its cash value, district by district, because food prices varied in different parts of the empire.

Akbar had three sons Prince Salim, Murad and Daniyal. Prince Murad and Daniyal died in their prime during their father's lifetime. However, Akbar faced problems with Prince Salim and the last four years of Akbar's life were consumed in crushing Salim's rebellion. Akbar fell ill and died of slow poisoning on October 27, 1605. With him ended the most glorious epoch in Indian history.
