- Obama is ready to raise the taxes on the rich

- The takeover of things over 100 years ago when Nichola Tesla said he spoke to someone on Mars, and people wanted to know what he was smoking! Truth of Tesla and Marconi will come out

Mr X: spoke to R about **Syria:** civilians are killing civilians - has to do with the confusion about al Assaud and the Black Widow

- What about chemical weapons? **Mr X:** don't discount Dr Keshe's technologies

- the **stargates** and the original folks who created them are back: the lion people, the reptilian people,

and others who are on the Nibiru and it is behind the sun

Japan: another earthquake off coast of Japan in very same area of the one a year ago

- on NHK news from Japan said it was an after shock of the tsunami - T saw footage and it shook for a very long time - people trying to hold stuff on shelves etc - far enough off the coast that it did not do so much damage - 459 KM off the coast; NE Tokyo got a 1 meter tsunami

Egypt: close to half a million people in Tahrir Square - they are not taking anything from Morsi

- Mohamend El Barhadi for the National Salvation Front / unified opposition parties - [he was a former weapon inspectors and said that there were no WMDs in Iraq]
- El B was hoping Morsi would rescind the decree and postpone the referendum - but voting around the world for Egyptians has begun, so would be difficult to postpone the referendum
- a coup d'etat may come about with Morsi out and Mohamed El Barhadi in
- the military have been so overwhelmed by ordinary people that they just let the people into the Presidential palace area
- there is another group within the Muslim Brotherhood that ARE aligning with the people!

Tonight on The Big Picture...

CONVERSATIONS WITH GREAT MINDS: Chrystia Freeland, Journalist-Reuters & Author, "[Plutocrats: The Rise of the New Global Super-Rich and the Fall of Everyone Else](#)"

- 0.01% of the population are doing extremely well; the biggest losers are the middle class in all industrial countries
- she thinks there will have to be major changes to stop that downward pressure on middle class incomes
- thinks Thom is right to discuss Reagan: the past 30 years has brought extremely disparity of incomes and this is based on the political changes brought in by Reagan and Thatcher - ??
- the financial crisis, Obama's re-election, what is happening in Europe - the beginnings of a backlash without cutting back on the technology revolution
- people have been trained to think of the economy in terms of the personal, not in terms of the structure of the economy and class and the disparity of incomes

THE NEW IDEA IS NESERA NOW!!!!

Caller: asking about last night's call and being awake during 4:30 - 6:30; on the weekends, is awake and sees ships leaving - sees something almost every time she goes out!

T: like to come at that time as they can contribute to the energy of the planet: a good time to reach people

Caller: at Shasta - describes what happened to her there and confirm that what is seen at her home is

real

Caller: in Portland, Clear Channel sold a progressive talk station; Bain Capital owns Clear Channel and is doing this across the country: now they cannot get any progressive talk radio- will we get them back?

R: YES, YES, YES - has to do with the shake-down that is going on with the New Sheriff in town Eliot Spitzer, Jennifer Granholm, Joy Baher - all were taken off!!!!

T: meeting on Tuesday right after the galactic alignment [Dec 4th]

- Ed Schultz, Dylan Rattigan, Alex Wagner, Alex Witt; Rachel Maddow; Chris Hayes;
- Stephanie Miller, Al Sharpton; Laurence O'Donnell; Ariana Huffington; Sam Seder;
- Larry of Larry, Curly and MO; KOS; Mr Obama
- a NESARA ANNOUNCEMENT TEAM IF YOU EVER SAW ONE!

- Ariana is a double agent: co-owner of AOL - when all goes down with Time-Warner, she will be left!
- Martin Bashir knows that Michael Jackson is still alive: Martin is a good friend of Deepak Copra!

Caller: seeking clarification: re M Jackson - last time that T spoke of him - there is a clone

T: the clone was killed; the real MJ is alive and well and showed up at the morgue to identify his own body, **AND** at his own funeral

Caller: every time you turn around Hillary is on TV - making her out like she's Mother Mary!

T: yes, it's more than infuriating, and we have to work through these emotions - a big job

Caller: she is the elephant in the room

T: Putin, the head of China until the new Chinese leader is in: these guys know they are fighting [her]

- the latest thing on RT TV ticker tape: re Syria: the international airport of Syria - the oppositon fighters of Syria have declared that you fly into the airport at your own risk - they are declaring it international territory! Could be so no more shipments of weapons can get in - locking the whole place down!!!

R: rumours that Steve Colbert will take Senator Jim DeMint's place

T: Halley is a dangerous lady!

Caller: actor who played Zulu on Star Trek - was on **the last word** - he would make a good spokesman and journalist on TV when the galactic info starts coming -

T: people would consider that

R: Star Trek started in 60s - George S is part of the Same Sex marriage action which is a big deal in Hollywood. In the YouTubes, he talks of Gene Rodenberry and how they put Star Trek together as a counter measure to the stuff coming about the Viet Nam war -

- it was to wake the people up and have them think about who the real enemy was - **and it is still us:** millions still want to secede from the union and have guns, etc

T: who do the governors think they are - in Lansing MI - they don't want to have the Right to Work law pushed in their face

- Omega being brought up on TV - in the Thom Hartmann show
 - Omega is one of the 78 major programs of NESARA - the big O - or the Olive Pizza
 - the programs are called different names: the finny one is called the anchovy pizza
 - farm claims - the farmers cheese pizza
 - the Nations projects - Chiang Ki Chek's gold certificates for all of China's dynasties -
 - the big O is tiny compared to this one!
 - After the deliveries, all have to sign a nondisclosure; Program names are never mentioned again, ever!

- If you say it, and others hear it - both you and the listeners lose ALL.
 - They were told at the beginning of the project [38 years ago for Tara] - they already knew about how long it would take: they learned much from the gurus coming from India to shape up the west who said the US would have the hardest time because the psyche of Americans was built up to believe they were the best in the whole world
 - Yet in the 40s and 50s, this was Klu Klux Klanville - very unbalanced nation
 - As Gandi said when the subject of civilization and the US was mentioned: I didn't think there was a western civiliation - or something like that.
 - The education system in the US is now so narrow, not many can go to school
 - Thom and Chrystia were discussing education and how much money is needed to get to school - going back to the middle ages
- R:** most serfs did not know how to read in the MA
T: a slave woman who learned how to read was in trouble and so was the person who taught her
- yes, Elvis is still here - the clone was drugged to death! He is a transcendent soul who came back to do what he did

Caller: story of nurse who looked after Kate in the London hospital

Caller: a few years ago, she was given a dress; when she wore it, it had a life of its own - it was creepy -

- it was like Marilyn was part of that dress - a white scoopy one.
- Thinks the person who gave it to her wanted to get rid of it, as well!

T: the lady who was Marilyn Monroe has been born again, lives in Les Vegas - the current lady is a beautiful person too

R: MM was killed because she was going to come forward the talk about the ETs being here

- she was **also JFK's twin flame** - all this will come clean

T: all kinds of things from the past are here now to be cleared and we can do it

T: **\$67 Billion dollars a year by 2030 will be needed for climate change;**

- only \$2 B have been handed out now
- Pledges: China \$15.6 B; Britain \$5 B; US \$2.7 B; Germany \$2.5 Billion
- this is another sign we have to arrest these characters as they will not give up fossil fuels and they would have to give them up, as was stated at conference at Doha
- Dr Steven Greer last week said on Ed show: the galactcs from 30 million light years in our future are here with the solutions to our energy crisis.

- the problem people are having with his technology is accepting something for free -
 - gov'ts have only a small window of time to take advantage of what they have received;
 - after that, the Keshe Fdn will be teaching all kinds of scientists about what is on the stick
 - Are these scientists from the 15 countries or from around the world? All around the world
 - Keshe won't speak to a particular person who
 - the technology now belongs to humanity
 - what we talk about is not a fairy tale - go on the website and see the man who had parkinson's and the changes that have come to him as a result of Keshe's work - those who oppose what he is doing say they got a good actor!!!
- Kerry : in north of LA in California: if you enter in craft [earth], the sunlight comes sooner to you than to me in Belguim - you are in the front seat, I am in the back seat
- She asks if he has flown in one of the crafts: feels no different than flying in a jet liner
 - She talks about how long it will take her to get to Egypt - would take 1/2 hour in the craft.
