**THIS WAS A VERY INTERESTING AND DETAILED DISCUSSION
- best idea is to listen to it.**

Primary focus of the discussion: hormone replacement and adrenal support

Question re Stevia:

- stevia green leaf powder is ok
- THE WHITE POWDER IS A CONCENTRATE - sweetness is extracted, and then it is dried - we are 3rd, 4th, 5th generation sugar users which means adrenals can be wearing out
- DROPS ARE AN EXTRACT AND A CONCENTRATE - WILL WEAR OUT ADRENALS
- GROW THE PLANT? Yes, dry them and grind them up 1/8 of a tsp
 - the plant is OK; when it is extracted, the fibre is lost which is an important part of the balance
- No more conference calls - too much else going on!
- Sends out newsletters 1x or 2x a month to those who sign up!

Mother Sekhmet:

Greetings in the light of the Most Radiant One. In the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame

T: asks for Mother's power of love to push this through - we are ready! All is on overwhelm!

Greetings, Children of Ra!

The moments are fleeting at hyper-dimensional light speed! Magnificent to behold, and also bringing up everything that is Lucy in the Sky with Diamonds!

- Koch Bros will soon be singing "Brother, can you spare a dime?"
- It's all about the lineup that is occurring in the moment. This "piece of work", the stories that are going on are about the most magnificent of frequencies coming in and changes everything we may have had concepts about - things are not exactly as they seem, and this is about the moments here where transfromation is going on in such a huge way, it is affecting everything, every one!
- We say hold this Gracie in the circle of support: she is going through much with the shifting energies
- The energies are affecting all time, all space, all matter, all anti-matter which is about the original story here
- as we approach the 21st, this is about such frequencies that are deep and subtle at the same time, it is about complete changeover of what we may have understood about life, the universe, everything, Things are happening so quickly now: as the singer said "Imagine all the people"

T: Nothing being said:

- there were 150 arrests by 500 Interpol police at the German Deutchse Bank -
- HSBC got a small fine of \$2 billion fine and there have been trillions being laundered!
- Matt Taibi on Amy Goodman in the morning, on Eliot Spitzer at night about the same story - something not adding up - besides the missing money

Mo: it is about the 40 zeroes, which St Germain has in safe keeping; he will release them when he is ready
It is about the exposure of more than the 150 at the bank - more to come!

- This about our wayard children who are behaving so badly - cannot say more than send them love on their way out of here: The Dark Rift is in focus
- Many things happening with the frequencies that are affecting the matter; this is a quandry for some: we are watching things speed up yet where is the accountability, the arrests? Things are ongoing - the moments are now with everything that has ocured since the 12th - everything has moved at such a rapid rate: 24 hours = 1 year!!! One year in a day - imagine how many years when a year passes in one single minute!
- It is awesome and incomprehensible yet also comprehensible when we realize it is only this moment which matters. The other moments will take care of themselves
- At this moment, many arrests are going on and the fiasco about the **fake debt**: Michael Moore was on the Ed show taking care of business about the governor, unions, the idea that we can make slaves work for less: it is quite a challenge to be in these moments and experience the multitude of events unfolding: it is about walking the path that has no path
- The challenge as we watch the faces go across the screen: continue to send them love!
- Right now, all that is occurring is about love: the doorway we are going through is much more: it is a transformation, transfiguration that we have not seen since 26, 826 years. She remembers it as

yesterday.

- What is happening is the movement into Sat Yuga and we get to experience what it is like to be here with all of it intact - this is, after all, an amusement park though we may not quite enjoy what we see unfold; yet it is an amusement park and we can change what we see in the moment with our thoughts and this is already occurring.
- The next moment is the alignments of how this is done in a blessed way with the least amount of damage and the most amount of ecstatic orgasmic joy: **there will be NO EXTINCTION LEVEL EVENTS!!!**
- Whatever is being planned by the wayward children is turning to sand as we speak. The line-up of the usual suspects of the crimes that go against this planet, responsible for what is happening look very pale and frail as we see them - so much is unfolding, that is it is of the nature of awakening, transformation, transfiguration, what we may be experiencing . . .

Caller: Is it true that the Fed Reserve Bank Charter ends at Dec 31?

T: Yes - yet it also is a fake timeline; the Fed Reserve charter ended in April, 2007 yet . .

Mo: it ends with the fiscal cliff and raising taxes on the rich

- Ed took it up a notch; he said we'll bring it up to 42% and take back the taxes that are taken from the middle class.
 - He is already talking to committees - issue is the right to co-exist in a universe that is ours and always has been, and now we are taking it back
 - It is quite painful and upsetting for the wayward children who know their moments are very nigh!
 - Love them more on their way out! It is the highest and most gracious events we can offer in the moment as we cross the River Styx with Anubis as the ferry man

T: David Cay Johnston said when you want to take something from people who don't have anything and give it to those who have more than enough, the **Biblical text calls it evil!**

Mo: As Ted Kennedy said: when does greed stop? Mother is the line in the sand; she has been called the great equalizer: it is about this Dec 21st, winter solstice - for the first time in 26, 826 years when all things get equalized. Suggests we focus on love, peace and joy for the 8 minutes - the whole world will be doing it - will be awesome to behold -

- Yet until we see the Nuremburg war crimes tribunals - a bit of a story to round up the children who think they have found a way out of this story, the issue is that all will come to balance as the feather is placed on the scale. That is the story that is coming up here: everything for a few moments is equal in this universe, this galaxy.

Cathy: the %ages just discussed: the dark ones cannot sustain the light coming in - what would you suggest for us? How many are left to deal with?

Mo: 99.5% and rising: Robin Hood is here to take care of the story that has to do with what has been taken from the people will be returned: dignity, respect.

- She suggests: the greatest of service that we can speak of is how we serve everything going on:
 - the least among us is the greatest of tasks at the moment, as we watch the final moments of a larger story called The Bankers Manifesto where the bankers have ultimately failed with ruling the planet, which is not for sale nor is the galaxy.
- As we return to a simpler way of life: there are immediate solutions in the mix which have to do with what is occurring in terms of the increasing magnitude of the frequencies that take care of the rest of the story so that nature and nature's god can do the re-boot -
 - this is NOT about a huge physical event like an earthquake, BUT A SHIFT IN CONSCIOUSNESS, and at that level, the shift in consciousness changes physical matter, time

and space. We could say this is an issue of mind over matter where cartoon physics comes into play: where out of nowhere a doorway opens - the TV show Quantum Leap[?] - where Hal shows up and says we gotta talk - that is what is going on here.

- Julian Assange going to run for Senate in Australia; Bradley Manning should receive Nobel Peace prize, along with Man of the year: why are these considered enemies of the state, Grover Norquist is honoured?
- Grover Norquist is more of an enemy of the state than anyone else!

Caller: have not been able to find the most useful and easy-to-follow astronomy calendar we have always used; the question is - will we be seeing the same constellations we have always seen in the sky, as we are being pulled by a tractor beam back to the Pleiades - and if the person who created the calendar knows this, this might explain why the calendar was not made?

Mo: as we are moving closer in trajectory to the Pleiades, we will see things a little differently each moment as we travel across the expanse of the galaxy.

- Has to do with the changing of the physicality of going from the Father Sun and Shekinah universes. That is the level of how things are moving: they are moving up higher in octaves and in frequencies - as anyone has a dark heart like the wayward children do, it is not conceivable for them to be in that frequency; it cancels them out of the picture - they will be picking weeds on Herculobus

Caller: How long will the transformation be to get from here to there? [meaning for galaxy to move]

T: will you have an escort service Mother? [meaning for wayward children]

Mo: will have transport vessels and transport beams to take care of that [also wayward children]

Caller: The next question is related to the concepts of the various yuga s/ cycles of time: in the video 2012 the Crossing from Australia, Santos Bonacci shows a diagram of the 4 ages: iron, bronze, silver and gold, and he shows the two bodies getting close to each other and then moving away: as they separate, earth goes from gold down to iron, and as they come closer together, earth goes from iron to gold - which is the age we are now moving into.

- Along with that is Metatron's message about 12/12/12 : he talks about the future appearance of the Crystalline Temples, to be built in the Pinnacle Mtns in Arkansas and that, 15 of our generations from now, thousands of us, of the Law of One, will specifically reincarnate in that period.

So that is confusing:

- are there going to be more yugas / cycles of time as we know them now?
- Are we not going to live for as long as we wish to? Does not the time we are entering spell the end of duality?

OR has this something to do with the differences between the New Earth and the other earth where people reside until they have finished their ascension????

In other words, I am confused!

Mo: with all respect to Tyberonn, we won't be going through death and re-birth cycles any more!

- Love is the key and, as we are transforming these temples of the living god . . . how long do wizards last - 100,000 years or more?

T: it is not the same, though - it is not linear time!

Mo: what the body understands is the concept of linear movement where we watch the passage of time by looking on numbers on a box called a clock

- This is about watching the frequencies that are shifting realities that are moving so fast in terms of the awakening that is occurring in nature and nature's god and this planet - it is moving so

fast that all of life is awakening to the quickening

- That is why her wayward children are quaking in their boots - the sword of Damocles and the hammer of Thor is here and the story is about how am I to explain to the world that my wife is gay and she's a clone [about Bill Clinton].

- In spite of the stories that John Kerry might be picked as Sec of State, Clinton is still in the mix.
 - This is deeper than everyone knows because not all of the issues of Bengazi have been forthcoming, no matter what has been said: it is about 800 metric tonnes of gold which are with St. Germain and the 13 families are scrambling desperately for the next payment to their masters, and China is not in a bargaining mood - they have the upper hand.

Mo: North Korea has just launched a satellite and violated all protocols, all international law, all treaties, etc Why would N. Korea be denied the place to have a satellite? There are works within works within works in this story: the crystal Children in NK have had enough of war.

T: N Korea does not have the Keshe technology - only China, Russia, India, Bangladesh, Italy, Thailand, USA, somewhere in Africa

MR: video from Keshe Foundation said they would be giving it to N. Korea because that was a place where they would allow the technology be exposed.

T: If they are going to, OK; so far it has not been done. The establishment of the treaties and protocols - well, did not behave according to the regular laws of treaties and so on

Mo: there will be consequences according to the laws of this planet

- Yet - no dates, no nukes, no flukes - now is the time for love.
- The **nukes have been neutralized:** the issue is how impotent they are in terms of the issues which have to do with how the culture has been suppressed because of the information that has been denied to the people. [meaning USA?]
- Yet, in far east, they are open about our presence; in the west, it is not so much - yet things are changing by the hour.

Closing comments

Mo: in these last moments, has all to do with the greatest of joy and how we walk through this window here - Friday is 14th, the circle day - it is about the joy unfolding here, about the return of the man known as Jeshu and the frequencies occurring in the moment:

- it's about Palestine, Jerusalem - let it begin now with what this man began about healing that goes down to the rest of the planet
- the people of Is - Ra - el do not reflect the energy of the wayward children [leaders] whose misqualified energy can be fixed in the twinkling of an eye
- Be mindful of how we use the energy leading up to 21st - send only love to all situations no matter how intense they get; find a place to chill out and work with your breath

T: on the Syrian story - Medvedev got up and said "Al Assad your days are numbered"

Mo: Yes, about the fact that Mother Russia will change the course of how things unfold in Syria, as Russia and Syria have had a long relationship

T: Hillary not travelling: they say she had a stomach virus

- Susan Rice [Hillary does not like her at all] has declined the role - interesting to see how this will be played out - everything is being danced around [& not dealt with directly]

Mo: we are moving ever closer to a shift in how things are done in this universe

- As we go through the black box into the circle day, we will see shifting as we have never seen
- Uranus went direct today - now the sh1t will hit the fan!

Closing: Cathy
