Astrology: Annie Rose

- Thinks will have good news regarding dinar and dong – Tuesday was mentioned as day for news
- Also feels we are in for good times at least for next 3 weeks.
 - July will see a hike in price of coffee after mid month; food prices will be dismantled & remanted
- Feels that America will have to be very close to other countries which may have some grievances
Refers to dates in the past when there were so many war-mongering days
- Next Grand Cross comes in July – another big one; we have just passed through one; 3rd in Aug/Sept
- People will be looking forward for fun things to do, especially in June – about time! It's been a rough winter. Thinks this summer's weather will be much better. Weather problems in west and south will affect food prices.
- Looking for new investment possibilities – will fare well if we choose to do this.
- We need to pray for peace – concerned about July when Pluto is involved; will be going through something similar to what happened in the 40s.
- an important announcement from the President – at the end of June/July – could be about his own path; thinks he's concerned about his legacy
- Thinks Hillary Clinton will have to watch her health, that Bill C is a major force behind her running.
- Sees a young man running, opinionated but charming
- Concerned about Obama's relationship with Putin – says Putin is not afraid to say what he thinks, and does not look at the far-reaching effects of his actions. Thinks he'll relent on the idea of taking over Ukraine.

- Discovery – some kind of metal; a surprise find for America this summer.
- People will be in a relaxed happy state – maybe America has earned it: America has been through a lot, and the weather has been frustrating: karma can be good or bad
- Thinks education will take great strides forward: from the forces of the unknown pushing us in that directions
- We will toughen our stance on the way we treat illegal acts of people: which could lead to more discipline relative to our children

- Thinks of surprising arrests
- Stock market – one day sunshine, one day gloom and we will learn to live with it
- Can look forward to the next 5-7 days as far as the dong and dinar – will set a lot of tongues wagging when it comes into the news.

HARD NEWS:

R: lots of irons in the fire, and they are red hot

- #1 issue in front of us: Lots of “law makers” in Congress – really “law breakers” and schills for the military-industrial etc complex - only 65 good members in congress.
 - All the rest answer to someone and it is not Admiral Sananda. Their time is up! No negotiations.
- Since the Grand Cardinal Cross, things moving at hyper dimensional light speed.
- Like the Man with the Plan said – the absolute insanity going on in the VA: young people went off believing the lies based on the word of PINAC

T: Bernie Sanders: over 2 million soldiers just injured, and 2 another million who died & no one has spoken about that. Joe Wilson is the only one who has talked about this: and how many Iraqis?

- We have very, very very few doctors – not being produced in any numbers lately; over \$200,000 to go to school unless you have the money and a family background of wealth, hard to face that.
- So 200,000 of the 2 million have serious brain injuries as well as TTSD; it has increased over 50% in terms of numbers needing to be seen in last 3 years; there are only 9% increase in doctors – there is not the infrastructure to handle the situation.
- Most the money goes to the military \$3 TRILLION at beginning of Iraq war went missing before the Iraq war and no word of it yet; this is high treason, murder, war crimes, crimes against humanity

Need medicaid for all, single payer health care, universal health care

Thom Hartmann: called 26 Republican governors murderers for not expanding medicaid for the people who are under \$5,000 not eligible or over \$11,000 – not eligible These people work every day & these ones are supposed to receive Medicaid there are 5 million people without any kind of health care and if they go to the emergency, they ARE DENIED CARE EVEN IF THEY DIE.

- This is the oligarchy Randi Rhodes has been talking about it
- For those soldiers who get seen, they do get good care, but when the oligarchs steal the money for hedge funds or for Black Ops - there is no thing connected to the rest of the thing
- There is a 4th Reich in this country and it is running the dinar program, so the **dinar will never be paid out. ONLY NESARA WILL PAY OUT.**
 - ONLY AFTER the arrests are made of the powers that were will NESARA be paid out – there will be no hierarchy left to do the criminals' bidding

R: spoke to Tom the RT Cat today; they [dark ones] are absolutely pulling out all the stops because they are in flames and terrified because Mother is here with all the forces of Light;

- they know the gig is up & they are determined not to go back to the arms of Mother in Divine Love; they have not allowed themselves to expand to the awareness that they can forgive themselves & allow the re-establishing of the 12 strands of DNA – this was part of the Creation story in the beginning: it is only about love
 - the needs of the many outweigh the needs of the few, right now, the least among us is the issue

of the day. and income inequality is the issue; when 80 some beings have all the money, & they are hybridized hu-mans, not humans like us – and they are not from earth.

Immigration: there are people here who are from Alpha Centaurii and they are in among us & don't have any papers: Rachel had on the anchor from Telo Mundo who is taking over for Chris Janzen who has become the Chief White House Correspondent: he was asking about why Obama has been removing people and separate families, sending them back to their countries – \

- IT IS NOT OBAMA BUT THE SHADOW GOV'T BEHIND THE GOV'T THAT GIVES THE ORDERS
- ONE MINUTE IT LOOKS LIKE THIS, AND IN THE TWINKLING OF AN EYE, IT WILL BE 360* DIFFERENT.
- These ones will be naked as jay birds & they are not even human, yet we must love them!

• He is so grateful to be alive & aware at this time; it is agonizing with what these folks are doing, and the ecstasy is happening at the same moment: a ship being seen, or people meeting with those from galactic realms;

- a science channel with Morgan Freeman – saw a show called First Encounters – showing a ship showing up in a school yard in Australia; the kids ran out; it was the people from Tau Cetii – the kids had a wonderful experience. They had an energy uplift and when doctors checked them for strange anomalies, they had no issues whatsoever – an item not being discussed on main stream news.

Thailand: a coup d'état – constitution shut down, to be a dictatorship by the military;

- in 2006, the brother of the current PM was the dictator; demonstrations in the street going on all the time. The king of Thailand is 85 years old and holds a dynastic position; the military are being paid off to keep the dynasty in place. So the current PM & her brother before have upset the pattern.

India: now in the extreme right wing corner as those who fund and support them [the Republicans who are nazi collaborators; the Koch bros] are behind this. The Koch Bros mother got off at the Nurmbug trials

China, Russia: signed a billion dollar deal for gas and oil; having gas and oil as the primary fuel for China is better than the coal it currently has – people are dying in droves. Serious problems due to the Koch Bros and their pet coke piles, a by-product from the production of coal which they sell to poorer countries: the stuff is lethal.

Scotland: banning fracking entirely.

England: will be a fight over fracking

Russia: will be going after the Arctic and fracking is being used like crazy; the methane gas is leaking all over the place

As backup, we have all the grid up already active: we can literally stop fracking – the announcement has to be made.

- Nada told them a few months ago that these ones would just be taken out, and Tom the Cat said it again; Tom said they want to re-activate the New Madrid Fault Line which would take out the Mississippi & half the interior of the continent – it is going to shake everyone!

UFOs – this week, the committee on Science and Technology discussed the numerous indications of our being visited and also about the number of visitors – needs to be an extended discussion in Congress.

Guest: Bevonne Birch – visited Indiana – about hand writing; also, she could send MR a page with ideas to help people think about their handwriting and its significance

- Your handwriting changes all the time; has to do with emotions and what is going on
- The words you write are what your conscious mind is saying; the sub-conscious mind gives the emotion
- Printing is more about self; the separation between letters is the breaking between people

- She comments that schools are not teaching writing because someone does not want us to be connected.
- Push, pull, moving gently to the right each time: looks like a lot of Ms pushed close together: relieves stress. [use paper with lines so you have a guide]
- Doing the same thing with the left hand – helps to take care of a headache.
- Write a small t – where we cross the t is an indicator of where we are stuck in our childhood.
 - ALL Ts SHOULD BE CROSSED AT THE TOP.
 - If you consciously cross the t at the top, you will increase your abilities in leadership
- Most important letter is capital I [eye] - describes how to make a capital I – the way we used to make it and how it is being taught now which reduces people's self-confidence
 - Discusses the difference between using a printed I and a cursive I
 - If you write I Am in lower case, you are minimizing yourself

MR: says none of the children in her family do cursive writing

BB: Cursive writing has been taken out of the schools – being told it's too hard to teach!

- if they don't learn this, they will not be able to read historical documents like the constitution etc
- A teacher in Colorado was teaching cursive writing: the principal and others noticed that the students in her classroom turned out with higher grades & other skills than the bulk of the students;
- After an investigation into what she was teaching, the only difference turned out to be cursive writing - she was told to quit teaching cursive writing or she'd be fired.

AR: her daughter-in-law is teaching cursive writing:

BB: in kindergarten, had 2 lines with the dots in the centre: the area above the dots is the thinking area; the middle area is the emotional area; under the line is the physical area, getting things done – need to learn to write in all areas so there is balance

Capital C – write it without loops – helps you get over criticism

Capital E – take out the loops -

Loop on the top of the E – thinking about someone who did something to you: resentment

The middle loop – holding on to the resentment

The bottom loop – now sitting on it, thinking of how to get even

AR: talks about her grade 1 – her teachers were sticklers for handwriting

VB: Y G J Z – these have loops that go below the lines

Y – be sure and bring the loop right back to the top of the line and over

BB: has a book and a DVD; in the process to get it posted on amazon – will be ready soon.

Bevonne25@yahoo.com

Ask for info on handwriting book

Tara: recalls experience of writing for a teacher who insisted that paper be laid out for right-handed writers and how T got around the issue as she was left handed

BB: often left-handed people write with a bit of a slant – can help others but are introverted in reality

- They make good emergency techs – keep their emotions under tight control
- Discusses the nature of people by the slant of their writing and also the kind of energy associated with every letter. When the letters are written correctly, they bring back the energy to you.

T: how long did it take her to get over the left handed – about 3 years.

VV: an R is how you deal with the mathematics of life!

T: asking about where to place the cross of the T at the top of the line

VV: that is your self-esteem – the slight slant takes you out of fear.

T: speaks of the Vimela alphabet she saw years ago

BB: the first handwriting books appeared in early 17th century

Closing Remarks: Bevonne25@yahoo.com – email her with questions

The letters Capital I, written Cursive; small y, t written with a slant in it;

E-mail is the easiest at the moment

Hard News:

T, R: describe what Jon Stewart is doing on his show – going over the US history and dressing up to do it!

- Going over the history of the US to prepare us for the next evolutionary leap – This is not just a leap in dimensions – IT'S A LEAP INCONSCIOUSNESS AND IT HAS NEVER HAPPENED BEFORE!
 - We will get to find out what it is like to sit on the Solar Council on Saturn and watch what LM Nada does as a member of that Solar Tribunal
- Thom H said today that almost 40% of people in latest poll are indentifying themselves as independents
- Thom the Cat said today that Allison Grimes will wipe the floor with McConnell – he is taking the peoples pensions and putting them into hedge funds, and he has lost about 60% of the pension money and much has gone into his pockets. This is on the head of the Republican governors and blue dog democrats
- Someone asked about the meaning of "Blue dog democrats"
- If we go back to Eisenhower who was a Republican back then; to day he would be considered a liberal democrat – a blue dog democrat is so far centre right but even worse than that because not even the republicans of Eisenhauer's day were that far right!
- Gabby Giffords was identified as a blue dog democrat yet she is liberal compared to what we are talking about now!
- There are **only 64 good members of Congress**: the rest have made a deal in the back rooms & taken a bribe from the lobbyists – have to get money out of politics all the way
 - A group in CA discussed by Thom: they are young people will walk from Los Angeles to Sacramento to tell the current Governor they want money out of politics all the way!!!!
 - It's a state initiative.
- This is what we need now: people to stand up and do something.

T: the **Ed Show last week**: Guests were Karen Finney and Bob McGibbon:

- Like Rachel and Chris, KF has orders from HQ about what can be said or not;
- talks about Laurence O'Donnell who says things are against the rules – T also wonders if the car accident on his holiday was a real accident.
- Karen said some things that are against the rules: they were discussing whether the weather was being influenced by weather modifications; from their own perspectives, they all said yes.
 - She also brought up John Kerry who threatened some people in a country lately;
 - they talked of towns being affected by floods and fires

R: has seen pictures of the Jinn in videos

T: they talked of the **flooding in Serbia**: Belgrade has the Danube and the other river going through the town: houses picked up and moved hundreds of meters and then smashed down.

- A few days of this flood and have found 50 bodies as well as bodies of animals – and this is the place where the US murdered people and there are graves that have not been found: is this about hiding their evidence? Madeleine Albright and Wesley Clark lead that episode in US war history.

R: last week Randi Rhodes played an interview with Ollie North who reports on CNN – still an inter-national war criminal

T: they asked if this weather modification was a war crime? All said yes.

- The incidents that occurred on 9/11 not created by 19 middle eastern men with box cutters! This from Karen.
- Ed said he'd never be on Meet the Press with that liar David Gregory
- Discussion of what Ed's new program was going to be like – won't be on radio any more.

T: talking about criminals: a real difficulty watching things that are being said and that are happening – hard to see this

- In 1979, Obama was to be Z. Brezinski's Manchurian Candidate and knew he would have to take what was thrown at him by the Republicans; in 1968, everything was planned for George Bush who had sex with John Kerry as part of their Skull and Bones rituals; it was decided then that Kerry would run against Bush Jr in 2004 –
 - all of this is a leila to try and change the course of history – from 13,000 years ago out into 250 million years in the future, they destroyed 1/3 fo the galaxy –
 - the 13 families consider Obama the N word and so do others – this whole leila is being taken right out to the pinnacle of looking like the the 4th Reich is in charge – soon to be 12 weeks that the whole economic situation has gone down!
- It's about the fact that the 16,000 on the Stock exchange etc is an absolute lie
- T & R asked some time ago about the last thing that would happen before the switch:
 - **The last thing that will happen will be the media going down** – and Karen F said MSNBC has to get rid of Morning Joe: Joe and Minca, Brezinski's daughter: they cater to the lobbyists and Mitch McConnell who steals pension funds in Kentucky and puts them in the hedge funds.and loses lots and puts the rest in his bank account!

Community Action Alert from the Prosecutor's Office of the International Common Law Court of Justice (ICLCJ)

ICLCJ Public Information Bulletin No. 4

May 14, 2014

Ninth Circle child sacrificial cult members, locations and dates are identified to the Court – Prosecutor issues a call for Special Deputies to stop the Ninth Circle's trafficking and murder of children

Brussels:

As the third session resumes in the Court's historic case into child trafficking and cult murder, the Prosecutor today introduced remarkable new evidence that names the identities of top Ninth Circle cult members.

The same evidence also positively identifies when and where some of the Ninth Circle rituals are being conducted, involving the routine rape, torture and murder of children and newborn babies.

"Senior Ninth Circle members include Jorge Bergoglio and Joseph Ratzinger, so-called popes of the Church of Rome, Archbishop of Canterbury Justin Welby, two British High Court judges, at least one Catholic bishop in Canada, senior government ministers in Belgium and England, and members of the British, Dutch and Belgian royal families" stated a news release from the Prosecutor's Office today.

"The most recent gatherings of the Ninth Circle occurred in the crypt of Caernarfon Castle in Wales, and within a subterranean vault beneath Marie-Reine-du-Monde Roman Catholic cathedral in Montreal, Canada. At least two of the primary defendants were identified at these recent gatherings, where children under five years of age were ritually killed. The next major conclave of the Ninth Circle at the Montreal cathedral, at 1085 Rue de la Cathédrale, is scheduled for August 15, 2014."

In response to this startling evidence, the five Court judges adjourned the trial proceedings today to allow the Prosecutor's Office to issue a call for special deputies to take immediate action to stop the murderous

rituals of the Ninth Circle.

As Kevin Annett, special assistant to the Prosecutor, describes,

“I was awoken after midnight by a call from Brussels, alerting me to the Prosecution’s demand that Special Deputies be immediately sworn and prepared to take direct action to stop the Ninth Circle’s murder of children. So I’ve instructed all thirty nine of our local chartered common law groups to do exactly that. “We want the men and women who are now being trained as our police force to realize that children are dying horribly as we speak. Protecting those children will be the first job of our trained sheriffs. They will be detaining and incarcerating the guilty. And they will be deputizing other men and women to form Direct Action Units to enforce the standing arrest warrants against criminals like Joseph Ratzinger and Elizabeth Windsor. We can only protect our children by tracking down and stopping those who are raping and killing them, starting with the sick monsters known as the Ninth Circle.”

Offers to assist in such direct action against the Ninth Circle have already been received from policemen and politicians in Europe, and local sheriffs and active service marshals and soldiers in America.

Last week, the Court commenced training programs for common law peace officers in thirteen countries. For information how to join the nearest training program and their Direct Action Units, write to itccscentral@gmail.com or phone 386-323-5774 in the United States.

2014, May 28 **Facing a Truth**

Two facts, two distinct situations, parallel, side by side

One, logical and empowering, so relevant right now, as to how you might proceed with your life, it won't allow you to ignore it.

The Second, illogical, irrational, yet never the less, equally magnetic and cosmically relevant to your path.

Normally, Gemini and Mercury, help us come to a conclusion about a thing, based upon the most logical way to proceed, based upon the facts revealed to us. It provides us a confident path forward and brings mental and emotional comfort as if all parts of ourselves were in order and moving together towards our present path. Basically, it feels right.

http://www.youtube.com/watch?list=UUT6FC6hE4BpNbpxfRuPrRQ&feature=player_embedded&v=2ENMfiPmvZc

In this New Moon in Gemini, middle of May, peaking May 28, continuing its influence up to the full moon on June 13 2014, you would think we could now, gain this stability, gain a surge of mental confidence and mental energy because now we know the most perfect path.

But this new Moon is squared by Neptune and as a friend said to me the other day, "it's like our bags are packed, we're ready to go, but the train isn't coming."

This square to Neptune, creates a conflict between logic/facts and emotional irrational spiritual ideals. We are wrestling with two realities at the same time.

(A square, simply presents a contrary thing that doesn't co-exist very well, with the other.)

These two " Facts" now become so blatantly and equally in your face, you can not ignore them, and with the nature of Neptune's influence, could either freeze you, mesmerize you, or seduce you to not care and throw all caution to the wind and yield to the risk of a shaky path ahead.

Maybe denial would be part of the decision... you could yield to the Neptune's force, and deny that it matters. Or become frozen somewhere in between the two.

If you yield you compromise at this time. The Sign Gemini provides this clarity of logic and facts. That's its job. It is present day, here and now time, real time, not future time, or "what if" time. It is impersonal information decision time.

Based on the reality of what you know now, how would you decide?

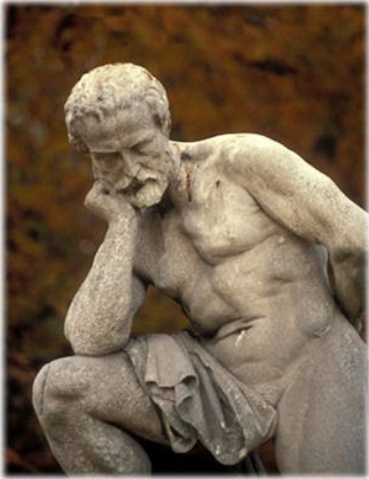

The New Moon is the thrust we need to take action within our mind to help direct our next step....., then our life follows, proceeds according to the new decision, based upon the truth and realities we now have accepted..... in spite of the powerful Neptune square that we are realizing we have to leave behind, at least for a time.

The disbelief or the frustration is the question of should we be waiting for this other side to come out of its diffused and incapable state, is what has us frozen....and why are we waiting for it? Because it could represent something so potentially beautiful and has brought us close to an ideal of what the etheric heaven plane is like. We bought a ticket a while ago, to get on this "train" to a destination that held an ideal, if we could swing it.

Yet, right now, it is not congruent with your *NOW*. *(Neptune is the planet that holds the closest vibration of heaven and the etheric plane of spiritual divine love. It is the planet that holds the potential for the most beautiful ideal and imagery of happiness. We need Neptune to dream beautiful and idyllic things. It releases inspiration, faith, hope, immersion in a magical existence.*

When in a negative aspect such as now, it's negative qualities emerge, such as an ability to sabotage, be dysfunctional, involve addictions, deception, be incapable, irrational and psychologically unstable. Unless faced and dealt with, it sabotages all that has been gained, and that is why when in a square to another planet, the hand is raised, and your posture is, "STOP").

The 3rd part of this stage, is to sit and wait, be patient and focus upon what you do have now, what you can do, and pour your energy into what is in your own power to control and build, nurture and transform yourself.

Jupiter trine Saturn May 21 - June 16 (peaks May 21-May 31)

While Jupiter is still in Cancer, up through July 16 2014, we still have time to nurture and protect an idea that has been important to us since December 2013. Think! What is it you need to shield, put a barrier around it. You have a new outlook now, new information, new perspective that you have been adjusting to. You have acquired a new attitude of protecting and sealing something, anchoring it inside and now it is a strong part of your outlook on your life. Does someone want to share it with you? Move in on it? Partner with you? It's about the thing, the idea and concept, not necessarily, you.

The clarity of Gemini has thoroughly thought through the entire reality of the situation and understands what the next step is, but instead of advancing to the next step, the two distinct magnetically charged situations are in a square and you have to put your bag down, sit down, and process this. Someone is missing, some thing is not able, capable to come along on this train of thought, and its a frozen moment.... frozen emotionally and mentally in moving forward with your next step in life. The other situation that should be merging with you, is in Neptune world, spiritually undergoing a very strange mystical diffusing immersion in love, but is not ready to merge with yours yet. and maybe vice versus.

So in the meantime, keep it simple, take charge of what you do have, and don't move forward until it's right.

It is time to put the last finishing touches upon something in your life you felt was important to have last December up until now. Let it expand and grow, as you are patiently allowing things to settle.

Patience.

Settle your affairs.

Put this potential parallel world-dream in a precious place in your heart, and mark it down as a potential to reach, but now, there is some catching up to do.

Clean up your life, settle your debts, and empower yourself with an uncompromising non splitting environment.

You are consolidating and building your energy.

Say no, more than yes, to situations which would normally require you to stretch yourself too much.

We are still in the theme of the Taurus Solar Eclipse which began in the middle of April, peaking on April 28, 2014, extending its influence through the summer.

The theme for this was to stand your ground regarding what you value, and preserve it, in order to possess

yourself and own your life.

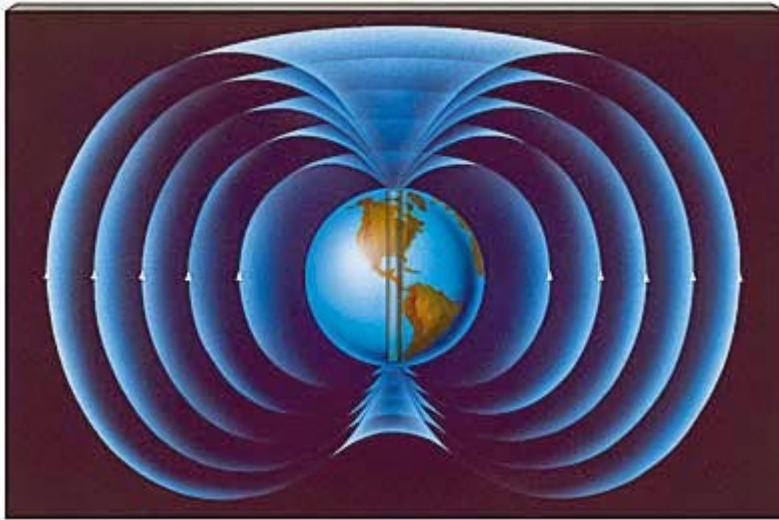

Consolidating your energy is what we need to do now.

Continue to hold fast to your boundaries. Hold fast to your long term vision.....resist being imposed upon. Say no to interference and being talked into anything that would set you back, or require too much sacrifice. (The time for sacrificing will be here soon enough).

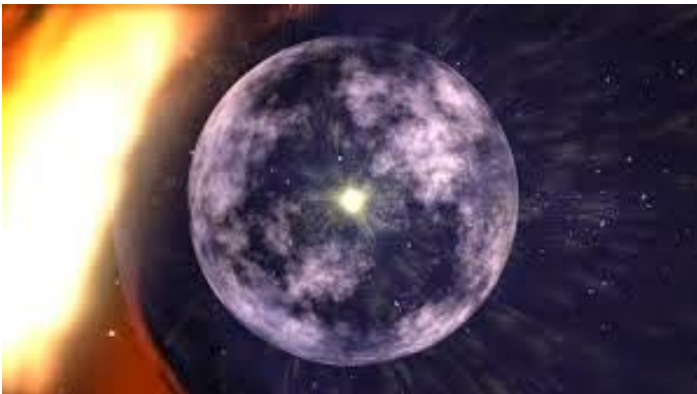

Neptune square the New Moon is about knowing what you want but realizing the logistics of it working out at this time, is close to zero.

Instead, see yourself sealed in your own auric Magnetosphere.

As the earth is encased in its own magnetosphere,

So is your own aura. As the Sun projects outwards its Heliosphere, so do we.

Your own aura is protecting you, generated from an electrical magnetic power from within the center of your being, your heart.

The next stage or step isn't happening right now, because our shields could be down. *We must rebuild the shields.*

The release of powers under the sign of Gemini longing for the polarities, the mingling of two opposites is what runs the galaxies, Suns, Stars, everything. It is natural to magnetically desire to merge two things, two Ideas, merge ourselves with an ideal, reach up for a vision and merge it within ourselves until we become bigger, greater and more than we were yesterday. It is the act of creation. It is natural for us to magnetically mourn for that polarity which contains the seeds of the new universe we were assigned to create.

It's all about CREATION. THE LONGING for the pair, the dual nature combined to release a new energy, idea, birth of something greater than before.

Everything has duality, polarity a positive and negative polarization.

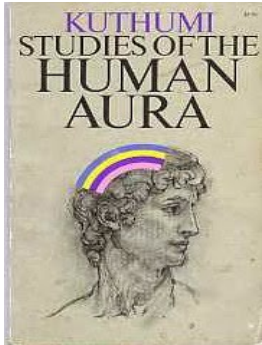

it spins, swirls and twines around each other in order to increase electrical energy and its' impact upon the world around it, but the Neptune squaring the New Moon is warning us of a possible weakness in our world that if ignorantly pursued, would lead to a possible setback that would weaken our creation.

You have already made so much progress. Look at that progress and acknowledge it. Protect it and think

about what could sabotage it.

It is time to increase our bubble of protection, our sphere we live within. We need it to be strong, uncompromising and powerful now. Today is May 21. We can concentrate upon this idea of increasing the light within our own world and aura, up through the date of June 13, the Full Moon in Sagittarius. But, why not make it a regular consideration in our daily lives? I found this book in 1979, after a moment's pause, similar to now.

In that moment's pause, stopped at a red light, frozen with two paths before me, I made the decision to walk into that bookstore across the street and choose my path to one of empowering my inner world, and let the other rest.

I had to pause and wait for a new train to come...and my bags were packed and ready to go. I am so glad I paused. It gave me just what I needed to continue the journey, stronger than before.

Don't give up hope for the integration of these two ideas, two beautiful worlds you desire to merge into one, or where you are now, and what you hope you can have in your life.

Right now, we need to expand ourselves inside.

It's time to pull in, and build the inner mastery, take command of what you do have, and the rest will come soon.
