### Hard News:

**R:** everyone is talking of the message of hope which is showing up through We The People

- yesterday, talked to reams of people: all talking of bigger story and the mass arrests that at any time, the stroke has been struck and the wild shaman person sitting by Ben Fulford, the ninja master, has given the word to his Ninja army:
- the 2 gangsters who used to own the Hong Kong skyline are the first to go [Kwok bros.]
- has to do with all the banks that are going down: will have to switch and break up the big banks and a lot of people will lose a lot
- St G has said give it all away
- KOS and others are saying: this moment is so significant - lots of movements going on across this local universe - the message of hope - we are really in 2013 going into 2014, and that part of story will get told soon enough; it's related to Aboriginal Moabite nation
- Trayvon Martin story bringing up all the stories: the racial attitudes in this country

He grew up in an integrated family: Trayvon could have been his brother - or Tara's son

- big piece has to do with Koch Bros
- : Mike Papantonio's Ring of Fire: Guests - Robert Greenwald , Robert Kennedy Jr
  - 29 miners to this day - no accountability
  - Gulf disaster - still no accountability here
  - mountain top mining - Kennedy working on this project: he has a plan - go to his website and find out what the plan is - rumours that RK Jr might be a contender for VP
- Uncle Joe Biden did a good interview tonight on Ed's show
- R**: has to talk to folks about Carolyn Kennedy as Sec of State: Hillary told her she could not have that Senate seat or she would be gone
  - ALEC, the Koch Bros - all that has to do with stand your ground law:
  - Mike P had Valerie Plame, Edmonds Joe Wilson on, asking - why are Bush and others still walking free? And making speeches as if all were normal?
- R keeps hearing on inner levels: has been walking the woods around here talking to elves, fairies, hobbits,
  - the awakening is so enormous; has to do with sending them love in spite of the crimes against humanity: the proper authorities will be taking them into custody at any moment
- As you watch on larger scale: in the moment now, the story of Trayvon is the crack that brings up all the unlawful things happening due to NRA: death penalty needs to be abolished;
  - we are in a path forward where this man got a Nobel peace prize for talking about no nukes
  - Today Valerie Plame, Queen Noor talking about no nukes
  - Ref to N Korea's missile - how much did it cost? How many people went hungry?  
Millions of dollars - they were to get food, but won't now
- **Syria** - peace held for a whole day - no reporters being allowed into Syria at all; 12 people died
- **Sudan**, N & S; Bahrain - situation there is due to US being n bed with the Saudis so what is going on is due to
- In spite of what is going on, it was still a good thing today, listening to the hobbits

**Syria**: Hillary still funding Al Assad; it's the reason that Putin, China are waiting for her to be arrested

**R** heard something on radio today: victor ?? was on RT interview: he was asking for the people of NYC to put together a letter to defend him

**T**: He got only 25 years and not life; if it was pushed further, the criminals behind him would have to be called up for arrest, as well

**R**: through the skunk works, Victor is going to drop the dime on Hillary - he sold nuclear weapons

- heard that Koch Bros will be picked up along with the rest of them!
- there are more and more sightings

**Caller**: what is significance of April 21 - 22?

**T / R**: New Moon and Earth Day; also on bigger scale, has to do with large scale arrests & picking folks up

- 2<sup>nd</sup> anniversary of Gulf - April 20<sup>th</sup> was the date

**Caller**: so honoured to be here and see this

**R**: Mike P spoke of BP and Trans Ocean - 11 people died, none held accountable

- Mike P, RK Jr - mountain top mining destroys black bears & brown bears - they get buried alive

**Angelsu**: understands there's a 10 mile shimmer in the Gulf between 2 oil wells

**T**: need some kind of disclosure; wants to hear something from Mother; March/12 was hottest on earth

**R**: earth will have her mantle back; the xenon gas will be restored in the atmosphere; people will have their abilities back; we have not yet been taught about the hyper dimensional physics of this world

**T:** as a society, there has to be a safety net: being our brothers & sisters keepers - not part of Republican party thinking; this concept has been moved a lot since Trayvon's murder

- also from story of a man's killing 2 months ago

**R:** 207<sup>th</sup> day of Occupy - things happening around the planet - May 1<sup>st</sup> - there will be a general strike

**T:** Texas has some communities that have no water!

**Guest: Dannion Brinkley**

When MR asked him what he would like to talk about, he responded:

- How beautiful, wonderful, sweet, kind you are; how much he appreciates being on the show
- that people realize they are here for ever: a part of them is eternal and connected to whole universe
- If we were to define ourselves tonight, what would we say?
  - we are made up of atoms, molecules, cell - atoms are 94% empty space, take out the empty space
  - Molecules are 93% empty space - let's take out the empty space
  - Cell - 97% empty space - let's take out the empty space
  - would mean the 307 Million people of US would fit in a match box!
- So really think about who we are - the physical part and the spiritual part
  
- there is dark matter, and all is truly connected in the dark matter  
the CERN in Switzerland - to create the Boggs
- As we celebrate the change from 25, 800 year cycle to the next one
- we are great mighty spiritual beings; every thought and intention we have communicates with those in others - this is truth - where science and spirituality meet
- it's about changing the situation we find ourselves in - moving  
this show is live, made possible by the listeners

**MR:** we have an opportunity to do things in a new way as things shift

**DB:** he's a big Mayan fan because of their cosmology - the next 51 years is about matriarchal power - women will be in power - we must seize this time to be expressive about war, and child issues - 1 in 88 kids born has autism or Aspergers -

- From the patriarchal - men have affected banking, gov't, education, and so on negatively

**MR:** how do we do this?

**DB:** it is each feminist's position, as these energies move, they are awakening an awareness in the female of the power she has, so women must hold on to femininity

- women spend too much time waiting for someone else to appreciate them, instead of finding the points in themselves to appreciate
  - most of us take for granted what women do - write down what she appreciates about herself without waiting for someone else's opinion
- Everything is about love - we give and we don't place a value on our love before we give it
- we have never placed a spiritual value on what we are giving
- do not allow ourselves to be lessened by any other's thought pattern
- he reviewed some things in the bible, as wanted to see how women are depicted there - it's a psychological serendipity
  - feminine must demand equality, not by edict
  - amazed that men think they have a right to tell women what to do
  - hopes feminine finds way to demand a way to be honoured

**MR:** fundamental Xian belief system is that man is head of household - how to move beyond this?

**DB:** the family unit is what matters: the latest ratios show that women are soon to become the major

income producers / providers for the family unit

- mankind has never truly given the feminine equal power, but behind every great man is a woman kicking him in the back side [said from experience!]
- According to Mayan prophecies, this will happen whether we like it or not; if man is to become head of family, he has to ??
- He is on a kick about feminine power - an ex-Marine - sees the damages of the wars in last of WW II, Viet Nam, Iraq & Afghanistan - women would not send their children to war

**MR:** historically, those who have the money start the wars, make money on both sides - maybe the power centres have to change?

**DB:** electing women in seats of political power: feminine is equal in proportion

- has done a study of women in power: they bring a kind of balance
  - voting for war: interesting re'ship between men and women
- Also need dialogues - ladies, seize the day
- when you look at the 1%, and those who make policies - we can make a diff as we take part

**MR:** people want to hear of your experiences on the other side

**DB:** Has 2 points

1. the so-called death process: no one ever dies! So when you look at fact that death does not occur, what is the #1 cause of death in US? Birth! If you're breathin', you're livin'

- in 1975, struck by lightning; dead for 28 minutes, unable to move for some time
- Had an NDE in the lightening strike; had no name at the time - he was just a redneck jerk in South Carolina - not afraid of anything
- You lift out of your body and it feels safe; you watch the drama
- when they put his body in the ambulance, decided to go with it -
  - he heard a series of chimes that had a sense of security -
  - he saw a being of radiance; as it moved close to him, he did not recognize it but only the sense and being of it.
  - It was there to help him acclimate - sensed it was his true home - we are not from here
  - then the being started: what is the meaning of this life? to be co-creators
- We were chosen to be heroes and courageous and to come here - and in this life, to be compassionate -
- he watched the panorama go by - you'll be amazed to realize how much you limited yourself to be a spiritual being as a human - you chose it.
- Then you watch it as a 2<sup>nd</sup> person point of view - get a chance to see how close to answers you were
- then you get to be every other person in every incident - the most amazing thing he knew then he chose to be a hospice volunteer to help others when they pass
- About Judgement: when you watch your life go past in the 3 parts, you judge you: if god couldn't come today, what difference did that make? Our life is to provide compassion,
- Very few people think about their value, their contribution

2. you are not going to die - if you do stuff out of fear or condemnation - you do it out of reward - it's about the little things - hello, 25 minutes you sit with someone, to stop long enough to listen so everyone has time to be heard.

**MR:** going through lots of introspection at the moment- remembered when she wanted to go back into the delivery room after her daughter was born to see that bright light

- Her son has left last Sunday, very unexpectedly - Bruce

**DB:** 7 - 10 days before he passed, what was the conversation? Do you remember the conversation you had?

**MR:** she was told that he had just remarried 2 years ago about her brother

She was shown that the former daughter-in-law was present and helping the family

**DB:** within 7-10 days before it happens, the sense of good bye is there - when you think back to conversation, they would have brought up a conversation that he was ready to go.

- He is happy for him; how is wife handling this?

**MR:** Not very well - very fundamental in their belief system - his first wife has been at the house, cleaned the house - all kinds of unconditional love

- last Sunday, having family Easter - Bruce, current wife, past wife all together
- past wife is also guided - she has had an inner session that has opened her heart even wider, and the spiritual knowledge of who he is has grown. IF have a fundamentalist frame of reference, tend to look at things with anger or self-pity; the ex-wife has had guidance

**MR:** a wondrous experience all week watching the interactions -

**DB:** he made great strides lately; he completed what he came to learn or to teach [DB]

- please remember this: we have bereavement, then grief
- then in 2<sup>nd</sup> week after 1<sup>st</sup> month, all of a sudden it just comes back as it happens - a natural thing!
- He's had 3 experiences himself, plus all the ones he helped

**MR:** the goodbyes were in place, the timing was so specific

- her family was altogether; after lunch, the guys were playing basketball as they always did
- it happened in front of everyone

**DB:** by choosing that moment, his choice to go at that time will give a lesson to all the rest of the family

**MR:** what is your Brigade?

**DB:** as he took his dad to the VA, he would walk around the hospital - found the AIDS ward and it was completely depressed - he was a hospice volunteer for 28 years - the Twilight Brigade, an intense weekend of training - largest program for end of life veterans in US

- No matter what happened, the sooner we learn about the process, the sooner we can help
- Losing between 65 - 75,000 vets every 30 days! And will stay around this number for next 7 yrs
- They are really informed in what is happening in end of life care
- This can be learned and not have to have 2 major heart surgeries, grand mal seizure, hit by lightning - his book will be ready in September or October - not sure
- He's experienced enormous pain etc - bases all on gratitude -

**appreciate yourselves: jot down what you did for yourself**

**Cathy:** saying how Dannon has changed in his presentation; sharing about the woman

**MR:** last time he was here, was on Oct 6, her son's birthday! And now he's back when Bruce passed

**DB:** you will be visited; he senses his presence [MR has already talked to him today] - he is astounded about diff between his idea of heaven and what heaven is like

**MR:** grandkids call her Grandma Rita

**DB:** is there a table of some kind - like it once had 3 objects on it, and now none; where he used to get into trouble?

**MR:** was active, a bit mischievous, always needed to be with people

**DB:** he uses the space near this table; that's his way back between frequencies

**MR:** almost as soon as he left, she heard he'd be back when his 1<sup>st</sup> grandson comes

**BD:** means he will have a presence

**MR:** when daughter left, several said she will be back very soon -

**DB:** when on the other side, so multi-faceted - you come and you stay; after 5, you lose that connection - by the time you're 6 or 7, the hormones start - begin to live in outer world

**MR:** was with husband and daughter when they made their transitions - many blessings

**DB:** asked where she is located - he wanted to know if he'd be close to her - he's coming to Indianapolis soon, will put her on the schedule

**MR:** wants to tell him about a young man who wants to help vets: go to Dannion.com

**DB:** tell at least 4 of your friends about the Roundtable and grow numbers so the feminine power grows

- that he loves all - read the books; they help him support the book
- thank you for being brave and stepping into this world and people can come and share - he loves the ladies and all the listeners

### **Mother:**

Greetings in the light of the most Radiant one, in the Office of the Christ and only in the Office of the Christ!

**T:** Thank you Mother for what you will share tonight, infinite wisdom, infinite understanding

### **Greetings, Children of Ra:**

- the hour of the arrival, most auspicious - there are many paws afoot concerning the affairs and destiny of your planet, in conjunction with the rest of the galactic 'hood, where you don't have to wear a hoodie
- What is the story about this? **520+ years of people's history has been erased**, and is coming back and is story of why North & South Sudan - Mother Zudiachus has arrived; the goddess has arrived, the women taking the power - She who was here before the gods were here -
  - has to do with the story of our children; right now you have my grandson in front of you - the war on women - Lucifera is good at separating the mind and the heart.
- Pay no attention to the man behind the curtain who is only a closet full of skeletons [Magic Mittens and his Magic underwear] and the corporations etc and "have I got a deal for you!"
- The story is **I am Trayvon Martin**; a man showed up in court today - what has occurred since the morning of 9/11 and these souls wish to come back, they can if they wish and tell their stories and sing their songs
- Your friend Dannion knows about walking with death on your shoulder: breathing the air and so on - at the moment nothing much different between what she saw in the Red Dog Saloon millions of years ago on Sirius, and a small town called Sanford, FL
- **I am black, I am proud of it** - this is the issue, the sooner it is healed, the sooner we can land.
- There are a few small other issues: Newt, brinkmanship games; Mother Russia amassing troops on Iranian border, yet it is just a hologram, a day in the life of the MWG
  - as you would see it in that reality, you have compassion in every single second for what is happening in Darfur, Ramallah, Homs, Sanford, FL . . .
- If I have blue skin and I come into the bar, will you throw me out or buy me a beer? What is it? The fact that I might look a little different - No different from Trayvon Martin with black skin or George Zimmerman - only knows that the seeds of tyranny and Treachery being played.
- Watch what is happening with the stories of last 2-3 weeks, in terms of how arrests, mass arrests and what comes forth as distractions that are being interloped with the story of "stand your ground" laws & issues at hand
  - the man sitting in the Oval Office walked into a cataclysm when the village idiot was leaving
- it is only about our children asking for love - yet how they ask for love
  - we are all part of this fantastic story which has to do with love and how this is being brought full circle as we asked to co-create together
  - we'll teach about never dying, never growing old, not getting sick - the temple of the living god

has the power to create universes

**T:** so in this lifetimes we are going beyond the concepts of getting old, dying - leaving

**Mo:** this is not about death, but about your ascension

**T:** Dannion Brinkley was also saying if you're born, you'll die

**Mo:** no more Samsara: this is about Sat Yuga, where sorrow is optional. - do not have to go there

Yet what we are experiencing each day with Samsara and how we live, move and have our being in the mindset of these stories that are so monumental each day

- Did you know you are experiencing eons and eons of time in each day - 24 hours is now 12 hours, and in those 12 hours, we get done millions and millions of manifestations.
- It is the moment now where what we have been waiting for is coming about. As you have asked to ascend, it is occurring and **it is about being love now**, no matter what happens around you

**T:** what about the transformation of the body without death is an illusion of the idea of taking one garment off for another. It's about this the temple of the living god, and as you raise your frequency, you become the merkaba of living light and living love!

**Mo:** It looks like the best orgasm

- We don't have to exit this form; we can transmute it without death in this life.

**Mo:** Yes, it is that when we receive that Shaktipat, every cell lights up and you are radiant like the sun and we feel it and we want More! I want what she had - no words other than to say, as you ask, so it is given, it is done.

- **No, don't have to leave these bodies;** take them with you - you are becoming a shining sun -
- we are going from carbon based molecule to silica based particles to photonic particles -
- we have CERN where trying scientists are trying to create the Boson particle; as Mother and Alcyone come together, it is not about friction, it is about love:the sparks that fly create universes that cannot be created in a lab, created in the heart of All That Is

**Cathy:** talking about making the transition from physical body, becoming more crystalline, and we will be lighter & more ethereal and can take on any features we choose, yes?

**Mo:** you will be translucent like a crystal - like looking through a window

**T:** won't take much longer for this change to occur

**Caller:** just heard that North Korean rocket crashed!

**Mo:** a giant firecracker!

**T:** Rama told her that the son has cancer! Is he not aware of it?

**Mo:** He knows, but the info is being kept from public

**Caller:** sounds cool that our bodies are going to change!

news that NASA has released info about the Viking probe they found from 1976

**T:** were you talking about going to Mars through jump chair?

**Caller:** No - news item about finding the Viking probe

**Mo:** on Dylan Ratigan today- did find life on Mars, but covered it up

- There is teeming life on Mars; they put a red filter on it, yet it has a blue atmosphere like earth
- there are many cities on Mars, inside
- on outside, see remnants of the ancient wars Wars of the different factions & from before that
- Mr Obama saw a lot on Mars when he went there

**Caller:** is this the first information that is coming out about there being life there?

**Mo:** yes, Mars has water; there are hurricanes that go miles high into the sky - make those on earth look

like a puff of smoke

**Caller:** even if you had blue skin, I would buy you a beer!

**Mo:** Indeed! Thank you! We like Killans Irish Red, thank you!

**Cathy:** a bad kitty cat!

**Cathy:** what's going on with the media? When we start to hear real truth consistently - what is the tactical conversation in the background?

**Mo:** what you speak of is already beginning - about accountability and justice in Trayvon's case

- Zimmerman was the aggressor - this is the facts
- it's about a larger story about hate crimes, of the atmosphere going on on this planet as the so-called campaign goes on for the seat of power: how many dollars can be spent when so many are dying in Gaza and main street, USA? And nobody is talking about THAT unseen war! The Senators, the Congressmen's children - if there was a draft you'd see a different story; since there has not been a draft since Viet Nam, you see the games which have been played. Now this is coming full circle and we shall study war no more
- There are funny laws on the books: one for Lucifer, one for IRS. Lucifer gets paid first, then IRS, and middle man gets left out; it is about the game which has played for so long . . . how many . . . they care not for your DNA and that is why we are here - soon media will tell the truth

**Cathy:** there is still war, lots of death - it's lessening; how many men left there?

**Mo:** 60 - 70, 000 in Iraq, and a few 100, 000 Afghanistan

- As Valerie Plame has asked - why have we not tried our war criminals for their crimes?
- there is discontent in Congress and there will be a great house keeping like we haven't seen for years!
- We see our children wasting away in puddles of blood in each day, and this small rebel band of life forms that are not worth spit are ruling this planet . . . and we must love them even more, which sounds crazy
- and it is the crazy logic as Don Juan calls it - take a walk on the wild side, where death is walking with you all the time, it is your friend, your companion
- As we end this samsara wheel, it only takes one and the Sirian commander is saying there is a higher love here, and how about starting with no nukes, and respecting each other

**Cathy:** reading a lot about how dark hats are vying for lesser sentence; what are they trying to do? How do those negotiations go?

**Mo:** talking about flea bargaining - like the story of the devil and Daniel Webster

- as Mike P has said about case of Zimmerman - it is possible that flea bargaining going on 24/7
- he did not ask for bail, there are folks who would like to end it - we want a higher love
- As the 13 families are dickering and trying to negotiate a deal with the devil and turn states evidence on each other; this was offered to the various members, it seems as though what is being said is that things have already been set into process, so moving forward cannot stop this train
- As all the frequencies line up with our yanni, 27 degrees Sag in centre of MWG - these ones are begging for a lesser charge, though it's not about forgiveness or remorse - you might say a miraculous event is occurring as there are spontaneous things going on amongst us -
  - we are being introduced to galactic brothers and sisters - can see our little gray friends playing on the beach and playing volley ball
  - it is about integrating realities, not just about the gray people, but every one of them, Pleiadian

& all the rest, and the humans and all of us are as equal as the one of us

- the moment that is being asked of the universe for the earth: do this with love for each one of your families even though Uncle Joe Biden did 9/11 and killed 75,000 people

T: In Syria will things settle down? **Yes**

T: Is the arrest of Hillary going to happen - being discussed behind the curtain with Kofi Annan, St Germain and Sananda

T: Mr Assad?

**Mo:** He will be hung out to dry; another story like D. Strauss-Khan who runs round hotels naked and scares the girls; it is about the torturous pain in the heart: I just want to be loved but I don't know how to love myself, so maybe I will lie down on the floor in the fetal position and scream until I die

- so go ahead and die, for in dying, we have eternal love
- they are begging for community amnesty, yet what is the best medicine here is they need to go through the 27 degree alignment to the void and become new universes [ie, second death]

**Closing:** **Cathy**

- Love MR's coincidences: that the last time Dannion Brinkley was on the program was on Bruce's birthday last year, and this year he comes on the week that Bruce chose to leave the planet
  - We all get to see them!
- thank you for your gifts, everyone, thank you for joining us.

## **Higgs boson** **From Wikipedia, the free encyclopedia**

The **Higgs boson** is a hypothetical [elementary particle](#) predicted by the [Standard Model](#) (SM) of [particle physics](#). It belongs to a class of [subatomic particles](#) known as [bosons](#), characterized by an integer value of their [spin quantum number](#). The [Higgs field](#) is a [quantum field](#) with a non-zero value that fills all of space, and explains why fundamental particles such as [quarks](#) and [electrons](#) have [mass](#). The Higgs boson is an excitation of the Higgs field above its ground state.

The existence of the Higgs boson is predicted by the Standard Model to explain how [spontaneous breaking of electroweak symmetry](#) (the [Higgs mechanism](#)) takes place in nature, which in turn explains why other elementary particles have mass. [\[Note 1\]](#) Its discovery would further validate the Standard Model as essentially correct, as it is the only elementary particle predicted by the Standard Model that has not yet been observed in [particle physics experiments](#).[\[2\]](#) The Standard Model completely fixes the properties of the Higgs boson, except for its mass. It is expected to have no [spin](#) and no [electric](#) or [color](#) charge, and it interacts with other particles through [weak interaction](#) and [Yukawa interactions](#). Alternative sources of the Higgs mechanism that do not need the Higgs boson are also possible and would be considered if the existence of the Higgs boson were ruled out. They are known as [Higgsless models](#).

Experiments to determine whether the Higgs boson exists are currently being performed using the [Large Hadron Collider](#) (LHC) at [CERN](#), and were performed at [Fermilab's Tevatron](#) until its closure in late 2011. Mathematical consistency of the Standard Model requires that any mechanism capable of generating the masses of elementary particles become visible at energies above 1.4 [TeV](#);[\[3\]](#) therefore, the LHC (designed to collide two 7-TeV proton beams) is expected to be able to answer the question of whether or not the Higgs boson actually exists.[\[4\]](#) In December 2011, Fabiola Gianotti and Guido Tonelli, spokespersons of the two main experiments at the LHC ([ATLAS](#) and [CMS](#)) both reported independently that their data hints at a possibility the Higgs may exist with a mass around 125 [GeV/c<sup>2</sup>](#) (about 133 proton masses, on the order of 10<sup>-25</sup> kg). They also reported that the original range under investigation has been narrowed down considerably and that a mass outside approximately 115–130 [GeV/c<sup>2</sup>](#) is almost ruled out.[\[5\]](#) No conclusive answer yet exists, although it is expected that the LHC will provide sufficient data by the end of 2012 for a definite answer.[\[1\]\[6\]\[7\]\[8\]](#)

**In the popular media, the particle is sometimes referred to as the God particle, a title generally disliked by the scientific community as media [hyperbole](#) that misleads readers.[\[9\]](#)**
