Norman and Oriane Rousseau were one more couple pushed by a huge, greedy bank to the brink of homelessness. On Sunday, desperate and with nowhere to go, Norman Rousseau shot himself.

This is the story of what happens when an average couple is up against a giant, wealthy, powerful bank. Unfortunately the result is what the result always is when people are on their own against the wealthy and powerful: the bank ends up with all of their money, takes their house to sell and throws them out onto the street. In this case the bank is Wells Fargo.

The quick version of this terrible story is that Norman and Oriane Rousseau of Newbury Park, California were scammed into a predatory mortgage. But they made their payments anyway, always paying with a cashier's check in person at the same branch. Then one day the bank misapplied their payment and said they still owed the money. This started a long, nasty process that led to the bank evicting the Rousseaus from their home.

Here's the shocker: right at the start the Rousseaus came up with proof that the bank had received the payment and had cashed the check. But the bank continued to claim it had missed the payment, gave the Rousseaus the runaround, started applying fees, and used it as an excuse to foreclose on the house anyway.

The Rousseaus fought back, the bank dragged it out for so long and pulled so many tricks, getting its way every step of the process, until this last Sunday Norman Rousseau finally gave up and shot himself in despair – two days before the scheduled eviction, Tuesday, May 15. (The Rousseau's lawyer just said he was able to win a 2-week delay.)

It is a tragic story, but when you dig into the details it becomes much worse.

See for yourself. [The court case filed by the Rousseaus](#) puts on the record the facts as they state them. The complaint reads as one more story like so many others that we have been hearing about the abuses by banks and banksters and the tricks they pulled on people. Never mind the big "[National Mortgage Settlement](#)" – this story shows that the abuses are still going on, with the same tragic consequences.

The following describes the facts in the lawsuit filed in [Norman Rousseau and Oriane Rousseau vs. Wells Fargo Bank](#) in the Superior Court of California, County of Ventura.

In March 2000, Norman and Oriane Rousseau put 30 percent down to buy a house at 580 [Wilshire Place, Newbury Park, CA](#). In the following years they were solicited to refinance their loan. In October 2007 they met with the loan officer and "stated that they were only interested in obtaining a conventional 30-year, fixed-rate loan, and explained their desire to have consistent payments over the life of the loan."

They were "assured ... that they could significantly reduce their monthly payments, by more than \$600 per month, with a lower interest refinance loan." The bank assured them that the Payment Option ARM was "the new industry standard" that had "historically low rates that were continuing to decrease" and in "the worst case scenario [they were] assured that historical data for the index indicated that changes in interest rate were slight, and if an increase should

occur it would have a negligible effect on their monthly payments of no more than a few dollars.”

They should “expect to refinance within the next two years to take advantage of even more favorable interest rates and as the steadily rising housing values increased the amount their equity in the property.”

There were lots of assurances, smiles, don’t worry, we’re taking care of you, etc.

In May 2009 the bank claimed the couple had missed their April payment. They proved they had made a payment in person at the bank, using a cashier’s check and that the check had been cashed by the bank. The bank then claimed they had ordered a stop payment on the check, even though a cashier’s check payment cannot be stopped.

The runaround began. The bank began harassing them for payment, sometimes as many as six-eight calls per day, sometimes even late at night. On August 3, 2009 the bank claimed the Rousseaus hadn’t paid June or July’s payments either, demanding \$3,406.50. But then on August 8 the bank assured them they were current on payments. Then the bank again claimed it had not been paid and that the bank had been trying to contact them without success, and that they now owed \$3,478,25.

The Rousseaus hired a lawyer. From the lawyer the Rousseaus learned that the loan they received was not the loan they were promised, including, “the 7.2% interest rate for the ... loan was actually higher than the 2006 loan and greater than the 6.8% quoted,” had enormous fees, and the bank had increased the income the Rousseau had stated, from \$76,000 to \$136,800.

In other words, the lender had scammed them to get those fees, which was a widespread practice at the time.

This continues, with the bank scamming, lying, obfuscating, ignoring, contradicting, even producing signatures it claimed were the Rousseau’s but were not, every step of the way. And, of course, adding late fees to the amount it claimed was due.

In September the bank stopped accepting payments at the branch, saying checks had to be mailed. About the same time the Rousseaus applied for a loan modification. They were told they were accepted for review in the loan modification program, were told the “pre-foreclosure” notices were “routine” and not to worry about them. Their lawyers were handling getting documents to the bank, the bank kept claiming it never received them, etc.

On and on this went, with the bank telling them they were in the loan modification program while demanding money then refusing to accept money and demanding documents while saying it had received them, and all the while proceeding with foreclosure notices. Then they were told they were denied their loan modification, went through a process to reinstate the loan, back and forth, late fees, loan fees, unspecified additional fees, more fees, then some fees, then some non-payment fees, and then given ONE HOUR to send payments to TEXAS and it goes on and on.

Read [the court case the Rousseaus filed](#). It’s all there, and is even worse than this summary.

This is a story of what happens when, as Senator Dick Durbin [said of the Senate](#) during the effort to pass legislation to get the banks under control, “Frankly they own the place.”

This last Sunday the bankers claimed one more victim. Norman Rousseau shot himself at 10 in the morning. Oriane Rousseau doesn’t even have the money to bury her husband, she is looking to the VA for help. ## The Initiation of Monadic Absorption

[Mp3 Audio Narrative](#)

[You Tube Video](#)

- Commencement of the Initiation of Monadic Absorption
- Transcending "Personality Love"
- Transcending Sexual Desire and Control Patterns
- Transmuting the Distorted Sexual Imprint
- Transcending Gender Identification

Through the influence of these celestial alignments, monadic level energy will catalyze an instant evolution of consciousness in the spiritually awakened... to spawn a quantum leap of the entire four-body system in a potential quickening that far surpasses any initiatory process ever experienced in the history of human evolution on Earth.

We are being swiftly prepared for the ultimate transfiguration into our I AM Avatar blueprint of androgynous perfection. This is the state in which our inner male and female polarities are completely balanced and we walk not identified as a man or a woman, but from a greatly expanded DNA expression as our mighty I AM Presence, our God Self of the Light.

We are revealing in a completely new way of relating in which each person operates as a sovereign entity, fully balanced and centered from within. This attitude of conscious living serves as a precursor to the emergence of sacred relating with any and all others who are also operating from this high level attunement.

### The Ascension Process

*(a simple review to understand our next collective initiation!)*

The journey of ascension is simply... a return to our origin. At our particular level of human evolution, we are making transition into a multi-dimensional consciousness perception. To do this, we must reconcile spirit and matter in this third dimensional reality by increasing our vibration and raising our internal fire energy known as the kundalini force.

For those of us who are remaining in service to the planet, the ascension is a process of initiation in which our focus is placed upon the merging of our individualized human personality body with our soul vehicle and then with our Monad to become one unified being here on Earth.

It is to remember that we are a tiny humanized aspect of our greater God Self. This God Self is that which is referred to as the Monad, or, the mighty I AM Presence. This magnificent divine aspect of our human self has created the so-called Oversoul, which is essentially the Soul family to which our individual Soul belongs. Our individual Soul is that part of our self that reincarnates over and over again in order to evolve and ultimately return to the monadic source.

Our Monad contains many Souls. Our human personality and our soul are individualized aspects of a group of souls and even a group of Monads which are all ascending. This is why we are constantly referring to the Group Avatar, the Group I AM. We are all aspects of each other coming back into a grand merge with each other... as one greater being.

The mighty I AM Presence is, in truth, a God Self containing ALL of us, as aspects of itself.

It is not just us, our individual consciousness that ascends, but all of the souls and oversouls that make up our Monad. To make real progress, we must get our entire oversoul and monadic family working within the same resonant frequencies. All soul extensions that we are connected to must also become clear, integrated and unified from the greater purpose of the I AM Presence.

*This is why we must help as many people as possible in our personal sphere of influence!*

Commencement of...  
**The Initiation of Monadic Absorption**

Through our direct experiences, we have learned that in order to expand into multi-dimensional blueprinting, we are required to let go of all emotional and mental attachments of the material world including fame, fortune, power, selfishness, people, family, self image, reputation, linear concepts, belief systems, etc..

The collective initiation endured by many Planetary Light Servers throughout 2011 and these early months of 2012 has related to the release of material plane attachment and self identification as directed by free will and the desires of the controlling ego.

As we accomplish this rather challenging process to completely surrender the personality body, we advance to the next stage of accelerated ascension. The initiation now being presented to the collective Light Server grouping actually commences the merger with our group Monad, that aspect of our Greater Self which is the Group I AM Presence of our individualized human aspect.

*This initiation is somewhat similar to the process of soul merge only it is the beginning stages of "monadic absorption" and is experienced by those with high levels of embodied and stabilized light quotient. These are the ones serving as Path Cutters and eventually everyone will follow.*

*This is the phase when direct contact is actualized between the Monad (I AM Presence) and the surrendered personality body. The gap in consciousness between spirit and matter is bridged by a well developed Antahkarana. The personality becomes a direct instrument of service under the direction of the Monad, which by-passes the soul. The soul then becomes redundant and is absorbed within the Monad.*

Once we are in the absorption process by the Monad which sent us forth, we begin expressing more prominently the monadic ray of that Source itself.

*This leads us into our final initiation of earth plane human ascension as we completely return to the Monad and merge with the Group I AM while retaining a physical "light body" form. This is the attainment of 5th dimensional consciousness which is characterized by the experience of oneness. This is potentially what will occur at years end for some or soon thereafter for many more.*

### **Transcending "Personality Love"**

To propel this next initiation into high momentum and through these celestial alignments in May-June, 2012, we are greatly supported by the surging forces of incomprehensible Love from the Galactic Center.  
{This is why the alignment of . . . is so important.}

These omnipotent cohesive forces are spawning transformative process of the desire nature, or, conditional love from the personality nature, linking us up with the greater magnetism of the love aspect on the buddhic plane, the plane of unity consciousness.

## **The Law of Magnetic Control**

The Universal Law of Magnetic Control will begin to take greater effect in more of the Planetary Light Servers, those of us who are now advancing with a greater percentage of bodily light quotient.

As one of the main laws of our solar system, the Law of Magnetic Control operates from the buddhic plane of unity as it consumes and crystallizes the static human condition. Full control of the personality body is overtaken by the Monad via the egoic vehicle.

In our advancement to a fifth dimensional existence, the egoic vehicle still remains in the human form, however, in a transcended state, unified with its Source. The lower human aspect serves as the instrument through which the higher is functioning and through the triad energy of:

1. Divine Will
2. Love-Wisdom (the Christ principle)
3. *Active Intelligence*

Once the egoic vehicle is surrendered back into the light of the Monad (its I AM Source), a new multidimensional operating system completely over-rides the human design. Deeper, more intricate physical restructuring takes place within our body immediately removing any remaining imprints of duality within our entire holographic energy matrix.

As the human consciousness fades further and further from any familiar coordinates, there is a feeling of being erased and at the same time being absorbed into the Light. This new operational system is not about intelligence or remembering... it is a complete emptying so the greater aspect can take over.

*Nerve synapses are instantly reconnecting as we make our swift return to wholeness. We are being rewired so that the Higher Mental Body is more accessible, to directly bridge with our Monad and the Universal light of harmonic union and unconditional love. In this physical transformation, likened to a change of mental software, the neural patterns in the physical body endure a process of recodement.*

## **Transcending Sexual Desire and Control Patterns**

It is during this phase that many of us transcend the sexual desire and any related dysfunction. This especially concerns the force which brings about the physical merging as a result of our responses to the body's animal nature. These are acts of sexual sensory pleasure, self oriented sexual control, sexual abuse and imbalanced emotional patterns as a result of the sexual identity and appetite.

This is not to say that celibacy is required for ascension. It is the addiction to sexual relating as a lower pleasure seeking desire or barrier to self love that is to be examined. Love becomes limited through desire.

*It is the qualifying intention that determines the frequency (vibration) of the sexual intimacy.*

These patterns are balanced by a higher expression of the law when the human system is again androgynous and everyone is truly regarded as an equal expression of God. Patterns of sexual lust and desire are transmuted into their higher frequency expressions of joy, creativity, compassion and union with the divinity in all things.

## **Transmuting the Distorted Sexual Imprint**

We are ready to transmute and transcend the misuse of sexuality as a power base in the old paradigm for both males and females.

Both sexes strongly identify with their sexual centers/genitals which becomes the primary driving force behind existence. There is a belief in the need to express ourselves from our gender identification and sexually for pleasure. This is another illusion of our attachment to the senses.

Many of us are still embarrassed or carry self worth issues around our bodies and especially in our nakedness to others. Our egos have caused us to judge others and ourselves based on the size and function of our sexual centers and the overall sexual desirability of our bodies, which then contributes to criticizing the perfection of God's Design.

Women, in particular, have been carrying the record of sexual trauma and abuse for a long time, sustaining the imbalance of gendered energies on the Earth.

As we expand beyond our physical senses, we begin to experience the infinite bliss that is available to us through our connection to God. Sexuality and pro-creation occurs through the divine impulse of pure thought and Divine Love as union with God Source.

As we transcend the pull of the lower chakras and become the master of our three-fold personality (physical, emotional, mental), the chakras fold up into our heart center and we become radiators of Divine Love. New meanings of intimacy will also emerge as we embody more and more light and our sexuality transitions to the pure embrace of energetic union and rapture with all beings and realms of dimension.

### **Transcending Gender Identification**

*For contemplation...*

The Law of Gender embodies the truth that gender is manifested in everything. The masculine and feminine is ever at work on all planes of causation. On the higher planes, it gender expresses through higher forms of manifestation. This law works in the direction of generation, regeneration, and creation. All life forms contain the two elements of gender - masculine and feminine.

- On the great **physical plane**, the sexes of all species are manifested as male and female and the role they play in sexual reproduction.

- On the great **mental plane**, gender manifests as masculine and feminine energies that exist within each and every person. Every male has its female element, and every female has its male element.

- On the great **spiritual plane**, gender manifests as the Father-Mother principle of the Infinite Omnipresent God in whose mind the universe is conceived and firmly held. It is written, "We all live, move, and have our being within God".

### **In Summary...**

Through the incoming cosmic light frequencies, we are being assisted, energetically and structurally, to reunite with our wholeness as an androgynous being in union with our Source of Life... the mighty I AM Presence.

It is from this reintegrated wholeness, that we are able to interpret information from the levels of Omnipresence Oneness and in a manner that will raise us collectively into infinitely powerful, incredibly loving beings of tremendous wisdom. Jesus the Christ prophesied this with reference to "The Untouchables" who shall walk the Earth.

As we incorporate this new programming, we will operate more deeply and confidently from a balanced and magnificent mantle of Cosmic Love, Cosmic Wisdom and Cosmic Power.

We simultaneously give great service to Mother Earth, our galaxy and entire universe. Through our willingness to completely remove the holographic imprint of separation from our own personal vehicles, we help to transmute gender

division and its distortions from the macro levels including war and conflict, hatred, victimhood, suppression, control and sexual abuse, to name a few.

THANK YOU to all Children of the Sun Planetary Light Servers for your continued support to the Foundation and your tremendous service to Humanity. We are an untouchable force and ALL LIFE is raised with us!!
