MR : report on MOSES Conference she attended last week

Midwest Organic Sustainable Education Services - 23 year of annual conferences

- Defines Cover Crop - a crop planted in a field after something else is harvested; ploughed in in the spring
- Necessity to have "livestock" in the soil - all kinds of bugs, etc in the plants
 - bugs forage in the soil around a plant and bring food back to the plants
 - Scientists say that the bugs can bring back a weight equal to that of 2 cows when they forage in

an acre of land

- Without a cover crop, the wind can blow the soil away; cover crops help the soil hold water and to build nitrogen for the soil
- Question about the kinds of cover crops - discusses different kind of crops and what they do

Managing Cover Crops Profitably time to plant them; benefits - a succinct presentation

- Insects do not eat a healthy plant! Maybe plant disease and scavenging insects are ways of keeping us from eating them. If they do, they receive too much sugar and die
 - A cabbage butterfly lays an egg and a worm comes out and eats the leaves; then the plant creates a feramone and attracts the predator if we leave the process alone
- Need "natural habitat" in the field
- **Call MR with questions - she knows so much!!!**

Hard News:

Reading: it's spiritual and astrological "The Third Initiatory Gateway of Light " **[SEE BELOW]**

R: concerning the reading: from 1st to 3^{rs}, a rare star of David in the sky at the moment: bringing to a conclusion the arrests and full disclosure

- has its strongest energy on March 3rd, 2012
- colour orange is strength and builder of new form

R: we are in final few seconds of this! Energies are off the scale

- Spoke to King of Egypt - has been asked by Mother to play his role as Annubis & carry the souls across the River Styx to where Ma'at is waiting
 - Andrew Breitbart did not die naturally
 - Davy Jones, lead singer of the Monkeys - he was part of Occupy Wall Street and kept singing and exposing things
 - Feels like being at end of movie when the credits are running and running and running!

KOE: Whole lots of opinions about Fed of Light, Ashtar Command - this is about Nibiru and Mother and they are here - **need to drop the R A C E card** and also the race to the bottom

- Also the insanity re contraception and weird games
- Olympia Snowe - cannot do this Congress anymore - criminals, thieves: need to be held accountable for war crimes and high treason
- Also seeing humanitarian crises around the world
 - Norman Finklestein coming up - Palestine: it's a one state solution - goes back to Ur, Nimrod, Baghdad
 - ziggaraunts - Mother's people from Nibiru
- Wants to know why NYPD is profiling 4th grade Islamic students as if they are hiding things
- In Irag, people are recruited from mental institutions; bombs are strapped on them, & they are programmed to do whatever

KOS: he is playing his role as Annubis - forgive these souls for what they have done

R: feels much sadness and also determination about the absolute madness in this country and the attack on the goddess! If we could go this without violence would be good - we are at the razor's edge and the right want to light the match to start the fire

- We need to drop the R A C E card if we are to meet Ashtar, etc etc etc

R: Ashtar Command has been assisting in Syria: Homs and elsewhere; the only way the people are surviving

- Mr Al Assaud has to do with 13th families
- Iran will not be nuked! So if they can't attack Iran, will go for the uterus and so on

R: 7- 7:30 on Free Speech on **The Stream** - Jeremy Scahill comes on -

- all kinds of topics related to the Arab spring and the US presence in countries around the world which need to be free of US meddling

T: in India, the free trade has caused more poverty - India has now refused to accept unhealthy seed from Monsanto, etc - thank goodness for the Indian lady and the seed bank, and for the Altimarians

T: Sam who comes on Thom Hartmann's show - told Thom his cancer is going away: I stopped eating meat! I've eating organic vegetables and fruits and nuts!

R: over 6 mos since he has eaten fish - we are being asked to raise our vibratory rate at this time right now is the end of our agreement -

T: on Ashtar call, they said help is being sent to Japan - finally disclosed about the amount of infections, diseases, and other things happening there

- the Japanese are amazing: some helped with clean-up tho' they knew they would die for that work due to the radiation
- the only reason we are still here is due to the Altimarians
- also the speed-up of the time: we are going into higher vibrations

Cathy: what about B Fulford's comments about radiation and if there were, he'd be feeling it?

T: all the geiger counters have been rigged, here in NA as well - don't read accurately

- they are drinking radioactive water, food, etc

R: we are being tested - need to be the Little Buddha

- we can see the holodek program falling apart

T: Norman Finkelstein is an Israeli person; many of his ancestors died in holocaust

- Has made a documentary to be aired on Ides of March - "A Matter of Justice"
- Terms of settlement have to be: full Israeli withdrawal from whole of Gaza; from whole of West Bank, East Jerusalem and a just resolution of the refugee question based on the right of return and full compensation
- Germany and other countries have offered for those who came from Europe to return to the European country they left - they can get their homes, their lands and so on in their original country - this is in progress

T: humanitarian crisis in Syria is getting worse

R: China and Russia are aiding the humanitarian effort

T: Amnesty people have been able to get in to Syrai and aid 12,000 people with food and water - this is another situation like Palestine

Caller: Geitner was arrested and let him go - why?

T: let him go with an agent with him - he was squealing like a canary; now he is scared!

- He'd feel safer in jail than out - agent with him 24/7

• Remember ACIO? Alien Contact Intelligence Organization

- at 38th level above the president is Ashtar Command which is fully activated as part of the US military; they authorized to use a stun beam which keeps individuals immobile, and they know they cannot escape and they know it!
- Geitner also knows he's being tracked and being listened to 24/7
- Same thing with Berlesconi - Interpol is all over the planet with 24 Million Sovereign Militia forces all over the planet - if they continue to continue helping these ones after they resign or when they do; they are leaving the subordinates out, so the helpers will get arrested or be gone too

R: Mother is taking care of her children at the moment - Rama does not get in the way - just stands aside

until she is finished - yet the Fat Lady is singing, as we keep being told!

- KOE & Gorby Doll: That Momma Lion is coming in with March like a lion - and she is!

T: because Ashtar Command is helping on a continual basis, and because the Syrian National Council and the Free Syrian Army are coming together as a combined opposition group are talking diplomatically on how can they help each other - as they are doing this talking, they are getting help from Ashtar Command as it can be done

- Geitner was let go as he has a very short window to do something right and those helping him to do things wrong will get caught

Caller: something from Rumor Mill News - about Geitner, Gates, Bush, Kissinger

- Bush Sr revealed under questioning that Gates' team was responsible for the software controlled hacking of the global settlement accounts; over 40 trapdoors were discovered that directed stolen funds to be deposited in off shore accounts of Bush Sr and Obama. These have been found and plugged
- Bill Gates was flown to China for a nasty confrontation over the matter; alleged to be under arrest and accused of over 30 counts of treason
- also alleged that he was the one holding up RV because he had control of the red button
- all the cabal are chasing each other, killing each other

written by John McAfee[??]

T: Rumor Mill is Faction 2 and they lie about Obama every time, same as Fulford who also includes Obama - not true

Faction 2 is 100% compromised

Caller: Bill Gates, Geitner, Kissinger, Bush Sr are on the hot seat and that is what counts!

R: going from hot seat to journey across the River Styx! Veil is gone; Mother is taking care of children.

Caller: goes back to what Rama said in the beginning: Andrew Breitbart and his association with Sheriff Apayeo

R: has to do with racism and that a judge today was called up for sending e-mails bad-mouthing the Pres;

- Breitbart also threatened the Pres; as did the sheriff - all are against the Pres and his family
- The energy is such that if you spew hate, the next moment, you are gone because of the power of the energy! It's that simple.
- To love these ones is a big task and not let your dander up and want revenge and so on.

T: Andrew Breitbart was a very corrosive force; he took down Acorn - a good group of people helping the country

T: remember what was said: they are killing each other

Caller: as we move through March, we are becoming more and more elevated to next level of evolution.

- Some are leaving, some remain to help. If I choose to stay and help others to get across, my mission will be a bridger or way shower? Which one should I choose?

T: Can't you do both, Commander???

T: about Andrew: he was collecting videos and data on Obama's youth during high school and college in Chicago - he may have tripped on info that was none of his business and maybe that had something to do with what happened

Cathy: "none of his business" - meaning?

T: some things are open, others are private and personal; he was looking to cause harm to BO

R: he wanted to challenge Obama's validity: that he was not born in Hawaii, that his father was man in Kenya - not so

T: some character that is so racist: said the reason Obama was black was that he had sex with a dog!
she refers to the Montana Judge who passed on a racist story
Same as comments made by Limbaugh

R: Limbaugh may be fired in the next few hours / days; Fox News is going down fast: Murdochs are also
Fox News was started by Richard Nixon as GOPTV - not real news, but fake news with no validity

MR: what about story that CBS has now broken from the controlled media, no longer following along with
fox and fake news

T: Fulford said that: may be trying to save their butts

R: Fox News is losing millions of dollars every single day = Murdoch

T: last evening; when James Murdoch resigned from his post: Keith Olberman said of the whole bunch
that there is all kinds of nepotism in that company; Rupert is losing everything really fast

- This first 2 weeks of March, things are being prepared so March can go out like a lamb [Gorby doll]
 - The righting of the wrongs is still up to us to heal our inner beings - do a few things every day and do them well
 - remember the third initiation and the formation in the sky - we have more responsibility
 - it is also necessary that we do the healing
 - Barack said I will lead you, but you guys need to push me

MOTHER

T: we also ask for our hearts to open more; that you might explain more the process of forgiveness for
those who have worked for this debacle and the difference in the rules when an inter galactic
group of reptilians invade and take over a planet, and it has to come back to balance and the people
need to understand what it means when Anonymous says "we do not forgive, we do not forget";

- We know you are here now and Ashtar

Greetings, Children of Ra:

- In a most auspicious moment of energetic frequencies at this time, and those with hair finding it on end!
- What is on earth is shaking the three numbers that began this story: 9/11
- More US soldiers were removed from planet in Afghanistan courtesy of all the fake stories about 9/11
and what has happened since: has nothing to do with Quaran or Taliban
has every thing to do rummy, Rice, Addington, and so on
why is karl rove sitting on \$100 M and already an indicted war criminal?
- Moving on to frequencies at the moment: all the issues being discussed have to do with us being at last
few seconds - like in *Phantom in the Opera* and the little one getting ready to do final scene and we
know it is about removing the mask from the phantom and he is not a mutant or an ugly person, he
is just different - whatever may have happened to him, love him.
- All about . . . no accident that Iran got its first Oscar for its movie *Separation* - about healing the
ancient, ancient story that began when our children came to the planet which was a garden and
they did what they did: the sons and daughters of man played with the sons and daughters of god
- At the place now of cloning, DNA - real issue is about peace and love, one-hearted people in that sacred
circle as we sit at the virtual camp fire, sharing stories across time and space, and learning to pass
the talking stick
 - no matter what comes up, no matter how awful, our wayward children brought us to this brink:
to the 2 strands, the 1½ strands of DNA - yet something is reversing of itself, the mitachlorians

are reversing, they are the force that is changing the junk DNA, the 12 strands - it is activating and these orcs, mutants - like Frodo who had the love to see it through and let Golom have the ring and jump - more interested in the ring than in healing himself

- We must love these ones so much and stand in the face of this outright disrespect for the Commander-in-Chief who holds the gauntlet for this country and they treat him as something in a petri dish!
- It is about the respect he holds for all life as he stands there
- It is about the one issue and how we deal with such anger and hate - it is difficult to realize there are issues at hand and how we can be here with you: as we come here, we step down our frequencies and you raise yours and we meet in the middle.
 - Yet Gaia / Vywamaus are raising theirs in conjunction with the rest of the Universe and the small rebel band are choosing not to raise their frequencies - or are using technologies are not based in Law of One and then they create abominations of desolation
- We see this every day in bright, living colours as we watch - **spread the good news on all the websites that we are here:** time to have this discussion of how we pass the talking stick and leave the guns at the door
- Reformation / restoration is occurring but not discussed; only pollution and radiation in the sky, the water, our bodies - we made a commitment to do this even if you were last living soul on the planet- When one is harmed, all are harmed; when one is healed, all are healed
 - truth coming forth has already begun
- How do we share this with others - waking others up? We are aware of something different and we are experiencing it at such a rapid rate - that is why the hair / fur is standing on end - let's dance!
 - Like Cynthia said: how many ways to happiness can you focus on instead of desolation - for next 36 hours, focus only on happiness. That is how we get through the next hours / days.
 - When we see the happy family in the White house doing what they need to do to share the restoration / reformation of the planet.
- There is something in the work here between Putin / Obama - there is a joint mission going to the moon and to Mars, and will be happening immediately if not sooner, but no one is talking about it.
 - Has to do with the issues going on on the moon and on Mars & other places in this solar system
- like story of Gilgamesh - about the adventure that is called life right now that is about to happen that is greater than anyone of us, it is about meeting your Higher self, and your brothers and sisters who you've always know have been here, yet your parents and your friends and teachers would lock you up, give you drugs because of believing in invisible people
- We are co-creator gods, let's start living like it as Lord Kryon of Magnetic service has said: "Respect all life and do it now!"

T: what we could do now: make sure we continue to ask what is our mission now

Mo: it is about Star Fleet Academy recruiting you because you asked to be part of the mission of the Galactic Family of Light - it is about this family and co-creation in all its beauty -

- what is being said is have some respect for what is going on on the planet - the frequencies are at such a high rate; as you are going along, California girls, and playing the game like the song says, at a snail's pace and watching Homer Simpson and fake news and football, etc -
- the most important thing we can be doing in our lives is awakening to zero point at this moment - it is so imperative, we cannot impress upon you that it is your very life force;
 - it is our salvation and if we don't follow this, and as the frequencies are always changing: if you are not living in right livelihood with co-creator source, it is that cut and dried : Gaia /

Vywamus has said - heal this planet and start with yourself, or get off.

Cathy: about living in Zero Point energy - clarification?

Mo: how you live in ZP energy - when you go into the store, etc and someone opens the door, say "greetings" or someone has a cane and is blind or if someone is in devastation with illness which is about the mind - it [the mind] is the cause of the matter,

- what is occurring is that Zero Point is already happening - we have already moved into it
- The Schumann Resonance is moved to 13 - things beginning to manifest quicker and faster: how you think it, therefore it is. As your thoughts are physical, crystalline manifestation of what you thought - the good, the bad, the ugly can end up in your hand.
- Focus on this moment: " how may I be of service to the Most High in terms of how I can spread more love rather than more hate?"

Cathy: It's about making sure kindness and truth never leave you

T: using the violet flame makes it so: finds the balance between loving and giving:

- whole world has in this common: we were always taught to give but have never learned how to receive - only thing to have is balance

Mo: story from Mother Theresa: she not only cared for the sick, she moved in with the sick, the dying, the elderly, the ones who could not take care for themselves - whine-y, bitchy, cranky, etc
Mother T said that only unconditional love would work in face of what they were dishing out

T: Rama spent 2 weeks with her scrubbing floors and talking [1971]

Mo: It's about loving yourself in the moment: if there is cranky in the patient, what is going on in you?

- Maybe you are cranky about the stuff which is going on in the planet.
- Maybe you are riding the donkey backwards into Jerusalem & they want to make it location of Congress?
- Ebionites, Moabites, Mormonites: if you think of the drama of Lucy in the sky with diamonds and his millions as the one to consider: consider the fact of where did Mormonism come from? from the original 13 tribes of mother /father god , the original story that began in Uruk

T: what they were doing was really way off the bat!

Mo: the sons and daughters of god decided they wanted to mate with the sons and daughters of man - and now there is the idea that procreation is being discussed by a bunch of life forms?

they had better understand about the womb space -

goddess can create out of herself, and she can also uncreate if she so chooses -

the un-creation cycle has begun: that is not of the Office of the Christ is being dissolved, the 13 families have lost and our biggest mission here is about each day going through the experience with love and respect [and talking to the rental unit as well!]

- In terms of the frustration that goes on when you hear that someone on radio or tv has only some of the facts due to Patriot Act 1, 2 and 3, and the ABC agencies that think you maybe connected to Al Queada, Taliban that has nothing to do with reality but only with the funny game called Old World Order - it has collapsed and we are witnessing it, a constant flux

T: North Korea agreed to stop producing enriched uranium and stop testing.
and got 450,000 tonnes of food from the US

Mo: it is soy, and not exactly a healthy food.

- There has to be a greater understanding of how we work with the foods in terms of the healing on the planet: as we come into balance with the Mitochondrial / Mitoclurian energies, that as we are life forms that live on liquid light and liquid love, what is occurring is as the food is changing, and our taste buds are changing, the desire to eat things that are not good for us are going away, faster and faster
- Yet it is a challenge to go through this with our emotions, all the pre-conceived set-up dynamics of the stories of what is happening concerning our welfare
- In terms of the fact that we are creator gods and we have the ability to end this holographic matrix program, now -
 - just say in this moment "I AM THAT I AM"
 - as we focus on that mighty I AM within, it changes everything around you, does not go away, stays and gets stronger and stronger
- this section of the MW Galaxy lining up with our yanni which has to do with the original story
- the funny stories about asteroids coming in and Nibiru, Elenin and other bodies - it is about us - yet you are us, and we are you -
- When you watch a tv ad, don't go to Subway - make brown rice and a salad, and tell your taste buds and your stomach an you like it!

Cathy: she is now diabetic - eating a lot of quinoa and brown rice - her numbers have plummeted [not on insulin] - no meat and dairy products and whatever - and feeling much better!

- as far as the emotional body wanting what it is familiar with - has not served her!

T: by having this experience, you have learned [and can bear witness to the changes that changing diet can bring about]

Mo: In these 3 days, [March 1 - 3] focus on ecstatic extreme happiness - will bring everything back into balance in terms of the I AM THAT I AM

- No accident that the Presidents of this time

T: Myanmar - no turning back on reform - and the lady expected to win - first time in how long they have had a real election! Always been a military hunta!

- These countries are doing things and doing it themselves

MR: What is the Hobo Prince Project?

Mo: A man got collateral and created a benefactors program, and cannot do anything until NESARA has been announced

T: only money that has been given out is money for big things in the world [not for people]

- Jesse Ventura enjoined with the White Knights and put his body and his mouth with them to get things straightened out; gave the \$ back to the Pope

Mo: yet Ron Paul kept it - an ugly story that we are seeing on the right; Libertarian is not about smoking dope and getting laid and sinking government to size that it can be drowned in the toilet

Mo:

T: Thom Hartmann said today: libertarianism will destroy this country permanently

Mo: That is right: it's about loving each other

Steve Colbert talking about Ur, the ziggurats, Lost Books of Enki; it's about the stargates, things are going mainstream

Closing: Cathy

~ 03-03-2012 ~ Third Initiatory Gateway of Light ~

You Tube <http://www.youtube.com/user/AnritaMelchizedek>

Mp3 download www.pleiadianlight.net/dl.htm

On March the 3rd 2012, we enter into the third initiatory Gateway of Light through the Overlighting of the *fifth ray of concrete knowledge*; a beautiful orange ray of Light, amplified through the planet Mars at its closed approach to earth, its face fully illuminated by the Sun. Fiery Mars takes us into a greater level of empowerment and expression of the Higher Mind through the Divine Masculine archetype, and assists us as we experience this third initiation, esoterically referred to as *The Transfiguration*. In this initiation, we are given the opportunity to truly surrender our individual will to the Divine Will of Mother/Father God, through the illumination of the mental body. In doing so, we clear our lower triad, which is the three-fold personality of the physical, emotional and mental bodies, and begin to manifest our realities as co-creators to the Company of Heaven through the upper triad of intuition, Spiritual Will and Higher Mind. Furthermore, the patterns of imperfection within our original Divine eight-cell blueprints will be further cleared of human miscreations as we step into a deeper level of wholeness through the balancing of polarities.

We are experiencing a deeper integration of the Group I AM Avatar Blueprint of Light, through the Higher Light of all Humanity and the New Earth frequencies of Light. In this initiation, this is amplified through the activation of the star tetrahedron within the original Divine eight-cell blueprint as well as around the etheric, emotional and mental bodies. The star tetrahedral shape connects us into the essence of our Godself through our ability to harness these light geometric templates and shift beyond the ring-passeth-nots surrounding each dimension into the Christed Timelines; and is further one of the sacred geometries we can use to activate our Light Body/Merkaba. As we move into the Christed Timelines we experience a greater sense of our multidimensionality as these sacred transfiguring Flames of Divine Love, and Solar Beings of Light, while loving all aspects of ourselves. And within these timelines, as the Monadic Consciousness of all Life at a Higher Light level experiences a dimensional shift into the New Earth Templates of Divine Love, Mother Earth Herself becomes the Spiritual Sun for this solar system, in perfect alignment to the Sun and Solar Core, Central Sun and Great Central Sun.

Additionally, part of this process on December 21st will be the activating of the 33 Cosmic Portals of Light within and around this earth plane, taking us into the fifth dimension. This process is being facilitated at this time and throughout this year by the anchoring and activating of the Cosmic Christ Holographic Discs, 13 major and 20 minor discs along the spinal column, also aligned to the Mayan calendar 13:20 natural celestial time. The activation of the Cosmic Christ Holographic Discs are directly related in vibrational attunement to the activation of these 33 fifth dimensional Cosmic portals and New Earth Templates to be experienced on December 21st, 2012. Additionally the Light Body/Merkaba activation of Mother Earth will occur at this time using the sacred geometry of the star tetrahedron.

For this initiation, we are invited into the Ascension Seat within the Crystalline City and vortex within Uluru, Australia, to encode and activate ourselves with the star tetrahedral shape through our original Divine eight-cell blueprint within the perineum center, the Egg of Life, and around our lower bodies, as we merge in perfect alignment to our I AM Presence through the Overlighting of Chohan Hilarion, Archangels Raphael and Mother Mary, and Elohim Cyclopeia and Virginia.

From a planetary perspective, through the Unity Grid of Divine Love, we will focus on the clearing of the distorted planetary belief that Science and Spirituality are disconnected as we anchor a deeper level of Spiritual Light through this sacred orange flame and *fifth ray of concrete knowledge* into the mainstream scientific and intellectual communities, and with this, the potential for all Life on this earth plane to experience this third initiation, *The Transfiguration*.

For we are the beloveds, the wayshowers and Spiritual leaders and teachers, paving the way for all Life to experience Heaven on Earth, our collective Garden of Eden.

Invocation for the third initiatory Gateway of Light

I call upon the Overlighting of Mother/Father God,
the Pleiadians, the Sirians, the Andromedans and the Arcturians, all of the Light,
the Archangels and Angels, the Trinity Lords of Light, Lord Michael, Lord Metatron and Lord Melchizedek,
the Chohans of the Rays; El Morya, Kuthumi, Serapis Bey, Paul the Venetian, Hilarion, Sananda, St.
Germain, Lady Nada, Mother Mary, Allah Gobi, Quan Yin and Pallas Athena,
the Mighty Elohim,
the Melchizedek Brotherhood of the Light,
Lord Buddha, Sanat Kumara, Helios and Vesta and Lord Melchior,
the Mahatma, the Cosmic Avatar of Synthesis,
and all other Beings of Light I personally acknowledge,
as I now merge with my I Am Presence, the Highest Light that I Am within the Cosmic Heart of
Mother/Father God.

As I now connect into the Unity Grid of Divine Love,
I align to the inner earth Sun, the Golden Solar Sun disc of light within my heart, the Sun, the Central Sun
and Great Central Sun,
and now experience my Self within the Cosmic Heart of Mother/Father God.

I now call forth to Master Hilarion,
to take me in an external Merkaba Vehicle of Light,
into the Ascension Seat within Uluru so I may undergo this third initiation, *The Transfiguration*, through the
surrender of my will to the Divine Will of Mother/Father God,
so I may align into my original Divine eight-cell blueprint,
letting go of any patterns of imperfection
so I may experience the upper triad of intuition, Spiritual Will and Higher Mind teachings of Light.

As I now find myself within this Ascension Seat and vortex, illumined by the Beings of Light from On High,
I am surrounded in this beautiful Orange Flame of Concrete Knowledge,
experiencing my Self within the New Earth Templates of Divine Love.
I Am now placed in a *Sacred Geometry Transfiguration Chamber of Light*,
as the old patternings, conditionings and imprintings of polarity are erased,
the original Divine encodings of Light and Patterns of Perfection are now actualized within my Divine eight-
cell blueprint,
as I now merge into a deeper alignment with my I AM Presence.

And now, the star tetrahedron is activated within the original Divine eight-cell blueprint through the trinity of
the Holy Mother, the Holy Father and the Holy Child,

and now around my etheric, emotional and mental bodies.

The Egg of Life is now expressed through the swirling of the vesica piscis into the Golden Flower of Life 54 feet in diameter around me.

I now spin the emotional and mental body star tetrahedrons within the Golden Flower of Life sphere in a clockwise and counterclockwise direction respectively, repeating aloud this activation sequence and Fibonacci ratio to the fifth dimension, 21 to 13, 33 times God speed to infinity.

I now experience my Self within the fifth dimensional Christed Timelines of Light, anchoring and activated the 3rd major Cosmic Christ Holographic Disc and two minor discs along the spinal column.

I gently move my body from side to side and backwards and forwards, facilitating the process of the cerebrospinal fluid and the recalibration of my nervous system, meridians and chakras.

And now, I assist the Company of Heaven and Master Hilarion to wrap Mother Earth and all Her Life in this sacred Orange Ray of Light, clearing distorted beliefs and lack of Spiritual understandings within the mainstream Scientific and intellectual communities.

I now assist all Life in experiencing these Patterns of Perfection through the Unity Grid of Divine Love.

I now find my Self back in my sacred space, grounding into the Crystal Heart of Mother Earth, and the Cosmic Heart of Mother/Father God.

I am now surrounded in this beautiful Orange Flame of Light, and the Golden Flame of Empowerment and One Unity Consciousness, Overlighting this sacred year of 2012.

I Am a sacred Being of Divine Love, a co-creator to the Company of Heaven, able to create new structures based on mental Illumination, concrete knowledge and innovative experimentation, and wield this through the Divine Will of Mother/Father God.

I Am All That I Am.
