- Gov Brownback in Kansas - the law there is even more draconian

  - Also lying to women to get them to do something they don't want to do - can't sue your doctor if he lies to you about your current pregnancy [built into the law]
  - The "It's OK for your doctor to lie to you" Bill, providing you are a woman and you are pregnant!

**History that people have never or seldom heard!**

- Speaker was in the Marine Corp
- times are fundamentally different; we have a problem about being successful to change this country
- Malcolm X said; a third of Americans want to do the right thing; 2<sup>nd</sup> third don't know what the right thing is; last third is hopeless; last third has increased in # more and more and
  - there is a diff between Nixon as crooked as he was, and George Bush and Ronald Raegan and Michelle Bachman and Sarah Palin, etc, etc - they have re-styled and brought into their party "knuckleheads"
- Vladimir Ulyenof, b 1870; as he struggled for change in his country, he said look like the enemy, talk like the enemy, act like the enemy, but think for yourself
  - We have to appreciate what America is when we want to make change & try and reach those two-thirds: : what happens when we say we are leftists - we are automatically dismissed!
  - We must think how they have socialized the population in last 60 years
- How has the right come in to power? a **taboo question - via racism:**
  - In 1965, the Republican party adopted the Southern Strategy
  - the south was able to rule the country because of the concessions they forced on the north, or there would no United States of America
  - concessions: only 2 senators for each state, no matter the population  
Electoral College  
Federal Ratio which was 3/5 votes for every black person
- It was the extra 8 electoral votes that made Jefferson 3<sup>rd</sup> president and that extra black presence that enabled the south to rule in the anti- vellum period[?]
  - when the south could no longer rule the country, they split

- Next year is 150<sup>th</sup> anniversary of the Emancipation Declaration
- Emancipation Declaration was "an act of military necessity" because the North was losing the war
  - when the war was over with help 200,000 black people in the army and 20,000 in the navy, and taking away the institution of slavery in the South, Lincoln said if the black troops had not been there, we would lose the war in 3 weeks. Never tell students that!
  - It defies sanity to think of the contribution made and then the Blacks were betrayed
- So had to pass the 13<sup>th</sup> amendment as slavery was legal
- So then the South started killing people and passing the black ??? so the Republican party was faced with the dire prospect of winning the war and losing control of the government again.
  - Therefore they had to pass the 14<sup>th</sup> amendment and then the 15<sup>th</sup>

Speaker is researching 1865 and 1900 - an element left out of American history: an unacceptable word in academia: **murder**

- the man who put through first anti lynching law - Congressman from North Carolina, **George Henry White** and what he said in his **speech before Congress**
  - Between 1865 and 1900. 53,000 of my people were murdered - 1350 / year - this is not in the standard history books & he is trying to validate this
  - the blacks are betrayed, and the south takes the political power after having exploited the black political body and then they ruled this country
  - They created the filibuster, the 2/3 rule that is still in place
- the Democratic party was the party of the Klu Klux Klan - in 1924, longest political convention in American politics: 116 days and 113 ballots and putting forth their own candidate for President ; marched down Pennsylvania Av 40,000 strong - this info is all suppressed. **The Dems overthrew**
- With the power, they prevented an anti-lynching bill, prevented the protocol against genocide because they were the senior people in the House and the Senate: **Republicans wanted to take the south away from the Democratic party and that is what they have done**

#### Bringing this up to the present:

- There are 50 states and 2 senators = 100; there were 435 Congress persons = 535 votes
  - Need 271 electoral votes to become president
  - the 11 states of the confederacy equal 60% of all that is necessary to become the President: if you win 16 states, you or your dog can become president: that is what Republicans have done
  - In 1972, Bush Sr was first Republican to win all states in the confederacy
  - Raegan kicked off his campaign in 1980 in Philadelphia, Miss; some were killed, he was endorsed by the Klan, later rejected the endorsement, but that is the racial politics of Repubs
  - Bushie Jr stole the 2000 and 2004 election and we get back to the eunuchs of the Democratic party: instead of saying the Supreme Court stopped the voting re-count in Florida , & talking about Jeb Bush and Kathryn Harris, head of Bush campaign and Sec of State: blamed it all on Ralph Nader!
  - The Republicans impeached Clinton for lying about an affair; the Dems would not impeach Bush for lying about a war!
- Go to John Conyers website when he was Chair of House sub-committee
  - **A Constitution in Crisis** a report prepared on the Iraq War by Conyer's staff - blow your mind!
  - at same time, Powell went to UN with charts, graphs, and why going to Iraq:"shock and awe"
  - when speaker first heard "shock and awe" the first thing that came to his mind was "blitzkreig"

## • The Republicans are a Challenge

- They control Supreme Court, 11 out of 13 appeals courts; 5 corporations control media
- privatizing everything: military, prisons, education, want to privatize medicare & social security
- Bush privatized 25% of IRS and did not give them the charge to investigate corporations - yet one of speaker's grad students made \$23,000: they investigated her
- 113,000 private military contractors in Iraq, as opposed to 90,000 military troops
- more private ones died last year than American military troops
- **18 attempted suicides by Iraq and AF vets / day!!!!** Where did PTSD come from?
  - What is driving the vets crazy so they kill themselves or others?? **Not discussed.**

## What must we do?

- One of the challenges is longevity: he was a patron for Planned Parenthood - they were celebrating the 39<sup>th</sup> anniversary of Roe v. Wade: the right has been fighting against this ruling for 40 decades We need this kind of longevity
- We also need an analysis of this system - he learned working with Jesse Gray: it is **UNFAIR EVERYWHERE** - we have a zillion groups in all kinds of areas because of the unfairness of education, housing, police brutality, racial profiling, citizens for tax justice - all because of the uniformity of unfairness, of injustice - can't just say "capitalism"
- how does it work and where are its weak points?
- Needs to be a manageable analysis and a manageable time chunks, and a 5 year plan

## Need a national Recall Movement:

- **what is our problem?**
- It is the portion of America that buys Bill O'Reilly's book, that watches Glen Beck and listens to Rush Limbaugh who got a contract for \$400 M for 8 years from Clear Channel in 2010 / \$50 M for 8 years - they cannot stand being exposed, being looked at -
- we must expose corporate crime which kills us: 80% of cancer is sociogenic: air we breath, water we drink, food that is manipulated
  - think about Bopal, the Massey Mine company - gave a lower level flunkie 3 years in jail -
- something wrong with the system - need an analysis that is manageable
  - need a single payer plant
  - need to define corporate crime
  - need to bring back Glass Steigal - Clinton's people killed Glass Steigal; Clinton did NAFTA world is looking at the US
  - when Bush was pres could go nowhere without a protest; most despised political leader in History of the world - yet not on American media
  - Need to take the hope that came with Obama - we are located in the heart of the Evil Empire and what we do will affect the world .

## Occupy the System: Confronting Global Capitalism - This is 1 of 5 sections.

- Started with the comment from Bill Mahers and Strickland: there is a shock and awe system going on here; a constitution in crisis, the bleitzcreig; the privatizing of everything - hence, the rude awakening of these times
- it has been an interdimensional hijacking
- And the venom of the last 200 years has made us ready for the next step

**Audio:**            [www.AlternateFocus.org](http://www.AlternateFocus.org)      Tel: 858-551-0191

- No one has ever asked the people what they want: the US just took over
- The US in the Iraq- has destroyed a country, left millions dead
  
- Most Americans not knowledgeable about the rest of the world - smaller, weaker neighbours
  - War of 1812 was last time US was seriously threatened until Pearl Harbour
  - so they grew up isolated: they know foreign I

## 2012, Mar 9 **Vatican Makes Money Laundering List Of U.S. State Department**

**First Posted: 03/ 9/2012 10:40 am Updated: 03/ 9/2012 10:40 am**

By Philip Pullella

VATICAN CITY, March 8 (Reuters) - The Vatican has for the first time appeared on the U.S. State Department's list of money-laundering centres but the tiny city-state is not rated as a high-risk country.

The 2012 International Narcotics Control Strategy Report was made public on Wednesday and Washington's list of 190 countries classifies them in three categories: of primary concern, of concern and monitored.

The Vatican is in the second category, grouped with 67 other nations including Poland, Egypt, Ireland, Hungary and Chile.

It was added to the list because it was considered vulnerable to money-laundering and had recently established programmes to prevent it, a State Department official said.

"To be considered a jurisdiction of concern merely indicates that there is a vulnerability to a financial system by money launderers. With the large volumes of international currency that goes through the Holy See, it is a system that makes it vulnerable as a potential money-laundering center," Susan Pittman of the State Department's Bureau of International Narcotics and Law Enforcement, told Reuters.

Last year, the Vatican adapted internal laws to comply with international standards on financial crime. The Vatican is seeking inclusion on the European Commission's so-called "white list" of states who comply with international standards against tax fraud and money-laundering. A decision on its inclusion is expected in June. "Our aim is to make the 'white list' and we are happy that we have been put in the State Department's less vulnerable category," a Vatican official said, speaking on condition of anonymity.

The category of most vulnerable centres includes all members of the Group of Eight countries, including the United States, Germany, Italy and Russia, because the size of their economies and banking systems can facilitate money-laundering. It also includes small centres such as Britain's Channel Islands.

The State Department's methodology is different from that of the Financial Action Task Force's International Cooperation Review Group (ICRG), which concentrates on a nation's compliance with international law and money-laundering regulations.

### **VATICAN BANK HAS SCANDALOUS PAST**

The Vatican Bank, founded in 1942 by Pope Pius XII, has been in the spotlight since September 2010 when Italian investigators froze 23 million euros (\$33 million) in funds in Italian banks after opening an investigation into possible money-laundering.

The bank said it did nothing wrong and was just transferring funds between its own accounts. The money was released in June 2011 but the investigation is continuing.

The Vatican's new financial transparency laws set up internal regulations to make sure its bank and all other departments adhere to international regulations and standards, and cooperate with foreign authorities.

Two months ago, Italian newspapers published leaked internal letters which appeared to show a conflict among top Vatican officials about just how transparent the bank should be about dealings that took place before it enacted its new laws.

The Vatican Bank was formally known as the Institute for Works of Religion (IOR) and was entangled in the collapse 30 years ago of Banco Ambrosiano, with its lurid allegations about money-laundering, freemasons,

mafiosi and the mysterious death of Ambrosiano chairman Roberto Calvi - "God's banker". (Reporting by Philip Pullella; Editing by Robert Woodward)

2012, Mar 12 **Ben Fulford ~ It Is Time To Storm The Bastille**

**Benjamin Fulford | March 12 2012**

***[I do believe Ben means WW2 and not WW3. Blessings, ~G]***

The financial war that has been raging intensively at least since 2001 may be finally ending. This week a three pronged effort to convince the Luciferian banking cabal to surrender is being carried out. In one prong, the Chinese government has announced it will start the mass installation of wind and solar power devices on rooftops world-wide in order to free humanity from the cabal controlled energy grid. In another prong, the cabal controlled central banks will be asked to make good on broken promises by redeeming financial instruments backed by gold stolen from holocaust victims during World War 3. The third prong is still being kept secret but essentially it is a promise to start a bottom-up revolution in cabal controlled countries like Italy, France, Germany, the UK and the US unless these countries stop their ceaseless war-mongering.

The arrest of Bill Gates, the announcement in an Italian paper that the pope will resign on April 15th, and the presence of a US marshal accompanying cabal operatives like Timothy Geithner are all signs that very little, if any, opposition remains.

Last week a Chinese delegation met with a representative of the White Dragon Society in Tokyo. At the meeting an informal agreement was reached in which the Chinese side promised to provide manufacturing facilities and financing for new energy technology. To start with a revolutionary roof-top wind turbine and solar panel combination will be distributed with no initial down-payment necessary to householders and enterprises world-wide. These householders will then pay the installers the equivalent of their current energy bill for 5 years after which they will become energy independent. This is a concrete and realistic way to give the atomic and fossil fuel based energy cartels time to find a new line of business.

Other "free energy" technologies, if proven to exist, may be used in lieu of these devices but only after safety testing. The installation of these devices would also be phased in so that existing energy corporations would have plenty of time to transition into new lines of enterprise. Toyota has also already begun its assault on the fossil fuel industry by producing cars, now on the market, that get over 100 kilometers to per liter or over 300 miles per gallon.

In a different, and more direct move, the banking cabal will be asked to make a \$15 trillion donation for the purposes of ending war, ending poverty, stopping environmental destruction and freeing humanity from drudgery, poverty and disease. This will involve a specific actual move that we cannot write about in detail at this time other than to say it involves asking the Odessa/Bush Nazis to pay back the gold they stole from holocaust victims. The only other thing that can be said about this particular maneuver at this time is to tell the Romans to "beware the ides of March."

There will be an announcement, aired live on March 13th on the internet, by the hacker group anonymous, the gnostic Illuminati faction and the White Dragon Society. If this announcement is not heeded, there will be revolution according to both anonymous and the gnostics.

In other news, Western embassies in Tokyo will all be shutting down on March 20th, ostensibly to celebrate the vernal equinox. If this embassy closure is a pretext to evacuate personnel in preparation for a mass terror attack against Tokyo, there will be unfathomable consequences for the Western ruling oligarchs and their extended families. In addition, nuclear weapons have already been placed in both Jerusalem and Rome by gnostic agents and these two cities will vanish forever if Tokyo is attacked. We urge all citizens of these two cities to evacuate immediately should Tokyo be terrorized by the Romans.

Furthermore, the Chinese and Japanese military have finalized preparations to sink the La Palma rock formation into the ocean and cause a 100 meter tsunami to hit the US East coast and Southern Europe in retaliation for the planned attack on Tokyo. The world will no longer tolerate Roman terror. The Romans must renounce Satan and the Vatican must be purged of all Satanists. This is not negotiable.

In other news, an informant has provided this writer with more details on how the banking cabal has manipulated the Japanese political system. Former Prime Minister Yukio Hatoyama, a freemason Satanic agent, was bribed by the bankers with the promise his son would be the “first prime minister of a world government.” The source of this information is a friend of Hatoyama’s wife.

Hatoyama and Banri Kaeda, along with Seiji Maehara are some of the top Satanic P2 lodge agents in the current Democratic Party of Japan government. This source also confirmed at former Prime Minister Naoto Kan is a North Korean Satanic P2 lodge agent. Power broker Ichiro Ozawa tried to switch sides and “join the Chinese,” but he was in fact an agent for J. Rockefeller who was trying to infiltrate the Asian secret societies.

The Japanese magazine Kami no Bakudan (paper bomb) has also reported in its latest edition that current Japanese Prime Minister Yoshihiko Noda is part of a homosexual network of agents linked to Panasonic founder Konosuke Matsushita and the CIA international homosexual network centered at Georgetown University. Any government official worldwide who was sent to Georgetown for graduate studies is likely to be part of this network. However, as far as we can tell, the gay network is supportive of the White Dragon Society and its aims to end poverty, end war and stop environmental destruction.

We would like to ask this network to fully activate itself in order to dismantle the remaining Satanic agents still working to terrorize Japan into submission to their plans for a world fascist government. They know the specific agents who have been carrying out this traitorous work and they must all be put into preventative custody this week.

The first anniversary of the March 11, 2011 tsunami and nuclear terror attacks has come and the Japanese corporate media provided extensive coverage while carefully avoiding saying it was a natural disaster. This is a clear sign the media moguls here are still cowards who are sitting on the fence and waiting to see who wins the financial war.

They need to understand that Satan has already left this universe. Humanity will finally be set free.
