Amnesty International accuses Syrian regime of using systematic torture

BBC Arabic, UK

Presenter, Female #1

The Syrian Observatory for Human Rights reported that 10 people were killed today in the violence across various parts of Idlib and Dara'a. The Observatory added that military and security forces carried out a campaign of raids and arrests in Dara'a, indicating that the humanitarian situation in the town is dire. The Syrian army took full control of Idlib yesterday.

Presenter, Female #1

Amnesty International released a report today asserting that the widespread practice of torture has reached an unprecedented level in Syrian detention centers since the Syrian uprising erupted last year. Amnesty believes the testimonies of torture survivors provide additional evidence that crimes against humanity are taking place in Syria. The report documents 31 methods of torture and mistreatment practiced by the security forces, the army, and pro-government armed gangs known as "shabeha", according to Amnesty International.

Reporter, Male #1

The Amnesty International report is titled, "I wanted to die," summarizing the testimonies of 25 Syrians who fled the country after they survived a detainment worse than death. The report says torture is systematic in Syria, and generally follows the same pattern.

Guest, Male #2 (Neil Sammonds, Head Compiler of AI Report)

The fact that it happened across the country and across the security agencies and the armed forces leads one to the assumption that the regime is directing and knows what's going on, and is encouraging its guards and security officers to do this.

Reporter, Male #1

The organization documented 31 methods of torture that anti-regime civilian detainees have been subjected to since protests began in the country a year ago. Severe beatings is the common denominator of the testimonies. The most commonly used tools are sticks, electric cables, whips, fists, and rifle butts.

Guest, Male #3

There was a random shooting, then they saw me and my friend and they opened fire. I was hit by 16 bullets; the young man with me was hit by seven. They were suspecting that I was still alive because they saw the light on my mobile phone. Then they opened fire on me three more times, for what?

Reporter, Male #1

Other means include stripping, hanging, and electric shocks. The report tells the story of an 18-year-old young man named Karim. He said his torturers in the Air Force intelligence branch in Dara'a used a pair of pliers to pull his flesh off his legs. Another witness named Tariq also tells his

story in the report, and describes how he was coerced to watch his arrested colleague Khaled getting raped despite his injuries, which he sustained in the Air Force intelligence branch in the suburb of Kafr Sousa in Damascus. The Amnesty International report says the rate of sexual torture and sexual violence increased in the past year. In addition, the report says the worst stage of torture that detainees go through is the interrogation, during which they are subjected to a variety of the more brutal methods of torture. It also says the testimonies of the witnesses paint a catastrophic picture of the torture that seems to be systemic with the aim of humiliating and intimidating the detainees to silence them.

Notes from Tara: Israel breaks fragile truce with renewed shelling of Gaza

Al Jazeera, Qatar

Presenter, Male #1

This comes after an Israeli air strike targeted Gaza at dawn, inflicting massive damage to shops and residential buildings.

Presenter, Female #1

For its part, Israel held the Palestinian factions responsible, and said the strike was in response to rocket fire from Gaza.

Reporter, Male #2

This was the atmosphere during Gaza's first night after the truce was announced. Residents of al-Nafaq Street in northern Gaza witnessed an Israeli air strike, with burning shrapnel dropping on shops and residential buildings.

Guest, Male #3

They struck around 1:30. They said there was a truce. We woke up, and the children were terrified. We didn't know what had happened.

Reporter, Male #2

The massive fire inflicted major damage. Civil defense forces and the residents are facing great difficulty in controlling the fire in light of the shortage of supplies.

Guest, Male #4

It's now been six hours and we've been trying to extinguish the fire at this factory, because the factory is built with aluminum and wood.

Reporter, Male #2

The Israeli army said the latest shelling on Gaza targeted what it claimed to be "terror activity sites" in response to Palestinian rocket fire, for which no Palestinian faction has claimed responsibility.

Guest, Male #5

They said there were terror activities, rockets and missiles, etc. But, as you can see, there's only aluminum and wood, and other similar material.

Reporter, Male #2

The ousted government said the Israeli strike was a violation of the latest truce.

Guest, Male #6 (Mohammed Awad, Foreign Minister of Ousted Palestinian Government)

This is a clear message to the international community, and specifically to the Egyptians, that the occupation is still behaving arrogantly, and aiming to break the Palestinian people's will, and break the will of the Palestinian resistance. Our message to all of them is that the will of the Palestinians will not be broken.

Reporter, Male #2

Despite this violation, the factions in Gaza renewed their commitment to the truce.

Guest, Male #7 (Mohammed al-Hindi, Islamic Jihad Leader)

The Palestinians agreed to the truce, both the Palestinian factions and the Palestinian authorities. So we are committed to this truce and its conditions, which we consider to be beneficial to the Palestinian people.

Reporter, Male #2

In the opinion of many people here, the most recent strike on Gaza will not be the only test of the truce. Palestinians are most experienced with Israel and its breaches of contracts and agreements, which raises many questions around whether there are sufficient guarantees that Israel will adhere to the truce as long as possible. Tamir Mis'hal, al-Jazeera, Gaza, Palestine.

Presenter, Female #1

In this context, Israeli sources said Israel suffered an estimated five million dollar loss by operating and activating the Iron Dome medium-range missile defense system.

Presenter, Male #1

The Israeli army announced the system succeeded in intercepting 56 Grad missiles launched from the Gaza Strip in the past four days. Israeli journalists expressed doubt over the financial agenda of this system.

Israel-Gaza truce tested as tension looms in southern Israel

IBA, Israel

A fragile truce between Israel and Gaza terrorist organizations remains in effect today, but tension still looms in the south. While it appeared that both Israel and the terrorist groups in Gaza were respecting an informal Egyptian-brokered ceasefire, the effects of the weekend's violence could be felt in towns like Netivot, where a rocket exploded in a parking lot last night, injuring one person, while eleven other residents suffered from shock.

Schools across the south were reopened today. Minister of Education Gideon Sa'ar told Army Radio he was pleased that students were going back to school, but he acknowledged that rockets were still being fired, and that the government could not promise that the cross-border hostility was over, saying that "We live in a situation where we can't guarantee a zero chance of being hit by rockets." Residents of the south who missed work this week because their children were home from school due to rocket attacks will be compensated. The government decided to reimburse parents following a meeting with the Histadrut national labor union.

In response to the rocket fire from the previous night, Israeli Air Force planes struck two sites of terror activity in northern Gaza in the morning, recording direct hits at both. At least eight rockets have struck Israel since the ceasefire went into effect; 304 rockets have been fired from Gaza since Friday. The IAF has completed 19 air strikes against terrorist rocket launching cells,

with 14 of the hits coming before the terrorists could fire their rockets. The Iron Dome system has shut down 56 rockets in 71 attempts a 79 percent success rate.

R: Black Ops launched the missiles and blamed it on the Palestinians

T: same as in Oakland [Occupy event]

Notes from Tara: Azerbaijan arrests 22 suspected of plots against Israeli and US embassies

IBA, Israel

Authorities in Azerbaijan have arrested 22 people on suspicion of plotting attacks against the Israeli and US embassies in the capital Baku. The suspects are all citizens of Azerbaijan, but are thought to be acting on behalf of Iran. This is the second time in the past year that authorities in Baku have made arrests over foiled terror plots. The defense minister of Azerbaijan just returned from a visit to Tehran aimed at shoring up ties after Iran condemned a USD 1.6 million arms deal signed by Baku and Jerusalem.

Tara got a vision of Robert doing something without using the ships; explains it

MR: she agrees with Tara

Since talking of Robert: found a cigar box with pictures and one of "Smiley Pickett"
Twice she was called that, then realized it was Robert's nick name in college.

T: they have a rosemary bush; it was Rama's Charlie Brown Christmas tree 2 years ago

It is in the window with pictures of Mother Mary and others, still with some Christmas decs on it

R: his understanding is that the Jinn have come back to love, as have the leprechauns

MR: 5 weeks after he made his transition, he came back and said it was possible to merge his energies with hers and it's been about 4 years of integration. At the time she looked in her journal to ask what is the purpose: to become galactic beings

The reason is so that **all can understand and know it is possible**

Cathy: when that happened to you 4 years ago, Angelsu said there is something different about the nature of her voice: fuller, stronger, more power - all on the team had felt the difference. And the voice has not changed

MR: an interesting journey: magical things happening in last week - watching things change. I'm alive and well, and enjoying the journey!

Cathy: it is such a unique thing - to hear all the things which have happened to Tara, Rama, MR - to see the joys and miracles in everyone's lives

MR: when we know someone who has had the experience, it raises everyone else.

Notes from Tara: Strife between Israel and Turkey seems to be growing deeper

Israel's counter terrorism bureau has issued a travel advisory, urging Israelis to avoid visiting Turkey. The bureau warns that terrorists are planning to carry out attacks against Israelis and Jews in Turkey in the coming days. According to Turkish media reports, Jerusalem informed Ankara that Iran had dispatched terrorists in order to target Israeli and other Jewish visitors. Turkey responded by warning Iran's

al-Quds force not to attack Israelis on Turkish soil.

The rift between Israel and Turkey seems to be growing deeper. This, after Turkish Prime Minister Recep Tayyip Erdogan told his parliament that Israel has conducted an "inhumane and systematic massacre" of the Palestinians in Gaza. Erdogan expressed concern over what he called "Israeli aggression" and referred to the Hamas-run enclave as "the world's largest prison."

Notes from Tara: Saudi student dissent in Abha spreads around the Kingdom

Al-Alam, Iran

Presenter, Female #1

The Arabic Network for Human Rights Information said the wave of indignation voiced by female student protestors at the King Khalid University has spread to six Saudi cities. Meanwhile, Saudi National Guard Chief Prince Mitaeb bin Abdullah bin Abed al-Aziz said that what happened in Abha is a "foreign phenomenon," instigated by certain foreign groups.

Reporter, Male #1

Here, at Abha University in the Saudi region of al-Qasim, a female student rally was held last Wednesday. The female students called for better educational and hygienic conditions at their university. However, security forces violently responded to their demands, killing one protestor and injuring dozens. This sparked a wave of indignation among university students. To the surprise of the Saudi regime, the student protests quickly spread from Abha to other regions across the Kingdom.

Reporter, Male #1

The Arabic Network for Human Rights Information said that student protests at King Khalid University have spread to the cities of Riyadh, al-Namas, Arar, Qatif, al-Rabi'yah, and Medina, in an unprecedented mobilization. The organization said that a student was expelled from Tiba University in the city of Medina after publicly criticizing the deteriorating conditions at the university, in what appeared to be a systematic treatment of students in most Saudi universities. The organization added that the Saudi authority's crackdown on its citizens will not lead to positive results. It further said that dialogue, and not violence and a crackdown, is the answer to this social mobilization. The organization also demanded that Saudi authorities learn the lesson of the popular Arab uprisings in the region. It added that demands for justice and honor in Saudi Arabia must be met with a change of policies based on the principles of freedom and human rights.

Guest, Male #2 (Adel al-Jujari, Saudi Affairs Expert)

A political mobilization is sweeping Qatif in the east, Abha in the west, and passing through the center of the capital. Many Saudi cultural and social classes are calling on citizens to break the cycle of silence and fear in the kingdom, which still adopts an old system of rule. This is the beginning of a new phase. Many citizens started to come out in full force in a bid to promote political awareness and reject this type of ruling system.

Reporter, Male #1

However, Saudi National Guard Chief Prince Mitaeb bin Abdullah bin Abed al-Aziz described demands for human rights in the kingdom as "illegitimate." Mitaeb said that what happened at Abha University is "a foreign phenomenon," and accused certain unnamed foreign groups of seeking to shake security and stability in the kingdom. He added that protests in certain countries of the region require authorities in the kingdom to exercise caution and fight what he described as "malicious actions" aimed at destabilizing the country.

WFP: Quarter of Yemenis urgently need food aid

Press TV, Iran

Anti-regime rallies have been held across Yemen, including the capital Sana'a and the southern city of Taiz. Demonstrators want the restructuring of the army, demanding the dismissal of relatives of deposed ruler Ali Abdullah Saleh. They also want him and his aides to be prosecuted for the killing of nearly 2,000 protestors since the revolution began last year.

A new survey has found that a quarter of the Yemeni people are in urgent need of food aid. The joint survey by the World Food Program and the UN Children's Fund shows that five million Yemenis are in need of food assistance. Some five million others are at risk of becoming food-insecure due to conflict and rising food prices. Acute malnutrition rates in some parts of the country are reported to be far higher than the WHO's threshold of 15 percent. Yemen is the poorest country in the Arab world, in part due to the former regime's widespread corruption.

Symbol of Palestinian displacement exhibited in Berlin

Palestine TV, Ramallah

Presenter, Male #1

In a crowded and official public festival held in Bethlehem, the key of return, affixed at the entrance of the Aida refugee camp, was transported to the Biennale art exhibit in Berlin.

Reporter, Male #2

Despite mixed feelings of joy and sorrow, a festive atmosphere dominated the official celebration at the Aida refugee camp. Hundreds of residents attended the celebration that saw a temporary transfer of the key of return from Bethlehem to the German capital, Berlin. This is the first international display of the embodiment of the issue of the Palestinian refugees.

Guest, Male #3 (Abdel Fahah Hamail, Governor of Bethlehem)

The key is a symbol of persistence. The truth is firm, and the return is a must.

Guest, Female #1 (Tulin Tuq, Key of Return Project Organizer)

This project will show the symbolism of the key, and will explain the right of return and the situation of the Palestinian refugees to the residents of Berlin, and many visitors from Europe.

Reporter, Male #2

The key, which is about 10 meters long and weighs two tons, is the biggest in the world. Not only does it symbolize the Palestinians, but it has also entered the Guinness Book of World Records.

Guest, Male #4 (Monther Abira, Aida Youth Center President)

This key will be an ambassador and a prophet of the Palestinian cause in Biennale, in Berlin, to show the Western world, and the Arab and Palestinian communities in the diaspora, the symbol of the

right of return.

Guest, Male #5 (Sohaib al-Aza, Festival Participant)

The story started when we placed the biggest key in the world at the entrance of this refugee camp on the 60th anniversary of the Nakba, and now it is going to the biggest exhibit in Berlin. God willing, it will get there safely, and shed light on our cause to the world and to everyone listening to us.

Reporter, Male #2

The youth, the elderly, the women and even the children wrote their names, the names of their villages, and slogans that assure they insist on attaining the right of return. They are all full of hope that the key and the tour to Germany will send a message to the whole world, urging them to help them attain justice and return to their homes. This is how Palestinians celebrated the participation of the key of return in an exhibit in Berlin, but they also felt sadness over being separated from the key for months. Alaeddin el-Abd, Palestine TV, Bethlehem.

Mother Sekhmet:

Greetings in the Light of the Most Radiant One; in the Office of the Christ, and only in the Office of the Christ, we invoke the loving energies of St. Germain and the Violet Flame

T: we ask for the BIG STORY: have been reading about what's happening in Middle East and where it's at

Greetings, Children of Ra!

Indeed, there are many wild events unfolding in your sector of the local solar system!

- The events are rippling out across many sectors which are witnessing the vibratory effects of our frequencies as we move into higher octaves. This is in concert with what we are witnessing around the sun.
- It is with great joy that . . . the scientists can only witness with jaws on the floor: it is about the technologies that are millions of years in advance; we are stepping into turf where we will be brought to the left and the right eye of the wisdom schools - Isis and Osiris - the every day magic of manifesting whatever we need This is not an amusement park; we are at liberty to create whatever we want - can be Shamballa, Agartha,

T: it's 9/11 mother

Mo: That is the real story here - 9/11 - we witness our children doing things we only read about in books that rival insanity that goes on in highest levels of the banana republic. It is not the soldiers that need to be hung, but the generals for sending people out to do these things - speaking of the 16 people killed

- It's about the schism that occurred when 9/11 occurred - that event changed the timelines which have been changed again and again. We will see an new Nuremberg - but they will not be going to Argentina, but will be here for all of us to see -
 - the new Nuremberg trials will have to do with the financial treason
- The cracks in the cosmic egg are . . . they know our craft are circling your sun; they know we have made contact with 3rd world countries; they are concerned with their roles [benefits], not with yours

T: it's a little different - you can actually work with crystalline energies

Mo: it is about what we have as co-creator gods - we all glow with the radiance of the suns

T: physicists talking about the .. vibrating

Mo: getting close to figuring out the Bosen particle

- they will have to begin to talk about the Shakti / Shiva energy:
- it's not about co-creating a spark in a long tube - - the god particle has nothing to do with what is happening in the lab, but all to do with coming together of the Twin Rays which is about creating universes
- We are the ones who began this story, we are the ones concluding it: time's up!
- It's about the fact that we will see world-wide mass arrests - any time. It is in free fall, no holds barred - from Mr Ho to Mr Putin, to anyone else - Like Anonymous has said: time for a shift in the wind - it's about how we change this story
- As we go from good government to learning how to govern ourselves through the Law of One. It is about the fact that all of them - they are us, we are them - we can work on finding a way into community through this law & how to communicate & look into each other's eyes and know divine compassion.
- The propaganda of one culture as opposed to another: has to do with the false ideas of what we believe through religions and war ; since the war of 1812, US has been doing preemptive strikes against other nations; high time it ceased. Gaia / Vywamus has said we will have peace! Any questions? Take it up with Mother
- High gear has kicked in about the fact that the Indigo Crystals will no longer tolerate war; the child soldiers will no longer continue to play with the war games.
- As Anonymous has said: over throw your governments - which are based on Hammurabi Law of an eye for an eye and a tooth for a tooth: leaving all blind and toothless
 - Africa - Uganda, Congo and elsewhere -
- This empire, China, Russia - all have to do with the ancient story from the land of Kennet and it ends in a moment: mass arrests world wide - has to do with the frequencies coming in - spring is springing forth in a force of love - the bull has a rose in his mouth! As we approach this equinox, we will do this with love

T: What about the countries who do not subscribe to the ICC?

Mo:

Caller: son of someone's friend being deployed to help with an earthquake that is going to happen Mar 22

T: **GOING TO HAPPEN???? you mean there is a planned one???**

Mo: these ones are so desperate: the 3 ring clowny clone circus - these ones are enlightened but they consciously chose to follow the dark side of the force

- It is in Mother's best interests to deal with them and in their best interest to join her in the cosmic centre - called "Second Death"
- Science is just beginning to get it about the vibration creating ecstasy - which is happening now
 - people can hardly contain themselves due to ascensionitis symptoms: chest pains are not a heart attack, but about to experience an orgasmic love!

T: we are going beyond photon physics: we can do whatever we can imagine - quantum leap from in to the galactic ???

MR: last earthquake in Japan? Real or manufactured?

T: the gnostic section of white dragon society have planted a nuke in Rome and Jerusalem if you mess with Tokyo!

Cathy: if this is a black ops and those who said they would get back at us .. what now?

T: Hillary needs to be arrested

Mo: what comes now is what we have been asking for - at what hour do we speak of the arrival of the master of peace?

- Do what we are doing at each moment - help others to wake up - Joe the Plumber, Dave the Carpenter are not going to understand and will need help - could happen any time, any where - we will see the frog march on our screens!
- This is the big gig: we are not sitting on the sidelines - it's about freedom; it's why we move across 7 super universes in service of the freedom of the mind - the children wanted to be masters of the universe and be dumbed down to 2 strands of DNA and just be breeders!

T: Arrest of Bill Gates, Pope to step down - just about disarmed
Why would Barack and Cameron go to a basketball game?

Mo: to talk about how to break the news

- It's about high treason! Why give Bradley Manning a life sentence for whistle blowing?

Cathy: what is going on with people like Bill Gates: is he being watched?

Mo: he is wearing an ankle bracelet, and a cop at the door 24 hours a day - the buddy system goes to the bathroom with them too!

Cathy: the recalcitrant ones, no matter what St G says: they will be re-constituted??

MO: they will be dissolved from this reality: they go back to the void and their substance becomes new universes - divine, cosmic gold dust

Cathy: that is something done in the rarest of rare moments

Mo: Yes; they violated the Prime Directive long, long ago. Peace will be restored

It is with great joy we say that all live forms will be given the respect they deserve

- **If we dropped the issue of colour, we could land today.**

Cathy: saw in an e-mail that in Australia that it is on the news there about the new currency and all

Mo: yes, it is - globally we are at a pivotal point; it's about access to all we know

- I am not doing this alone, honey; I need your help.
- It is not easy running a universe!

Caller: Speaking of Bill Gates - what did he do to get house arrest?

Mo: he has committed genocide, Ecocide & what he has done across time and space: concerning the inexhaustible amounts of money collected across the planet; HIV virus and other things

- He **did** upload the nanites into the satellites: when the word is given, Ashtar will speak to us concerning events, yet Mr Gates will have to answer for what he has done
- the rest of what he has done: did not give his money away - squirrelled it away
- cavorted with the devil; gave the money to other groups he was involved with and sent it to Hong Kong, Caymen Islands, Guam, Deutsche Bank, Merrill Lynch and other locations

T: how much money has been lost by people of colour:????

Cathy: would the back doors created by Gates enable the speculators to get hold of any large sums of money, especially the re-valuation of the dinar?

Mo: YES - makes no sense for us to get our dinars now when this is still going on and Rove, Bush, Cheney are still walking the streets!

- As we cash our dinars, we are labelled terrorists and we get the death penalties and they get our money

WE WILL NOT GET OUR MONEY UNTIL NESARA IS ANNOUNCED AND THESE ONES ARE GONE.

T: how will the 10 million be paid?

Mo: every man woman and child will receive their money, and will be instructed how to use it, invest it and guided every step of the way.

T: about Pokineau Mountains - we are meant to be in another dimension

Mother's Closing: Greetings in the light of the Most Radiant One!

Closing: Cathy
