T: asks that attention be brought to world peace and NESARA now.

Greetings, Children of Ra:

- Legions and legions of angels are dancing in the head of a pin
- Our world and you are going through great transfiguration, trans mutation as we return to the original DNA blueprint
- We understand the transmissions on the TV getting more & MORE chaotic; out of chaos comes order.

- Our wayward children are behaving very badly - telling goddess how her uterus is to be orchestrated! This is up to the goddess and not a bunch of smackals!
- Goddess is back, she is black and she is beautiful
- It is the story of how our children have taken the planet to brink; we have received ascension orders
- It seems as it has taken the 99% to get to this precision point of orchestration in the divine mind of the cosmos - after all, it has just arrived
- there is no New World Order, only an old world order: the clowny clone circus looking a bit frumpy around the gills; they look a bit silly telling goddess what she will do with her body - goddess began that way; it is now returning to the point of doing as she will with herself - the men would do well to step out of the way
- a bit of chaos at the moment & about the distractions: it's about the money, not about the weapons of mass destruction
 - we should be listening to the wisdom of the Sufi masters and **Omar Khayyám**
 - walk in nature; be with your beloved twin flame;

T: we lost our American reporter in Syria and an French one; + a Syrian reporter. The American woman had lost her eye in Syria last year

- Rachel covered the most important part that the US and the French reporters worked for the people and told their story: the Syrians held a whole night vigil for the two of them and to heal the

Mo: as people come together and realize that the 1% have called war on the 99% - they need to come together

T: the 1% are running for the hills

Mo: exchanging their currencies and trying to get a cab to get there they need to go - the Paraguay ranch is off limits, Mr Bush

Cathy: continues to boggle her mind that the 1% think they can control the 99%

Mo: it's about addiction: they are addicted to the fear and as they generate more fear, they are being fed - as we strengthen ourselves, they are starving

- the rift of the Milky Way Galaxy is sending powerful energy NOW: what will it be like in Dec???
- Either accept this energy or remove yourself from this reality
- this planet is on her destiny to become the star that is about freedom, that which has been prophesied: our ascension, our abundance; it's for people and every life form on the planet - it's about the creation and the DNA energies: as you work with the original, heirloom DNA - that is what is happening to us now.
- In this state of awareness, we are co-creating with the Logos and those sitting in front of the throne of the god
- The dumbing of us down to 2 strands of DNA is now changing and we are going back to 12 strands

- As we are bending light and becoming faster than light in our light bodies; as we are experiencing our light - as you look around, you can see us and vice versa - we can choose to stay or we can chose to go - we can go out of this dimension or not
- the better part of this story is to do it with this body; and the fun is just beginning, as the ascension energies are steadily increasing
- As we have the ability right now, what would we attempt to do if we could not fail? We have the ability as co-creator gods - there is a fuzz ball in the way at the moment!
- It is time for you all to pay your fair share; as you choose not to pay it, Beloved Ascended Master St G will take it from yourselves [of the 1%]
 - Dominique Strauss Kahn caught in a prostitution ring! Again!
- As you attempt to pull the wool over the eyes of anyone - the heroes of the celluloid screen hold no candle to us - we have won.
- Yet how do we begin to tell the story to Joe the Plumber and Homer Simpson? When the boss is a bit off and disappears - what will we say?
- Rana Mu said something galactics will be coming and so radical
- Sananda [Admiral] - never died; didn't die on the cross; never died at all - ascended from Mt Kilosh - just shows up whenever he wishes to
- it would be in the best interest of all of us to be in the energy of the Magdalene and Jeshu - it is healing the planet right now as we welcome the return of the sun [spring equinox] - we are experiencing transformational energies as we have never known - has to do with the god particle -
 - the god particle is created out of the divine energy of the Twin Flame energy
- Nancy Pelosi's daughter and Steve Colbert have it wrapped it up in a bag!
Nancy did a double interview on Rachel's show
- **Russ Feingold on Democracy Now**; is it in the best interest for the Super Pacs to receive funds from Jong Il of North Korea?
- money is not free speech; as Jim Hightower says when they execute one [a corporation!], we will know and as we take our power back with love and restore this planet back to a garden
- you are co-creator gods and the thought energy is the glue that manifests what we want out of this story as - we have the ability to manifest what we want, need and desire
Russ Feingold is so on the money - he is just a campaign manager
- On **Stephanie Miller**: already a done show, but has to be played out on the big screen so they get it [Dave the carpenter, Joe the plumber, Homer Simpson]
- As we understand it, the movie 2012 - the story in that movie is not what will happen
- the transformation is from within to without; as we change ourselves, we change the earth
Denver does NOT need to be a sea port; those stories are outlandish & still being discussed as it is about your point of view - as you change your attitude, things change

Closing: Cathy
