Tuning Forks: Solfeggio Frequencies

The frequencies in the tuning forks are not in any instruments we have today. The Solfeggio tones were used in the past and kept the monks balanced & healthy, using them eliminated fear, guilt, etc. Eventually the church suppressed their use, as control of people was their goal.

Add any of them together, they come out 3, 6, 9.

Tesla said if you understand the 3,6, 9 matrix sequence, you understand the structure of the universe

Ute - 396 Hz - #9 vibration - helps liberate us from guilt, fear, grief, past hurts

Re [ray] - 417 Hz - #3 vibration - facilitates change; letting go of old baggage; helps to clean chakras; reminds us we are worthy, a holy child of god

Mi [me] - 528 Hz - #6 vibration - Transformation and miracles; DNA repair; clears vibrations which are not in harmony with our being

Fa [fah] - 639 Hz - #9 vibration - connecting, relationships, family; supporting us as a co-creator; calls in the heart

Sol [soul] - 741Hz - #3 vibration - awakening intuition; helps us solve problems; balances right and left brain

La [lah] - 863 Hz - #6 vibration - helps us return to spiritual order; cleans the chakras - it reverses movement, restores order; clearing, returning to spiritual order

for 7th chakra, do all 6 together -

angel frequency - very high - 4686 Hz

earth - 136.1 Hz - finishes with this one to bring us back to the earth we live on

 - in the end, the station will be owned by Olberman and Gore will be arrested
- Cornell has invited others to be on this program [T & R's program]

R: the increased magnitude of what is happening: the bombardment of frequencies that are coming in - it feels like that at such a deep level

Story of John Yeu supposedly getting amnesty for writing the torture memoirs: John Nichols said he will be dealt with

- Ed Schultz, John Nichols had a woman on [Ed's radio program] today; she was the only other woman on Obama's team & was in the room - she is at the door when you see the pictures
 - a lady called up and said that was not the real Osama that was killed: the lady on the show said I know that but I cannot talk about it as a matter of national security

R: the lady in the room with Obama when they took out the fake Osama brought up the fact of Dr Judy Woods website: where did the towers go? Where did the toasted cars go?

- The Hutchison effect and the vapourizing to the towers - coming full circle to deal with what has not been dealt with
- He was assured that Ashtar and Sananda have the nukes under control; yet ideas are thought forms that have been created - as we can work with these folks, can't be in any kind of darkness

T: the drone targeting: gov't says it's legal but it's not: Hillary is pretty much making herself the dictator of the world

- Stephanie Miller' show: Cornell West was on, concerned about Medea Benjamin - in the hearing, she talked about the 16 year old who was killed in Yemen by a drone by Hillary, his father was a spiritual being
 - Hillary is doing all the wishes of all the families, as they come up, by her will

R: hard to talk about as it brings up heavy emotions; the messages of this week about

T: Medea said I love my country, you should be ashamed of yourself, as the cop dragged her out

• Magic Mary's son-in-law was in a terrible motor cycle accident - 27 years old; all ribs broken, lung punctured, neck broken

- her son has PDS from being in Afghanistan - will put all on list on Cheryl's call
- Family has only \$25 / week for food, can't afford gas for the car so use the motorcycle & works long hours - was very tired, hence the accident

T: Thom Hartmann's show: guest who said it was not really necessary to go to war, even WW II

R: the \$ being thrown at Walker is going into legal defence fund: he is guilty of murder with corporations and the Koch brothers

- Bernie Sanders is working to dismantle Citizens United, and return the checks and balances
- Many on Stephanie Miller's show talked about bringing back the Sherman Anti Trust Act -
 - those on Wall Street think they are gods & can call out privatized NYPD. use them on Occupy
 - the police were particularly brutal on May Day [here to support the corporation, not the people]
 - Occupy is affecting **all** the conversations, shattering the cages of the high and mighty

T: Rachel Maddow, May 1, had John Brennan on; he said

- that Barack is celebrating in his own way, having decapitated Osama and signed the framework

for withdrawing from Afghanistan

- also that he is running against a Republican opponent who chose as his spokesperson Dan Senor who was the face of George W Bush's face for the invasion of Iraq: Today, he is Romney's spokesperson for these issues
 - Bush Sr endorsed Romney, Bush Jr did not
 - Real Osama is in a brig under galactic control
- BO ordered **NO permanent bases built in Afghanistan** [that is HUGE] and bringing 23,000 to come home and maybe even more, maybe all - has to do with NESARA
- Republicans threatening to shut down the gov't in Sept - last year, over the deficit, this year to shut it down altogether - they will get a great surprise

T: there are some assets they want to re-deploy in South China Sea: Obama [aka Hillary] sent aircraft carriers to Middle East

R: Iran is all smoke and mirrors: no intentions of creating nukes as they already have them - this is a story about finances - Ahmadinejad has called on an alliance to talk about getting rid of US \$ and moving to a new currency called rainbow bills which are already in the bank & known to all

T: the statement of Obama about getting out of Afghanistan: Lindsay Graham guilty of 9/11 big time - he was part of getting nuclear secrets into the Turkish embassy in DC, then passing them to Mr Kahn of Pakistan who got them to all the rest in Middle East; another naughty one is Joe Lieberman

T: reminds us of when Bush Jr finished his statement at the UN, and then Hugo Chavez got up to speak and blessed the podium before he would speak!

- Bush Jr left the podium, walked in front of the crowd and kissed Lieberman on the mouth - ugly!
- They want continuous war to keep in power - keep the lobbyists in power, and the rollovers, etc

R: the pieces going on about Neil Keenan and the 35 Trillion has all to do with what we are talking about maybe Fox will be gone within 30 days [Fox is under News Corp]

David Bender comes on Stephanie Miller, Ring of Fire all the time;

- California: Kudos to Gov Gerry Brown is putting it to the vote in December about raising taxes - will be on the ballot - anyone over \$250,000 will have raised taxes

- suggestion on Thom Hartmann: why don't we make it a requirement for those who have guns to be vetted and to be insured - or else you cannot conceal a weapon -
 - same requirement as for driving a car - a driver's license and insurance
 - we have 300 million guns in this country; Yemen has half as many guns

R: Fallacy that Obama will take away guns - a 2nd amendment right and he won't touch it

- This is all really about Jim Crow laws & hate crimes going on now: want to take one man down

T: in Japan, a parakeet flew into a hotel and sat on a woman's shoulder - she called police and they came and took the blue parakeet to the station; on the 2nd day, the bird told the police the address and phone number of the owner: she had taught the birds this info so they would not get lost!

Rare for such a tiny bird to talk!

- Uplifting story: a Japanese man found his motorcycle that was lost in the tsunami last year - turned up on the Canadian coast, returned by a Canadian. The 29 year old lost 3 of his family and his home
- School Lessons in Nepal - English, Italian available - as the people learn this, they are learning computer stuff and go to these countries and get a job and send the money home to help their people
 - supported by wealthy visionaries

Mother:

In the Office of the Christ and only in the Office of the Christ; we invoke the loving energies of St. Germain and the Violet Flame

T: We ask at this time that the common denominator of peace and love be to secure the peace in our hearts, in our families, in our neighbourhoods

- and whatever we can do to speed up this peace process

Greetings, Children of Ra:

the drum beat, heart beat we hear is the sound resonating across universe of Nebadon

- heart beat of the planet has risen a notch - double, triple timing: not a slow dance but about the frequencies of a dust mite on the back of a cat - a day in the life in one of the spiral arms of the galaxy, in the expansion of what is occurring
- About the whole situation - we have arrived at our own ascension by our own selves - what is occurring is we are calling ourselves to active duty - what happens has to do with our own inner nature
 - this correlates with what is happening in our own bodies: the ascension frequencies are awakening in every cell!
 - This increases the frequencies for us and for her children -

- arrests are occurring whether you see it or not - at the highest levels: Charles Taylor is a huge story!
- Everything else falling into place
 - Eric Holder was delivered a contempt of Congress today -
 - Holder is part of Wall Street, and Main Street is called in to bring to account -
 - Madoff not off the hook; Chris Christie, Marco Rubio -
 - who is going to make it in the big picture, little story? everyone will make it, but she will have to take her children on a little journey to the void and they will become new universes
- If you live in the city and see grass growing through concrete - know you cannot stop the goddess
 - Gaia / Vywamus are in control; best is yet to come - much to see and much to do!
- The story is how we make it as co-creator gods;
 - you are equal with us as co-creator gods who said teach us how to love, how to create with a single thought: you have the ability
 - that is why the decrees are being put out: as you see it, so it is So be it! Enshallah!
- We are a unified field, nothing stands in the way of that field - it is possible to create miracles with this field, and this is what is occurring on the planet - everyone who is part of the whole and has said enough is enough
- We are here and lined up with our yanni, the primordial creative force - we are being asked to be part of the creation story and participate and make a decision of how things are done at this table of living light, living light
 - when one of us is healed, we are all healed
- these moment leading up to the Wesak story - the lady destined to sit on the true Stone of Scone, along with her king, it shall be done: the crescent moon and the star and the healing comes with the true Merovingian line-up - this is where things went awry moons ago with the ancient story and they thought they could control the planet and her people
 - This is ending, the people have the power and it is being used: let us bring it up another octave

T: there is a lot of stuff amiss, Mother

Mo: you will see a lot

T: another story - when BO left Bagram air base, two bombs were set off - story is because he is not welcome there - who did it? Karsai is a criminal

Mo: Lao Tse, Buddha are the same energy - the destroyed Buddhas will be restored with our technologies - there are holographic images where they used to be

T: the reason things are going sideways, they know that NESARA is coming and

Mo: like Mc Connell said, we are going to break this slave!

T: it's why Gov Scott in Florida is allowing guns to let people get hurt

- Mo:** think they can create false flag incidents - we are here! It is a fallacy to think they can create
- The justice league of the planet is about to be formed - we have the siddis the magic energies to create - never lost it, just forgot it -
 - We met some crystal children this week in Santa Fe; the crystal children let us know that there is a piece - we are amongst you and you don't know it
- What about the monoliths on Mars, and the real presence that we have always been here - and they are going to ban hoodies??? a bad joke!
 - the original people from Sirius A , Sirius B - black as coal! Black is beautiful - can't heal it if we don't tell the stories of the 13 tribes; all began as black -
 - this is the connection that is part of the healing for all cultures that have some missing pieces of the puzzle: why do I feel this way? Why do I have visions? We are looking at our life streams in the Akashic Records: it is being released to the people - you ask and so it is, yet don't overload

yourself - we know enough to shut the screen when we have had enough upload, download

- We will be calling you for active duty when you least expect it

T: learned that the communist system used the Iroquois system of sharing

Mo: We are all one in this tribe, this culture.

Remember the story **Avatar**: a reflection of what is occurring across our heavens -

- all the people coming together across our universe - rainbow ract -there are 12 races, and they are coming together - the seeds have been sown - coming to pass on the highest levels across this planet - manifesting how accountability has been
- the talking heads etc who have the technology to get this planet back on track - Dr Cornell West & others serving Obama; Ed let a cat out the bag when he had a private meeting with Obama with Cornell West and we were told about some of the pieces of the picture - all Ed said was it was about a new money system!

MR: when they talk about the new money system, what is your vision of how it will unfold?

Mo: will start with Fed Reserve which needs to be trashed and will start with new currencies based in precious metals

- Euro destined to fail; EU will break up into own nationalist states, get back own currencies
- precious metals will back each country

T: all the people who are wealthy will not be so any more: will get no money in the new system

- this is how the Cabal will be broken - out of power and out of money for real - will get arrested
- cabals have been having problems for over a year: the tony sopranos refuse to work for them

Mo: when talking about the re-structuring: mass arrests & holding those accountable in the central banks who used the game called rollovers to line their pockets and send the people to the gas chambers

T: we are the ones who took out the economy - the Glass Steigal Act of 1935 said if you are a commercial bank, you cannot gamble -

- In the 80s under Reagan - really Bush Sr - this was repealed; Goldman Sachs became one of the first investment banks
- Actually, happened in the 70s Thatcher deregulated in UK; Carter did it here
- All of this was a plan to take over the world when everyone was dirt poor -
- TAKE MONEY OUT OF BIG BANKS - DON'T DIVERSIFY THE 401K - put it in a credit union
- don't make any investments, as the hedge funds

Mo: the markets have been set up to be criminal and not serve the little guy

T: the new world economy - will have a semi-permanent membrane for "national sovereignty"

- there will be common denominators for peacefulness - a world community rules of law shared across the board

MR: what about the liens filed against the Fed?

Mo: that has not gone away, it is intensifying - all central banks on the planet have liens against them - they will be dealt with by proper rule of law which has to do with accountability to we the people

- This is breaking the shores now in terms of how factual news stories are presented: the whole idea of journalism is not fake news but about giving us actual factual info like Jeremy Scahill and Amy Goodman -
- banks have liens which are being executed of how the accountability and the money is being restored to us, the people

Caller: will dinar be revalued; will the rate be high or low?

Mo: cannot give rates for dinar - yet should be quite high

- the dinar and the RV has to do as we are moving from a place of consciousness to one of peace -
- in the moment, as the crystallized manifestation of what we have been waiting for - being discussed

T: not just about dinar revaluation - for 10x less, you will get 10x MORE in terms of value -

Mo: this can happen very quickly, as we witness the changeover and the cabal are gone, and those in place represent the hearts of the people, not their wallets!

Caller: wants to talk about animals: they seem to be coming much more conscious

- Saw the story of 2 dogs, one blind, both homeless: the one who was blind from birth, had seizures; other was on the streets - she began to walk the blind dog on a leash; his seizures stopped; she was fearful but she healed also - showed the world how love heals
- Caller sees it in her cats and dog

Mo: you are correct - animals, flora - all waking up; animals have much to teach us as we get our abilities back, you will know what your dog says or means, whether she barks or not

Caller: is this happening with all animals across the planet?

Mo: Yes, story on Stephanie Miller today - 2 bears in the trees in Vermont; the bears would not leave the trees around the governor's mansion; lured the bears down with honey into the big kitty play houses to eat the honey and took them away unharmed - and, BTW, the Gov is fine!

T: a story about sharing: a man on Thom Hartmann said we need an anonymity economy, rather than a growth economy because we cannot pull any more resources out the the planet - not about money but about much sharing as much as we have been competing

- also has read somewhere: we are in charge of the angels!!!
- Not about how much money we are going to make with the currency revaluation; it's about how much more love and sharing can we do, and how can we re-create community

Mo: How can I begin to create more opportunities for people to experience more love at this moment?

T: when we get closer to the way the Iroquois were living - in the oral tradition have better memories!

- We stash things in boxes or folders

Rainbird: about WH correspondents dinner - he said a lot of stuff about dogs - why were there so many dog stories: is this a teaching like the "I like pie/pi" moment?

Mo: bringing back to the conversation that he is from the Dog Star, Sirius A, Sirius B

T: his father did really teach him to eat dog met in Indonesia

T: also about you are not good dogs

- Cornell West said BO was like a dare devil - he had a real depth of meaning, very intelligent jokes - better than Jimmy Kimmel!

Rainbird: it was OC 9, a dog day [that this happened on]

Caller: about taking care of each other - continuing to evolve our Unity Consciousness

- thanks to MS for sacred knowledge and all she is doing
- Also asking MS for her grace and her guidance: she has discovered that her ex gurus is one of the darkest soul and being in the cosmos and that the guru has found the caller's light work is a threat - doing a numbe of things to caller and family - she works with reptilians, etc
- how can she free her life of this? She will finish what she has started and serve the light to the end, yet how to deal with & gives name of guru

Mo: you are surrounded by the angels who sit before the throne of the Father

- you have the ability as a co-creator god to send this one back to the void where she came from

T: make sure you do some work with any kind of vows, agreements you might have made - this being has done this in many, many lifetimes

Mo: cut all ties, all cords, all connections to any form of that energy - send it back to where it came from, as it is asking for its own awakening and for healing for itself

- Rama/ Mother met ?? in the 60s - that man had the shakti; she played with his power You have the ability to share the wisdom of the ages and high time that we all get with the program!

T: there is always some good in everything - glean the good , remain neutral & don't blame anyone; if you do blame, you have cords again - this is a lesson for all of us!

- There is no fault, fault does not exist

Mo: This is a soul at such a deep level who is crying for more loving; sees the darkness encroaching on the planet and does not know how to stop it or from stopping the darkness from getting her

T: the energy/darkness is bigger than anyone can realize

Mo: as Yoda said "Never play with the dark side!"

Caller: is there any part of her that wants to grow? Or do I just cut all cords with her?

T: Give her the space to have dignity to disengage so she can see clearly without you [the caller] in the middle

Caller: thank you, thank you, thank you

Summary:

- In these moments, as we approach Wesak - understand that the Buddha, the energy of the Cosmic Christ, he is here and he will make himself known - his ship is already here with all the other ships
- We are at the moment where we can begin to have the conversation of how we like our tea!

Closing: Rainbird

- Gives gratitude to all the 7 sacred directions; for all who have shown up in their lives, for all the ways we have to come to our heart spaces; for the tool of Ho'o po'no po'no
- No evil and long life!

Verdict: Rupert Murdoch “Not a Fit Person” to Run News Corp

Stephen: Not even the power of the \$57 billion News Corporation under his belt nor a prestigious world ranking among Forbes' wealthiest billionaires has been able to save Rupert Murdoch from the glare and ignominy his newspaper and TV media empire usually puts other people under.

The British Culture, Media and Sport Select Committee has today handed down a verdict that many were expecting. But is dramatic and powerful nonetheless. The repercussions will be even more interesting – not just in Britain but wherever News Corp owns any media outlets.

As Archangel Michael said on An Hour With An Angel yesterday, and as we will we should do with anyone who has flirted with the dark in this lifetime, send him all our love and light.

Rupert Murdoch ‘Not Fit’ to Lead Major International Company, MPs Conclude

Select committee also says James Murdoch showed ‘wilful ignorance’ of extent of phone hacking at News of the World

By Dan Sabbagh and Josh Halliday, The Guardian – May 1, 2012

<http://www.guardian.co.uk/media/2012/may/01/rupert-murdoch-not-fit-select-committee>

Rupert Murdoch is “not a fit person” to exercise stewardship of a major international company, a committee of MPs has concluded, in a report highly critical of the mogul and his son James’s role in the News of the World phone-hacking affair.

The Commons culture, media and sport select committee also concluded that James Murdoch showed “wilful ignorance” of the extent of phone hacking during 2009 and 2010 – in a highly charged document that saw MPs split on party lines as regards the two Murdochs.

Labour MPs and the sole Liberal Democrat on the committee, Adrian Sanders, voted together in a bloc of six against the five Conservatives to insert the criticisms of Rupert Murdoch and toughen up the remarks about his son James. But the MPs were united in their criticism of other former News International employees.

The cross-party group of MPs said that Les Hinton, the former executive chairman of News International, was “complicit” in a cover-up at the newspaper group, and that Colin Myler, former editor of the News of the World, and the paper’s ex-head of legal, Tom Crone, deliberately withheld crucial information and answered questions falsely. All three were accused of misleading parliament by the culture select committee.

Rupert Murdoch, the document said, “did not take steps to become fully informed about phone hacking” and “turned a blind eye and exhibited wilful blindness to what was going on in his companies and publications”.

The committee concluded that the culture of the company’s newspapers “permeated from the top” and “speaks volumes about the lack of effective corporate governance at News Corporation and News International”.

That prompted the MPs’ report to say: “We conclude, therefore, that Rupert Murdoch is not a fit person to exercise the stewardship of major international company.”

James Murdoch is described as exhibiting a “lack of curiosity ... wilful ignorance even” at the time of the negotiations surrounding the 2008 Gordon Taylor phone-hacking settlement and into 2009 and 2010. The younger son of Rupert Murdoch is criticised for failing to appreciate the significance of the News of the World hacking when the “for Neville” email first became public in 2009 and during subsequent investigations by parliament in February 2010 and a New York Times report in September 2010.

“We would add to these admissions that as the head of a journalistic enterprise, we are astonished that James Murdoch did not seek more information or ask to see the evidence and counsel’s opinion when he was briefed by

Tom Crone and Colin Myler on the Gordon Taylor case,” the select committee said.

Even if James Murdoch did not appreciate the significance of the £700,000 Taylor payout, the committee concluded it was “simply astonishing” that he did not realise that the “one ‘rogue reporter’ line was untrue” until late 2010, after a previous inquiry by the culture select committee which ran during 2009 and reported in February 2010.

According to minutes published by the committee, the MPs were almost unanimous in their criticism of Hinton, Myler and Crone.

Rebekah Brooks, the former News of the World editor and News International boss, was largely spared from the MPs’ criticism. The report said that it would not draw conclusions on evidence to the committee about Milly Dowler, the murdered schoolgirl whose voicemail messages were hacked by the News of the World in 2002, because of an ongoing police investigation into Brooks.

However, the MPs said that Brooks must take responsibility for “the culture which permitted” unethical newsgathering methods over Dowler in 2002. The MPs said: “The attempts by the News of the World to get a scoop on Milly Dowler led to a considerable amount of police resource being redirected to the pursuit of false leads.”

Brooks is on police bail after being arrested as part of Scotland Yard’s investigation into phone hacking on 17 July 2011 and, separately, on suspicion of conspiracy to pervert the course of justice along with her husband, Charlie, on 13 March this year. Brooks denies knowledge of or involvement in phone hacking or other illegal activities.

The culture select committee charged Hinton with being “complicit” in a cover-up of wrongdoing at Rupert Murdoch’s media empire.

MPs said that Myler and Crone deliberately withheld crucial information and answered falsely questions put by the committee.

The executives demonstrated contempt for parliament “in the most blatant fashion”, the MPs said, in what they described as a corporate attempt to mislead the committee about the true extent of phone hacking at the News of the World.

The MPs said that Hinton, executive chairman of News International until December 2007, had “inexcusably” mislead the committee over his role in authorising the £243,000 payout to Clive Goodman, the former royal editor convicted of phone hacking in January that year.

“We consider, therefore, that Les Hinton was complicit in the cover-up at News International, which included making misleading statements and giving a misleading picture to the committee,” the MPs said.

Crone and Myler were accused of deliberately misleading the MPs on the culture select committee in 2009 and again in 2011 about their alleged knowledge that phone hacking went beyond a single “rogue reporter” at the now-closed Sunday tabloid.

“Both Tom Crone and Colin Myler deliberately avoided disclosing crucial information to the committee and, when asked to do, answered questions falsely,” the MPs said in the report.

All three executives now face the prospect of being called to apologise before parliament, in a constitutional move that has not been used for almost half a century.

The report could prove especially problematic for Myler, who is only five months into his editorship at the New York Daily Post.

The select committee said it would table a Commons motion asking parliament to endorse its conclusions about misleading evidence.

News Corp said in a statement: “News Corporation is carefully reviewing the select committee’s report and will respond shortly. The company fully acknowledges significant wrongdoing at News of the World and apologises

to everyone whose privacy was invaded.”

Rupert Murdoch ‘not fit’ to lead major international company, MPs conclude

Select committee also says James Murdoch showed ‘wilful ignorance’ of extent of phone hacking at News of the World

With the \$57 billion News Corporation under his belt, a prestigious ranking among Forbes’s wealthiest billionaires in the world, and a pending deal that would allow him to take over [BSkyB], it’s really not such a bad way to turn 80.

[Rupert Murdoch](#) is “not a fit person” to exercise stewardship of a major international company, a committee of MPs has concluded, in a report highly critical of the mogul and his son James’s role in the News of the World phone-hacking affair.

The Commons culture, media and sport select committee also concluded that James Murdoch showed “wilful ignorance” of the extent of phone hacking during 2009 and 2010 – in a highly charged document that saw MPs split on party lines as regards the two Murdochs.

Labour MPs and the sole Liberal Democrat on the committee, Adrian Sanders, voted together in a bloc of six against the five Conservatives to insert the criticisms of Rupert Murdoch and toughen up the remarks about his son James. But the MPs were united in their criticism of other former News International employees.

The cross-party group of MPs said that Les Hinton, the former executive chairman of News International, was “complicit” in a cover-up at the newspaper group, and that Colin Myler, former editor of the News of the World, and the paper’s ex-head of legal, Tom Crone, deliberately withheld crucial information and answered questions falsely. All three were accused of misleading parliament by the culture select committee.

Rupert Murdoch, the document said, “did not take steps to become fully informed about phone hacking” and “turned a blind eye and exhibited wilful blindness to what was going on in his companies and publications”.

The committee concluded that the culture of the company’s [newspapers](#) “permeated from the top” and “speaks volumes about the lack of effective corporate governance at [News Corporation](#) and News International”.

That prompted the MPs’ report to say: “We conclude, therefore, that Rupert Murdoch is not a fit person to exercise the stewardship of major international company.”

James Murdoch is described as exhibiting a “lack of curiosity ... wilful ignorance even” at the time of the negotiations surrounding the 2008 Gordon Taylor phone-hacking settlement and into 2009 and 2010. The younger son of Rupert Murdoch is criticised for failing to appreciate the significance of the News of the World hacking when the “for Neville” email first became public in 2009 and during subsequent investigations by parliament in February 2010 and a New York Times report in September 2010.

“We would add to these admissions that as the head of a journalistic enterprise, we are astonished that James Murdoch did not seek more information or ask to see the evidence and counsel’s opinion when he was briefed by Tom Crone and Colin Myler on the Gordon Taylor case,” the select committee said.

Even if James Murdoch did not appreciate the significance of the £700,000 Taylor payout, the committee concluded it was “simply astonishing” that he did not realise that the “one ‘rogue reporter’ line was untrue” until late 2010, after a previous inquiry by the culture select committee which ran during 2009 and reported in February 2010.

According to minutes published by the committee, the MPs were almost unanimous in their criticism of Hinton, Myler and Crone.

Rebekah Brooks, the former News of the World editor and News International boss, was largely spared from the MPs’ criticism. The report said that it would not draw conclusions on evidence to the committee about Milly

Dowler, the murdered schoolgirl whose voicemail messages were hacked by the News of the World in 2002, because of an ongoing police investigation into Brooks.

However, the MPs said that Brooks must take responsibility for “the culture which permitted” unethical newsgathering methods over Dowler in 2002. The MPs said: “The attempts by the News of the World to get a scoop on Milly Dowler led to a considerable amount of police resource being redirected to the pursuit of false leads.”

Brooks is on police bail after being arrested as part of Scotland Yard’s investigation into phone hacking on 17 July 2011 and, separately, on suspicion of conspiracy to pervert the course of justice along with her husband, Charlie, on 13 March this year. Brooks denies knowledge of or involvement in phone hacking or other illegal activities.

The culture select committee charged Hinton with being “complicit” in a cover-up of wrongdoing at Rupert Murdoch’s media empire.

MPs said that Myler and Crone deliberately withheld crucial information and answered falsely questions put by the committee.

2012, MAY 1 **RFK assassination witness tells CNN - There was a second shooter**

Thanks to Jean Haines. The truth about the assassination of Robert Kennedy is just one of the stories that will be revealed when our true history comes to be disclosed.

Los Angeles (CNN) – As a federal court prepares to rule on a challenge to Sirhan Sirhan’s conviction in the Robert F. Kennedy assassination, a long overlooked witness to the murder is telling her story: She heard two guns firing during the 1968 shooting and authorities altered her account of the crime.

Nina Rhodes-Hughes wants the world to know that, despite what history says, Sirhan was not the only gunman firing shots when Kennedy was murdered a few feet away from her at a Los Angeles hotel.

“What has to come out is that there was another shooter to my right,” Rhodes-Hughes said in an exclusive interview with CNN. “The truth has got to be told. No more cover-ups.”

Her voice at times becoming emotional, Rhodes-Hughes described for CNN various details of the assassination, her long frustration with the official reporting of her account and her reasons for speaking out: “I think to assist me in healing — although you’re never 100% healed from that. But more important to bring justice.”

“For me it’s hopeful and sad that it’s only coming out now instead of before — but at least now instead of never,” Rhodes-Hughes told CNN by phone from her home near Vancouver, British Columbia.

Sirhan, the only person arrested, tried and convicted in the shooting of Kennedy and five other people, is serving a life sentence at Pleasant Valley State Prison in Coalinga, California.

The U.S. District Court in Los Angeles is set to rule on a request by the 68-year-old Sirhan that he be released, retried or granted a hearing on new evidence, including Rhodes-Hughes’ firsthand account.

At his 1969 trial, Sirhan’s original defense team never contested the prosecution’s case that Sirhan was the one and only shooter in Kennedy’s assassination. Sirhan testified at his trial that he had killed Kennedy “with 20 years of malice aforethought,” and he was convicted and sentenced to death, which was reduced to life in prison in 1972.

After the trial, Sirhan recanted his courtroom confession.

In the recent federal court filings, state prosecutors led by California Attorney General Kamala Harris argue that even if there were a second gunman involved in the Kennedy shooting, Sirhan hasn’t proven his innocence and he’s still guilty of murder under California’s vicarious liability law.

Sirhan’s new legal team disputes Harris’ assertion about that state statute.

Their current battle has prosecutors and Sirhan’s new lawyers engaging directly the merits of new evidence — as well as witness recollections such as Rhodes-Hughes’ account — never argued before a judge.

Prosecutors under the attorney general are contending that Rhodes-Hughes heard no more than eight gunshots during the assassination. In court papers filed in February, Harris and prosecutors argue that Rhodes-Hughes was among several witnesses reporting “that only eight shots were fired and that all these shots came from the same direction.”

Sirhan’s lawyers are challenging those assertions.

In a response also filed in federal court in Los Angeles, the defense team led by New York attorney William Pepper contends that the FBI misrepresented Rhodes-Hughes’ eyewitness account and that she actually had heard a total of 12 to 14 shots fired.

“She identified fifteen errors including the FBI alteration which quoted her as hearing only eight shots, which

she explicitly denied was what she had told them,” Sirhan’s lawyers argued in February, citing a previously published statement from Rhodes-Hughes.. In this NBC photo taken in 1965, TV actress Nina Roman, today known as Nina Rhodes-Hughes, left, and her “Morning Star” co-star Elizabeth Perry, right, meet Robert F. Kennedy at NBC’s Burbank studios. Two and a half years later, Rhodes-Hughes witnessed Kennedy’s assassination.

The FBI and the California attorney general’s office both declined to comment to CNN on the controversy over Rhodes-Hughes’ witness account since the matter is now being reviewed by a federal judge.

Rhodes-Hughes was a television actress in 1968 who worked as a volunteer fundraiser for Kennedy’s presidential campaign.

The FBI report indicates that Rhodes-Hughes was indeed inside the kitchen service pantry of the Ambassador Hotel during the crucial moments of the Kennedy shooting, but she contends the bureau got details of her story wrong, including her assertions about the number of shots fired and where the shots were fired from.

Rhodes-Hughes, now 78, tells CNN she informed authorities in 1968 that the number of gunshots she counted in the kitchen pantry exceeded eight — which would have been more than the maximum Sirhan could have fired — and that some of the shots came from a location in the pantry other than Sirhan’s position.

Robert Kennedy was the most seriously wounded of the six people shot inside the hotel pantry on June 5, 1968, only moments after the New York senator had claimed victory in California’s Democratic primary election. The presidential candidate died the next day; the other victims survived.

The Los Angeles County coroner determined that three bullets struck Kennedy’s body and a fourth passed harmlessly through his clothing. Police and prosecutors declared the four bullets were among eight fired by Sirhan acting alone.

Rhodes-Hughes tells CNN the FBI’s eight-shot claim is “completely false.” She says the bureau “twisted” things she told two FBI agents when they interviewed her as an assassination witness in 1968, and she says Harris and her prosecutors are simply “parroting” the bureau’s report.

“I never said eight shots. I never, never said it,” Rhodes-Hughes told CNN. “But if the attorney general is saying it then she’s going according to what the FBI chose to put into their report.”

“There were more than eight shots,” Rhodes-Hughes said by phone. She says that during the FBI interview in her Los Angeles home, one month after the assassination, she told the agents that she’d heard 12 to 14 shots. “There were at least 12, maybe 14. And I know there were because I heard the rhythm in my head,” Rhodes-Hughes said. She says she believes senior FBI officials altered statements she made to the agents to “conform with what they wanted the public to believe, period.”

“When they say only eight shots, the anger within me is so great that I practically — I get very emotional because it is so untrue. It is so untrue,” she said.

Contacted by CNN for comment, Sirhan lead attorney William Pepper called the alleged FBI alteration of Rhodes-Hughes’ story “deplorable” and “criminal” and said it “mirrors the experience of other witnesses.”
