

Orienteering at Cotgrave Country Park in conjunction with Nottinghamshire County Council and Friends of Cotgrave Country Park

Welcome to the Country Park and its orienteering course.

To complete the course you should visit each marker in any order. These are identified with a number and reference position on the map overleaf.

- Each marker had been crafted as a silhouette reflecting the history of the park, its wildlife or leaves of different trees found here. There are clues on the recording section of the leaflet to help you identify the object on the marker e.g. L E A F
- Each of the markers is situated near to where you may be able to see the features shown. Some may remind you that the park has been created following the closure of Cotgrave Colliery.
- There are five markers corresponding to the lives of the people who used to work at the colliery and are intended as a tribute to them and as a remembrance to the heritage of the colliery.
- There is one special marker (number 17) which is totally different. This one is for you to use your imagination and write down what you think when you see it.

Please respect the markers, a lot of time and effort has gone into their construction.

We hope you will have fun finding them.
Enjoy your time spent in the country park.

This leaflet has been produced by the Friends of Cotgrave Country Park with help from Nottinghamshire County Council.
