

**INFORMATION REGARDING CALLS PRESENTED AND/OR SUPPORTED BY
2013 RAINBOW ROUND TABLE**

I TO ACCESS THE THREE WEEKLY CALLS via the Internet

A BBS RADIO Go To www.bbsradio.com; click on Talk Radio Station #2; click on "64K Listen"

Thursday: 9 pm – 12:00 pm EST **Stargate Round Table** **Host: Marietta Robert**

Friday: 9 pm – 2 am EST **Friday Night Hard News** **Hosts: T & R**

Saturday: 4:30 pm – 2 am EST **History of our Galactic World & NESARA** **Hosts: T & R**

Friday, Saturday: From **10 – 11 pm EST**, for one hour, the call moves to the Conference Call Line [PIN below] and then returns to BBS Radio.

- Use the following phone numbers to ask questions or make comments during the radio show.
 - 530 - 413 - 9537 [Line 1]
 - 530 - 763 - 1594 [Line 2]
 - 530 - 646 - 4187 [Line 3]
 - 530 - 876 - 9146 [Analog 4]
- **BBS Toll Free # in Canada, US 1 – 888-429-5471** - picks up whichever line is available.

B Conference Call 1-209-647-1600

Thursday PIN #	87 87 87#
Friday PIN #	23 23 23#
Saturday PIN #	13 72 9#

C Skype **BBSradio2**

D Archives for the 3 Programs listed above

- To access the **FREE BBS archives** for any of these programs:
 - Go to BBSRadio.com; scroll down the column on the left hand side and click on "Live Radio Shows"
 - The next page which comes up lists the programs alphabetically under the picture of the presenter. Find MariettaRobert's picture: Stargate Roundtable with Marietta Pickett and RIGHT click on "Library Archives".
 - When that screen comes up, LEFT click on the date you want. It opens in a new tab – you'll see the "free to listen box"; inside it is the tab that allows you to play the podcast.
- The **2013 Round Table website also has an archive section:**
<http://2013rainbowroundtable.ning.com/> See the **"Archives"** tab for written notes.
- Listen-in live 24/7 via conference phone dial 716-748-0144

II TO ACCESS OTHER CALLS SUPPORTED BY 2013 Rainbow Roundtable

A Sunday, Mondays: 9 – 10:30 EST **Cheryl Croci's Activation Calls**
By telephone only: 1 – 605-475-5950 PIN 9467441#

**B Tuesdays, 2nd & 4th of each month:
9:30 – 11:00 pm EST** **Ashtar on the Road**
Host is Fran; Susan Leland channels Ashtar, Sekhmet & others
www.Ashtarontheroad.com

- Phone Number: 1 – 695-562-3140; PIN 163731#
- Call is free [except for long distance charges]
- Can also listen to the call via Skype

C Wednesdays: 7:00 – 9:00 EST **The Friends of The Aboriginal Moabite Nation Call**
By telephone only: 1-712-432-0900 PIN 666238#
Replay # [good for 1 week] 1-712-432-0990 PIN 666238#

Host: MariettaRobert

Meditation: Angelsu

Mayan Calendar: Rainbird **Go to Spacestationplaza.com** – to locate specific days & lots more information: just keep scrolling down!
Can find a link to www.lawovertime.org – more info on the calendar and how the 28 day / moon cycles work.

27th Thurs - **3 CIMI** – begin the 10 portal days; good to have them in the wave of Kan, the seed. We started this wave on Tuesday - the seed is the beginning; the flowering of our ideas; also a healer energy – don't have any limitation on our potential!
• the 1st portal day represents the lowest part of our body; 3 is # of activation, seeing the links between dimensions; our task is forgiveness, moving into a state of grace
• We are world bridgers.

28th Friday – **4 MANIK** – another portal day; the hand 4 energy: a healing aspect. Use the energy to do healing work; it's also the deer – healing self and others, creating contentment & peace.

29th Sat – **5 LAMAT** – the star gate; a visionary aspect, about opening the stargate – bring out your pioneer spirit! We have the power to see beyond the stargate.

30th Sun – **6 MULUK** - another portal day: we're really working the energy that comes to us; the rhythmic energy of the moon, the artist aspect – wise use of rational mind; using our telepathic gifts; it's a full moon.

31st Mon – **7 OC** - the dog – unconditional love; 7 is the mid point, the top of the mountain place

1st Sept Tues – **8 CHEUN** - the monkey energy; balancing work and play; harmonic resonance, galactic energy; working with magical artistry, the fine tuning energy of 8

2nd Wed – **9 EB** – 9 is completion of the cycle; EB the human, our healer aspect; activating cosmic consciousness

3rd Thurs - **10 BEN** – manifesting the warrior aspect; we have strength with this energy and the ability to bend dimensions: this is a powerful week!

MR: we'll tune into Rainbird in the etheric next week when she'll be on a vision quest.

Introductory Items

1. To listen to the entire program: Please use the following audio link

<http://bbsradio.com/podcast/stargate-round-table-august-27-2015>

2. TOLL FREE CALL IN #: 1 – 888 – 429 – 5471 – toll free for Canada and the US

3. BBS Phone Line: 1-716-748-0144 [no pin required] – can listen to this 24/7

Astrology: Annie Rose

- Talked to her son this week: she made her transition 2 weeks ago – had had small heart attacks before which was why she was in hospital and rehab; was at home, though not back to her normal self. She had another heart attack and left us.
- We honour our connections with her and what we learned from her.

HARD NEWS

T: pretty hairy out there! It's the nature of the time we're in; the I Ching says it's not time to move forward – some serious things going on, especially with the refugee stories

- **Migrant story in Europe / North Africa**

- Some serious things going on with the migration
 - a semi truck found in Austria: completely locked and left on side of the road
 - police, fire department came, blood coming out, didn't smell good – found about 50 dead bodies – had been there for some days and suffocated!
 - The EU had a summit in Austria, dealing with the Balkan states and considering expanding so the Balkans could be included in the EU; also idea of quotas for each country to handle the number of refugees
- The US is the instigator of all these situations in the Middle East where people can no longer stay in their countries; the head of N R A, LaPierre, was in the news yesterday

- Yesterday, a **camera man and a reporter on TV in Virginia** were shot at 6:45 am

- the shooter posted the 60 second video of what he had just done; he was angry as he had been fired from the TV news organization; after a car chase, he crashed – had shot himself – died from the wound later
- the 3rd person being interviewed was also shot but recovering

- the debate about gun laws is on again: the US is the only country in the world with unregulated guns on the streets, more guns than people!

- **Migrant story in US** – more bodies being found all over the deserts in black garbage bags and white garbage bags with twist ties

- Has to have been traffickers both in Austria and in the US: once they get the money, they drop their cargo; they don't carry through and provide any more assistance
- Whether it's Europe or the US, to have legal inroads everywhere so migrants can migrate –
 - in the US, it is because the people are not safe in their own Central American countries – has to do with the US who have set up drug running & using the people
- Same thing with immigration & not going after the employers for hiring immigrants under the table and paying them nothing for 12 – 16 hours / day work – it is going on in Europe too.
 - Germany has no minimum wage; there are people working for \$2-3 / hour, are considered of a different class than others in Germany

- The powers of the old order have been dragging their wagons and we are seeing the results in the extreme right now.

R: Tom the Cat via texts: the lunatic fringe clown car is being driven by Donald Trump, and he's not really funny; engendering heightened states [of fear]; aiding and abetting the fascist ideas

- Jorge Ramos, the Walter Kronkite of the Spanish network, was insulted and thrown out of Trump's press conference; Jorge was **not** screaming! People were shouting at him "get out of our country" - there's more where that came from!
- The Koch Bros have changed all the text books and said it's about state's rights
 - That is **not the case:** at the time of the Civil War, black people were not considered human. After the Emancipation Proclamation, they became 3/5ths of a person.
 - Didn't get recognized as a full person until 1965 with the Civil Rights Act & got the right to vote without being harassed.

R: Hitler and the top SS / evil ones who played with Kahotep: studied what the US did with the Native Americans before the Civil War: as the territories spread out from the east to the west, the so-called Indian Wars: natives were ethnically cleansed and killed, as were all the bison

- with the Doctrine of Discovery from the Vatican in 1452, 50 years before the fake

Christopher Columbus came as a schill of the Vatican; the edict was if the missionaries could not convert the people, they were to be considered animals and could be shot, killed and eaten – there were 160 million were killed just in the US alone, in just over a 100 year period

Tom the Cat: the 13 families have nowhere to go except for extremely desperate measures

- Is Trump going to stop for the train or is he going to try and beat the train, which is the whole progressive wing of the democratic party, including the millenials, the baby boomers who woke up and used to be the flower people which is us – some got caught; others broke out of the trap what was laid
- Example given was of Tom Shaddiac in a motorcycle mountain bike broke his neck; made the movie "**I AM**", sold his mansion, bought a motor home; learned to walk again, then made the movie of "**Bruce Almighty**" with **Jim Carrey** [who graduated from the Maharisi Insititute & is one of us]and **Morgan Freeman** who played god for a day in the movie which freaked him out. He's one of us, even though he's older.
- Those of us who are older and sitting around here are progressives who came in earlier, had it much harder: coming in before the bomb was harder – dealing with all the things from the last 4 generations, starting from emancipation and onwards to the bomb
 - the bomb was the crack in the galactic egg and alerted the galactic folks in the 'hood to say "no way, José!"
 - If we are on the call, we came in earlier and took a bigger bite out of the situation.

MR: Morgan Freeman is doing a 9 country National Geographic documentary on religions; MR's grandson was hired to be one of the 9 person crew to India, Egypt, Turkey, Israel, etc

T: Morgan Freeman is one of us: sure there will be protection. The grandson will be gone all of Oct.

T: Mahala Gayle said the whole new system starts in September! Brand new systems of financial stuff, governance, religious approach – should have quite an interesting time

MR: how soon will it be before we have these new systems is what we all want to know.

- Mahala Gayle says it starts in Sept when Saturn goes into Sag and that's the trigger

R: the moon coming up is a super moon starts the cosmic dance towards the end of September –

T: it's the last of the series of the 4 blood moons which were all on Jewish feast days; so what is coming up: we are going to have peace with Iran – still no dates.

- The Jewish feast day is Sikut – Sept 28th on the 4th and final blood moon.

R: Yahoo would like to have everything turn out in his favour. [Netanyahu]

MR: Omena is going to Indiana Sept 10th -14th; Sept 11th a gathering at MR's place; on Saturday she will do Private readings

- Lots going on in the farming, same as in the esoteric area

T: 33 events + Dr Keshe in September alone **[SEE BELOW]**

- this is a Faction 2 report and they go in a different direction at the end [pack your food, get your food, water, guns; get into your bunkers, etc]

R: those in the fake country of Israel are expecting to see their Messiah – the real Maitraya is here

T: Madonna knows what time it is; knows all about NESARA – what is said about her in the article is from the dark side: she's part of the NGOs and will point out what's going on

- the nazi collaborators of the republican party want to make . . .

- NGO = Non-governmental organizations created inside the International Criminal Court; starting in 1996, the wealthy visionaries who got their blessings were to use the NGO structure to provide help all over the planet

- to go all over the world where the US has created a mess

R: for example, Goldie Hawn and Kurt Russell have created a foundation to help vets

- T:** Dr Keshe is now coming on board with multiple new technologies: there will be 6,000 coming out up front: the energy devices and one for the car which plugs into the lighter socket;
- the one for the home means no gas or electric bill again. Being sold in Europe and available in 30 days – about \$790 USD and they last forever.
 - As **LM Nada, Tom the Cat, KOS say:** we are watching the full collapse

KOS called R to tell about the China devaluation of their currency – it's the beginning of the very, very end:

- 80% of all Chinese investors are the middle class, small investors/ millions of people
- they are looking at their entire economy going down all the way; this has to happen everywhere and NESARA has to help them out

Germany: Merkel has lost her coalition government; some of the elites around her completely disagree with her about Greece; she is not budging: she wants Greece to do the austerity thing; the elites want to forgive the loan and the debt, repay the loan [86 billion euros] and give them the loan – this is same deal as Germany got at the end of WW 2 – they never paid any of their debts.

- it's like the debt jubilee starting in Europe – the neo con thing is Europe is what the anti immigrant situation is about; 50 bodies found in the hull of a boat off the coast of Libya and 400 survived; another boat today went down and all drowned. This is not stopping.
- The main focus / route of the migrants is Greece, the Kos island, not far off Turkey; it's the first place they go in flimsy craft which are filled beyond capacity – lots of people die

Route of the migrants:

from Greece to Macedonia to Serbia to Hungary: the Hungarians are building a high barbed wire fence, triple wire deep and high; the people are so in need, they are crawling up from underneath it; Hungary does not want them

- At the summit, wanted to create new rules and have each country volunteer to take so many immigrants each: UK and Denmark said we want nothing to do with quotas and we don't want a single one. Denmark is part of the old royalty, as is England.
- T has heard about a doctrine put into place in England about 400 years ago that said white Anglo Saxons would rule the earth and no one else. **Does anyone know about this?**

Guest: Judy Beebe with updates.

Marietta: Judy, can you say hello?

Judy: Can you hear me? Hello?

M: Now we can.

JB: Okay.

M: Now we can hear you. Okay, well we're always excited to have you here. And everybody looks forward to seeing what the updates are and what news is going on. So, tell us what's happening in this energy world of yours.

JB: [laughter] Well it's slow work, yah know, but hi everyone. It's an honor to be back and I have lots of things I want to share with you tonight. Which - whatever time allows.

- So there's some physical effects that people are feeling because of this new energy that's coming in. I want to talk to you about [Genesis](#) and describe to you what happens in Genesis and why it's so important.
 - I just recently had a very distressing move and, in the middle of it, I got this glorious channeling, I guess from the Angels and I want to share that with you.
 - I want to talk to you some more about the scalar fields.
 - I want to introduce you to [solfeggio](#) and how to work with that with your spheres.
 - I have a testimonial for you from Perth, Australia that I'd like to read.

- I want to go over some more with apnoea, pronoia, and pluroma.
 - Anyway a whole list here. We'll see how much we can get through, okay? If not I'll come back on, okay?
- M:** Okay. Well we have an hour and we're not real strict with our timing here. So we'll just see how much you can get through. So.
- JB:** Okay, very good. Well, the universe has always had a contingency plan if we didn't make the progress we were supposed to make.
- And the energies are increasing now, and I'm sure that most of you have felt that. And that's part of the contingency plan. We were supposed to know all this stuff I've been gathering together for twenty plus years. We were supposed to know this a long time ago and we didn't. So as the galactic and cosmic energies increase over the next months and years, your bodies [are] going to be making changes and going through some things that might be troubling and symptomatic.
 - And I've compiled a list of what some people are talking about. And I want to share that with you because, in case you're having this, you'll know what's going on.
 - Several people are reporting exhaustion and, on the other hand, the next day they may feel hyper. They don't know why.
 - Some of them feel like times speeding up and, in other times, like it's slowing down.
 - They say they can lose words right in the middle of a sentence and are unable to find the word, within their databank, yah know?
 - They say days simply disappear without realizing the passage of time throughout the day.
 - Some nights they don't sleep well, or the next night or the next day or the next week, they may want to sleep longer and more often during the daytime. They toss and turn at night, and have vivid dreams of another reality.
 - And the energy which you're feeling can be like an energy surge, and then followed by an energy bottoming out. So if any of you are having some of that you'll know why.
 - Some people are feeling nauseated and dizzy. You can have unusual body aches and pains that weren't there before.
 - You can experience a sense of grief for no apparent reason.
 - Just simply closing your eyes can cause a spinning sensation.
 - You can also feel an increased heat sensation as your body starts using more [hydrogen](#). as hydrogen receptors open up in the body, that's what's going to be happening.
 - I also want you to know that [pineal gland](#) is going to open. That the hydrogen within your body becomes greater and accumulates into what's all going on now. And as those open up, one of the greatest receptors of hydrogen that is unknown to medical land is the pineal gland, and it's going to be coming back to life.
 - Many have said that our pineal glands are calcified due to many different reasons yah know, stuff in the tooth paste and all of this stuff. They've all attributed to all of this stuff. Well none of it's good for you, but that's not the reason.
 - The pineal gland has been inactive due to the hydrogen receptors not being activated in our bodies. The pineal gland is going to open wide open and function when we learn the complete truth about hydrogen.
 - I got this article about the Photon Belt and I want to share it with you because it really hit home for me. It talks about this new wave that's coming in, and I believe that that's happening.
 - And it says the transition into super consciousness is to occur at the precise moment of suspension of movement between expansion and contraction.
 - And before I moved to Montana, I had a writing that I really didn't understand. Now I understand it all but, at the time, I didn't understand what all they were talking about. But one of the things they told me was - and my soul name is Astraya - they said "Astraya, your power comes between the beats", and that was so startling to me when I read this and remembered that writing because what they're talking about is the scalar field.

- The scalar field has no [electromagnetic charge](#). It's been zeroed out. It's total neutrality. That's what comes between the beats. So this scalar field is what they're talking about in the transition into super consciousness occurring at the precise moment of suspension of movement between expansion and contraction. Your heartbeat, yah know? So that's something I thought you should know.
- And then I want to go through Genesis with you because I think this is important.

M: So Judy -

JB: I spoke to somebody today -

M: What can we do?

JB: What? Hello?

M: I was just going to ask you. What? Yes, this is Marietta. What can we do to help facilitate the pineal gland coming back to life -

JB: You don't have to do a thing.

M: - to a life.

JB: All you have to know is -

M: Okay, it's just that -

JB: When you drink water -

M: Okay.

JB: Is that hydrogen is working because you know about it. And you have a sphere Marietta. So, you know, you're well protected, and those who have [spheres](#) - oh my gosh. You're going to - it has already been working in preparation for this new energy to come in and the pineal gland to open. And this is some of the stuff behind the scenes that's going on with these spheres that we won't know about for years, yeah know?

M: Mhmm.

JB: Um, so you're doing what you have to do. You're learning. You're learning about this hydrogen.

M: Okay.

JB: And how important it is. And it's my job to make that available to everybody that, yah know, what I've learned over the last twenty plus years. And um -

M: Mhmm.

JB: That it's a message of hope. The hope is that we're not going to destroy ourselves. In fact, I got this little thing the other day and it was, "Give hope, Astraya, because hope perches in the soul and sings the tune without words." So that's what I'm here to do.

M: Mhmm.

JB: Just to give you some focus. And know that there is a way out of this mess.

- I've said this before -and we're going to get there - and the more I can teach you about this and, you know - I can tell you about it, but if you don't embrace it, if you don't take it into your body and into your heart, and realize - and have that feeling that it's right for you, then you don't get the full benefit of this. But if it rings a bell with you, if it carries any truth, you're already doing what you're supposed to do.
- You know, it's going to come into you because you just have to have that. You know, we used to call it the truth in the spirit when you get the goose bumps on your arm when you heard a spiritual truth. You ever had that happen Marietta?

M: Lots of times.

JB: Yeah.

M: Sometimes over the whole -

JB: Yeah, well that's what I'm looking for here. If I could give you one thing tonight that causes that feeling, then you've taken it into your body and you're well on your way, sphere or no sphere, okay?

- So what I want you to know is: let's understand about what light is according to Genesis, okay? And what is - what are we being told in Genesis? How important are the things from the beginning?

- **Genesis 1** is pretty straight forward. God created heaven and Earth, right? Um, and Earth is the place where energy is activated and received through the heart, as evidenced by our heartbeat and pulse, right? That's the way I see it.
- Now this is where it gets interesting. **Genesis 2:** it says "darkness was upon the face of the deep", and the deep refers to the cosmos which is 90% hydrogen. Okay? Now the saying in Genesis 2: it says "the spirit of God moved upon the face of the waters". Now you have the waters that have come in at the same time they're talking about the deep.
- Now you're at a point of nothing having been created yet. So, when they use the waters separated from the waters later on, you're starting to see what I'm telling you. The waters above and the waters below are different and deep, as the "face of the deep". So, you've got the waters, the deep, and all of that stuff going on just in Genesis 2.
- Now here's where it really gets exciting. **Genesis 3** is when light is created. God said "Let there be light, and there was light." So here is a truth you should take away from this. Light was born out of the cosmic void which is hydrogen. Hydrogen birthed light. So when you use light, you're activating hydrogen.
- **Genesis 6:** "he divided the waters above from the waters below". The waters above are in the cosmic hydrogen. Now this is where we get divided. He divided the waters above and the waters below, but that's where electromagnetic energy came in. That's when we lost the scalar neutral field. This is where there was a division between heaven and Earth, and where electromagnetic truth came into be.
- And the other thing I want you to know is when you use white light, you're only using the energy from gateways 1 through 6. My suggestion is to use golden light because, from 6 above, it all turns the light - all turns to gold. And it's a much more powerful affirmation, and makes powerful changes in your body.
- So, that's - I hope that made sense to you, because it's really important. I explained it to someone today I was on the phone with for three hours and, oh my gosh, she went, "Oh my God, hydrogen was first cause!" I said, "Absolutely. Hydrogen birthed light."

JB: And I think that's very significant to know. So-

M: Mhmm.

JB: Recently I had an upheaval - as Marietta knows, I had to cancel my being on the show because I had to move out of my peaceful little log home on a side of a mountain that I've been in for seventeen years, which was idyllic, but oh well. It happens. It was a huge drain: packing and unpacking, and packing up and putting in storage because I couldn't find a place to live, etcetera, etcetera, etcetera.

- Well, I was tired one day. I was unloading some stuff from my daughter's home and I went outside to lie down on a chaise [lounge] and zone out for a minute. And I don't know why I did, but I took a tablet and a pencil, and I'm glad I did because I no sooner sat down and the inflow started, and I want to share that with you.
- And this happened on June 25th. It said,

"Our daughter from the stars,

"How much you have accomplished in a few short years. You have blossomed right before our eyes. You are magnificent as you grow stronger in the truth each day. Your time in this home will not be long, and you will move on to a new destination which is being prepared for you. The place and its active and passive rhythms must be synchronized to your final work on this plane.

"You will enjoy a brilliant future and success on this side of the veil. This unveiling of a new energy has been in several parts. You are the link which brought it all together. A most admirable assemblage of star workers are standing with you as you finish this acceptance portion of the plan.

" Be at peace. You are safe and continually protected. Your safety has been the job of many from many different planes and parts of the galaxy. You are the link which must not

be broken or it will all unravel. You were given an army of energy workers as you tirelessly navigated this move.

" Now you need to rest and open yourself up to our council. We always yearn to tell you more. The angelic workers who are most high and closest to the center source have a part in the plan for your surge of light upon this plane.

"You are dear and evolved far beyond this Earth plane. There has been a constant need to keep you centered in this lower energy dimension, which is difficult for you. After your cosmic trip, you became easier and easier to keep centered.

" We love you for your dedication to Earth's upliftments and the advancement of human consciousness. Your dedication to writing about this will not really be understood for many more years. It needs some time to sink into the Earth's consciousness. You have done your part. Congratulations and much love to our beautiful spirit sister.

" The being known as Valliant Thor has been one of the angelic beings who undertook a great deal of the work needed for you to accomplish this task. He salutes you and your unwavering dedication. Many tears you have shed, yet many treasures you have uncovered for the future of Earth and her people. He sends you the jewel from the center of gem energy which will be uncovered soon. This jewel is and has been hidden until the right one comes along.

" A global awakening will then happen and will change physics as it has been known. It will break the barriers of all known current physical laws. The Earth has been waiting for this jewel, and she can then get rid herself of all toxins which have rendered her nearly to the point of dying.

" You must rest to be ready for the stampede. I honor you this day and all those days to come, flowing with the light of truth which you have planted."

- So, I was tired and I woke up feeling better. I went, "Way to go, Judy. Good job!" [Laughter]

M: [Laughter]

JB: And so - now I told you before about the **scalar field**, which is neutral. It's when electromagnetic energy gets zeroed out and they zero each other out. They carry the same amount of energy and zero each other out, leaving the scalar fields of neutrality wherein all things are created, the Void. God moved over the void. That was scalar. That was neutral. That was a neutral field.

- And I want to read this one from [George Adamski](#) and [George Van Tassel](#) because it reiterates what I just told you here, and I want you to understand how important it is. In George Adamski's book [Inside the Spaceships](#) he says the following Venusian that he received this for - was from - he called them Orthon. He was from Venus.

- And he said "We do not fly as you mean it. We nullify the atmosphere by a mechanical procedure. You express it as "suspending gravity". In this way, we are not hindered by atmospheric interference or resistance. This is why our crafts are able to make the sharp changes and directions of travel, and to move at the speeds that have so mystified your airmen and your scientists."

- And then, you know, the hydrogen lady: I got a call the other day. I answered the phone and this voice says, "Hi. Is this the hydrogen lady?" I can't go without telling you something about hydrogen. George Van Tassel ah, took a trip in a spaceship I think. Or was it Adamski?

- Anyway, the being that gave him the information was Ashtar, and one of the things they said to him was that they were concerned with the attempt to explode the hydrogen element because the hydrogen element is life-giving. And that there are - the explosion of an atom of an inert substance and that of a living substance are two different things. The hydrogen atom is a life-giving element of the creative intelligence. And I just showed you how hydrogen came first. It was First Cause. It created light, and it created the waters

above and below. So they say - he also said, "We have the formula they would like to use. It's not meant for destruction." and that's GEM energy.

M: Mhmm.

JB: Now I want to talk to you **about solfeggio**. We're just bouncing around here, aren't we?

- I'm using solfeggio with my spheres. And so those of you who have a sphere, this is for you because the solfeggio tones DO RE MI FA SO - the five of them - there are more that they use for healing, but um - It's 396 hertz, 417 hertz. No, forget that one. 396 hertz, 528 hertz, 639 hertz, 741 hertz, and 852 hertz.
 - And the reason these are significant is they're re-tuned and re-toned, and each one of those tones is a 9, 3, 6, 9, 3, 6: 3, 6, and 9. **The 3, 6, and 9 are three circles of man.** Remember my talking about that?
 - And also that's what Tesla said. He said if you only knew the magnificence of the 3, 6, and 9, you would have a key to the universe. So how I'm using these is - I put my earphones around the sphere, and I hold the sphere tight with the earphones. I play the tones - you can get them free online; you can go and download them online. There are all kinds of different sites where you can get them free.
 - And I use them all; I hold them close; I hold the earphones with the sphere in between. I hold them close to my body, and I move it around my body and, oh my God, it is so powerful. You will love it. Try it if you are a sphere owner; please try this because it's very important.
 - The 396 sphere is where you lose guilt and fear. The 528 one is to repair your DNA & for all healing efforts. 639 is about relationships that are troubling. The 741 is to awaken intuition. And the 852 returns you to a spiritual order which - you know where that starts: hydrogen! So try the solfeggio times. Go download them free and try them with your sphere.
- Now on August 11th I got this **feedback from someone who bought a sphere**. Her name is Alison and she lives in Perth, Australia. She said
 - I've had the gem sphere which we tend just to call "the orb" for a bit over a month now. I thought to share a few of our experiences and insights with you.
 - When first unwrapped, my daughter, 11 years old who hadn't been well and had a headache, held it for a minute and then told me it made her headache go away, and now she was all better, and she was.
 - I had a strong feeling to connect it to the Earth on the day it arrived. It was a cloudy day but, as soon as I put it outside on the Earth, it started to rain. And an hour or so later when I brought it back inside, the rain stopped.
 - I often invite people to hold it and describe what they feel. Some people can feel the energy straightaway and, for others, it seems to slowly creep up on them. Comments include things like "I can feel it pulsing"; "It feels angelic"; "It's expanding my heart"; "It feels like pyramid energy"; "All my cells are tingling."
 - Some people have felt it cause a spinning sensation around their head. When I ask them to attune to it and feel what direction it was spinning, they mostly said anti-clockwise. I then ask them to take their awareness to their feet and feel if it was spinning there too and, if so, what direction. All have felt the spin at their feet moving in the opposite direction to the top. I then ask them to tune into where the two fields meet in them, and most said it creates a still point at the heart. Remember my heart thing?
 - Another thing we have noticed is that, once you have felt tuned in to the energy of the gem sphere, it is easy to reconnect to it, even when you are far from it. As soon as you can think of it, you can feel the energy expanding in you again.
 - One of my friends rang me a week after she had held it, to tell me whenever she remembers holding it in her hands, she can feel the energy of it again.

- I have learned that the orb seems to really expand its vibration when placed within water. My first registration of this was when leaning over a creek bank and holding it in a stream of water. The vibrations coming up my arm immediately intensified while I held it in the water.
- Then I tried holding it in the sea. This was different as I was in the water with the orb. It felt like it was using my energy field as a portal as I could feel an increase of energy flowing in at both my crown and base chakra and flowing down my arm into the orb and out into the sea.
- I now keep the orb floating in a bowl of water in my house. It charges the water with its frequency. We have been drinking some of the charged water. I often add some to our smoothies in the morning for a high vibe lift.
- I have also put a set of small clear quartz points in the bottom of the water dish so that they will also be charged with the gold frequency of the orb. I then give these to people to help them attune to the orb energy in their own homes, and I also put some into large bodies of water like creeks, rivers, and lakes to assist the vibration.
- Anyway she goes on even more and more. She says "I will continue to play with the orb and explore what it can do, and I'll send you another update if we find anything further. Let us know how things are progressing."

- She's really into this and putting it in streams, creeks, and rivers is very helpful to our planet.
 - You know, we have to do something. We are the generation that has to make the change. You know, like Ghandi said, "Be the change that you want to see in the world." We have to do something. We can't allow this to keep up, so today's the day! Let's save the planet. How's that sound?

M: [laughing] Hey Judy: the solfeggio frequencies are something that this group is very familiar with because I have played those for people we've talked about, you know, why they were taken away from the monks. The church took them away because um, like the very first one removes fear and guilt.

JB: They're powerful, yes. They're powerful.

M: And why are you leaving out the 417? What is that about?

JB: What now did you say?

M: The second one, the 417.

JB: I'm having trouble hearing you Marietta.

M: Okay, the second one. Ah, the 417 - why did you say you're not using it?

JB: Well because ah, because the five - the five tones - DO RE MI FA SO. There are a lot of other ones. Let me tell you what else there is. There's other ones that you can use. Um, they're using 285 which works with your chakras. They use 174 which removes pain. So if you have a painful condition, you can use 174.

- I found a whole circular wheel with all of them. And you can download it and - or you can print it off the website, and it will give you all of them and what they're for.

- A 417 is a chakra to facilitate change. It works with the chakra to facilitate change. And I would think that we're more interested in healing, and so I jumped from 396 to 528, but they all are - when you add them all up, they all add up to 3, 6, or 9. And I have played Gregorian chant for years -

M: And you can subtract -

JB: For years and I love them. They always make me -

M: Ah hun.

JB: Feel wonderful, and now I know why.

M: Well you can subtract any one from any other one, and I have a whole chart, and it even shows you how the Golden Mean comes up as part of this chart because we're now working with the frequencies, and the forks, and for DNA, for the um, ah, for all of the um, when we're talking about the expansion of ah, changing in ah -

- There's just - there's so much going on that website and we've had ah, Doctor David had - David Hulse on here several times. But he is teaching this as a way of working with people. And the website is just Soma S-O-M-A Energetics, and if you put in soma energetics, there's lots -

JB: Play it through your sphere, Marietta; you're going to notice a whole different feeling. Way different.

M: Well -

JB: And it's very powerful. Your whole body starts to feel it.

M: Well it's interesting, because I have a -

JB: Sorry?

M: I have my sphere. I have my sphere on my bed and many times before I go to sleep, I use the solfeggio forks, and so I haven't um, so they're I - they're right in conjunction with each other. So I've been doing that and not knowing what -

JB: Why you're doing it, huh? [Laughter]

M: So that -

JB: So try it with earphones by the ah, around the sphere if you can.

M: Okay.

JB: I don't know if you have that capability there.

M: Right.

JB: And then hold it right to your body and see what you feel.

M: Huh! Okay.

JB: Yeah, just try it.

M: Yeah, well I'll have to play with that too.

JB: What can it hurt, huh? [Laughter] Okay, where do I want to go now?

- Oh, I want to talk to you about the spheres that - I don't know if I gave these to you before, but I want to talk to you about it and **the Greek Oracle of Delphi**. I want to read this one to you first because I found it in a Greek manuscript, and it describes what is going on here. It says: "In the center of the room, there's was a pedestal of gleaming ebony on which rested a sphere, pulsing with illuminescence best described by the colour mother of pearl shot through with blazing flashes of coruscating colours."
- And I just thought that was so awesome when I found it. I forget which Greek manuscript it was, but that's what the Oracle of Delphi was all about, where she was getting her - and I also saw something back a while ago that shows that there was a platform that was extended out over a pool of water. This is how this information came through the Oracle of Delphi. Then did I - I'll ask you first because I don't want to read this if I've already given it to you. Did I tell you about the Godfre Ray King in **Unveiled Mysteries** about the spheres?

M: I don't believe we've heard that.

JB: Okay. Well then, listen to this. In **Unveiled Mysteries** - which was written, by the way, in 1930 by Godfre Ray King. This is one of the places in the book. It says:

- "About twelve feet in front of me stood a block of snow white onyx, three feet high and sixteen inches square. On this rested a crystal sphere filled with a ceaselessly moving colorless light, in which were points of radiance starting to and fro. The sphere continuously sent forth rays of prismatic colors to a distance of about six inches. It seemed made of living substance, so constantly did it scintillate. The radius - the radiance from this gorgeous sphere filled the entire chamber, producing a sensation of electronic energy no words can convey."
- And then, in another one, it says "The electronic force with which my garments are charged is of a higher, finer electricity than that known in your physical world. Someday even your men of science will stumble upon it and realize it has always existed in the atmosphere, but they have not known how to direct and control it for the service of

mankind. It is much more easily directed by the mind than by physical apparatus of any kind. Yet it can be drawn and controlled through mechanical means. That which the entire world knows as electricity is but a crude form of the great spiritual energy of life. It exists throughout creation."

• And then in one other place where it mentions Saint Germain who gave Godfre Ray King all of this information, here's what it says: " In the center of this immense temple stood a pedestal about two feet square and twenty feet high, made of a self-luminous, milk white substance that gave off a white light with a breath of pink in it. Upon it stood a crystal globe, two feet in diameter, made of some kind of substance, holding a soft, self-luminous white light within. It was very soft and yet so intensely illuminous that the entire building was brilliantly lighted. The sphere, remarked Saint Germain, was made of a precipitated material enclosing an intense focus of light."

T: What was light born from? Hydrogen. "It was drawn and placed in the temple at that period by one of the great cosmic masters, as a sustaining and life-giving activity for the people. It continually sent forth not only the light, but an energy and power which stabilized their activities and the empire."

T: Can't get much better than that, can you? Are you there, Marietta?

M: I am here. I am listening.

JB: Huh?

M: I am here, and I am listening!

JB: Okay. So, something I want to leave you with.

• Hydrogen is life; hydrogen connects life; hydrogen celebrates life; hydrogen is our cosmic genesis; hydrogen is the book of knowledge or the Akashic records, whichever you want to call it. And its water crystal, its hydrogen crystal, is hexagonal, and you know the flower of life symbol - you know, the thing that has - looks like a flower right?

M: Right.

JB: And if you draw lines through each of the six points, you have a hexagon. And I just realized the other day when I was doing something - I always thought, you know, it was beautiful and it was proclaiming our connections through hydrogen, but it just hit me, all of a sudden, that those things that look like flower petals aren't flower petals. What they are is communication roots: Hydrogen to hydrogen, back and forth, back and forth, every one of them. They are all hydrogen points which are communicating with each other because the one true communication is hydrogen to hydrogen.

M: Mhmm.

JB: Then, if you look at the merkaba, right? The "mer" means from the sea, "ka" is life force, and "ba" is soul. So, again, you've got the water thing going here the Merkaba. Metatron's cube is hexagonal with the two pyramids - yeah well, triangles going up and down yah know, and interconnected -

M: Mhmm.

JB: And then you have the six - the circles that encircle the edges of the triangle, and that becomes hexagonal and hydrogen-based. I mean - everywhere you go, it's in everything.

• It's in **primea materia** in the alchemy; it says about - this is one of the first things I found that excited me when I had been given the energy was, um, I found this **prima materia plate**, and it talks about the moisture must be caught lest it should be changed into vapour or fume. The two vapours are fumes are roots of the art, and it's got a downward pointing triangle and all of this beautiful stuff: angels are blowing their breath on it and water's coming down from the hand of God that has a lock.

• It looks like a lock hanging from his hand, and everything's - there's plant life, and then there's the sun and the moon, and there's more plants growing. And then there's this downward pointing triangles that says "pawns". And in medicine, a pawns is a bridge to something else. And then it comes down, and it has all of these vapours from down below.

• And it says "I am the moisture which preserves everything in nature and makes it live. I pass from the upper to the lower planes. I am the heavenly dew and the flat of the land. I

am the fiery water and the watery fire. Nothing may live without me in time. I am close to all things, yay and through all things, nevertheless unknown."

M: Mhmm.

JB: That's alchemy and it's there. Um, you know Carl Sagan - he was a great guy, wasn't he? I wish he was here; I'd contact him. He said that "the cosmos is all that is, or ever was, or will ever be. Our feeblest contemplation of the cosmos stirs. There's a tingling in the spine. A catch in the voice. A faint sensation as if a distant memory, or falling from a height. We know we are approaching the greatest of mysteries" - and it's not a mystery anymore.

- [Laughing] I just love doing that. Anyway um, hydrogen lady you know? Nicola Tesla said "The energy of the universe is waiting to be tapped." And he said "We are like people in a boat dying of thirst because we do not know how to scoop up the water from the sides of the boat."

M: Umhmm.

JB: How about that?

M: Mmm.

JB: So how are we doing for time?

M: So this energy is all around us? We got to learn how to scoop it up, don't we?

JB: Yeah we do, we do. And you know Einstein's formula.

M: Ah, it's about ten more minutes -

JB: What? I'm sorry.

M: We have fifteen minutes yet.

JB: Okay.

M: If you would like. So what would you like to do next?

JB: I'm going to go **to Einstein**. You want to go to Einstein? His formula $E=MC^2$

M: Sounds good to me.

JB: [Laughing] The speed of light, right? 186,000 miles per second but - when you're dealing with hydrogen, you're talking about the speed of thought, okay? So the formula should really be - and this is new - I haven't presented this to anyone before.

- E equals Ethers. M equals Manifestation and Creation. C equals Circularity, and there's no squared. How about that? [$E=MC$]

M: Okay.

JB: I'm just saying -

M: Manifestation - what was the other thing with the manifestation?

JB: Manifestation or creation. Yeah, because -

M: Is creation.

JB: -God got moved over the Void, the Ethers.

M: Mhmm.

JB: And he created. So M is for Manifestation and Creation ah, because - well here we go, here we go - this is my favorite thing. No electron moves in a living system without the presence of hydrogen: we are all held together with hydrogen. So, if there was no hydrogen, everything would disappear in a second. I mean it would all be gone, everything. There would be no Earth; there would be nothing; we'd be back to the Void, starting over.

M: Mhmm.

JB: When you look at it that way, it's kind of - you know, we're the generation that has to fix this. We definitely have to fix it. We've created a part of it, yah know - not personally, but yah know? Ah, we cannot fail; we owe it to the cosmos. And Carl Sagan said that. We have to protect it. We have to protect it for the children and the future.

- I have a favorite Cree wisdom thing that I love, and I look at it often because it makes me more zealous to get this out to the world. It says "When the last tree is cut down; the last river poisoned; the last fish caught, then only will man discover that he cannot eat money."

M: [Laughing] Uhmm.

JB: So how about that?

M: Well -

JB: Laughing - and it's true.

M: Right.

JB: You know, you can gather up millions and millions of dollars but are you going to take it with you on - the hydrogen doesn't accept money.

M: Ummm.

JB: So you're back to nothing.

M: So tell us how you're progressing with - I know people have asked **about the car**

JB: Okay, here's what's going on.

M: And getting these spheres out, and the next step of getting the six inch ones out. Those are the kind of questions that I'm getting here.

JB: Okay.

M: So, what can you tell us about the projects now?

JB: The six inch spheres are not going to be available for personal right now, and we may not even need them. I don't know. We may always be able to use a small one. I don't know.

- There is a gentleman - I can't tell you too much about it because um - anyway's there's a gentleman who could make all of this happen, and he now has a sphere, and he's going to start working with it. And he knows all about frequency and hydrogen and, when I know more on that, I'll be able to tell you.

- There's another guy who is in a University situation, and I'm going to send him off a sphere this weekend, and he would maybe have. will have the ability to get it on an electron microscope or an atomic microscope and would be able to see what's going on in there. And then science won't be able to deny it, yah know? Ah, so that's in the works.

- What else is going on? I have - I have an article in the **Sedona Journal** about the mystery of the hydrogen atom. That's in the September -

M: What issue is that?

JB: September. It's September.

M: What issue - is it currently?

JB: Pardon me?

M: What issue of the journal is it?

JB: It's the September issue.

M: September, okay.

JB: So it's coming out here within a couple of days. So - and it's like four pages. So that's a whole new audience. And I'm going to be on Rob McConnell's show and go back to the beginning. If anyone wants to listen to that, it will be on Wednesday night - ah, I'll be on it nine o'clock my time. So ah, eleven o'clock Eastern Time.

- Then I'm going to be on another program - Joana Bolts - Starseed radio. But we haven't set a date yet. Ah, what else is going on? I mean there's all kinds of things going on. I keep very busy for an old broad. [Laughing]

M: [Laughing]

JB: Just **answering Frank Chille's questions** keeps me busy. Did you laugh?

M: Well, he's another one of us who just keeps going. We're all of the same generation, aren't we?

JB: Yeah, we are. He's a pip, isn't he?

M: Does anybody on the team here have any questions, and we do - if you want to call in, of course, you can do that on 888-429-5471. That's free for the United States and Canada, 888-429-5471. And Judy had so many things to share with us tonight, we haven't taken time for questions but, in the last moments here, if there's something that's just a real burning in your heart and you'd like to be able to ask a question, then give us a call.

JB: Yeah, hopefully I have an answer.

Tara: Judy this is Tara. I don't have a question yet, when you were talking about using gold, I thought about this, cuz I can see the auras: the first layer around the body is gold.

JB: Yeah, And that's the frequencies-

T: Yeah.

JB:-that is put into the gem sphere when the energy is - when the formula is right, and it mixes in the sphere, it automatically produces the frequency of gold. And that is the frequency that makes it - binds it together, and makes it a plasma. Isn't that amazing?

- They have a Hydron Colliders over there for billions, and billions, and billions of dollars to smash atoms so that they can figure out what creates matter. Well, I can tell you what creates matter. That starts in Genesis when God moved over the void: it was the thought.
- They will never find what created matter because it was God that started it; it was thought that moved over the hydrogen.

M: Ummm.

JB: So billions, and billions, and billions of dollars we could have had this out in every home by now.

M: Mhmm. Any other questions here on the team?

T: Well you said a lot of things. Like I'm got my mind blown a little bit here. Ha ha!

JB: Good, good! We want to take you off balance so you can gain a new balance, and a new understanding, and develop that hope in your body.

T: I like the very first thing you said: hydrogen birthed light. Wow!

JB: Yes, yes. That hydrogen is first cause. That's the first thing that God moved over was hydrogen, because that's the creative element. It's what creates atoms, and what keeps atoms forming to produce matter, you know?

T: Mmm.

M: [Laughing]

JB: I know. It's a lot to take in. This gal today - three hours on the phone with her and somebody I respect very much, and she wants to help get this out on the planet. And um, she was blown away. She said "Judy, everybody needs to know this information." I said, "I know. I do the best I can. I'm an old broad, and I used to live on a side of a mountain" - and I want my mountain back. [Laughter]

T: Ha, ha. How come you had to move?

M: Well I said - they said you have someplace new that you're going. Have you been shown that yet?

JB: Ah, it would be here. I'm not moving from here. This is where I had my out of body experience, and big fork on Swan River, and I just can't move from here. I wouldn't move from here. And I'm not really good at speaking to people or going out, you know, and giving that kind of thing. I can do this on the phone because it's very personal, you know, and I feel comfortable, but if I was in front of an audience, I'd probably wet my pants.

Everyone: [Laughing]

T: Sister, where is "here"? Where is your new home that you say is here? Where is here?

JB: Ah, in Montana; I live in Lakeside, Montana.

T:Ah ha. And you're not on top of the mountains so are you at sea level?

JB: No, not anymore. I had - I moved in with my daughter. Ah, she had an extra bedroom, and so I put all my stuff in storage because this is a very strange situation here in Montana. There are multi-gazillionaires and with the mega-million dollar mansions, and then we have the down to earth kind of people that - that are, you know, like me - ah poor.

- And so you know it's not easy to find a home that you would live in. I mean you could live in a dump if you wanted, but I can't do that. So I mean - it's not easy to find a rental. And so um I would love to buy a place but I used all my money trying to get this far with gem energy. So there's no money to buy.

T: Well, well - let me encourage you that there are miracles afoot. And this whole system is in free-fall collapse right now - which is a good thing, because we want a system where hydrogen creates life again

JB: Yeah.

T: Again. And literally there's divine governance coming in right behind it, and it's - I don't know if you know who Doctor Keshe is, but he's talking about by the 20th -

JB: Yes I do.

T: Yeah well, he talked about in May - on giving the leadership of the world about three months from June 21st to September 21st, and as they don't clear up this mess and create peace then I can, I have the ability, I'll do it single handedly as need be, yet by the 21st I shall erase the Ether of war from the consciousness of humankind across the world.

JB: Yeah, that would be lovely.

R: Enshallah!

T: Yeah.

JB: I would be happy to help with that. [Laughing]

T: [Laughing]

JB: Yeah, definitely.

T: Well, go to Keshe -

JB: We're - it's long overdue for the human race to get back to its roots in the Earth. We can't continue to do this. Yah know, ah.

T: No, and, and.

JB: I was going to read them to you - all of these things that I pulled off the internet of what's happening to our Earth, but I don't want to leave that out there; I don't want to do that. I want to give you the one that I got about hope.

- "Hope perches in the soul and sings the tune without words.: - that's what I want to leave you with, not all of this doom and gloom.

T: Hope purges -

JB: As long as you know about hydrogen, you're on the right track. You know how important it is to our future on this planet and, if I've done nothing else, that will be a great legacy.

M: Mhmm.

T: Now say that again Judy. Hope purges the soul. Is that what you said?

JB: No! Hope **perches**, like a bird perch. "It perches in the soul and sings the tune without words."

T: Oh.

JB: Beautiful, isn't it?

T: Yeah.

JB: Yeah, it just came to me. It's - I hear it telepathically in my head and I wrote it down. And I went "That's what my movement is right now." If I can bring hope to the planet, then I'm making fertile ground for the energy to be situated on this planet, you know? If people have hope instead of doom and gloom, they're going to be receptive to a new way, a new something, you know?

- And so that is what I consider my mission right now. And that's why I'm going to go on all these programs, people I haven't been with before, to give them their first shot of what this is all about and what hydrogen is about, and that it's our way out of this mess.
- There's nothing else that can clean up the Earth, nothing.

T: You know - I wanted to say Judy - when I was getting my Master's Degree, I did a dance performance, and I also put some video together so that they could see me in front of it and all the things I was saying - except I didn't say a word except for I called the whole piece "From Resistance to Harmony". And what that was about was about hope, because from resistance to harmony IS hope: **Healing Of Planet Earth**.

JB: Exactly. You know there are three stages of, don't you, of anything new, any new truth that comes in. One is it's ridiculed; two, it's opposed, and three, it's finally accepted.

T: Yes, that was Ghandi again, wasn't it?

JB: Yeah, yeah. Yep.

T: Yeah.

JB: Yeah, the three stages.

M: Know it's a -

JB: I've been through the ridicule stage. I did that for probably fifteen years of this whole journey. And then it started a little bit of acceptance, and it started reaching some fertile grounds, yah know? And I'm working now on acceptance and being able to place it on the planet, and - so we'll see. Just see, keep going; keep praying for me; keep pushing me; push my buttons; keep me going.

T: [Laughter]

JB: Point me in the right direction.

T: Which button would you like to be pushed tonight, dear?

JB: Well, some people would tell you it's on my back side. [Laughter]

T: It's what?

JB: I think it's more - instead of a push, it's a kick!

M: [Laughter]

T: Oh, I see. Well, ah -

JB: Anyway I have lots of testimonials, guys. I just didn't want to take up the whole time.

- I wanted to re-fresh - you know, our hydrogen commitment here, and get you back in that mode, and when I know more about these other people who are doing something, I will let you know.
- This one guy, really important: he possibly can get this energy on the grid without anybody knowing. So pray for it, okay?

T: Oh yes! Thank you.

M: Yes, we'll do that.

T: Okay sister. Don't be away for so long. Come back soon, okay?

JB: I know I will: I'll come back. Except all my words are news to you guys. You could probably give this whole thing.

T: Well, sister -

M: We have new listeners all the time. I have people - I've some: it's amazing to me how many new people we have. We have - yeah we have the regulars here that have been here for years and that are always around. If not every week, very you know - periodically. We have new people and of course with the radio, it goes around the world. And so we never know ah, where we might touch that have not heard this information before.

JB: Right. Well I certainly haven't forgotten you. And you, Marietta you've certainly done your work for gem and it's so appreciated. Ah, you took it to the scalar thing and ah, radionics thing, wasn't it? Yeah.

M: Right, right.

JB: And ah, it was a pleasure to make sure you had a sphere and I'm just so grateful that you do because the work you do is wonderful.

M: Well, we thank you for being here, and we look forward to having you back. If I - you know that you're always welcome. If I don't call you when you've got something that's just bursting out of your mind, ah give me a call.

JB: I will.

M: And we'll make sure we can find a space for you.

JB: I will.

M: Well goodnight. We thank you for being here, and then we will take a musical break and then we'll come back for the last hour with Tara and Rama.

JB: Alright. Bye.

M: Bye.

T: Bye.

HARD NEWS

Great Britain: something good happening there!

2015-08-25 Why a Left-Wing Socialist Is Poised to Become the Leader of Britain's Labour Party

[SEE BELOW]

The Go Bernie movement in England!

- Dick Cheney, Bush Sr: the originals were killed and cloned on Clinton's watch and then the rest of the War Chest fund began in 1979
- Faction 1 – the dark
- Faction 2 – the military & the people
- Faction 3 – the White Knight contingency which is also part of the 38th level above the President where the ACIO is located [Alien Contact Information organization] – which means this is a galactic operation.
- the litigation we are talking about now is getting NESARA announced.

On the program, Watching the Hawks today, an RT TV program:

an Islamic woman on today: talking of the US involvement in the Iraqi hologram and the Afghanistan hologram: she added up the numbers that the US has killed 8 million Islamic people; Joe Wilson told Rama that about 2 million soldiers and maybe 4-5 million Iraqi people – it was on TV – nonetheless, the amount of disclosure going on of the litigation of this war chest

- the litigation of the war chest, now opening a super pac for a female, a person of colour; who knows both sides of the fence – she's been a double agent too as she has been on the Council of Foreign Relations, representing the sliver of light inside the darkness
 - same thing with her husband – there is no power in that office and this is why we are the ones to help return to the Christ Consciousness
- Glad to see such a movement to the same kind of energy in England too.
- The Sun is a portal for hyper dimensional space travel, based on sacred geometry

Audio: Patti Coble Robles – I am returning to Christ Consciousness

<https://www.youtube.com/watch?v=9CDcpZrBAOs>

- the power of the light radiating from our hydrogen sun
- E2Design series – Brad Pitt has one of these designs talking about the new designs: solar, geo thermal going on in New Orleans; 500 new businesses going in – the NGOs are

Tom the Cat: someone gave Bernie Sanders \$1 million – it was Bono! And 2 others: Paul McCartney and Ringo – just for starters!

- This is not about Bernie, but about grass roots movements- does not matter to him whether or not he is the president: he is working in a team with Oprah, Laura Flanders, E. Warren for an extended period of time: they made a plan of what needs to be harnessed and drawing all the energy at the grass roots level that gets everyone engaged now – living and breathing the sovereign activity
- NGOs are vehicles that are available to be used in a new way
- the Moabite Aboriginal Nation is an NGO across the globe: draws together cultures, teachings
- as Judy Beebe said: hydrogen births life: there are no more 3 days of darkness and the Hadron – CERN

Audio: Relearning Reality - Nassim Hamein [8:08 hours]

- he throws the super collider stuff out the window

<https://www.youtube.com/watch?v=dJdxwQtv6cc>

Published on 5 May 2014 Nassim Hamein at the Rogue Valley Metaphysical Library 2003.

There's a certain amount of complexity here; has to re-wire the brains present. Wants people to interrupt and ask questions but before they ask questions, wait and see if he brings the info forward - if not, don't let it pile up - ask.

Going to approach this in a chronological way and how he learned this - via a series of logical progressions. Sometimes kids come up to him and ask if he is sure that other physicists don't think this way, and he assures them he has - 20 years of not thinking this way! And the kids are amazed!

When he was 7, had various esoteric experiences that taught him there were other realities than what he and we saw. What we don't see has a huge experience on what we do see: eg, x-rays which are not part of the visible spectrum. He noticed this at 7. At the age of 10 and got into his first geometry class thought he'd get the explanation of the other dimensions! Was disappointed after the teacher started - yet he did get a major key to the experience -

2015-08-19 The Big List Of 33 Things That Are Going To Happen In September 2015

By Michael Snyder

Is September 2015 going to be a month that changes history? For months, there has been an unprecedented amount of buzz all over the Internet about what is going to happen in September. And without a doubt, we are going to witness a convergence of events during that month that is quite remarkable. What I have attempted to do in this article is to put together a list of things that we know will happen next month. Some of the lists that I have seen contain things that cannot be proven or that are simply inaccurate. And of course it is very likely that some things will happen in September that we cannot anticipate right now. I am just providing the information that I have at this time, and it is up to you and your family to prepare for what you believe will happen. The following is my big list of 33 things that are going to happen in September 2015...

September 1 – This marks the beginning of FEMA’s annual “[National Preparedness Month](#)”

September 7 – Labor Day

September 11 – The 14th anniversary (7+7) of 9/11

September 11 – The last day of trading on Wall Street before the end of the Shemitah year

September 12 – Madonna’s Rebel Heart Tour opens in the United States. The first stop is in Washington D.C. and [according to Holly Deyo](#) the “opening theme is Desecration of The Bride and Arrival of Fallen Angels”

September 12 and September 13 – Rabbi Chaim Kanievsky, a leading authority in Ultra-Orthodox Judaism, has indicated that the Messiah that the Jewish people are expecting [could come at this time](#)

September 13 – The last day of the Shemitah year. During the last two Shemitah cycles, we witnessed record-breaking stock market crashes on the very last day of the Shemitah year (Elul 29 on the Biblical calendar). For example, if you go back to September 17th, 2001 (which was Elul

29 on the Biblical calendar), we witnessed the greatest one day stock market crash in all of U.S. history up until that time. The Dow plunged [684 points](#), and it was a record that held **for exactly seven years** until the end of the next Shemitah cycle. On September 29th, 2008 (which was also Elul 29 on the Biblical calendar), the Dow plummeted [777 points](#), which still today remains the greatest one day stock market crash of all time in the United States. Now we are in another Shemitah year. It began in the fall of 2014, and it ends on September 13th, 2015.

September 13 – [Partial solar eclipse](#)

September 14 – Rosh Hashanah

September 14 – The first day of trading on Wall Street after the end of the Shemitah year

September 15 – The 70th session of the UN General Assembly begins on this date. It has been widely reported that France plans to introduce a resolution which will give formal UN Security Council recognition [to a Palestinian state](#) shortly after the new session begins. Up until now, the U.S. has always been the one blocking such a resolution, but Barack Obama has already indicated that things may be different this time around. It would be extremely difficult to overstate the significance of this.

September 15 – The Jade Helm military exercises are scheduled to end

September 17 – If there is going to be a rate hike in September, this is [probably when](#) the Federal Reserve will do it

September 17 – This is [the deadline](#) for Congress to vote on Obama's deal with Iran

September 17 – [Constitution Day](#) – most Americans do not even know that this holiday exists

September 18 – [The Days of Awe conference in Sandpoint, Idaho](#) – Christians from all over the nation will be gathering to call out to God in prayer and to repent for the sins of our country

September 20 to September 26 – The "[World Week For Peace in Palestine Israel](#)" sponsored by the World Council of Churches

September 21 – This is when the Hajj (pilgrimage to Mecca) [is projected to begin](#)

September 21 – [The UN International Day Of Peace](#)

September 22 – In Islam, "[the Day of Arafat](#)" falls on this day

September 23 – The last day of the summer

September 23 – Yom Kippur

September 23 – The Muslim holiday of Eid al-Adha, also known as "the Feast of the Sacrifice", begins

September 23 – Pope Francis arrives at the White House to meet with Barack Obama

September 23 – The 266th Pope will be meeting with the president of the United States on the 266th day of the year. Some have suggested that "[something is being birthed](#)" on that day since 266 days is the average length of the human gestation period.

September 24 – The Pope addresses a joint session of the U.S. Congress

September 25 – On May 14th, 2014 French Foreign Minister Laurent Fabius famously proclaimed that we had only 500 days to avoid “climate chaos”. His time frame of 500 days ends [on September 25th](#).

September 25 – The Pope will hold mass in Madison Square Garden in New York City

September 25 to September 27 – The United Nations launches a brand new “universal agenda” for humanity known as “[the 2030 Agenda](#)”

September 25 – The Pope appears at the UN to deliver an address to kick off the conference at which the 2030 Agenda will be unveiled

September 26 and 27 – The Pope will be traveling to Philadelphia for the “[2015 World Meeting of Families](#)”

September 28 – The first day of the Feast of Tabernacles

September 28 – This is the date for the last of [the four blood moons](#) that fall on Biblical festival dates during 2014 and 2015. This blood moon will be a “supermoon” and it will be clearly visible from the city of Jerusalem.

Due to the ending of the Shemitah year and numerous other factors, there is rampant speculation that a stock market crash is going to happen in the United States [during the month of September](#). Previously, I have expressed my view that a major global financial crisis is imminent, but my warning covers all of the remaining months of 2015. Since I cannot prove that a stock market crash will happen next month, I have left it off the list. But without a doubt, we are entering the danger zone.

There is also lots of speculation about unusual activity at the Large Hadron Collider during the month of September. In my research, I have not yet come across anything that confirms that. If you have solid information concerning this, please send it to me. But certainly, what they are doing with the Large Hadron Collider concerns me greatly. This is something that I covered in a previous article entitled “[Will The Large Hadron Collider Open Up A Portal To Another Dimension?](#)”

In addition, I am also aware that there is a tremendous amount of speculation about an asteroid or a meteor that may or may not be heading toward our planet next month. At this time, I have no way of proving this is true, and I have no way of disproving it is true either. I have not come across anything that I can independently verify that indicates that this will or will not happen. In law school I was trained to stick to the facts, and I don’t have any facts. If you do have some solid and verifiable information, please share it with me.

Finally, I would like to acknowledge that there is plenty of speculation about certain natural disasters that may happen in September. They may indeed happen, but I cannot prove anything of that nature right now so I have left those natural disasters off the list.

Needless to say, next month promises to be absolutely crazy, and our time for preparing is running out.

Disaster can strike very suddenly, and when it does, average citizens can be caught totally unprepared. This is a point that Carl Gallups, the author of a new book entitled “[Be Thou Prepared: Equipping the Church for Persecution and Times of Trouble](#)”, recently made during an

interview [with WND...](#)

Gallups identifies specific incidents when civil society collapsed, most notably in New Orleans immediately following Hurricane Katrina.

“You ended up with the worst of both worlds,” Gallups observed. **“You had widespread criminality, anarchy and disorder, and somehow, at the same time, you had government officials going around enforcing wildly tyrannical guidelines and even confiscating firearms.”**

As a result, Americans **may be forced to rely on themselves for protection**, meaning Christians **have to begin planning now**.

Even if it doesn't happen next month, life in America is about to change [dramatically](#).

The infrastructure and government services that we have all come to take for granted may not be there in the future.

It is imperative that we all start to learn how to become more independent of the system, because the system is going to start failing in thousands of different ways.

So what do you think?

Do you believe that something significant is going to happen next month?

2015-08-25 Why a Left-Wing Socialist Is Poised to Become the Leader of Britain's Labour Party

Unlike the party apparatchiks, Jeremy Corbyn has consistently opposed austerity—and voters are enthusiastic.

By **D.D. Guttenplan**

Labour Party leadership candidate
Jeremy Corbyn (Reuters/Russell
Cheyne) (Reuters/Russell Cheyne)

London

Stop me if you've heard this before:
A grizzled left-winger with a bold
anti-austerity message begins what
everyone assumes is a quixotic quest
for elected office. His campaign
provokes an unexpected wave of
public enthusiasm, drawing cheering

crowds that embarrass his rivals, and inspiring hordes of previously disaffected young people. Yet the media continue to insist that as an unabashed socialist with no national executive experience, he remains unelectable, while senior figures in his party warn of dire consequences if voters refuse to grow up and settle for a politician whose coronation has begun to seem less inevitable with every passing day.

For an American, especially, it is impossible to witness the growing excitement here over Jeremy Corbyn's candidacy for the leadership of the Labour Party without being reminded of Bernieman. Though Corbyn, at 66, is more youthful than the 73-year-old Vermont senator, and entered Parliament as MP for Islington, in north London, back when Sanders was still in his first term as mayor of Burlington, the two mavericks share a reputation for putting principle ahead of popularity, a willingness to challenge their own party's conventional wisdom—especially on the economy—and an improbable status as icons of authenticity in an age of sound-bite politics.

But if you want to understand the roots of Corbyn's appeal, and the painful dilemma he poses for the British left, you need to look past the gadfly-turned-Galahad story to the blasted landscape of the Labour Party, still reeling from its stunning defeat last May. With the next elections not due until 2020, Ed Miliband's speedy resignation allowed the Conservatives, now in possession of a parliamentary majority, to throw off whatever concessions they'd had to make to their former coalition partners, the Liberal Democrats—cutting £12 billion from welfare, withdrawing housing benefits from 18-to-21-year-olds, and limiting low-income tax credits to just two children per family. As if to underline Labour's moral and intellectual bankruptcy, when the changes came to a vote in July, Harriet Harman, the party's acting leader, forbade her colleagues from voting against the government.

Andy Burnham, a working-class Catholic with matinee-idol looks who led in all the early polls (and who was widely described as the candidate of the unions and the left), abstained. So did Yvette Cooper, who like Burnham had been a minister in both Tony Blair's and Gordon Brown's governments, and Liz Kendall, who though elected to Parliament in 2010 has become the Blairite champion in the race. The only leadership contender to actually vote against the latest Tory attack on Britain's poorest was Jeremy Corbyn, whose dark-horse candidacy was initially viewed as mere window dressing, a gesture to placate the party's fractious but impotent left wing. Indeed, Corbyn—who, in his previous 30 years as a serial rebel on Labour's back benches, had never betrayed any hint of leadership ambition—scraped together the 35 nominations from sitting MPs required to get on the ballot only thanks to the support of several who publicly declared they'd be voting for one of his opponents.

The plan was to provide Burnham—or Cooper—a "hard left" foil during the summer debates, and maybe add a little spice to a field described by one senior Labour MP as "like Ed Miliband without the charisma." Unlike Sanders, who though elected as an independent has always caucused with Senate Democrats, Corbyn, titular head of the Stop the War Coalition, has never seemed comfortable inside any political party—not the various Trotskyist groupuscules whose causes he has supported and defended, without (so far as I can tell) ever joining any of them, nor the Labour Party itself, whose patronage and preferments he has refused. (During the 2009 scandal over MPs' expenses, Corbyn was revealed to have claimed just £8.70 for an ink cartridge—less than any of his colleagues.) Yet from the very first televised debate on June 17, the odds on Corbyn, originally 100 to 1, began to shorten as audiences responded to his firm rejection of both Tory plans for another three years of austerity and the variations on austerity-lite offered by his Labour opponents. By the middle of August, Corbyn was so far ahead that one firm of British bookies had already begun to pay out on bets backing him to win.

* * *

If elected, Corbyn has promised to end tuition fees at British universities, remove restrictions on borrowing so that local councils can build more public housing, introduce rent controls on private housing, and offer private tenants a "right to buy" from large landlords similar to the scheme Margaret Thatcher used to sell off public housing. Unlike Cooper and Burnham, Corbyn voted against the Iraq War; he also voted against authorizing air strikes in Syria, and has pledged not to replace Britain's aging Trident nuclear-weapons system. A former left Euroskeptic like his friend and mentor Tony Benn, Corbyn now says he'd prefer for Britain to remain in the EU but argues that Labour needs to make sure Cameron doesn't trade away workers' rights and environmental protections when he renegotiates British membership.

Alone among the candidates, Corbyn favors taking Britain's railways and energy companies back into public ownership—two "radical" proposals that have long been backed not only by Labour Party members, but by a majority of Conservative voters as well! And while Burnham began his campaign by conceding that Labour had lost the argument on the economy—"We have to start by admitting that we should not have been running a significant deficit in the years before the crash," he said—and Cooper stressed the need "to reset Labour's relationship with business," Corbyn was defiantly not on the same page. Instead, he has proposed a "People's Quantitative Easing," in which the central bank would electronically expand the money supply—but rather than use the newly created funds to buy Treasury notes (as in the original American QE) or bank or insurance-

company debt (as in the British version), the proceeds would be used to build public housing and other infrastructure projects. Although using public funds for the common good might pass for radical in some circles, and Corbyn had a kind word for Karl Marx as recently as last month, the underlying ideas here owe more to J.M. Keynes than to anyone else.

Which hasn't stopped Tony Blair from accusing Corbyn's supporters of "walking eyes shut...over the cliff's edge." Or Alastair Campbell, the flack whose fingerprints were all over the "dodgy dossier" justifying the invasion of Iraq, from urging fellow Labour Party members to vote for "anyone but Corbyn." Even former Labour prime minister Gordon Brown issued a typically dour—and typically oblique—warning against becoming a "party of permanent protest" rather than a contender for power. For a man whose detractors accuse him of splitting the party, Corbyn has already healed Labour's great rift. He was even the subject of an approving tweet by Rupert Murdoch, who called Corbyn the "only candidate who believes anything, right or wrong."

* * *

So what's not to like? Between now and September 10, the last day for postal ballots, attacks against Corbyn are likely to increase in frequency and fury. The most easily dismissed is "entryism." It's true that under the new rules instituted by Ed Miliband, Labour "supporters" can register to vote for as little as £3 (about \$5), and that, partly inspired by Corbyn's candidacy, hundreds of thousands of supporters have signed up. In response, the party has instituted a series of checks to exclude anyone who has been a candidate or activist for another party. But as a Labour grandee told me, "There just aren't that many Trotskyists."

The tiny handful of Corbyn's backers from Socialist Action are outnumbered at least 100 to 1 by supporters from Unite (the country's largest trade union), Unison (the second-largest), and a host of other unions representing everything from civil servants to firefighters to workers on the London Underground. And these, in turn, are dwarfed by the tidal wave of students, retirees attracted by Corbyn's pledge to make adult nursing care part of the National Health Service, and ordinary voters delighted at the chance to vote for a candidate who understands that austerity isn't working.

Then there are—predictably, given Corbyn's long record of support for the Palestinian cause—the accusations of anti-Semitism. Not against Corbyn himself, who is universally regarded as a thoroughly decent man. Instead the attacks are classic "guilt by association" tactics, in which Corbyn is alleged to have shared a platform with various objectionable characters whom he has then been pressed to denounce or disavow—by groups and individuals who have been happily doing Benjamin Netanyahu's dirty work for years.

And, of course, there is the question of "electability." As Bernie Sanders has shown, electability is a moving target: get enough votes to win the nomination, and you're electable. Besides, anyone arguing that the trio of lackluster apparatchiks who have been rapidly outshone by Corbyn would be more "electable" if they were only facing a Tory opponent (overwhelmingly backed by the British media) instead of a rumpled, bearded, teetotal Marxist vegetarian obviously has an idiosyncratic understanding of the word.

Which doesn't mean there is nothing to worry about. Corbyn arrived in Westminster in 1983, the year the party's manifesto was dubbed "the longest suicide note in history." Yet just last year, in a

column for the *Morning Star* (formerly the newspaper of the British Communist Party), Corbyn wrote that the 1983 Labour manifesto “would be highly appropriate today to deal with the finance and banking crisis.” His detractors cite this as proof that Corbyn is yesterday’s man, looking backward rather than forward. They may have a point.

There is certainly something decidedly, even perversely, retro about his promise to reopen Britain’s coal mines. “We shouldn’t be talking about coal. We should be talking about decarbonizing the economy,” a Labour activist friend said. Even Corbyn’s call for Britain to leave NATO sounds less like bold new politics than a tired relic of 1980s anti-American groupthink. Disband NATO? Maybe. But leave? For what? If Corbyn has a vision of a new, less militarized Europe, he’s kept it under wraps.

Finally, there is the small matter of effective opposition. Opposing the government will be the new Labour leader’s primary task for the next several years. How will Corbyn, a man who has never even given lip service to party discipline, persuade his colleagues to unite behind him? Of the few sane reasons to oppose Corbyn, his manifest unsuitability to lead a parliamentary opposition is probably the most persuasive.

Politics, however, is a long game. With five years until the next election, any hope of stopping the Tories will rely more on marches, demonstrations, and direct action than on votes in Westminster. Whoever wins in September might well be gone in a year or two. Meanwhile, the Labour Party is finally having the argument that Ed Miliband put off: about whom it claims to represent, and what kind of country it wants to build. And thanks to Jeremy Corbyn and his supporters, that argument has taken a surprising—and surprisingly radical—turn.

2015-08-10 THE TIME IS NOW!

by Patricia Cota-Robles

www.eraofpeace.org

The I AM Presence of each and every one of us has been preparing for this moment for lifetimes. Since our fall from Grace aeons ago our fragmented and fear-based human egos have been manipulating and controlling us. This mutated aspect of Humanity's fallen consciousness thinks our physical body is who we are and that its purpose and reason for being is to gratify our physical senses. The distorted perception of our human ego thinks that whatever it needs to do to survive is appropriate, even if it means lying, cheating, stealing, or killing. We can see evidence of this raging all over the World at this time.

Literally, every single thought, feeling, word, action, and belief we have that is not based in Love, Oneness, and Reverence for All Life is part of the manipulation and control of our fear-based human ego. But NOW, everything has changed!

Since the Birth of the New Earth, which took place December 21-22, 2012, we have finally reached a frequency of vibration that will enable us to burst the bonds of the paralyzing grip of our human ego. This will create a sacred space that will allow our I AM Presence and the Company of Heaven to Initiate us into a Higher Order of Being. Once that is accomplished we will transcend our ego's ability to control and manipulate us ever again. Then we will be able to Love this fallen aspect of our personality into the Light. I know this sounds too good to be true, but this has been the goal of the Divine Plan since the initial impulse of our fall from Grace.

Through the unified efforts of Heaven and Earth unprecedented events have taken place since the Birth of the New Earth. These Activities of Light have raised the energy, vibration, and consciousness of Humanity to a frequency that will enable Humanity and the Company of Heaven to God Victoriously accomplish this phase of the Divine Plan.

This Divine Plan will be fulfilled August 15-20, 2015. The I AM Presence of every man, woman, and child on Earth is well aware of this Cosmic Opportunity. That is true no matter how oblivious a person is on a conscious level or how difficult their present life experiences may be.

We are ONE with every precious person on the Planet and those of us who are aware of what is happening at this time have a tremendous responsibility to invoke the Light and to hold the sacred space on behalf of our sisters and brothers. Millions of people are so buried in their painful life experiences that they cannot begin to comprehend the importance of invoking the Light of God during this wondrous moment on Earth.

The Company of Heaven has assured us that with the heartfelt assistance of YOU and me and the myriad Lightworkers all over the World, this Divine Plan will be Victoriously accomplished in the Realms of Cause where everything begins. Then as each person assimilates this miraculous event it will begin to reflect into the world of effects, which is the physical plane of Earth. The length of time this will take is up to you and me, but once something is accomplished in the Realms of Cause, NOTHING can prevent it from manifesting in the world of effects.

Every Lightworker on this sweet Earth who is willing to be the Open Door for the influx of Light that will take place August 15-20, 2015, will be guided unerringly by his or her I AM Presence as

to the most effective way to participate. In addition to our individual guidance and participation, the Company of Heaven has given us some powerful invocations through which we can collectively empower this facet of the Divine Plan.

There is a video titled **Releasing the Human Ego** that will greatly assist in this process. I have included the link below in case you do not have it.

<https://www.youtube.com/watch?v=9CDcpZrBAOs>

In addition to the video I have included the following Invocations from the Beings of Light in the Realms of Illumined Truth, which we can recite on behalf of ALL Humanity.

My Mission

I AM my I AM Presence and I AM One with the I AM Presence of every man, woman, and child on Earth. I AM One with my Father-Mother God, I AM One with the Solar Logos from Suns beyond Suns beyond Suns, I AM One with the entire Company of Heaven, and I AM One with all of the Beings of Light associated with the Elemental Kingdom and the Angelic Kingdom.

I AM One with every electron of precious Life energy, and I AM One with every atomic and subatomic particle and wave of energy comprising the physical, etheric, mental, and emotional bodies of Humanity and Mother Earth. I AM also One with all of the spaces in between the atomic and subatomic particles and waves of energy on Earth. What I invoke for myself this sacred and holy day, I invoke on behalf of every person on Earth through his or her I AM Presence.

I AM open and receptive to the Divine Directives of my Father-Mother God.

With every Breath I take I AM experiencing a new level of Enlightenment and Inner Knowing. As this profound Truth resonates in my Heart Flame, I understand my mission on Earth with a new clarity.

There is an Awakening taking place within my Heart Flame. I AM recognizing my responsibility for the conditions existing in my life and on Earth. I remember deep within, that through the Universal Law of Attraction, I AM a cocreator of the physical plane.

My thoughts, feelings, words, actions, and beliefs are projected onto the atomic substance of physical matter and they manifest in physical form. As my gift of Life flows through me, it picks up the vibrations of my consciousness and then expresses those vibrations in visible form, experiences, and circumstances. In other words, what I think about, what I put my feelings and energy into, I bring into form.

Because of the confusion I have experienced in the past, I have given power to physical matter through my human ego. I have allowed the distorted manifestation of physical matter to become my reality, when, in Truth, it is only an illusion created by my thoughts, feelings, words, actions, and beliefs. I now realize with a new level of understanding and clarity, that physical matter is nothing more than a mass of atomic energy controlled by my consciousness. Never does matter control consciousness.

My world reflects my human consciousness. In the past I have set about trying to change the physical conditions in my world, instead of changing my consciousness. Those conditions are only the reflection of my consciousness. Trying to change physical conditions without changing my

consciousness is like trying to change the reflection in a mirror without changing the object causing the reflection. It is a futile effort.

Now, I AM One with my I AM Presence and my consciousness is rising. My Transfiguration is occurring subtly and deeply at an atomic, cellular level. The seed of awareness is growing within me. It is blazing like a Sun and radiating forth multifaceted and multidimensional Crystalline Rays of 5th-Dimensional Solar Light.

My Heart Flame is expanding and the Flame of Transfiguring Divine Love which is cradled in the Divinity of my Heart is expanding as well. This is a magnificent rose colored Flame with an aquamarine aura of Clarity. Pulsating in the center of this Flame is a resplendent, opalescent Sun of Transfiguration.

On the Holy Breath, the Flame of Transfiguring Divine Love in my Heart is expanding and connecting with the Flame of Transfiguring Divine Love blazing in the Heart of every man, woman, and child on Earth. This Activity of Light is creating a powerful forcefield around the Planet, an actual network of Light, a planetary grid system of Transfiguring Divine Love.

The collective radiance of this network of Light, formed by the Flame of Transfiguring Divine Love which is unifying the Heart Flames of ALL Humanity, is the mightiest force of Divine Love on the Planet. This Sacred Fire is creating a Bridge of Light that spans the abyss from the lowest octaves of human suffering and consciousness into the highest Realms of Illumined Truth and God's Infinite Perfection.

This is the *Bridge to Freedom* over which the recalcitrant souls, who are being manipulated by their human egos and vehemently resisting their own Awakening and Ascension in the Light, will be able to burst those oppressive bonds and much more easily become ONE with their I AM Presence and the patterns of perfection for the New Earth.

Now through my I AM Presence and the I AM Presence of every person on Earth the planetary grid of Transfiguring Divine Love is being greatly intensified through Humanity's unified Heart Flames. This influx of Light is allowing every person to realize that we are all being presented with an unparalleled opportunity to be Instruments of God during this momentous Cosmic Moment.

Through the Divine Potential of my I AM Presence, I accept this opportunity with deep humility and gratitude.

I AM An Instrument of God

I AM weaving my gifts, talents, skills, knowledge, strength, courage, compassion and Love into the tapestry of the Divine Plan for the New Earth.

As I respond to my Heart's Call, I AM God in Action in the physical plane.

I AM Consecrating my thoughts, feelings, words, actions, and beliefs to be the greatest Force of Light and Love I can possibly be on this Planet.

I AM making a positive difference every single day.

Through the focus of my attention, I AM the following Divine Truths:

I AM my I AM Presence

I AM One with ALL Life.

I AM Divine Love.

I AM Infinite Abundance.

I AM the Harmony of my True Being.

I AM Vibrantly Healthy and Eternally Youthful.

I AM a Peace Commanding Presence.

*The actions I take everyday improve my family, my job, my community, my city,
my country, and the World.*

I have a Healing Touch.

*I AM communing with my Father-Mother God, the Company of Heaven, the I AM Presences of
ALL Humanity, the Angelic Kingdom, and the Elemental Kingdom.*

*I AM daily and hourly Transfiguring this Planet into the patterns of perfection for the New Earth
through my thoughts, feelings, words, actions, and beliefs. And so it is.*
