HARD NEWS

CAMP LOVEWAVE - guest was Leonardo Mogu

- Leonardo Mogu is a follower of Falun Gong, he's also a Shaolin Master: does almost 16 different forms of martial arts. He's a friend of Nassim Harimein who got him out of China – took some doing, as China wants to get all the Falun Gong and the Uighurs [sounds like “Weegers”] out of China.
 - It is NOT President Xi, but the Cabals over there still playing with the cabals in the US – about world domination by force.
- Leonardo talked to the Che Gung [Qi Gong] path [***Qigong is an integration of physical postures, breathing techniques, and focused intentions. See National Qigong Association website***] , Chinese acupuncture: did you know that the rhythms in your body change every 2 hours with the energies of the rising and setting of the sun which is connected at the hip to the sun and connected to Helios and Vesta, and all the way up to Mother.
- Leonardo talked of having asthma, the beginning stages of a bleeding ulcer: grew up in China seeing things that he said . . . R brings up a movie *Army of Darkness* – a wild movie in which the hero took on zombies with a chainsaw and a 57 oldsmobile in medieval times!
- Leonardo rose up out of poverty to being a teacher of the Falun Gong; he is coming to Taos and Santa Fe to teach classes at the end of Sept; talked of the blood moon and Wave X, and about being on our best behaviour in this time of the blood moon – we have to stay in the place of balance and love or we will be thrown on our keisters & we might not get back up because the energies will lay us out flat – that is how intense the energies are.
- As we watch the clowns trying to shut down the gov't here – these ones are just clowns and are getting millions of dollars: please stop supporting these people as they hold no power except in the sense of the fear card.
- Thom Hartman asking if it is time to declare the Republican party a terrorist organization? They did 9/11 – when do we start calling them out as treasonists - except for 64 good members, the Democrats are of a similar ilk.
- Leonardo said buildings do not fall flat like a pancake in 10 sec or less, like the ones on 911 did – the crimes these ones have done are astronomical – goes into the realm of ET Corey and the stories that have not been told about the kids whose photos were on milk cartons.
 - E T Corey talked of a project going on in the 50s and 60s when the brightest of the bright American were put in special programs; Unbeknownst to their parents, they were disappeared and taken to Mars and other parts of Alpha Quadrant of the Milky Way Galaxy
 - It is only now that things are beginning to change: the planet and solar system are on lock down, as part of the galaxy is: we have to be able to navigate and create our own Merkabas and move as inter dimensional beings in our own Merkabas - As we can navigate this energy, we can get to earth with our ship intact.
- Leonardo also spoke of having quirks in our social-political economic systems; spoke of the difference between China and US: China is not communist but capitalist; swear allegiance to Chairman Mao but they are into vulture capitalism which does not help the people.
 - People like him are called dissidents / terrorists / subversives and they are disappeared – has seen many of relatives and others connected with the Falun Gong & other groups get disappeared and the light of hope gets blown out.
- He came here with the help of Nassim to share the wisdom of the Chi Gung way. He went through the Shaolin training in many places there.
 - R has told the story of one of Natasha's body guards coming from China: as part of the final test / initiation, have to pick up a glowing red hot iron pot with your forearms; the result is a tattoo of a tiger and a dragon, one on each forearm – the sure sign of a master.
- Teran and Bear asked him how old he was: 34!!!

- Talked of the true way of getting to ascension and eating a vegan diet – in the beginning only ate scraps which is why he got asthma and the beginnings of stomach cancer– as he began learning the martial arts, he is now in perfect health, says he has no issues with his body – is growing younger doing Tai Chi and is getting younger. As you master some of this temple, you become immortal.
- Talked of the dynasties there: China buying up mega amounts of gold; the d-word [dinars, global currency reset]
 - said if you got involved in this story, you lost your shirt and your pants and now you are naked to the world and you go out that way; he said PLEASE DO NOT BUY INTO THE FACT THAT THESE FOLKS ARE LEADING YOU DOWN A PATH TO THE GALLOWS.
- Hillary was behind it all in the beginning, then put the Grams in the front – Phil and Wendy Gram got their blessings and used it for darkness- began the Tea Party. There are people still buying the lies – Dinar recaps and other websites are total lies, and they drain peoples energies
 - Realize that the ones who are hired at the top are so brainwashed as they have been told they will get \$38 for each Dinar, where others get only \$3.85 – the minute you hear stuff like that, you leave the conversation.
- Talked of the ship that showed up over California: Teran said it could be a scientific Andromedan ship – he did not know. As we are moving higher and higher with Wave X they could be here: R knows the Pleiadians and the Andromedans **are here**. But the Men in Black are still playing with these technologies - says Will Smith knows totally what is going on.
 - Teran talked of so many sightings in major areas across the planet where the intensity of the people is so high
- **1.4 million people** - the Cateionians - want to be separate from Spain – too many inequities of societies around the world are visible to be seen.
- We the people have the power and as we use this in

Germany: DW News – still calling them migrants, not refugees – and increasing the intensity of rounding up those ones in Germany - It's boxcar time!

- The people who know better in **England** are slapping Cameron around
 - **Jeremy Corbyn** is going to mop the floor with Cameron
 - Julian Assange saying good things about Corbyn and, if he wants to be Prime Minister, will have to play footsy with the US – T interjects “That is cancelled because JA is not taking into consideration what we know now.”

R: it is time for people all over the planet to be free – with no borders

T: free will choice means there are consequences – and that story, the experiment, the Divine Leila of us wanting free will choice to do what we wanted, is now over.

- Faction 3 White Nights backed up by the galactics enter the scene: there will be no reincarnation; only new souls get to come in now; except for the special dispensation of what happened on 9/11. Everyone else has new assignments & are in other places that are all linked. The ones who are in the past will be spurred on by the energy of what happens here on earth to move more quickly than we on earth moved.

Idea of Messiah – On Sept 12/13 talk of the Jewish Messiah coming back: the Jews expect the Messiah to be a Muslim: this info from D'Yanna. Dr Keshe is not Muslim; he is Jewish.

- The Mahdi is a muslim-islamic term; another term is the Golden Age of Maitreya = My tray of gold
- **It is not an individual: it's an office** – and this time the people have to take the energy and the knowledge and make it part of their lives and get into world group service;

it will not be done by an individual saviour – it is not a person!

T: brings up what Kr Keshe has said

R: Ashtar has told R that **as various roles when they take the place, they are Offices**

[Office of the Christ, Office of the Cosmic Christ] , **not people** – they serve for eons and eons of time: could be 28,826 years of one cycle moving from one sign to the next.

- Santos Bonacci [recently arrested in Australia] worked with Ian Lundgold & the Mayan calendar – master astrologer - knows way too much about this story!
- As we move through the various signs, we move from one age to another, from Kali Yuga to Sat Yuga – and now we are moving into the Age of Enlightenment and having our hearts open so we can receive a higher wisdom and understand things from a different perspective

T: About Dr Keshe: he signed his name in May “In my name” [some people call this the messiah]

- he is Jewish and lives in Iran; he's a descendant of the daughters of Ruth – going back to the Hanging Gardens of Babylon & king of that time; Ruth without compromise saved the Jewish people in the NW corner of Iran & it's still a Jewish corner
- that book [bible] is in a sense - we are going beyond the biblical texts, the torahs, the korans, the upanishads, the Gitas, all the Vedic materials – we are going beyond this because we are in 5th dimension and higher; those books were 3D tools to teach the masses until they were in an ascended state with their bodies and that is what we are doing now
- Even though Dr Keshe can erase the ether of war from the consciousness of all humanity, starting with the men with guns in every place – and what is happening right now is that the more bogey men that are put in, the more people wake up and say get a life.
 - This morning Chris Hedges was still saying that there is no way Bernie Sanders will become president and within the context of assuming that the so-called powers that are no more are still reigning – that would be true – but it is not!
 - yet what they are planning now has to do with not giving a flying F***

T: brought up something yesterday that R

R: spoke by **text to Larry & Curly:** these ones want to do an internal coup d'etat in this country and wipe out the Obama family because they consider the family less than human.

- Commander, with all due respect, they have no power. Whatsoever. They are playing the last fear card – believe in the magic of who you are. They want to rile up the people, stir the pot so there would be a confrontation between the police, the military, the militias – has read that the Oathkeepers want to come and defend Kim Davis in Kentucky
- The Oathkeepers are a paramilitary group like Blackwater: murderers, ex policemen, ex-military: they are playing with the fire of the universe and you cannot play with that energy unless you are Lord Indra; they cannot play with that kind of energy and life force and simply wipe out any life force because you don't like the colour of a person's skin or the way they eat their food or the way they pray to whatever form of Creative Force they connect with
- they want to shut down the gov't again and create an incident around martial law – and initiate mass riots, martial law, usurp Obama and start ethnic cleansing – which they have already started with black people.

T: Leonardo saying that the Chinese were two-faced: they play the role of the capitalist, but use the communist situation and kill their people – this is also going on here in the US: the Oath keepers are part of the group that has killed 2 million people in the last 100 years.

R: Leonardo: oath is a strange word: as you enter into this realm from spirit realm, you are a spirit being having a human experience; your only oath is to follow the Laws of the One

**Audio: What We Think About When We Try Not to Think About Global Warming
Per Aspen Stokness at Seattle Town Hall, WA**

<https://www.youtube.com/watch?v=o-LVESQtG-s>

Published on 15 May 2015

There are five main psychological barriers to climate action —the five D's Per Espen Stoknes calls them—that keep us from acknowledging the need for change: We **distance ourselves** from the climate issue; we **avoid doom and sacrifice messengers**; we **experience cognitive dissonance**; we get rid of **fear and guilt through denial mechanisms**; and, automatically **resist criticisms of identity, job, and lifestyle**. We need to retell the story of climate change and, at the same time, create positive, meaningful actions that can be supported even by deniers.

This event will be rich in story and examples, as Stoknes reviews recent psychological research and explores emerging strategies for how to overcome this 'psychological climate change paradox'. A more compassionate climate communication can now rely on approaches that employ the power of social networks, reframing, nudging, storytelling and better climate response indicators. Also, the acknowledgement of grief, helplessness and despair, as well as reconnecting with an intimate and personal experience, can be a deep source of motivation for a grounded hope. Stoknes seeks to answer the fundamental questions: Is humanity up to the task?

His book, by the same title: **What We Think About When We Try Not to Think About Global Warming**, will be of interest to people working on the front lines of the climate issue, people trying to make policy or educate the public, or just an average person trying to make sense of the cognitive dissonance or grapple with frustration over this looming issue.

Speaker Bio:

Per Espen Stoknes is a psychologist and an economist. An entrepreneur, he has cofounded clean-energy companies, and he spearheads the BI Norwegian Business School's executive program on green growth. He has previously worked both as a clinical and organizational psychologist and as an advisor in scenario planning to a wide range of major national and international businesses, government agencies, and nonprofit institutions. His research interests include climate and environmental strategies, economic psychology, and energy systems. Teaching areas include green growth, foresight and corporate strategy, behavioral economics and expressive arts. He has written three books, including **Money and Soul**. He lives in Oslo, Norway.

Time to finish setting the table for the guests are about to arrive! The Solar Eclipse this weekend in Virgo wants everything perfect for the banquet to begin. This may require going back over some "old forgotten details" in the projects, relationships, initiatives, and health, maybe even stretching back to how we have been treating ourselves since childhood.

It can be a week when Life brings us our issues to look at and "fix" prior to moving on. Through some of the "crisis" that may emerge it will be helpful to maintain the attitude that everybody and everything will be better off in the long run and that we can be in a state of gratitude rather than victim when being shown our "faulty" ways.

One tendency might be to try and avoid or deny the problem/s, procrastinate or give up when shown how much effort is required to get back on track. Fortunately, Venus and Mars together in Leo trine Uranus can give us some original creative ways to deal with just about anything. Particularly in the realm of love and relationship it is a time to brainstorm in new ways of being in relationship with ourselves and our partner/s rather than dwell on how the current situation needs changing. The more proactive we are now the less reactive we may be later! Enjoy working it all out (and not just in the gym)!

Aug. 15, 1971 – when the world went on the Petro Dollar.

Lyn: livingonenesscommunity.com - Greg Bradin spoke at it [either Sept 10 or 11] - connected to the shiftmovement.com

peacealliance.org – they are writing congress, meet with congressional reps – was set up by Dennis Kucinich – it's mainstream – a huge movement; David Bernstein was main speaker – he's starting a program called www.solutionsjournalism.com

She has a **digital subscription to the local newspaper** – the fastest way to change hearts and minds is to check the editorials and then blog on it. The young people working in the local newspaper set things up so people can blog on the editorials – a good way to go.

T: this is about the change in the media

Lyn: copblock.org is also important – sites are working together so people are encouraged to report police brutality; lawyers are also stepping in to help change the system

T: Earth: a New Wild – something they are watching in TV – the natives are naked as jay birds, in their bare feet and documenting what is there on THEIR CELL PHONES!!!

Lyn: things are going global – GLOBALCLIMATECONVERGENCE.ORG

T: the borders are disappearing

- The healing of Mother Earth is happening now

Lyn: for those working in any arena relative to peace – the VeteransforPeace.org group need more volunteers – if people will share this information, will help – the war mongers are scared when they hear about the women in China who were asking them for help because the kids are so addicted to video – war games:

- they need to wake up if you keep people focussed on war, they are asking for robotic warfare!
- When she spoke to some of the people and told them the truth about what was coming, they totally freaked! When you get robotic warfare coming and kids are affected by drugs and they have google maps and know where you live, where the fracking sites are, where the nuke sites are – the Chinese women are asking US churches to help with the kids

T: do those kids have the ability to blow up nuclear sites?

Lyn: Yes, that is what she meant.

R: the US gov't / Black Ops are practicing drone stuff in the US.

Lyn: the gig is up – the war mongers and what they are pushing

T: not quite sure what can be done: this is where intervention comes in as those sites are shut down

Lyn: it's about changing the thought forms away from the whole paradigm

C2: didn't we hear that Dr Keshe is going to erase the idea of war from everyone's consciousness?

T: yes, they won't remember a thing, no matter what they used to know – time to place that

thought in our own minds!

- Listening to Elizabeth Kuchinich today: and the Norwegian speaker – both were about creating solutions to whatever is happening – THAT IS WHAT WE ARE ALL ABOUT AT THIS MOMENT.

[Watching wolverines playing in the mountains – amazing creatures!]

T: all the concerns of the moment: there was a time when we had no ice or snow: as we travel closer to the Pleiades – not sure what that means in terms of weather.

- These guys only have a grip on 3D – **we are focussing on 6th – 9th Dimensions now!**
 - The more we “don't worry, be happy” and commune with greater vision, hearts, consciousness and super consciousness, we find the solutions are in the higher dimensions.

BBS RADIO

Music: The Gaia Tree mantra

T: Xi, Putin, Obama know exactly what is going on

- we've moved into a new phase where plans and solutions are being proposed
- As the activation occurs in countries around the world, there are lots of NGOs that have been created by wealthy visionaries
- Do what the new vibration allows: as long as the galactics are ready and we are ready, things will go ahead.

Please join me for the next SISTER GIANT Conference on March 28-29, in Los Angeles and/or via livestream. (This one is for all of us — women and men too!) We're going to have a deep conversation that weekend about conscious citizenship and political change. From getting the money out of politics to racial justice and mass incarceration, from the corruption of our food supply to how to build a more peaceful world, from spiritual enlightenment to political transformation, we're going to spend a weekend digging deep and flying high...in our minds, in our hearts, and hopefully in our country.

Honoring Our Elders: Lives Well Lived East Meets West from Samurai to MD, to Complimentary Medicine Practitioner. [STOPPED AT 58 MIN]

You can try to take nature out of healing but you can't take the Samurai spirit out of the healer.

Shot in HD, this documentary is an exciting exposé on some hidden truths about main stream medicine. It is eloquently told, in a very personal story of a life well lived. Sub titled **East Meets West**, this accomplished pathologist Dr. Hiroshi Nakazawa M.D., turned back to his early childhood influences of natural medicine. Fearlessly he tells the truth, about how and why we are over treated and over medicated as standard operating procedure by the current day eastern medicine. Coming soon exclusively to Free Speech TV from Frank Melli, producer of Meet The Farmer TV.

A look at the historical and present-day connections between democracy, land, housing and economic development. The history of the US is packed with people of color and poor people who've been stripped of their rights - to vote, to wages, to housing or even just the right to stay in the country - through incarceration, segregation, slavery and deportation. For just as long, black communities have created safety, and won a say in democracy, through buying and keeping land cooperatively. It's not just history, either. Mark Scott is an organizer of #blacklandmatters, a group working today, and Tia Powell Harris is the director of the Weeksville Heritage Center, Brooklyn's largest African-American cultural institution, which is dedicated to preserving the history of the 19th century African American community of Weeksville - one of America's first free black communities. This episode also features an exclusive report, **Cooperation vs. Gentrification: Bed Stuy Strives to Stay Local**, which explores ways people in the Bed Stuy neighborhood of Brooklyn are using co-ops to find ways to benefit local communities and prevent the displacement caused by gentrification.

Audio: a short clip of the first episode of Steve Colbert's late night show – Jon Stewart was involved in this episode.

T: pleased with the way things fitted together on tonight's show: time for things like Cooperatives and other ways of changing the current systems to be put in place.

Life-transforming Success and Much, Much More!
by Patricia Cota-Robles

I AM sending out this very important information on September 8th because it is the day that is celebrated in the outer world as Mother Mary's Birthday. This powerful representative of the Divine Feminine and Universal Keeper of the Flame of the Immaculate Concept, is working in unison with Saint Germain who is the Universal Keeper of the Violet Flame of God's Infinite Perfection. Together they have God Victoriously fulfilled a facet of the Divine Plan that they initiated on behalf of ALL Humanity and every particle of Life evolving on this Planet during the initial impulse of our fall from Grace. The success of their Divine Mission has catapulted Humanity and the Earth into frequencies of vibration that will allow us to tangibly experience one of the most critical facets of our Ascension process. We are in the midst of this amazing event this very moment. Our conscious awareness of the opportunity at hand will allow us to participate in ways that will transform our lives forever.

The information I am sharing with you in this article is complicated, but it is something you know in the deepest recesses of your heart or you would not be on Earth during this auspicious time. If possible, please print this article out and read it when you have time to go within and really contemplate what has happened during the past few weeks and what is happening now during the month of September 2015. Within the Divinity of your Heart, your I AM Presence will confirm the Truth of this information. Then through this inner knowing, you will clearly understand just how to assimilate and effectively utilize the profound opportunity at hand.

WE HAVE SUCCESSFULLY BURST THE BONDS OF OUR HUMAN EGOS

On August 15, 2015, the day celebrated in the outer world as Mother Mary's Ascension Day, approximately 700 people from 22 countries gathered within the Portal of Healing Through the Power of Infinite Transmutation and Transfiguring Divine Love in Tucson, Arizona. The vehicle for this gathering of selfless Lightworkers was the 29th Annual World Congress on Illumination. We were joined in consciousness by Lightworkers all over the World who were projecting Light from their various locations into the portal in Tucson.

In one-pointed consciousness, we unified our Heart Flames and formed a powerful transformer through which the Light of God would flow throughout the entire week to accomplish the vital facet of the Divine Plan that was destined to be victoriously accomplished through the unified efforts of the entire Company of Heaven and embodied Lightworkers around the World.

On August 16, 2015, Archangel Michael and his mighty Legions of Power and Protection descended into the atmosphere of Earth. Archangel Michael directed his Legions to traverse the Earth north, south, east, and west. One of these powerful messengers of God entered the aura of every single man, woman, and child on Earth and with the permission of each person's I AM Presence established an invincible forcefield of Protection and Divine Love around the fragmented and fear-based aspect of every person's human ego.

This invincible forcefield of Protection and Divine Love was specifically designed to prevent these wayward aspects of Humanity's fallen consciousness from interfering with the influx of Light that would burst, ONCE AND FOR ALL, the paralyzing and oppressive grip that our human egos have had, since the fall, on our physical, etheric, mental, and emotional bodies.

Once that forcefield of Light was secured around every person's human ego, our Father-Mother

God sounded a Cosmic Tone that signaled to ALL Creation that the Cosmic Moment had at last arrived. This was the moment Humanity's I AM Presences and the Company of Heaven had been working toward since the miscreation of our fragmented and fear-based human egos literally millions of years ago.

In response, the Legions of Light throughout Infinity projected their Light and Love in, through, and around every particle and wave of Life on Earth, thus, holding the sacred space for God's Eternal Victory in the next critical facet of the unfolding Divine Plan.

When all was in readiness, our Father-Mother God Breathed into the Heart Flame of every person's I AM Presence the most intensified frequencies of 5th-Dimensional Crystalline Solar Light that Humanity was capable of withstanding at that moment. On the Holy Breath of God, every atomic and subatomic particle and wave of Light within Humanity's physical, etheric, mental, and emotional Earthly Bodies Ascended in energy, vibration, and consciousness into a frequency of 5th-Dimensional Crystalline Solar Light that burst asunder our human ego's paralyzing grip. This event PERMANENTLY freed Humanity's Earthly Bodies from the bonds our egos have used to manipulate and control us through fear-based thoughts, feelings, actions, and distorted beliefs in separation and duality.

In spite of the pain and suffering our egos have inflicted in our lives and the chaos they have created on a global level, they are still part of us and cannot be destroyed. They must be transformed and Loved into the Light. That, in fact, was the next phase of the Divine Plan.

Once the human ego's oppressive grip was burst asunder, the I AM Presence of every person was able to Breathe their ego into their Heart Flame. At this point, every ego was still encapsulated in the invincible forcefield of Protection and Love created by Archangel Michael's Legions of Light. Now, within the Divinity of every person's Heart Flame, our I AM Presence will perpetually bathe our ego in frequencies of Forgiveness and Divine Love until this aspect of our fallen personality surrenders to the Light of God and is Eternally Loved FREE.

Each of Archangel Michael's selfless Legions of Light has volunteered to remain in our auras and to sustain the forcefield of Protection and Love around our egos until this process is complete. This means very practically that our human ego will never again be able to manipulate and control us through its fragmented and fear-based consciousness.

This Reality is filtering into people's hearts and conscious minds daily and hourly. Millions of people are tangibly feeling the monumental shift of consciousness that has occurred in their everyday experiences. Many others have not sensed this shift yet and are still acting out of the HABIT of their previous behavior patterns. However, without the ego to empower these habits their strength will soon dissipate and the inner guidance of the person's I AM Presence will be clearly heard. This is what is meant by the statement, "We will see with new eyes and hear with new ears."

The guidance from our I AM Presence is always based in Love and Reverence for Life. This means without the interference of our human ego, our I AM Presence will be able to easily project viable solutions to our Earthly challenges that will be perceived through our open hearts and conscious minds.

THE NEXT CRITICAL STEPS OF PREPARATION

During the next two days, August 17-18, 2015, the Company of Heaven worked with Lightworkers and the I AM Presence of every person on Earth to clear and heal the traumatized areas in Humanity's Earthly Bodies. These are the dense areas where our human egos previously existed. Since we are One and there is NO separation, this Activity of Light also cleared and healed the

areas in the physical, etheric, mental, and emotional strata within the bodies of Mother Earth as well. These were areas where the deliberate actions of Humanity's human egos had wounded and traumatized the Planet.

The Divine Intent of this intervention was to prepare every man, woman, and child, and Mother Earth herself, at a cellular level for an influx of Light that the Company of Heaven said would have literally vaporized the Earth and all her Life as recently as four years ago. That dramatic statement was given to us by the Beings of Light to demonstrate the unprecedented acceleration in frequency and consciousness Humanity and the Earth have experienced at an atomic and subatomic level since the Birth of the New Earth on December 21-22, 2012.

The two Gifts from On High that accomplished this monumental clearing and healing were the most intensified frequencies of 5th-Dimensional Crystalline Solar Fire that the Earth and Humanity had ever been able to assimilate. This Crystalline Solar Fire contained sacred geometric patterns and previously unknown archetypes associated with the Flame of Transfiguring Divine Love and the Violet Flame of God's Infinite Perfection. These Gifts of Sacred Fire from the very Heart of our Father-Mother God were encoded to clear and heal the bodies of Humanity and Mother Earth the maximum that Cosmic Law would allow. This Activity of Light paved the way for the fulfillment of a Divine Plan that Mother Mary and Saint Germain vowed to accomplish on behalf of ALL of the Sons and Daughters of God evolving on this Planet if we were ever freed from the grip of our human egos.

On August 19, 2015, Mother Mary and Saint Germain projected their luminous Presence into our sanctuary to guide us through an Activity of Light that they had been orchestrating since Humanity's fall from Grace.

On this Planet Ages ago, the Sons and Daughters of God made the fateful decision to use our free will and our creative faculties of thought and feeling to create patterns of imperfection that were not based in Love. That tragic choice resulted in Humanity's catastrophic fall into the abyss of separation and duality. That horrific event resulted in the unintended consequences that formed our fragmented and fear-based human egos.

Mother Mary is the Universal Keeper of the Flame of the Immaculate Concept, which reflects the Original Blueprint and the Divine Potential of every person, place, condition, and thing existing in the Causal Body of God. Saint Germain is the Universal Keeper of the Violet Flame of God's Infinite Perfection, which reflects the perfect balance of our Father God's Blue Flame of Divine Power and our Mother God's Pink Flame of Divine Love. When these two selfless messengers of God witnessed Humanity's devastating fall from Grace they realized that without superhuman Divine Intervention the potential of the Children of God lifting ourselves out of the quagmire of negativity we were miscreating was practically nonexistent.

With that realization, Mother Mary took a Sacred Oath promising before God to hold the Immaculate Concept for every Son and Daughter of God evolving on Earth until each and every one of us Awakened effectively enough to burst the bonds of our human egos and return to Christ Consciousness. Saint Germain, in turn, took a Sacred Oath promising before God to hold the balance of the Violet Flame of God's Infinite Perfection within the Heart Flame of each and every person's I AM Presence until the human ego was Loved Free and Humanity's Earthly Bodies were reclaimed.

On August 19, 2015, Mother Mary and Saint Germain affirmed that THIS WAS THAT COSMIC MOMENT! This was the sacred and holy day for which Mother Mary and Saint Germain had been preparing for millions of years.

With Mother Earth and ALL Life evolving upon her securely held within the transformer of our Unified Heart Flames, Mother Mary and Saint Germain bathed the Earth and all her Life in newly encoded 5th-Dimensional Crystalline Solar frequencies of the Flame of the Immaculate Concept and the Violet Flame of God's Infinite Perfection.

The Flame of the Immaculate Concept is an exquisite Madonna Blue Flame with a Crystalline White aura. The Madonna Blue Flame pulsates with the Immaculate Concept of ALL Life and the Crystalline White aura pulsates with frequencies of the Ascension Flame.

The Violet Flame of God's Infinite Perfection blazes in perfect balance with all of the various frequencies of our Father God's Blue Flame of Divine Power and our Mother God's Pink Flame of Divine Love.

Once these Sacred Flames were secured within the Core of Purity in every electron of precious Life energy on Earth, Mother Mary and Saint Germain guided Humanity's I AM Presences through the process of reversing the adverse effects that Humanity's fall from Grace has had on our DNA structures.

Scientists believe that our DNA consists of two strands that form a double-helix configuration. They believe that the genetic codes within this double-helix contain everything we need to explain our existence. For a long time scientists thought that our DNA was stationary and could not be changed. They called more than 94% of our DNA "Junk" DNA, because they had no idea what its purpose was.

Scientists now know that our DNA structures are shimmering, waveform configurations that are moment by moment being modified by Light, solar radiation, magnetic fields, sonic impulses, thoughtforms, emotions, and most profoundly—GAMMA-RAYS. What they do not realize yet is that originally we had 12 strands of DNA that functioned as a very elaborate communication system. This DNA system allowed us to maintain conscious awareness of all of the multidimensional and multifaceted aspects of ourselves. At that time, our DNA also allowed us to easily perceive the Immaculate Concept of our Divine Potential as Sons and Daughters of God. This is when we functioned in the full embrace of Christ Consciousness.

With the fall, we descended into such dense and discordant frequencies of separation and duality that our 12 strands of DNA short circuited into the two strands that our scientists have discovered. The reality is that the genetic codes in these fragmented strands of DNA do not contain our full potential. On the contrary, they contain barely enough of our genetic codings to sustain brain consciousness. This is why it is perceived that we only use 10% of our brain capacity and that, in most instances, we no longer experience Christ Consciousness.

With the unprecedented shift of energy, vibration, and consciousness Humanity and all Life on Earth had experienced since the Birth of the New Earth in 2012, and the long awaited removal of Humanity's human egos, Mother Mary and Saint Germain were finally able to fulfill their sacred oaths. During what was perceived by many to be a miraculous Act of Divine Grace, the I AM Presence of every man, woman, and child on Earth was empowered in previously unknown ways which allowed them to recalibrate and re-circuit our fragmented strands of DNA into TWELVE NEW 5TH-DIMENSIONAL CRYSTALLINE SOLAR STRANDS OF DNA.

Every person's I AM Presence integrated and assimilated this Life-transforming shift in the Realms of Cause in preparation for Humanity's Initiation into a Higher Order of Being, which was destined to be God Victoriously accomplished the next day.

HUMANITY'S INITIATION INTO A HIGHER ORDER OF BEING

On August 20, 2015, there were two final processes that needed to occur within Humanity's newly freed Earthly Bodies before our Initiation into a Higher Order of Being.

With the assistance of the Mighty Elohim who are the Cosmic Builders of Form, and the Directors of the Ether, Air, Fire, Water, and Earth Elements, the I AM Presence of every person on Earth was guided through an Activity of Light that activated the dormant Elemental Vortices within Humanity's Earthly Bodies. During this activation, Humanity's Elemental Vortices were recalibrated by the Mighty Elohim and our I AM Presence to receive Higher Frequencies of 5th-Dimensional Crystalline Solar Light than we have ever known. This is the critical Light frequency that is necessary in order for our I AM Presence to transform our carbon-based planetary bodies into 5th-Dimensional Crystalline Solar Light Bodies.

During this Cosmic Moment on Earth, our Father-Mother God have given permission for the Directors of the Elements and the Mighty Elohim to greatly increase the assistance they are giving to Humanity in our physical transformation process.

Our Earthly Bodies are comprised of the various elements. Our physical body is associated with the Earth Element, our etheric body the Air Element, our mental body the Fire Element, our emotional body the Water Element, and all of these vehicles are enveloped in the more rarefied substance known as the Ether Element.

The Elementals are intelligent Beings that use the atomic and subatomic particles within the elements for the building blocks of all manifest form. Within our Earthly Bodies there is a Master Deva that directs all of the Elementals within our vehicles. This Being is known as our Body Elemental and took vows at our inception to remain with us throughout all of our Earthly sojourns.

In the beginning, our Body Elemental was able to easily outpicture the patterns of perfection within our DNA messenger codes. This was largely due to the active Elemental Vortices within each of our Earthly Bodies. These vortices energized and sustained the elements within each of our bodies, which allowed the Elementals to help us maintain a state of vibrant health and eternal youth. Unfortunately, after the fall, everything changed. Our Elemental Vortices became dormant when Humanity fell into the illusion of separation.

Now that Humanity is free from the manipulation of our human egos, the Directors of the Elements have been given permission to not only reactivate the Elemental Vortices within our Earthly Bodies, but to recalibrate them to receive Higher Frequencies of 5th-Dimensional Crystalline Solar Light than we have ever been able to withstand.

On August 20, 2015, the Mighty Elohim and the Directors of the Elements guided the I AM Presence of every person on Earth through the reactivation of our Five Elemental Vortices. The Five Elemental Vortices are swirling vortexes of Light that shine like miniature Suns within our Earthly Bodies when they are fully activated.

The first vortex to be activated was the Ether Vortex which pulsates above our head. On that sacred and holy day, under the guidance of the Mighty Elohim, Humanity's Ether Vortex was awakened and fully activated. The Light of God expanded through the Ether Element and every person's Ether Vortex began blazing like the Sun allowing our four Earthly Bodies to be bathed in rarefied Ethers from the 5th Dimension.

Next, the Air Vortex which pulsates in the location of our Throat Chakra was fully activated. When the Air Vortex awakened it began blazing like the Sun. The Light of God expanded through the Air

Element within our vehicles and Humanity's Etheric Bodies were Transfigured.

Next, the Fire Vortex which pulsates in the location of our sternum in the center of our chest was fully activated. When the Fire Vortex awakened it began blazing like the Sun. The Light of God expanded through the Fire Element within our vehicles and Humanity's Mental Bodies were Transfigured.

The Water Vortex which pulsated within the location of our Root Chakra at the base of our spine was fully activated next. When the Water Vortex awakened it began blazing like the Sun. The Light of God expanded through the Water Element within our vehicles and Humanity's Emotional Bodies were Transfigured.

Next, the Earth Vortex which pulsates between our feet was fully activated. When the Earth Vortex awakened it began blazing like the Sun. The Light of God expanded through the Earth Element within our vehicles and Humanity's Physical Bodies were Transfigured.

After the God Victorious accomplishment of that facet of the Divine Plan, Humanity was ready for the final process that would allow us to be Initiated into a Higher Order of Being.

Once again, under the guidance and direction of the Builders of Form, the Mighty Elohim, Humanity's I AM Presences were led through an accelerated process of Divine Alchemy that brought NEW frequencies of 5th-Dimensional Crystalline Solar Light through our newly activated Elemental Vortices and into our physical, etheric, mental, and emotional bodies. According to the Beings of Light in the Realms of Illumined Truth, that event quickened the Divine Alchemy taking place within Humanity's and Mother Earth's Bodies and accelerated the transformation into our 5th-Dimensional Crystalline Solar Light Bodies in ways that transcends the comprehension of our finite minds.

Once that facet of the unfolding Divine Plan was successfully accomplished, Solar Logos from Suns beyond Suns beyond Suns projected their luminous Presence into the atmosphere of Earth and took their strategic positions around the Planet. On the Holy Breath, these representatives of our Omniscient, Omnipresent, Omnipotent Father-Mother God—the Cosmic I AM—All That Is, braced Mother Earth and all Life evolving upon her in powerful shafts of Light.

When all was in readiness, our Father-Mother God Breathed the Sons and Daughters of God evolving on Earth a quantum leap up the Spiral of Evolution and Initiated each and every one of us into a Higher Order of Being.

The overwhelming success of that Activity of Light assured that from that moment forth, the Sons and Daughters of God evolving on Earth who have experienced depths of pain and suffering beyond anything we were ever intended to endure, will never again be manipulated in such abhorrent ways by the fallen consciousness of our human egos.

That final Activity of Light, God Victoriously completed the Immaculate Concept of the Divine Plan for the 29th Annual World Congress on Illumination and set the stage for the miracles that are destined to take place in September 2015.

THE MIRACULOUS DIVINE PLAN FOR SEPTEMBER 2015

ECLIPSES, THE EQUINOX, AND WAVE-X

I think that by the time we finally get through this unprecedented Ascension process we are all going to be Quantum Physicists. I know some of this information is a bit overwhelming, but in order to really grasp the magnitude of what is happening on this sweet Earth the Beings of Light want us to at least contemplate some of these mind-boggling Truths. When we take the time to contemplate this information, we open the door for our I AM Presence to reveal to us our particular part of the unfolding Divine Plan. Then we are more easily able to fulfill our mission and the greatest need of the hour on behalf of Humanity and Mother Earth. Fortunately, without the interference of our human egos this is now going to be easier than ever before.

The reason this Ascension process is so unique is because we are not just one-by-one completing our Earthly experiences and Ascending into the Inner Realms to begin the next level of our individual learning process, as so many of our sisters and brothers have done since the inception of this Planet. This time every man, woman, and child on Earth is simultaneously Ascending into the 5th-Dimensional Crystalline Solar Frequencies of the New Earth—AND WE ARE BRINGING THE TRANSFORMED OLD EARTH AND ALL LIFE EVOLVING UPON HER WITH US!

The old Earth and our recalcitrant sisters and brothers who are still asleep can only succeed in making this monumental shift if those of us who are Awake, and abiding in the physical plane, will make the conscious decision to accept responsibility for being our sisters and brothers keepers. We can help exponentially by invoking the Violet Flame on behalf of ALL Humanity and transmuting the human miscreations of our fragmented human egos from every time frame and dimension both known and unknown. Then, through the Divine Alchemy of God's Infinite Light, we can transform every atomic and subatomic particle and wave of energy within our Earthly Bodies and those of our sisters and brothers in the Family of Humanity into 5th-Dimensional Crystalline Solar Light Bodies.

We not only have the ability to do this on behalf of Humanity, we also have permission to do this because WE ARE ONE and there is NO separation. We have reached a critical mass of Divine Love and the I AM Presence of every person on Earth has made the conscious decision to move forward in the Light. This is true whether or not the person has realized this yet on a conscious level.

All we have to say is, "I AM my I AM Presence and I AM One with the I AM Presence of ALL Humanity. The Light I invoke on behalf of myself I invoke on behalf of every person on Earth. I know and accept that this influx of Light will manifest in perfect alignment with every person's Divine Plan and the highest good of all concerned."

The Universe is standing in readiness awaiting the invitation to assist us in this unprecedented experiment. It is true that we are in uncharted waters, but through the unified efforts of Heaven and Earth OUR VICTORY IS ASSURED!

The Company of Heaven has revealed that shifts of energy, vibration, and consciousness unparalleled in the history of time have occurred since the Birth of the New Earth in December 2012. However, the Beings of Light in the Realms of Illumined Truth say those accomplishments will pale in comparison to the shifts we are on the verge of experiencing in the month of September 2015.

Every conceivable assistance is being given to Humanity from On High to help us accomplish our Ascension process. One of the most astounding things is the influx of Gamma Rays we have received from what scientists say was one of the biggest and hottest explosions in the Universe.

This monumental influx of Light reached the Earth in 2014, and it is daily and hourly affecting the recalibration of our DNA. This powerful influx of Gamma Rays was the result of an explosion of a Star that took place more than 12.1 billion years ago. The Beings of Light confirmed that this Light reached Planet Earth in perfect Divine Timing. Just to give you an idea of how far away this Star was, it takes 8.17 minutes for Light from the surface of the Sun to reach the surface of the Earth.

Sometimes these astronomical numbers about time and space seem confusing to us, but we must remember that time and space only exist in the 3rd and 4th Dimensions. From the 5th Dimension and beyond, there is no such thing as time or space. In the Higher Realms of Light everything occurs in the Eternal Moment of Now.

Gamma-ray bursts are not well understood by astronomers, but they realize that they are very important because they are the most powerful explosions in the Universe. These bursts release more energy in 10 seconds than Earth's Sun will release during its entire expected lifespan of 10 billion years. Just imagine!

The Beings of Light have revealed that Gamma Rays are instrumental in recalibrating Humanity's DNA structures. Now that Humanity's fragmented double helix DNA has been restored in the Realms of Cause to the 12 strands we originally had, and recalibrated to the frequencies of 5th-Dimensional Crystalline Solar Light, we are ready for the monumental events that will take place in September 2015. These events will catapult the Earth and ALL Life evolving upon her into the highest frequencies of the New Earth we have ever experienced. According to the Company of Heaven, the anticipated influx of Gamma Rays we will receive from WAVE X will shift Humanity's DNA in ways that will result in the most profound Awakening and return to Christ Consciousness that has ever been attempted in any System of Worlds.

As is always the case, these monumental Activities of Light will occur first in the Realms of Cause, then they will be magnetized into the world of effects which is the physical plane. This is accomplished as the Sons and Daughters of God abiding on Earth magnetize these shifts into the world of form through the Divinity within their Heart Flames. This means that we are not going to instantaneously experience Heaven on Earth in September 2015, but once something is secured in the Realms of Cause NOTHING can prevent it from manifesting in the world of effects. The only variable is how long that will take and that is up to you and me and the rest of Awakening Humanity.

To grasp the full magnitude of what is occurring in September 2015 the Beings of Light want us to comprehend on a conscious level that this will involve the shift of energy, vibration, and consciousness of every single atomic and subatomic particle and wave of Life evolving this Planet. Even the most minute subatomic particle has Divine Intelligence and serves an important purpose. For instance, the top quark is one of the smallest indivisible units of heavy matter. This tiny particle is an important building block of all manifest form even though the top quark is smaller than a trillionth of the width of a human hair and exists for only a trillionth of a trillionth of a second. That is not a typo!

The Beings of Light keep reiterating how vital it is that we expand our awareness to realize that everything is alive and has a degree of intelligence and consciousness. They have assured us that this realization will quickly shift the perception of the masses into the acceptance of the Oneness of All Life, which will in turn precipitate Humanity's Reverence for All Life.

As Humanity continues to Awaken into a higher level of Christ Consciousness, much that we have taken for granted in the World is being revealed as inaccurate. This is causing confusion and much controversy in the various fields of science. For centuries science has used the limited left-brain

approach of observing nature and the Universe objectively and then making logical assumptions based on empirical evidence. Now, however, as we move into the 5th-Dimensional Crystalline Frequencies of the New Earth that must change.

Through the newly Awakened state of Christ Consciousness, Humanity en masse is at long last moving away from the dominance of our mind and our fragmented left-brain thinking. With the assistance of our I AM Presence, we are finally balancing our intellect with the Love nature of our heart and our right-brain's creative and intuitive capabilities. This transformation is creating an entirely new process for assimilating information that expands our awareness from the limitations of the dense 3rd-dimensional plane into the multidimensional and multifaceted reality where each and every one of us actually abides.

Now, at long last, instead of being controlled by all of the layers of distorted human thought which were derived from our manipulative human egos after the fall—conscious, subconscious, and unconscious mind—our I AM Presence is taking command. Through our newly balanced right- and left-brain hemispheres, the unification of our hearts and minds, and our newly activated 12 Solar Strands of 5th-Dimensional DNA, we are now able to assimilate information directly through the Divinity of our Super Conscious Mind which is our I AM Presence.

Awakened Humanity will now, en masse, begin perceiving everything as Divine Energy, Vibration, and Consciousness whether it is something in our daily lives or coming to us from dimensions beyond. As we assimilate our shift into Christ Consciousness day by day, unimpeded by our fear-based human egos, we will become tangibly aware of this profound Truth in our meditations and in our everyday life experiences. The miraculous catalyst for this profound transformation is happening NOW!

On September 12-13, 2015, we will experience the beginning of our first Eclipse series without the interference of our human egos. This will be a powerful partial Solar Eclipse that will greatly assist the I AM Presence of every man, woman, and child on Earth to assimilate the miraculous changes that we have been blessed with so far in 2015.

On September 22-23, 2015, which is the September Equinox, we will intensify the influx of Light from the New Moon Solar Eclipse and secure it into the Core of Purity in every atomic and subatomic particle and wave of Life on Earth.

The effects of that Activity of Light will build in momentum until September 27-28, 2015, when we will experience not only an incredibly powerful influx of Light from a total Full Moon Lunar Eclipse, but a life-transforming influx of Light from a Celestial Event referred to as WAVE X, or The Event Horizon. This is a Celestial opportunity that we have not been able to benefit from since our fall from Grace.

On September 28, 2015, we will receive a crescendo of Gamma Ray Light from the Galactic Core. This is a rhythmic pulsation of Light that blesses our Solar System every 3,600 years with the Divine Intent of raising the consciousness of Sons and Daughters of God and accelerating the evolution of our Solar System. Even though this wondrous Gift of Light from On High has been available every 3,600 years, since our tragic fall from Grace the Earth and Humanity have been vibrating at a discordant frequency that was unable to receive or assimilate the benefits of these Gamma Rays. Now, however, EVERYTHING HAS CHANGED!

The Company of Heaven has confirmed that with the miraculous changes that have taken place at an atomic cellular level within Humanity and all Life on Earth since the Birth of the New Earth, Humanity is finally able to receive and assimilate these powerful Gamma Rays from the Galactic Core. For several weeks, the effects of these Gamma Rays have been gradually building in

momentum. In fact, they were instrumental in assisting Humanity and the Company of Heaven to fulfill the monumental events that were accomplished at the 29th Annual World Congress on Illumination in August.

This influx of Gamma Rays will reach their peak in the midst of a total Full Moon Lunar Eclipse. The influx of Light from the Full Moon Eclipse will stabilize the Water Element which composes 80% of the entire Elemental Kingdom and sustains the Emotional Bodies of Humanity. The Water Element is also the Divine Intelligence through which the Love Nature of our Mother God, the Holy Spirit, is tangibly manifest in the world of form.

In preparation for this Cosmic influx of Gamma Rays, the Company of Heaven want us to grasp the magnitude of this opportunity by revealing the following information. Due to the life-transforming Activities of Light that have been successfully accomplished through the unified efforts of millions of Lightworkers around the World, the Earth and ALL her Life are now on the brink of a miraculous Transfiguration.

On September 27-28, 2015, through every person's I AM Presence, Humanity en masse is going to receive the full power and might of the myriad Gamma Rays we have missed from this rhythmic 3,600 year Gift from On High, back to the initial impulse of the fall. This has never been done before and no one knows how it will manifest for each of us individually, but KNOW the results will ONLY enhance our lives and our Ascension process.

The Mighty Elohim have assured us that the Earthly Bodies of ALL Humanity and the Bodies of Mother Earth are now vibrating at a frequency that is ready and able to withstand this influx of Gamma Rays and that this will occur in perfect Divine Order. This is a Cosmic Moment beyond anything that has ever occurred for the Sons and Daughters of God. Be at Peace and Be Here NOW!

Your I AM Presence knows exactly how you can best experience this wondrous opportunity. Go within, ask for guidance, and your I AM Presence will guide you unerringly through this process. I Love YOU more than you will ever know. God Bless You.

Balsamic Moon Phase: trust, magic

Moon in Virgo

Goddess of Wisdom: Bhairavi (Goddess Who Fortifies the Heart)

God of Will/Desire: Kathe (God of the South)

Skill: "de-personalize and re-universalize"

(Note: I will post a separate Sunday report tomorrow. A "campfire" recording may also be on its way. The standard headings of True Alignments, etc. are not listed today, as there is only one focus of consequence. See below.)

The "100 Hours" of the Balsamic Moon comes to a close today. The Virgo New Moon enters at the following times:

UNIVERSAL TIME: SUNDAY, SEPTEMBER 13, 2015 6:41 am

EASTERN TIME: SUNDAY, SEPTEMBER 13, 2015 2:41 am

PACIFIC TIME: SATURDAY, SEPTEMBER 12, 2015 11:41 PM

Until that time -- today -- there is only one thing to "do," but it is perhaps one of the hardest things to do: step outside of ourselves and connect with something greater. This means we de-focus on our personal/individual lives and re-focus on the fellowship of humanity.

It is the job of wise owls to, as best we can, de-personalize pretty much everything that comes our way today. Though things happen in our lives, oftentimes dramatic and deeply emotional things, today it is important that we not become mired in ourselves, project ourselves, react to others, succumb to wounding, or pontificate on the goings-on of our personal world.

The Sabian symbol for the Virgo New Moon is "a girls basketball team." As the saying goes, there is no I in team.

Until the New Moon, we are like wise owls in a tree, immersed in the scene of nature, but watching it from a different perspective.

After the New Moon, we are like wise owls that come out of the tree and fly up to join together in a ring of wings around the world (meditation below). A collective of human beings unifying around the idea that "love prevails" and sending goodwill to all is a powerful thing.

There are wise owls *all over the world*, as demonstrated to me in the many beautiful emails after recording the "Messages in a Bottle." Thank you all! The infusion of love into this Balsamic Moon phase is astounding. Hearts have been fortified and are now ready to unify.

Today, we aim to go beyond ourselves *in trust*. We understand that a bigger picture is unfolding. We hold the line -- hold the space -- at a key time of the emerging Second Renaissance. We take a higher view today.

The "Wings Around the World" meditation is below. Join in anytime after the New Moon in your time zone - you do not need to do it at the exact time of the New Moon. It's a "wave" and does

not follow our notions of time and space.

The "Love Prevails" meditation from July 17 (which I now like to call the "Wings Around the World" meditation) will be Sunday, September 13, the day of the Virgo New Moon. **If you are inclined, you can perform the meditation anytime this Sunday (September 13) after 2:41 am ET/6:41 am UT.** I will prepare everything in advance of the exact time of the New Moon. No dogma here; adapt this to your preference:

2015-09-12 **SOLAR ECLIPSE + NEW MOON in Virgo September 12 / 13 2015~**

Solar Eclipse and NEW MOON in Virgo opening up a portal with potentiality for great healing. This is a time of seeing clearly, of trusting, of connecting deeply with Source and stepping forth gracefully on ground that previously might have tripped us up. Time to activate our knowing and trust it will guide us through...

*Here are the MYSTIC MAMMA Astral Insights from our beloved featured astrologers. First from the wonderful **KELLEY ROSANO**:*

"The Virgo New Moon on September 13 is a partial Solar Eclipse. Eclipses are the most powerful transits that you can experience.

"They herald major beginnings and completions. There is a cosmic download of new information into your DNA.

"You are being re-calibrated. Reset and readjusted to a higher vibration. Take it easy. You may feel eclipsed..."

"Chiron the wounded healer is opposing the New Moon. He acts like a planet in your astrology. Chiron is an asteroid. He is a bridge between Saturn (the past) and Uranus (the future).

"Your healing is important. Your wealth is in your health. The stronger you are the more you can accomplish. The better you will feel. The wealthier you are.

"You are to move from criticism to compassion for yourself and others. This empowers you to heal yourself. Be a healing influence on others..."

"When you are needless, you are free. When you meet your own needs, you are free to self-actualize. You can reach your fullest potential/power. You can meet your own needs. You can to be needless. This creates wholeness in you. Do what supports your balance. Do what makes you strong.

"There is an awkward aspect between Uranus and the New Moon. Asking you to make adjustments in your thinking. Do not limit yourself. The past does not equal the future..."

"Do what heals you. Do what empowers you. Let go of what is not serving you..."

*From the insightful **DIVINE HARMONY**:*

"The Partial Solar Eclipse/New Moon in Virgo is exact on Saturday September 12th, 2015 at 11:41pm PDT (the midpoint of the actual eclipse itself is 11:55pm)- initiating us into the Eclipse portal of profound change, transformation, endings and new beginnings..."

"This solar eclipse is about healing karmic patterns that have been with us for lifetimes and which have become crutches and roadblocks to our Soul's evolution and growth. Each of us is up against our biggest stuff right now- I am hearing this from all around (myself included).

"When we come up against our biggest stuff- the stuff that brings you to your knees- the desire is to check out, deny, ignore and/or over focus on living in our Light so we don't have to see and address our darkest shadows.

"This is the ego's reaction to being shown the Truth about the self- which can be quite a shocking experience (particularly if we have invested a lot of our time and energy in NOT seeing the Truth about ourselves).

"Yet the opportunity for profound healing and MAJOR SHIFTS in our evolution are absolutely profound when we choose to face the self in such a way..."

"The Universe has conspired to bring us a pure Eclipse energy that is focused precisely like a surgeon's blade. The capacity to use this blade wisely to cut out the carcinogenic karmic patterns that have been suffocating our Soul's growth like a tumor overtaking the health and balance of the body is possible right now.

"Yet it takes courage, humility, compassion for self and other and deep commitment to go all the way and see this through to the end."

"...opportunities for sudden and complete revelation of our deepest wounds and pain with the capacity to move through them fully, see them for what they are, heal them and move further down the path of our evolutionary journey.

"The potential of this Eclipse is to catalyze our healing and awakening in super galactic ways. It is no coincidence that Saturn is in the last degree of Scorpio- dredging up the last bit of shadow and facing us with our absolute deepest fears and karmic bonds..."

"It's also not happenstance that the evolutionary North Node is on the super galactic center- beaming us with high frequency energy to help us initiate the radical changes, evolutions and shifts our Souls truly seek (and that our egos are running away from).

"We are in a confluence of energies right now that any single one of them would be huge- but what we have is all of them happening AT THE SAME TIME.

"Many people have been speaking to this feeling like life is full on right now and that shit is getting real. That is putting it mildly- and it is HIGHLY RECOMMENDED to harness this energy and make it work for you in your life.

"The potential for karmic completion on a massive level and moving into a new frequency and dimension of evolution in your life is there and yet it is like a seed you have to choose to plant and water with intention and conscious action to make this portal of time work for you.

"...This time right now is so huge and we all have this opportunity to make major evolutionary shifts that will catapult us to a whole new level.

"The image that came with this download was of the video game 'Mario Brothers'...if you ever played this game you probably at some point found out about warp zones where you could accidentally find a portal that would take you out of the level you were in and allow you to skip levels and move far ahead..."

"Well this time right now with this Eclipse portal, Saturn at 29 Scorpio and the North Node on the SGC (super galactic center) is such a warp zone. We all have the potential to find the portal that can take us rapidly from one level of experience to another.

"For each of us this may play out differently- although I will tell you the means to finding it is the same for everyone: INNER WORK.

"This is the Solar Eclipse in Virgo in action: commitment to one's inner work, staying humble, showing up, facing shadow, healing splits and making the necessary self-adjustments so that our Higher Self and lower self are more energetically resonant.

"We cannot pass through this portal if we cling to the old karmic patterns...We have to raise our frequency to enter the portal- and the portal is only open for so long. This was the biggest part of the download I got..."

"Yes we will all eventually get there- and yes we will all ultimately wake up. But the opportunity to find your own personal warp zone and skip levels (because of your commitment to inner work- not because you are cheating) is a rare one that is here right now and won't be here for long. You can choose to commit to your path and find this portal and walk through it..."

"As you can see this is a potent Eclipse portal and perhaps an intense one as well. The alchemical fires of transformation are hot and not for the faint of heart.

"If you want to become a diamond you must withstand much pressure. If you want to turn base metal (ego) into gold (Higher Self) you must submit to the fire.

"The seed potential of this Eclipse is massive- and yet it is up to each of us to choose our destiny and the journey we will each individually navigate to get there.

"There's a fork in the road that is a-coming. and one path will take you on the fast track to evolution. Enter at your own risk- and also at your own immense benefit!"

And from [DIPALI DESAI](#) from her [Celestial Space Astrology](#):

"Solar Eclipses tend to be turbo-charged and supportive for new beginnings and or major transitions in life..."

"There is not one thing to fear with eclipses unless you are giving your power away to superstition or fear of what's to happen. Stay empowered and trust each will be guided through this process.

"The New Moon in Virgo makes a 'opposition' to transiting Chiron in Pisces suggesting the importance of healing an emotional wound, wholeness or perception which promote the conflict of inferiority or superiority. Being in balance or middle point, at the Soul level, all is equal.

"There may also be some insight and understanding about where hyper-criticism has taken a hold creating self-sabotage or instills self-doubt. Someone or something in the outer physical world will be the trigger for the opportunity to heal.

"At first it may feel uncomfortable or perhaps sensitive. Through an interaction, a deeper realization appears of where we may need to address the issue(s).

"By surrendering the illusion of separation or abandonment by the Divine, one returns to the state of grace and effortlessly feels the innate wholeness as a Soul expressing through the physical form..."

"With Jupiter/Neptune transit, through real life interactions with others and situations, each gets to apply greater compassion, forgiveness and acceptance of the bigger picture that is unfolding..."

"There may be wonderful synchronicity in expansion of healing and reaching out into the community to be of service. Maintain integrity and high standards of excellence in whatever you provide..."

"The best way to work with the New Moon and Solar Eclipse in Virgo is to be precise in your intention with a efficient plan of action. The key now is to be very grounded and organized.

"The energy has the potential to be revitalizing and helping each person to get into the groove of a new daily schedule and rhythm. Being loving and attentive to the details is a practical service to the Divine."

Triple Water Astrology – The Critical Degree! Weekly Horoscope – Week Starting Friday, September 11, 2015

Please like my page at <http://www.facebook.com/triplewaterastrology!>

The week begins with Moon edging out of Leo on September 11 and forming a stellium with Sun and Jupiter in Virgo early in the week. No doubt that thinking about work, service to others, careful attention to details, and solving problems with analysis is prominent with the luminaries expanded by Jupiter in Mercury's earthy sign. Neptune and Chiron oppose the Virgo stellium, creating a strong theme of 'service and sacrifice' early in the week (credit to Carol Rushman for the term) and gives the first several days of the week an inspirational, healing, and spiritual feel.

Saturn leaves Pluto's sign, Scorpio, at the very end of the week. Saturn will not see Scorpio again for about another 29 years. An item that must not be overlooked is that Saturn and Pluto will not be in each other's signs again for a vast stretch of time! No doubt that the 'behind the scenes authority' theme of the two in mutual reception is tough (and remains as a less prominent theme in the transits with Pluto still in Capricorn). One might also ask, how were you able to expand your limits over the past few years and increase your sense of perspectives and personal power? Saturn can be very rewarding when we respond to his demands, indeed, and occasionally a planet beyond him complements the reward handsomely.

As Sun moves into the last stretch of the Virgo sign by the end of the week, Mercury will have gone retrograde in Libra. Mercury lingers in a cardinal t-square with Uranus and Pluto (with Pluto at the focal point of the t-square) all week. Thought and communication is electrified by Uranus and powered up by Pluto. A reasonably obvious use of the t-square is initiating change via Mercury's functions. Wild swings and intense changes might be the result, especially after Mercury goes retrograde.

What might this week portend for you? Consider your Sun sign and rising sign/ascendant as well.

Aries

Aries Sun has a week tending towards ups and downs, but the spontaneity and novelty of the week might also be fun. Thinking about new ideas, using technology to make life easier and more productive, and quickly shifting directions flow well for Aries. September 13 to 15 is probably the nicest part of the week for you, with significant others and family at the forefront during mid-week. A sense of togetherness, community, and social gatherings also flows well on those days, a nice complement to the "spirit and service" theme of Virgo-Pisces this week if you choose to make it so. Structure and authority, in contrast, might feel heavy this week. The restrictions lift somewhat on September 17. Relationships are also a plus all week. *Final thought for Aries:* concentrating and focusing on what you want in a dedicated manner is important this week.

Taurus

With the Venus retrograde curveball long gone, Taurus Sun has ample opportunity this week to move forward with determined ambition and drive. Creativity and spontaneity flow well for Taurus this week, especially in terms of competition, expending energy, and a bias towards action. Mercury in Libra going retrograde this week affects Taurus more than average. This might create enjoyable interchanges from normal activities. Becoming more bookish, reconsidering old ideas, and either a great deal of communication with other people, or hardly any at all, definitely add variety to your week. From about September 13 until the end of the week, taking immediate, decisive action, showing leadership within organization, and concentrating energy with a laser-like focus in order to achieve your goals becomes a potential useful and productive theme for you. *Final thought for Taurus:* no additional insights for Taurus this week.

Gemini

Heavier energies affect Gemini Sun this week, as your Sun's ruler prepares to retrograde. The week also has a lighter side, with your ruling planet in Venus' sign. Being social, diplomatic, and finding harmony in relationships is an uplifting theme for Gemini this week. The last gasp of the "behind the scenes authority" theme also affects you directly. Gemini's affinity for words, ideas, and learning has a sense of freedom and change associated with it this week, and ultimately has an outlet in helping you to develop sharp perspectives and power, particularly at work – if you're willing to expend the effort. Also watch for another important theme developing in the second half of the week. Starting around September 14, organizational goals, creative leadership, and immediate application of energy are concepts you might directly apply to your aspirations. *Final thought for Gemini:* daunting obstacles, perhaps, are meant to show how you can overcome them through using your strengths this week.

Cancer

Creativity and spirituality characterize the theme at the beginning of the week for Cancer Sun. Cancer has the opportunity to express the core self in the context of close relationships on September 13, definitely an interesting and perhaps useful manifestation. September 14 and 15 are also strongly affiliated with relationships for you. The first two days of the week, and the last two days of the week (September 11 and 12 and September 16 and 17), definitely have the intense feel of the final days of the "behind the scenes authority" theme. Intuiting what authority needs, particularly at work, and operating within structures of power is probably second nature for you after two years of Saturn-Pluto of influence. Saturn entering Sagittarius might feel odd, but bear in mind that Pluto is still opposing your Sun's sign. Continuing to focus on building personal power and developing authority in career is definitely still of heightened importance and has potential, if you're up to the challenges. *Final thought for Cancer:* Saturn entering Sagittarius at the end of the week is a convenient reminder for Cancer to think about beginnings and initiating new cycles in life.

Leo

An "innovative power" type theme starts the week for Leo Sun. Close relationships also become more important for Leo as the week progresses. A more subtle theme connecting Leo to the Mercury retrograde this week also exists. Collaborative efforts to solve problems and networking are important for you this week, and by the end of the week, Leo will experience a great deal of collaboration, cooperation, and harmony in the context of thinking and problem-solving, or not much at all. September 15 and 16 are outstanding days for participating in community and team-oriented activities, and September 17 rounds out the week for Leo

with a renewed burst of ambition and taking action in order to meet your goals. *Final thought for Leo:* deciding how to prevent yourself from being entangled in complicated situations is important this week.

Virgo

Relationships give Virgo Sun a boost this week, as your Sun's ruler prepares to retrograde. A heightened sense of fiery dedication and commitment to work or other areas of life is also of use for Virgo this week. Sun is nearing the end of your Sun's sign this week, but you can still take advantage of the powerful center of the solar system in your own sign – with Jupiter also in your Sun's sign as an added benefit. A sense of optimism and unity in your identity is a continuous theme for you this week. You might feel that this week also contains a need to ameliorate other people's needs, but thinking outside of the box helps move you forward and finding ways to avoid having to meet other people's demands at the expense of your own needs. Virgo is also definitely attuned to the Saturn moving into Sagittarius event...among other things, you might find that the workplace has a different feel starting at the end of the week. *Final thought for Virgo:* problem-solving can be challenging this week – working to collect enough information from various sources might be the key to generating solutions.

Libra

An added amount of drive and ambition lingers for Libra Sun at the beginning of the week. This useful theme gradually fades as the week passes. Mercury in your Sun's sign is largely influential this week for you. Mercury's logic, manifesting in Venus' sign, is a plus for your natural inclination to balance with other people. Watch for opportunities, therefore, to problem-solve, socialize, and ask questions and give answers to add to the variety and productivity of your week. Mercury retrograding at the end of the week gives a sense of problem-solving and exchanging information with other people in depth. Sudden insights and applying new modes of thought are also themes waiting to be used by Libra this week, given the effort, ultimately for use in developing new perspectives and increasing your influence. *Final thought for Libra:* an idea lingering from the past few weeks continues to be relevant: consider that your own judgment might be best after listening to other relevant sources.

Scorpio

Saturn leaves Scorpio this week, quite a shift for Scorpio Sun. The advantages and difficulties of having the Lord of Karma in your sign for so long have likely contributed to crystallizing change in your self, those around you, and various situations and struggles in your life. Scorpio's week starts well, with a sense of optimism and self-expression flowing nicely for you. Given the effort, Scorpio also has best access of all of the signs this week to the power of the mind. Step-by-step logic, combined with finding instant solutions to problems, can be of great benefit for you this week. Relationships are also a subtle theme for Scorpio, but definitely in the picture. A combination of collaborative and independent efforts creates decent opportunities for you to move your goals forward this week, particularly in the area of career (one last chance this week to appease and impress authority; whether it is necessarily accessible, it's definitely present!). *Final thought for Scorpio:* if you've given your best effort to a task or project, no need to fret about less than perfect results.

Sagittarius

A more spiritual feel to life, in general, continues for Sagittarius Sun this week. Very interesting considering Saturn will enter your Sun's sign at the end of the week. Saturn entering your Sun's sign, Jupiter's sign, is an

odd mix. Perhaps it can be the best of all worlds for everyone, and in particular Sagittarius Sun. Saturn discourages excesses and inefficiencies, yet he is not overly strict and overbearing in Jupiter's sign. Sagittarius is in a favorable position to take advantage of a prolonged "controlled expansion" theme and thus creating and implementing strategies to move goals and aspirations forward in the long term is important. A fair amount of dedication and commitment to your aspirations and what you believe in is also available this week, and this sentiment is strongest at the end of the week. *Final thought for Sagittarius:* considering the role of other people, in both how they limit you, and might help you to expand your limits, is very apropos for Sagittarius this week.

Capricorn

No doubt that Saturn changing signs is quite an event for Capricorn Sun this week. The balance of planets in the elements is tipped further to fire this week, and Saturn and Uranus will remain in fire signs for some time. For Capricorn, acclimating to the fiery energies in the transits has its benefits. This week can be productive for you. Using persistence, controls, and finding ways to multiply your efforts is a theme that continues from last week and can still be used beneficially. The "controlled expansion" theme also becomes more intense for Capricorn after Saturn enters Sagittarius. While the idea of expansion in tension with Saturn's restriction has its difficulties, finding a persistent, steady way to direct efforts will likely benefit those who consciously make the effort to do so. Capricorn Sun is probably the foremost beneficiary of this theme. *Final thought for Capricorn:* Mentoring qualities might emerge for you this week, especially if you focus on truly hearing another person.

Aquarius

Saturn no longer squares your Sun's sign after this week, and Mercury going retrograde is rather influential for Aquarius Sun. Relationships are also influential for Aquarius this week, suggesting a busy week of change and new trends and ideas for you. Mercury in Libra, retrograde or direct, generally works well for Aquarius. One possible effect of Mercury going retrograde for you is the advantage of devoting deeper thought to problem solving, and less, but more in depth, communication. Saturn moving into Sagittarius will likely feel less restrictive in general for Aquarius, and in particular less restrictions will be felt at work. Careful thought and insight given to implementing change in various situations works better than average this week, with the caveat that it implies great effort! A valuable hint of dedication and focus on achieving what you want this week is also available, to your benefit. *Final thought for Aquarius:* seeking a fair resolution to disputes will help you move on to more important issues this week.

Pisces

A continuing uplifting theme for Pisces Sun persists. Pisces is somewhat removed from the action in the transits this week, with one stark exception: Saturn entering Sagittarius. Pisces might greatly benefit from Saturn's structure, even with the difficult square by sign to your Sun. While caution needs to be observed, to prevent restriction of creativity and self-expression, great benefit can be observed by applying structure to creative efforts. Organized, disciplined, and standardized foundations provide fertile ground for enormous creativity and making aspirations, imagination, and ideas into reality. At the moment, Pisces can enjoy a soulful week, with solitude if you prefer, or a sense of community reaching for a higher collective via cheerful service to others. *Final thought for Pisces:* unraveling enigmas through deeper understanding and skillful handling of situations works well for Pisces this week.

2015-09-01 "Something" Just Happened! China's Gold Stocks, Dumping of US Treasuries, Quantitative Tightening (QT), Oil Markets

By [Bill Holter](#)

Global Research, September 01, 2015

http://www.globalresearch.ca/something-just-happened-chinas-gold-stocks-dumping-of-us-treasuries-quantitative-tightening-qt-oil-markets/5473107?utm_source=Global+Research+Newsletter&utm_campaign=54f7cd8364-Washington_9_2_2015&utm_medium=email&utm_term=0_0ec9ab057f-54f7cd8364-81363473&ct=t%28Washington_9_2_2015%29&mc_cid=54f7cd8364&mc_eid=2584f8db94

"Something" happened three weeks ago. While we cannot be sure "what" exactly happened, we can speculate. We have many dots and lots of data points to help us but first it needs to be pointed out, even if wrong in conclusion ...just the knowledge alone that "something changed" is enough. If you know something has changed, you can take clues and look at various markets for inflection points. Currently, most markets are stretched to various limits. Whether it be zero bound credit markets, equities, real estate, commodities or gold and silver, all values had reached extreme highs or lows.

Something changed three weeks ago and a series of events began. It all started with China announcing 600 additional tons of gold. This was followed by the IMF rebuff of China, the three yuan devaluations and three "coincidental" explosions. Then equity markets around the world (which were already weak) began to violently unravel and finally spilled over to the U.S.. This tested the PPT's limits (which were apparently \$23 billion last week).

There were other behind the scenes dots which I missed and would like to add here before theorizing. In the gold arena, the GLD inventory supposedly rose over the last two weeks even though gold was “weak” and being sold. This was against a backdrop of very deep backwardation going out a full six months in London. The current backwardation is further out in time and far larger in price than EVER before! These two data points are in exact divergence to a dropping gold price. Why would there be buying in GLD if gold was being panic sold? Also, if real gold was being dumped, how could it be in backwardation or shortage? Wouldn't “sales” make product extremely plentiful?

There were several more major anomalies in gold. As of Friday, there were 63 August contracts still open ...even though the contract went off the board. This has NEVER happened in 40 years! How is this possible? The day before on Thursday, there were 552 contracts open. Can someone please explain to me why the shorts would not have delivered gold (like they did in the old days) on the first or second delivery day rather than waiting to the last day? Someone has to pay for storage, why would the short want to pay for storage they are contractually able to deliver nearly 30 days prior and avoid the charges. Are they having problems sourcing gold? Just like several mints who have gone to rationing or halts of production ...and exactly as the backwardation is suggesting?

Over in silver, did you know they had confirmed volume on Thursday of 122,482 contracts traded? Did you know this represents 612 MILLION ounces of silver ...or over 87% of annual global silver production ex China and Russia? How in the world does 87% of a full year's production trade in just several hours? Doesn't this go against commodity laws? AND, silver was pummeled on Thursday so it was supposed to represent PANIC SELLING. Who was panicking and needed to sell all that silver so fast? ...especially since the U.S. Mint just raised premiums and started rationing dealers because they couldn't keep up with DEMAND! Let's not forget the Royal Canadian Mint, they have suspended sales of silver Maples! Why or how could this be? Everyone has been selling silver but the mint could not source any? This defies pre school logic!

Let me give you another very strange data point. The FRBNY (New York Fed.) always reports custodial gold holdings on the 28th or 29th of the month for the previous month. They missed July 29th and reported on August 20 NO GOLD was shipped (to Germany for their repatriation program) when month after month they have been reporting close to 10 tons out the door. What's going on?

Before telling you what I think has changed, we need to look at what China has just done. China has sold \$100 billion worth of Treasury bonds over the last two weeks. Before they sold these, they devalued their yuan by about 5% which is the same thing as making their dollar holdings worth 5% more in yuan ...so they increased their sale by the equivalent of \$5 billion! Please understand the following because it is VERY important: we have not experienced hyper inflation in the U.S. because the debt was always “sterilized”. We actually exported the inflation to other nations and, as long as they did not sell the actual dollars (if they sold Treasuries), the trade remained sterilized. It was reported Friday China had actually sold their dollars realized from the

Treasury sales for ...you guessed it YUAN! This drove the yuan up versus the dollar so China added even more to their trade. Brilliant!

This topic deserves an entire writing and I'll undertake it later. Suffice it to say, the Federal Reserve had to buy the \$100 billion worth of bonds. This is "reverse" QE or as they now say "QT" (quantitative tightening). As the great credit unwind continues, more and more Treasuries from China and other sources will hit the market and force the Fed to buy them. This will take more and more "space" on the Fed's balance sheet but they will have **NO CHOICE** unless they want interest rates to skyrocket. In the end, the inflation we exported for so many years will come washing back on our shores like a tidal wave!

OK, what do I think "happened" three weeks ago? On the original writing, I erroneously believed the SGE had not reported withdrawals for the last two weeks; this was incorrect and they have, in fact, reported withdrawals. This led me to believe China was no longer being delivered gold. No proof of this yet, but it will mathematically happen. Why? Because the simple math says so. China/India can only import more than total production for as long as Western vaults have metal to dishoard. Once non-delivery does happen and becomes known, our hoard of "power" will be gone and so will the façade of financial strength. Our standard of living will collapse into third world status, hand in hand with a broken financial system.

Something behind the scenes has caused markets all over the world to convulse. The likely candidate involves leverage and most probably derivatives. As I wrote last week, "dead bodies must be strewn everywhere", call them walking dead institutions or whatever. We have experienced 5% and even 10% moves in various markets in less than a week's time or even in just one day. Many derivatives are carried with just one or two percent margin, in other words the moves have been big enough to completely wipe out equity. Winners become losers when the losers cannot pay and default.

There is one more piece of news that may be nothing at all or it may fit hand in hand with the above. King Salman of Saudi Arabia announced a visit for this coming week with president Obama.

<http://www.nytimes.com/2015/08/27/world/middleeast/saudi-arabia-king-plans-to-visit-us.html?partner=rss&emc=rss&r=0>

The press has speculated the meeting has to do with the Iran deal or even aggressions with Yemen. I don't think so. My guess is King Salman may be coming to Washington to say "the deal is off". The "deal" being Henry Kissinger's early 1970's petrodollar. I suspect Saudi Arabia will inform our commandeer in chief, they will begin accepting yuan for oil. The Saudis have over the last year or more done many trade deals with both Russia and China. It should only follow at some point they do not use dollars but instead use their own currencies.

Before finishing, Saudi Arabia increased their oil production at the behest of Washington to injure Russia. I think the price drop got way out of control as the algos took over. The drop was so severe, it has seized up the U.S. fracking industry and put at least \$500 billion worth of energy credit in jeopardy while China has filled up her storage reserves with cheap oil. If I am correct about the gold default, China/Russia have also made strategic strides in trade with Iran and Saudi Arabia in preparation.

The important thing is you understand "something" very big has happened and trends are changing in many markets. The leverage in all markets suggests a "holiday" will occur because the unwinding cannot be orderly. The "unwinding", by the way, will need to undue the credit built upon credit going all the way back to Aug. 15, 1971!
