

FM 95,2 MHz

## This is an appeal for help

*Student eFM Radio* grew out of the siege of Sarajevo – it is a venture to provide jobs, music and life to the students of our city...

We need your help... For almost 12 years, *Student eFM Radio* has been producing, creating and broadcasting radio programs aimed at the student population, the youth, the disenfranchised and anybody that will listen. Our mission is to give generations of people who grew up in the war and those growing up after it, a fresh clean voice.

We believe our work has contributed to the development and improvement of BH society. We have been praised and laughed at, but it's all good. Our sound is our signature, we are *Student eFM Radio*.

In today's climate of global crisis and recession, the effects are hard in a place like Sarajevo where 'green shoots' of recovery are constantly shredded by the remnants of war. From years of operating in the black, our revenues are drying up. We live on production of advertising for other stations, our own advertisers and sponsorship.

We've got to get over this hump, we got through the war, this will not kill us..with your help :-)

We live within the bounds of the university of our beautiful city, and they have promised to help us financially but they are slow and time is taking it's toll. We need positive action..

Please donate...click the 'Donate' link on our website [www.efm.ba](http://www.efm.ba)

Call us, e-mail us, send us your tunes and your money...so we can keep the music and talk flowing and continue to show people there is a brighter future than war!
