

Rite of Divine Infusion
As given by the Archangel Metatron

All Beloved, We gather now in the still space of the chambers of our hearts, where we are One with the heart of Mother-Father God.

In this stillness, beyond time-space and experience, we merge with the fullness of the Love of the Divine Mother and the Divine Father, becoming One Mind and One Heart.

All Beloved, we now call forth the Rainbow Fires of Creation to descend upon the Earth and to restore the full spectrum of Divine experience in the hearts of humanity.

Through us, in Divine Union, the Earth becomes as the Heavens and the Heavens descend to the Earth. We seed the gardens of Paradise upon the Earth Mother and call forth a New Tree of Life to grow tall and strong and bless the following generations of life upon the Earth.

Beneath the new Tree of Life in the Gardens of Paradise which now grow upon the Earth, the Banquet Table of Mother-Father God is once again prepared. The illusion of separation is cut with the Light of Love and the Sword of Truth. The Gates of Heaven are open and we now come to take our place at the Table with the Mother and the Father.

As Many and One, One and Many, we now eat of the Fruit of the Tree of Life, which we have seeded and harvested with our own labors of Light and Love. We are nourished and filled, in our Divinity and in our Humanity, now and forever.

As Many and One, One and Many, we drink of the Chalice of the Waters of Eternal Love, which flow from the wellspring of the Heart of Mother-Father God. We are refreshed and renewed, in our Divinity and in our Humanity, now and forever.

We go forth now, receiving the blessing and the benediction of the Mother and the Father, Whom also we ARE. As Many and One, One and Many, we go forth into the world, illuminating it in light, love, peace, truth and joy, now and forever.

And so it is, in the Name of Mother-Father God.
