US civil rights legacy tested 50 years after 'Freedom Summer'

BBS

Mother Sekhmet

In the Light of the Most Radiant One, in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame

T: We ask for the Secret Destiny of America, the mighty I AM race, that those secrets be unveiled now; that this pray peace moment is the magic on the eve of our solstice, the most transformative of times on our planet.

Greetings, Children of RA!

Happy solstice, indeed.

- There is so much to be grateful for in this moment now, she is humbled by our presence.
 - There is a cosmic story happening here, and it is called “you”, “us”; I am another yourself, in Lakesh; 7 generations unto now, may it be that all things are be healed, and may our children's children's children not see a world where fictitious pictures of so-called war heroes are plastered in their vision;
 - There are so many issues in the moment, all of them are about more love coming into physical manifestation and since we are all physical love incarnate, we asked to be here in infinite love and peace - even Larry King - may we be our brothers/sisters keepers in the sense of “Lord make me an instrument of thy peace; where there is poverty let me give”
 - everyone is equal in the eyes of the Universe, there are no slaves.
 - Ye are all kings and queens of the highest order; you are of the most high and this is why we took on this mission – to get here to do this was no accident; it was a conscious choice to take part, knowingly full well and seemingly about losing your mind – though it is about “clear mind” -
 - The Matrix is that which is – that piece of it – that when you saw the movie The Matrix: Neo gets to look an architect in the eye on all the screens in his office; that is what we are experiencing here – we are all a reflection of our selves in infinitum – it is why we say “in Lakesh” -
 - How we do this with infinite joy and wisdom: love is of the highest order, at the same moment what we are experiencing, she very much overstands/ understands – how intense the energies are; for it takes great courage to be in the midst of such diversity with seemingly no outlet.
 - We ask when does it stop, when does the sanity come? It is about the sanity we bring into a story that is not necessarily about sanity – it is about crazy logic where sanity is thrown out the window and the naqual comes in and we are walking with the black jaguar, the purple jaguar, the jaguar woman
- There is no sanity to that story: we have to think with our instinct, with our heart; the place where we are one with everything, everyone, all life is sacred in this moment.
- all that is transpiring is this is another day in the galaxy and a planet that is ascending; these ones know it and cannot stop it. As we stay focussed on our mission of more love, it gets easier to be here and not let the crazy logic to throw us off. It is a funny place that we have a hard time with simply because it is the nature of how we designed the Universe of Nabadon in infinite wisdom and joy, because we wanted to see how far we could get; you know the limbo where you have to dance under the bar – we got so low that we did the limbo and we kind of forgot – but that is just part of what we set this up so that when we got on the other side of the bar, the floodlight comes on and it

is the sun and here we are: We Are All One which shines on everyone and makes no choices. The only place where there is crazy logic and choices is on Rush, Sean Hannity – he is a Muslim etc etc -

- Mr 19.5* is so on the money, we have to say “enshallah”, “namaste” – focus only on love with this one as he takes us through the next evolutionary leap in consciousness; it is called meeting them halfway which we have already done. The next step is the body politics, the ship of state righting itself in a most auspicious way. This is not about a group of dead people who made laws but it is about eternal life & the living wisdom that we have in the sacred documents – Sir Francis Bacon wrote about the living wisdom that your secret destiny: but it is no longer secret – we are already building it.
- What she saw yesterday about the domes, the magical structures being built already; the sacred geometry is already here; how to you work with it to get the sound of one hand clapping in the sacred centre of our being.

T: reads the introductory note from the book called **The New Atlantis**

[SEE BELOW]

Mother: brings up the oldest mission church – St Augustine on the Old Santa Fe Trail was built around the same time Sir Francis Bacon wrote The New Atlantis.

We discuss fantasizing into the ether a derivatives contract collateralised by nothing but the Pentagon. We also look at the South taking on Wall Street and the ‘cluster of Central Banks’ buying up equities. In the second half, Max interviews [Bez of the rock band, Happy Mondays](#), and now a candidate for MP on the Reality Party ticket and [Peter Bach, director of Sell Off](#). They discuss when the ravens leave the Tower of London; cryptos as a threat to the elite because it’s the secret of wealth they would rather remain hidden; and Bez tells of Prince Charles sending letters to the residents of Cornwall reminding them that he owns the mineral rights under their land. INFORMATION RELATED TO THE NOTES

Sir Francis Bacon **THE NEW ATLANTIS**. 1927, Watchmaker Publishing, ISBN 978-1-603386-336-0. Copyright © 2010.

Introductory Note

Bacon's literary executor, Dr. Rowley, published "the New Atlantis" in 1627, the year after the author's death. It seems to have been written about 1623, during that period of literary activity which followed Bacon's political fall. None of Bacon's writings gives in short space so vivid a picture of his tastes and aspirations as this fragment of the plan of an ideal commonwealth. The generosity and enlightenment, the dignity and splendor, the piety and public spirit, of the inhabitants of Bensalem represent the ideal qualities which Bacon the statesman desired rather than hoped to see characteristic of his own country; and in Solomon's House we have Bacon the scientist indulging without restriction his prophetic vision of the future of human knowledge. No reader acquainted in any degree with the processes and results of modern scientific inquiry can fail to be struck by the numerous approximations made by Bacon's imagination to the actual achievements of modern times. The plan and organization of his great college lay down the main lines of the modern research university; and both in pure and applied science, he anticipates a strikingly large number of recent inventions and discoveries. In still another way is "The New Atlantis" typical of Bacon's attitude. In spite of the enthusiastic and broad-minded schemes he laid down for the pursuit of truth, Bacon always had an eye to utility. The advancement of science which he sought was conceived by him as a means to a practical end: the increase of man's control over nature, and the comfort and convenience of humanity. For pure metaphysics, or any form of abstract thinking that yielded no "fruit", he had little interest; and this leaning to the useful is shown in the practical applications of the discoveries made by the scholars of Solomon's House. Nor does the interest of the work stop here. It contains much, both in its political and in its scientific ideals, that we have as yet by no means achieved, but which contain valuable elements of suggestion and stimulus for the future. Pp 5, 6.
