HARD NEWS

T,R: enjoyed the day off yesterday; went to Sikh temple and took part in activities there

- Everyone present took part in supporting the spirit of Standing Rock
- Speaks of the young lady who got hit in the arm – the shot that went into her arm and exploded: it is a weapon of war that the militarized police denied having had any such weapons and having done it
 - And then said the water protesters were creating improvised weapons / devices
 - Too many witnesses to miss the lies!
 - Those ones doing it are in panic stage!
- Ancient empire falling apart at the seams
 - a Tweet from a friend of the Obamas; Trump was at his flashy Florida place while Obama & Michelle were serving meals at a retired service persons home
- we are seeing on the large screen blatant references to nazism and every nuance of a failed state and beings that were duped by SamYase's and other galactic forces who played that they were benevolent gods, who went from Elohigh to Elohim

RanaMu today: a British journalist who knows Greg Palast - "Nigel Starduster" is his code name

- David Bowie's last album "Black Star" talked of the coming of Nibiru and the demise of 13 families at this time
- the last Ben Fulford story: playing with the Tarot cards to figure out what is up in the zoo
 - how they can continue to play with two sides of a coin which is not in alignment with the teachings of truth, wisdom, peace, freedom and love – the 6 pillars of Islam & Noble Drew Ali who is the father of QE II
 - the story goes back to Lady Di who is the true queen on the true Stone of Scone, not the false tribe of Dan that played with prophecies
 - a convoluted story
 - a mad attempt at trying to get the gold they think they can get from various sunken treasures or from other places to finance their continued control of the planet
- As **Nigel** said: the ships are showing up every single day; not discussed by MSM; the state of Fukushima and American nuclear plants are leaking – also not discussed
 - they are also buzzing nuclear silos – a dangerous nuclear game here
- Putin will not start a nuclear war: he is the saving grace here – even though they are playing with the idea of nukes along the Ukraine border
- **RanaMu said that every single day FULL DISCLOSURE is going on** whether it is being discussed or not by MSM: it raising the frequencies, vibrations of every living being on the planet
- in the same breath, the gradual crawl towards normalizing the ideas that nazism brings: Hitler was a nationalist; Mussolini was a Fascist. There are differences in those two positions – AND Trump is both
 - Trump is playing with his children in the business: it is not a blind trust to give it to the kids – blatant disregard of the legal positions
 - there are foreign dignitaries staying at his DC hotel: cannot use the white house as a revolving business office and think life will go on
- the beings taking care of that piece of land on the east coast: the primordial energies - they supersede any human input.

T: Joy Reid did Rachel's show on Tuesday Pm:

REID: It would be quite an understatement to say that 2016 has been a learning experience for most Americans, and I'm no exception. For example, before today, who among us was familiar

with Article I, Second IX of the U.S. Constitution?

It is **Emoluments Clause**. **[TARA'S INSERT: This is the part of the original Constitution that was taken out]** And it reads as follows, quote, "No person holding any office of profit or trust shall without the consent of Congress accept any present, emolument, office or title of any kind whatever from any king, prince or foreign state", unquote.

Shorter Emoluments Clause, no U.S. official can profit from other countries, period, end of sentence.

It turns out that the Founding Fathers who were emerging from a monarchy were worried about the dangers of economic perks being given to U.S. officials by foreign governments. Until recently, this very idea as it applies to the president was relatively unexplored territory. But not anymore.

Our soon-to-be president is a businessman, something lots of Americans have claimed they've always wanted in a president. But in Trump's case, with lots of vested interests in foreign countries and while Donald Trump says he will be handing his company over to his kids to run in a so-called blind trust, leaders are already getting down to business. **[SEE REST OF TRANSCRIPT BELOW]**

- Jill Stein is calling for a recount In 3 states

T: it's about who cheated best

- Bernie won by a landslide and it was axed by Hillary

R: this came from a weird website: Obama is not gay; wife is not trans – NOT TRUE!

BW: Harry from England is dating someone from Philly – of mixed race! And he is getting very serious about her

R: knows nothing about it – the whole royalty thing will be no more about 4 months after NESARA is announced: by Lady Di and Dodi and children

- there is that being played by the elite – having a short chain attached
- Lady Di was the true lineage of the House of Stuart, not the House of Windsor
- Kate Middleton is a Khazar in her heritage – her little boy would be the first Khazar king of Eng.
- **Yet the timelines will change.**

BW: Jill Stein – recount in Wisconsin; how does it affect Trump; future of Trump and Clinton?

R: both of them have to be disrobed – with laughter!

- As things move to Dec 13 – things will be hotly contested. Something gets halted on the 13th – also has to do with the Electoral College which is criminal – it was set up to

- **Black Friday** – the term comes from the colonization period: slave owners got a discount when buying slaves – not nice!

2013-12-22 – the article about Angela Merkel is Hitler's Daughter

[SEE BELOW]

- the Emoluments clause/rule; what is the diff between inappropriate and
 - Richard Painter, former chief WH ethics lawyer for Pres Bush Jr.
 - It's a simple rule: a person holding a position of trust with the US gov't may not accept gifts or payments from any rulers anywhere
 - We fought the war for independence **[reminder: the US never got its independence]**
 - has never been a president who has accepted gifts beyond the amount specified by Congress – problem with Trump now is that money coming in to the Trump empire

CONFERENCE CALL

Caller from Detroit: found it curious that every law he cited is a law that HRC has violated already; no one is addressing that!

- They are pointing out stuff about Trump and speculating about using the WH for business: HRC has done the same
- the people who donated to the Clinton Fdn have received favours – has broken the laws many times – and she is not being prosecuted.

T: there is a media slant going on

DE: it's outrageous – and there is a black out on information

T: there has never been truth told – ever! When you are the position of President, you have no power – say anything against them means you're dead. It may not have looked like this with the Bushes yet they were in so much alignment that

DE: finds it hypocritical that the lawyer is bringing these things up

T: say anything on the main media stations that they don't want – you are dead too.

- No one has any way on the stations for doing anything
- the people brought on to the stations are brought there to say what the heads of the media companies want

DE: this is about us having clarity – the lawyer brought things up yet there is rampant corruption in Congress, and Mrs Clinton going for pay for play – people see things being applied unevenly – she hears a lot of Trump bashing, but not much Hillary bashing – what she has done is outrageous.

T: caller is feeling something about a particular scene

DE: and it is because of the children, those involved in the trafficking

T: he and she have been doing the trafficking together for 20 years or more

DE: there is all kinds of evidence of things associated with the Clinton campaign – anything that can be said about Trump can be said 10x over about Hillary

T: the points she is making is why no one person will be arrested until they are all arrested at once – she asks caller and all the others it is more important than ever: we have all the evidence but it will get much worse before it gets better – we have to have galactic intervention and full disclosure

RO: which is more dangerous: Trump's mafia boys or HRC's kill squads?

T: this is about systematic evil

They are both part of that; they have both taken part in the obscene rite

Gerry: need to look at the idea of change for a higher prospective – Trump is better by far from his ET connections say

RO: are you kidding? And he brings up

DE: ready for Mother today – what is going on is heinous! The idea of every day we wait, more children are lost

RO: with every day, time goes faster and faster: would be very surprised if we didn't see this by February

T: IT IS NOT A LINEAR THING – IT'S ABOUT RESONANCE!

- THE TRUTH ABOUT HIGHER DIMENSIONS IS THAT THERE IS NO TIME – our ability to remain neutral while this is going on and keep our friends close, and our enemies closer!
- praise the feeling; respect the feeling; thank the feeling and love the feeling – continue to send love which is the hardest thing to do – very hard right now.

- The young lady at Standing Rock: her dad said they did a surgery on Monday, Wed and Friday at a Minnesota hospital – there will be more too – not sure that her arm will work fully again

Gerry: if they can clone, they can do it

DE: there are research projects in which limbs for Vets are being regrown

- T:** For a person who does not know about it – it doesn't exist
- people who don't know about full disclosure
- Can hear it in Debbie's voice that she's pulling her hair out over this
 - St Germain will give the signal – and we don't have the slightest about what is going on outside the scene and beyond this conversation – the fact that we [T & R] have been doing this for 40 years, and in the 90s they met people from 1949 who held the wealth for all the people on the planet -
 - One of the note holders decided to give some money back to the people – this was the foot in the door for the White Knights, the Templars who left Europe and went to California
 - have to read the story of the KT
- DE:** wants to see the whole system change, get our freedom – a radical paradigm means all changes

- Lyn:** happening in Hollywood is shifting because of info on Trump
- The 13th – a movie coming out – about the 13th amendment – same director as the one who made Selma
 - The Federalist Papers in Modern Language by Mary Webster of the dictionary family
 - new info: about magna Carta, the Monroe Doctrine
 - ourrevolution.com already working to bring in new congress
 - a new occupy group

DE: Simon Blumenthal

- how do the jewish people feel about george soros being a nazi collaborator during WW2
- she understands that the nazi hunters tracked down nazi collaborators around the world – have these people died off? How can Soros talk and laugh about what he did?

T: Soros was killed and cloned in 1997 – he made millions when he pinpointed

- Again in 1997, gave money to moveon.org
- rumours that he is dead for the 3rd time

DE: don't they prosecute the ones that are cloned?

T: No – the 13 family illuminati is factioned off from the gnostic illuminati who factioned off from Trump; Hillary and Trump have been friends all through this and she has gone from clones to holograms

- there are no prosecutions – it is all or nothing!

DE: who is CIA and all the others?

T: they are corrupt through and through

RO: asks about some hearings, etc

T: the war crimes tribunals – she does not know how this will be done, except that it will be full disclosure

- there has been galactic war, inter galactic war and cosmic war
- there are 80 billion planets like Earth in this solar system
- this whole solar system is just limping along
- there are akashic records for trillions and trillions of souls
- People who can't get it will be moved to another planet ss the physicality won't go into combustion – to a slower place in a time/space continuum and life goes on
 - as we move and this planet ascends, it helps them
 - it's all divinely orchestrated even beyond what we are talking about now
- this group has been functioning on so many different levels that she can say this

DE: tell more about we are “expecting another time line shift”?

T: the most recent one is the one we are in now; the earth has been relating to the amping up of the energies

- the sun is going through its own transfiguration – moving up in octaves to a different

kind of light. Concerning the amplitude of light that comes in from that kind of transfiguration: if you refuse to open the heart or move in attitude/change, you can also combust.

RO: there is no more putting things off – with reference to Mother

T: there is so much methane gas under the permafrost in the Arctic – if that methane comes out [has a huge effect on the climate]

- It is being cleaned up by the galactics as we are talking

DE: thanks the galactics daily

T: gets joy when she watches the most open, truthful sources out there

- the Russian woman on RT: there is a crusade against fake news

Khazarians came to Caucas Mountains /steppes in South Russia where the steppe pyramids are located, as well as to Northern Kurdistan – originated from the stars – descendants of players in the Orion war – using their 5D abilities, took over Atlantean royalty and various periods of earth's history

- yes they are reptilian

T: they still have human DNA which is why the form looks like it looks

- yes, they are void of emotion – the 1/3 of angels who split the mind and the heart – it was easier not to feel anything: out of sight, out of mind. The amount of pain these ones are in is beyond comprehension -
- what they are doing when they say “no” is go into spontaneous combustion of the heart – that is why Mother said that's it.
- All time is present and they have been saying a long time ago - 175 million years into the future – 1/3 of the MWG was missing – that time line is being cut off by those of us who came back right now –
- this is the only window for this to be done and it is why so many of us decided to come in now came in now – we wanted this experiment to come to fulfillment

Sonya: these changes are swiftly upon us now: more and more understanding that we brought this about

T: brings up the Roland Martin article

Reading: article on Merkel

BBS RADIO

MOTHER SEKMET [M/A]

Greetings in the light of the Most Radiant One; in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet Flame.

We ask at this time for Divine Intervention -

Greetings, Children of Ra!

Indeed, now is a good time. What is the answer here? Answer is “US - We the people”

It's about love as the lady just sang. Lord, make me an instrument of thy peace!

- Everything she is observing, interacting with – the issues of the day – real super heroes she can say are the souls that are standing up to the empire at Standing Rock – these are real super heroes at the moment
- Issues about this story, about the gold dust, the melanin, and Nibiru and them, and these funny words “Khazars”, “elohim” - so many pieces to the puzzle! It is simply some of her wayward children decided to act like creator gods like we all are; yet knowing full well

with malicious forethought, they used technologies that were against the laws of Prime Directive.

- Now it has changed; we are in a new timeline, and they have chosen to exit out of here. Their shadow world is that which holds no lights because it is energy out of its time/space continuum. Therefore, it gets deleted from this story.
 - Now is the time as our sun going through its transfiguration; all the planets in the solar system going through transfiguration. All the poles – North Pole, South Pole - heating up, ice is melting – not just about climate change but about moving up in octaves into a higher frequency which Gaia/Vyamus vibrates at.
 - as we remember in the ancient stories of Hyperborea – could go to the North Pole and hang out with Apollo if we wanted to, walk on a nude beach - could do that. Hyperborea – the city of Asgard, of the Asgardians, the other super civilizations – Mt Olympus – all this stuff, very real, very solid in formation. This was before the great flood which changed everything – changed the orbit of the planet.
 - There are stories out there: Mars was a satellite of Maldek, and the asteroid belt was Maldek - all of this is part of the missing stories of how we fit into this Nibiru, the gold dust, the melanin, the black land of Kennet, the black creator gods, goddesses that were here: as the land prospers, the people prosper.
 - This is why she continues to say, the beings, the primordial enegies we could call them – father sky, mother earth, that energy of grandmother spider who tells the stories of the universe to her web, and the ancient constellation of Ariadne – 13 constellations – this story goes so far back.
- Now the rainbow nations that are keeping the sacred stones – Standing Rock: this rainbow nation, building the rainbow bridge in the physcial – by so many life forms coming there, lending their hearts and their hands and their wisdom: how to continue the story here – it affects the whole story

- same story going on in Afghanistan, Yemen, Syria -how many other stories
 - Right now Erdowan of Turkey walking the razor's edge and playing the west – he's a dead man walking as well

M/A: the story about the ancient city of Uruk . . .

T: Erdowan is saying he is not going to keep his agreement with the ones in Germany and the EU because he doesn't like something - and got 4 billion for that

- and the connection between Merkel even though she announced she was not going to run – is she going to usher in the WW 3 adventures?

M/A: As they have said many times: there will be no nuclear war and in the same breath, same moment, they are playing a psych game – they are psychopaths and they are playing the game that is so dangerous because it is about separating the mind from the heart.

- We are in the realm of, the reality of the high heart where we think with the heart in service to all humanity right not, and the first order of business is the least among us.
 - And pipelines and corporations are entities that is legalese or funny laws that mean nothing per se – have to do with fake laws, statutory administrative law as opposed to the law of the land, where the people in the land prosper right now. Corporations; the life forms that are not real; fat cats that have nothing to do with goodnes or serving humanity, will lose everything including their life force as they have violated their own life force, cancelling out their moment here – have made their bed – no more time to discuss these issue
- Gaia/ Vyamus doing their primodial dance with the sun, with Helios and Vesta, and it is happening so magnificently fast and that which was cannot hold a candle to the light of a trillion suns that is pouring in and that never fails.

T: a relief that there will be no nukes but what they are doing now is so horrifying, is just as bad

M/A: to be crude they are doing a mind fuck – it is not coming from a place, it is not the energies based in the laws of love; therefore, the psychopathic story is coming to an end now with each nano second that passes. They have only to love themselves and as they have chosen not to, so be it. So it is.

- the cosmic dance of the atoms is this moving upward and onwards to higher octaves, more love pouring in. As the rainbow crystal children wake up and share with us the vision of this new reality - at this time, the star beings who are just infants or just coming in and talking to the parents through the womb space: as you tune into me, you can see the eye of the universe in your self.
 - They hold the keys to this wisdom we all share as this dance, the cosmic dance of the particles - each particle makes up a merkaba vehicle – we are merkaba vehicles that intersect with each other, creating a giant mothership of merkaba vehicles
 - this is what Ashtar's ship, The New Jerusalem is - a reflection of his consciousness – his ship, The New Jerusalem – these mother ships in orbit are combinations of trillions of merkaba vehicles interacting with each other in unified consciousness. This morphogenic field of which she speaks is already - the transfigurations are at hand, and we honour these lifeforms that played the dark side so well.
 - It is over; we are watching their demise as they continue their shenanigans ad infinitum – yet it is ending because they cannot pull off a nuclear war and the technologies they have, as Dr Keshe has said, along with all the celestial guardians, the Watchers, the magnificent things that are happening across the planet that gotta do with love – and that is the key. And it is activating the ancient technologies that resonate with love and the combinations thereof.
- Hitler and his minions are over; there is a moment where, to quote Stephanie Miller, the goddess is here; she is in all the forms of how we interact with the Divine Feminine. Would you harbour me, a lesbian, a gay, a person living with AIDS, an ET? Now is the time in service to all of humanity – first order of business: the water protectors; the people sitting in Aleppo caught in the cross hairs
 - every single day a craft coming in, making shifts in consciousness, and our media is bought and paid to distract us with stories about anything but the truth.
 - A real wisdom comes as we listen to the 5 elements that are bringing in the news of the order of the day - the great war happening is the war for our consciousness as Dr Greer talks about and our heart – yet the ancient technologies of the matrix hold not a candle to the consciousness of love. It is that simple. She is in service to us all. She must be on her way.

T: it's been a real challenge – she knows what is going on

M/A: this service/ sadna of what we've been asked to do: it is no easy task to be 144,000 avatars who wake a planet up that is so asleep. Now it is that dawn that comes with the great tolling of the bell that comes to the awakening meditation and listening to the small voice within that is saying resistance is not futile: it is about the order of business called love; it is how we resist the empire by sharing love.

- She repeats it again: this guy watched a movie called "Risen" - it is about one of the Roman Centurions who got to meet The Man and said I'm going to do the mission, became one of the 13 and followed The Man, Mary Magdalene. A story of the heart - it's on the movie channels

T: maybe tomorrow we can play "The 13th" about the 13th amendment

M/A: this whole magnificent: let's say, it is a cosmic story of dancing with the atoms of the universe that have asked, in and of themselves, us to dance with them as we move up in frequency, in octave – it is only about more expansion of love and ecstasy as we discover new facets about ourselves that are simply reflections of the universe; it is not a ?? it is more magnificent than we really grok – it is only about love.

- this little slice of the ancient empire is an invader, death stars, imperial star cruisers etc only one slice of this ancient story
- it is about watching a tree grow on a planet, a mushroom, a cat, a moose, a life form called Hu – Man, earth – only about love on a small blue green speck in trillions, gazillions of stars.
- We are making this difference as we – already from their vantage point – made it , called Tita Lacoria, Tera Nova, the 33rd planet – Now is the time, we've got the power, we've got the the wisdom; remember the gold dust in our veins – you've got it; use it - the junk DNA is already in our hands

Greetings in the Light of the Most Radiant one: use the power now! Kadoish, Kadoish, Kadoish . . .

R: Mt Meru – in the Himalayas -

T: there is one on the floor of the Indian ocean where south India used to by, and one by Kilimanjaro in AFC

- he was at a place called mt Meru, watching the snow white unicirns dancing with each other. They were playing and he was observing; was somehow horizontal watching them – it helped his heart to see that light pouring in that never fails, that gives such hope to this planet at this time – it is what's needed!

R: gives some background on the interview and the beings that Tesla speaks of

The 12 rays of wisdom that the brotherhoods, sister hoods work with – the rays contain the ideas for the inventions . . .

Audio: 1899 Interview with Nikola Tesla

[SEE BELOW FOR PRINT FORM]

Once, in 1899, Nikola Tesla had an interview with a certain journalist John Smith, when Tesla said “**Everything is the Light**”. In one of its rays is the fate of nations, each nation has its own ray in that great light source, which we see as the Sun. In this interview this greatest inventor and seer of modern time unravels a new vision of humanity which we, the light warriors of the first and the last hour have created a century later. A must read for every Ascended Master from the PAT.

Part of this interview is dedicated to Tesla’s critics on Einstein’s theory of relativity that discards the ether as energy. I have proved in the new Theory of the Universal Law why Einstein’s theory of relativity is entirely wrong and why there is no vacuum (void), and that everything is energy. Thus I confirm Tesla’s ideas as expressed in this interview.

It is called fake news and we are told it is dangerous. Maybe we can agree on this. But let there be no mistake – it is governments and mainstream media that have peddled fake news for decades. And this is being challenged.

INFORMATION RELATED TO THE NOTES

2013-12-22 Angela Merkel is Hitler's Daughter and a Rothschild

Vatic Note: We did a blog proving Hitler was the illegitimate Grandson of Solomon Rothschild of Vienna, Austria. Now, that means Angela Merkel is a Rothschild as well and the "beat" goes on, huh? Both Angela and Hitler were born on April 20th which is the beginning of the fertility festival of beltane, an occult major holiday. It runs from April 19 to May 6. Kate's grandmother was a Goldsmith, and thus has khazarian roots and we covered that as well in a separate blog. Their son will be the first Khazar king of England.

Now with this info below, it explains so much that did not make any sense. First of all The German gov under Merkel has doled out billions of dollars in reparations to the zionist khazars, and has allowed massive structures to dot the German landscape that are zionist related facilities. We also discovered that Angela made some seriously disparaging comments about America and its stazi Nazi police state which we published before this one.

So, given her connections to the Rothschild family, why is she disparaging the US and comparing it to nazi Germany where her own father, if that is what you want to call Hitler's sperm, was villified for doing all kinds of bad things, under command of the Rothschild international bankers. Angela is a result of the bankers' dream to take control of reproductive rights and raise children by the state, and she made it to the top because she was a good student of those same bankers.

Given that the USA is doing Rothschild bidding in the middle east and elsewhere, like the NSA spying, then why are they using her in particular to set the USA up for WW III ? We know the game plan and have no intentions of going along with it. No matter what, everyone knows who is behind the curtain and no amount of false flagging is going to make us get bad [mad?] at someone other than the bankers and their puppets, the Khazar International Zionist bankers, and that is the only people we will do WW III against. So, they wasted Angela, since the game is afoot and we know all the players now. What a waste.

THE FOURTH REICH

Angela Merkel was born in the D.D.R., the Communist portion of Germany in 1954. Her biography says she was born on July 17, 1954, and that she is the daughter of a Lutheran minister from an East German-controlled church. Recently, however, Soviet KJB archive files reveal an entirely different story. Stasi GDR files indicate that she was born on April 20th, 1954, **(VN: wasn't that Hitler's Birthday April 20?)** and details of her birth were included in the records of the **German Dr. Karl Klauberg**, who was one of the Nazi "death doctors" convicted by Soviet courts and imprisoned. When he later was recognized as a brilliant scientist, he was released after seven years and was recognized as the **father of artificial insemination**.

The Soviets were even more intrigued when they discovered Dr. Klauberg had preserved frozen samples of the sperm of Adolf Hitler. The forces of darkness in high places decided to try to produce a child from Hitler's sperm, obviously for occult and illuministic purposes. Dr. Klauberg then brought the youngest sister of Eva Braun (Hitler's wife), whose name was Gretl, to Eastern Germany, and the result of the experiment produced not a biological son of Hitler, but rather a daughter.

Amazingly, Adolf Hitler was born on April 20th, 1889, and Angela Merkel was born on April 20th, 1954.

(April 20th is 11 days before the witches' high sabat of Beltaine.) Angela became a custodian of the Catholic Church through its connections with the East German Lutheran Church. Once a German Pope would take the Roman throne, Angela Merkel was to also take her biological father's position as German Chancellor. (VN: The holiest days for the occult are from April 19 to May 6; remember, the gulf blow out occurred on April 19. Those days are some sort of

On **April 20th, 2005**, the Nazi Joseph Ratzinger became Pope Benedict XVI, (16th), precisely on the 116th birthday of Adolf Hitler. Then on November 22nd, 2005, Hitler's biological daughter, Angela Merkel was elected Chancellor of Germany. The day of that election, November 22nd, was the anniversary of the publication of Charles Darwin's Origin of the Species, which is an antichrist publication denying the Creator of the universe.

If the Soviet record is true, and the evidence is strong, it opens up some amazing possibilities. The undeniable fact is that **Angela Merkel came from obscurity to triumviral power** as German Chancellor, President of the European Union, and head of the powerful G-8 economic cartel. **(VN: Sounds like the rise of Obama here in the US. Wonder if he is also a Rothschild?)** When I began to do further research on this, I discovered that Hitler's father, who took the name Hitler, was the **illegitimate son of a Rothschild mistress** whose last name was Schicklgruber.

The etymology of the name Hitler reveals that the name means a shepherd who lives in a hut. The name Adolf from Old High German means noble wolf. Thus, his combined name indicates that he was the **Shepherd Wolf, or false shepherd**. Strangely enough, **Pope Ratzinger**, or Benedict XVI, also has the title of **Shepherd of the Church**, and since he took office, the Roman Catholic Church has had a German shepherd. Incidentally, that breed of dog resembles a wolf.

We also know that Adolf Hitler nicknamed himself Herr Wolf. His East Prussian headquarters was called Wolfsschanze; his headquarters in France was called Wolfsschlucht, and his headquarters in the Ukraine was called Werwolf. Will the powerful European Union become the New World Order and Fourth Reich? Only God knows. **(VN: Fascism was the zionist bankers' goal even during WW II but did not happen, so they did project paperclip in order to develop the technology that could counter the sheer advantage of numbers by the filthy masses of cattle, as they like to call us.)**

One more interesting point is that Chancellor Angela Merkel has an unusual obsession with the works of the occult composer Richard Wagner, who was a **Satanist**. She made her obsession known in an interview with the newspaper Frankfurter Allgemeine Zeitung in July 2005. Wagner wrote the infamous composition called Parsifal, which is purely occult and demonic. Parsifal was a favorite of Adolf Hitler as well, and Hitler stated that the music of Wagner occupied his mind.

Angela Merkel, like Adolf Hitler, is deeply fascinated with Wagner's Ride of the Valkyries. The valkyries were minor female deities that would ride through every battle to gather the most valiant of the slain and carry them off to a place called Valhalla where they would wait to join the army of Odin in the last battle at the end of the world.

Is this woman, Angela Merkel, being used of Satan to marshal the forces for the last battle called Armageddon? It is also interesting to note that Chancellor Merkel has exactly the same eyes as Chancellor Hitler, and she bears a striking resemblance to him except for the little moustache, of course.

Nikola Tesla meets King Peter II of Yugoslavia on July 15, 1942. Tesla's nephew, Sava Kosanović, is third from the left.

Once, in 1899, Nikola Tesla had an interview with a certain journalist John Smith, when Tesla said "**Everything is the Light**". In one of its rays is the fate of nations, each nation has its own ray in that great light source, which we see as the Sun. In this interview this greatest inventor and seer of modern time unravels a new vision of humanity which we, the light warriors of the first and the last hour have created a century later. A must read for every Ascended Master from the PAT.

Part of this interview is dedicated to Tesla's critics on Einstein's theory of relativity that discards the ether as energy. I have proved in the new Theory of the Universal Law why Einstein's theory of relativity is entirely wrong and why there is no vacuum (void), and that everything is energy. Thus I confirm Tesla's ideas as expressed in this interview.

AUDIO VERSION HERE

Journalist: Mr. Tesla, you have gained the glory of the man who got involved in the cosmic processes. Who are you, Mr. Tesla?

Tesla: It is a right question, Mr. Smith, and I will try to give you the right answer to it.

Journalist: Some say you're from the country of Croatia, from the area called Lika, where together with the people are growing trees, rocks and starry sky. They say that your home village is named after the mountain flowers, and that the house, where you were born, is next to the forest and the church.

Tesla: Really, all it true. I'm proud of my [Serbian origin](#) and my Croatian homeland.

Journalist: Futurists say that the Twenty-and Twenty First Century was born in head of [Nikola Tesla](#). They celebrate conversely magnetic field and sing hymns to Inductions engine. Their creator was called the hunter who caught the light in his net from the depths of the earth, and the warrior who captured fire from heaven. Father of alternating current will make the Physics and Chemistry dominate half the world. Industry will proclaim him as their supreme saint, a banker for the largest benefactors. In the laboratory of Nikola Tesla for the first time is broken atom.

There is created a [weapon](#) that causes the earthquake vibrations. There are discovered black cosmic rays. Five races will pray to him in the Temple of the future, because they had taught a great secret that Empedocles elements can be watered with the life forces from the ethers.

Tesla: Yes, these are some of my most important discoveries. I'm a defeated man. I have not accomplished the greatest thing I could.

Journalist: What is it, Mr. Tesla?

Tesla: I wanted to illuminate the whole earth. There is enough electricity to become a second sun. Light would appear around the equator, as a ring around Saturn.

Mankind is not ready for the great and good. In Colorado Springs I soaked the earth by electricity. Also we can water the other energies, such as positive mental energy. They are in the music of Bach or Mozart, or in the verses of great poets. In the Earth's interior, there are energy of Joy, Peace and Love. Their expressions are a flower that grows from the Earth, the food we get out of her and everything that makes man's homeland. I've spent years looking for the way that this energy could influence people. The beauty and the scent of roses can be used as a medicine and the sun rays as a food.

Journalist: What are these things?

Tesla: One issue is food. What a stellar or terrestrial energy to feed the hungry on Earth? With what wine watered all thirsty, so that they can cheer in their heart and understand that they are Gods?

Another thing is to destroy the power of evil and suffering in which man's life passes! They sometimes occur as an epidemic in the depths of space. In this century, the disease had spread from Earth in the Universe.

The third thing is: Is there an excess Light in the Universe? I discovered a star that by all the astronomical and mathematical laws could disappear, and that nothing seems to be modified. This star is in this galaxy. Its light can occur in such density that fits into a sphere smaller than an apple, a heavier than our Solar System. Religions and philosophies teach that man can become the Christ, Buddha and Zoroaster. What I'm trying to prove is wilder, and almost unattainable. This is what to do in the Universe so every being is born as Christ, Buddha or Zoroaster.

I know that gravity is prone to everything you need to fly and my intention is not to make flying devices (aircraft or missiles), but teach individual to regain consciousness on his own wings ... Further; I am trying to awake the energy contained in the air. There are the main sources of energy. What is considered as empty space is just a manifestation of matter that is not awakened.

No empty space on this planet, nor in the Universe.. In black holes, what astronomers talk about, are the most powerful sources of energy and life.

Journalist: On the window of your room in hotel "Valdorf-Astoria", on the thirty-third floor, every morning, the birds arrive

Tesla: A man must be sentimental towards the birds. This is because of their wings. Human had them once, the real and visible!

Journalist: You have not stopped flying since those distant days in Smiljan!

Tesla: I wanted to fly from the roof and I fell: Children's calculations could be wrong. Remember, the youth wings have everything in life!

Journalist: Have you ever married? It is not known that you have affection for love or for a woman. Photos from the youth show you were handsome man.

Tesla: Yes. I did not. There are two views: a lot affection or not at all. The center serves to rejuvenate human race. Women for certain people nurtures and strengthen its vitality and spirit. Being single does the same to other people. I chose that second path.

Journalist: Your admirers are complaining that you attacking relativity. The strange is your assertion that the matter has no energy. Everything is imbued with energy, where it is?

Tesla: First was energy, then matter.

Journalist: Mr. Tesla, it's like when you said that you were born by your father, and not on you.

Tesla: Exactly! What about the birth of the Universe? Matter is created from the original and eternal energy that we know as Light .It shone, and there have been appear star, the planets, man, and everything on the Earth and in the Universe. Matter is an expression of infinite forms of Light, because energy is older than it. There are four laws of Creation. The first is that the source of all the baffling, dark plot that the mind cannot conceive, or mathematics measure. In that plot fit the whole Universe.

The second law is spreading a darkness, which is the true nature of Light, from the inexplicable and it's transformed into the Light. The third law is the necessity of the Light to become a matter of Light. The fourth law is: no beginning and no end; three previous laws always take place and the Creation is eternal.

Journalist: In the hostility to the theory of relativity you go so far, that you hold lectures against its Creator at your birthday parties..

Tesla: Remember, it is not curved space, but the human mind which cannot comprehend infinity and eternity! If relativity has been clearly understood by its Creator, he would gain immortality, even yet physically, if he is pleased.

I am part of a light, and it is the music. The Light fills my six senses: I see it, hear, feel, smell, touch and think. Thinking of it means my sixth sense. Particles of Light are written note. O bolt of lightning can be an entire sonata. A thousand balls of lightning is a concert.. For this concert

I have created a Ball Lightning, which can be heard on the icy peaks of the Himalayas. About Pythagoras and mathematics a scientist may not and must not infringe of these two. Numbers and equations are signs that mark the music of the spheres. If Einstein had heard these sounds, he would not create theories of relativity. These sounds are the messages to the mind that life has meaning, that the Universe exists in perfect harmony, and its beauty is the cause and effect of Creation. This music is the eternal cycle of stellar heavens.

The smallest star has completed composition and also, part of the celestial symphony. The man's heartbeats are part of the symphony on the Earth. Newton learned that the secret is in geometric arrangement and motion of celestial bodies. He recognized that the supreme law of harmony exists in the Universe. The curved space is chaos, chaos is not music. Einstein is the messenger of the time of sound and fury.

Journalist: Mr. Tesla, do you hear that music?

Tesla: I hear it all the time. My spiritual ear is as big as the sky we see above us. My natural ear I increased by the radar. According to the Theory of Relativity, two parallel lines will meet in infinity. By that Einstein's curved will straighten. Once created, the sound lasts forever. For a man it can vanish, but continues to exist in the silence that is man's greatest power.

No, I have nothing against Mr. Einstein. He is a kind person and has done many good things, some of which will become part of the music. I will write to him and try to explain that the ether exists, and that its particles are what keep the Universe in harmony, and the life in eternity.

Journalist: Tell me, please, under what conditions Angel adopt on the Earth?

Tesla: I have ten of them. Keep good records vigilant.

Journalist: I will document all your words, Dear Mr. Tesla.

Tesla: The first requirement is a high awareness of its mission and work to be done. It must, if only dimly, exist in the early days. Let us not be falsely modest; Oak knows that it is oak tree, a bush beside him being a bush. When I was twelve, I have been sure I will get to Niagara Falls. For most of my discoveries I knew in my childhood that I will achieve them, although not entirely apparent ... The second condition to adapt is determination. All that I might, I finished.

Journalist: What is the third condition of adjustment, Mr. Tesla?

Tesla: Guidance for all the vital and spiritual energies in labor. Therefore purification of the many effects and needs that man has. I therefore have not lost anything, but just gained.

So I enjoyed every day and night. Write down: Nikola Tesla was a happy man... The fourth requirement is to adjust the physical assembly with a work.

Journalist: What do you mean, Mr. Tesla?

Tesla: First, the maintenance of the assembly. Man's body is a perfect machine. I know my circuit and what's good for him. Food what nearly all people eat, to me it is harmful and dangerous. Sometimes I visualize that chefs in the world are all in conspiracy against me ... Touch my hand.

Journalist: It was cold.

Tesla: Yes. Bloodstream can be controlled, and many processes in and around us. Why are you frightened young man?

Journalist: It's a story that Mark Twain wrote a mysterious stranger, that wonderful book of Satan, inspired by you.

Tesla: The word "Lucifer" is more charming. Mr. Twain likes to joke. As a child I was healed once by reading his books. When we met here and told him about, he was so touched that he cried. We became friends and he often came to my lab. Once he requested to show him a machine that by vibration provokes a feeling of bliss. It was one of those inventions for entertainment, what I sometimes like to do.

I warned Mr. Twain as not to remain under these vibrations. He did not listen and stayed longer. It ended by being, like a rocket, holding pants, darted into a certain room. It was a diabolically funny, but I kept the seriousness.

But, to adjust the physical circuit, in addition to food, dream is very important . From a long and exhausting work, which required superhuman effort, after one hour of sleep I'd be fully recovered. I gained the ability to manage sleep, to fall asleep and wake up in the time which I have designated. If I do something what I do not understand, I force myself to think about it in my dream, and thus find a solution.

Tesla: The fifth condition of adjustment is memory. Perhaps in the most people, the brain is keeper of knowledge about the world and the knowledge gained through the life. My brain is engaged in more important things than remembering, it is picking what is required at a given moment. This is all around us. It should only be consumed. Everything that we once saw, hear, read and learn, accompanies us in the form of light particles. To me, these particles are obedient and faithful.

Goethe's Faust, my favorite book, I learned by heart in German as a student, and now it can all recite. I held my inventions for years 'in my head', and only then I realized them.

Journalist: You often mentioned the power of visualization.

Tesla: I might have to thank to visualization for all that I invented. The events of my life and my inventions are real in front of my eyes, visible as each occurrence or the item. In my youth I was frightened of not knowing what it is, but later, I learned to use this power as an exceptional talent and gift. I nurtured it, and jealously guarded. I also made corrections by visualization on most of my inventions, and finish them that way, by visualization I mentally solve complex mathematical equations. For that gift I have, I will receive rank High Lama in Tibet.

My eyesight and hearing are perfect and, dare to say, stronger than other people. I hear the thunder of a hundred fifty miles away, and I see colors in the sky that others cannot see. This enlargement of vision and hearing, I had as a child. Later I consciously developed.

Journalist: In youth you have several times been seriously ill. Is it a disease and a requirement to adapt?

Tesla: Yes. It is often the result of a lack of exhaustion or vital force, but often the purification of mind and body from the toxins that have accumulated. It is necessary that a man suffers from time to time. The source of most disease is in the spirit. Therefore the spirit and can cure most diseases. As a student I got sick of cholera which raged in the region of Lika. I was cured because my father finally allowed me to study technology, which was my life. Illusion for me was not a disease, but the mind's ability to penetrate beyond the three dimensions of the earth.

I had them all my life, and I have received them as all other phenomena around us. Once, in childhood, I was walking along the river with Uncle and said: "From the water will appear the trout, I'll throw a stone and it is cut." That's what happened. Frightened and amazed, his uncle cried: "Bade retro Satan's!" He was an educated and he spoke in Latin ...

I was in Paris when I saw my mother's death. In the sky, full of light and music floated are wonderful creatures. One of them had a mother's character, who was looking at me with infinite love. As the vision disappeared, I knew that my mother died.

Journalist: What is the seventh adjustment, Mr. Tesla?

Tesla: The knowledge of how the mental and vital [energy transform](#) into what we want, and achieve control over all feelings. Hindus call it Kundalini Yoga. This knowledge can be learned, for what they need many years or is acquired by birth. The most of them I acquired by birth. They are in the closest connection with a sexual energy that is after the most widespread in the Universe. The woman is the biggest thief of that energy, and thus the spiritual power.

I've always knew that and was alerted. Of myself I created what I wanted: a thoughtful and spiritual machine.

Journalist: A ninth adjustment, Mr. Tesla?

Tesla: Do everything that any day, any moment, if possible, not to forget who we are and why we are on Earth. Extraordinary people who are struggling with illness, privation, or the society which hurts them with its stupidity, misunderstanding, persecution and other problems which the country is full of a swamps with insects, leaves behind unclaimed until the end of the work. There are many fallen angels on Earth.

Journalist: What is the tenth adaptation?

Tesla: It is most important. Write that Mr. Tesla played. He played the whole of his life and enjoyed it.

Journalist: Mr. Tesla! Whether it relates to your findings and your work? Is this a game?

Tesla: Yes, dear boy. I have so loved to play with electricity! I always cringe when I hear about the one also the Greek who stole fire. A terrible story about studding, and eagles peck at his liver. Did Zeus did not have enough lightning and thunder, and was damaged for one fervor? There is some misunderstanding...

Lightning are the most beautiful toys that can be found. Do not forget that in your text stand out: Nikola Tesla was the first man who discovered lightning.

Journalist: Mr. Tesla, you're just talking about angels and their adaptation to the Earth.

Tesla: Am I? This is the same. You could write this: he dared to take upon himself the prerogatives of Indri, Zeus and Peron. Imagine one of these gods in a black evening suit, with the bowler hat and wearing white cotton gloves prepares lightning, fires and earthquakes to the New York City elite!

Journalist: Readers love the humor of our paper. But you confuse me stating that your findings, which have immense benefits for the people, representing the game. Many will frown on it.

Tesla: Dear Mr. Smith, the trouble is that people are too serious. If they were not, they would be happier and much longer would have lived. Chinese proverb says that the seriousness reduces life. Visiting the inn Tai Pe guessed that he visits the Imperial Palace. But that the newspaper readers would not have frowned, let's get back to things which they consider important.

Journalist: They would love to hear what your philosophy is.

Tesla: Life is a rhythm that must be comprehended. I feel the rhythm and direct on it and pamper in it. It was very grateful and gave me the knowledge I have. Everything that lives is related to a deep and wonderful relationship: man and the stars, amoebas' and the sun, the heart and the circulation of an infinite number of worlds. These ties are unbreakable, but they can be tame and to propitiate and begin to create new and different relationships in the world, and that does not violate the old.

Knowledge comes from space; our vision is its most perfect set. We have two eyes: the earthly and spiritual. It is recommended that it become one eye. Universe is alive in all its manifestations, like a thinking animal.

Stone is a thinking and sentient being, such as plant, beast and a man. A star that shines asked to look at, and if we are not a sizeable self-absorbed we would understand its language and message. His breathing, his eyes and ears of the man must comply with breathing, eyes and ears of the Universe.

Journalist: As you say this, it seems to me like I hear Buddhist texts, words or Taoist Parazul Usa.

Tesla: That's right! This means that there is general knowledge and truth that man has always possessed. In my feeling and experience, the Universe has only one substance and one supreme energy with an infinite number of manifestations of life. The best thing is that the discovery of a secret nature, reveals the other.

One cannot hide, there are around us, but we are blind and deaf to them. If we emotionally tie ourselves to them, they come to us themselves. There are a lot of apples, but one Newton. He asked for just one apple that fell in front of him.

Journalist: A question that might be set at the beginning of this conversation. What was Electricity for you, Dear Mr. Tesla?

Tesla: Everything is Electricity. First was the light, endless source from which points out material and distribute it in all forms that represent the Universe and the Earth with all its aspects of life. Black is the true face of Light, only we do not see this. It is remarkable grace to man and other creatures. One of its particles possesses light, thermal, nuclear, radiation, chemical, mechanical and an unidentified energy.

It has the power to run the Earth with its orbit. It is true Archimedean lever.

Journalist: Mr. Tesla, you're too biased towards electricity.

Tesla: Electricity I am. Or, if you wish, I am the electricity in the human form. You are Electricity; too Mr. Smith, but you do not realize it.

Journalist: Is it thus your ability to allow flows of electricity of one million volts through your body?

Tesla: Imagine a gardener who is attacked by herbs. This would indeed be crazy. Man's body and brain are made from a large amount of energy; in me there is the majority of electricity. The energy that is different in everyone is what makes the human "I" or "soul". For other creatures to their essence, "soul" of the plant is the "soul" of minerals and animals.

Brain function and death is manifested in light. My eyes in youth were black, now blue, and as time goes on and strain the brain gets stronger, they are closer to white. White is the color of heaven. Through my window one morning, landed a white dove, which I fed. She wanted to bring me a word that she was dying. From her eyes the light jets were coming out. Never in the eyes of any creature had I not seen so much light, as in that pigeon.

Journalist: Personnel in your lab speak about flashes of light, flames and lightning that occur if you are angry or into kind of risk.

Tesla: It is the psychic discharge or a warning to be alert. The light was always on my side. Do you know how I discovered the rotating magnetic field and induction motor, which made me become famous when I was twenty-six? One summer evening in Budapest, I watched with my friend Sigeti Jem sunset.

Thousands of fire was turning around in thousands of flaming colors. I remembered Faust and recited his verses and then, as in a fog, I saw spinning magnetic field, and induction motor. I saw them in the sun!

Journalist: Hotel service telling that at the time of lightning you isolate into the room and talk to yourselves.

Tesla: I talk with lightning and thunder.

Journalist: With them? What language, Mr. Tesla?

Tesla: Mostly my native language. It has the words and sounds, especially in poetry, what is suitable for it.

Journalist: Readers of our magazine would be very grateful if you would interpret that.

Tesla: The sound does not exist only in the thunder and lightning, but, in transformation into the brightness and color. A color can be heard. Language is of the words, which means that it is from the sounds and colors. Every thunder and lightning are different and have their names. I call some of them by the names of those who were close in my life, or by those whom I admire.

In the sky brightness and thunder live my mother, sister, brother Daniel, a poet Jovan Jovanovic Zmaj and other persons of Serbian history. Names such as Isaiah, Ezekiel, Leonardo, Beethoven, Goya, Faraday, Pushkin and all burning fires mark shoals and tangles of lightning and thunder, which does not stop all night bringing to the Earth precious rain and burning trees or villages.

There is lightning and thunder, and they are the brightest and most powerful, that will not vanish. They are coming back and I recognize them among the thousands.

Journalist: For you, science or poetry is the same?

Tesla: These are the two eyes of one person. William Blake was taught that the Universe was born from the imagination, that it maintains and it will exist as long as there is a last man on the Earth. With it was a wheel to which astronomers can collect the stars of all galaxies. It is the creative energy identical to the light energy.

Journalist: Imagination is more real to you than life itself?

Tesla: It gives birth to the life. I have fed by my taught; I've learned to control emotions, dreams and visions. I have always cherished, as I nurtured my enthusiasm. All my long life I spent in ecstasy. That was the source of my happiness. It helped me during all these years to bear with work, which was enough for the five lives. The best is to work at night, because the stellar light, and close bond.

Journalist: You said that I am, like every being, the Light. This flatter me, but I confess, I do not quite understand.

Tesla: Why would you need to understand, Mr. Smith? Suffice it to believe it. Everything is light. In one its ray is the fate of nations, each nation has its own ray in what great light source we see as the sun. And remember: no one who was there did not die. They transformed into the light, and as such exist still. The secret lies in the fact that the light particles restore their original state.

Journalist: This is the resurrection!

Tesla: I prefer to call it: return to a previous energy. Christ and several others knew the secret. I am searching how to preserve human energy. It is forms of Light, sometimes straight like heavenly light. I have not looked for it for my own sake, but for the good of all. I believe that my discoveries make people's lives easier and more bearable, and channel them to spirituality and morality.

Journalist: Do you think that time can be abolished?

Tesla: Not quite, because the first feature of the energy is that it transforms. It is in perpetual transformation, as clouds of Taoists. But it is possible to leverage the fact that a man preserves consciousness after the earthly life. In every corner of the universe exist energy of life; one of them is immortality, whose origin is outside of man, waiting for him.

The universe is spiritual; we are only half that way. The Universe is more moral than us, because we do not know his nature and how to harmonize our lives with it. I am not scientist, science is perhaps the most convenient way to find the answer to the question that always haunt me, and which my days and nights turned into fire.

Journalist: What's the matter?

Tesla: How are your eyes brightened!... What I wanted to know is: what happens to a falling star as the sun goes out? Stars fall like dust or seed in this or in other worlds, and the sun be scattered in our minds, in the lives of many beings, what will be reborn as a new light, or cosmic wind scattered in infinity.

I understand that this is necessary included in the structure of the Universe. The thing is, though, is that one of these stars and one of these suns, even the smallest, preserves.

Journalist: But, Mr. Tesla, you realize that this is necessary and is included in the constitution of the world!

Tesla: When a man becomes concuss; that his highest goal must be to run for a shooting star, and tries to capture it; shall understand that his life was given to him because of this and will be saved. Stars will eventually be capable to catch!

Journalist: And what will happen then?

Tesla: The creator will laugh and say: "It fall only that you chase her and grab her."

Journalist: Isn't all of this contrary to the cosmic pain, which so often you mention in your writings? And what is it cosmic pain?

Tesla: No, because we are on Earth ... It is an illness whose existence the vast majority of people are not aware of. Hence, many other illnesses, suffering, evil, misery, wars and everything else what makes human life an absurd and horrible condition. This disease cannot be completely cured, but awareness shall make it

less complicated and hazardous. Whenever one of my close and dear people were hurt, I felt physical pain. This is because our bodies are made as of similar material, and our soul related with unbreakable strands. Incomprehensible sadness that overwhelmed us at times means that somewhere, on the other side on this planet, a child or generous man died.

The entire Universe is in certain periods sick of itself, and of us. Disappearance of a star and the appearance of comets affect us more than we can imagine. Relationships among the creatures on the Earth are even stronger, because of our feelings and thoughts the flower will scent even more beautiful or will fall in silence.

These truths we must learn in order to be healed. Remedy is in our hearts and evenly, in the heart of the animals that we call the Universe.

2016-11 - 22 **The Rachel Maddow Show, Transcript 11/22/2016**

11/22/16 09:00 PM

(COMMERCIAL BREAK)

REID: Right around this time last night, at 9:14 p.m., the soon-to-be president of the United States tweeted out the following, quote, "Prior to the election, it was well-known that I have interests in properties all over the world. Only the crooked media makes this a big deal."

The story on why it is a big deal and not just because the crooked media say so, is next.

(COMMERCIAL BREAK)

REID: It would be quite an understatement to say that 2016 has been a learning experience for most Americans, and I`m no exception. For example, before today, who among us was familiar with Article I, Second IX of the U.S. Constitution?

It is **Emoluments Clause**. And it reads as follows, quote, "No person holding any office of profit or trust shall without the consent of Congress accept any present, emolument, office or title of any kind whatever from any king, prince or foreign state", unquote.

Shorter Emoluments Clause, no U.S. official can profit from other countries, period, end of sentence.

It turns out that the Founding Fathers who were emerging from a monarchy were worried about the dangers of economic perks being given to U.S. officials by foreign governments. Until recently, this very idea as it applies to the president was relatively unexplored territory. But not anymore.

Our soon-to-be president is a businessman, something lots of Americans have claimed they`ve always wanted in a president. But in Trump`s case, with lots of vested interests in foreign countries and while Donald Trump says he will be handing his company over to his kids to run in a so-called blind trust, leaders are already getting down to business.

For example, in just the last week, we`ve learned that Donald Trump has been taking meetings with business partners from India who are planning on building a Trump-branded tower in Mumbai. His new D.C. hotel has also hosted a bunch of foreign diplomats, a hotel Mr. Trump leases from the federal government. The General Services Administration, to be exact. Even reportedly raffling off stays at other Trump properties around the world.

We know that even before the U.S. election, the president of the Philippines named a new special trade envoy to the U.S. and it just happens to be a real estate mogul who is building a Trump Tower in, you guessed it, the Philippines.

We know that Donald Trump who had been fighting to keep a wind farm from his golf course in Scotland brought it up to Nigel Farage, a sitting member of the British parliament, and the leader of the U.K.`s pro-Brexit UKIP party and we know this because Trump said he brought it up, telling "The New York Times" that today.

And it`s these kinds of stories, these kinds of obvious conflicts of interest that cause a story like the one out of Argentina to quickly gain traction.

This weekend, two well-known and well-respected journalists reported that Donald Trump during his congratulatory phone call with the president of Argentina asked for help to get permits for a Trump building in Buenos Aires.

Now, both the president-elect and the president of Argentina deny that it happened, and the lack of

pushback from the journalistic question makes the story seem less solid. But these kinds of confrontations and these kinds of conflicts are not figments of our imagination. They're real, they're happening. Whatever went on between Trump and the leader of Argentina, he do know that his daughter, Ivanka Trump, that woman who's expected to run his company while he's in the White House, you know, to prevent the appearance of impropriety, we know that Ivanka Trump was on that call, just like she was in the meeting with Japanese Prime Minister Abe, a meeting that was kept private from the press.

We're in uncharted territory here and it's a big deal. I mean, just ask everyone's favorite liberal rag, "The New York Post," whose editorial board came out this weekend and said, this is a problem and even appearing to monetize the presidency would be outrageous.

Donald Trump, for his part, disagrees. He's been tweeting that the American people knew he had these business interests when he was running and now, it's just a crooked media making it into a big deal. And he told "The New York Times" today, quote, "The law is totally on my side. The president can't have a conflict of interest."

Where have we heard that before?

(BEGIN VIDEO CLIP)

RICHARD NIXON, FORMER PRESIDENT: Well, when the president does it, that means that it is not illegal.

(END VIDEO CLIP)

REID: Ah, him.

The truth is there is no president for a Donald Trump presidency. We've never had a president running a multinational business, that we know very little about where his kids are involved in his transition but also set to run his company when he gets to the White House. We've never seen anything like this, and we're being forced to search long neglected corners of the Constitution and learned about forgotten niche clauses and something called emoluments because of it.

So, how do we know the difference between what is inappropriate and impolitic, and what's unconstitutional?

Well, the first step is to ask an expert, and joining us now is Richard Painter, who is chief White House ethics lawyer under George W. Bush.

All right. Mr. Painter, thank you so much for being here.

RICHARD PAINTER, G.W. BUSH ADMIN. CHIEF ETHICS COUNSEL: Well, thank you.

REID: So we've never had a president that has this many foreign entanglements, although we don't know all of them because Trump never released his tax returns. But how do you draw the line between something that just looks bad and something that could actually violate the Emoluments Clause?

PAINTER: Well, you look at the language of the emoluments clause itself. It has a fancy name and some people would say obscure, but it's a pretty simple rule, that a person holding a position of trust with the United States government may not accept gifts and payments from foreign governments. And that's a rule that really should be quite obvious. We do not want our elected official or anyone working for the United States government taking money from foreign governments.

So, we fought the war of independence to get away from foreign domination and the last thing the founders would have wanted would have been for a powerful monarchies to be able to back door money into members of Congress or the White House or anywhere else in order to in effect buy our government. So, it's really a quite simple rule and quite intuitive. And we've not had a president that I can recall in recent memory who was taking gifts from foreign governments in excess of those permitted by Congress and the Emoluments

Clause does allow Congress to make exceptions and – but those are for gifts up to \$385.

So, the problem we have here with President-elect Trump is that there could be a lot of money coming in from foreign governments into his business empire. If he doesn't take prompt steps to make sure that none of that money gets into the Trump Organization. It could be money from the Bank of China which extends loans to some of the Trump entities I understand. There may be other foreign – government-owned banks. I don't know of their relationships with sovereign wealth funds, but that needs to be looked at.

REID: Yes.

PAINTER: And then, of course, the issue of people checking into the hotel or diplomats and billing foreign governments and then, you know, vying for the most expensive suite to impress the president of the unite. This is clearly not permitted.

REID: Let me stop you on that, because we've also never had a president whose name could be theoretically plastered on hotels and condos and golf courses all over the world, including in countries where we have pressing national interests. We have Donald Trump meeting with these business partners of his in India to build a hotel in Mumbai. And you have other properties where he doesn't own the property but he leases his name. He gets a direct payment for this hotel going up.

How would that kind of a conflict be sorted out short of Trump divesting himself of those properties and taking his name down?

PAINTER: Well, when I was the chief ethics lawyer in the Bush White House, I recall that we wouldn't even let people put President Bush's name on a public school until he left office much less a commercial enterprise.

I know this is a different situation because the president-elect has his name on a lot of these buildings, but that needs to be changed. His interest in these buildings needs to be sold through an initial public offering or otherwise and his name taken off the building.

If you have building all over the world with the president's name on them, those are sitting ducks for terrorist attacks. There's lots of risks associated with that.

REID: Yes.

PAINTER: Raise the question of who going to pay for the security for all these Trump installations?

REID: And what does it say to you that Donald Trump sort of freely admitted that he talked to Nigel Farage of not putting wind farms in front of his golf course in Scotland.

PAINTER: Well, this is the problem. If you have a discussion as a United States government official, whether you're president or anybody else about official United States government business, such as diplomacy with the European Union or with another country, and then you start bringing up personal favors that you want, these discussions can gravitate toward a quid pro quo type of request or understanding, and that would violate the bribery clauses, the statutes, and that's a criminal offense.

And the president can violate the bribery laws, then so can anybody else. And that's a very bad situation. So, you do not discuss personal business at the same time you discuss United States government business.

REID: Yes, and certainly don't brag about it afterwards.

Richard Painter, former White House –

PAINTER: Not a good idea.

REID: Not a good idea.

Former White House ethnics lawyer under George W. Bush – thank you so much, sir. Really appreciate your time.

PAINTER: Thank you.

REID: All right. And still ahead, the Republican governor of one state who apparently can't believe that voters don't want him to leave them anymore. That is next.
