

### **Installing Programs on the Calculator**

1. Go to <http://education.ti.com/calculators/downloads/US/Software/Detail?id=183> and download the TI-Connect software onto your computer. During installation, select to have the TI-Connect icon appear on your desktop.
2. Connect a Graph Link cable to your computer and calculator.
3. Open My Computer so that the program file you want to install on the calculator appears in the window.
4. Adjust the My Computer window so that you can see the TI Connect icon that is on the desktop. Left click and drag the program file to the TI Connect icon.
5. If you are unable to adjust the My Computer window so that you can see the TI Connect icon, do the following. Right click on the program file. From the new menu that opens, select "Send to...". From the next menu that appears select "Connected TI Device..." Finally select "Ram" at the next menu. Then left click.
6. Note: A TI-73, 83+, or 84 does not have to be turned on. However, a TI-83 does.
