Economic Growth

[Structural adjustment and public spending on health: Evidence from IMF programs in low-income countries](#). 2015

The IMF has claimed that its programs enhance government spending for health, and that a number of innovations have been introduced to enable borrowing countries to protect health spending from broader austerity measures. Critics have pointed to adverse effects of Fund programs on health Spending or to systematic under funding that does not allow LICs to address health needs.

[Nutrition and economic growth in South Africa: a threshold co-integration approach](#) 2015

The purpose of this paper is to examine asymmetric co-integration effects between nutrition and economic growth for annual South African data from the period 1961-2013
