HARD NEWS 24 minutes

R: sounds a bit like Mother this night [his voice is almost gone]

- With great certainty, what Mr 19.5* did tonight opens the door for the folks from neighbouring galaxies to come in – Immigration!

T: so many reports of people in tears: 5 million relieved from the 6am knock on the door!

- The Republicans are not going to get away with this!
- Boehner saying the American people voted unanimously for the Republicans!

R: and talking of giving Mr 19.5* jail time!

T: the use of the Executive Order is for when things are not happening or for emergencies

R: have been waiting 510 days for a bill from the Republicans: all they have been doing is stealing the peoples' election which was a con job – has to do with Koch Bros

- there is a **giant body in orbit around Saturn: IT IS THE NIBIRU AND MOTHER IS HERE!**

R: T & R have no \$ at all, no gas money, no food money, also need rent \$\$\$

T: reads from one "Ken" claiming to work as a US gov't astronomer at the big observatory on Mauna Loa

Today, the YouTube site, SecureTeam received this video and testimony from one "Ken," claiming to work as a "US Government astronomer," at an agency that he would not identify, except to say that he worked at one of the observatories on Mauna Kea, in Hawaii.

While investigating unprecedented major storm activity on the far-flung planet Uranus, he claims to have unexpectedly discovered a celestial body that is tremendous in size and which he claims is currently in the process of entering the Outer Solar System. **[SEE BELOW]**

- Mother has confirmed it is the Nibiru and they know that, but are not telling the truth about it.
- T:** suspects they are trying to cover up the idea that people are causing climate change
 - She tells how Rama met Starman and the tall Andromedan woman [6'6" tall woman with long blonde hair] in Santa Fe who said that Obama's signing the Executive Order opens the doors for their visits. He used it after 6 years of trying to get the Repubs to deal with immigration.
- This is NOT HERCULOBAS which is in the Tillis system – bodies do not move from one galactic system to another.
- Nibiru will **not be catastrophic** to our solar system, **only to those violating galactic, intergalactic and cosmic law:** they invaded this planet; they are not human – they are reptiles.
 - Time for us to discuss what spirituality is as opposed to organized religion – the interpretation of most of the good books has been slanted, and the slanting has come from the catholic church which has been interpreting the other books & influencing to the detriment of truth.
 - As these ones are arrested and NESARA is announced, there will be the bringing up of all the archives and archives and archives of libraries of truth, including those materials in the Bruton Vault in williamsburg, VA.
 - In the Bruton Vault is the **original hand-written and revised version of the King James Version** of the bible by St Germain [as Sir Francis Bacon] who brought them to the US himself – it was 1609 when Jamestown came into being, and the vaults were being made then – St Germain never died; the date of death on his tombstone [1626] is fake as he never died! It was a rigged stone with no body there.
 - The **original Document of Independence** written $\frac{3}{4}$ in the Iroquois language was put together by the Iroquois Moorish Masonic people, a confederacy being formed as their elders deliberated for over 13 years with Thomas Jefferson, Madison, etc etc et –
 - Ben Franklin was the secretary and the 13 years of his hand-written notes were pulled out of archives somewhere in early 2008 – there is much people have not been given. Just getting that information out will be impactful
 - That document **came into being in 1774**, and the **NESARA document is the 2nd Declaration of Independence** known to this modern times as the answer to what Jefferson really wanted. At the time, Thomas Jefferson said they had to get rid of slavery; the south said they would not ratify it or even vote on it, unless that term were taken out so Jefferson took it out. Even at that, it was a **fake Declaration of Independence;**
 - when we say this is the 2nd Declaration of Independence, it covers the history of the original and takes us back to the first one; it is all in English, including what was in the iroquois language which was translated, and will bring that declaration back into our consciousness. So what we are doing is all encompassing.
- **KOS talked to Rama** again: KOS wrote a letter to a lightworker in the community asking why would you support ISIL? Anyone invested in dongs, dinars and other currencies are supporting ISIL because the same people funding the dongs, dinars, etc are funding ISIL to make sure nothing happens, as they are funding an organization that is tearing up Iraq
 - Cannot revalue a currency under the current circumstances – and all revaluation is now part of NESARA.
 - KOS said the lightworker was a deterrent to accomplishing what the world needs: that is how serious things are.
 - This person had a contract to receive hundreds of millions of dollars above and beyond what is supposed to be in play.

R: Not true that the Nibiru would destroy anything: **Mother is here to collect her children who have**

committed high crimes, genocide, ecocide, & treason and broken intergalactic laws

KOS also said: what Netanyahu has done [the last 4 of the events in which Palestinians have supposedly have killed Israelis] - it is the same group of renegades bought and paid off and labelled as "Hamas" and gave them carte blanche to murder people – he hired them and had them do these events on the same day is putting 78 more settlements in the Golan Heights

• **KOS said they are not going to be arrested: they will be permanently removed** – Netanyahu, his cabinet, the Mossad, and the Black Ops who have been cooperating with them.

R: It is all CIA duh; 9/11 was done by our own Black Ops - the Zionists, the same ones who planned the murder of JFK [a clone]; we have had our own White Knights contingency forces since before the assassination of JFK – they have been mitigating things since before then.

T: [goes back to read the article and comment] there is an outer planet that has not been confirmed to the public – up to 14 have been identified; the writer talks of the Annunaki & Nibiru per Z. Sitchin

- asks Rama: Nibiru was one of the planets around one of the 23 physical suns, and the 23rd sun is called Nibiru; Mother's ship is called Nibiru; and there is also another planet in this system called Nibiru
- the Nibiru they are seeing is what?

R: it's her ship, yes, and it is very large: holds lots and lots of folks: lion people, reptilian people, bird those who never fell from grace.

T: so it is not the same as the home of the Annunaki? **Yes, that is right**

R: the other story has to do with the story of Enki and Enlil and the Annunaki who were the elohim who fell from grace to the elohim and used their abilities/gifts for not of the Office of the Christ activities

CL: bothered by the Boehner thing and the way he spoke to Obama – wants to see all kinds of boundaries disappeared.

T: this is a nazi-collaborating reptilian Republican over take – this is what the Republicans are, and also the Democrats who are not among the 64 good members – 471 members of Congress will be deleted – this is pure evil: yet we asked, as a human race, to overcome this

CL: yes, it our task to get rid of this – it is our evolutionary path; this is almost like the darkness before the dawn: she had had more than enough of the mudslinging! Does not turn on main stream news!

T: this lifetime, we who have come in and have a knowledge of who we are, more than the general public, we have a greater responsibility as the information is coming in from the higher energies

T: The US as a country are the **26th country** of the first world countries in the efficacy and the validity of its election processes!

T: KOS told Rama today that what is going on in DC is insanity! Not only do they want to discredit him, they also want to put him in jail : Rand Paul said what he did is against the constitution – they want to make him look like a failed president

- Ellen Ratner and KOS: told people to call all the local affiliates of Fox News and NBC, as they are not going to broadcast his speech tonight.

- In 1859, the **name of the country was changed** by the 13 families: from the Constitution of the United States for America, to the Constitution of the United States OF America – no longer the constitution for we the people but the constitution for the 13 families! The current mess goes back a long time.

• The **Declaration of Independence** is also being ignored; the true one is in the Bruton Vault

CL: everything on every level feels like it is completely broken – everyone is feeling it

T: Yes, and now you can see what the split is: it goes back to 1859 - the nazi republicans are adhering to the constitution for the 13 families – 155 years of doing the bidding of the 13 families

- Remember that Lincoln was a Republican and the racists were in the Democratic party

CL: read in an e-mail that many have received: Anonymous stood up and told the Klu Klux Klan that they were going to make known to the people who you are – name names, etc etc

T: they tapped into the KKK twitter; they started with the police dep't in Ferguson – most of the members of the police dep't are KKK, including Darryl Wilson

R: within the last 24 hours, a policeman raped a woman in the Ferguson jail!

CL: this is so depraved and all this is bringing up how far down things have gone. People are seeing it out in the open.

R: Anonymous said they would shut down the entire power system of Ferguson if Wilson is let go, not indicted!

CL: that will hurt people like those in hospital etc

- would love to see the names get out in the community so the people would know what those people stand for and how dark things are

T: until they are arrested, they will not let this happen

CL: asks about the arrests – what do we know about this?

T: KOS told Rama: Netanyahu and the Mossad and others will be just taken out, not arrested

- all is contingent on knowing why! The people can use their powers of numbers to boycott Fox News, ABC News, etc etc for not broadcasting the President's speech

CL: how can it be that the President's speech is not being broadcast ?

- This country **has never had a valid election; there has never been a democratic way of life**
 - they have controlled the air waves, the elections, the jail system, the monitoring of every move of every person

CL: when the president makes a major speech and they do not air it, something is funny!

T: General Electric is the weapons manufacturer of the world and **owns the airwaves** – absolutely!

CL: What about Bill Cosby?

T: the back story is the CIA mind-controlled him for years and that is the explanation for what he did –

- he was one of their pawns from the beginning and they planned it decades ago
- he started in a spy movie called “I Spy”; they planned a long time ago that they were going to do this to him now: knock down the idea that black people can have good families
- All these women coming forward and saying he raped them and gave them pills in drinks – the number is up to 15 – a model came forth

CL: a banker found dead in a bathtub – so-called suicide

T: they are **ALL TAKEN OUT – NO SUICIDES!**

- At this time, there are much higher energies and they coming in at a higher pace; also expansive
 - if you resist the expansiveness, it causes you to die from internal combustion; not being reported.
- They get so many calls from people complaining “Why don't you guys just do this?”
 - If the White Knights were to just wipe this off the map, would this do the trick?
 - **NO!** This is about people waking up and doing things with love and unity consciousness
 - NESARA is an ongoing process of awakening and going into unity consciousness

CL: Was reading something from Metatron: talking of light and darkness: let's just look at it as everyone's consciousness; as you heal yourself and evolve; the darkness just dissipates –

- the dark ones are now beside themselves because the light has taken over: we are changing ourselves and the light is so bright, the darkness has ramped up just so it can stay alive

T: Another example is in the Republicans: the gap is getting wider in the Republican party: they would like us to think they are united – **not so**

R: Mike Nichols died today – a major talk show host over the years; big like Walter Cronkite

- the reason there is so much going on now concerning the light pouring in – we are hearing so many stories about the ships, and the galactic visitors every day
- the Republicans and the 13 families are so upset because we are all **NOT FROM EARTH; we are all immigrants**
 - we all have a role to play as stewards of the garden of earth – this is what the lady from Andromeda explained.
- She explained that as the people of earth get to realize we are all one people, when we are just one village of people that includes everyone on the planet, the lines about race, religion

- and colour get blurred – we are all one people, and our 1st priority is to care for the earth!
- This is why the question of immigration is so important, and they are calling Obama an emperor – this should have happened 10 years ago.[signing the Exec Order for changes to immigration]

T: what is Obama doing? He's a juggler – **has one goal: FULL DISCLOSURE** and he will announce it - this is the beginning: he went right for the jugular of the reptilians who stole the elections

CL: 8 years ago, it was all Democrats, and now it is all Republicans – it is all about separation and no growth and mud slinging – this is how it rolls! Let's just put the issues on the table and work on them – we are not fixing things, just changing things every 8 years

T: it is worse than that: every time there is a roll-over in the hedge funds, millions of children die because the costs rise and people cannot afford and kids are being killed.

CL: about food and GMO: this is waking people up – they understand about flourides and GMOs

T: Abby Martin talked of this: a poison that was created by pharmaceuticals, a failed asthma drug that nearly killed the people who tried it - now being given to animals – it plumps up the animals so they can make more money until they are slaughtered! That stuff is in every single piece of turkey pork and beef!

- The feed given to animals in the winter has canola in it – it's not really organic; canola may be organic but it will still kill you.

CL: read that there is feces in the meat – a major organization in charge of regulation said they could not control what was happening -

T: This came out last year – it is 'pink slime'! When you get burgers of any kind, and they look pink – it's not blood, it's pink slime / feces + entrails.

- Also the meat is shot through with antibiotics from the time they are born until they die – which is why antibiotics don't work any more.
- Eating meat causes death – it is not for human consumption – this was created to make more money – result of an 18 year old study announced on Amy Goodman.

CL: saying we are cannibals!

T: a news item from Abby: showed the pigs in cages that allow the animals to only stand up and be motionless – it is pure torture for the pigs, and they are pregnant their whole lives! Baby producing machines that never move.

CL: talking to a younger person: she brought up it is not that we are cannibals, but also that when we become aware of what is happening, we are also so inhumane!

- The least we can do is sign petitions about the animals or other things.

T: pigs are way smarter than dogs, and **at least as smart as a 2½ year old child** – would you go ahead & slaughter your own child on a regular basis?

- We also are what we eat
- Not to mention the programming, the disinformation and the withholding of truth – they are trying to convince people what Obama did is totally unconstitutional – **which it is not!**

T: to play Barack Obama's speech

CNN, MSNBC, AL JAZEERA – DID air the speech! Did not bow down to those behind the other stations.

Caller: went to the white house site to watch the speech as it was not on other news casts

The picture was a still and the sound only kicked in as he was saying “God bless you. And God bless this country we love.”

- Caller called the WH and told them what happened

<http://www.whitehouse.gov/the-press-office/2014/11/20/remarks-president-address-nation-immigration>

T: the black people were here even before the Native Americans

CL: we have the rising energies of the light parallel to the dark – we are in the darkest place and we know we win. Mother Sekhmet has said this.

T: on the Moabite call: how come a Muslim prayer is given in a Christian church? T all the religions were one at one time

T: Pope gave a condescending speech about Brittany who took her own life on Nov 2: an inoperable brain cancer which would lead to terrible pain, etc – everyone dies of it and no discovery of how to heal it

- the letter from her mother was read on Laurence O'Donnell's "**The Last Word**"
- **reads the letter** – obvious that she was talking to the pope and showing what the problem is with all the major religions
- the immigration debate is about race, not about religion or faith or law or any other thing
- the right of people to make their own decisions is not part of fundamentalist religion / dogma

CL: we are in a war about consciousness; feels that Obama is a true humanitarian wanting all people to be treated fairly and correctly; he is a tremendous politician who knows how to hold the balance in the political arena. We are in a spiritual war inside ourselves and our own individual consciousness

T: the plans of the White Knights since Oct 31, 1979 – they knew that in and around the end of the Mayan Calendar that the demise of the dark ones would be certain. And what appears to be "Obama this, Obama that" is really the 13 families; as Mother says "Give them enough rope and they will hang themselves."

CL: when does this come to fruition? When do they leave the planet?

T: there is one thing to remember: the Prime Directive: non intervention in a civilization's development except in the case of nuclear or psychic holocaust.

THE NUKES DO NOT WORK, YET THE PEOPLE DO NOT KNOW THAT!

- Eastern Ukraine is a hot bed! Iran is not even so hot!
- there is absolutely no verification of Russia invading there – not one thing!!!!

CL: she said he was sending in supplies

T: NO that is not what is happening: the people of east Ukraine who went into Russia have come back with their own supplies – they are citizens of Ukraine

- the infringement of Black Op reporting is what is going on with McCain and Graham doing the funding.
- She watches the Journal out of Berlin, and learns what is really going on with Germany yet not the entire story
- Watching RT or alternative people: we learn that Germany has no economy any more, and Germany has been running the whole EU – ultimately, Angelica Merkel has to come before the World Court and say that the 4th Reich has never been anything but the EU in Europe, and in the Us has never been anything but Israel running the United States as the 4th Reich.

R: Angelica Merkel as Hitler's daughter has to tell the truth about when the Thule Society was going, with Heinrich Himmler and Goering & others in the SS, the ones in Hitler's inner circle.

- there was a movie made, called *The Valkyrie* with Tom Cruise – about a plot to kill Hitler; it was about a certain group of ET s that they captured and reverse engineered the technologies and used them for darkness; which leads into the story of the SS becoming the CIA, Al Queda. etc
- This brings in that the 4th Reich never died – Merkel has eons of war crimes to confess to
- this group called the Nazis had the idea which goes into realm of sci -fi stories of *Captain America – the First Avenger*, then *Thor The Dark Lord* - they talk of a device called the **tesseract**, one of the infinity stones, immortal devices based on Metatron's cube and open up the portals, like Stargates
- In the first Avenger movie, Captain America had to stop a person called The Red Skull; there were comic books about this in the 40s, 50s; this being actually lived, was one of Hitler's people – he created a group called the Hydra group: they wanted to open up a portal and call in the dark Sirians, the dark Pleaidians, to take over Planet Earth– IT WILL NOT HAPPEN!
 - The forces of Light are here and Ashtar is here; there are trillions and trillions of ships in our orbit, in our atmosphere – if we could see what Rama sees, we'd be dancing in the streets! Yet all we have is Boehner screaming about Emperor Obama stealing the people's rights

T: Ashtar is a regular visitor to the White House; so are KOS, Larry, Curly and Mo, Tom the Cat and others – even the girls have met the galactics & know what is going on; they know how to answer questions!

- **This is a galactic operation:** it is a fairy tale to think the presidency has had any power to do what the people want, yet the ability to manipulate consciousness and the ability to make war be peace and peace be war worked for a while during the Bush years – working less and less now.

- Then, in 1987, we started to experience newer, higher, faster frequency energies with the entrance of the Photon Belt. The 5th world ended on Harmonic Convergence even though there is an overlap of decades or more in these big changes in times, events.

- What was happening was not on the internet – had to read D'Yanni Ywahoo, the representative of the Dalai Llama, who wrote about the end of the 5th world began at the beginning of Harmonic Convergence and the beginning of the 6th world, the Age of the 6th Sun.

- There is a time delay in many peoples' consciousness, and the ultra conservative, ultra fundamentalist, ultra big lie of is diminishing in its power and diminishing exponentially

- at the moment, 24 hours is really 8 hours of the normal linear time that we are used to talking about which means the programming is working for only 1/3 of the day – the 12/60 cycle is working only 8 hours a day!

- And the heart energy – the 13/20 cycle the resonance think with your heart energy is working 16 hours a day

- the question of when is very relative: galactic time or no time as opposed to linear time for 2/3rds of every day

- why has this been so slow, gradual experience? Because making such a shift can cause all kinds of upsets in our feelings of being an endangered species and what we don't know, we consider an enemy – even when it's light energy!

- Security does not lie in what appears to be comfortable; security lies in the courage to take a step into the unknown, knowing that is what we are being guided to do at a soul level and have an experience we can share with another – to end all the fake games.

- we did not exist in the Milky Way Galaxy for thousands of years; when we blew up the crystal in Atlantis and nearly went super nova, we were literally hurled almost all the way out of the MWG and were barely holding on at the periphery of the MWG, wobbling at 23 degrees of our axis, and this at our own hands.

- At the time, we thought we could take over the Chinese by increasing the frequencies and targeting the palaces on the other side of the planet and so we sent the energy in that direction, and the intelligent being called the Tara, the sun in the centre of the earth, said I don't think so and caused the energy to go back to where it came from – this shattered the great crystal and destroyed the central nervous system of the entire planet. because crystals are the meeting points of all the ganglia of the earth.

- We co-created together the Universe of Nebadon with Mother; our choice was the 5th dimension, not the 3rd; we co-created these bodies in the 5th dimension in the Lyra system, on Vega.

- There was no idea that we would do what we did in Atlantis: that was our choice as we had free will choice; we turned up the frequencies in order to destroy someone else; what we forgot is that there are consequences to those choices and when we amped up the energies, they came back on ourselves.

- Which is why Socrates said unless you hold to account all the issues that were not dealt with all the way back to Atlantis, they still exist, and that is what NESARA is about: things from the past have not been taken care of, technology has been stolen, underground bases built on the taxpayers' dime, they have usurped power and programmed the populace – Tag! We are it! These things need to be dealt with.

- Since 2003, they have been indicting, trying and convicting over 500,000 people – tells of a savant with close to 200 IQ yet with other handicaps – the person was put in prison and other things happened

– he was in solitary for 27 years; the lawyers were on Amy Goodman's show telling of what happened – the person wanted one hour a week of exposure to the sun – been asking for 10 years and has been refused in a Florida prison – no clothes, no bed clothes, given food to eat with his fingers! What is going on?

- This is the reptilian takeover: they completely deleted their 12th strand of DNA so they have no emotions

- This is a tall order and Obama opened up a Pandora's Box tonight:

- when Rama talked to the Andromedan lady today in Santa Fe, she said whether it looks that way or not, if we played the interviews with people, we'd now how impactful this action would be – like the young lady from Arizona who could not go to her grandmother's funeral because she is undocumented even though she has 3 degrees. Because the energies are so increased now and because we are working with the 5th dimensional frequencies in groups around the world – 2/3rds of the time we call linear time is filled with light and the 5th dimensional consciousness.

- Tara gives her background leading up to her 5 year stint with the World Symposium of Humanity – April 7 – 14th, 1979; those 8 days set the stage for the teachings of the new age of enlightenment to seep into the consciousness of the world.

- In all, she has been working in this field for 40 years – started in 1974 and even earlier.

- We are actually in 2016 now, and have been since August 18th!

- The elders said it would take plus or minus 50 years for that consciousness to fully manifest.

- this requires that for those who are moving higher to leave others behind because the gap gets to be just too wide.

- the power of our communication with love is making a stronger and stronger impact now.

- In 1859, when they changed the name of the constitution, they thought they would take over but they are not winning; they have lost in spite of what it looks like. And people are beginning to say this does not feel good!

Today, the YouTube site, SecureTeam received this video and testimony from one "Ken," claiming to work as a "US Government astronomer," at an agency that he would not identify, except to say that he worked at one of the observatories on Mauna Kea, in Hawaii.

While investigating unprecedented major storm activity on the far-flung planet Uranus, he claims to have unexpectedly discovered a celestial body that is tremendous in size and which he claims is currently in the process of entering the Outer Solar System.

He'd previously observed what appeared to be perturbations the magnetic fields surrounding both Uranus and Saturn.

He demonstrates how when he went to investigate distortions enveloping the ringed gas giant, Saturn and enhanced the telescope's photograph, he was thunderstruck, when a massive celestial body, much larger than either Saturn or Jupiter was revealed.

This body may be the long-sought-after brown dwarf companion to our Sun, theorized to exist by several respected astronomy professors, such as University of California, Berkeley's Dr. Richard Muller and Dr. Luis Alvarez, University of Louisiana's Dr. Daniel Whitmire and New York University's Dr. Michael Rampino, among many others. It's sometimes called "Nemesis," due to its hypothesized role in dislocating the orbits of comets and asteroids, which have led to major impact events on Earth, causing mini Ice Ages and major mass extinction events in the past.

NASA's Earth-orbiting Wide-field Infrared Survey Explorer Telescope ("WISE Mission"), launched in December 2009, and placed in hibernation in February 2011 would have been able to detect "Nemesis," aka "Planet X" if this ominous celestial body were as close as "Ken" appears to suggest but to the chagrin of the abovementioned university professors, NASA claimed to have searched for the elusive brown dwarf but denied detecting it, prior to putting the telescope into "hibernation."

Brown dwarves are speculated to be more numerous than stars because they do not give off light or much in the way of heat, as most maintain the temperature of a cup of tea. This would make them exceedingly difficult to detect, until they are right up on you, I suspect.

Many, such as former CNN Science Features Producer, Marshall Masters speculate that NASA has been withholding information about the approach of a large "Red Planet" i.e. "Planet X," i.e., "Hercubus" a.k.a. "Barnard's Star," which is apparently part of the star system of Tylo, which interacts with our own and that this large celestial object has been visible to the naked eye, from bases in Antarctica for a few years, already.

So many names, so many theories - but underlying all of them is that its brush with our Solar System will be catastrophic, and it be the cause of the end of our Age, clearing the way for a new Epoch.

The disruptions to the Earth would be so overwhelming and beyond the control of any government, that all information about its imminent effects are being suppressed, which may be the reason why astronomer, "Ken" claims here, that he could be "arrested or lose his job" for sharing these images, which he says he captured from his work station with his cellphone camera, as all activities on the computer network at his

observatory are heavily monitored.

This same object may or may not correspond to what some people believe to be the "planetoid Nibiru," referred to in ancient Sumerian cuneiform texts and myth and popularized in the 20th century, by controversial author, Zechariah Sitchin.

According to Sitchin, Nibiru is a planetoid with a highly-elliptical 3,600-year orbit around the Sun. More importantly, Nibiru is the home of the extraterrestrial civilization of the Annunaki, who originally hybridized the human race (Homo sapiens) by splicing the DNA of Homo erectus with some of their own DNA, to create a slave race to mine gold for them, some 500,000 years ago.

Allegedly every time their planetoid makes a close approach to Earth, the Annunaki cause mayhem for their creations.

On Sitchin's part, Nibiru is not scheduled to make its next approach to Earth for another 600 years or so.

SecureTeam promises that there will be a "Part 2" to "Ken's" alleged expose' - but it doesn't necessarily endorse its veracity, exhorting to viewers: "You decide."

Remarks by the President in Address to the Nation on Immigration

The White House
Office of the Press Secretary
For Immediate Release
November 20, 2014
Remarks by the President in Address to the Nation on Immigration

8:01 P.M. EST

THE PRESIDENT: My fellow Americans, tonight, I'd like to talk with you about immigration.

For more than 200 years, our tradition of welcoming immigrants from around the world has given us a tremendous advantage over other nations. It's kept us youthful, dynamic, and entrepreneurial. It has shaped our character as a people with limitless possibilities — people not trapped by our past, but able to remake ourselves as we choose.

But today, our immigration system is broken -- and everybody knows it.

Families who enter our country the right way and play by the rules watch others flout the rules. Business owners who offer their workers good wages and benefits see the competition exploit undocumented immigrants by paying them far less. All of us take offense to anyone who reaps the rewards of living in America without taking on the responsibilities of living in America. And undocumented immigrants who desperately want to embrace those responsibilities see little option but to remain in the shadows, or risk their families being torn apart.

It's been this way for decades. And for decades, we haven't done much about it.

When I took office, I committed to fixing this broken immigration system. And I began by doing what I could to secure our borders. Today, we have more agents and technology deployed to secure our southern border than at any time in our history. And over the past six years, illegal border crossings have been cut by more than half. Although this summer, there was a brief spike in unaccompanied children being apprehended at our border, the number of such children is now actually lower than it's been in nearly two years. Overall, the number of people trying to cross our border illegally is at its lowest level since the 1970s. Those are the facts.

Meanwhile, I worked with Congress on a comprehensive fix, and last year, 68 Democrats, Republicans, and independents came together to pass a bipartisan bill in the Senate. It wasn't perfect. It was a compromise. But it reflected common sense. It would have doubled the number of border patrol agents while giving undocumented immigrants a pathway to citizenship if they paid a fine, started paying their taxes, and went to the back of the line. And independent experts said that it would help grow our economy and shrink our deficits.

Had the House of Representatives allowed that kind of bill a simple yes-or-no vote, it would have passed with support from both parties, and today it would be the law. But for a year and a half now, Republican leaders in the House have refused to allow that simple vote.

Now, I continue to believe that the best way to solve this problem is by working together to pass that kind of common sense law. But until that happens, there are actions I have the legal authority to take as President — the same kinds of actions taken by Democratic and Republican presidents before me — that will help make our immigration system more fair and more just.

Tonight, I am announcing those actions.

First, we'll build on our progress at the border with additional resources for our law enforcement personnel so that they can stem the flow of illegal crossings, and speed the return of those who do cross over.

Second, I'll make it easier and faster for high-skilled immigrants, graduates, and entrepreneurs to stay and contribute to our economy, as so many business leaders have proposed.

Third, we'll take steps to deal responsibly with the millions of undocumented immigrants who already live in our country.

I want to say more about this third issue, because it generates the most passion and controversy. Even as we are a nation of immigrants, we're also a nation of laws. Undocumented workers broke our immigration laws, and I believe that they must be held accountable — especially those who may be dangerous. That's why, over the past six years, deportations of criminals are up 80 percent. And that's why we're going to keep focusing enforcement resources on actual threats to our security. Felons, not families. Criminals, not children. Gang members, not a mom who's working hard to provide for her kids. We'll prioritize, just like law enforcement does every day.

But even as we focus on deporting criminals, the fact is, millions of immigrants in every state, of every race and nationality still live here illegally. And let's be honest — tracking down, rounding up, and deporting millions of people isn't realistic. Anyone who suggests otherwise isn't being straight with you. It's also not who we are as Americans. After all, most of these immigrants have been here a long time. They work hard, often in tough, low-paying jobs. They support their families. They worship at our churches. Many of their kids are American-born or spent most of their lives here, and their hopes, dreams, and patriotism are just like ours. As my predecessor, President Bush, once put it: "They are a part of American life."

Now here's the thing: We expect people who live in this country to play by the rules. We expect that those who cut the line will not be unfairly rewarded. So we're going to offer the following deal: If you've been in America for more than five years; if you have children who are American citizens or legal residents; if you register, pass a criminal background check, and you're willing to pay your fair share of taxes -- you'll be able to apply to stay in this country temporarily without fear of deportation. You can come out of the shadows and get right with the law. That's what this deal is.

Now, let's be clear about what it isn't. This deal does not apply to anyone who has come to this country recently. It does not apply to anyone who might come to America illegally in the future. It does not grant citizenship, or the right to stay here permanently, or offer the same benefits that citizens receive — only Congress can do that. All we're saying is we're not going to deport you.

I know some of the critics of this action call it amnesty. Well, it's not. Amnesty is the immigration system we have today — millions of people who live here without paying their taxes or playing by the rules while politicians use the issue to scare people and whip up votes at election time.

That's the real amnesty — leaving this broken system the way it is. Mass amnesty would be unfair. Mass deportation would be both impossible and contrary to our character. What I'm describing is accountability — a common-sense, middle-ground approach: If you meet the criteria, you can come out of the shadows and get right with the law. If you're a criminal, you'll be deported. If you plan to enter the U.S. illegally, your chances of getting caught and sent back just went up.

The actions I'm taking are not only lawful, they're the kinds of actions taken by every single Republican President and every single Democratic President for the past half century. And to those members of Congress who question my authority to make our immigration system work better, or question the wisdom of me acting where Congress has failed, I have one answer: Pass a bill.

I want to work with both parties to pass a more permanent legislative solution. And the day I sign that bill into law, the actions I take will no longer be necessary. Meanwhile, don't let a disagreement over a single

issue be a dealbreaker on every issue. That's not how our democracy works, and Congress certainly shouldn't shut down our government again just because we disagree on this. Americans are tired of gridlock. What our country needs from us right now is a common purpose — a higher purpose.

Most Americans support the types of reforms I've talked about tonight. But I understand the disagreements held by many of you at home. Millions of us, myself included, go back generations in this country, with ancestors who put in the painstaking work to become citizens. So we don't like the notion that anyone might get a free pass to American citizenship.

I know some worry immigration will change the very fabric of who we are, or take our jobs, or stick it to middle-class families at a time when they already feel like they've gotten the raw deal for over a decade. I hear these concerns. But that's not what these steps would do. Our history and the facts show that immigrants are a net plus for our economy and our society. And I believe it's important that all of us have this debate without impugning each other's character.

Because for all the back and forth of Washington, we have to remember that this debate is about something bigger. It's about who we are as a country, and who we want to be for future generations.

Are we a nation that tolerates the hypocrisy of a system where workers who pick our fruit and make our beds never have a chance to get right with the law? Or are we a nation that gives them a chance to make amends, take responsibility, and give their kids a better future?

Are we a nation that accepts the cruelty of ripping children from their parents' arms? Or are we a nation that values families, and works together to keep them together?

Are we a nation that educates the world's best and brightest in our universities, only to send them home to create businesses in countries that compete against us? Or are we a nation that encourages them to stay and create jobs here, create businesses here, create industries right here in America?

That's what this debate is all about. We need more than politics as usual when it comes to immigration. We need reasoned, thoughtful, compassionate debate that focuses on our hopes, not our fears. I know the politics of this issue are tough. But let me tell you why I have come to feel so strongly about it.

Over the past few years, I have seen the determination of immigrant fathers who worked two or three jobs without taking a dime from the government, and at risk any moment of losing it all, just to build a better life for their kids. I've seen the heartbreak and anxiety of children whose mothers might be taken away from them just because they didn't have the right papers. I've seen the courage of students who, except for the circumstances of their birth, are as American as Malia or Sasha; students who bravely come out as undocumented in hopes they could make a difference in the country they love.

These people — our neighbors, our classmates, our friends — they did not come here in search of a free ride or an easy life. They came to work, and study, and serve in our military, and above all, contribute to America's success.

Tomorrow, I'll travel to Las Vegas and meet with some of these students, including a young woman named Astrid Silva. Astrid was brought to America when she was four years old. Her only possessions were a cross, her doll, and the frilly dress she had on. When she started school, she didn't speak any English. She caught up to other kids by reading newspapers and watching PBS, and she became a good student. Her father worked in landscaping. Her mom cleaned other people's homes. They wouldn't let Astrid apply to a technology magnet school, not because they didn't love her, but because they were afraid the paperwork would out her as an undocumented immigrant — so she applied behind their back and got in. Still, she mostly lived in the shadows — until her grandmother, who visited every year from Mexico, passed away, and she couldn't travel to the funeral without risk of being found out and deported. It was around that time she decided to begin advocating for herself and others like her, and today, Astrid Silva is a college student

working on her third degree.

Are we a nation that kicks out a striving, hopeful immigrant like Astrid, or are we a nation that finds a way to welcome her in? Scripture tells us that we shall not oppress a stranger, for we know the heart of a stranger — we were strangers once, too.

My fellow Americans, we are and always will be a nation of immigrants. We were strangers once, too. And whether our forebears were strangers who crossed the Atlantic, or the Pacific, or the Rio Grande, we are here only because this country welcomed them in, and taught them that to be an American is about something more than what we look like, or what our last names are, or how we worship. What makes us Americans is our shared commitment to an ideal — that all of us are created equal, and all of us have the chance to make of our lives what we will.

That's the country our parents and grandparents and generations before them built for us. That's the tradition we must uphold. That's the legacy we must leave for those who are yet to come.

Thank you. God bless you. And God bless this country we love.

When all is said and done, it seems that, before we, as members of a global society, can progress we all have to change our minds about a lot of very important issues. And the planets are about to make it very easy for that to happen, politics and all.

Change the Hard Way . . .

The aspects that caused almost a decade of world turmoil are rapidly passing. Only a hint of their sharp, harsh, seismic influence remains. The lingering Uranus/Pluto square, will be exact twice more, in mid-December and mid-March.

These aspects brought a long series disruptive and deeply stressful events. Some saw these events as a call to change and reform. Many more responded with negativity - denial, anxiety, fear, resentment and anger, even desperation. And a determination to block change and reform at all costs.

This widespread negativity engendered a politics of defiance, obstruction and confrontation. Minds closed, opinions hardened. Negotiation failed.

The world settled into a prolonged period of sharply polarized, fiercely confrontational politics. Around the globe, political, economic and social instability mounted steadily as issues remained unresolved.

A new astrological/energetic system is now almost in place. It will bring heightened positive synchronicity, which will support and empower us. More importantly, perhaps, it will support a change in our thinking, which in turn will bring a welcome change in our politics.

On a practical level, people will find solutions; they will find ways forward. Dark moods will gradually lift. The intense, persistent negativity will subside. And so will the sharp, confrontational politics of recent years.

Political deadlock will end. The great global stalemate between conservative and liberal, or progressive, forces will give way to progress across a broad range of issues.

More and Darker Political Storm Clouds, or Not.

As noted, the harsh aspects responsible for recent turmoil are rapidly passing out. Only relatively faint traces remain. Sadly, many, including the media and many political leaders, choose to base their expectations for the future on these dark but fading echoes. And they pander to others who do so.

So we get situations like the following:

In the US, conservative forces won an overwhelming electoral victory - based on the lowest electoral turnout in 72 years(!). Apprehensive progressives are bracing to fight off an aggressive hard right legislative agenda.

At best, progressives anticipate a prolonged and painful confrontation between the conservative majority and the liberal minority in Congress: two more years of ever more bitter deadlock and a long string of frustrating and humiliating defeats for progressives. At worst, they fear a rollback of nearly a century of progressive reform.

I cannot say there won't be some of that. There almost certainly will be, and probably more than

almost anyone would like. But the astrological charts justify far brighter expectations over time. Not understanding that is a mistake.

. . . Change the Easy Way

In December, Saturn will move into Sagittarius, contributing to a dramatic, ongoing shift in astrological conditions. (I discussed this energy shift here <<http://on.fb.me/1qLlxfw>> with relevant observations here <<http://on.fb.me/1pEJxRX>>).

The conditions coming into full force in mid-December will, increasingly, support *relatively* smooth change, political and otherwise. As the political fires of the past burn themselves out, these astrological conditions will help lay the foundation for a very different, better, almost forgotten kind of politics.

Sagittarius and Pisces - Saturn and Neptune - A Flood of Mutability - Ideas Will Change

Sagittarius and Pisces are both mutable signs.

Neptune is the planetary embodiment of mutability. Pisces is its home sign. Neptune rules Pisces, the most mutable of the mutable signs. Neptune in Pisces is a most abundant possible source of mutable energies.

Saturn will be in Sagittarius, another mutable sign. With Saturn expressing through Sagittarius while Neptune expressing through Pisces, the Zodiac will be awash in mutable energy.

Mutable energy is very mental stuff. It works powerfully against inflexible, rigid ideas, and division. The incoming energies, then, will almost certainly break down the ideological polarization of recent years, and rapidly so. It will, thereby, powerfully undermine the politics of denial, obstruction and confrontation.

Neptune's long transit of Pisces will soften primarily religious, spiritual ideas. It will make them more responsive to pressure for change. It will reinvigorate spiritual and religious thought, infusing it with idealism and imagination.

Saturn in Sagittarius will affect primarily philosophical, political and economic ideas - ideological systems, basically. Saturn will also demand attention to detail, sound reasoning, clear cut decisions and concrete results. With Saturn comes non-stop reality testing.

These mutable energies will affect everyone, softening the edges of everyone's opinions. They will slowly but surely remove all barriers to reasonable compromise in all areas of life, including the political realm. The quality and productivity of public debate will improve dramatically.

As a result, the center of gravity of public debate, both religious and secular, will shift slowly but surely toward the center.

Reason Balanced with Inspiration

Saturn in Sagittarius will form a square relationship to Neptune in Pisces. An ideal blend of reason and inspiration, flexibility and rigor will emerge.

Business and politics as usual will be suppressed as leaders on both sides of the ideological divide work to meet demands for more reasoned and realistic - more moderate - politics. Saturn in Sagittarius square Neptune in Pisces will simply not support the aggressive pursuit of a hyper-partisan agenda in politics or any other area of our lives.

Some, exploiting Neptune's more seductive, deceptive, illusory, inflammatory side, will resist Saturn's call for calm, reasoned deliberation. But the odds will be against them, long-term.

With all the mutable energy at work, people will scarcely be able to avoid softening their positions and changing their minds. Few could successfully or for long resist such a massive shift in astrological energies.

We need to factor all this into our expectations for the future, now. For example, in the US, the flood of mutable energy will more than likely head off or foreshorten the bitter, hyper-partisan collision many progressives reasonably anticipate. People, including conservatives themselves, will question conservative ideas much more closely.

With Saturn in the mix, people will develop a better understand their real needs and the disastrous side-effects of extremist policies.

People will slowly break away from the extremes under the combined influence of Saturn in Sagittarius and Neptune in Pisces.

The era of apocalyptic political confrontation that some anticipate will most likely never come. Or, if it does, it will be relatively brief and mild, decidedly unapocalyptic.

The new, more supportive energies will not simply bring another "swing of the political pendulum." It will not suddenly return power to liberals for yet another cycle of deadlock and bitter confrontation.

It will, rather, bring a fundamental shift in the political dynamic, creating a basis for genuine, fruitful negotiation and compromise.

But there is more.

Surging Synchronicity

Saturn's move into Sagittarius on December 23rd will complete a broad but powerful Grand Trine relationship between Jupiter in Leo and Uranus in Aries. This relationship will stay in effect until mid-August of 2015. It will usher in an era of high positive synchronicity.

These broad but robust supportive aspect will motivate and enable constructive change. They will create pathways forward where none existed. Many of us have plans for the future and we are slowly working through them. However, we are forever encountering obstacles and running into dead ends. These new aspects will change that. Options will appear where there were none before.

This broad Grand Trine in fire signs will help people make the connections needed to advance their lives. It will bring successes that help dissipate the frustration, anger, fear, and resentment that feeds the politics of negativity and extremism.

This astrological engine of positive synchronicity will combine with the transformative effects of the mutable energy to create conditions perfect for the emergence of a very different kind of politics.

I communicate with many people and most report continuing improvement in their situations.

I think we will all see and feel evidence of this improvement very soon. However, it will take time to fully play out.
