HARD NEWS

R: Wave X is ramping up, he feels it; watching what is happening on the streets – becoming crystalized, polarized

- Going to try and play with CERN on the 15th to counter act Wave X which is energy from the Centre of the Universe which is Mother: no machine in the universe can create this energy, and it cannot be stopped.

T: asking if the Mind of Light, the Hunab Ku, is the Centre of the Universe?

R: Wave X is bringing everything to the surface – even the story of flight 370; they are alive and well, probably in the 1st year of Starfleet Academy

R talked to LM Nada [?] today: what is happening across the planet is the absolute abuse of power by the 13 families; the next evolutionary leap is Wave X bringing in the 5th element

T: can see that abuse of power in Greece

- Merkel stole 14 airports and gave them to Germany; all the commercial tourism stuff is being stolen; the ship ports, islands and lands are being stolen too
- Heard on NHK Greece needs the loan so badly but they cannot swing it: it's so austere, it's murder in no uncertain terms

Greg Palast on Thom Hartmann

- Paul "the vulture" Singer wants to steal \$ 3 Billion from Argentina – he controlled the destruction of Argentina in 2002; got a judge in NY to go along with it
 - Citibank and JP Morgan calling him a scoundrel – he's really bad then! It's hysterical! If he were to demand \$ 3 Billion from Argentina, would take that country down.
 - He's like the guy in the helicopter pulling the pin on the grenade and saying I'll take you all down with me if you don't pay me!
- He's called "the blood sucker"! He hung out with Mitt Romney – took the companies which were in trouble, bought them up, fired all the people, sent the companies to China
 - when Detroit, GM had to be bought back up – he made billions on that deal

REMINDER: whoever the president is, he has no power: when the Republicans are in power, they are happy to do the biddings of the 13 families so it looks like they are in control: they love it and that's why Bush got away with things!

POLLS: Bernie now getting more than Hillary in the New Hampshire polls;

- Al Jazeera is saying it is NOT A SHOO IN that Hillary is the nominee – the people want a really progressive nominee now
- Now trotting out Uncle Joe – he's still thinking about it. He ordered 9/11 as the sitting head of the Senate Committee on Foreign Relations – he got his orders from Cardinal Egan and then ordered George Tennant to do 9/11
 - The true teachings of Magdalene & Jeshu is not what is being taught today – the equality of the feminine: the issue today is the inequality in the male/female relationship: the receiving part is the feminine and we have to practice the art of giving by opening the heart and risk that you can help your neighbour. Share whatever you have is also the deal – the idea that we were created as social beings will be recognized again.
- Teeangan **city in China** is the 10th largest port in the world, not very far from Beijing port which is inland – the place that blew had cyanide stored in it – 700+ injured; several firemen dead – had very young firemen go there
 - Reminds her of the Dome fire in 1990 in Los alamosArea 51 – the first 100 men there were the senior firemen who left and said it was a nuclear fire and oozed green fire: they would not take part – so they got all the young rookies from outlying areas to come and fight the fire: the diagnosis is probably not so good.

Cuba: the US flag will be raised on the US embassy; the same US marines who lowered it in

1961 are returning with Sec John Kerry to raise it.

- Obama said the best way to face difficulties and disagreements with a neighbour is to engage – as Captain Pickard would say: engage! Have ended 5 decades of embargo status
- One of the bad things said of Obama: one of the Oathkeepers – Alex Jones is a racist and hates Obama and is coming up with outrageous lies, like the amount of holiday time Obama has taken. Alex Jones has the Oathkeepers coming to Ferguson to protect him and his people when he comes to report! They carry the same kind of automatic weapons that US soldiers used in Iraq – what's wrong with this picture?
- As T watched different alternative shows: the young black kid who was shot still in hospital in critical condition.
 - When the picture of “Michael Brown” in the drug store was showed: IT WAS NOT HIM – IT WAS SPLICED IN TO LOOK LIKE HIM.
 - there is nothing about the young kid shooting anyone – **no evidence**
- Another story about a white kid being shot dead - 19 year old in South Carolina; the policeman said he was afraid he'd be run over – family did their own autopsy – found the bullet entered in the posterior in the back and comes out the front; he shot the kid from the window side of his car – so it could not be that the cop could be run over!
 - This is a white on white murder – a kid killed for being stopped. They said they found white powder – intimating he had drugs – the parents admitted he had issues with drugs but was working through them, and he was just sitting there in his car

El Nino: a warming weather pattern. Worst one in 1997 – 98. Usually comes in fall or winter;

- Occurs every 2 – 7 years – expecting one this year.

The shade balls: putting them in acquifers in CA – repels UV light from the sun; stops evaporation, the plastic has Phoenal A is it and there will be Phoenal A in the water but they won't talk about it

Four Corners – the spill – The King Gold Mine dumped 3 trillion tons of toxic waste: cadmium, arsenic, lead plus other went into Concrete Creek which emptied into the Animas River, considered sacred to the Dene, Apache, also the Utes - they live along the river and are farmers – means there is absolutely no water!

- the toxic stuff goes to the bottom of the river and the Animas goes into the San Juan river which empties into Lake Powell which is full of fish which eat what comes from the plankton meaning all the toxins will go into the fish; it is the water for 7 states! Will take decades to be cleaned.
 - Blaming the EPA – they are outsourcing jobs to Environmental Restoration LLC – these corporations do not do their job unless they make money – which comes from the EPA which is the people
 - this stuff was stored for years; 11 trillion tons are made and stored EVERY YEAR!
- The **original law was made in 1872** under Ulysses S. Grant and it has **never been updated**; mine owners can mine with no responsibility for mining waste!

Syria: an airforce base in Syria now being used by US planes so they can strike ISIL in Syria

- trying to blame ISIL for gassing the PKK, the Kurds who are getting gassed
- Turkey has been bombing and killing the PKK, the Kurds **in Turkey** ; the Kurds are nationalists who want their country back -there are 22 million Kurds in Turkey,
 - 5 million in Syria, 2 million in northern Iraq; Kurds have 8% of the seats in the Turkish parliament which means they are killing their own people!! No different than the killing of people of colour in the US!!
- Turkey gave that base to the US as a cover so they can kill the Kurds – not interested in killing ISIL as the ISIL are going after Al Assad, and they want to see Al Assad gone

- There is extreme corruption in police force in the town where the white on white crime took place

Yemen: UN on the verge of declaring a famine in Yemen

- A UN correspondent for the NY Times said it is a **FORCED FAMINE: it's the US** so-called ally Saudi Arabia; this is going on because the Saudis don't want any democracies or beginning democracies anywhere on their borders; that's been their goal all along.

Guatamala: the police are beating the teens almost to death – horrifying!

- We are at the very end of a not so pretty story!!!!!!!!!!!!!!!!!!!!

Lady from New Mexico: on Thom Hartmann today

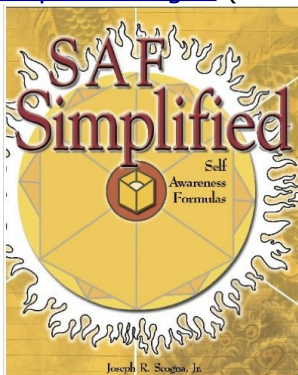

- talking about the stuff getting into the river at the Four Corners
- all their water is contaminated: **none for farms, animals, watering crops, people**
- REPUBLICANS WANT TO REDUCE THE FUNDING TO THE EPA when they need to increase the funding and make the mines see to the disposal of the toxic waste [law has to be brought up to date!!!]

GUEST: Dr Kathy Jerore – a naturopath in suburban Detroit area, Michigan

- has been working since the late 90s with the SAS program;
- Marietta has had Kathy Scogna on before talking about the computer programs of Joe Scogna, her husband, now passed; the Self Awareness Formulas

Saf Simplified 1st Edition

by [Joseph R. Scogna](#) (Author), [Kathy M. Scogna](#) (Editor), [Nicholas Scogna/various](#) (Illustrator)

This book is for anyone who wants to increase self-knowledge, for stress processors, emotional release workers, addictions counselors, psychologists, biofeedback practitioners. Organs and glands and dragons - here is a simplified version of the Self Awareness Formulas (SAF) but with all the organ and gland information necessary to help the new student of SAF. Throughout the book, we learn how the mind works, and how long forgotten traumas can affect our behavior in the present time. The program and book will guide you. In no time, you'll be working on your SAF chain of numbers and increasing your awareness level regarding your health, your life or your business. How is this possible? How can one method cover so

much territory? Using a special formula, SAF presents us with a new view on our problems and traumatic situations. Once an SAF numerical chain is created through LifeEnergyResearch.com, it can be read as a grammatical sentence of a trauma, a slice of life so to speak, to bring about greater understanding for yourself and others. When we can put two and two together about a traumatic event in our lives, we experience a release of energy (an A-ha!). With that spark of understanding, our mind becomes more clear. The results using the SAF method are phenomenal and consistent! It's an enlightening process and fun to learn! With the secrets of the SAF project, you'll learn to face your dragons. Thousands of people have used the SAF method of self awareness through practitioners' offices. It is now available to the general public in the easy to understand format found in SAF Simplified.

- Kathy explains how the work of finding energy imbalances is done eg: problem in the kidneys can lead to other things which are what gets looked at first
- our mental emotional state is a big piece of our physical issues – using the

- Joe Scogna wrote **The Threat of the Poison Reign**, which is even more relevant now. It's about all kinds of poisons: radiation, LMFrequencies and so on. **[SEE BELOW]**

- explains how the systems work
- goes through environmental and find out what is affecting people; uses homeopathics

Potential costs: - just a guideline

- \$100 - \$125 / session; she takes about an hour: her special to listeners of this program is \$75 – just mention that if you call
- Around \$20 for each homeopathic; supplements can be purchased from a health food store in caller's own locality
- T brings up issues with fish oils: could be rancid; also depends on where they come from
- Kathy does her utmost to make sure what she gets is as good as it can be; also, we get what we pay for – cheaper is not always better.
- What people need varies from person to person; she used to own a health food store and would line up the different brands of products requested by a customer: what resonated with one customer by means of muscle testing would not with another.
- People come to her when the discomfort increases to the point of having to do something; or when medications don't work [doctors will just change to another and that may not work either – just pile them on; when people come to her, she tests for what is needed]
- her remedies have 5 benefits, not 5 effects!

T: the description of what is happening to the Yemeni People: 80% are in forced famine mode

- not just the Saudi Arabians, but also people from the UAE – taking over Houti land
- As Castro has been an asset of the CIA from the beginning: it is the CIA ordering things around, not the Castros doing things of their own will – same thing happening in Yemen
- there are stargates throughout Yemen – the people get no access to these

Citizens Divided Debate - David Cobb v. James Bopp

Story from last night: a 2 hour piece – transcribed some of it:

- Lewis Powell is the one who made libertarians go and also corporations
- This whole debate goes into the meaning of democracy, what corporations are & can do
- The sacred act of self-determination is lost to the corporations – these were court-created doctrines that are illegitimate!!!! Talking about corporations being treated like a person with constitutional rights because of the Citizens United decision & 2 decisions before that
- we are turning elections into auctions: we are not longer involved in a conversation where we the people are actually debating among ourselves.
- These are political questions, not constitutional law questions

The Threat of the Poison Reign: a treatise on electromagnetic pollution
The Threat of the Poison Reign is a "must have" for anyone concerned about electronic smog and nuclear proliferation, for nutritionists and therapists working with diabetes, hypoglycemia, alcoholism, and obesity. It contains essential information that we need to pass on to our children and grandchildren.

When the Atomic Age was ushered in, on its heels came greater understandings of life on a quantum level. The insights Joe Scogna gained through physics and classical radiation research opened the gates to the intricate and interwoven fabric of the human body, mind, and spirit. Using sensors, frequency counters, and his own abilities, Joe was able to perceive and evaluate the energy fields and protective mechanisms in and around human beings. He identified this field as the Electroplasmic Field (EPF). Known by many names (human energy field, aura, quantum body, Chi, life force, vital force, prana) Joe's research shows this protective field can balance positive and negative waves as it creates balance and stability for humans.

This book describes the methods and devices that have been used since the early 1800s to define this field, including the Wheatstone bridge, kirlian photography, applied kinesiology, and in the last century, with Scogna's use of infrared detectors to read our subtle energy.

Of particular importance for students of the Self Awareness Formulas (SAF) is the listing of the organ degradation that occurs when too much radiation enters the system. Joe called this the Primary Sequence and led to his realization of a Secondary Sequence of degradation such as we find in the SAF numbering system.

The reader will discover the Radiation Test is unparalleled for symptom identification and for finding what organs and glands are currently stressed the most. The Radiation Cocktail of helpful nutrients and foods, and Detoxification Program are being used worldwide in clinics and homes. It is an easy regime to follow, with nutrients and foods available at local stores.

Table Of Contents:

Chapter 1: History of Radiation, classical studies

Chapter 2: An Analysis of Atomic Structure and Motion (transmutation of elements, quantum theory)

Chapter 3: Nuclear Bombs and their Effects (organ degradation)

Chapter 4: Physiological Response to Electromagnetic Pollution (diabetes, hypoglycemia, obesity, alcoholism)

Chapter 5: Electroplasmic Field (EPT or human energy field)

Chapter 6: Raising Awareness (National Radiation Test (SAF-120), hair mineral analysis, blood chemistry test, electromagnetic evaluations)

Chapter 7: Radiation Detoxification Program and Radiation Cocktail (helpful nutrients, diet, foods, herbs, use of heat, colonics, etc.)

"Joe Scogna had the genius for making what appears to be complicated more understandable. If you desire to learn more about the balance that exists in mind, body, emotions and spirituality, then this book and his other work will serve as excellent guides. The greatness of his dream was

to help empower a human being on his or her journey of awareness."

2015-08-11 The September 2015 Wave X Awakening

by [Zen Gardner](#) <http://www.zengardner.com/september-2015-wave-x-awakening/>

by Dr. Kathy J. Forti

[in5D](#)

I once had a media and communications professor ask a packed auditorium of journalism students the interesting question: "What is the singular factor that affects all of humanity? A factor that can start or stop wars? That can raise up civilizations or destroy them?" Not one student could come up with the right, yet so obvious, answer: Space Weather.

Almost 35+ years later, I still remember his words.

When I heard [Dr. Simon Atkins](#) recently talk about the "'[WAVE X shift of 2015](#)?' it made complete sense. Atkins is a well-known climate risk economist and planetary threat forecaster with a doctorate in Biometeo-electromagnetics. He uses the science of magnetism to bring clarity to what is presently occurring in our world.

Space weather not only influences, but guides humanity. Statistics show that when there are intense [solar flares](#) from space, 82% of the time there is a downshift in the stock market 1-3 days later. These same solar flare peaks are known to cause eruptions of violence between classes (sort of like the [full moon effect](#)). It's a natural phenomenon, but its all due to magnetic waves that ultimately affect every living organism on our planet.

On a positive note, when there are coronal mass ejections from the sun (CMEs), humans are more likely to experience euphoria, calmness and ultimately peace. CMEs are explosions of electricity and energy in the form of electrons and protons, according to [NASA](#). This magnetic energy that comes from our [Sun](#) (which is why the Ancients saw the Sun as the God Source) actually elevates [consciousness](#) levels. The Sun is the great benefactor. If you stay out of the Sun you quickly lose your connection to third eye consciousness. You also can experience depression and/or illness.

I experienced this first hand many years ago when I worked in a darkened lab doing altered states studies during daylight hours. I started not only getting oily skin and breaking out with facial eruptions (which I had never had), but I became quickly depressed. Something told me to take a few 15 minute breaks outside each day and just sit in the Sun. It was like a miracle cure. Like a [plant](#), we need light to thrive. Without it, it will lead to dysfunction, be it emotional and/or physical. It's a lesson I never forgot.

The BIG SECRET is the Sun is also connected to our evolutionary awakening. During the last half of September 2015, there is a powerful wave of gamma light coming from the Galactic Core. This intergalactic [WAVE X](#) energy will be coming through to Earth at maximum strength and peaking on September 28th. We are already well into it and feeling its effects. It happens every 3,600 years, and is being called "The Event Horizon." It is the next step in the evolutionary cycle of man.

As [reported by Time Magazine](#), scientists know about this event, but are questioning what these mysterious intergalactic bursts are or, more importantly, what they will bring. Change, for sure. It is no coincidence that in the last 18 months worldwide earthquakes have suddenly quadrupled as this energy is beginning to be felt more and more on the planet. The earth is doing strange things. People of all countries and even the media have [reported eerie sounding, and rather loud, groaning sounds](#) coming from the earth. Expect more in August as these are signs of dimensional portals opening in the earth itself, says Atkins. Intergalactic WAVE X is getting closer. This is no Armageddon scenario as many biblical adherents are predicting, but a time when our cellular DNA is able to shift and open up our true gifts.

In 1984-1985, [Dr. Peter Gariaev](#) and his team of Russian linguists were studying DNA and the ways light, sound and frequencies interact with DNA. Their research led to many groundbreaking and paradigm-shifting discoveries with one of them showing that DNA is able to absorb and emit light (photons), which spirals along the double helix in sacred geometrical form. Literally, [DNA](#) creates magnetized wormholes in the time-space fabric. DNA acts as "tunnel connections between entirely different areas in the universe through which information can be transmitted outside of space and time. The [DNA](#) attracts these bits of information and passes them on to our consciousness." The researchers found that with the presence of light (photons), [DNA activation](#) and thus evolution can occur.

This is the great awakening that has always been promised us. This is an incredible time to be alive to witness this shift. It does not pick favorites. It does not matter what race or religion you embrace. It is here for us all. We are the Oneness.

Some people believe that helpful [extraterrestrials](#) (ETs) are trying to slow down this planetary energy from being too much for us because this faster electromagnetic energy can cause some people to feel like they are going mad (it opens enhanced mind/thought patterns). Call it energy weirdness. It's no coincidence that [violence rates suddenly surged](#) in the US during 2015, after years of showing a decline.

This new energy is nothing to fear. We want this WAVE X energy. It serves to cleanse and help raise the consciousness of humanity. There are those who might disagree and are doing their best to suppress it. The [CERN](#) particle accelerator in Switzerland is ramping up to go full steam on August 15, hoping to stop this galactic energy. They've spent trillions of dollars for this very purpose. The dark forces behind CERN know this energy shift will spell the beginning of the end of control of the masses as it begins shifting DNA. Just imagine a world where a greater percentage of people are fully awakened than ever before. The 1% who have worked hard to enslave humanity for their own greed and benefit—well, their days are numbered.

Everywhere in our world we are now seeing the [awakening of humanity speed up](#). We are seeing massive rallies against corruption and rallies for peace spread. We are seeing tyranny, cover-ups and false flags exposed. And more importantly, we are seeing movements converging that offer

solutions to these issues the world faces. People's inner worlds of heart and mind are breaking free and we are seeing this have direct and positive impacts in our outer world.

If you talk to most people these days they all feel like something is getting ready to happen in the next month or two. Most don't know what it is, but they can sense it. Whether it be a global currency reset, financial collapse, civil chaos, more earthquakes, or something else—as a collective mass we are the precipice of a new world emerging. Trust that this is not the end. You may be feeling more tired than usual lately—like you just can't get enough restorative sleep. Maybe you've even taken to power napping—which is good. Take care of yourself. Your cells are already feeling the energy change. No sense fighting it. It will be interesting to see what emerges for us all.
