

# Exeter Library Exhibition Opportunity

Exeter Library and Art Week Exeter are offering the opportunity for 4 artists or artist-groups to exhibit work created for purpose in the ground floor display cabinets. Using the 'residency' model, where the work produced is inspired by the location, activity, contents and users of the Library, we would like submissions to detail your intended approach. It is important for the artists to remember that the Library has a wide demographic of visitors, so the artwork would need to be suitable for all ages, as well as being politically and religiously unbiased.

The *internal* measurements of the cases are approx: 560mm wide, 450mm deep and 1400mm high. The shelves are glass and can be moved within the cases or removed entirely giving a bit of flexibility on size.

Please use the attached form and send either a web link to previous work or attach up to 5 jpg files.

Submissions are open until 5pm, Friday January 27th. Exhibition will be for the duration of May and June 2017.

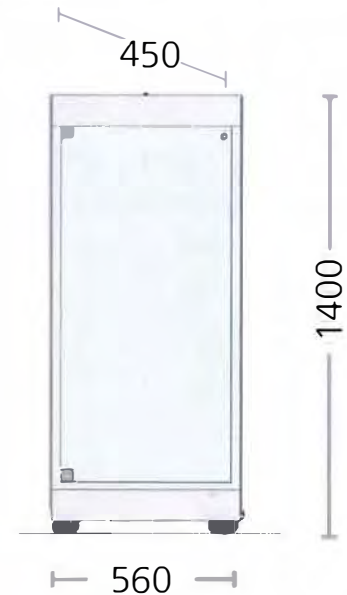

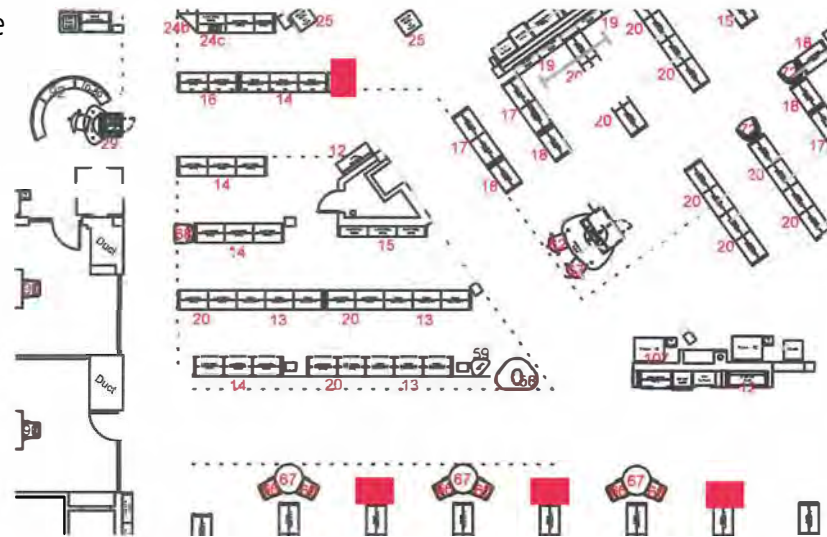

SPECIFICATION  
Total quantity: 4no.
