## HISTORY OF PRESENTING ILLNESS

The patient presented the history of ulcerated growth over left margin of base of tongue. Took radiotherapy for that with no marked improvements. Asthmatic attacks in cloudy weather, pain in legs better with pressure and decreased appetite. Fearful dreams, irritable and angered easily. Eggs aggravate and desire sweets and fats. Very thirsty with dryness of mouth. Body feels as is grasped or airs were filled in it.

## PAST HISTORY

On further enquiry, it was found that she had suppression of eruptions, asthma and erythema multiforme.

## FAMILY HISTORY

Not marked.
