1. Diagnoses and Targets Learning Gaps

Diagnoses and prescribes learning path for individual student's needs via comprehensive diagnostic exams.

2. Remediates – Just-In-Time

Allows teachers to provide day-to-day remediation for objectives students struggle to master – whether a single student or an entire class

3. Helps Teachers with Classroom Instruction – Every Day!

An always-on-demand teaching 'aide' for every objective and lesson and helps teachers reach every student's learning style

4. Helps Students Prepare for PASS Standards, SAT, ACT, and more

On-line, point-and-click correlations to all Oklahoma Standards, SAT, ACT, and more. Exam Skills and Objectives provide the most efficient, targeted exam preparation available in Oklahoma.

5. Remediates for PASS, PASS Standards, SAT, ACT, and more

On-line, electronic correlations make remediation fast, effective, and 'painless' for both teacher and learner

6. Provides Assistance for Special Education and Challenge for G & T

Up to grade 13 lessons in all subjects keep G & T students interested in learning and challenged, while assisting those students in special education an at-risk programs.

7. Mastery-based Learning - Students Don't Get Bored!

Students get 'credit' in every objective for which they demonstrate mastery and always spend learning time covering what they have not already mastered.

8. Able to Teach Courses

Can be used to teach English I, II, III, IV, Primary Math, Pre-Algebra, Algebra I, II, Geometry, Trigonometry, Biology, Chemistry, Earth Science, Physics, Culture, Economics, Geography, and History.

9. Use for:

Credit Recovery, Course Completion, Diploma Completion, Remediation, Gifted, Test Preparation, Independent Study, Core Curriculum, College Preparation/AP, and Outreach
