#### Hard News:

T; Poroshenko got the liver scared out of him today, and declared a peace

R: played with phone numbers and talked to the **King of Egypt**

- we are in final few nano seconds, the end of this cosmic story and the 1320 cycle we are in
- so many changes in the bodies, cells

**KOS:** these guys are gasping with their dying breath

T: Yesterday, Poroshenko was lying and on a killing spree, got a piece of news about the OSCE in Europe

– **no troops, no weapons, nothing crossing the border from Russia at all**

- also getting caught by the European sector who are acting like nothing happened
- the Paschats who can put one where the sun don't shine were involved
- a lot of denial going on in Washington, as Washington has overlords – as you want to talk to someone about E Ts means you get no recognition: can get killed for bringing up the idea
- a **Program called The Cost of News** – going over all the reporters killed in the US, Russia, and the African countries -
  - Matt Taibi, Naomi Klein and Nomi Prinz said that Michael Hastings was murdered: he had all the evidence about 9/11 in his hands which he received from the female Lawyer of Julian Assange
- Let's keep our Whistle blowers in the Circle of Support

**Thom Hartmann – Conversations with Great Minds** with Paul Stamets, Mycologist  
The planetary Healing powers of Mycelium

This is an important conversation! Mushrooms can help mitigate toxins, and all other kinds of negative effects on the environment and on our bodies.

<http://www.thomhartmann.com/tv>

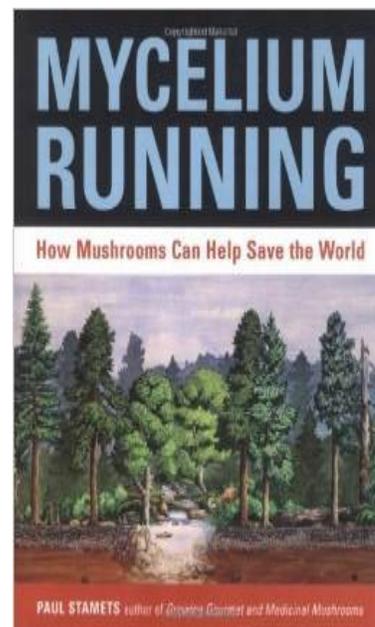

**Today's TV Show – September 5, 2014**

**CONVERSATIONS WITH GREAT MINDS: Paul Stamets, Fungi Perfecti / Mycelium Running: How Mushrooms Can Help Save the World**

. . . LIVE from D.C. starting at 7pm eastern

**Mycelium Running** is a manual for the mycological rescue of the planet. That's right: growing more mushrooms may be the best thing we can do to save the environment, and in this groundbreaking text from mushroom expert Paul Stamets, you'll find out how.

The basic science goes like this: Microscopic cells called "mycelium"--the fruit of which are mushrooms--recycle carbon, nitrogen, and other essential elements as they break down plant and animal debris in the creation of rich new soil. What Stamets has discovered is that we can capitalize on mycelium's digestive power and target it to decompose toxic wastes and pollutants (mycoremediation), catch and reduce silt from streambeds and pathogens from agricultural watersheds (mycofiltration), control insect populations (mycopesticides), and generally enhance the health of our forests and gardens (mycoforestry and myco-gardening).

In this comprehensive guide, you'll find chapters detailing each of these four exciting branches of what Stamets has coined "mycorestoration," as well as chapters on the medicinal and nutritional properties of mushrooms, inoculation methods, log and stump culture, and species selection for various environmental purposes. Heavily referenced and beautifully illustrated, this book is destined to be a classic reference for bemushroomed generations to come.

**Conference Call      NEW CONFERENCE LINE # - 860-970-0300, PIN 232323#**

**Reading:      2014, Sept 4    Obama is a Liar. Fake NATO Evidence. OSCE Confirms that No Russian Troops, No Tanks, have Crossed the Russia-Ukraine Border [SEE BELOW]**

- Basically, Observer Teams of the OSCE have seen nothing that proves Russia was providing military support of any kind.
- KOS said Obama lied in the speech he made in Estonia: but **he is in the midst of a nest of vipers!**
- NATO will disappear when NESARA is announced.

**China:** in July, ½ million students in the streets of Singapore; in September, will be a million – 17 – 19 years old, well-informed, strong-willed!

- They are complaining that main land Chinese mainland gov't picks 2 people to vote for the rest of the people – they want a direct vote! They intend for a democratic process and nothing less.

- The older people are very worried: how do you break the patterns of the way it has always been done in China?
- It is called NESARA NOW! Nothing is doing any good for any country!!!!

**A EURO** is now \$1.29; a week ago it was almost \$1.40 – a **rapid decline**.

- Add to this the fact that Poroshenko agreed to a peace agreement for no apparent reason – except perhaps a couple of Paschats!
- **Allende in France** is under 20% in popularity; he has stopped the sale of 2 ships to Russian and Putin gave him \$1.2 billion dollars!

**Ukraine:** The economy is a non-economy, and they are spending \$6 million a day

**Reading:** a new message from Ramtha

## **BBSRADIO2**

### **Mother Sekhmet**

Greetings in the Light of the Most Radiant One; in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germaine and the Violet Flame.

### **Greetings, Children of RA!**

- Things are moving extremely fast! She can say with great certainty this 1320 cycle is everything to do with our stories: our ship circling the sun has been seen! She can say with great certainty that it is so!
- **It is now** when we are being asked by our own Selves to active duty in these moments: this planet and us are one: we are all one; we breath the same air; we essentially eat the same liquid light as we are ONE
  - **This is the moment** that changes the timelines – what Rana Mu said to Rama today concerning this timeline which has to do with what our brother Ramtha has said: it is the time where, let's say, Mr Chocolate Billionaire is playing with the idea of nukes and the Ram is saying that energy . . .

- David Cameron thinks he is a tough guy! He is putting on a facade since these characters are in the realm of Lex Luther and the Red Skull – we have to understand they are pushing our emotional buttons: go build a bomb shelter and save enough food for the change
- That is not the answer: The answer is we are all one – we can with great certainty say – when the Captain gives the word, we decloak and your chiefs of staff need a new change of diapers: the tanks won't work and the nukes won't fly – it is you and me, honey, and we gotta talk about a little problem: you wear a schmekle on your back –
  - it is the dysfunction of the male sexual energy; it is the place where the male has been emasculated: the feminine has been put in the trunk, bound, gagged, raped – and the male understands, coming from the place of joining in that service,
  - it is a sham: what we must understand about this process called the military in this realm: they are no match for what she is and it is not up for discussion: it is how we heal this and that is the place we must go to as a civilization that wishes to take the next step as the 33<sup>rd</sup> member of the Intergalactic Confederation of Worlds.

It is in this moment that the timelines change and we are the ones that must do this; we volunteered a long, long time ago; – we remember, but most are still under the illusion of amnesia, yet are waking up to a harsh reality

- Yes, the Terminator has joined Robot cop – we have this in our law enforcement: “where are your papers, citizen? – we are at the place that if we are not toe-tagged and numbered, we don't get to eat; it is at the place where the phoenix rises out of the ashes – Rama saw 2 thunderbirds on You Tube – clear as day, they launched as a small Cesna plane - they were not pterydactyls, but **THUNDERBIRDS – a new reality:**

There is a difference between the ones who eat the red stuff called meat; we all eat liquid light in her realm, and this is the place we are going; in the next evolutionary leap in consciousness and our brothers across the aisle will simply cease to exist – cannot exist in a 1260 cycle when living in a 1320 cycle – That place where you and I are one is a new reality that they cannot take it.

- the next step is we step up to the plate: they are/we are all One – we move this forward and do it in a timely manner; that manner time is now and they know it and they cannot stand it as we approach the 9/11 day – and the only thing to do on that day is talk about the truth. We cannot give dates – never have, never will, yet it is about the reality we are in as Virgo steps up to the plate and we enter an Aquarius weekend
- an interesting dance as harvest approaches – we are going to have a visitor from Mars and this will be an interesting dance – **closer between Oct 3<sup>rd</sup> and Hallowe'en** – it is some of the original people who lived in the city of Helium, aka Cydonia on Mars – someone who knows Barack Obama?
  - Yes – it is HER name

**T:** is this one of the 3 visitors BO has been talking to?

**Mo:** cannot say, she represents the royalty of Mars; she can use a sword and a cross bow as the best of any of them – It is a great pleasure to say it would be a great pleasure to see her in the Oval Office; she has some wisdom to share with the people of earth: how to fix our water and our earth with a few chemical equations made out of the very atmosphere we breathe

- Dr Keshe is on the right track and he will perfect on it

- It is called the manna, the Buddha Mind of Tita Lacoria – it is what they feed the people of Gaza – enough to go around as we watch this passion play come to an end.
  - This time, Mr 19.5\* is the one to do it – he has the keys to the story; it is what he knows about Helium and the great alignment we are already in with our {Mother's} planet/ ship and it has to do with the return of the planet Nibiru and that we have come to collect our wayward children who are f\* inf scared shitless: they go to trial on Dracos, and then to the Dark Rift
  - first, they will stand trial on earth and we get to see their sorry asses in the naked sunlight like the vampires that are

- since we have been coming to this planet: we [Mother] have been here always, the ones who were here before the gods were here: it is about the mitochondria, the Force – like what we heard the man say: the mushrooms travel on the solar star field winds, on the solar flares – the spores can withstand the flares and travel across the universes; within their consciousness is all the wisdom: they are the floating cloud and we never have to worry about our data as it is always in the Cosmic Cloud - we have the key: the Cosmic Key Master
- story about this is simply that we are all Cosmic Key Masters, all the cells of this Temple of the Living God, that magical, that powerful yet we never give any thought to it. It is a joint effort in this within this organism that moves, has its being: We are all One: we are all one thought, one heart, one mind – that powerful! That is how we move this entire consciousness called Gaia / Vymaus - – and us along with it, whatever “you” , “me” represents in thought, light colour, sound is all that we are; in the next step we don't even have to articulate it

**T:** like Ramtha was saying, they can turn weapons on and off like flashlight; KOE said they know this over there

**Mo:** they got a couple of pairs of Twos and Ashtar has 3 aces! A bad situation for them – they got nothin'! Best to fold while you still can fold your hands!

**T:** this will show the people that this has been game of the haves and the have nots has just been that, a game and they have manipulated everyone, and now there is a higher power that can do it all

- Question: You and I know it takes education, it takes awareness, it takes a spiritual unity consciousness to have these kinds of powers and know how not to misuse and not abuse them

**Mo:** we are just learning that how powerful we are, and are just coming on line

**T:** and they will demonstrate that this is what they have the control of and over in terms of their ability to discern what amount of the medicine which will work without going beserk;

- the money that is coming: even us, we are going to be using the time to educate those who teach the teachers, and those who learn at those levels, and they will come to another light group that is prepared to learn from them, and then there will be another series of light cities where those who learn from the teachers teachers teachers will be prepared enough to teach those people - in the meantime, no guns

**Mo:** we are going to have to deal with the increase in frequencies if you have those kind of funny thoughts – it will get you and cause severe pain in the body

**T:** love is painful to that kind of energy,

**Mo:** It creates an imbalance; as everything is instant now, you can take yourself out with your own thoughts and it is not recommended:

- yet it is that real and is happening: it has to do with the great balancer going on between goddess and god
- Right now : we are feminine, masculine - it is not about parts, but it is about consciousness , of balls of lights that hold a resonance at 1320 cycle – since we are all here at this time

**T:** talking about a video from KOE – Have we heard this one before

**Mo:** NO – they did a ceremony about entering the cycle of 1320 [What Rama saw in the video]

- There is a one-pager for Tara to read “In 1987, 26 years of preparation began for the arrival of the new Mayan calendar of Cosmic time. Mayan elder Hunbatz Men called for . . . ]

**T:** can we be done with this suffering now? Give everyone so much Vitamin C [500,000 mg]and no more ebola!

**Mo:** In this moment, it is about the - as Brother Ramtha said, there has to be a balance going on;

- Those who have done things like BP. Eric Holder, Colin Powell, Jamie Dimon, Lloyd Blankstein– will have to pay the piper and it is about going to the Dark Rift now – that reality is hitting them square in the face which is why they want to nuke the planet and they can: they are lying, totally lying which is why they are playing with toys that are very evil and at a certain point , they just stop and they will say “Oh, shit!” because the game is over!
- then Mr 19.5\* gets to introduce us – Us are you – and we take off the V for Vendetta mask and say “How do we heal the brother who has been so wounded with PTSD he does not even know his wife and his children because they look like the enemy, when they have been programmed with

mind control?

**Mo:** Appreciates that they are already being able to tell us like the **KOE** who told us about the ones who scared Poreshenko – it was some from Andromeda!

**Mo** Poreshenko has a balloon ego that is puffed up and someone has to stick a pin in it!

**T:** You're elected, Mother! If these guys know you are here, and that their toys don't work no more, then they have to know that their money scheme is gong – and the Euro is \$1.29!?!

**MO:** it's falling apart and we have a plan: as Ramtha said, you are not going to need money anymore At the same time, we introduce you to universal economics where as members of the 33<sup>rd</sup> planet, , we get all the perks of being a member of the 33<sup>rd</sup> confederation of worlds, and we get some upgrades like the planet being declared at peace! e [she] get some perks – and she does not have to come through this body with this funny voice; yes, a few perks here and there!

**T:** thank you Mother; she appreciates having Mother around & sharing time! Abby Martin went to Gitmo

**Mo:** Gitmo is what they would like to do to us: get used to feeding tubes and guards and dogs

- Not going to play with Captain Hogan's soul any more
- Hitler has already moved on; could be friends with Osama Bin laden on the ships –
- It is all about enlightenment - there are different layers of the matrix and we are just finding out about the architect of the matrix – which is US! As we write ourselves out the matrix, we are OUT!
- It is easy as we are waking up now; It is harsh reality as she says we must be about our mother/father gods business while in this temple: and if we don't, we lose it

**T:** continues the reading of the Ramtha material

[SEE BELOW]

Starts at “How do we lead people holistically . . .

**Mo:** It is about you, and us, and all of us together

**T & Mo:** the large amount of funds that certain ones are getting is to create Findhorn in every place on the planet; we get some help in how to turn the soil – the areas of deserts never existed before;

- they can help us begin the process of terra forming again with the right technology, with the amino acid computers they have on the ships -
- the bodies and the ships are interactive? Yes, and in one sense it is like the Borg: we plug ourselves in an organic way

**T:** we need to get these bodies reversed: we all have issues and it is not that anyone has done anything wrong – there has been an imposition that has been astounding

**Mo:** it has to do with the inequality where Jamie Dimon gets to have a \$35,000 to ½ million dollar bottle of wine for lunch, and others eat TV dinners

**T:** reading They [E T s] will be everywhere!

- It is coming to the end of the haves and the have nots
- I made them a deal they cannot refuse! [words from *The Godfather* – Ramtha likes it!]
- BO is divinely inspired!
- The earth is also dynamic

**Mo:** Let my people go!

Rob Simone is an interviewer: JZ Knight was there, and Ramtha spoke through her

**Mo:** Ramtha was one of the ones at play in the great story of Mahabarata and in the story of Hyperborea, Lemuria, Atlantis

**T :** did not know that Ramtha was in India

**Mo:** At the same time, there was a reality were great empires of the intergalactic worlds [existed] and where the intergalactics were coming and going all the time; Earth was prime real estate for the taking

- the wars that were occurring were equal to what we saw in Star Wars not pretty
- they want to do this again but with very crude weapons that won't work
- so how we begin this conversation and pass the talking stick is by saying “I choose love”

Kadoish, Kadoish, Kadoish

**R:** He was on Venus, in a liquid light lake, sort of comatose there: he was just gone & does not recall much except being under water and being able to breathe! Maybe fell asleep? Something changed

**R:** Yes, he did see RanaMu today; she used some kind of magnetic wand on him; he could feel the energy of magnetics that changed his frequency, could feel them changing his DNA – it's a Wingmaker technology: He feels different - like his brain has been re-wired.

**T:** That's a good thing!

**R:** Functioning on all circuits!

**Audio:** listen to the rest of Thom Hartmann and the mushroom man!

- The presence of mushrooms in your yard is a good thing

Thom: our soil seems to be dying: agribusiness, monocultures – do we need to inoculate our soil with mycylum or just rely on revising

**Part I: An untold history of occupation, torture & resistance**

[http://img.rt.com/files/episode/2d/15/80/00/bts0309\\_480p.mp4?event=download](http://img.rt.com/files/episode/2d/15/80/00/bts0309_480p.mp4?event=download)

Abby Martin features Part I of her exclusive coverage from Guantanamo Bay Prison in Cuba, outlining the history of the notorious base and prison from 1898 to today. Some of the most egregious examples of torture committed against detainees, highlighting everything from sensory manipulation to physical beatings and sexual abuse. The detainees still at Gitmo and why over 70 prisoners who have been cleared for release remain rotting away indefinitely. Finally, interviews with Navy Captain and Joint Task Force spokesperson, Tom Gresback and Lisa Hajjar, a sociology professor at UCSB, about why the military is no longer releasing information concerning hunger striking prisoners and the ethics of force feeding 'non-compliant' detainees.

**September 04, 2014**

**Part II: Media brainwashing, sham trials & closing Gitmo for good**

[http://img.rt.com/files/episode/2d/24/c0/00/bts0409\\_480p.mp4?event=download](http://img.rt.com/files/episode/2d/24/c0/00/bts0409_480p.mp4?event=download)

Abby Martin features Part II of her exclusive coverage from Guantanamo Bay Prison in Cuba, starting with the difficulty for press to cover Gitmo due to extreme military restrictions. Lt. Col. Myles Caggins, spokesperson for Detainee Policy, talks about the absurd bureaucracy of the Periodic Review Board and why the prison remains open nearly six years after Obama signed an executive order to close it down. Several prominent Gitmo defense attorneys and a sociology professor then explain why the military trials of the alleged 9/11 conspirators have become a complete sham. Another Gitmo defense attorney, James Connell, relates the extreme secrecy and over-classification that plagues the prison and harms attorney-client relationship. Finally, how to shut down the facility in a quick and timely manner.

**Audio: Max Keiser Episode 648** 2014, Sept 02

Max Keiser and Stacy Herbert discuss the Islamic State resembling the Taliban with oil fields – i.e. a whole lot like Oklahoma. They also discuss the new Misery Index, which shows labor force participation and velocity of money plunging. Meanwhile, back in America naked incidents are on the rise and, in Europe, suicide tourism rises fourfold. In the second half, Max continues his interview of bitcoin mogul Trace Mayer about bitcoin, central banking and geopolitics.

[http://img.rt.com/files/episode/2d/1b/c0/00/keiser0409\\_480p.mp4?event=download](http://img.rt.com/files/episode/2d/1b/c0/00/keiser0409_480p.mp4?event=download)

In this episode of the Keiser Report, Max Keiser and Stacy Herbert discuss the impending second wave of the latest mortgage crisis, this time due to HELOCS (Home equity lines of credit) and HAMP (Home Affordable Modification Program) interest rate resets. In the second half, Max interviews Aaron Krowne on the true state of the housing market across America - from home ownership rates to mortgage arrears.

## INFORMATION RELATED TO THE NOTES

2014, Sept 4 **Obama is a Liar. Fake NATO Evidence. OSCE Confirms that No Russian Troops, No Tanks, have Crossed the Russia-Ukraine Border**

By Prof Michel Chossudovsky  
Url of this article:

Global Research, September 04, 2014

<http://www.globalresearch.ca/obama-is-a-liar-fake-nato-evidence-osce-confirms-that-no-russian-troops-no-tanks-have-crossed-the-russia-ukraine-border/5399457>

The following report is a slap in the face to president Obama and his NATO partners meeting today in Newport Wales.

Observers from the Organization for Security and Cooperation in Europe (OSCE) “have registered no troops, ammunition or weapons crossing the Russian-Ukrainian border over the past two weeks, the OSCE report said on Wednesday.” (Itar-Tass)

“Throughout the week, the Observer Teams noticed a net increase of young people (both men and women) wearing military-style dress crossing the border in both directions but did not observe any weapons among these groups, the OSCE Special Monitoring Mission’s report covering a period from August 20 to September 3 said.

The observers said they had regular interactions with supporters of the self-proclaimed republics. Some discussed openly with the OSCE while others expressed their total mistrust toward the OSCE. At both Border Crossing Points, some supporters of the self-proclaimed republics explained that they are not allowed to cross the border with weapons,” the report said.

The observers registered a decrease in helicopter sightings compared to last week but they were still observed at border crossing points flying at low altitude along the border.

“In either case, in as far as could be seen, the aircraft did not violate the Ukrainian airspace,” the report said. (Ibid)

The OSCE Observer Mission is deployed at the Russian Checkpoints of Gukovo and Donetsk at the request of Russia’s government. The decision was taken in a consensus agreement by all 57 OSCE participating States. (OSCE website)

The OSCE report contradicts the statements made by the Kiev regime and its US-NATO sponsors. It confirms that NATO accusations pertaining to the influx of Russian tanks are an outright fabrication.

The NATO reports including its satellite photos were based on fake evidence.

It is worth noting that the OSCE carefully categorizes movements across the border, which largely consist of refugees:

### **Cross-border movements common to both Border Crossing Points**

The profile of the people crossing the border remains unchanged and can be categorized as follows:

1. Families on foot or by car with a lot of luggage;
2. Elderly people with few bags;
3. Adults (usually of younger age) with no luggage or empty cars;

#### 4. People wearing military-style clothes with or without backpacks.

While the number of entries/exits has remained stable at an average of 6,523 per day for both Border Crossing Points, the OM has observed a clear reversal in the flow of people crossing the border. Since August 26, the majority of border crossers have been going back into Ukraine with an average net flow of minus 429 per day for both Border Crossing Points in the last week and since that day 3,857 people have returned to Ukraine through both Border Crossing Points. The statistics also show that the Donetsk Border Crossing Point consistently experiences more traffic than the Gukovo Border Crossing Point. The cross-border movements registered at both Border Crossing Points account for 43 percent of all the Rostov Region's entries/exits.

The OM continued to observe a general trend of very low cross-border traffic during the night hours. At sunrise the number of travellers slowly increases until late morning. Then, the traffic flow decreases but rises towards the late afternoon and evening. The majority of the vehicles crossing the border have number plates issued in the Luhansk region.

#### Common observations at the Border Crossing Points

In general, the situation at both Border Crossing Points is calm. People crossing the border talk to the Observer Teams (OTs) regularly and continue to describe the situation in the Luhansk region as dire. The OTs continued to receive numerous accounts of severe destruction caused by artillery fire which resulted in the interruption of water, gas and electricity supplies, the latter apparently unavailable for more than five weeks in some areas including Luhansk city itself.

Throughout the week, the OTs noticed a net increase of young people (both men and women) wearing military-style dress crossing the border in both directions but did not observe any weapons among these groups. OTs had regular interactions with supporters of the self-proclaimed republics. Some discussed openly with the OSCE while others expressed their total mistrust toward the OSCE. At both Border Crossing Points, some supporters of the self-proclaimed republics explained that they are not allowed to cross the border with weapons. However, on the other side, there are organized places where they receive weapons, ammunition and equipment and are dispatched to their assigned areas on the Ukrainian side. Upon return, they hand over weapons, ammunition and other military equipment and cross back into the Russian Federation. In the case of Gukovo, there is even a firing range to calibre the newly-received weapons before continuing to the frontlines. As described in previous reports, on a daily basis OTs hear such range-like shootings on Ukrainian territory at a short distance from the Gukovo Border Crossing Point.

The OTs observed more people wearing black t-shirts with the inscription Novorossiia (New Russia) or Luhansk People's Republic with corresponding flags. In some instances, this flag was also observed on several civilian vehicles' windshields and license plates.

Civilian people stopping to discuss with OTs often ask the OSCE to stop the conflict and to record and report their testimonies so that everybody can be aware of the situation.

#### Military movement

Throughout the week, day and night, the OTs heard the sound of propeller aircrafts in the vicinity of the Border Crossing Points. During daylight and when the weather conditions were favourable, the OTs observed the same small grey aircrafts identified as UAVs. The same flight patterns were observed at both Border Crossing Points. The UAVs were following a flight path assessed to be at the edge of the Ukrainian border on very regular schedules with intervals varying from 18 to 25 minutes. In several instances, up to two UAVs were observed in the same area at the same time.

There was a decrease in helicopter sightings compared to last week but they were still observed at both

Border Crossing Points flying at low altitude along the border.

In either case, in as far as could be seen, the aircrafts did not violate the Ukrainian airspace in the vicinity of the Border Crossing Points.

### **Observation at the Gukovo Border Crossing Point**

The traffic flow at Gukovo BCP has remained steady compared to last week, with a slight decrease in the past two days. A daily average of 2,940 entries and exits was recorded, which accounted for 19 percent of all entries/exits into the Rostov Region. The average number of people entering the Russian Federation has diminished consistently during the reporting period and the net flow has been negative since 26 August with a daily average of minus 262. This statistic clearly reflects a return movement into Ukraine. In the past week, close to 2,000 people have returned to Ukraine through the Gukovo Border Crossing Point each day.

Throughout the week, the OTs continued to hear gunfire on the Ukrainian side very close to the Border Crossing Point. As described earlier, these fire incidents were assessed as not combat-related, reportedly originating from a nearby improvised “shooting range” under the control of supporters of the self-proclaimed republics.

### **Reports of people at the Gukovo Border Crossing Point**

OTs received reports from people of Sverdlovsk (17 km west of Gukovo Border Crossing Point) about the town's situation. They reported that the town had not experienced direct fights but five houses were destroyed. Although public transport and the only hospital were functioning, for the past two-and-a-half months, there was no water. According to them, pensions and social benefits were not paid and people could not access money. Prices for common goods had increased considerably and therefore people were going to the Russian Federation every three to four days to buy first necessity products and to obtain cash at ATMs or banks. People reported that the school year was planned to start on 1 September but they did not want their children to follow Ukrainian curricula.

### **Observation at the Donetsk Border Crossing Point**

During the reporting period, the activity at the Donetsk Border Crossing Point has slightly increased compared to last week. The total number of border crossings at Donetsk Border Crossing Point consistently exceeds those of Gukovo Border Crossing Point. A daily average of 3,627 entries and exits was recorded, which accounted for 24 percent of all entries/exits into the Rostov Region. The average number of people entering the Russian Federation has diminished consistently during the reporting period and the net flow has been negative since 29 August with a daily average of minus 410. As for the Gukovo Border Crossing Point, this statistic clearly reflects a return movement into Ukraine. In the past week close to 1,900 people have returned to Ukraine through the Donetsk Border Crossing Point each day.

Throughout the week, shootings, blasts and artillery detonations were heard at various times of the day and night, and from different distances and directions around the Donetsk Border Crossing Point. Artillery detonations were especially intense during the weekend in the direction north of Krasnodon. Throughout the night of 30 to 31 August, dozens of very loud artillery detonations were heard and felt by an OT. The detonations were close by in a westerly/ north-westerly direction.

In the past weeks, artillery detonations and shootings had been heard only from western and northern directions; but throughout the week for the first time OTs reported light and heavy calibre shootings from the east and south-east areas which are also bordering Ukraine.

Throughout the week, OTs observed a net increase in activity of young people dressed in military style

crossing back and forth at the Border Crossing Point. OTs also observed some of these people visibly wounded crossing back into the Russian Federation with white bandages and/or crutches. OTs also observed transfers of more seriously-wounded persons by ambulances. Some people dressed in military style were accompanying the wounded and were particularly well-equipped including holsters but without weapons.

In one instance, an OT observed eight young men dressed in military style carrying two heavy stretchers loaded with boxes. The stretchers were visibly heavy (more than a hundred kilograms) because the groups were stopping every 30 to 50 metres to recover. The OT observed Border Crossing Point officials checking the boxes with metal detectors. The OT asked Border Crossing Point officials about the content of the boxes and was told that it was food products.

### **Reports of people at the Donetsk Border Crossing Point**

OTs received reports from people of Molodohvardeysk, Novosvetlovska (15 km south-east of Luhansk) and other places around Luhansk city. They all indicated heavy fighting and considerable damage to infrastructure and asked the OSCE to stop the fighting.

### **Russian humanitarian convoy**

The OM does not have any confirmation that a second humanitarian convoy will go through the Donetsk Border Crossing Point. During the past week, representatives of the International Committee of the Red Cross (ICRC) visited the Donetsk Border Crossing Point and met with Russian and Ukrainian border guards and customs officers. To this day, Ukrainian border guards and customs officers are still staying next to the Donetsk Border Crossing Point. In addition, personnel of the Russian Emergency Situations Ministry came to the Border Crossing Point to consult with the Russian Border Crossing Point authorities. Of significance, the OSCE is overseeing the seven point peace plan proposal to be discussed in Minsk on September 5.

2014, July 1 **Ramtha interview with Rob Simone 'An Offer that cannot be refused'**

<http://www.jzknight.com/2014/07/rob-simone-interviews-ramtha-free-audio-archives/>

This was forwarded to me: This is a verbatim transcript of Ram's prophecies given in the interview with Rob Simone, July 2014.

**Rob Simone and Ramtha: "An offer that cannot be refused"**

"Are you really going to suggest that a future society would hold status quo an environment of pollution, malfeasance of water, of environment for the sake of technology, ease and greed? Do you really think We would hold it status quo so as not to upset the general consensus? What a fool you are.

If the future people are a million years more advanced than you are, what is it to our advantage to protect you against yourself? Why would We want to not disrupt your lives when you are the ones killing the very nourishment that life is made out of? Get me? So, to answer your question, you can't get away from the Earth once your feet are squarely on it. Except for those who pay for space ships, but We'll bring them down too. No...you get to ride the hour of the Earth's discontent. And what is wonderful about that?

"It is not completely devastating, but it is the most jarring of wake up calls that says it is time politically to go to our most secret technologies and bring them out, and make them available for humanity.

"Do you know how we got to nuclear disarmament? By turning off all of your silo missiles. Not only here, but in Russia too, and around the world. We just simply appeared and took 'em offline. And then frightfully we turned it back on at our will to show you you cannot destroy the world with these. We have saved your hide many times -- for something else. And thus we have a non-proliferation nuclear agreement.

And an urgency to prevent radical nations from acquiring the bomb, whose radicalism is, "Kill them all; let God judge if they were worthy or not." Bah! Humbug! We're not gonna let that happen.

"Now, there are certain events that must take place for one to question as a society whether it is time to find a new pathway. Those are [for] purposeful good because, in purposeful good, We bring out the impossible that was always possible. That We lead countries into a new age of technology. And that as technology often is the unemployment line creator because the better your technology, the less workers you need. So it is a double edged sword.

"How do We lead people futuristically if the whole of them are without the resources for support? At a time when technology replaces the need for money, and even natural planting, as we can create it in your microwave, whatever you desire. It is a replica more nourishingly enriched than the things you ate in the polluted earth.

"How do We transfer an out of work society, ill equipped for new knowledge, for jobs that would pay them and sustain them as the gap gets bigger and bigger and bigger? We have a remedy for that, and We are about to address it. We are going to show you how you don't need money in your society at all. That will make its appearance near the end of 2014. We are going to break out secret technology. We're just gonna make it available. And by the way, as quickly as we can turn on missile silos and turn them off, We make a negotiation that you can't say "no" to...because we're everywhere.

"So the future is at once dynamic, in terms of the earth and the climate, but it's also coming to the end of the haves and the have-nots. Because the world cannot survive on the selected five hundred thousand that they choose should only live, and the rest of those 'greedy entities eating up their resources' can't. I despise those people. Everyone is a god. Everyone gets to eat at this table. Not just a select few who, by virtue of their office and their initiation, think that they are the claimants of the world. Remember, the world

in inherited by the meek. Let us brag not too highly."

"Kings and Queens were called Princes of God, that they were set in place to rule on the stead of God. We hardly find a ruler that was ever benevolent. We actually found - well, quite the opposite. So We can't count on that altogether...In those times, the tiny never saw that their voice was relevant. But their dream of liberation was there but there was no action. It is that dream, that unmanifested destiny, that gives Us a link to come back to the past and fulfill it. That's what We've been doing, and iwill continue to do, and then we will get to the heart of what We've always been.

Great revelation coming at the end of 2014, and on....

"There is a reason that the American president, and now the British presidents, or Prime Ministers, whatever they're called--from sort of a useless Royal Family. I suppose you need to still have that Prince or Princess of God. But he says that we are going off of a war footing. Now we're going into the future. That is the mark of an appointed being in destiny. To start to straighten out politics with great opposition, to [say] to the munitions builders, to the wholesalers of war: We're not going to have it..."

"In an age of discovery, We want to be discovered, as sacred information artifacts that were hidden from the catastrophes of rule. So that we as a society can grasp and understand them. We want a dream to be realized in a past civilization. That's why We do what We do until We [be]come current, to where everyone who wants to seek relevance now on [what is] called multimedia, and that the kings of religion do not hold sway any longer over the immortal soul of man.

"And the governments...how do you know you have a great ruler? How do you know? When that ruler goes off of a war footing. That's when you know you have a great ruler...that is a ruler who knows that the aliens - this is what disclaims this, of course - can turn on and off your nuclear weapons. If they have the power to do that, can they shut down your grid as well? Can they bring down your satellites? Can they change the weather? What can they do? What kind of - well what is the great quote of 'The Godfather'? I like it, 'Godfather' said, "I made them a deal they couldn't refuse".

"We are now at a place of technology. And human stupidity still likes to kill other people, play war. Now we have to play it out on a field where, where rhinestones are mined (recent Super Bowl game in New Jersey), an imitation of diamonds. A battle of two wits. And as long as you're warlike, you're only going to attract an enemy equal to your altered ego of 'best'. When that's done away with, we don't have any more enemies.

You have now got a leader who is divinely, by the way, divinely inspired. He knows about this. He knows about the nuclear weapons. He knows they are being disbanded. He is following the orders, and he is going against the popular, godallmighty dollar to do it. And they're gonna kill him? We're gonna bring them down. Watch, you'll see.

"He gets his voice because you're in an epoch now, a threshold of the future. No other president has said, "We are now off of a war footing". That's real power. And it's power; whether it is insecure, it is fundamentally based on where is he getting this at? Who, who is, who is he going to depend upon when he stands alone in saying that? Well, something else has assured him to do this... Now I'll let your imagination run wild on that one... He has had another alternative... He has an open mind, and We gave him the future. And now you make a choice, as you are leader of your country.

And the obstinance from Congress is the old school. They are the warriors. They are the sinners of faith. You cannot have religion without sinners. They are the sinners. They're not the purists. They're not the wise: they are sinners. They're still sinners; they're not wise.

"Wisdom is on a new threshold, (that says) 'So I am unattracted to this anymore. I've done it, been there. I've been all these things. I want the future. As a leader, I want the future for all my people'."
