Part One: Feng Shui Decor for Wealth

Before you start reading this ebook, I strongly suggest that you buy yourself a good compass. This is the only way to truly designate where the various sectors in your home are located. As described in the Easy Feng Shui Ebook, the main wealth drawing sectors of your home are:

The Southeast Sector Prosperity

The South Sector Fame

The North Sector Career

The North East Sector Travel and Mentor

The North West Sector Wisdom and Skills

All of the above sectors sooner or later come into play when it comes to improving ability to attract money into your life. However as today are focus is on creating money we will be mainly focusing on the SOUTHEAST sector of your home. Use the compass to find out exactly where this sector, and then start from there.

The Southeast Sector of Prosperity

Use your compass to locate the southeast corner. This is the area that is directly responsible for your cash

flow. In what part of your house does your southeast sector fall? What kind of activities are conducted there?

If your KITCHEN is in your southeast corner then you might be facing some problems. The Southeast sector is ruled by the element of water and the stove is a pretty fiery element. Water puts out fire so you might want to consider diminishing the fire element by enhancing your kitchen in other ways.

- ❖ Fill your spice racks with spices that are known to draw wealth such as basil, rosemary, cinnamon, ginger, sage and parsley. Even better are tiny pots of living herbs or large amounts of these herbs in jars lined up on your kitchen counter.
- ❖ Keep large decorative jars of liquids or oils on display to represent the water element of the Southeast corner. Olive oil is especially thought to be a money attracting substance.
- ❖ Pictures or wallpaper that feature fish, or copper molds that have a piscine theme will help draw wealth to you.
- ❖ Decorate or accent your kitchen with colors such as red, green or purple, which are associated with the Southeast corner.
- ❖ A display of copper or silver plates or cooking utensils however is very appropriate if your kitchen falls in the

prosperity corner, as their round shapes resemble coin shapes.

- ❖ Avoid setting out big black objects such as a collection of cast iron frying pans as the prosperity corner is hostile to the color black. Avoid black shelving as well.

If your BEDROOM falls in the southeast sector then you are in a fairly lucky position as it is likely that you will become quite close with your business partnership. Here on some tips for augmenting a wealth sector that lands in the bedroom.

- ❖ Make sure that the headboard of your bed is placed adjacent to either one of your North, South or Southeast walls to increase your personal potential to draw wealth.
- ❖ A crystal ball represents water. A clear piece of quartz can help you align you manifest your ambitions while you sleep.
- ❖ Try for a green, purple or red color scheme with your linens, rugs and wallpaper.
- ❖ A red, green or purple lava lamp can also help you form successful and friendly business relationships.
- ❖ Put pictures of your loved ones in round gold or silver picture frames to encourage love and wealth for them as well.

- ❖ Pictures or statues of Rabbits can increase fertility, abundance and general prosperity.

- ❖ Ivy wall paper or pots of live ivy can help increase wealth.
- ❖ Sentimental objects such as round snowshakers and glass globes filled with water and sparkles can also enhance wealth in the bedroom.

If your BATHROOM falls in your southeast sector then you might have a problem on your hands, especially if your toilet is located in that sector. Here are a few suggestions to help remedy that situation.

- ❖ The color scheme of your bathroom should be as gold and silver as possible with red purple and green accents.
- ❖ The more faucets, sprayers, water jets and other things that emit water in the bathroom the better as these objects represent incoming wealth. Strategically place mirrors so that these faucets are reflected but make sure you do not have a mirror in your bathroom that is reflecting the toilet.
- ❖ A round bath mat is better than a square one in this location.
- ❖ Avoid leaving the toilet lid open as it is a place where fortunes are considered to be flushed away. The same principle applies to drains, which should remain plugged at all times to prevent a similar loss of wealth.

If your LIVING ROOM falls in your southeast sector than you could also have a problem. Many living rooms contain objects that represent hearths such as televisions, gas stoves and real fireplaces. In order to counteract problems that could be caused by having a living room in your southeast sector try the following:

- ❖ Use a purple, green and red color scheme. This applies to lighting as well. Try using lampshades in those colors or lightbulbs.

- ❖ Pictures of fish or sailing boats are appropriate to hang in the living room as such scenes represent a successful journey to success. Make sure these are not pictures of a stormy sea.
- ❖ Keep this area very brightly lit and make sure it has access to as much natural sunshine as possible. Poverty is created in places where negative energy can accumulate such as shadowy nooks and sunken living rooms.
- ❖ Try to furnish this room with objects that have rounded as opposed to sharp or square corners. Round shapes are the best.
- ❖ Stay away from heavy stone or marble coffee tables that can act as prosperity blocks -- especially if they are big and black.
- ❖ If your living room has overhanging beams, hang hollow objects such as wooden flutes or hollow brass chimes from the ceiling to counteract these blocks to good chi.
- ❖ Enhance with area with money drawing plants such as jade trees and small fruit trees.
- ❖ Hang a string red, purple or green Christmas or novelty lights over a hearth year round to

counteract the effects of the fire energy that it is contained by the earth.

- ❖ If you hang art in this area, pastoral or peaceful landscapes that feature meandering streams and rolling hills are the best. Avoid art that appears violent, such as a picture of a great battle or a picture of a ship battling stormy seas.
- ❖ A picture or statue of a Whale is thought to bring prosperity, wisdom and longevity of descendants.
- ❖ A picture or statue of otters is thought to bring joy, protection of family and financial success and an ideal image for a living room in the southeastern sector.
- ❖ A painting or photo of a Hippopotamus represents luck, love, money and prosperity.
- ❖ A painting or statue of an elephant represents prosperity and wisdom.
- ❖ A bubbling fountain or aquarium placed in the southeast corner of your living room will enhance the water element associated with prosperity and bring you good fortune.

It is extremely auspicious for your HOME OFFICE to be located in the southeast corner of your home. Ways to augment this fortunate placement of an office even more are:

- ❖ Buy a glass desk to set your computer on. Glass or plexiglass is more in harmony with your southeastern position than a heavy black or wooden desk.

- ❖ Think **ROUND** when it comes to purchasing desk accessories. A round pencil holder is better than a square one.
- ❖ The fluidity of glass is comparable to the fluid movement of water. Feel free to enhance your career energies by placing glass vases, shelves and bowls in this area.
- ❖ This is the perfect place to install a small tabletop fountain. Avoid stone fountains and opt for ones made of bamboo.
- ❖ Place three coins wrapped with red thread or eight coins wrapped with red thread near your computer, calculator or phone to enhance success.
- ❖ Avoid office equipment that is heavy and black looking. White, silver, gold and metallic objects are more likely to increase your good fortune than big square objects.
- ❖ Try to buy a phone that is white, silver, green, red or purple instead of black.
- ❖ A sprig of "spiral bamboo" placed near your work area can help create good business chi as well as increase marketing talents.
- ❖ A statue of the Lucky Millionaire Cat (Chinese) is ideal to place in your office. This is a ceramic cat with its

right hand raised that is thought to bring good fortune to a business.

- ❖ Images or statues of goldfish are thought to bring prosperity. A poster boasting eight goldfish and one black goldfish is thought to bring protection and as well as prosperity to a business.

Part Three: Prosperity Wreathes for the Front Door

Wreathes are like rings. They represent the Universal Circle ("Let the circle be unbroken..." as the song lyric goes) and also the idea of wealth and prosperity for you and neighbors. Usually they are hung on the front door, over the fireplace or over the dining room table to commemorate special occasions or the changing of the seasons.

To make the frame for your wreath you will need strong thread, glue and branches from the appropriate tree. Try to make your wreath from branches you find on the ground, however if you can't, be sure to thank the tree if you end up breaking off any its limbs. However, probably the easiest way is to buy a pre-fabricated frame for it at Walmart or a local craft store. Most craft stores sell very nice circular frames made from varnished grapevines that look very natural and authentic.

A wreath can be complicated and hung with a cornucopia of herbs, fruits and flowers or it can be as simple as a grapevine decorated with the colors of prosperity: gold, silver, red, purple and green.

ABUNDANCE WREATH

This little wreath is beautiful, simple, classy and it smells great. Use a grapevine armature and intertwine sprigs of basil, rosemary, thyme, parsley, sage, and bay leaves. All of these herbs draw wealth to the home. You may attach small oranges or kumquats. For an added

dash of spice to your life, stick each orange with pins which have been threaded with cloves - an orange stuck with cloves is an ancient way of drawing money to you fast.

CHINESE PROSPERITY DRAWING WREATH

Use dried or fresh red, orange and yellow chrysanthemums, which symbolize the harvest, protection and money. With this one you can use a Styrofoam board backing to affix the flowers to the backing. Or you can tie them to a grapevine armature. Decorate with red ribbons.

CORNUCOPIA OF THE GODS WREATH

Take pine or spruce branches and using wire and players, twist them into a circle. Decorating this is not unlike decorating a Christmas tree, only you are going to attach pomegranates, oranges, walnuts in their shells, kumquats, pine cones, acorns, bay leaves and chocolate covered coins. I like using fresh stuff, but there are many versions of the wreath that could be made using plastic replicas of food such as grapes strawberries and oranges. Finish this masterpiece off with gold, yellow and green ribbons.

Part Four: Chinese Rituals for Drawing Prosperity

The Chinese make a habit of keeping a bowl of change near their cash register or the front door of their business to make sure that they are always attracting money into their sphere. Below are two common rituals that are used to attract wealth and most importantly create more cash flow.

THE PENNY DANCE

This is a very simple ritual of unknown origin. All it involves is setting up a goblet, vase or pretty vessel of some kind. Every day you add a penny to this vessel to ensure the proper circulation of money in your life. When the vessel is full, you start again. The single penny represents your openness to receiving more wealth in the future.

THE RED ENVELOPE RITUAL

This is a Chinese tradition that relates to the concept of tithing. Every time you get a windfall, you are to take nine cents, nine dollars or ninety dollars and deposit it in a red envelope. You can find Chinese envelopes, which are often decorated with images of pears, money ingots and goldfish in Chinese stores, or you can buy regular red envelopes. You then put the appropriate amount of money in the red envelopes and distribute them on the street for other individuals to find. It helps to write God Bless You, or Free Lucky Money, May It Multiply For You on the outside of the envelope. You may also make out nine checks to favorite charities, stuff them inside red envelopes and mail them anonymously. This ritual is about the free circulation of money in your life and is intended to be anonymously and in a way that nobody sees you dropping off or hiding the envelopes.

This little ritual encourages you to "let go" of money so that it can be replaced by "bigger amounts of money" in the future.
