HARD NEWS

T: went up to the top of the ski valley via the ski chairs to 11,000'

The **Poppy Lady** called him up from there: she confirmed

- that the Iraqi Special Forces took Fallujah back from ISIL today
- that Russian military were doing air strikes with "moderate" Syrian fighters
- that US coalition forces have been collaborating with the Russians
- Assad & Russians saying to US to get out of Syria now: we got this one, not your fight
- Russia and Assad are likely giving the US a final warning as the sidereal technology weapons given to Putin by the Andromedans will be activated & no weapons will work – in reference to US military planes: it means the pilots will have to bail out
- the elementals of fire will consume all of the dark energies now – the culmination is on Summer Solstice – June 20 [longest day, shortest night] which adds up to a 16 which becomes 7, St Germain's #
- yes, this is for the Northern Hemisphere – the Wiccans call it the death of the king – maybe the Death of the Empire
 - in the movies, *Zeitgeist*, *Estoteric Agenda* – the summer solstice is the culmination of the longest day, the shortest night; they speak of it as the death of the sun king and as we watch the days get shorter and Dec 21 is the birth of the sun king and the lengthening of the days - hard to believe the shorter days are coming soon!
- the Grand Old Pedophile party members are putting lots of distance between themselves and Trump: don't want anything to do with him. Even Karl Rove is saying Trump will have to find other work – HE WILL NOT BE PRESIDENT.
 - this is all an ugly game show: we are watching absolute maya, illusion, going on, having to do with the not nice story about the hatred against the black man in the White House
 - many people across the country are not happy with Obama being there: an issue to be faced.
- **Poppy Lady** described it as watching the absolute collapse of the Empire;
- What **Anonymous 7 ½** showed Rama yesterday
 - R went by the Police Academy, an auto junkyard is directly opposite it
 - R saw Anonymous 7 ½ who waved him over; R joined him in the junkyard
 - He pulled out a a light sabre which was 6 feet long with a lime green beam – in seconds he cut off the bumper of one of the junk cars; can cut people in half – time for the Jedi Knight action: the Holy Order of Jedi are here, and are stepping in as the story concludes for the 13 families
- Bernie has not conceded and he has not endorsed Hillary in any way shape or form
 - After Obama endorsed her, Bernie made a statement last Friday about what we're doing here, and nothing less!

In Germany today: a German court ruled and sentenced a 94 year old former concentration officer, Rheinhold Hennig, as an accessory to the murder of 170,000 prisoners in Auchwitz

- this is likely to be Germany's last holocaust trial given the time passed since end of war.
- During the trial, he denied complicity. The 94 year old defendant appeared more and more frail as the trial proceeded - he apologized, avoided eye contact with the survivors- at the end, he made a verbal apology: I deeply regret having belonged to such a criminal organization that was responsible for the death of so many people. I am deeply ashamed that I saw this injustice and just let it happen. I apologize absolutely and I am sincerely sorry. The tears were just rolling down his face.
- He will be in jail for 5 years: it symbolized what Anonymous said: this is truly the turning point: we just may have Christmas in July -
- the vote at the DNC is on July 25th the Day out of Time - there's too much synchronicity going on here to not pay respect to it.

- **Amy Goodman / Democracy Now** brought in Cornel West who is part of Bernie's team:
 - 2016-where does the movement go from here? Bernie will continue his campaign right up to the Democratic National meeting in July.
 - Bernie wanted some of his members on the planning committee of that meeting - got Keith Ellison and Bill McCibbin and Cornel West on that committee
 - Cornel West at Smith College earlier in 2016: he talked about the marvellous new militancy as a result of Ferguson - in this segment he talks of Paul Robeson and W E B DuBois

Olympic Games: IAAF has denied Russian team admission to the games on the basis that the team has been using state-sponsored drug programs.

- So have all the rest of the teams,
- Olympics have done nothing but destroy the areas of the cities where people live
- there are solutions at a soul level now - a water that has been
 - Thanks to advanced galactic help - the 19 best waters on the planet - took 6 hours to hydrate the cells: **this water takes seconds!** A genius mind that has gone past multi level marketing - it literally heals cataracts on eyes, skin problems, heals hearts -
- the goddess is alive; St Germain is a very wild man! The **Poppy Lady told R THIS IS IT - THE ABSOLUTE COLLAPSE OF THE EMPIRE:** empires go to die in Afghanistan and this one is gasping!

CONFERENCE CALL:

More about the water: website and Rainbow

Today - site to sign up free-mart.com/tarram

- Marshall connected with someone, then someone from NZ who told him about this: this is a gift while things are shifting - M studied how it works. They called on Rainbird to be the administrator, now have a tiny team like the gofundme project. Rainbird is setting up the 501c3 and the website; Marshall is the conduit in - to support NESARA'S on going -

Shiaqga – T looks up the article about this

LEMURIAN PLUG - Marshall got a Lemurian plug – he lives in Las Vegas where it is hot – turned on A/C and had it on for whole month: only went up \$3!!!

- There is one important ingredient: need individual consciousness – can't just plug it in and forget it!
- We are everyone and everything in the universe – as we raise our consciousness, everything else that relates to us is also raised.

T: something is really up in the zoo – it's exciting

Sonya: asks about the **vote rigging lawsuit**

what is this **about Jack Lew and Paul Ryan on Fox News and the financial situation**

T: it's all fake news; Scott Mowry put out an article about it – ALL FAKE! Acting like it's all official -

S: were Jack Lew and Paul Ryan on Fox News – did they appear together?

R: they can put things together to make it appear to be so: doesn't trust Fox News at all

S: more about an appearance to confuse people

R: if they did appear on TV, it's about more confusion and distraction – very criminal what these ones are doing. No respect for the Obama family. Today 2 US soldiers taken in custody – they had an M15 and a gay poster

T: it's a crime for the military to discriminate

S: can they clarify about the meeting of the Bilderbergers getting ready for WW 3?

T: that is NATO – that didn't happen yet: July 8th and 9th in Poland

S: another rumour about Obama not handling the ISIL conflict properly

T: The explanation given by John McCain: Obama is directly responsible for what happened in Orlando because he withdrew troops from Iraq in 2010 and then ISIL got started and now in Syria, and ISIL and and other people are coming to US

- John McCain and Lindsay Graham are single handedly responsible for creating ISIL
- McCain goes back to the Korean War and has his own rap sheet that goes that far back

T: story from Rainbird– one of her friends was in a McDonald's today with another friend

- person waiting on them turned around; friend said "I see you're wearing your light sabre today"
- The response was "Yeah, I wore my light sabre today"
- Yes, he had on a light sabre! He was one of the team in that place!
- The person telling her the story said maybe not everyone could see the light sabre.
 - But yes, she can see things others can't, so commented on it – she had contact!

T: another confirmation that they are going to pounce!

- R goes out and sees 10 cops in 2 blocks – after Orlando, the increased police presence in Santa Fe – Homeland Gestapo has raised the magenta alert: about fake terrorists who are really people like Cathy O'Brien

- George Bush Jr is out campaigning for GOP across the country; is trashing Trump – all about continuing the assault on the planet which began on 9/11

T: brings up the article about former CIA and civilian planet

BBS RADIO

MOTHER SEKHMET / ALCYONE [M/A]

Greetings in the Light of the Most Radiant One; in the Office of the Christ and only in the Office of the Christ, we invoke the loving energies of St Germain and the Violet flame

Greetings, Children of Ra

- Now is the time. The frequencies are so very high; it is only about love, the biggest story we've got goin' here: love answers all the questions to life's biggest mysteries. The biggest mystery we got goin' in the moment is we all wanna know when N is going to happen

T: They say Goddess is gonna trouble the water!

M/A: Indeed: as the man said, gonna wade in the water!

- it is about this story of the Aboriginal Moabite Nation, the original visitors that happened upon this small blue green dot in the vastness of the vacuum - got folks' attention with the frequency shifts that are going on, have been going on since what we call that which is termed the Big Bang.
- It has come full circle with the stories that are about the nature of the particles' life, the universe - and everything is in this moment. The answers are within us, as we bring forth our wisdom and gratitude and grace for all the issues that are being literally blown into our face.

T: That was a poem!

M/A: Indeed! It is about this grace and gratitude thing going on here, and love that answers all the mystics' dreams of the moment. This grand scheme we got going here, the greatest scheme ever, which is called love: law of vibrational energy.

- We have asked "How do we heal this story that goes so far back?" And the answer is - it is "what we think; therefore we are." Thoughts have weight, density, feeling and absolute physicality; as we work with thought form energy, electromagnetic frequency comes into play 'cos that's all this story is about: scalar waves, frequencies
- Since we are all made of vibrational energy and different forms of scalar waves: the sound is like we heard in the song **The Moody Blues** put together: The Word, and the word is "Om" - "Aho mitakuye Oyasin": To all my relations, I give thanks for this moment to be so grateful to be in our midst in this time.
- The answers are forth coming even as we are scratching our heads, asking "where do we go from here?" What is the next plan?

- What it is about is the 13 families are doing a heaven of enough job to expose themselves; we don't need to add any more to to it – they are doing just fine , creating their own graves, that they will be placing themselves in even as we speak.
 - A little ditto out there today: queenie chastised prince william for something going on, and he gave her a look like “just you wait, lady; your moment is coming” - he said nothing; since she is just a hologram, he's just playing along with the game
 - Yet we don't want to ruffle the fur of that hologram: then there would be more chaos trying to explain to folks before the Great Announcement about the Hapsburg Battenburg Jew is sitting on the fake stone of scone and she has nothing to show for it except a bloody trail.
- the **stone of scone** – the original one was a piece of the Arc of the Covenant that was carried around the sstone telosonium plates called the **ten commandments** – the Arc of the Covenant is in Lord Ashtar's safe keeping, along with the other eight arcs, and the other sidereal weapons called the Infinity Stones, the Guantlet of Power - are in King Odin's Treasure Vault in Asgard: no one can mess with them.
- the things that are going on in this realm now: it is about the fallen ones that are her children who have created such heinous crimes that she would only say: Goddess is back and they are doing a very fine job of exposing themselves for the murder and corruption that has come to this final hour. As each story that comes forth now about everything . . .
- T:** the bank that came down in Brussels ties in with the nazies, Mario Drago who did the 9/11 with Netanyahu and the Khazarians – that is a very cold being – Mr Drago has no blood in him
- M/A:** he may be one of the soulless lifeforms being used by the AI programs used by the dark side that are quickly being removed from the planet
 - part of the other program that will come down: the **Troika which is the World Bank, The International Monetary Fund** which was the cover for Dominique Strauss Kahn who still will get his karma: you do not mess with chamber maids in NYC and get away with it.
 - The story is so huge it is about, as she said earlier, the particles that began in this sacred hour as everything is returning to wholeness: all of the issues of the moment are how we can bring more love into this story.
- T:** a real freak out in Saudi Arabia: they have bought 4,000 acres divided between CA and AZ – and are using US water in 2 states to create food for their people in SA, as they are running out of water in SA.
- M/A:** it is only about 1 issue: climate change as earth is moving across the galactic plane into a new orbit and with all due respect . . .
- T:** so things will get replenished in the process, but the vibrations will be so high it will affect these ones
- M/A:** Some of the order of the slitherein sector may
- T:** there are some good ones
- M/A:** there are, yes, very much so – many of the bridge officers on her ship have scales and serve the Office of the Christ, not the old energy called Lucy in the Sky with Zirconian diamonds.
 - He [Lucifer] has already come back to love. Everything going on is the ancient, ancient program about her return – Nibiru.
 - And the issues at hand: more and more stories coming out about the Annunaki, her children, and the differentiation between those who fell by the wayside and those serving the Office of the Christ to this hour
- T: On the Big Picture today:** Sam Sax said there is a bill out there created by someone in the Congress about testing millionaires for drugs –
 - has been proven that the users of coke and hard drugs are in the millionaire class: they are snorting the stuff till there's no tomorrow – very funny!
 - they are spending unbelievable amounts of money to test those on social services in the

red states

M/A: If you are on food stamps, you have to pee in a cup!

T: now let's make the millionaires do it!

M/A: would be advantageous to see Mr and Mr Koch have to pee in a cup

T: there is some kind of Koch Bros bill to gut all disclosures, all the regulations – they are backing it about secret donations that they are sticking in to

M/A: ALEC how they twist legislation at a gut level

T: and putting the money in superpac 501c4's and big countries like China, Japan putting money in there too – and on the Faction 2 fake sites about the dinars and the donges are saying that China and Japan and other countries are sovereign! They think they can pull the wool over the eyes of everyone and talk this language – money!

M/A: saw what John Oliver did: took \$15 million and forgave \$400 million of health care bills

T: he only had to use \$60,000 of his own money and it ended up forgiving of \$15 M of loans for everyone.

- if there were a good heart in a multi-billionaire class of people and they did that, they could turn things around – about people dying

M/A: there is one person who could do this – Captain Kirk – Wm Shatner: send him more love

T: He has a big burden that he hasn't been owning up to

M/A: it is only about the story called love and how many ways we can work with this

T: the proverbial fecal matter is hitting the oscillating device, and we must be in the neutral place: the eye of the storm – unconditional love - remain calm - not involved in the realm of the sith

M/A: no going down the dark path; we've had enough milleniums of having to figure that one out to keep this planet intact! Here we are: full circle with this cosmic grand scheme of everyone waking up and . . .

T: Jo Cox – Didn't Rama find out that Tony Blair, David Cameron, Gordon Brown were involved?

M/A: and don't forget Goerge Osborne – he is up to his crown chakra in her blood!

T: they had her assassinated by programming a 52 year old with

- she was pro-Palestinian, pro-Syrian refugeess – was from northern England riding where it is multi-cultural etc – she was a real light
- the immigration issue/ the refugee issue has to do with Brexit: she wanted Britain to stay in the Euro zone and take equal responsibility which is not what was wanted.

M/A: all has to go, as it's fake1

T: don't grieve – ain't gonna grieve my lord – Mother! - no more

M: only that at this time

T: this happened - Mitt Romney last week in Salt Lake City – had a summit. The treasonists were there – what's going on? Are they plotting something else we don't know about?

M: many rumours out there – as the dyed hair piece has to take a dive, and he is.

T: 70% of repubs don't like him; has lawsuits; has no money

M/A: There is a price on his head

T: the network CEOs are not nice – making lots of money off him and what he says to the people

M: this is the biggest challenge at this time, to work with the frequencies of love and peace and harmony in this most inauspicious time which is so auspicious for change.

- Love always wins ~ that is the order of the day.
- the balance of power in this segment of the solar system has shifted: love always wins - the dismantling of this eons of the 26,000 year cycle as she has returned.
- all the explanation of genetic DNA engineering and the dumbing down of humanity from 12 strands to 3 or 1.5 if you are a low information voter who thinks Trump is the greatest thing since sliced bread.
- as she has been prophesied about showing up: she comes and takes no prisoners – it's the story of the Nile River that was filled with beer to get her drunk so she would stop the killing – it is a parable yet it is a story about the issues at hand where humanity has taken it to the level of degradation that she must come and use the cosmic vacuum cleaner to remove the debris in this sector of the solar system.

- It entails a few good folks from the Nibiru, and how many millions of ships from the Ashtar Command and the legions and legions of heaven? She can give no answer as to the number of ships out there – more than 40 zeroes and then some!
- It is only about
 - “Lord, make me an instrument of thy peace;
 where there is such hatred, let me sow love
 where there is injury, pardon
 where there is darkness, light
 where there is sadness, joy.
 - O Divine Master, grant that I may not so much seek
 to be consoled, as to console
 to be understood, to understand
 to be loved as to love
 - For it is giving that we receive and in pardoning that we are pardoned.
 It is in dying to the self that we are born to immortal eternal life”
 NOW!

- and that is what is taking place in spite of all the distractions; she could talk till midnight of all the distractions that have everyone going sideways and up and down.
 - it is all about the Gauntlet of Power and what it gives the receiver.
 - You cannot use the Gauntlet of Power except with the frequencies of balance, joy, grace and peace: it cannot be used because it is a creation device, not an instrument of destruction
 - Yes: it is an arc: plasma energy in its most primordial form.

T: one of them is the ancient drum that makes a sound like a solfeggio tone that opens the the arc of transformation when you sound it.

M/A: It is the sound of one hand clapping: the time is nigh – need a lightening up of the spirit here – she'll be on her way!
 • Col Laurence Wilkerson is on, asking why are Bush and Cheney still walking?

Greetings in the Light of the most Radiant One. Kadoish, kadoish, kadoish -

M: Everyone - Orlando is in the circle; justice is here: it is about the return of the Goddess, the Black Madonna. Enshallah! Peace be upon you.

R: Was in Temple of the Sun – all the Aztec dancers in the etheric/physical were dancing there and raising the frequencies; all the ancient technology sites are being fully activated now.

- Heard about a place today from Rana Mu about 1.5 hours south, Star Axis – if you go look at this place on the net, it's a place that can be visited – it's on the map: but only special groups can go in – have to get in touch with the owner – It's an observatory device [staraxis.com]; can look through a physical portal with different chambers: a star chamber, an earth - can look back into 26, 826 years of earth's history and can see the various changes in the way –
- R thinks it's another kind of energy vortex kind of place – has been building it since the 60s – Wm. Shatner knows about this place, and has visited with Leonard Nemoy – can work with the frequencies of the stars. It's aligned with the star Polaris – also lined up with Temple of the Sun, the moon in Tikal, Guatemala [as in the Keys of Enoch and all the vortex places on the earth – it is overlighted by The Dove]

T: The Dove overlights the whole of North America
 It's 5,000 miles in diameter and is LM Athena's ship.

A former CIA and civilian pilot has sworn an affidavit, stating that no planes flew into the Twin Towers

A former [CIA](#) and civilian pilot has sworn an affidavit, stating that no planes flew into the Twin Towers as it would have been physically impossible. The statement has gone viral in the [conspiracy world](#)

John Lear, the son of **Learjet inventor, [Bill Lear](#)**, has given his expert evidence to [Project Camelot.org](#) that it would have been physically impossible for Boeing 767s, like Flights AA11 and UA175 to have hit the Twin Towers on [9/11](#), particularly when flown by inexperienced pilots:

'No Boeing 767 airliners hit the Twin Towers as fraudulently alleged by the government, media, NIST and its contractors', he claimed in the affidavit. 'Such crashes did not occur because they are physically impossible as depicted, for the following reasons: in the case of UAL 175 going into the south tower, a real Boeing 767 would have begun 'telescoping' when the nose hit the 14 inch steel columns which are 39 inches on center.

'The vertical and horizontal tail would have instantaneously separated from the aircraft, hit the steel box columns and fallen to the ground.

'The engines when impacting the steel columns would have maintained their general shape and either fallen to the ground or been recovered in the debris of the collapsed building. 'No Boeing 767 could attain a speed of 540 mph at 1000 feet above sea level 'parasite drag doubles with velocity' and 'parasite power' cubes with velocity.

The fan portion of the engine is not designed to accept the volume of dense air at that altitude and speed.

The piece of alleged external fuselage containing 3 or 4 window cutouts is inconsistent with an airplane that hit 14 inch steel box columns, placed at over 500 mph. It would have crumpled.

No significant part of the Boeing 767 or engine could have penetrated the 14 inch steel columns and 37 feet beyond the massive core of the tower without part of it falling to the ground.

'The debris of the collapse should have contained massive sections of the Boeing 767, including 3 engine cores weighing approximately 9000 pounds apiece which could not have been hidden. Yet there is no evidence of any of these massive structural components from either 767 at the WTC. Such complete disappearance of 767s is impossible.'

The affidavit, dated 28th January 2014 is part of a [law suit being pursued by Morgan Reynolds](#) in the United States District Court, Southern District, New York.

In March 2007, Reynolds, a former chief economist under the George W Bush administration filed a Request For Correction with the US National Institute of Science and Technology citing his belief that real commercial jets (Boeings) did not hit the WTC towers.

Although many, including the 9/11 Truth movement initially rejected the 'no-planes' theory as too outlandish, with proponents such as John Lear it is gathering traction.

John Lear, the son of Learjet inventor, Bill Lear, has given his expert evidence to Project Camelot.org

Unlike any other form of statement, an affidavit becomes truth in law, if it is not rebutted. It will now be up to critics of the theory to present their evidence and analysis to rebut the statement point by point. If they do not – or cannot – then the US government will by omission be allowing that the account given by the 9/11 Commission is wrong.

The 65 year old retired airline captain and former CIA pilot – who has over 19,000 hours of flight time -- also drew attention to the inexperience of the pilots who allegedly flew the planes:

'The alleged 'controlled' descent into New York on a relatively straight course by a novice pilot in unlikely in the extreme because of the difficulty of controlling heading, descent rate and descent speed within the parameters of 'controlled' flight.

'It takes a highly skilled pilot to interpret the "EFIS" (Electronic Flight Instrument Display) display, with which none of the hijacker pilots would have been familiar or received training on, and use his controls, including the ailerons, rudder, elevators, spoilers and throttles to effect, control and maintain a descent.

Lear has, according to his sworn statement, flown over 100 different types of planes during his 40 years of flying and holds more FAA airman certificates than any other FAA certificated airman. He flew secret missions for the CIA in Southeast Asia, Eastern Europe, the Middle East and Africa between 1967 and 1983 then spent 17 years working for several passenger and cargo airlines as Captain, Check Airman and Instructor.

He is a member of [Pilotsfor911truth.org](#), which has consistently argued that it was impossible for jet airliners to have hit the Twin Towers in the way the 9/11 Commission has suggested. The Commission did not take evidence from pilots when it conducted its enquiry into the attacks from 2002 to 2004.

2016-06-12 Racketeering Lawsuit Exposing Nationwide Vote Rigging in DNC Primaries Could Derail Clinton

[Jay Symopoulos](#)

Corte Madera, CA – A major lawsuit is on the precipice of being filed by the [Institute for American Democracy and Election Integrity](#), the implications of which could dramatically alter the landscape of the 2016 U.S. presidential race.

The group claims that in about eleven states, there has been noted a significant difference between the exit polls and the electronic vote totals presented on the morning after the primaries. These differences show votes appear to be shifted from Bernie Sanders to Hillary Clinton. The chances of this kind of shift happening are considered to be statistically impossible between Tuesday night and Wednesday morning in these eleven states. See the chart below.

"We are going to be filing a racketeering lawsuit under the Ohio Racketeering law, the strongest in the country and we can bring in every state, our RICO statute is coextensive with the federal RICO statute... So they're nailed," said Cliff Arnebeck.

Arnebeck, an election lawyer, got his J.D. from Harvard and is the chair of the Legal Affairs Committee of [Common Cause Ohio](#) and a national co-chair and attorney for the Alliance of Democracy. He will be joined by Bob Fittrakis, an election lawyer and political science professor, as co-counsel.

Computer security expert Stephen Spoonamore, who worked with Arnebeck on [exposing GOP election fraud in Ohio has noted](#) that when exit poll data varies more than 2% from electronic vote totals, the electronic vote totals are questionable.

In fact, 2% is the boundary by the US government when determining whether an election in another country has possibly been stolen. **Please notice the exit poll differences in the 2016 DNC primaries listed above are significantly more than 2%.** These differences point to questionable results for the electronic vote totals and likely electronic vote switching.

"This is not a Republican-Democrat issue, this is not a partisan issue, this is a Democracy issue, if you actually care about a Constitutional democracy in which each person votes, that vote is validated and the people who end up in office are reflected on the basis of the way people voted you care about this issue," said Spoonamore.

According to the Institute for American Democracy and Election Integrity:

IMPORTANT NOTE: Although we have taken note of the shift here from Sanders to Clinton, we are NOT in any way stating who has done the shifting. WE DO NOT KNOW WHO HAS DONE THE SHIFTING OF THE ELECTRONIC VOTE TOTALS. This situation has galvanized three organizations, The Institute for American Democracy and Election Integrity (ADE) , the Columbus Institute of Contemporary Journalism, and Democracy Counts to set up our own exit polls and audits to track apparent election results in California.

Richard Charnin, a mathematician and statistician and author of the book, Matrix of Deceit, has been reporting on the apparent shifting of electronic vote totals and the non-release of raw data from Edison since 2004. Richard Charnin, well-known for what he calls the "Red Shift" which has been a shift between exit polls and electronic vote total differences of about 4-5% each year. This constitutes a shift to the political right. Although he is unable to analyze the raw data, he has been able to get **screen shots of what the exit polls showed minutes before all of the electronic votes have been totaled since 2004.**

In 2004, when Edison Research initially got exit poll data that said that Kerry was winning and Bush was losing at 9pm on election night and that the reverse was true shortly after midnight, Edison Research made a choice to "adjust" the raw data after that time so that it would match the electronic voting machine totals. Edison Research definitely wanted to keep being hired by the Media Consortium which proposes to tell viewers the true election results but which also chooses to trust electronic voting machine data. That was the last time that the American public has been able to see

raw exit poll data.

Unfortunately this year, substantial exit poll differences have been noted in the US primary. In this year's primary, the Red Shift appears to have become the "Clinton Shift".

Arnebeck was the lead attorney, with Fitrakis as his co-counsel in the *King Lincoln Bronzeville v. Blackwell* case, which [exposed electronic vote rigging](#) in Ohio's 2004 presidential race. During the lawsuit, a very revealing deposition of Michael Connell, head IT guru for the Bush family and Karl Rove, provided insight into how the election fraud conspiracy operated.

According to a report by [Truth-out](#):

Connell served as the IT guru for the Bush family and Karl Rove. Connell ran the private IT firm GovTech that created the controversial system that transferred Ohio's vote count late on election night 2004 to a partisan Republican server site in Chattanooga, Tennessee owned by SmarTech. That is when the vote shift happened, not predicted by the exit polls, that led to Bush's unexpected victory. **Connell died a month and a half after giving this deposition in a suspicious small plane crash.**

One can clearly see how deep the rabbit hole goes, as the one person who could implicate the actual individuals responsible for the election fraud conspiracy happens to have an "accident" that kills him. Essentially the investigation could go no further upon the suspicious death of Connell, thus protecting those behind the conspiracy.

Given these facts, it's apparent that Arnebeck and his team are the real deal, and have experience in bringing a major legal action involving voter fraud and electronic vote rigging/switching.

Initially, the new lawsuit was to be filed on June 6, as stated in the video release announcing the results of their investigation, but the filing was delayed due to ADE wanting to include data from California's primary, which was held on June 7.

Suspiciously, the Media Consortium and Edison Research, which control election polling, has now decided to cancel the remaining exit polls for the 2016 primaries. Many suspect these exit polls have been canceled because these exit poll differences could be used as an indicator of election fraud when contrasted with electronic voting totals.

"There is no way the Democratic Convention is going to nominate somebody on the basis of obviously stolen votes...the facts are coming out and that's a fact...We are suing the media as being complicit in the crime. They are acting as accessories after the fact. They are covering up evidence of criminal activity, it's a crime," said Arnebeck.

In my opinion Hillary Clinton has been used for the purpose of scuttling Bernie Sanders campaign for president, she is being used...but they've been caught, it's obvious, it's just like Bernie Sanders when he talks about the system is rigged, ah the elections are rigged, the evidence is clear, everybody's gonna see it and the game is over...Bernie has won in fact..."

The fact that electronic vote rigging is currently taking place, while the mainstream corporate media remains curiously silent, indicates a massive fraud being perpetrated on the American public. Make no mistake, had the vote been closer in the GOP primary the nomination would likely have been stolen from Trump in the same manner. This isn't a partisan issue, but one that slashes

across the political spectrum and should alarm every American.

The time has come to ask ourselves who is behind the stealing of U.S. elections, and maybe more importantly; why does nobody in a position of authority seem interested in finding out?

In the video below Arnebeck breaks down how they prevented the Ohio presidential race from being stolen in 2012 and explains exactly what is taking place in this election cycle.
